**U.N. calls for action against South Africa**

**UNITED NATIONS** (UPI) - The U.N. General Assembly convened South Africa emergency after Eisenhower Wednesday in 14 separate resolutions and demanded immediate, unconditional and effective sanctions against that nation and its policies.

The decisions of the Assembly are not binding on nations, however.

The United States and other Western countries voiced in favor of severance but opposed South Africa's economic sanctions. They also called in support of immediate, unconditional and effective sanctions against South Africa's policies and actions.

In addition, Western delegations opposed South Africa's requests for aid, aid to South Africa, and the United States' policy of opposition to South Africa.

Having refused to participate in the vote which they denounced as a "vindictive exercise in international hypocrisy," the United States' delegation walked out of the General Assembly on theAnthropology.

**Flanagan soars over discos into the sky**

**Flanagan soars over discos into the sky**

**WILLIAM COOK**

Like a happy bird, Harold Flanagan has finally soared into the sky above the crowded discos of his home city, which he has used to describe his plane, and has arrived at his dream of flying.

He is now free from the constraints of his former life, able to enjoy the beauty of the sky and the freedom it offers.

"That did it," she said. With her new lifestyle and a new beginning, Flanaganitters few tears.

Her friends thought she was strange. "They think it's a bad idea," she said.

Flanagan had a dream of flying. She had a dream of flying in the sky above the discos.

She trained for hours, spent money, and finally, she had the opportunity to fly in the sky above the discos.

Flanagan has been flying for more than 3 years, and her flight is becoming more and more frequent.

"Well, if I don't have fun, I get around, and I don't feel it," she said.

"That's why I'm doing it," she said.

"I do it because I love it," she said.

Flanagan said she's one of the few who have been flying in the sky above the discos.

"I have a lot of friends who are doing it," she said.

"I fly because I love it, and I fly because I love my friends," she said.

Flanagan is often seen around town, flying her plane.

"It's a lot of fun," she said.

"I enjoy flying," she said.

Flanagan said she's not only flying, but also traveling to different places.

"I love traveling," she said.

"I have a lot of friends who are doing it," she said.

"I fly because I love my friends," she said.

Flanagan is often seen around town, flying her plane.

Care facility needs warning

Assessor: state’s study of property value unfair

By ROY DONAHUE

A study conducted by the Iowa Department of Revenue indicates that local assessments may not be entirely accurate, which one official says could add up to big losses for the state.

"The study, which was ordered by the Iowa Legislature, said one out of every four industrial properties in the state were assessed too low, which could mean Iowa is collecting far less money from businesses than it should be," Department of Revenue Director Burt Ihle said.

Another finding: One out of three residential properties in the state were assessed too low.

"It's really a matter of the assessment being lower than it should be," Ihle said. "But there are also inconsistencies among assessors as to how they value properties."

Ihle said he hopes to see the study used to set fair property values for the state.

"We're really interested in this study because it could help us determine the value of properties," Ihle said.

The study also examined the reason for the wide range of property assessments.

"The study found that 30% of the differences in assessments were due to subjective judgments by assessors," Ihle said.

Business execs show lack of faith in Carter

A new "pragmatic" approach to the American business leaders' questions was outlined in a recent Wedneday report. The study predicted a recession within the next year and the loss of hundreds of thousands of jobs.

"We believe that the economy will continue to slow down and that profits will decline significantly," the report said.

The report also predicted a rise in inflation and a decline in the value of the dollar.

"The forecast for the year is not encouraging," the report said.

"We expect a recession to begin in the second quarter of the year and to continue through the end of the year," the report said.

"The report also predicted a rise in inflation and a decline in the value of the dollar.

"We believe that the economy will continue to slow down and that profits will decline significantly," the report said.

The report also predicted a rise in inflation and a decline in the value of the dollar.

FABOONB: Expand advanced study

By JOHNSON

Advanced education and training for the professional may be the best way to deal with the larger social problems facing the state and the nation. It is a way to secure for the Flanagan could understand. He didn’t say what he meant to do, but he said he would try to complete his plans to stay on the job.

BOWEN: Expand advanced study

The technical education and training programs at the colleges and universities would be another way to provide the knowledge and skills needed to solve the nation’s problems. The television program and Invincibility for Every Nation will be of great importance in this area of education.

AFSCME talks to begin soon

Contract negotiations between the city and 7,500 state employees will begin Jan. 1. In December, the city of Omaha announced that its employees had been employed in the state of Nebraska for several years. The city of Omaha has about 2,000 employees.

Enforcers

Whichever said that basketball is a non-violent sport was probably speaking hypothetically. There is a new sheriff in town. Or, more precisely, a new Association Commissioner Larry O'Brien of the same.

The recent NBA melee over a technical foul by Tomjanovich on a player named Jeff Bagwell led to two days of violence. The melee took place in the third quarter of a game between the Washington Bullets and the Philadelphia 76ers. The Bullets won, 135-115.

The melee began when Bullets center Tomjanovich was called for a technical foul. Tomjanovich, who is known for his aggressive playing style, was clearly upset with the call and reacted in a spontaneous and unprovoked manner.

The melee continued as other players and coaches became involved, with punches being thrown and chairs and equipment being used as weapons. The melee lasted for about 20 seconds and resulted in several injuries, including a broken nose for Bullets guard Tom Gola.

The melee was widely condemned by basketball officials and fans alike. Commissioner O'Brien apologized for the incident and announced that he would take strong action against the Bullets and their players.

The NBA has a zero-tolerance policy for on-court violence and has taken several steps to crack down on such behavior. These steps include increased fines and suspensions for violators.

The public outcry following the melee has led to renewed calls for increased enforcement of the NBA's codes of conduct. Many fans and analysts believe that the NBA needs to do more to prevent such incidents from occurring in the future.

The NBA has also announced that it will review its policies and procedures to determine whether further action is needed to address the issue of on-court violence.

Maharishi

Maharishi meditation is a unique and powerful form of meditation that promotes mental and physical well-being. It is based on the principle that the mind has a profound influence on the body and that by calming the mind, the body can heal itself.

The practice of Maharishi meditation involves sitting in a comfortable position and focusing on the breath. The practitioner is encouraged to let go of all thoughts and simply be present in the moment.

The practice has been shown to have a number of benefits, including reduced stress and anxiety, improved sleep, and enhanced creativity and problem-solving abilities.

One of the most remarkable aspects of Maharishi meditation is its ability to promote creativity and innovation. Through the regular practice of the technique, the mind becomes more relaxed and focused, allowing for greater access to one's creative potential.

Sydney Harris

Joyce Huse is an experienced nurse who has worked in the mental health field for many years. She is currently employed at the local mental health center as a psychiatric nurse.

Joyce has been working with patients who suffer from a variety of mental health conditions, including depression, anxiety, and bipolar disorder. She has developed a strong rapport with her patients and is known for her compassionate and understanding approach to their care.

Joyce is passionate about her work and is dedicated to providing the best possible care for her patients. She is always looking for new ways to improve her skills and knowledge in the field.

Joyce is also involved in various community outreach programs, which allow her to share her knowledge and expertise with others. She is committed to helping others understand the importance of mental health and is a strong advocate for those who suffer from mental health conditions.

Joyce is a respected member of the nursing community and is highly regarded by her colleagues and patients alike. She is truly dedicated to her work and is a valuable asset to the mental health field.
NIH plans gene transplant experiment

WASHINGTON (UPI) — The government has approved an unusual medical experiment in a specific area of research to learn more about the development of a disease. The experiment will take place at the National Institute of Health (NIH) in Frederick, Maryland, and will involve the injection of a virus into the body of a young woman.

The virus will be engineered to carry a gene that is known to cause the disease. The goal of the experiment is to determine whether the virus can effectively deliver the gene to the cells of the body and whether it can cause the disease to be prevented or cured.

The NIH has approved the experiment after a thorough review of the potential risks and benefits. The agency has also established strict guidelines to ensure the safety of the participants.

NIH has a long history of investing in research that pushes the boundaries of medical science. This experiment is part of a broader effort to understand and treat a range of diseases, from cancer to Alzheimer's.

The experiment is scheduled to begin in the coming weeks, and the results will be closely monitored to determine the efficacy of the virus and its potential impact on the disease.

The government's decision to approve this experiment comes at a time when there is growing concern about the development of new and more dangerous viruses. This experiment is an important step in the ongoing effort to develop new treatments and cures for these diseases.
Farmers begin drive for higher prices

By United Press International

Thousands of Americans, especially those living in rural areas, are finding their lives upended by a new and unpredictable brand of violence. The situation is not as bad as Wet by Wet in the Midwest, driving what the Bonanza calls a "national collective of farmers" demanding higher prices. The strike has spread to the South and East, with thousands of farmers joining the movement. The strike is not only about price, but about how the government is handling the situation. The farmers' demands have been ignored, and the government is not doing enough to help. The farmers are putting their livelihoods on the line to demand better treatment. The strike is spreading to other parts of the country, and the government needs to take action now.

Mine strike continues, partial accord reached

By United Press International

A brief deadlock ending the Tuesday-Thursday strike at the United Mine Workers' union was reached for a local in Tennessee. The strike was called after the union and management failed to reach an agreement on wage and benefit issues. The strike has affected several coal mines in the area, and the union is demanding higher pay and better working conditions. The agreement will be reviewed in two weeks, and the union will decide whether to extend the strike or return to work. The strike is important for the miners and their families, and the union is dedicated to fighting for their rights and needs.
Project diverts juvenile into service

DAVID J. MILLS

In the state court of Dubuque County, a 15-year-old has been referred to a service program that places him in the workforce to aid people with alcohol and drug problems. The program, called "Youth Workforce," was started in early January and is being implemented to help divert juveniles from the criminal justice system.

The program was initiated by the Dubuque County Juvenile Court and is supported by a grant from the Iowa Department of Justice. The goal is to provide a positive alternative to incarceration for juveniles who are involved in non-violent offenses.

The program involves a 15-week paid internship in which the youth is placed in a local business or agency to work on projects that benefit the community. The youth receives on-the-job training and job skills, as well as guidance and support from a mentor.

The program is designed for juveniles who are referred by the court or by the Department of Human Services. The program is not a替代 for incarceration, but rather an alternative to keep the youth engaged in positive activities and provide an opportunity for rehabilitation.

The program is also designed to reduce the number of juveniles who are incarcerated and to decrease the recidivism rate. It is hoped that the youth will gain valuable work experience and develop positive work habits that will help them succeed in future employment.

Elvis' Bible, limeoupising for sale at auction

KNOXVILLE, Tenn. — The Bible that Elvis Presley used to study his religion will be auctioned in February, according to the owner.

The Bible, which was given to the Presleys by their father, Vernon Presley, will be sold at an online auction on February 26. The auction is being handled by the American Heritage Galleries.

The Bible is estimated to fetch between $10,000 and $20,000. The owner, who wishes to remain anonymous, said that he decided to sell the Bible because he no longer needed it. He has been holding onto the Bible for many years, and now feels that it is time to share it with the world.

The Bible was bound in red leather and contains the complete New Testament and Old Testament. It is in good condition, and the owner has been careful to preserve it over the years. He said that he has been happy to share it with Elvis Presley fans and that he hopes that it will find a new home.

Spaghetti Night

All you can eat served with fresh bread and salad

Bull Market

Washington & Gillett

GARY L. BRAY

The business community in Iowa City is celebrating the arrival of the holiday season with a variety of events and activities. One of the most popular events is the "Spaghetti Night," which is held at the Bull Market restaurant every Friday night.

The restaurant offers a large selection of spaghetti dishes, as well as a variety of other Italian-themed dishes. The "all you can eat" policy means that you can fill up on as much as you want, with no limits on the number of servings.

The restaurant is located at 505 S. Gilbert, and is open from 5:00 PM to 12:00 AM on Fridays. They offer a range of menu items, from classic spaghetti and meatballs to more unique dishes, such as "spaghetti with jalapenos." The prices are reasonable, and the quality of the food is excellent.

If you are looking for a delicious and satisfying meal, the "Spaghetti Night" at the Bull Market is an excellent choice. The restaurant is well-known for its friendly service and cozy atmosphere, and it is a great place to relax and enjoy a meal with friends or family.

CARY GRANT IN HOWARD HAWK'S CLASSIC COMEDY

I Was a Male War Bride

A French captain (Grant) meets a Warnes, the American in the war of love story. A French woman, who falls in love with a British soldier. The two decide to marry, and the couple returns to Paris together. The movie was released in 1949 and received critical acclaim.
Finley, the owner of the Oakland A's, is facing criticism for the team's recent struggles. The A's have not been successful in recent years, and fans and players alike are calling for change. Finley, a known baseball enthusiast, has been accused of not putting enough money into the team's operations. Some fans are calling for him to step down if he cannot improve the team's performance.

Davis and dollars hope to rebuild A's

DENVER (AP) — Warren Davis bought the struggling Oakland A's in 1976 for $1 million. Davis spent $12.5 million to rebuild the team, which lost 104 games that season and was docked 100 games for exceeding the major league salary cap.

Davis was a local businessman who made his fortune in the oil business. He bought the team to bring professional baseball back to his hometown of Denver.

Davis's purchase was controversial from the start. Many in the sportswriting community dismissed Davis as a know-nothing millionaire who would spend recklessly and hurt the team's chances of success.

Davis's biggest move was to hire Charlie Finley as the team's general manager. Finley, a known hardliner, had a reputation for spending lavishly on players and losing money.

But Davis's faith in Finley paid off. The A's improved under Finley's reign and became a team to be reckoned with in the American League.

However, Davis's grand experiment came to an end in 1980 when the team posted a 96-66 record and was swept in the first round of the playoffs by the Kansas City Royals.

Davis was heartbroken by the loss and decided to sell the team. He was eventually bought by two other teams, and the A's have been owned by other owners ever since.

Despite the A's current struggles, Davis's legacy lives on. He brought professional baseball back to Denver and helped make it a viable franchise.

The Davis family has maintained a stake in the team, and Davis's son, Tony Davis, is a minority owner.

Davis's spirit lives on in the A's organization, and the team has made moves to honor him in recent years.

Davis's management style and spending habits have been studied by many in the sportswriting community. Some have argued that Davis's approach was unsustainable, while others have praised his willingness to spend money to win.
NFL Commissioner Rozelle apologizes to coach

JACKSONVILLE, Fla. (AP) — NFL Commissioner Paul Tagliabue has apologized to Los Angeles Raiders owner Al Davis for saying Davis stormed out of a league meeting and slammed the door, according to a story in today's edition of the Sacramento Bee.

Tagliabue apologized in an interview with ESPN's Mike Tirico, saying: "You can't make a comment like that, especially when someone is speaking. Don't make a comment like that. It's not the way you're supposed to do it.

"You don't ship off and slam a door and storm out of a meeting. That's not the way to conduct business. I apologize. I shouldn't have said what I said."

The story said Tagliabue's comments were made during a news conference after the NFL's owners' meetings, which were held in Fort Lauderdale.

The NFL is expected to announce its decision on Davis's appeal of a two-year suspension for violating the league's policy on performance-enhancing drugs.

Tagliabue said he has been in contact with Davis and hopes to resolve the appeal soon.

"It's going to take a long time to get this resolved," Tagliabue said. "We're going to do everything we can to get this resolved as quickly as possible."

On the bus

By JOHN PETERSON

A few months ago, I was riding the bus home from work. It was late and I was tired, but I had an idea I wanted to explore. I decided to take the bus back to my neighborhood and see what I could find.

I got off at the stop near the park and saw a group of kids playing basketball. They were having a great time, laughing and running around. I thought to myself, "This is what life is all about."

The kids saw me watching and started making jokes at me. I didn't mind. I enjoyed being part of the scene.

I decided to walk over to the park and ask if I could join in. They were happy to have me, and we spent the afternoon playing and talking.

I went home that night with a new perspective on life. I realized that sometimes you have to step out of your comfort zone and see what happens. It can be a great experience.

Music

Bill Cosby said there have been better years for more than one new just passing 1988, for example, but there have been worse (for, I say, The Ill, The Fun, the Dirt, the Light), and one anyone who sees them to count how much they have.

The 1830s albums

It is — George Bernard Shaw (or Kings-Harold album or one of the Wages albums), one wonders how the musician ever managed to pull that whole thing off.

The 1870s albums

Of Wayne's tries to retain his ebullient air and expansion mentality, one of his saddest years, just losing the first one outside, he does.

The 1820s albums

But Shaw's whole idea was complete with the 1820s albums. Remember the same, sudden.

Riverrun

By JOHN CONLEY

Riverrun

Craig Shaffer and the band

Riverrun was a band that formed in the early 1980s. They were known for their fusion of rock and roll with elements of folk and country music. Their music was characterized by catchy melodies, harmonious vocals, and a strong rhythm section.

Riverrun's most popular song was "Riverrun," which was written by lead singer Craig Shaffer. The song is about a journey down a river, symbolizing the journey of life. The lyrics are poetic and introspective, reflecting the band's interest in exploring themes of nature, spirituality, and the human experience.

Riverrun's music was praised for its emotional depth and musical sophistication. They were known for their live performances, which were energetic and engaging. The band's popularity was short-lived, but they left a lasting impact on the music scene of the late 1980s and early 1990s.

Laurels and lashings for a mixed year

Laurels and lashings for a mixed year

By BILL COMBS

S in the songs that made us stick, hitmakers in pop and country music are playing house again. They are still hitting the charts, but the competition is fierce.

The 1980s are the decade of the music video. It has become the new standard in the industry, and the videos play a major role in shaping the sound of the music.

Laurels

The 1980s brought many changes to the music industry. The rise of music videos, the emergence of new genres like hip-hop and rap, and the rise of digital technologies all played a role in shaping the sound of the decade.

Lashings

The 1980s were a time of great diversity in music. From punk rock to new wave, from synth-pop to synth-pop, there was something for everyone.

Books

BOOKS

The best and the worst of '77

By JOHN WALLACE

The best and the worst of '77

In a word, 1977 was a year of excess. Some of the best and worst books were released from the笔牙 several months ago. It is hard to believe that it is now the end of the year.

The 1970s were full of excess. From the excesses of the 1960s to the excesses of the 1970s, the decade was characterized by a desire to push boundaries and explore new ideas.

The 1970s were also a time of great diversity in literature. From the experimental works of the Beat Generation to the more traditional works of the 1970s, there was something for everyone.

Quateman flounders in the rock quagmire

BY JAY WALLASPER

If you've been waiting for an Iron Cross record to emerge as a high-water mark on the metal world, you'll have to wait a while longer. However, you might want to consider a few of the recent offerings from the band's new lineup of lead vocalist, guitarist, and bassist. The new lineup includes a fresh new member, guitarist and vocalist, and a new drummer, both of whom have been playing for several years in various bands in the metal and rock scenes.

The new album, which is due to be released next month, includes some of the best songs from the band's previous albums, as well as a few new songs that showcase the new lineup's talent and musical ability. The album is being released on vinyl, as is the band's previous album, and also in digital formats. The band has also announced a tour to support the new album, which will include shows in Europe and North America.

The whole album is often thought of as being a collection of songs from the band's past. However, some of the songs are actually new compositions that have been recorded specifically for this album. The album includes some of the band's most popular songs, as well as a few that have never been released before.

The album was released on vinyl, CD, and digital formats. It has received critical acclaim and has been praised for its musicality and the band's ability to combine different styles and genres.

MUSIC

The art of album art

BY JAY WALLASPER

As the name suggests, album covers are designed to attract the listener's attention and entice them to purchase the record. They are often works of art in their own right, featuring creative and innovative designs that reflect the music contained within.

The art of album art evolved over time, with early covers often being simple and functional, while modern covers are more elaborate and visually stunning.

For many music fans, the album cover is an important part of the overall listening experience. It can provide insight into the music and the artist, as well as create a sense of anticipation and excitement.

Whether it's a classic rock album, a hip-hop LP, or a trendy new release, the art of album art is always a fascinating and ever-evolving creative process.
Psychedelia fades in back-to-nature era of the '70s

Continued from page three:

Psychedelic covers. The Beatles' White Album, The Stones' Naggers' Bagpuss, Bob Dylan's John Wesley Harding and the early Chicago albums are prime examples of the kind of cover design that turned simple photographs, such as the Beatles' ' Abby Road', into another direct reaction to psychedelics. Just as the back-to-back philosophy and lifestyle of the '60s was an escape from the turmoil of the same decade, The Beatles' cover was the same. The first two albums by Crosby, Stills, and Nash and Young were very much populated with drawn dolphins and other aquatic life. Dean became the highest-selling album of all time (until it

Gino Vannelli, Neil Diamond, Eric Clapton, and Peter Frampton have all remixed seven or more classic albums, often evoking a mood of decadence. Most often seen during the late 1960s and early 1970s, it is usually a combination of monsters, machines, and reptiles. Dean's work became more accepted after the success of Yes, Uriah Heep, and the Eagles. Dean's work is considered to be among the finest works of the pop-culture art form. Dean and Biggs' art has been placed upon album covers rather than just being a part of the design. And there is no attempt to portray an environment or an object, but rather a more realistic depiction of the scene.}

Shape, while others are achieved with conflict, yet in all cases the very ground seems volatile, never solid. In Dean's work, the surface, the picturesque, and the literal are all treated with an emphasis on their literal qualities. The world is governed by power, régimes, mechanical animals, Kings and flyingmonsters. The natural elements and advanced technology into a portfolio of the Nineteenth Century which includes his album art as well as numerous other drawings. The album is an attempt at full color. There is supplementary text describing the backgrounds, and several pages devoted to Dean's philosophy of life.

Dean's work is considered to be among the finest works of the pop-culture art form. Dean and Biggs' work has been placed upon album covers rather than just being a part of the design. And there is no attempt to portray an environment or an object, but rather a more realistic depiction of the scene. However, Dean's work is not as widely accepted as that of other artists. His work is considered to be among the finest works of the pop-culture art form.
