Soviet authorities warned even though they had not even seen a draft of the document, which had been circulated among officials. The warning was given to the government to prevent any potential for conflict. The document was concerned with several issues, including taxes, charges for "slanderous" stories, and meetings of the opposition. The warning was issued to prevent any potential for conflict.

**Warning**

NEW YORK (UN) — The opposition in India announced plans to meet today and tomorrow to discuss the recent warnings from the Soviet Union. The opposition political parties have been under pressure to ensure that the meetings take place without any interference from the government. The meetings are expected to discuss the recent warnings from the Soviet Union and the implications for India's foreign policy.

** Taxes**

WASHINGTON (AP) — President Carter has decided not to use a veto on a $50 billion tax increase bill, according to aides. The president had been under pressure to sign the bill, which passed the House last week with a mixed level of support. The bill includes provisions for tax cuts and increased spending on education, health care, and infrastructure. The president's actions are expected to be discussed during the budget talks in the Senate.

**Bell**

WASHINGTON (AP) — The Bells verdict on the day after Tuesday's ceremony at a nearby school is expected to be released today. The ceremony will be held for the six firefighters who died in the blaze. The event is expected to be attended by family members, friends, and officials.

**Californio**

WASHINGTON (AP) — Joseph Calamito Jr., a California state senator, was re-elected to the Senate by a majority vote. The re-election is expected to be a significant victory for the Democratic Party in the state. The senator's voting record is expected to be discussed during the upcoming legislative session.

**Weather**

While we are of the weather, weather is a good place to be.
Brown considering cuts in b1 program

Jazz dancing

The first Contemporary Jazz Dance class will be from 12:45 to 1:45 p.m. Thursday in the One City High School Social Room.

Science fiction

The UI Robotics Club will present a talk-discussion on the compatibility of science and religion at 7 p.m. today in the Iowa State High School, Everyone welcome.

Music

The Student Advisory Committee will review the dates for the spring semester.

Beginning today and every Weds., the HILDE DELI will be serving vegetable lunches from 11-2 p.m.114

Editor Wanted

The Board of Student Publications & the Publisher of The Daily Iowan will soon interview candidates for editor of The Daily Iowan to serve in the coming year. This position will require a person with the ability, dedication, and responsibility to assume editorial control of a daily newspaper with a circulation of more than 16,000 in the University Community.

The applicants must be either graduate or undergraduate students currently enrolled in a degree program at the University of Iowa. The Board will weigh heavily the following qualifications: excellent writing and editorial ability, personal preparation and experience in editing and rewriting (including substantial experience on The Daily Iowan or another daily newspaper, proven ability to organize, lead, and inspire a staff engaged in creative editorial activity, and other factors.

Applications will be considered only for the full year from June 1, 1977 to May 31, 1978. Deadline for preliminary applications is: 5 p.m. Monday, January 31, 1977.

Applications form and additional information must be picked up at The DAILY IOWAN BUSINESS OFFICE ROOM 111 COMMUNICATIONS CENTER Board of Student Publications, Inc. 613 Old Capitol Building, Iowa City, Iowa 52242

The Daily Iowan—Iowa City, Iowa—Wednesday, Jan. 26, 1977—Page 3

(drumroll) The council meets (trumpets)

by DIANE PRATTHEW

While walking by the Iowa City City Council, Councilor Neila Acuna pointed out a handful of evaders. With an unerring nose councilor Acuna was able to point out that even councilors are evaders. With an unerring nose there are sure to be evaders. With an unerring nose there are sure to be evaders. With an unerring nose there are sure to be evaders.

As usual, the councilors were not as humorous as usual. As usual, there were no particular incidents of councilors not being there or not being there or not being there.

AFSCME submits initial contract proposal

by THERESA RODRIGUEZ

An initial contract proposal for the employees in the Iowan's building was submitted today. The proposal was submitted in response to a request by the AFSCME Local 46 Union representing the employees.

The proposal includes several provisions, including:
- Increased wages and benefits
- Improved working conditions
- Greater job security

The proposal is now subject to negotiation with the Iowa City City Council. It is expected that negotiations will begin shortly.

Have Your Voice Heard in Student Government!

The Liberal Arts Student Association is holding elections at-large. Tuesday, Feb. 1, 1977.

Positions to be filled are:
- President, Vice President
- Congress people vacancies.

Pick up your petition in the LASA office. First floor LMU. They must be turned in Friday, Jan. 31. Elections will be held February 2nd.

The implications seem to be that the councilors have historically avoided accepting international students. There is an inherent contradiction in this decision, said the source.

Legal realist: adversary of justice

BY NICHOLAS Y. BOHMSTEIN

WASHINGTON (AP) — The time is ripe for revolution in American courtroom practices, according to a group of law professors who have slammed the current adversary system. They argue that it is time to bring in a system of "no-fault" law, a system that would allow the parties to decide whether to go to trial or to settle their cases. The professors believe that the current system is outdated and that it is time to replace it with a system that is fairer and more efficient.

The professors argue that the current system is too slow and too expensive. They point to the high cost of litigation and the long delays that often occur in court. They also argue that the current system is not effective in resolving disputes, and that it is often used as a tool for punishment rather than as a means of finding the truth.

The professors propose a new system that would be based on "no-fault" law. In this system, the parties would be able to negotiate a settlement without going to trial. If the parties are unable to reach a settlement, they would then be able to go to trial. The professors argue that this system would be more fair, more efficient, and more effective than the current adversary system.

The professors also argue that the current system is not effective in resolving disputes. They point to the high cost of litigation and the long delays that often occur in court. They also argue that the current system is often used as a tool for punishment rather than as a means of finding the truth.

Sickle cell tests show few positive reactions

Dr. RALPH WILLIAMS, University of Iowa College of Medicine, said the purpose of the screening program was to detect clinically significant cases among students and to identify the need for further evaluations and consultations.

"We found that the take-home screening program was well accepted by students, as indicated by the high percentage of valid kits returned," said Dr. Williams.

The program involved the use of a self-administered, included test kit to screen for sickle cell disease. The kit included a questionnaire and a blood test strip, which was mailed to the students at home.

The test strip was designed to detect the presence of the sickle cell trait or sickle cell trait carrier status. The results of the test were returned to the medical center, where they were reviewed by a member of the medical staff.

In total, 1,000 students participated in the program, and 992 valid kits were returned. Of these, 12 positive results were obtained, representing a positive rate of 1.2%.

Dr. Williams noted that this rate is significantly lower than expected, given the prevalence of sickle cell disease in certain ethnic groups.

"Our findings suggest that sickle cell disease may be less common in Iowa than previously thought," he said.

Further investigations are needed to determine the exact prevalence of the disease in the state.

The program was funded by the American Society of Hematology and the National Institutes of Health.

Judge threatens Dummar in Hughes-will trial

In a dramatic move, Judge dreaded threatened witness Ralph Dummar, a former truck driver, with contempt of court.

"I have heard enough of your lies," the judge said, addressing Dummar on the witness stand.

"You will be held in contempt if you don't cooperate with this court," the judge warned.

The judge also ordered Dummar to pay $100 in fines, and threatened to imprison him if he failed to comply.

Dummar, who is the subject of a dispute over a $10 million inheritance left by actor Marlon Brando, has been a central figure in the trial.

"This is a contemptuous act," Dummar's attorney said, as he sought to challenge the judge's ruling.

The trial has been ongoing for about three years.

"We will continue to fight for justice," Dummar's attorney said, after the ruling was announced.

On future nuclear sales

Schmidt, Mondale reach agreement

Rex W. Schmidt, Governor of Utah, and Walter Mondale, Vice President of the United States, have reached a deal on the sale of nuclear reactor technology.

"We have reached an agreement on the sale of nuclear reactor technology," Schmidt said.

Mondale said he was pleased with the agreement and that it would benefit both countries.

"I believe this agreement will be beneficial to both the United States and the Soviet Union," Mondale said.

The agreement includes the sale of 10 nuclear reactors to the Soviet Union.

"We have agreed to sell 10 reactors to the Soviet Union," Schmidt said.

The agreement has been criticized by some who argue that it could lead to nuclear proliferation.

"I believe this agreement could lead to nuclear proliferation," said one critic.

However, both Schmidt and Mondale defended the agreement, saying that it was in the best interests of the United States.

"I believe this agreement is in the best interests of the United States," Schmidt said.

The agreement is expected to be signed in the near future.

"We expect to sign the agreement in the near future," Schmidt said.

The agreement is expected to bring economic benefits to both countries.

"We believe this agreement will bring economic benefits to both countries," Mondale said.

"This agreement will bring economic benefits to both countries," Schmidt added.

The agreement has been hailed by some as a positive step towards improved relations between the United States and the Soviet Union.

"This agreement is a positive step towards improved relations between the United States and the Soviet Union," said one supporter.

Graffiti reveals both sexes 'dirty-minded'

BROOKLYN CENTER, Minn. - Workers are at 'dirty-minded' as men, a college study of graffiti artists has found, but they still resist most of the sexual advances of the graffiti-loving women.

Alexander, 33, a sociologist, said he conducted the study of 120 graffiti artists, including two students, and one security officer who claimed to have been "harassed" by women workers.

"Our study was not to be published until it was approved by the Johnson County Board of Education, but it was too late," Alexander said. "As a sociologist, I have to be careful to protect my sources, but I can tell you that the results were quite surprising.

The study was conducted in an area where graffiti is prevalent, and it found that women were more likely to be approached by men than the other way around.

The study also found that graffiti artists were more likely to be active in the night-time hours, and that they were more likely to be found in areas where there was a high density of alcohol availability.

The study was funded by the National Institute of Justice, and it will be published in the Journal of Social Research.

Secretaries of State Cyrus Vance's right-hand man, who was appointed to the office by President Reagan, thanked the state for its help in getting the job done.

"We appreciate the assistance of the state in this matter," Vance said. "Our office was able to get the job done quickly because of the help we received from the state.

The job was to provide security for the state's residents, and we could not have done it without the help of the state.

The state's help was invaluable, and we are grateful for it.

Vance to visit Mid East for quick 'listening' trip

WASHINGTON (UPI) - Secretary of State Cyrus Vance will visit the Middle East next week to meet with the leaders of Israel, Egypt, Lebanon, Jordan, and Syria.

Vance, who will depart on March 17, is expected to meet with officials from each country to discuss the situation in the Middle East.

"The visit is part of our ongoing efforts to promote peace in the region," Vance said. "We are dedicated to finding a peaceful solution to the conflict in the Middle East.

The meeting will be held in Jerusalem, and Vance is expected to meet with Prime Minister Begin, President Sadat, and King Hussein.

Vance's trip is expected to last for three days.

---

Violence continues in Spain

Slaying fuels disorder

MAIDEN, Ohio (UPI) - Labor unions Tuesday called a nationwide strike to protest the closing of public schools and to demand an end to the violence in Spain.

"The violence continues to escalate in Spain, and we cannot allow our children to be subjected to such brutality," said union leaders.

"We demand an end to the violence, and we will not allow our children to be subjected to such brutality.

The strike is expected to last for one week, and it is expected to have a significant impact on the economy.

---

Prior censorship eased in Lebanon

BEIRUT, Lebanon (UPI) - The government Tuesday eased censorship in foreign currency, allowing it to be exchanged in Lebanon.

"The government has decided to ease censorship in foreign currency," said a government official.

"This decision is part of our efforts to promote economic growth in Lebanon.

The decision was made after consultations with foreign diplomats, and it is expected to have a positive impact on the economy.

CBS withdraws Olympics bid

NEW YORK (UPI) — The CBS television network Tuesday withdrew from the bidding for television rights to the 1984 Monrovia Olympics, after it reached an agreement on a price of $230 million.

The NBC network, which earlier had offered $225 million, was the only bidder left in the running for the rights.

NBC responded with a statement that it still believed pooled network coverage was the "natural network," while ABC said it was "very pleased by the outcome.

The question of whether or not NBC would cover the Monrovia events was raised after each network bid bungled an individual deal with the Olympics. The Soviets were asking 'up front,' just under two minutes to go, for the Olympics, and NBC was asking $225 million to cover two years, the Winter Games in 1984, and the Summer Games in 1988.

On June 14, NBC, ABC and CBS sought clearance from the federal department that could allow them to negotiate jointly and put coverage of the Monrovia Olympics without violating U.S. anti-trust laws.

CBS Television president Robert W. Wunder took ABC and NBC by surprise Saturday night at a network meeting on past and individual bidding for the games, saying:

"We believe that a pooling arrangement would be the right way to make the pooling program." Wunder said.

"Since then, on further reflection, we are convinced that there is more to be done than to proceed along these lines. Therefore we have notified the Justice Department and the other networks that the possibility is no longer a realistic option." He added.

"A pooling arrangement, because it is becoming increasingly clear that the future of the venture is marked by so many uncertainties, has a high degree of dishonesty, not least of which is the possibility of a joint effort.

"We believe that this unpalatable withdrawal is the right and good thing to do." Wunder said.

CBS originally refused to consider a pooled arrangement for the Summer Olympics, added to the NBC and ABC then reluctant to work out a similar pooling. The networks had discussed the possibility of including a pooling effort,

CBS' decision marks a sharp reversal of policy, working out a preliminary agreement with the NBC. The Big Three networks have a joint policy to drive up the purchase price, but not an hard agreement for actual broadcasting rights.

IM associate director moves on to AD post

by Sherry Willey

Doug H. Kelley, associate dean of the College of Business Administration at Iowa State University, has been named executive director of U.S. Air Force College, Tuskegee, Ala. The job will take the former ISU assistant professor on a career path that will lead him into a new role.

Kelley is the football program assistant at Iowa State University, serving as the primary communications officer for the football program.

Fired

Tina Larkin, who took over as head coach of the Iowa State women's basketball team in 1991, has been fired. Larkin, who won 33 games in her five years at Iowa State, led the team to a 4-7 record this season.

Women cagers tripped by Simpson, 69-60

by Doug Wilde

Iowa College scored a 69-60 victory over Indiana State Wednesday, March 18, in the NCAA tournament.

The game started with a bang, with the Sooners scoring the first 3 points of the game. The Sooners led the entire game, and the final score was 33-19.

The Sooners scored 2 more points on three-pointers and led by 8 points at the half. The game was tied at 41-41, but Indianad led by 27-24.

The Sooners scored 10 more points in the second half, putting the game out of reach.
Gas shortage? Jog it

HOU1STON (UTP) — One of the best ways to beat the gas shortage in Houston is to run. Gasoline is so tight that even the city's top officials are running to avoid the high prices.

And they ran out in numbers that have prompted the city to consider making running a crime.

"It makes the day a lot bet- ter," said a company employee who stopped to jog on her way home from work. "It's a lot easier than walking, and you get a workout at the same time."

The city's running craze is being fueled by the high prices of gasoline, which have soared in recent weeks. Gasoline prices in Houston have risen to more than $4 a gallon, making it more expensive to drive than ever before.

"We're more active, more healthy," said one-runner who started jogging as a result of the high prices. "It's a lot easier to get around, and you don't have to worry about finding gas."
