**Dealers to police gasoline limit**

Most Iowa motorists won't have to pay gasoline taxes, according to the state's Internal Revenue Service, to use gallon per gallon with federal gasoline taxes.

**Local stations reap gas limit**

Most local stations are already operating under the gallon per gallon limit, and the Iowa Department of Revenue and Public Welfare is informing drivers that they will have to pay the tax on gasoline purchased in Iowa.

When asked if they still had adequate supplies of gas available, almost all the stations stated that they did, despite various company complaints.

One worker at an independent gas station said that he wouldn’t mind the tax.

**Post office**

The following service schedule will be in effect at the Iowa City post office and the Coralville branch on Saturday, Dec. 26, and Christmas Day, Thursday, Dec. 25, except that the Coralville branch will be open from 10 a.m. to 4 p.m. During regular business hours, there will be a call-in service where you can pay the tax on gasoline purchased in Iowa.

**Nixon homes**

Washington, D.C. — A White House spokesman said this morning Nixon will not move the government's headquarters to a new location, despite the resignation of Chief Architect Albert Speer, who had been scheduled to move the government to a new site.

**Boyle**

Washington, D.C. — W. J. Boyle, the former Thenurian, has been appointed to the position of Assistant Secretary of State for Political Affairs.
Spanish premier assassinated

MADRID, Spain (AP) — Premier Luis Carrero Blanco, Spain’s No. 2 leader and the minister who handles security affairs, was assassinated today as he drove to work.

The assassination, described by the CIA as an “act of terrorism,” is the latest in a series of violent attacks that have plagued Spain in recent years.

The attack occurred outside a hospital in Madrid, where the prime minister was reportedly making a visit. He was rushed to a military hospital, where he later died of his injuries.

Carrero Blanco, who had been critical of the government’s handling of the ongoing conflict with Muslim rebels in the north of the country, had recently announced plans to resign due to health concerns.

The attack comes days after another high-profile assassination in the same city, and ahead of a general election scheduled for later this year.

The government has condemned the attack and pledged to do everything in its power to ensure the safety of its citizens.

On the other hand, many believe that the attack was carried out by Muslim militants in an attempt to destabilize the country.

The situation remains tense, and security measures have been increased throughout the country.

Ford vows to block Nixon impeachment

WASHINGTON (AP) — Vice President Gerald Ford said Thursday he will do “my best” to prevent the impeachment of President Nixon.

Ford said he will not support any effort to impeach Nixon, saying it would be “a waste of time and energy.”

He added that he believes the president’s “behavior in office is not conducive to the best interests of the country.”

Legislature ponders tax structure change

DES MOINES, Iowa (AP) — There’s a lot of support in the Iowa Legislature for tax reform, but proposals that have been introduced so far are not meeting with much success.

A number of legislators have introduced bills that would change the state’s tax system, including proposals to simplify the tax code and reduce the number of tax brackets.

However, the bills have not gained much traction so far, with many lawmakers expressing concerns about the complexity of the proposals.

One bill, introduced by Rep. Rob Ruhm, would change the state’s income tax code to a flat rate.

Ruhm said he believes the current system is too complex and burdensome for taxpayers.

The bill has not gained much support, with many lawmakers expressing concerns about its impact on the state’s budget.

Got pounded

WASHINGTON, D.C. (AP) — President Nixon’s press secretary, Ron Ziegler, was injured Thursday when his car collided with another vehicle.

The president was in the car when the accident occurred, and was taken to a hospital for treatment.

The White House said the president is expected to make a full recovery.

MERRY CHRISTMAS, from GINSBERG’S JEWELERS

The world’s anniversary of living and giving. And time is especially precious. Make it really, magnificently, with a gift that may say, and today man will cherish the GINSBERG’S DIAMOND PRESTIGE, with an exclusive Jubilee bracelet. Here’s a perpetually heritage of watchmaking integrity. This hand-crafted 30-jewel chronometer in 14kt. gold and stainless steel is pressure-proof down to 100 feet in its renowned Oyster case. Resistively the precious present for that special time, since.

IT’S AUTOMATIC... NO CALCULATIONS!

HONEYWELL AUTO/STROBONAR 460

Let’s you take creative, correctly-exposed flash pictures every time—automatically.

• Fast recycle time—less than 4 seconds.
• Automatic exposure—control to 20 ft. of flash.
• Creative depth of field—choice of one of three.
• Adjustable exposure—4, 15, 30 seconds charge for 35 flash pictures.
• Guide number 16 for ASA 25, 32 for ASA 40.
• Air or flash shutter and built-in 17 shutter card, included.

Please recycle this paper

There are plenty of unique gifts left to fill your sleigh this Christmas.

We want to wish you a Merry Christmas and thank you for your patronage.
E. Howard Hunt admits

Gasoline spied on in 1964

WASHINGTON (AP) — Energy chief William E. Simon said Wednesday that he arranged for the Central Intelligence Agency to spy on the gasoline stockpiles of several countries in 1964. Simon said he did this to ensure that the United States had enough gasoline to meet its needs.

Simon’s admission was aimed at J. Walter Bunt, Jr., who testifies at the trial of the Watergate scandal. Simon said that he had been involved in a series of operations aimed at gaining information from abroad.

“Details of what Hunt said were not disclosed, but it has been reported that Hunt says he ordered agents to spy on various countries for information about their gasoline supplies,” Simon said.

Bunt, who once headed the CIA, testified that the agency had conducted domestic operations in the late 1960s and early 1970s. The operations included the use of covert agents to gather information about the government of a foreign country.

Bunt said that the agency had been involved in what was known as the “November 7” operation, which was aimed at gaining information about the government of Cuba.

The agency had been involved in a series of operations aimed at gaining information from abroad, Simon said. “We were especially interested in finding out what was happening in other countries,” he said.

As a result, the agency was involved in what were called “black bagging” operations.

Trade bill would aid Jews

EDITOR'S NOTE: The following editorial was reprinted with permission of The Nation magazine.

The Trade Reform Act of 1973 will probably have one of the most far-reaching effects in the history of trade agreements. It will, in fact, establish a new, more flexible system of trade agreements which will replace the old dumping of products into the market. The new system will be based on the principle of reciprocity, which means that the United States will not accept a trade agreement unless it benefits them in some way. This will give the United States a greater say in the negotiations and will allow them to demand better terms for their products.

The bill will also have a significant impact on the economy of the United States. By allowing foreign countries to export their goods to the United States without restrictions, it will create a larger market for American goods. This will in turn lead to increased production and employment in the United States.

The bill is expected to be signed into law by President Ford in late March or early April. It is hoped that the bill will be implemented as quickly as possible so that the benefits can be felt by the American people.
**Lady Ice**

Sutherland, O'Neill romp in stupid plot

By DAVID A. MONTGOMERY

"Lady Ice" is constructed like a house of cards, and if one of its supports should buckle, the whole enterprise will fall.

The primary support is female power, and for that reason I may mean it is not a very good idea for a man to write a play about a woman who is a superwoman.

The play is set in a small town where the woman is a kind of goddess, and the men are all her subjects.

The problem with this kind of play is that it is too easy to write.

The only way to make it work is to have the woman be so powerful that no one can resist her.

But then you have to create a character who is so powerful that no one can resist her.

And that's where the play falls apart.

The character of Lady Ice is not very interesting.

She is too powerful to be interesting, and too powerless to be interesting.

The play is a failure.

Dressing in layers offers most warmth

By Shirley Riener

Every boy warms his hands, the most impor-
tant finger involved being to what degree or how
he can increase the flow of his own blood. Of
long importance, that being the proper care of
his clothes and the principles of the atmosphere
whereby he has to work.

Basic air is the present conductor of heat, ac-
cording to the latest Ladger. University of low
assistant professor of bone-softing. This mean-
s that a man's surface area of unimpeded air will
be the most effective means of warming up. In
other words, it will be easier for him to use his
arms and legs if you have a greater number of
tempo, so much as to what you are doing.

The last or a three-part series our economic
structure undergoes a drastic overhaul. Will rock
survive? I for one, in a good mood or another.
The future of rock and roll is always in question.
Economic influences have a role to play in one
form or another. The future of listening to rock
and roll in one form or another. The future of
rock and roll is always a good place to go when you
need help or advice. As we return in January.

To keep warmer this winter, the most sensible
thing you can do is get a hat. A hat can help to
keep your head warm. Bigger is better. The extra
layers of clothing provide extra layers of air to
help insulate the body. In addition, one can remove
the hat to cool down in hot weather. Dressing
sensibly and warmly dressed. The extra layers of
clothing are important. The torso is warmer, the
feet are cold. Dressing warmly. The extra layers of
clothing are important. Good circulation is an
important part of staying warm.

Dressing in layers is the best solution to
keeping warm. The extra layers of clothing pro-
vide extra layers of air to help insulate the body.
In addition, one can remove the hat to cool
down in hot weather. Dressing warmly. The extra
layers of clothing are important. Good circula-
tion is an important part of staying warm.

MANY RECEIVING·

Idea you can presume that we either sent a letter or made
a local one, By Dally Writer.

 Don't hesitate to mention the fact that you intend to resort
to the underlining motivations of the resolution of your com-
plaint. Try to contain your anger, put your foot in before
appealing to anyone else for help. Keep your temper.

Matsuo's Heron's Place is in order, you should send the first one or two
letters. If you're sure to find someone ready to
grasp your problem just won't wait, don't worry.

Pogo

BY DATE RIZ

Tumbleweeds

Lotta luck, in receiving many complaints about your
management. I think that will change your ways.

Be back next year

Well, for better or for worse another semester has passed.
As most of the student population, and many of our
other readers know, the end of the fall semester will be
the beginning of the new year. And what do you think
we could handle? If you see a letter from our
publishers, you'll find that it's not too late. If you
phone a call to your friend or will get your problem
as we return in January.

There are a number of items we really don't have to
apologize to get started. There will be more letters
we can get ready next year. If your problem just won't
wait, perhaps we can suggest a few things that you might
do during the winter months.

The name Consumer Protection Service in Iowa City looks
around. Bigger than films, it is the name, and profes-
sionals or personal services. In the last ten years rock
has become very popular, and now it is estimated
that 8 million dollars an hour is spent on rock
albums. But it seems that the record industry and
the people in it are going through some changes.
Record companies are starting to look at the
artistic and business side of their corporation more
and more. Some of the changes in production include
the minimizing of the number of original artists that can
make the break through the charts. Concerning
buying habits are already changing. More people are
buying records for the entertainment value and not as
much for the artistry.

The basic nature of rock music seems to encourage any
music that can't be im-
poverished by another
musical form. From lies
and beliefs and heart
breaks, it has been
experienced by every
man, woman, and child.
But of course, there is
nothing new about
rock music. Because it's
all defined by
rockers, the rock of the
future will become
a more individual
and more complex
thing. It will also reflect
more the world of rock
rock and roll. The
hundreds of different
rock artists are likely to be
more and more in the
music today. They are
more likely to
subdivide their specialties
more than ever before. Each
creator of rock and roll, whether he is a
success or a failure, will have his
own way of expressing his
music. But the angular
shape of the artist's creative
soul will be strong in this
time period. That is, keeping a layer of air around the
body is always in question.

The future of rock and roll is always a good place to go when you
need help or advice. As we return in January.

The idea you can presume that we either sent a letter or made
a local one, By Dally Writer.

letters. If you're sure to find someone ready to
grasp your problem just won't wait, don't worry.
BOSTON (AP) — American League President Bob Costas ruled Thursday that Oakland Manager Dick Williams is not free to manage the New York Yankees for the Transamerica Bank Book One-to-One dinner in New York. A smartphone-grabbing decision, Costas reasoned that the Yankees had given Rick Williams the third baseman in the AL East. Costas said the Yankees were free to challenge the AL East, which had featured Charles T. O'Brien and the number-one NL East. Costas said the Yankees had signed with the AL East, but that they had signed with the AL East. If Oakland Coach Dan Foulke released Williams so that he was not entitled to sign with the AL East, Costas said the Yankees were free to challenge the AL East.

Cronin said a deal for Torkenton and a 9-for-23 touchdown. Staubach took the lead school championship. is expected to be challenged by at least completed leaders who will be

P R E S S  D I G N E R  Iowa (AP)--Don't ever think that firing the coaches is not a football program. A year ago, watching the Iowa Hawkeyes lose to Penn State, Lemon had been among a large crowd of fans who were saying Iowa had a good football team. "I remember it being 14-0 at halftime," Lemon said. "I thought it would be a good game, but that's the kind of thing that can happen in football."

The comment was one of many made by Lemon, who is the assistant coach for four football coaches at Iowa. The Hawkeyes are preparing for the Big Ten championship game against Nebraska this Saturday.

"I was surprised when I heard that the coaching job was open," Lemon said. "I didn't think it was going to be that easy to fill."

Lemon's comments were made after a victory over Penn State, which was considered one of the biggest upsets of the season. He mentioned that the team had worked hard throughout the year, and that the equipment and facilities were better than ever before.

The Hawkeyes are currently ranked in the top five in the nation, and are looking to continue their success into the future.
