New query raised, Lance slaps press

WASHINGTON (UPI) — Bert Lance's unsuccessful campaign for a Georgia Senate seat has been a focus of scrutiny in recent weeks. Mr. Lance, a long-time Georgia bank chief, is being investigated by the Senate Governmental Affairs Committee concerning personal bank overdrafts. Lance is one of a number of high-profile political figures who have faced scrutiny for financial irregularities.

28 more chelor cases break out in Jordan

AIDAN, Jordan — Jordan Wednesday reported 28 new cholera cases in the southern area of the country. Jordan has now reported a total of 306 cholera cases in the past two months. The last case was reported in Lebanon.

Rudd, 30, resurfaces

NEW YORK (UPI) — Mark Rudd, the ideological leader of the Weathermen radical group, ended seven years of hiding Wednesday by voluntarily return- ing to New York's Federal Penitentiary to enter a early parole hearing, an aide said.

Rudd, 30, who founded the office of the Manhattan radical group shortly after a 1972, was found in New York City last summer

He was sentenced in 1972 to 40 years in prison for his role in the May 1970 bombing, robbery andidental death of a policeman.

He has maintained through- out his trial that he was not in New York City at the time of the bombing.

Both appeared before the U.S. Court of Appeals in Chicago on Aug. 2 on charges of making threats to bomb the Federal Building.

Ed Golding, of the U.S. Attorney's office in Chicago, said the case was brought under the Anti-Terrorism Act.

Rudd has long been a controversial figure in the anti-war movement. He was a key figure in the radical group that gained fame for its takeover of the University of Chicago campus in 1969.

All-out effort aimed at energy proposal

BY R.C. BRANDAU

In an effort to solve "the most serious problem facing the nation today," the U.S. Senate in devoting 1,800 hours this fall to energy legislation, according to Sen. Dick Clark, D-Iowa.

The Senate will be focusing on the House version of President Carter's energy proposal. Clark and many others of the proposal, including tax breaks to stimulate development of alternative energy sources, will push newly with little delay.

One area that "will form a major battleground in the process," according to Clark, will be the issue of limits on the drilling of offshore oil and gas, or "windfall profits." Crosses Club to Pershing

The Republicans are pushing many offshore drilling proposals, and the Senate version of the proposal is expected to be very similar to the House version. Exposed students to

"The Republicans are pushing many offshore drilling proposals, and the Senate version of the proposal is expected to be very similar to the House version."

Clark maintained there is no free market system to oil trade. He said that the state of Florida has a "domestic source," which is exposed to students.

Clark explained that when prices are justified, companies come to him, "it's not a free market system." He said, "We're not going to have this market system, and that's the way it is."

Clark said if the federal government would regulate the markets for oil, "I think we could have a lot more people interested in our domestic sources." He said, "I think we could have a lot more people interested in our domestic sources.

"It's not a free market system," Clark said. "We're not going to have this market system, and that's the way it is."

Clark said, "It's not a free market system," and that "it's not going to happen as long as people don't want it." He said, "It's not a free market system," and that "it's not going to happen as long as people don't want it.

Bakke case put race progress in reverse

BY TOM MAPE

It appears the United States has arrived at one of those crossroads. As in the past, the so-called "judicial activism" that is supposed to spur our national conscience and continuously prod society toward that moral frontier to which we aspire is simply evolving into a profession that is waiting to be filled. Whether the issue is whether our free press is still doing its job or whether there is a war to be fought, the judges are simply arguing over the fine points of a legal issue that may derive from the moral vacuum of the so-called "judicial activism".

Bakke, a white student, filed a lawsuit against the University of California at Davis after the medical school charged that he was prevented from entering the medical school. His case went to the California supreme court, which overturned the decision of the lower court. The U.S. Supreme Court has yet to rule, but it is certain that the Bakke case will figure prominently in the next term of the U.S. Supreme Court.

Scrutiny: law

By assigning a number to the issue, the judges may be trying to find a way to make the issue fit into a legal framework when they are really just debating the issue. In the end, the judges are simply arguing over the fine points of a legal issue that may derive from the moral vacuum of the so-called "judicial activism".

If Bakke's case is anything to go by, the fate of the United States is in the hands of the judges. The judges are simply arguing over the fine points of a legal issue that may derive from the moral vacuum of the so-called "judicial activism".

American universities: sex for undergraduates, parking space for faculty and football for alumni?

The McGeorge Bundy horror show of the early '50s lives on to haunt today's toothless radicals.

Winston R. Scott

Editorial Page Editor

Michigan coach Lee Roy Crenshaw complained that his team's performance in the Big Ten was not up to par and that his team was not playing up to the expectations of the fans. Crenshaw's team was only a little above the .500 mark, but under those circumstances, he should not have put us in a defensive position on the first snap of the game.

The advantages of all this money are apparent; it gives the university the opportunity to develop a national reputation. The university is expected to maintain a national reputation in the "selective" environment of a football power.

He said soybean losses surveyed this year for drought, though have intensified and expanded to other crops.

Quality declined in Kell’s burning, despite the DEQ’s awareness because we don’t dispose of contaminated waste oil used in Kell’s burning. However, Kew said he has problems with the toxic matter in the air. This is not force him to resign. Comptroller Hinman, who said the meeting was “embarrassing” and “alarming,” said Wednesday on credit card receipts introduced as evidence in Monday’s hearing?

No drought letup: task force

DES MOINES (UPI) - Conservation practiced should continue in Iowa because the heavy rains caused not only the drought that has damaged crops and caused water problems in many counties, the governor’s drought task force and Wednesday.

“Generally, conditions don’t stop,” Agriculture and Forestry Director Dean G. White. “But there still is a continued emphasis on public awareness because we don’t know how to expect. How much was the meeting was ‘to look under and advance the efforts of the farmers who were damaged as a result of the drought, or lighten the load on the drought. Iowa’s drought mission began last fall even in the forecast portion of the drought and continued and expanded to farmers who are worried about the drought.

Waste oil burning a court issue

MARIN CITY, Iowa (UPI) - County District Judge Mark P. Byrd has set a June hearing on a court request by the City of Marin City to prevent the City of Marin City from burning oil in its incinerator.

“Any injunctive action would be bad for the City of Marin City,” Byrd said Wednesday. “We made an effort to keep the city from burning oil in its incinerator because we don’t believe that the city should be burning oil in its incinerator.”

Services for residents in Iowa City

By DAVID CURTIS

Tall Writer

Services to aid residents with emotional, occupational and vocational counseling services are available in Iowa City.

Crisis Center, 1121 E. Market, is open 24 hours a day. In addition, a 24-hour hotline provides consultation to residents in need of help or information.

The center also operates Tall Line, a twice-monthly service.

The crisis line number is 319-337-0077.

The center is open in Iowa City is open from 6 to 10 p.m. each day. The center offers two services: same-day counseling and counseling by telephone.

According to Murphy, "We provide a non-crisis counseling service by telephone. Our staff consists of volunteers who are trained in counseling and who are available to answer calls from residents who need help with personal crises.

We serve all residents of the county and the city of Iowa City. We are located at 1121 E. Market in Iowa City, and our phone number is 319-337-0077.

Services offered by the center include:

- Counseling by telephone
- Same-day counseling
- Referral services
- Information on community resources

The center's mission is to provide confidential, accessible, and affordable counseling services to residents in need of assistance. We strive to help individuals, families, and groups improve their lives and achieve their goals.

If you or someone you know is in need of counseling services, please contact the Crisis Center at 1121 E. Market, Iowa City, Iowa 52240, or call 319-337-0077.

Thank you for providing this important service to the community."

The city's last major flood in 1964 caused an estimated $75 million in damage. It was named some of the missing might have been trapped at underground parking garages in the Plaza area where Brush Creek, normally just a lazy stream, became a rampaging torrent and

The result of up to 10 inches of rain during a 24-hour period. Along the northern edge of the Plaza, workers dressed in old clothing and wearing workshirts, boots, carried out debris and damaged merchandise.

The witness was identified as the Rev. Ronald A. Thomas, 41, of Peoria, Ill., who polishes wood and painted his home during the height of the Flood Monday night. Police and fire officials said a man accidentally fell and

"The great effect of flooding will be like the deluge in a fury and the Damman story concerning the ancient flood are fictional," the general document said.
Burns not so easily healed

By MARY ARBOUR
Revised by Roi Meier

A small scar on a child's chest and even a cut on the nose is not so easily forgotten, especially when it involves a young child. For although a scar may heal and a cut may close, scars from burns and cuts are never completely gone.

Dr. Cram, director of the Burn Unit at University Hospital, said that burns are never forgotten. "Burns are very painful and they leave scars," he said. "They are not easily forgotten."

According to Dr. Cram, burns are one of the most common injuries suffered by children. "The most common cause of burns is from hot water," he said. "Hot water burns are the most common type of burn in children."

The burns are often caused by accidents in the home, such as scalding a child in the tub or shower, or by hot pots and pans on the stove. "The most common cause of burns is from hot water," he said. "Hot water burns are the most common type of burn in children."

Burns can be classified as first degree, second degree, and third degree. First degree burns are the least severe, causing only a redness of the skin. Second degree burns are more severe, causing blisters and pain. Third degree burns are the most severe, destroying the skin and underlying tissue.

Burns are treated with creams and ointments, and sometimes with antibiotics. If the burn is severe, it may require surgery. "Surgery is sometimes necessary," he said. "If the burn is severe enough, it may require surgery."
Socialists take edge in Oslo

(NEWTOWN, Conn.) — A report of last night’s election victory in Oslo yesterday gives the Socialists an apparent majority. The election is considered a possible test of Norway’s stability due to recent political upheavals.

Naval Theorists

Naval theorists believe the Socialists may be the only party able to form a government in Oslo. The Socialists have received more than 40% of the vote, according to preliminary results.

The Socialists are led by Prime Minister Harald Norland, who is expected to form a coalition government. The Socialists are opposed by the Centre Party, which has received about 25% of the vote.

The results are seen as a blow to the centre-left alliance, which includes the Socialists, the Centre Party, and the Christian People’s Party. The centre-left alliance has been in power since 2013 and has been struggling to find a stable government.

The Socialists have been campaigning on a platform of economic reform, social justice, and environmental protection. They have also been critical of the centre-left alliance’s handling of the economy and the country’s international relations.

The Socialists’ victory is seen as a win for left-wing politics in Norway and could have implications for other countries in the region.

Success

Success: "I’m going to be a success," is an annual event held in New York City to raise funds for the homeless. The event is expected to attract thousands of visitors and will feature live music and other attractions.

The event will be held on Saturday evening, and tickets are available for purchase. All proceeds from the event will go towards helping the homeless in the city.

---

Auditions

Auditions are open to all, and we encourage anyone who is interested in acting to come and try out. We are looking for both experienced and new performers, and there is no age limit.

Auditions will be held on Sunday and Monday evenings. More information can be found on our website.

---

Writer’s Block

Winthrop Knowlton, president of Harper, said Wednesday that a potential writer for the company has been delayed in his work due to a personal issue.

Knowlton said the company has been working to find a replacement for the writer, but that the delay has caused some setbacks.

The company has over 100 writers on staff, and Knowlton said they are working to ensure that the work is completed in a timely manner.

NASHVILLE, Tenn. (AP) — Musician John Lennon's son Sean Lennon says he's on a mission to help make his father's music more accessible to younger listeners.

While promoting his new album "Glass Onion," Lennon told a news conference Wednesday that he's "constantly trying to make music that's timeless and that people can relate to.

Lennon said he's working on a project with Tidal, a music streaming service co-founded by rapper Jay-Z, to make music more accessible to fans of all ages.

He also said he's considering releasing a new album of his father's music that includes never-before-heard songs.

"I want it to be as accessible as possible," he said.

The new album is expected to include songs from John Lennon's solo work as well as his music with The Beatles.

Lennon's father was killed by a deranged fan in 1980, and Sean has been vocal about his father's legacy and his desire to continue his father's work.

The new album is set to be released later this year.
America's Cup

Carter's note aids Courcay

NEWPORT, R.I. (UPI) - Steadfast, a good-hearted telling and a note of congratulations from President Carter to Jimmy Zummo help to bring the America's Cup defender to China and give her at least a point in her battle to高标准 the international challenge.

Courcay's victory Gary Jobson's emerging strategy paid off for the United States team Tuesday as the defender best the American in one minute and 46 seconds in the opener of the best-of-four series.

The America's Cup is the first time in 12 years that two American teams have met in the world's most important sailing competition, in which they will try to win for the United States the American's Cup, the famous trophy dating from 1851.

Thursday's weather calls for fair looks and winds at 9:30 knots from the west-southwest - ideal for Courcay.

Coutesy skipper Ted Turner, who went off sailing with his family in the American's Cup Defender on Monday, and the American friends he had made from the sailing world, sent word that the enormous 8-ounce trophy was "real good for Courcay." 

"Congratulations to you and the crew of the Courcay," he said. "You did the job of the proud of you all, and you will win the coming race." 

Jobson is one of those Yankees from the land known as "@foot-0, 200-pound" and the Detroit Pistons since 1970 when he signed a multimillion contract with the United States.

"What we have here is a total lack of respect for the best!"
Win dedicated to Grant
Field hockey team dominates shutout

By Steve Mennet

The University of Iowa's women's field hockey team dominated Western Illinois in a 4-0 shutout yesterday afternoon.

The Iowa victory was dedicated to Dr. Christine Grant, women's athletic director and former field hockey coach, in honor of her efforts on behalf of women's athletics at the UI.

"We were very determined to win this game," said head coach Bob Commings. "We decided to play a very defensive style of soccer and take advantage of the opportunities that we had." Western Illinois was unable to score despite several scoring opportunities and was held to just one shot on goal.

Defensive and offensive performances were key in Iowa's victory. "Our defense was great," said Commings. "They did a good job at the back and the forwards did a good job of getting the ball into the offensive zone." Iowa was able to maintain possession of the ball for most of the game and was able to dictate the tempo.

Iowa's first goal came on a penalty stroke in the second period. Forward Steve Pfeiffer scored on the shot to give Iowa a 1-0 lead.

Midfielder Jimmie Hancher added a second goal for Iowa in the third period, providing a 2-0 lead.

Iowa goalkeeper Bruce said that the team played well defensively during the game. "Our defense was solid and we didn't give up many chances to Western Illinois." Western Illinois's only shot on goal was saved by Bruce.

The Hawkeye soccer team during Wednesday afternoon's Practices were held at the University of Iowa.

McLaughlin back

Senior quarterback Tim McLaughlin returned to action for the Hawkeyes Wednesday after missing the last two practices of this week with an injured hamstring.

McLaughlin originally strained his hamstring a week before the hometeam game against the Lions and was expected to play as a senior. However, when McLaughlin has been responding well and should be ready to play this week.

In an interview with a local reporter, Commings said that McLaughlin is expected to play Saturday against Northwestern, opening signal-caller.

McLaughlin is a critical area of the team's offense, as he is known for his ability to make quick decisions and deliver accurate passes. His return will bolster the team's offensive line and provide a much-needed boost to the team's prospects.

Bruce said that the team practiced well during Wednesday's practice, and that they are ready to face Northwestern.

McLaughlin said that he expects McLaughlin to play Saturday against Northwestern. "I expect to be back on the field Saturday," said McLaughlin.

Bruce said that the team's practice was well-organized and that they are ready to face Northwestern on Saturday.

"I'm excited to play Saturday," said McLaughlin. "Western Illinois was a tough game, but we were able to come out with a win. We'll use this experience to prepare for Northwestern." McLaughlin said that he is looking forward to the challenge of facing a tough defensive team.

Bruce said that the team is working hard to improve their offensive line and that they are ready to face Northwestern.

Bruce said that the team is working hard to prepare for Saturday's game against Northwestern. "We're focused on improving our offensive line and making sure that we are ready to face Northwestern." McLaughlin said that he is looking forward to the challenge of facing a tough defensive team.

Enriched Flavor tobacco makes MERIT unique among low tar cigarettes.

Since the introduction of MERIT, a number of other low tar brands have come along. But MERIT remains unique—the only low tar cigarette with 'Enriched Flavor' tobacco.

MERIT delivers what others can only promise: the flavor of higher tar cigarettes. The kind of flavor made possible by a breakthrough in tobacco technology.

Here’s how it was done:

By cracking cigarette smoke down into separate elements, researchers were able to isolate certain flavor-rich ingredients that delivered taste way out of proportion to tar. These flavor essentials were then packed into MERIT, giving it extraordinary flavor.

Taste tests against a number of higher tar cigarettes proved it. Overall, smokers reported they liked the taste of MERIT and MERIT 100's as much as the taste of the higher tar cigarettes tested. Cigarettes with up to 60% more tar!

Only one cigarette has 'Enriched Flavor' tobacco. And you can taste it.

MERIT
