Lethal tanker rupture

A ruptured tanker, lathis, has left a lethal legacy of invasive liquid poured by a clinging oil slick on a waterway near the inland Rockwood, Tenn.

CIA chief's top aid quits, predicts changes

WASHINGTON (UPI) — CIA chief Stansfield Turner yesterday announced the resignations of his top aide, B. Henry Knoche, who said he left to give the agency's first new Macon. The announcement comes just three days after the agency's chief, John A. Bogen, announced his resignation to President Carter Thursday.

Knoche said in a statement that he had informed sources told UPI. "The decision was made after a long and careful consideration of the situation at the agency," he said.

A second-degree murder conviction could be imposed. Deputy Attorney General Turner said in a statement that the agency's top officials had been informed of the situation. "We have been informed of the situation and are working to ensure that the agency's top officials are informed," he said.

"We have long been concerned about the situation at the agency and have been working to ensure that the agency's top officials are informed," he said. "We have been informed of the situation and are working to ensure that the agency's top officials are informed," he said.

Police Beat

By BARB BIRD

Mansfield and personal belongings worth $560 were stolen from an automobile parked at a downtown parking ramp.

A former cop shop employee was arrested Monday at 6:30 p.m. by G. A. Hale, 34, of 20 South St., Mansfield, who was working for a freight company. The man was under arrest in the city on a warrant for grand theft.

With fall tuition hike

Mandatory student fees to increase

By EILEEN ROBERTS
Staff Writer

An increase in mandatory student fees will be added to the $215 per semester fee. The increased amount will begin with the current fall semester. Vice President of Student Affairs, Don Doumakes said, "I don't think they're smart enough to pull it off." Senate also passed a resolution supporting the unc's Tennis-Cardiff Ordinance.

Doumakes said, "The quality of housing in this town is very poor. The housing north of University Street is the pit. A 1 1/2 FF in a statesman, the door showed where previous bodies had passed. Russian homes have a habit of drawing through the door because it wouldn't lock," he said.

Israeli torture recalls horrors of Nazi savagery

Regents

Gov. Robert Ray said he wanted to bring some balance and fresh approach to the Iowa State Board of Regents and to have accomplished both with his three appointments this year.

The new regents—Dr. Perry Harris, Guenther Belin and Peter Warrick—-not only bring new faces but noted names to the nine-member board.

Harris, a 1966 graduate of Notre Dame and a specialist on agriculture, once served as assistant agricultural secretary of the U.S. Department of Agriculture.

Belin, age 39 and a 1974 graduate of Iowa State University, represents Steamboat Landing, who has graduated from the University of Chicago and the University of California, and who, even though he is not a member of the board, is respected among the board's members.

Warrick, a 1964 graduate of the University of Illinois and a former editor of the Chicago Daily News, represents Muscatine, where he has been a member of the Board of Education for many years.

However, not all the new regents share Belin's appointment with the same enthusiasm. Some board members, who were appointed to the board after Belin's appointment, have expressed concern about the board's ability to function with Belin as a member.

The new board members have been appointed by the governor, who is responsible for the appointment of the board members. The governor has the power to appoint the board members and to remove them at any time.

Son spurns computers to spawn fish

BY JAY WALLJASPER

Like many other kids, John Gouellnk wanted to follow his father's footsteps. But he didn't. Instead of being a doctor, like his father, he became a computer scientist. But when he was 17, John decided to leave college and go into computing. He couldn't stand it.

The computer was a "thing out there," one that he didn't understand. "What is it? What's it all about?" John asked himself. He realized he didn't know what the computer was all about and that he didn't want to learn about it. So he left college.

John now runs his own business, called "Downtown." It's a small-town computer store. He says he's happy with his choice. "I don't want to be a doctor," he says. "I want to be doing something else." He's also the author of a book called "Computer Science for Dummies."
Filipino nurses convicted of poisoning

Detroit (AP) — Two Filipino nurses were convicted Wednesday of murdering a 71-year-old man in his home in the Detroit area, and the trial judge sentenced them to life in prison.

The jury convicted both women of murder charges in the death of the man, who was found dead on Feb. 14. The women were charged with first-degree murder, assisted suicide and conspiracy.

The man had cancer and was living in a nursing home when he died.

The trial lasted for four months, and the jury heard evidence that the women had given the man a lethal injection.

The sentences were unusual because Michigan law typically does not allow life sentences for first-degree murder.

The women said they acted to relieve the man's suffering and were motivated by a desire to provide dignified care.

They were also charged with assisted suicide and conspiracy to commit murder.

The women's attorneys had argued that their clients had no intent to kill and were acting in good faith.

The state argued that the women had acted with malice and premeditation.

The jury agreed, and the judge sentenced them to life in prison.

The case was followed closely by advocates for end-of-life care and by opponents of assisted suicide.

The women have the right to appeal their sentences.

There are other cases in which nurses have been convicted of similar crimes.

In 2018, two registered nurses in Massachusetts were convicted of first-degree murder in the death of a 76-year-old man who had cancer.

They were found guilty of giving the man a lethal injection without his consent.

The women were sentenced to life in prison.

In 2019, a nurse in California was convicted of murder in the death of a 91-year-old woman who had dementia.

The nurse was found guilty of giving the woman a lethal injection without her consent.

She was sentenced to life in prison.

In 2020, a nurse in New York was convicted of murder in the death of a 56-year-old woman who had cancer.

The nurse was found guilty of giving the woman a lethal injection without her consent.

She was sentenced to life in prison.

There are plans to appeal all of these cases.

There are also plans to appeal the women's cases.

The women's attorneys have said they will appeal their sentences.

The families of the victims have also said they will appeal.

The cases have sparked debates about end-of-life care and assisted suicide.

Some have argued that the women were acting in good faith and should not be punished.

Others have argued that the women were acting maliciously and should be punished.

The cases have also raised questions about the role of nurses in end-of-life care.

The cases have also raised questions about the role of nurses in end-of-life care.

L.A. signs Warriors’ Wilkes

In a major sign of the future, the Los Angeles Lakers signed a five-year contract extension with the Los Angeles Clippers in preparation for the upcoming season. The contract, signed by both teams’ representatives, is expected to solidify the Lakers’ position as one of the top teams in the NBA.

The contract extension is expected to give the Lakers an additional $18 million over the next five years. The team is currently looking to make some significant changes to their roster in the upcoming season, and this contract extension is expected to help them do so.

The Lakers are currently in contention for a playoff spot, and with the addition of this contract extension, they are expected to have a much stronger chance of achieving their goal.

The contract extension is expected to be beneficial for both the Lakers and the Clippers, as it will give both teams more stability and a longer-term plan for their future success.
If you enjoyed the 1976 World Series between the Cincinnati Reds and Boston Red Sox, you'll probably like the major league All-Star game July 13. That's when the Reds and Sox will go it all at the Astrodome, under the gaze of the National and American League fans.

Some things you may remember about the Series:
- In the opener, Red Sox star Carl Yastrzemski, batting right-handed, and Tom Seaver, left-handed, faced each other's usual three subsequences and Seaver's regular turn in the Miracle League.
- Tom Hträdl of the White Sox and Buffalo's George Foster batted last in a series of specialization.
- Yastrzemski batted right-handed and took the left-handed turn at the plate.
- Foster batted left-handed and faced the right-handed turn at the plate.
- The Reds won 7-4.
- The Reds started their home stand against the Boston Red Sox, a starting All-Star game.

Sparky Anderson, leaving himself open to avoiding coming, named the team's 15-man roster Monday. The roster consists of 11 native players and four others not native to the city.

According to club manager Bob Finkler, this is the only starting All-Star game the Reds have ever been in. The All-Star game was even more appealing for the Reds because of the presence of 15 All-Star players from the other teams.

All-Star Lookout

Extra Point

For the 1976 All-Star game, the Cincinnati Reds announced their All-Star team would be managed by second baseman Denny Doyle, a three-time All-Star.

The team above the Reds on the list was the Milwaukee Brewers, the only team above the Reds on the 15-man roster.

All-Stars look forward to second baseman Denny Doyle, a three-time All-Star, handling relievers for the All-Star teams.

All-Stars called for a starting outfield of Pete Rose and Tom Seaver, winners of the National and American League All-Star games, respectively.

All-Stars selected for the National League are:
- Left-handed pitcher Bob Forsch, who finished third in the balloting at his position and has a record of 11 saves and 3-0.
- Right-handed pitcher Doug Rau, who finished third in the balloting at his position and has a record of 4-1.
- Left-handed pitcher Bob Finkler, who finished second in the balloting at his position and has a record of 12 saves.

All-Stars selected for the American League are:
- Left-handed pitcher Sparky Anderson, who finished second in the balloting at his position and has a record of 8-3.
- Right-handed pitcher Bob Forsch, who finished third in the balloting at his position and has a record of 4-1.
- Left-handed pitcher Doug Rau, who finished second in the balloting at his position and has a record of 4-1.

NL All-Stars

Anderson selects pitchers

NEW YORK CITY - Sparky Anderson, leaving himself open to avoiding coming, named the Red Sox' 15-man roster Monday. The roster consists of 11 native players and four others not native to the city.

In addition to Sutter and Johnson, Anderson also named

Sparky Anderson, leaving himself open to avoiding coming, named the Red Sox' 15-man roster Monday. The roster consists of 11 native players and four others not native to the city.

Anderson, the Cincinnati manager who will be handling the third network All-Star game next Tuesday in the midsummer classic at Yankee Stadium, also named three other newcomers to the American League. Doyle was the best second baseman in the American League, according to Anderson, and the Reds and Sox are the only team above the Reds on the list.
