Democrats blame President for filibuster against publicly financed campaigns bill

WASHINGTON (AP) - Democratic supporters of publicly financed presidential campaigns said Sunday President Nixon is responsible for the Senate filibuster against it.

Their charge came after they failed in an extraordinary Sunday session to break the impasse that has left the federal debt \$63 billion above its legal

Supporters of public financing fell seven votes short of mustering the two-thirds needed to invoke cloture and force action. They acknowledged they face an uphill battle in subsequent tries scheduled Monday and Tuesday.

The vote was 47 to 33 for cloture, one of three votes at the first scheduled Sunday session in 112 years.

The filibuster was created by the determination of Sen. James Allen. D-Ala., to take advantage of the Senate's unlimited debate rules to balk a vote on the bill that combines an extension and increase of the debt ceiling with the campaign financing rider.

Allen said a provision providing public financing for presidential primaries is "a federal handout to some one score or more presidential

Sen. Walter F. Mondale, D-Minn., charged that "The real opponent to cloture and to cleaning up American politics is not Jim Allen but Richard

He said Nixon wants the Senate "to disregard the lesson of Watergate" and kill the public financing measure without his having to veto it.

Sen. Russell B. Long, D-La., floor manager of the bill, called on Nixon to publicly oppose Allen's filibuster, saying the Alabama Democrat couldn't succeed "if the man who sits in the White House did not want that kind of filibuster to succeed

If Congress passes the bill. Nixon

could still veto it, Long said, adding, "in my judgment, we won't have the votes to override the veto and would eventually have to yield.'

He pledged that, in that event, Congress would promptly pass a bill limited to an extension and increase of the legal debt limit, which dropped to \$400 billion Friday night though the actual debt is about \$463 billion.

The Treasury Department has already suspended sales of government bonds, and Long said "an extremely serious situation" could result by midweek unless some action on the debt limit is taken.

The measure would require 1976 presidential nominees to finance their campaigns from a fund to be created by a checkoff plan, under which taxpayers can earmark \$1 of their income taxes for the campaign. It sets a \$21 million general election spending limit.

For primaries, it establishes a mat-

ching system whereby candidates who raise at least \$100,000 to start with could get up to \$7 million to match what they raise privately.

Supporters of the public financing plan repeatedly cited the need to clear up abuses spotlighted by the Watergate scandals. "If Watergate hasn't shown the need for it." Democratic Leader Mike Mansfield said, "I don't know what the hell will.

Sen. Sam J. Ervin Jr., D-N.C., chairman of the Watergate Committee and a foe of the financing proposal, said it "would bring on the scene 100 different candidates who would try to get money out of the federal coffers.

On the cloture vote, only seven Republicans joined 40 Democrats in voting to cut off debate. The opponents were 10 Democrats and 23 Republicans. Absentees would not have significantly changed the outcome.

December 3, 1973 Iowa City, Iowa

UI didn't heed energy warning

By LEWIS D'VORKIN

University of Iowa officials were warned eight years ago that reliance on gas and oil for energy production may prove uneconomical and troublesome to the institution.

These conclusions were reached by Physical Plant Director Duane Nollsch in 1965 following recommendations by a consultant firm-Sargent and Lundy-that the UI should install oil-gas boilers to produce energy

"We in the Physical Plant have reservations concerning the recommendations by Sargent and Lundy that we purchase" gas-oil fired boilers rather than coal fired boilers. Nollsch said in a 1965 memorandum to Elwin T. Jolliffe. UI business manager.

The memo states that although Sargent and Lundy believed oil-gas burners were more economical for the university than other boiler systems, 'the savings credited to these burners would be something less than predicted because of a more extensive use of oil.

"We feel that coal-gas boilers would

.....1.00

be the most economical over the long-run to the university," Nollsch said in the memo. "We would then be able to use the two lowest cost fuels with the choice remaining ours and the competition of coal vs. gas would be maintained.

Despite Physical Plant's objections. the university and the Board of Regents approved a plan to install two oil-gas

A third burner was approved after similar recommendations were made by a second consultant firm-Stanley Consultants, Inc.-in 1968.

But now, eight years later and in the midst of an oil-gas shortage, the university is recognizing that Physical Plant representatives were correct. UI officials will ask the Iowa Legislature in January for \$3 million to construct a

coal-gas boiler. "When people were telling us there were 18-20 years of gas reserves and don't think what they (the consultants) the National Coal Association to say is quite right." Nollsch told The prepare a report for the university. As

"But I didn't have enough facts, or people to help me gather the facts, to refute the regents," he added. "What I had was a gut feeling.

In the memo itself, Nollsch said, "It's our opinion the picture would be quite different and would favor coal" if Sargent and Lundy's study were carried to a 20-25 year period rather than a 10-year period (which is the normal time span used in making economic studies of power plants).

When first suggesting that the UI produce energy with oil-gas boilers, Sargent and Lundy estimated oil would be needed during three winter months and gas would be available for the remaining nine months.

Stanley Consultants, Inc.'s 1968 report lowered that estimate to four months of oil and eight months of gas.

"Hell," Nollsch said. "I was never getting gas for those periods of time." After Sargent and Lundy issued its 300-500 years of coal reserves, I said 'I suggestions, Nollsch said he requested might be expected, this organization

recommended that the UI continue to burn coal.

But the university, which burned 100 per cent coal through 1962, apparently ignored the association's suggestions.

What particularly disturbed Nollsch-who calls himself a "coal man"-about the use and construction of oil-gas boilers, was that they could in no way be converted to burn coal if

"If you can't get oil and gas you have to throw the boilers away. I thought this might happen some day (gas-oil shor-tage), and that's why I didn't want to get tied to oil.'

Physical Plant personnel also feared "if gas-oil boilers were installed, all subsequent boilers will be gas-oil... since the pattern will have been set.

Although Nollsch and Physical Plant representatives disagreed with the move to oil-gas, Nollsch said, "With the economics of the time, they (adchoice." Construction costs for coal boilers are approximately three times the cost of oil-gas burners.

shot during Iowa's season opener. The Hawks Tuesday in the Field House. Suggestions offered for conserving heat in your home

Use less but use it efficiently, check registers for free flow of hot air and, of course, turn down the thermostat to at least 68.

Survival Services Editor

This week's Survival Services feature deals with heat conservation in the home. Whether you live in a house of your own, an apartment or a dormitory, there are things vou can do to decrease the amount of heat energy you require for comfort.

The sacrifices one must make may in many cases be nominal, but if everyone makes an effort to conserve heat energy the effect may be substantial.

We've been fortunate so far this winter. The temperature has been unseasonably warm, people have naturally been able to get by using less fuel, and the shortage crunch has not really been felt locally, yet. A few brave souls are even still canoeing daily on the Iowa River.

But it's bound to get cold sooner or later. and when it does there may not be sufficient quantities of fuel to keep everyone

warm if conservation is not practiced now. Whether the energy crisis is artificial or not, and regardless of the wasteful practices of others, all persons should recognize the importance of doing what they can to limit their own consumption of what are, ultimately, limited resources.

We'll give you a few ideas for simple and economical measures vou can take immediately. Hopefully, every reader will consider the energy problem on a higher level as well and encourage their congressional representatives to take appropriate action for conservation and fair allocation of fuel on the national level.

There are two basic solutions to the energy problem: use less, and use it more

Until very recently, efficiency was measured as a function of cost. If it were cheaper to use more fuel than to insulate or take other measures to lower consumption, then it was more "efficient" to use the

Today, almost any measure you can take which will result in the need for less heat will soon pay for itself. We've reached a point in time where cost is only one factor to consider; we simply must find ways to use less, or be prepared to one day

Most of our readers do not own the place they call home. Consequently, expensive projects such as improving insulation or revamping furnaces would not be feasible. As the cost of fuel rises owners may be inclined to take such measures, but there are other things which tenants can do which cost very little, if anything at all.

The most obvious, of course, is to turn down the heat. You should do more than

simply adjust the thermostat, though. First of all, you should determine Whether your thermostat is accurate. It does little good to turn the thermostat

than the actual temperature. Check your thermostat against an indoor thermometer, and adjust it so that the temperature in your home is no higher or lower than you intend it to be.

You'll find that you can really be comfortable at reduced temperatures if you give your own system a chance to adjust to the change. Turn the thermostat back just a couple of degrees to begin with, and after 48 hours or so turn it back two degrees

or so, you may hardly notice the change. People in other countries never heat their homes to 70 degrees and suffer no

At the same time that you reduce your heat intake you should do what you can to ensure that you use your heat to its best ad-

Check every hot air register in your home and make sure that heat is permitted to flow freely. Carpets, drapes, and fur-

If you stretch the reduction over a week

needed will help force heat into other areas where it can be used more effectively. You may also find that in some areas of your home less heat is desirable. Some people prefer to sleep in a cool room using

pediments to heat flow wherever you find

You should consider each room in your

home individually and decide whether you

are heating it to your best advantage.

Some rooms, such as the kitchen or those

near the furnace, need little if any heat at

You may find that energy emitted from your refrigerator condensor and your

range will keep your kitchen warm even when you shut the hot air register com-

pletely. Closing vents where they are not

extra blankets to keep warm. You may find it pleasant to keep temperatures lower in recreation or sudy areas as well.

Whenever you can close a register you succeed in reducing somewhat your intake of heat energy and permit your furnace to

down to 68 if it consistently reads lower niture may all block hot air from cir- more efficiently warm other areas in your culating about the room. Remove im-

While checking each room to determine whether registers are blocked or should be closed, you should also check doors and windows for obvious air leaks.

Use your hand to detect drafts, and check again when the wind changes. You may find that tacking plastic over an old window, or installing weatherstripping around a door, will do quite a bit to increase your heating efficiency.

We would also urge those who can to humidify their homes. An inexpensive humidifier will contribute greatly to your health and comfort. It'll also make you feel warmer. When the air is dry and body membranes are dry, evaporation of moisture from the body increase. This process has a cooling effect.

When humidity is low you feel cooler than you would at the same temperature if humidity were higher. If you add moisture to the air while lowering the temperature you may never feel any discomfort.

in the news" briefly

Juan Corona

VACAVILLE, Calif. (AP) - Juan Corona, convicted of murdering 25 migrant workers, was stabbed 32 times in an attack in his prison cell, authorities said Sunday.

Corona was listed in satisfactory condition after three hours of surgery that included removal of his left eye.

"Barring complications, there is no longer any threat to his life," said T. L. Clanon, superintendent at the California Medical Facility at Vacaville. He added that, "barring com-

plications, the sight of one eye is preserved."

Corona was found in his unlocked cell in the medium security wing at 10:50 p.m. Saturday and was rushed to the hospital for surgery.

Clanon said four suspects were in custody, but refused to identify them or provide other details.

Nixon

WASHINGTON (AP) - President Nixon paid \$78,651 in federal income taxes for the years 1969 through 1972, White House documents showed

The still-confidential documents, being prepared for release this week as part of the President's "Operation Candor," list the biggest

payment, \$72,686, as being made for 1969.

Nixon was listed as paying \$4,298 for 1972, \$878 for 1971 and \$789 for 1970—the years he claimed substantial deductions for state property taxes. mortgage interest and donation of his vice

In addition, the documents indicate that soon after taking office Nixon paid \$38,646 in taxes on his 1968 income. And they show that the government withheld \$30,816 from his paycheck in the first five months of this year for his yet-to-be-calculated 1973 taxes.

Dylan concert

SAN FRANCISCO (AP) - Concert halls were reserved anonymously. Arrangements were worked out clandestinely. But one of the best-kept secrets in rock music is out: Bob Dylan is making his first nationwide tour in eight years.

In the casual style that has become his trademark, Dylan's comeback was announced in newspaper advertisements in 21 cities which said simply "Dylan-The Band" and gave details about buying concert tickets.

The master plotter of Dylan's comeback is promoter Bill Graham, who managed to reserve nearly two dozen top concert halls across the country without telling their owners the name of the show's star.

Proxmire

WASHINGTON (AP) - Sen. William Proxmire said Sunday night President Nixon's energy proposals are not sufficient to avoid severe fuel shortages and suffering this winter. He said fuel rationing was necessary.

Issuing the Democrats' official response to President Nixon's speech a week ago, Proxmire said on a special CBS broadcast that rationing was "so bad that I would want to get rid of it as soon as we possibly can."

Proxmire, arguing for rationing, said many experts in the administration supported it and '125 top oil executives say we should have it and

And, indicating the need for quick action, he said: "Every day that we postpone putting a program into effect that will meet this shortage is costing us hundreds of thousands of barrels of oil and that means a cruel shortage this winter." 'Whatever we do to meet this shortage is going to be painful and costly," Proxmire warned.

'Lamb' chops

WASHINGTON (AP) - The lawyer for President Nixon's personal secretary, Rose Mary Woods, said Sunday night Miss Woods is unhappy with how White House lawyers represented her in November in the White House

Charles S. Rhyne said Miss Woods "is unhappy

with what the White House lawyers said in court," when they represented her in the case involving the 18-minute gap in a presidential tape recording.

"She disagrees with what they did for her," Rhyne said.

He said White House lawyers represented Miss Woods from Nov. 8 through Thanksgiving day, at which time Miss Woods called him to be her lawyer. He took over the next day.

Newsweek magazine, in this week's edition, said Rhyne told a friend that White House attorneys were throwing Miss Woods "to the wolves" and had sent her to court "like a lamb to the slaughter."

50s Cool

Unseasonably warm weather broke records all across Iowa Sunday afternoon as temperatures soared well into the 60s in much of the state.

Today will be cloudy and colder, with a chance of showers. Highs today should be in the 50s, with

lows tonight in the upper 20s. Highs Tuesday will be in the 40s.

University towns continue to pay cash for blood bank contribution

By MARY WAGNER **Staff Writer**

Iowa City and other university communities are the last strongholds of cash-paid blood donations, according to Dr. W.S. Pheteplace, director of Community Blood Banks in Davenport, and member of the Iowa Association of Blood

Over 50 members of the Association met in the Michigan Room of the Union Friday to discuss the issue of "free or paid blood."

Representatives said that blood banks are phasing out the cash payment of blood contributions because of the incidence of serum hepatitis among paid donors.

The disease cannot be screened at the time the blood is taken from the donor. Coming originally from a contaminated needle or a previous transfusion, it frequently turns up in heroin addicts and skid-row alcoholics.

In large cities, these are sometimes the people most likely to sell their blood. Used in a transfusion, the contaminated blood could be fatal to the receiver.

However, "Iowa City has a safe paid blood program," said Dr. Pheteplace. "In are good recruiters who can get enough

a place like this you get good, conscientious donors. There's almost no risk in-

Even so, 90 per cent of the blood used at University Hospitals does not come from paid donors. Most hospitals' blood supplies now come mainly from blood assurance

According to Dr. Pheteplace, the two agencies most involved in blood donation. the Red Cross and the American Association of Blood Banks, are at odds on the issue of blood assurances.

There are two types of blood assurance programs. The Red Cross program asks each community member to donate a small amount of blood. Donations are organized into a community "pool" from which anyone can draw blood when needed, free of charge.

"Of course there is a charge for blood preparation. But the patient is not asked to pay for the blood he's used if he doesn't find other donors to contribute in his name," Dr. Pheteplace said.

Opponents to the Red Cross program feel it is workable only in areas where there

people to participate.

The Community Blood Banks program, administered by the American Association of Blood Banks, emphasizes individual and family responsibility more than community action. Patients who have previously joined the program by donating blood are not charged when they need it. Patients who haven't joined the program are asked to find other donors to pay off their "debt" or are charged with a 'responsibility fee.'

Iowa City's Veteran's Hospital uses Red Cross blood almost exclusively. Mercy and University hospitals use a combination of blood from Red Cross, Community Blood Banks, and paid students.

"In a small town like Iowa City we take it where we can get it," said Dr. John Koepke, vice chairman of the pathology division of University Hospitals.

Dr. Pheteplace said the Friday discussion of blood assurance was a response to President Nixon's call earlier this year for a nationally organized blood bank system. No specific plans affecting blood donation programs at Iowa City

Intramurals: who's at fault?

The University of Iowa department which draws the most student participation-Intramurals and Recreation-is now threatened with the possible cancellation of numerous athletic events.

Already, one of the favorites, the pre-holiday basketball tournament, has been cancelled because of a lack of funds. It also may be necessary to cancel volleyball, softball and indoor track, and even close the Recreation Building during the summer months if the needed finances cannot be obtained.

The reasons for the existence of this situation are quite familiar and are found in most university departments. They are rising costs; increased programming; increased participation in scheduled events; and budgetary cut-

But there is still hope the Intramural department will be able to service students and not decline to its low stature of five or six years ago. For even if intramural administrators do not receive needed money from the central administration, they may still vote against cancellation of athletic events and institute entry fees to be paid by the

Of course, this is not an ideal way to operate student athletic events. It is estimated that 7000 to 8000 students participate in intramurals and other forms of organized recreation, and it is far superior to charge entry fees than discontinue highly enjoyed programs.

Although the entry fee system of financing athletic programs may exclude the financially poorer students, it still seems that giving some students the opportunity to participate is better than not offering anyone the oppor-

What is especially disappointing about the plight of the Intramural department is that UI officials constantly tell incoming students that it is necessary to have a well rounded education, and Iowa offers the opportunities to reach this goal.

Administrators also explain to students the importance of keeping one's body fit and relaxing the mind through physical exercise and clean competition. (Even though some of this clean competition at Iowa is reminiscent of street play in Washington, D.C., Los Angeles and New York City.)

But what has the university done? It has cut back funds to the program and forced its administrators to struggle in order to service the needs and desires of the student population.

But intramural officials are not off the hook either. Although they have continually attempted to obtain additional funds, they were quite aware that the department's operating funds for this year were 22.5 per cent less than last year.

In light of this fact, it is obvious that intramural administrators were negligent in establishing the proper programming and scheduling. For there is little reason why the department-knowing months ago the amount of money available-should now be experiencing what they label "drastic" conditions.

If the central administration ultimately fails to increase the intramural budget for this year, as should be expected, the student will suffer. But when considering the university's problems with fuel supplies and Nixon's proposed educational cutbacks for 1973-74, one cannot condemn the university if it refuses to allocate additional funds to the Intramural department.

However, the university administration must be scolded and condemned if it fails to recognize the high rate of participation in intramurals, and then fails to appropriate increased funds to the department for the next fiscal year.

University leaders must once again recognize the forgotten ideal that universities were founded with the student in mind, and must therefore fortify those programs which a majority of students favor.

ROTC responds

To the Editor:

Reference the article, "ROTC Portrays New Image as Enrollment Decreases," by Mr. David Stamps in the September 20 issue of the Daily Iowan. I do not agree with certain of his opinions and assertions concerning either ROTC or the military in general, but do not question his right to publish those opinions. I do, however, question publishing statements which are not true with respect to air force ROTC.

Enrollment is NOT down in Air Force ROTC; it is the same as this time a year ago at the U of I. Across the state in our four detachments (others at Coe, Drake, and ISU), both freshmen and total enrollments are up. The four units will produce more new lieutenants in May 1974 than in either 1972 or 1973 This past winter over 30,000

high school students across the nation applied for the AFROTC scholarship-a 200 per cent in-

crease over the preceding year. The interest in AFROTC may be attributed to any of a number of reasons. Maybe it's the \$6400 full-tuition scholarships plus \$100 per month; maybe it's a job upon graduation; maybe it's our starting annual salary for student flyers of \$10,676 which increased to \$17,545 in only four years. Whatever the reasons, AFROTC enrollments are not

FXL

'shafted'

To the Editor:

Bob Dyer did his best reporting job of the year in his coverage of the firing of Francis X. Lauterbur. But one thing remained unanswered why was FXL fired?

The immediate reason given was that Lauterbur did not want to change his staff and a change was needed. But who or what was the catalyst for this change?

The blame can not be rested on Bump Elliot's shoulders alone. All the reports I read came up with the conclusions that recruiting was going to suffer, ticket sales would go down,

and Lauterbur was not winning. Let's examine these reasons. First, no matter how much recruiting was going to suffer after a winless season, it will be worse after a coaching change. Young players need a stable situation, not a constant shuffling of coaches. Unless Iowa is planning on resurrecting Vince Lombardi or giving a Johnny Majors seventy scholarships for first year recruiting, next season is not going to be a bumper crop for recruits.

I think the second and third

reasons are the keys to the situation. Ticket sales will go down. To me, that says that Iowa football is big by and Lauterbur as corporate president was not producing a competitive, marketable product. If that is the reason FXL was fired, I wish somebody would put the cards on the table and admit Frank's product would not sell next year. Maybe as an editorial suggested. Bump needs a better public relations man and not a better coach. Perhaps Bump could spend in an advertising campaign the \$50,000 he would drop in fulfilling Lauterbur's contract. All in all, the ticket selling reason is weak since Iowa would have to drop over 10,000 season ticket sales (six games, seven dollars a person)

to equal the \$50,000 loss. Finally, FXL had a 0-11 record. How many times have I read that that is the worst Iowa record since the pig got a bladder. Who cares. Most of the students here were not able to read when Evy was taking Iowa to the Rose Bowl. Iowa students do not know what a winning season is. No great outcry for FXL's balding scalp was heard

from the student population. So, the question is still unanswered, who fired FXL and why? The alumni? Francis X. Lauterbur got the shaft and I would like to see an article answering why.

limits discussed

Editor's Note: Today's Equal Time Column concerning the Food and Drug Administration is reprinted from **Human Events.**

A 10-year effort by the Food and Drug Administration to aggrandize its power over the vitamin industry last week suffered an important though far from fatal setback as Rep. Paul G. Rogers' (D.-Fla.) House Subcommittee on Public Health and Environment heard three days of testimony on legislation that, if passed, would more clearly define the limits of FDA's authority in

Just as such other regulatory agencies as the ICC, the FTC and the FPC have sought relentlessly to enlarge their grasp over various aspects of the U.S. economy, this effort has been the latest in a series of maneuvers designed by FDA to achieve Big Brother-type control over every aspect of the food and health industries

Spurred on by such diverse organizations as the American Medical Association and Ralph Nader's Health Research Group, this latest FDA gambit culminated in a sweeping series of edicts that, in the name of "consumer protection," will deprive American consumers of their right to purchase hundreds of vitamin-mineral products now sold competitively in the free

Moreover, by reducing the number of such products available and discouraging the use of the few varieties the FDA is kind enough to let remain on the market, these regulations threaten to drive thousands of small health-food stores across the

country completely out of business. Among other things, the new FDA regulations will:

-Limit the potencies of the permitted nutrients in a vitamin-mineral food-supplement to a low, narrow

-Limit the permissible combinations of ingredients in dietary supplements.

-Ban a great number of ingredients presently included in combination vitamin-mineral products. Under the FDA ruling, such banned ingredients will be available only in separate single-ingredient pills

-Prohibit the food-suplement industry from making a number of promotional claims or suggestions about its products, even if such claims are scientifically accurate.

The reason for this tidal wave of regulations, according to FDA, is to "protect the consumer." First, the agency maintains, the wide variety of dietary-supplements on the market is so great that it may overwhelm many consumers. Thus, by limiting the number of products available, FDA feels the regulations will spare consumers the problem of choosing from such a "bewildering array" of products.

Second, the agency argues that there is no scientific evidence to prove any nutritive value in many of the ingredients now included in dietary products and that even those ingredients which it concedes do have value are not needed in such quantities as are presently available

To discourage such high-potency food supplements, therefore, the regulations establish what FDA terms a U.S. Recommended Daily Allowance (U.S. RDA) for each of the 19 vitamins and minerals allowed in combination vitamin products and declare that any such product containing more than 150 per cent of the RDA of any ingredient will henceforth be "redesignated"a

114

Since drugs are subject not only to safety requirements, as are food products, but also to review by FDA's over-the-counter review board, which can either ban them as "unefficable" or require a doctor's prescription in order to purchase them, the agency suddenly will have the power to either ban many products outright or make them so expensive and difficult to get that many consumers will be discouraged from purchasing them.

The regulations also prohibit the labels on vitamin products from making any claims, even if true, that the products will have any beneficial effect for the purchaser.

Forbidden, among other things, for instance, will be any claim or even suggestion that a diet of ordinary foodscannot supply adequate nutrients. And this despite the fact that U.S. Department of Agriculture surveys have repeatedly shown that many Americans had purchased diets deficient in one or more nutrients.

The reason for such prohibitions, according to FDA, is that "lay persons are incapable of determining, by themselves, whether they have, or are likely to develop, vitamin or mineral deficiencies." Even scientifically accurate information could be miscontrued by the consumer, the agency says, and therefore, according to its reasoning. even though such information may be correct, it still constitutes fraud.

Spectifulin chuck hickman

Finding the fat cats

One of the unfortunate necessities of the 1970's for large organizations and well known individuals is the need to promote a positive public image. Administrators who spend millions of dollars for a new computer system without a second thought waste hours debating whether to color the credit card green or blue. No matter what image is presented, the result by necessity is phony and contrived when presented to the public

Universities are also forced to play this game. In competing for funding and students, they package themselves like a box of Tide. Consider this gem. lifted from a recent University of Iowa publication.

"A university is more then a collection of ivy-bearded buildings and thumb-worn textbooks. It is a living community-the slap of pigskin on a crisp autumn afternoon, the laughter of students ringing down long dormitory corridors, the dodge and weave of sneakered players on the polished floor of the Field House. It is the rivalry of combating teams and latenight cram sessions. A university is people.

Pretty typical of the rot most schools feed to the public. Why? That's easy. Spell it d-o-l-l-a-r-s.

Take a look around the Iowa campus and you'll see why the university needs more money. A lot more. The faculty here ranks at the bottom of the pay scale for Big Ten schools, and unfortunately, you get what you pay for. CAMBUS barely has enough money to run. The Field House will be closed for all of Christmas vacation, and the entire second semester intramural program is threatened-no dough. Dorm rates are going up. Tuition rates went up for non-residents this year. They'll go up for everybody next year. UI will soon have to spend \$4 million for a new coal-gas burner at the power plant because it can't afford other types can't compete with its rivals, not because of coaching, but because of its slim budget. The list goes on and on.

of energy. The Athletic Department

At first glance, these situations are difficult to understand. UI resident tuition ranks comparably with similar schools. Believe it or not, the Iowa Legislature has been relatively generous considering the actions of some other states. Where UI loses out is in drawing money from outside sources. UI Pres. Willard Boyd admits his greatest failure as president has been in soliciting funds.

The point is that people give money for strange reasons, which is why image is important. Universities promote class mobility, generate new ideas which contribute to solving the problems of modern society and provide a forum for evaluation of productive thought. People give money on the basis of the number of student demonstrations or the win total of the football team. Ideally there should not be a relationship between these events and faculty salaries, but it is the glamorus extras that spur gifts. Thus. our own version of Madison Ave. is necessary. After the Soviets launched Sputnik

in 1957, there was a big jump in funding to universities by government and private concerns. Here was a dramatic, highly visable issue However, styles have changed.

Universities can not always offer direct results to problems given to it by society, so the money has gone elsewhere. What makes the UI situation worse is that it does not have the alternative funding sources its competitors do. Concentrated wealth does not exist in Iowa, as it does in other states with heavy industry. Wealthy corporations and individuals are

always an important source of funds. Unlike its neighbors, the UI must compete within the state for public support with Iowa State. Look at Wisconsin. Minnesota. Nebraska and Missouri. The public's

allegiance and pride (dollars) are centered toward one institution. This factor is more important than it is given credit for. The kind of university Iowa wants to be requires a lot of money which must come from the outside. Because of economic, social and demographic fac-

tors which the UI can do little about, the

cards are stacked against raising the

needed support. Because of this, it is

hard to keep faculty, bus service, foot-

ball teams and everthing else on a competitive level with similar schools. Solutions? More money from the legislature—not likely. Drastically higher tuition? Well... Name J. Walter Thompson of Madison Ave. the university president? I don't think so. The extra money to provide what the UI lacks must be supplied from the outside, but

it's not coming. If the cuts are to be halted, a new appeal must be found to tap available funds. In the meantime, maybe you can put an arm on your rich uncle.

Dignified funeral honors Israeli leader Ben-Gurion

JERUSALEM (AP) - Thousands of Israelis followed Ben-Gurion, his mentor, into bitter pofiled past the casket of David Ben-Gurion under a litical opposition to Mrs. Meir's party in 1956. bleak winter sky Sunday, silently parting with the man whose vision and determination built

The founder of modern Israel and its first premier died Saturday at 87.

Premier Golda Meir, wearing black and her head lowered, stood for several minutes by the simple wooden casket, sealed in keeping with

Ben-Gurion lay in state in the plaza of the Knesset on a rocky Jerusalem hill. Hundreds of armed troops ringed the squat parliament building, routinely watchful for any Arab attempt to disrupt the ceremonies

Mrs. Meir, who was labor minister in Ben-Gurion's early cabinet, paced slowly to the. flag-draped coffin with all her fellow cabinet ministers. Keeping in the background was Defense Minister Moshe Dayan, who faithfully

The diminutive Israeli with the bush of white hair was to be buried privately and without eulogy Monday, as his will ordained, at Sde Boger, the farm settlement in Israel's harsh Negev Desert. Ben-Gurion made his home there in 1953, hoping it would prod Israelis to settle in the southern wilderness.

Ben-Gurion's family visited the coffin. They were three generations, two of them Sabra-native-born Israeli-and ranged from his gray-haired son, Amos, to grandchildren and

great-grandchildren, bearded and long-haired. At 10 a.m. the plaza was opened to the public Old and young, followers and political opponents filed slowly around the bier.

A military chaplain stood with a prayer book on a pulpit next to the bier, softly murmuring the

Heavy fighting breaks out close to Syrian borders

By the Associated Press Syrian tanks, cannons and mortars battled with Israeli artillery and armor for four hours Sunday in one of the heaviest Golan Heights clashes since the October war.

The Syrians knocked out three Israeli tanks and silenced five artillery batteries in the sporadic duels, a Syrian military spokesman said in Damascus. He said the fighting erupted when an Israeli engineering unit pushed too close to Syrian front lines

The Israeli military command in Tel Aviv said two Israeli soldiers were wounded in the exchanges but had no comment on the Syrian kill claims.

Witnesses in southern Lebanon reported meanwhile that Israelis lobbed more than 50 artillery shells into Lebanese border villages at dawn. No casu-

Oil minister is Arab Kissinger

BEIRUT, Lebanon (AP) -Saudi Arabian Oil Minister Ahmed Zaki Yamani is the Arabs' Kissinger. When King Faisal aims the oil weapon, Yamani

The soft-spoken man who vismost powerful voice in Arab oil policy, now directed against Washington for its support of Israel. Yet he considers himself a friend of the American people despite differences with their government.

Handsome, well-dressed and sporting a Van Dyke beard, the minister toys constantly with a string of worry beads and never looks worried.

Yamani pioneered participation agreements that will give the Arabs eventual control of the vast Western oil concessions on their soil. These, he said, were "a dream come true."

But he also envisions a working partnership with Western technology and investment to give Saudi Arabia alternative sources of income, agriculture and industry when the oil runs

The reported fighting came as Cairo newspapers warned of possible new battles along the Suez Canal and questioned the use of peace negotiations scheduled for Dec. 18 in Geneva if Israel fails to live up to its com-

That was a reference to the breakdown in talks aimed at disengagement of Israeli and Egyptian forces facing each other in battle posture along the Suez battle lines

Egypt broke off the talks—at Kilometer 101 on the Suez-Cairo road-on Thursday, charging the Israelis with stalling on what Cairo sees as a withdrawal commitment in the Nov. 4 Israeli Defense Minister

Moshe Dayan said in Jerusalem that Israel is prepared to resume the Kilometer 101 talks and listen to new Egyptian proposals for withdrawals.

He made the comment after a meeting with Finnish Gen. Ensio Siilasvuo, commander of United Nations forces in the Middle East who traveled to the talk of new fighting.

Jerusalem in efforts to get the withdrawal talks moving again. The breakdown in the talks after 10 meetings between Yariv and Egyptian Maj. Gen. Mohamed Abdel Ghany el-Gamasy aroused fears that fighting could explode anew along the 103-mile-long Suez Ca-

"Apparently Israel did not learn any lesson from the October 6 war and needs another reminder." Egyptian Brig. Gen. Hassan Abou Saada told newsmen Saturday at the Suez front. "My troops are ready to engage the Israelis any minute, if we receive an order.'

But U.N. peacekeeping officials released figures in Cairo showing reported incidents along the canal dropped from 27 Tuesday to 11 by Friday. They said "preliminary indications" were that Saturday was similarly quiet.

The U.N. officials have sought repeatedly to stress that the cease-fire remains in effect despite the breakdown in the Kilometer 101 negotiations and

His close-ups can almost be agonizing. In them, the tormented emotions of the characters 16 Wolfe are revealed. The long takes are used to establish the terrain of the film and to relate the characters to one another. Thus, isolation and integration, the highlights of Fuller's style, become the key to his themes.

"Shock Corridor," another Fuller film, makes up the second half of tonight's double feature. Made in 1963, it is supposedly one of the best examples of Fuller's later work.

Today on TV

By JOHN BOWIE

6:30 S.A.N.F.O.R.D. PERIOD. Redd Foxx made the transfer from X-rated nightclub acts on the chitlin' circuit to the nation's top-rated T.V. series with nary a pause. Sanford and Son works in a more limited environment than most sit-coms; and, unlike most of them, it always works. On 7.

7:00 THE NITRATE HOUR. Two choices for this time slot-by T. K. Ryan Channel 2's Gunsmoke or Channel 9's The Rookies. In the first, violence is avoided until necessary. In the second, it's Matt Dillon may creak with age along with the rest of his cast. but a sense of decency-- albeit television's idea of decency-has kept the series alive in it's second decade. The Rookies takes a dangerous stance on law enforcement; by the end of each show, you're conditioned into hoping the suspect will be shot rather than captured and sent before a "do nothing" court. It's counterfeit justice, and no amount of viewer adrenalin can

8:00 BRAIN VS. BRAWN. After screwing Dallas into the ground last week, the Miami Dolphins meet Pittsburg on Channel 9 tonight. At the same time on 12, Ravi Shankar performs in a 1967 duet with violinist Yehudi Menuhin. The audio from the latter and the picture from the former should make the best viewing of this

evening. Borrow an extra T.V. 9:30 HI-YO TARNISHED SILVER! The Lone Ranger of radio days gets a re-vamping for the screen tonight on Those Thrilling Days of Yesteryear. Cuddling a 1938 Philco twelve-tube might help the effect, but T.V. reconstructions of radio are usually-- unfortunately-- a disaster. On 12.

10:30 SHLOCK TALK. David Steinberg was at one time the finest young comedian viewable on the horizon; now, as guest host of The Tonight Show, he's watered down enough to be palatable to Carson's usual audience. The sad thing is, he seems to be enjoying it. James Caan, late of The Godfather, shows up for the usual banter.

St.

Five University of Iowa of a nurse's right to refuse to assist in an abortion if it is against his ethical or religious beliefs, except in cases where the patient's life is in danger.

This proposal was part of a resolution which will be submitted to the American Nursing a panel discussion which in-

the reaction of nursing students to the issue, the factors that insenior nursing students Thur- fluence the formulation of sday called for the recognition opinions about abortions, a brief explanation of abortion procedures, and an explanation of abortion clinics and their operation. Specific note was given to the Emma Goldman Clinic in Iowa City.

The resolution called for nurses to make known their per-Association. It was presented in sonal views on abortion to hospital administrators and for cluded the legality of abortions, employers to refrain from for-

assist in abortion operations, abortions to assist in such operations. It also urged nurses not to impose personal values concerning abortion on patients or on other members of hospital

"We feel that each individual has a right to his or her own values and should not be pressured to conform to the values of other personnel," said the statement.

Gwen Hatley, A3, who headed the discussion cited the recent changes in laws concerning abortion as one of the primary with one. Traditionally, aborsave the life of the patient has been barred by law. Until quite recently "criminal abortion" was considered a felony under the Code of Iowa and was

In the 1973 abortion decision

nurse's right to refuse to assist Due Process Clause of the 14th Amendment to the Constitution tion for any reason except to which prohibits state interferance in the right to privacy. Privacy included a woman's trimester the state may be conqualified right to terminate her

minate the prenancy if the attending physician agreed it would be in the best interests of the patient. After the first sidered to have a viable interest in proecting potential life and may not proscribe abortion except when the health of the mother is in danger.

This change in the law has resulted in an increase in the number of abortions being performed in hospitals throughout the country. In many instances nurses in these hospitals who are forced to assist in abortions are experiencing great emotional strain. Many find abortions morally repugnant and against their ethical and religious beliefs. This emotional strain is often expressed in an attitude of hostility toward the patient or other hospital person-

Nursing students do not seem to hold such violent opposition to abortion however. In a recent survey questionaire given to 80 senior nursing students at the University of Iowa 52 per cent said they felt abortions should be granted upon request. 85 per cent said they would have no objection to caring for patients unrgoing abortion and the rest felt that while they would have some reservation about caring for such patients, they would be able to overcome these reser-

Of the four, the two techniques used most frequently are the vacuum asperation and the saline injection. The asperation technique was recommended for anyone considering abortion. It must be done in the first ten weeks of

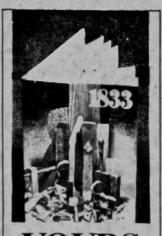

> The final topic discussed was abortion clinics. This included a list of nine different clinics scattered about the United States, the general operating procedures of each clinic, and an evaluation of the quality of the clinic by the nurses. The need for counseling services at such clinics was stressed.

Special attention was given to the Emma Goldman clinic of Iowa City which performs vacuum asperations for \$150. The clinic received high ratings by a majority of the panel and was praised for its exception counseling service.

The presentation was an outgrowth of the class Nursing in a Social Order offered this fall by the University of Iowa College of Nursing. In the class students are encouraged to investigate and prepare presentations of nursing problems of social significance.

The resolution prepared by the students will be presented to the State Practice Committee vations and care for the patient. on Nursing as well as to the During a discussion following American Nursing Association.

'Burned' trees yield good lumber

SONORA, Calif. (AP)—The so fast it doesn't stay in one spot house you live in may be built from trees that once burned in a raging forest fire.

Logging crews now are haulforests throughout California and other Western states, where ravaged nearly 200,000 acres of trees and brush.

Lumber company spokesmen say as much as 90 per cent of the wood from trees killed in these fires is useable as commercial lumber-if loggers can get it out of the forests before it becomes infested with insects.

"Ninety per cent of the time a fire will burn the bark and kill the area. the tree, but the fire's burning

long enough to destroy the wood," said Mark Bevan, chief forester for Fibreboard Corp., a San Francisco-based firm with ing out scorched lumber from timber holdings throughout the

Bevan spoke above the hum of the worst fires in 20 years have buzzsaws felling dead trees in the middle of a burnt-out area in Stanislaus National Forest, 30 miles east of this Sierra foothills

> A fire that broke out Aug. 17 blackened 17,000 acres and changed the face of the forest for a century in the four days it burned out of control. Bevan's employer owns 5,500 acres in

Smoldering hot spots still much the same as in a green

smoke, the forest floor is coated with mounds of ashes, and the air still is thick with an acrid, burning odor. But loggers already have begun the job of removing up to 1,000 trees a day before the first snowfall inter-

After the trees are felled, they are cut into 33-foot lengths, "skidded" by tractors to the logging roads, and then hauled by truck to sawmills. Here they will be cut into marketable dimensions-much of the fir going for two-by-fours and plywood, the pine for home exteriors and wall paneling.

Logging in a black forest is

send up occasional clouds of one, Bevan said, except the charred wood covers the men with grime and wears out their saws faster. The over-all operation is simpler than usual, he said, because the men are clearing everything out of a given area, instead of cutting electively.

> Bevan said the U.S. Forest Service puts out "salvage sales" on trees killed on its land, selling private firms the right to remove the trees and market their lumber.

Bevan said most mature trees killed in a fire retain nearly their full economic value if removed soon enough. About the only loss is the bark, which normally is sold for garden mulch and landscaping.

"The real loss is in young growing trees that were our future," Bevan said. "They can't even be used for paper, because the charcoal won't bleach out.'

A burnt tree less than 20 years old has no commercial value, Bevan said. Loggers either bulldoze them into large heaps and burn them, or let them stand as shade for green seedlings to be planted nearby.

By winter, most of the 5,000 acre burn area will be a mass of charred stumps. As soon as the snow melts in the spring, the forect will be replanted with 6-inch tall seedlings.

NEW YORK (AP)-UCLA more than a national champion- tley, who led the Irish with 16 ship, said afterward, "I was points and nine rebounds. never more proud of any aggregation than I am of this one.

> Two-time All-American Bill Walton led UCLA with 18 points and 27 rebounds, including a school-record 20 in the first half. Maryland's Len Elmore topped all scorers with 19 points.

> David Thompson paced North Carolina State's rout over Athletes in Action with 34 points and 7-foot-4 Tommy Burleson added 32. The Wolfpack play UCLA Dec. 15.

Indiana showed a balanced offensive attack, led by Scott May with 14 points, but Coach Bob Knight was raving over his team's defense after the victory over The Citadel

'We did a good job of keeping them away from the basket and I didn't worry about their outside shooting." he said.

Digger Phelps, Notre Dame's coach, also was speaking in glowing terms after his team's

trouncing of Valparaiso. They have a chance to go all the way." Phelps said after giving particular praise to freshman forward Adrian Dan-

Houston was hampered when 6-foot-10 Maurice Presley and 6-9 guard Louis Dunbar fouled out in the second half.

North Carolina broke the game open by scoring 15 of the first 19 points in the second half.

It wasn't a pleasant homecoming for St. John's coach Jim Smith, who was a Marquette player in the 1950s. His team shot only 32 per cent compared to Marquette's 54 per cent, and the Warriors controlled the boards 53-20.

"We denied them the basketsaid Cincinnati coach Gale Catlett in analyzing his team's upset over Louisville. The Bearcats also profited from Louisville's 29 turnovers and a 22-point performance by senior guard Lloyd Batts.

Kevin Grevey scored 29 points for Kentucky against Miami of Ohio. He hit 20 of his points in the first half when the score was tied six times. The Kentucky defense proved to be the difference in the second half when it shut out the Miami attack for nearly five minutes.

a brutal defense enabled the Los Angeles Rams to clinch the National Football Conference's Western Division title with a 260 victory over the Chicago Bears derson. The Rams swelled their Simpson

record to 10-2, two games ahead of runner-up Atlanta, which was upset Sunday by the Buffalo Bills 17-6, leaving the Falcons with a 8-4 record. The Rams, scoring on Jim

and Les Josephson's nine-yard smash, toyed with the crippled Bears all the way. Chicago's only thrust beyond midfield against the bristling Ram defense came in the second quarter and that was on a

the ball at the Ram 46. Although he failed to score, McCutcheon was the main Ram offensive spark, gaining 152

pass play which ended with

George Farmer fumbling away

yards on 24 carries. The Rams took a 10-0 lead in the opening quarter on Ray's 30-yard field goal and Bertelsen's touchdown capping a 48-yard strike in four plays. They led 13-0 at halftime on Ray's 16-yard field goal 33 seconds before intermission. After a scoreless third quarter, the Rams scored 13 points in the final quarter on Ray's field goals of 39 and 26 yards and Josephson's nine-yard run after Los Angeles recovered a Chicago fumble on the Bear 15.

Defense

CINCINNATI (AP) - Cincinnati turned an interception and a fumble recovery by linebacker Bill Bergey into scoring plays and mounted an inspired defense to hand the Minnesota Vikings a 27-0 National Football League defeat Sunday and its first shutout in 162 games.

Playing near-flawless football before a howling, sun-drenched crowd of 57,859, the Bengals completely shackled the Vikings, now 10-2. It was Minnesota's worst loss since 1968, and the shutout was only the third in Minnesota's 13-year

Quarterback Ken Anderson. producing his finest pro effort, propelled the Bengals into title contention in the American Conference Central Division with an 8-4 record.

Cincinnati's bristling defense choked the Vikings so effectivethat Minnesota quarterback Fran Tarkenton was lifted in the third quarter for reserve Bob Berry.

The shutout ended Vikings kicker Fred Cox's record NFL scoring streak at 151 games. The Vikings were last held scoreless in 1962 in a 13-0 loss to the Chicago Bears.

A 40-yard touchdown burst by veteran Essex Johnson broke it open for Cincinnati early in the hird quarter. The Bengals led 10-0 at halftime on a 22-yard field goal by Horst Muhlmann and a 23-yard fumble return by defensive back Lamar Parrish.

Bergey's fumble recovery set up Johnson's 40-yard sprint for a 17-0 lead. Minutes later, Bergey intercepted a Berry pass at mid-field and Muhlmann turned

CHICAGO (AP) - Larry Mc- it into his second field goal, a 38-yarder.

Cutcheon's power running, The last touchdown came in Dave Ray's four field goals and the fourth quarter, tight end Bob Trumpy capping a march from mid-field with a sevenyard touchdown pass from An-

ATLANTA (AP) - O.J. Simpson forged his way into the record book with another 100-yard performance and Jim Braxton scored a pair of touchdowns on short plunges as the Bertelsen's three-yard sweep Buffalo Bills snapped Atlanta's seven-game winning streak with a 17-6 upset Sunday.

Meanwhile, the Buffalo defense forced Atlanta's previously undefeated quarterback, Bob Lee, into a frustrating afternoon, sacking him four times and forcing him into poor passes throughout most of the National Football League

former Cleveland Browns great Jimmy Brown of 100-yard games, and surpassed Brown's total of 1,545 as second best of all time. Brown holds the single season rushing record with 1,-863, and Simpson has two games remaining this season to break

Braxton scored on a one-yard plunge in the opening period after Fred Forsberg recovered Ray Brown's fumble on a punt at the Falcon seven. The big fullback also scored from the one in the third quarter, capping a 54-yard drive in which Simpson had an 18-yard run and Joe Farguson hit Bob Chandler with a 16-yard pass.

when John Leypoldt booted a 20-yard field goal.

Atlanta's scoring came on field goals of 26 and 16 yards by Nick Mike-Mayer in the second

KANSAS CITY (AP) -Cleveland stormed back for two touchdowns in the final six minutes on Greg Pruitt's 65-yard run and Mike Phipps' 51-yard pass to Milt Morin, giving the daredevil Browns a 20-20 National Football League deadlock with the Kansas City Chiefs

Don Cockroft's conversion after Morin's touchdown came with 2:40 remaining and gave Cleveland its tie.

Even after that, Kansas City seemingly had enough time to get within field goal range and allow Jan Stenerud to kick a

The Chiefs, who had a chance to climb into a tie for first place in the American Conference West Division with a victory. appeared earlier to have won this bruising battle in a gusty wind when Ed Podolak stabbed over from the two-yard line with

Until Podolak scored, the Chiefs had nursed a slim lead they gained on Mike Livingston's 11-yard touchdown pass to Elmo Wright in the first quarter and field goals of 15 and 13 yards by Stenerud. Then Pruitt broke through the

Chief defense and legged it 65 yards to the goal.

Until Pruitt's dazzling run, the Browns, who trail first place Pittsburgh by one-half game in the AFC Central, had to be content with field goals of 44 and 28

yards by Cockroft.
The Chiefs, trying desperately to break the tie in the closing seconds, took possession with 35 seconds showing. Pete record of nine games in a sea- Beathard, who had replaced the son with 100 or more yards, as injured Livingston, hit Wright he hammered out 137 yards on with a 40-yarder 10 seconds 24 carries, increasing his season from the end but it was out of

DENVER (AP) - Roger Staubach, keeping cool under pressure from a relentless Denver defense, threw two touchdown passes to tight end Jean Fugett to spark the Dallas Cowboys to a 22-10 National Football League victory over the Denver Broncos Sunday.

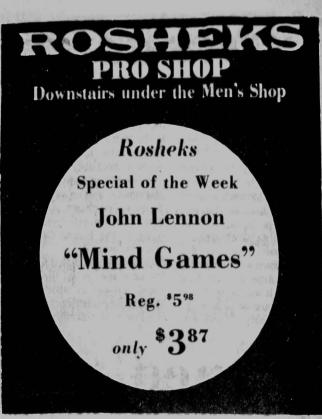

The victory enabled Dallas to stay just one game behind NFC East Division pace-setter Washington, a team the Cowboys meet next week. The Broncos, now 6-4-2, dropped out of first place in the AFC West.

Staubach, sacked five times by the Bronco defense led by tackle Paul Smith, hit Fugett on a six-yard scoring pass late in the first quarter after Denver running back Joe Dawkins had fumbled the ball deep in Bronco territory.

Following a pair of Toni Fritsch field goals, one of which was made possible by another Bronco fumble, Staubach, catching the Denver defense flowing to with five seconds left in the half the left side, and the second-year tight end ran in untouched for a 27-yard scoring

> The Cowboys, 8-4, scored their final two points when Denver punter Billy Van Heusen, attempting to run on a faked punt, was tackled in the end zone for a

The University of Iowa gymnastics team finished in third place behind Iowa State and Indiana State Saturday in the Windy City Invitational meet in Chicago.

Iowa rolled up 159.95 points to finish close behind Indiana State's total of 160.05. The Cyclones totaled 163.25.

Basketball

The Iowa women's basketball squad defeated Northern Illinois Saturday 53-33 for its first victory of the 1973-74 campaign.

Gerri Marz led the scoring for Iowa with 15 points. In the junior-varsity game, Iowa whipped Northern by a score of 41-24. Vicki Cook was the high scorer for the J-V's with 10 points.

Iowa's next game will be against the University of Northern Iowa in the Field House on Dec. 8.

Tankers

Jim Haffner and Pete Schorgl each won two events Friday as Iowa opened its swimming season with a 68-45 victory over Southwest Minnesota.

In addition to Haffner's wins in the 100 and 200 meter free style and Schorgl's titles in the 200 meter breast stroke and 200 meter individual medley. Don Reig took the 200 butterfly. Tom Markwalter the 200 back stroke and John Blumer the

The Hawks also won the 400 medley relay.

Saturday, Iowa finished fifth in the Western Division Big Ten swimming relays at Minneapolis. Wisconsin won the title with 150 points. Iowa scored 78.5 points.

Baseball

HOUSTON (AP) - Baseball's annual winter meetings open Monday, and for a change the spotlight won't be totally on the trading action.

Major league general managers usually come to the winter conclaves anxious to deal. Last year, they swapped a record-breaking 67 players in 20 trades. But to make a deal, you usually like to consult a manager, and a couple of American League clubs don't have that commodity at the

AL President Joe Cronin has summoned the Detroit Tigers and New York Yankees to a hearing Wednesday to discuss which team Manager Ralph Houk is working for. After that, the Yankees will meet with the Oakland A's and decide which team Manager Dick Williams works for.

Houk wants to manage the Tigers and the Yankees would like Williams as a replacement. That's fine with everybody except Oakland owner Charles O. Finley, who is balking at letting Williams out of the last three years of his contract unless the Yankees compensate the A's with some players.

New York is willing, provided Detroit produces some compensation for releasing Houk from the remainder of his contract. Cronin has been studying the deadlock for about a month and hopefully the three teams will solve it Wednesday.

The National League has a hassle of its own to settle. It involves the proposed sale of the San Diego Padres to a group headed by race track heiress Marjorie Everett. There are reports that NL owners and Baseball Commissioner Bowie Kuhn are opposed to the sale because of Mrs. Everett's alleged involvement in a Chicago bribery scandal

The conflict is expected to come to a head this week at NL meetings presided over by President Chub Feeney. "The Everett group won't get past Feeney," predicted Kuhn, "and if they do, they won't get past me."

The meetings open with the draft of minor league players. a talent source that has fallen into almost total disuse by major league clubs. Only six players, an all-time low, were chosen at the draft last year and little action in that category is expected this time.

Aussies

CLEVELAND (AP) - They crated up the old Davis Cup and prepared it for the long haul back to Australia Sunday under the threat that another tennis dynasty could be in the

"I don't see why we shouldn't keep it a few years," said Neale Fraser, the balding captain of the Aussie forces. "Our guys have got some good mileage ahead of them.'

The disappointed U.S. captain, Dennis Ralston, wasn't so

"The day that one country can dominate the Davis Cup is gone," he said. "We will be back stronger than ever next year. And wait until Australia starts playing in countries like Czechoslovakia and Spain-they'll find out how tough it is."

Although the veteran Australian team of John Newcombe and Rod Laver clinched the cup in the first two days at the indoor Public Hall here, it was overpowering only in Saturday's doubles match. Either of the opening singles, which together lasted six hours and 32 minutes, could have gone the other

Iowa forward Neil Fegebank (15) ends up with during the Hawkeyes season opener against the ball after blocking Dan McDowell's shot Northern Illinois. Iowa won 85-83.

King, Washington impressive

Hawk VR's take opener

By GREG LUND Asst. Sports Editor

Iowa's Varsity-Reserves opened their 1973-74 season Saturday night by coming from behind to whip Robert Morris the football season, began to Junior College, 96-81.

Forward Bruce King sparked front line. a late Iowa rally and wound up with 30 points for the night. King was aided in the second half by sophomore center Nate Washington, who hit for 27 points and pulled down 12 rebounds.

Iowa, led by King, took the lead early in the contest but Robert Morris refused to buckle under and the Hawks held a slim 43-40 lead at halftime.

Starting center Stan Petratis got into some foul trouble during the early part of the Washington, Nate, who had practiced for only one week with the team since finishing dominate the shorter visitors

But the Carthage, Ill. squad again refused to surrender and clawed back to take the lead late in the final period.

Iowa stormed back, however, and regained the upper hand with a little over two minutes remaining and pulled away for

Coach Joe Roberts was pleased with the win, but was not overly happy with the way his players performed.

"The team underestimated second half and was replaced by its opponent and then found out that they could get beat and had to really come back to win the game," he said.

> "I thought Nate Washington played tremendously well for hope his first time out after football." Roberts added. "Bruce King also played well."

Junior guard Mike Bonk added 14 points for the night, all of them coming on field goals. Petratis finished with nine. In the rebounding depart-

ment, King finished second to Washington with seven and Petratis pulled down five.

Robert Morris won the overall rebounding battle, 61-57.

Illinois basketball team if Everybody on this team wants they're not hospitable to Iowa's to play but only five can be star-Larry Parker next summer.

Bradley, Northern's 6-10 form. Freshman Glen Worley All-American candidate, is banreplaced him in the starting ned from playing in the Huskies first nine games

"I knew I wasn't going to because he participated in an half behind the shooting of fornament in Gary, Ind., this sum- Holmes and Tim Bryant.

> But even without Bradley. Northern gave the Hawkeyes everything they wanted, and

> Iowa jumped off to a 12-4 lead and expanded it to 38-24 before Northern cut the deficit to 42-32 at the half.

Seniors Candy LaPrince and Neil Fegebank sparked the first half surge by contributing 15 and 10 points, respectively.

LaPrince ended up with 19 points and nine rebounds but played little in the second half. When he did return to the lineup. Candy got in a heated exchange with Huskie guard Carroll Holmes.

"I guess the coaches thought I wasn't trying hard enough on defense," said LaPrince in ex- 17 points and Holmes and plaining his extended stay on

As for his confrontation with high 16 rebounds. Holmes, LaPrince said "He was see him after the game."

Northern rallied in the second tle of the boards, 58-52.

unsanctioned basketball tour- ward Dan McDowell and guards Prince, Fegebank and frosh But thanks to Parker, the

visitors never got closer than four points until center Dwayne Caldwell tipped in a shot with 19 seconds remaining. There were a few anxious moments after that but the Hawks hung on and LaPrince grabbed Northern's rushed field goal attempt at the

breaking game and our offense when we had it operating," said Coach Dick Schultz.

"But I was displeased with our defense. We didn't do a good job of recovering. I was also disappointed with our rebounding, especially in the second

Bryant hit 14 apiece. Caldwell chipped in 12 and had a game

Iowa outshot the visitors from calling me names, I told him I'd the field 51.4 per cent to 38.5 per

Besides Parker and Laguard John Hairston added 15 points apiece. Fegebank also led the Hawks with ten re-

For a freshman in his first game, Hairston did an outstanding job," said Schultz. "He made some mistakes, but no

more than our older players." "I was nervous but Candy "I was pleased with our kept the pressure off me by taking the ball early in the game," said Hairston. "I'd never played before a crowd that size (10,550) but once I got going it didn't bother me.'

> Schultz saved his most lavish praise for the lithe Parker.

"Larry had been playing ex-McDowell led Northern with cellent basketball for us until he injured himself." said Schultz. "It bothered him a great deal in Wednesday's intra-squad game. But tonight it was much better and he made up his mind he was going to

Victory—break out the 'bubbly'

By CHUCK HICKMAN

Contributing Editor Break out the champagne. fans. Strike up the band and poke your neighbor in the ribs.

A win, is a win, is a win. No complaints about the margin. the players, the coach, the fans. The 85-83 victory over Northern Illinois was savored for what it was. A big relief.

Going to the Field House Saturday night was like visiting an old friend in the hospital after an auto wreck. Most people were fearing the worst, hoping for the best.

The record around here has made fans cynical. Not hostile, but not ready to yell until there is a good reason. There is no need to dwell any further on the indignities suffered during the football season. Suffice to say people are not fighting for Iowa tickets, no matter the sport. *

This new basketball team and rebuilding fan enthusiasm will grow together. Each has a long way to go, but after Saturday, there was at least one ray of

There were days not long ago when an Iowa City bar gave away drinks after a Hawk win. the court was surronded by banners, and Chris Pervall, Super Sam, J.J., Stick or some other hero would find a way to send the fans home happy

There isn't going to be any championship this year. But Saturday's game featured hustle, enthusiasm and some promising ability by a number of newcomers

The experts may still be certain final authority. (Shades for what was going to happen those guys. Mistakes will be correct in saying Iowa will win only eight games, but it is apparent we will have more fun winning eight this year than in playing .500 the last two

balcony had something to get ballplayer from last year's excited about. There was John edition. Leading the break, Hairston, a guard who could become a stabilizer, a leader-a commodity Iowa has lacked for

pulling down rebounds with a behind me braced themselves

of the immortal George next.

Larry Parker sliding in and out-a switch from some of the Mack trucks Iowa has used in the corners before. LaPrince So the fans in the second looked like a different diving for balls—this team was not indifferent.

Late in the second half the Hawks big lead began to There was Glen Worley, narrow, and the spectators

A gentleman in row eight began calling out substitutions. His neighbor suggested a coaching change, on the spot. Most just shook their heads and quietly waited for what was sure to come-another way to

But there are players here who aren't used to that yet, and they held on. Shaky at the end maybe, but still a winner.

So now it's Drake. Then Marquette, Kansas State, Kentucky, UCLA and the rest of

made, losses will come, but I will be surprised if this team rolls over.

The fans piled out afterwards,

still with a very cautious optimism. No predictions, no shouting. Most of 'em said what amounted to "wait and see."

Wait indeed. At least there may be something worth waiting for. In the meantime-one game at a time. And the first one was ours. 85-83?

Ah, we had 'em all the way.
