Lauterbur spurns Elliott ultimatum: fired

By ROY DODRICK

University of Iowa football coach Fran A. Lauterbur announced Tuesday he had been fired by Athletic Director Forest Eades Tuesday after a meeting with the board of trustees in Iowa City.

"I have absolutely no quarrel with it," Lauterbur said. "It was a decision made by the trustees, and I respect the trustees for making a decision." He added that he was not surprised by the firing.

Lauterbur, 46, said he discussed his resignation with the board of trustees before the meeting, but a motion to fire him was voted on and approved by the board.

Lauterbur, who has a record of 70-58-3, will be replaced by assistant coach Greg Schmitt, who has been named interim coach.

The trustees also approved a new contract for Schmitt, who has been with the team for 10 years.

The decision by the trustees was made after a series of meetings earlier in the week, during which Lauterbur expressed his desire to remain as coach.

Lauterbur said he was disappointed by the decision but respected the trustees for making the difficult decision.

"I understand the trustees' decision," Lauterbur said. "I respect their decision and I will follow their decision." He added that he would do his best to clean up the mess that the team has been in.

Kennedy leaves legacy of opportunity, involvement.

One newsman said it all. "He bore no man lasting grudge or envy; and his readiness to love was infectious."

"President Kennedy..., second the very symbol of the vitality and the enthusiasm that animated the nation..."

The unanswerable question of how much has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today, is how much of what has happened in the last few months, or even in the last year, in the political sphere today.

He had the ability to make people feel good. It may have been his ability to instill this, what John Kennedy was and how he will be remembered, nothing we could not accomplish.

U. Iowa Athletic Director Bump Elliott stepped back in a chair in the Sports Information Department office in the Dome today and said, "It's not something I want to talk about right now.

This certainly wasn't a day like any other for Elliott, who is vice chairman of the Big Ten Conference. He said, "I'm not going to talk about it.

This is the second coaching change the Hawks have experienced in as many years. A year ago, Iowa State's Jim Tatum was fired.

"I'm not going to talk about it," he said. "I'm not going to talk about it.

"It's a very sensitive subject," Elliott said.
