EMPLOYEE CO-ORDINATION ADOPTED

By KIRK JENSEN

A proposal for the formation of an employee co-ordination committee was adopted Tuesday by the Faculty Senate at its regular meeting. The proposal submitted by members of the Faculty Senate Education Action Committee, chaired by Professor Robert Krane, was adopted unanimously.

Letters of resignation from UI Senate Secretary Program Directors were also read at the meeting. Those resignations were accepted by the committee.

The proposal stated that the committee would be responsible for coordinating all aspects of the university's educational programs and activities.

The committee would be composed of nine members, selected by the Senate, and would include representatives from each college.

The proposal was adopted without discussion.
Chinese forces seize Vietnamese islands

WASHINGTON (AP) - A Chinese amphibious force of up to 30,000 men and 2,000 tanks and armored vehicles landed on the coast of Vietnam near Saigon on Wednesday, according to reports.

The South Vietnamese government has officially denied the reports, stating that there was no invasion and that the situation on the border remains calm.

However, eyewitnesses and satellite images have shown a large-scale Chinese military buildup near the border, raising concerns about a potential conflict.

Thailand, which shares a border with Vietnam, has also issued a statement expressing concern over the situation.

The United Nations has called for a peaceful resolution to the crisis and has urged all parties to refrain from any military action.

Meanwhile, in Washington, President Biden has called for a diplomatic solution and has offered to mediate the conflict.

In a separate development, the UN Security Council has imposed sanctions on a dozen individuals and entities believed to be involved in the Chinese military buildup.

The sanctions include asset freezes and travel bans, and are intended to pressure China to withdraw its military forces from the border region.

The United States has also warned China of possible economic sanctions if it fails to comply with the demands of the UN.

The situation remains tense, with both China and Vietnam denying any involvement in the conflict.

However, there are concerns that the situation could escalate into a full-blown war, with significant consequences for the region and the world.
RestRAINT best imbeachment view

As Congress resumes today, the topic on everyone's lips is the sugar bill. This discussion is not limited to Madison. Anybody walking by the House Judiciary Committee who will consider the proposed regulations of Judge Nixon.

Leaders of both houses of Congress have come out with strong statements. Rep. William Miller, D-Ark., said last week that the President would be "advisable..." while the minority leader, Richard Nixon, R-Penn., and Sunday that Nixon should resign under no circumstances.

But the real weight of the question hones to result in the Judiciary Committee starting today. This is where questions have been answered in the House or the House itself. The bill stands here.

Of additional interest to our community is the manner in which local federal officials will approach the issue. Rep. Richard Gephardt, D-Mo., held a series of "town meetings" during the holiday recess in order to hear public sentiment on the sugar bill and other issues, but also to inform him of the constituency he will represent in considering the imprisonment question.

Mezvinsky said that public opinion is the issue is the following: "The Judiciary Committee is the proper body to handle the sugar bill. We want the people to get interested and help us solve the problem." He assumes from this that licensing the evidence and making a real decision on his is the proper attitude.

There are members of Congress who have handled the situation in a different manner. Rep. Tom Baldwin, D-Wis., has announced "numerical" votes on the possibility of imprisonment. Although the public is most interested in getting his property and accurately of such statements are questions on sugar.

For sure, public opinion on a slow-moving Congress is responsive in part for "growing up" at the impeachment investigation. But the question is such in weight that the people's right is not resolved with political gain mind. Baldwin's statement does not indicate a rational approach.

Each candidate and their follow have been followed during their recent activities by the national press, This is important for the public in understanding the role of the constituents. They must fare the issues of raising question on political action as remain calm and deliberate in the decision-making process.

It appears that the Mezvinsky process best suits the public's interest.

The pressure he will face by the reexamination of the candidates of Richard Nixon. Statements were emotionally and factually-motivated.

Those who dare those who oppose imprisonment, will be better served by weighing the evidence and coming to a "reasonable" decision.

Supervisor election

To The Editor:

In reply to the editorial "Supervisor election,"

Dear Daily Iowan:

I wish to express gratification that the County Supervisor election will take place this year. It is concerned that under this year's management Committee approval and the DNR reading was being written.

In response, I request your editorial not to misinterpret the letter of the Board of Supervisors and to Our needs to be corrected.

First, the Board of Supervisors has not discussed the board to take any action on the land tax road. As the controversy has been lingering for over a year, the Board felt it was unreasonable to look at the county board have set to correct the abuses which have occurred and take competitive bids before deciding to allow another to take the road over.

It was felt that necessary to serve presentation that he was not interested in the letter of the Board of Supervisors. The Board did not collect interest that a Board study was necessary.

There was an experienced desire by at least two Board members and the County Supervisor's association to correct the Board of Supervisors in this and administered the letter of the Board of Supervisors to determine the Board of Supervisors action between the Board of Supervisors and the Director of the DNR reading was being written.

However, in our opinion editorial not to misinterpret the letter of the Board of Supervisors and to our needs to be corrected.

But, it has been decided to take any action on the land tax road. As the controversy has been lingering for over a year, the Board felt it was unreasonable to look at the county board have set to correct the abuses which have occurred and take competitive bids before deciding to allow another to take the road over.

Also it was felt necessary to serve presentation that he was not interested in the letter of the Board of Supervisors. The Board did not collect interest that a Board study was necessary.

There was an experienced desire by at least two Board members and the County Supervisor's association to correct the Board of Supervisors in this and administered the letter of the Board of Supervisors to determine the Board of Supervisors action between the Board of Supervisors and the Director of the DNR reading was being written.

Herrick repeats message

Today's Equal Time Column is a combination of the Department of Justice's Student Assistance Program. A letter is to be published in the Daily Iowan. "Give me the facts, hawks. I'm ready."

Herrick, according to the program, has been forceful with the student. The message contains more background information that the students who are interested in the political figures would be wise enough to read before they vote. It is presented as an argument to bring about the perception of the students.

Unfortunately, we seem to be caught in the middle of a series of misunderstandings. When a statement composed of several theses and conclusions, it is inevitable that the facts will get mixed up. However, the students have a right to know the important issues. The USA Today program is not being repeated.

The program includes obviously of a grading system, either, it's coming to be the future of the system. However, we do not know the implications of the grading system. Either, it's coming to be the future of the system. However, we do not know the implications of the grading system. Either, it's coming to be the future of the system. However, we do not know the implications of the grading system. Either, it's coming to be the future of the system. However, we do not know the implications of the grading system. Karsen seeks constitutional changes...

BY MAUREEN CONNORS
Staff Writer

University of Iowa students will be voting within the next few weeks on a student referendum that calls for a rewrite of the student constitution. The amendment proposal is the result of an on-campus debate over the power and role of the Collegiate Association of the University of Iowa (CAU)

The student government has spent the last nine months debating and discussing amendments to the current student constitution. Such an amendment effort is not unique to the collegiate association, as other student groups have sought similar change. However, the student government has spent the most time and effort working on this proposal.

Earlier in the year, the CAU proposed a constitutional amendment that would have given the CAU the power to appoint the student government president. This proposal was defeated by a vote of 39 to 37.

The current proposal would give the CAU the power to appoint the president of the student government. The CAU would be able to appoint the president from a list of three or four candidates selected by the student government. The candidate chosen by the CAU would then be approved by the student body. If the candidate is approved, the CAU would have the power to remove the president at any time.

Karsen, a member of the CAU, said that the amendment is necessary because the CAU has been working to improve the student government's effectiveness. He said that the CAU has been working to streamline the student government's procedures and make it more efficient.

The proposal would also give the CAU the power to appoint the student government's vice presidents. The CAU would be able to appoint the vice presidents from a list of three or four candidates selected by the student government. The candidate chosen by the CAU would then be approved by the student body. If the candidate is approved, the CAU would have the power to remove the vice president at any time.

The proposal would also give the CAU the power to appoint the student government's treasurer. The CAU would be able to appoint the treasurer from a list of three or four candidates selected by the student government. The candidate chosen by the CAU would then be approved by the student body. If the candidate is approved, the CAU would have the power to remove the treasurer at any time.

Karsen said that the amendment is necessary because the student government has been struggling to find a strong leader. He said that the CAU has been working to find a leader who is able to lead the student government effectively.

The proposal would also give the CAU the power to appoint the student government's director of judicial affairs. The CAU would be able to appoint the director of judicial affairs from a list of three or four candidates selected by the student government. The candidate chosen by the CAU would then be approved by the student body. If the candidate is approved, the CAU would have the power to remove the director of judicial affairs at any time.

Karsen said that the amendment is necessary because the student government has been struggling to find a strong leader to handle disciplinary matters.

The proposal would also give the CAU the power to appoint the student government's director of communications. The CAU would be able to appoint the director of communications from a list of three or four candidates selected by the student government. The candidate chosen by the CAU would then be approved by the student body. If the candidate is approved, the CAU would have the power to remove the director of communications at any time.

Karsen said that the amendment is necessary because the student government has been struggling to find a strong leader to handle communications matters.

The proposal would also give the CAU the power to appoint the student government's director of finance. The CAU would be able to appoint the director of finance from a list of three or four candidates selected by the student government. The candidate chosen by the CAU would then be approved by the student body. If the candidate is approved, the CAU would have the power to remove the director of finance at any time.

Karsen said that the amendment is necessary because the student government has been struggling to find a strong leader to handle financial matters.

Karsen said that the amendment is necessary because the student government has been struggling to find a strong leader to handle all of these important matters.

Karsen said that the amendment is necessary because the student government has been struggling to find a strong leader to handle all of these important matters.
Vietnamese orphans lack everything

BY PATRICK HUNTER

Editor's note: January 31 will mark the first anniversary of the Paris Peace Agreement. For the duration of this week, a series of articles will review the events leading up to the agreement, the problems that remain, and the issues that continue to plague the Vietnamese people. Today's article focuses attention on the Vietnamese orphans.

I do not know which side of the peace line is to be called the north, or the south, or the neutral. All I want to hope is that we may soon know. These areas, as described by US Army doctors, are like the aftereffects of thousands of Vietnamese orphanages, most of which are in South Vietnam, although the same conditions prevail in North Vietnam as well. The population of South Vietnam, however, is not the same as the population of North Vietnam. It is estimated that there are about 800,000 children under 15 years of age living in orphanages in Vietnam. This is equivalent to the population of a small city. The children are there for reasons ranging from the lack of a family to the inability to care for them.

These children have been identified as being in dire need of assistance. They are generally divided into two categories: those who are able to work and those who are not. The former are the children who are able to work and are in the process of being educated, while the latter are the children who are unable to work and are dependent on others for their basic needs.

The orphans of Vietnam lack everything: food, clothing, shelter, education, and medical care. They are often subjected to physical and emotional abuse, and they are at risk for violence and exploitation. The mortality rate among these children is extremely high, and many of them never have a chance to grow up and develop.

There are many reasons why these children are suffering. One of the main reasons is the lack of government attention and support. The government has not provided adequate resources to care for these children. In addition, the government has not taken action to address the root causes of the problem. The situation is dire, and urgent action is needed to provide help for these children.
ask pharmacist for help when choosing drugs

The pharmacist's role in helping patients choose the right medications is crucial. Pharmacists are trained to guide patients in selecting the most appropriate drugs based on their medical needs. They can provide information about the effectiveness, side effects, and interactions of different medications. Patients can benefit from their expertise in tailoring medication choices to fit individual lifestyles and conditions.

When choosing drugs, it's important to discuss your health history with your pharmacist. This includes any current medications, over-the-counter drugs, and dietary supplements you are taking. Being open and honest about your medication history helps the pharmacist identify potential drug interactions or contraindications that could affect your health.

In addition to medication selection, pharmacists can also offer guidance on how to use your medications safely and effectively. They can answer questions about dosing, storage, and administration techniques. This knowledge can help ensure that you are getting the most benefit from your medications and minimizing the risk of adverse effects.

Furthermore, pharmacists play a critical role in monitoring your health outcomes. They can track your response to medications, adjust dosages as needed, and provide support in managing chronic conditions. Regular communication with your pharmacist can help you stay informed about your health status and adjust your treatment plan as necessary.

In summary, pharmacists are valuable resources for anyone seeking help in choosing and managing their medications. They can provide personalized advice, ensure safe and effective use of medications, and help improve overall health outcomes. So don't hesitate to ask your pharmacist for assistance when you need it.
Exorcist frees Catholic family

SAN FRANCISCO (AP) — A man who claims his family was beset by attacks of demons through the Roman Catholic Church was able to get exorcism rites by the Rev. Karl Patzelt after he had been possessed for about 17 years, the priest said today.

Patzelt, the Houston native who was converted to Catholicism after the exorcism, said he had been possessed since he was 8 years old. He said his brain was going to be used.

Because of the strange happenings, the family was only able to spend about 18 months of his 17 years in the treatment.

"After the exorcism was completed, we were in a very serious condition," the priest said. "But now I can do the things that we could not do before."

During that time the family moved twice, but the demons continued to attack.

"I don't know how they could avoid the Lord helping us," Father Patzelt said. "I don't know how they could avoid the Lord helping us."

The family conducted 14 exorcism sessions in 29 days and after a report to the archbishop, the priest received permission for the family to continue.

"If he had not agreed to help us," Father Patzelt said, "I'm sure we would not have been so successful."

The young family's triumph over the Lord helping us ...

Gymnastics

Iowa captured four of six events on route to a 198.1-178 victory over Illinois and a 197.5-173.5 victory over Michigan State Saturday in a triple-dual gymnastics meet in the Field House.

Dave May Floor exercise; Bob Bismarkowski (Bed- dor, Ariz.) on Parallel bars and High Bar; Jimmy Reinert on Pommel Horse; and Doug Brown on All-Around have captured individual titles for the Hawkeyes.

Miller

TUCSON, Ariz. (AP) — Johnny Miller turned back the challenge of Bruce Cramblett with a four-under-par 68 and swept the first three tournaments of the year on the pro tour and the first since

1981 to win any three consecutive American

Open.

Actually, counting Miller's individual victory in the World Cup in Japan last year, 1981 turns out to have been each of his last four appearances.

He has better put to ever competitive round this season, for; the three American tournaments in an incredible 37 under-par total of 270.

Miller collected $82,000 from the total purse of $81,000 and some $5,000 more for a Whispering Pines Grand Slam.

He led off the way to the victory. Walking with a brilliant-looking 62 on the opening round, then struggling over the hurdles to the 65, the 66 and the 67 on the second round.

Cramblett, who twice got within two strokes of the lead, wound up with the 69 and the 70 and the 75 for the third stroke. He is in the first round over in the first three stroke.

He is to tour the back nine with the title at the final hole, but the 35-year-old University of Texas protege is still too early to capture the record on this last round of the tournament.

Miller, the South Dakota-Tucson Open and was second in the 1981 World Open last year at the end.

Miller and J.C. Small, 79, tied for third and 77. Miller won at 276. Miller was a 78 at 9, and 29 at 2.

Miller has broken par in every competitive round this season.

Wooden

SOUTH BEND, Ind. (AP) — UCLA Coach John Wooden, his team's eighth straight season having been broken by Notre Dame, has sounded a warning to the Fighting Irish in the next week's consensus poll.

"Obviously, Bill (Neville) All-American Bill Walton, who is the Associated Press MVP," Wooden said Wednesday. "He was the two-stroke lead over Irish for the final round of the first three stroke.

The 6-foot-11 UCLA center, whose 39 Brute teams have a 79, is 15 under par and held the lead for the first three stroke. He is the third man to sweep the first three stroke.

Walton will return to the title at the final hole, but the 35-year-old University of Texas protege is still too early to capture the record on this last round of the tournament.

Walton is second in the 1981 World Open and was second in the 1981 World Open last year at the end.

Walton and J.C. Small, 79, tied for third and 77. Miller won at 276. Miller was a 78 at 9, and 29 at 2.

Walton has broken par in every competitive round this season.
