**Washington**—A deeply worried Richard M. Nixon was told today by a possibly impatient President that he must make a decision on whether to resign soon or face impeachment. Mr. Nixon was informed of the President's position by Vice President Spiro T. Agnew in the Oval Office Thursday afternoon.

The President was extremely upset. He appeared quite physically shaken and was at times visibly emotional. His voice quavered occasionally. He said, "This is a very serious situation." He ordered that a statement be prepared. The President asked to see the legal advice of the counsel for the presidency, John M. Ehrlichman, at 8 p.m. for a meeting on the Watergate affair. Mr. Nixon was not told precisely what case the but he was told President's counsel had prepared or what the President had in mind.

Part of that story was that Mr. Nixon had not been allowed to proceed in early April in the original seven cases. He was told the original seven were to be stripped of their immunity and in the suit and to allow immunity in the context of the first nine cases.

"Labor will be bared," said a presidential aide. Nixon threatened to use the suit to prevent any possible savings in the suit or to attempt to broaden the case. Nixon threatened to use the suit to prevent any possible savings in the suit or to attempt to broaden the case.

The Police Pay

During recent years, there has been a con-
mization of efforts by the local authorities to "professionalize" the Iowa Police

Department. Education and training are now, probably more than ever, stressed for officers on the

force and for the training academies.

However, a serious obstacle to professionalization is low pay.

While the nation has been facing double digit inflation, Iowa police officers have only had a 3.5% pay raise in the past two years.

Police work is demanding, and the city cannot attract and retain police officers with college-level education without adequate compensation.

The average pay for a patrol officer in this town is just under $10,000, plus whatever he can knock down in incentive pay, according to

figure in the $14,000 city budget. In other words, the policeman makes just as much as a worker in a unionized factory.

But the factory worker doesn't have to dodge poisons, battle diseases, or wear a uniform that makes him look a target. The police officer does, and those dangers are real. At least two policemen have caught poisons in the last week.

You may not like cops. You may not like the cops or do their job. You may not like the laws they are obliged to enforce. But the facts are that police forces are necessary to the functioning of our society. The quality of police personnel—and of the job they do—will improve as long as officers aren't paid a dignified wage.

A Vote of Thanks

I would like to thank the people of this town for an enjoyable visit. The staff, the nurses of the local hospital, and others were evenly hospitable and protected the city against any mishaps.

My brother in law, who is a retired police officer, has voiced the same sentiments.

Thank you for being so accommodating.
