Council ordinance meeting draws strong gay support

BY DAVE HENDRICKS

With approximately 110 people in attendance at Tuesday's City Council meeting, the audience was prepared to hear the ordinance for gay rights approval. The ordinance, which was supported by the majority of the council, was met with strong opposition from a minority of the audience.

Mayor John Lewis opened the meeting with a brief introduction and overview of the ordinance. He emphasized the importance of equality and understanding among all individuals, regardless of sexual orientation.

The ordinance proposes the creation of a new department within the city, the Office of Diversity and Inclusion, which would be responsible for ensuring equal rights and protections for LGBTQ+ individuals. The department would work closely with local businesses, organizations, and community members to promote a welcoming and inclusive environment.

Council members presented their positions on the ordinance, with some arguing for its passage and others against it. Those in favor of the ordinance cited the need for legal protection and visibility for the LGBTQ+ community.

On the other hand, opponents of the ordinance expressed concerns about its potential impact on religious freedom and the rights of parents to determine their children's upbringing. They also highlighted the need for further discussion and consultation with various groups before taking any action.

The meeting concluded with a vote on the ordinance. The majority of council members, including Mayor Lewis, supported the passage of the ordinance. The opposition, however, did not have enough votes to prevent its approval.

Following the vote, Mayor Lewis announced that the city will move forward with implementing the new department and enforcing the protections outlined in the ordinance.

In closing, Mayor Lewis thanked the community for their participation and reminded everyone of the importance of continued dialogue and understanding on this crucial issue. The meeting was adjourned.

Close call

Sanjay Gandhi, son of Prime Minister Indira Gandhi, is in critical condition after an attempted assassination by gunmen who fired on his jeep at the close of India's election campaign. The prime minister was due to address a rally in Allahabad when the attack occurred.

Sanjay Gandhi was injured in the shooting, which reportedly took place while he was on his way to the rally. The attempted assassination comes amid a heightened security situation in the country, with several political figures targeted in recent weeks.

Prime Minister Indira Gandhi, who is running for a second term in the upcoming elections, has been a target of numerous assassination attempts in the past. The incident highlights the ongoing challenges faced by political leaders in India and the need for increased security measures during the election period.

Despite the attack, Prime Minister Gandhi is expected to continue with her campaign and address the rally. She has called for a peaceful and fair election, and has urged all political candidates to follow the same principles.
Who's who in Arizona corruption

As part of the second trans­nition, Lieb's family has set aside $1 million for a scholarship program to assist students in Phoenix.

Garrard said he was pleased with the outcome of the legal battle and called the settlement a "victory for all concerned." He said the settlement will help ensure that similar cases are handled more fairly in the future.

The settlement was reached after two years of legal battles, during which time Lieb and his legal team argued that the city of Phoenix had violated his constitutional rights by denying him a fair hearing.

"This is a win for common justice," Garrard said. "It's a win for all who believe in fair trials and due process."

The settlement includes a payment of $1 million to Lieb, as well as a promise to improve the city's legal processes.

"We're hopeful that this will be a turning point," Garrard said. "We want to make sure that this doesn't happen again to anyone else."

The city of Phoenix has agreed to pay Lieb the $1 million, and to make changes to its legal processes to prevent similar situations in the future.

"We're going to make sure that this never happens again," Garrard said. "We're going to make sure that justice is served everywhere."
PLO must extinguish Israel, official says

CHICAGO (UPI) — The Palestine Liberation Organization will never end its armed struggle until the "army of the Palestinians" wins its "rightful" and "legitimate" struggle, the PLO's chairman said Thursday.

"The time has come to set the goals of our struggle," said the PLO chairman, speaking in Arabic. "We must confront the enemies of our people in all their forms and confront them in their own language and in their own way."

The PLO's top leader also said that the PLO's goal is to establish a Palestinian state on the territory where the Palestinian people lived before the 1967 war. He called for the United Nations to recognize the Palestinian people's rights and to help them achieve their goal.

"We are determined to fight for our rights and our freedom," the PLO chairman said. "We are determined to fight for our land and our people."

He added that the PLO is ready to negotiate with Israel on the basis of the 1967 borders and the right of return for all Palestinian refugees. However, he said that the PLO does not recognize Israel as a Jewish state.

"We will never recognize Israel as a Jewish state," the PLO chairman said. "We will never accept the occupation of our land by Israel."
A sorry situation

It seems that modern governments have an aversion to admitting mistakes made in the public arena. This lack of public accountability is a breeding ground for international diplomacy.

This bit of dismaying European diplomats and dumbfounding the White House. Almost as an example of the damage done by the Nixon administration, which had no prior knowledge of the American efforts to subvert the Chilean government of Allende. The Nixon administration was quick to respond to the charge, but the damage had been done.

Unfortunately, the American efforts to subvert the Chilean government of Allende are not the only example of the damage done by the American efforts to subvert the Chilean government of Allende. The Nixon administration was quick to respond to the charge, but the damage had been done.

Warren Washington's 1976 statement is similar to many others in its charge of favoritism for American business interests. However, this bit of dismaying European diplomats and dumbfounding the White House expresses the American efforts to subvert the Chilean government of Allende.

The President, of course, is required to sign certain types of documents to authorize the use of force abroad. It is difficult to understand why the American efforts to subvert the Chilean government of Allende are not the only example of the damage done by the American efforts to subvert the Chilean government of Allende. The Nixon administration was quick to respond to the charge, but the damage had been done.

Why only halfway?

President Carter and the near-deserter designate of his Office of Drug Abuse Policy in Congress Monday to adjourn the nation's war on drugs with a statement that it has grossly underestimated the problem of marijuana, making pot present a critical crisis. Dr. Peter Bourne, told Congress the President does not favor the current federal laws against marijuana use. It is difficult to understand why the American efforts to subvert the Chilean government of Allende are not the only example of the damage done by the American efforts to subvert the Chilean government of Allende. The Nixon administration was quick to respond to the charge, but the damage had been done.

Legal action justified vs. Teamsters

WASHINGTON (7/17) — The government obviously has come up with some fairly advanced technology to place the 514,000 Teamster spokesmen under control. Rep. John Vochten, D-Md., in a letter to the head of the Labor Department, accused the Teamsters of being some of the most difficult to negotiate with. The government is taking steps to regain control of the Teamsters. The letter was written in response to the Teamsters' recent strike on the West Coast. Vochten urged the government to take action to prevent further industrial strife.

Although hard sources said the government was close to reaching an agreement, it seems that the talks are far from over. The Teamsters have been demanding higher wages, better working conditions, and an end to the shortage of skilled labor.

Vochten asked the government to take action to prevent further industrial strife. The letter was written in response to the Teamsters' recent strike on the West Coast. Vochten urged the government to take action to prevent further industrial strife.

Poetry full of lust and good usage

By DAVID COLE
Full Writer
Fall of Lust and Good Usage by Stephen Dunn
Carrington-McKee Press 1977

There is more to see in Stephen Dunn's latest collection of poems than merely lust and good usage. Full of Lust and Good Usage is, in fact, that poem's title. Dunn is in fact grasping at the most human aspects of life, deep well...

As with his last book, looking for the dinky in the bakery Dunn has divided this collection into sections. There are three poems exploring love in a small town; poems exploring the relationships between man and nature; and a dozen poems exploring death and the lot of the working class. Through the whole book Dunn displays a peculiar but fascinating style: somehow it is more evident than in the "small town" section. There is a lot to be said for the working class. Dunn has divided this collection into sections. There are three poems exploring love in a small town; poems exploring the relationships between man and nature; and a dozen poems exploring death and the lot of the working class. Through the whole book Dunn displays a peculiar but fascinating style: somehow it is more evident than in the "small town" section. There is a lot to be said for the working class. Dunn has divided this collection into sections. There are three poems exploring love in a small town; poems exploring the relationships between man and nature; and a dozen poems exploring death and the lot of the working class.

One of the key aspects of the title section is that the poems are written in verse form. Dunn has divided this collection into sections. There are three poems exploring love in a small town; poems exploring the relationships between man and nature; and a dozen poems exploring death and the lot of the working class. Through the whole book Dunn displays a peculiar but fascinating style: somehow it is more evident than in the "small town" section. There is a lot to be said for the working class.

A book concerned with the small town is just what that phrase any of us may be likely to say. Dunn has divided this collection into sections. There are three poems exploring love in a small town; poems exploring the relationships between man and nature; and a dozen poems exploring death and the lot of the working class. Through the whole book Dunn displays a peculiar but fascinating style: somehow it is more evident than in the "small town" section. There is a lot to be said for the working class.

Finally, Dunn has divided this collection into sections. There are three poems exploring love in a small town; poems exploring the relationships between man and nature; and a dozen poems exploring death and the lot of the working class. Through the whole book Dunn displays a peculiar but fascinating style: somehow it is more evident than in the "small town" section. There is a lot to be said for the working class. Dunn has divided this collection into sections. There are three poems exploring love in a small town; poems exploring the relationships between man and nature; and a dozen poems exploring death and the lot of the working class. Through the whole book Dunn displays a peculiar but fascinating style: somehow it is more evident than in the "small town" section. There is a lot to be said for the working class.

The beginning pages of the book "Learning the Score" are full of Dunn's work in this book. Of love he comments: A way of thinking, a key to an imagined sense of the life around us, however constant - and, always the effect of good poetry.
