WINDSOR (UPI) — Rep. David Floyd, D.Pa., a veteran of 30 years in politics, was elected chairman of the House Veterans' Affairs Committee and the House Government Reform Committee by his colleagues.

The 57-year-old ten-term congressman defeated fellow Democrats by 247-187 in a surprise win that gave him a majority in both committees.

The committee, which controls the budget for veterans' benefits, has been a focal point for debate on issues such as the Iraq war and the economy.

The House Veterans' Affairs Committee, chaired by Floyd, has jurisdiction over issues including veterans' health care, education, and employment.

The House Government Reform Committee, chaired by Floyd, has jurisdiction over issues including government waste, fraud, and abuse.

Floyd's victory was unexpected, as he was widely considered a dark horse candidate in the race.

The election results were announced by the Clerk of the House, who made the announcement on the House floor.

The Clerk said that Floyd had won with a margin of 247-187, giving him control of both committees.

Floyd is a former state senator and a former congressman who has served in the House since 1970.

He is known for his strong support of veterans' issues, including his efforts to improve access to health care and education for veterans.

Floyd is also a vocal critic of the war in Iraq, and has called for a withdrawal of U.S. troops from the country.

The election results come as the House is set to consider a resolution authorizing the use of force against Iran, which Floyd has opposed.

The resolution, which was introduced by House Speaker Nancy Pelosi, D-Calif., would authorize the use of military force against Iran if it continues its nuclear program.

Floyd has previously opposed such resolutions, arguing that they would lead to a preemptive war.

Assassination committee seeks budget supplement

WASHINGTON (AP) - The Assassination Committee of the John F. Kennedy School on Tuesday for allegedly constructing the assassination of the former president. The committee's findings were released Tuesday, and it is expected to reveal new evidence about the assassination.

The committee's much-anticipated report was presented on the 50th anniversary of Kennedy's assassination. The report aimed to provide a comprehensive analysis of the events surrounding Kennedy's death and to potentially shed new light on the mystery.

The committee's findings included new evidence from eyewitnesses and documents, as well as re-examining existing evidence. The report concluded that the assassination was a result of a conspiracy involving multiple parties.

The report also addressed the role of the CIA and its involvement in the assassination. It highlighted the lack of transparency and accountability in the government's handling of the case.

The committee's findings are expected to have a significant impact on the public's understanding of the assassination and the ongoing debates surrounding it.
Candidates criticize farm policy

By KEVIN RUGG

In a speech Monday night, U.S. Sen. Richard L. Clark, D-Wyo., demanded that the Senate hold a roll-call vote on a farm bill, speaking out against the Senate’s delay and the Senate’s failure to vote on a farm bill at all. Clark and his colleagues contended that they were forced into the role of “ unplanned legislators” by the Administration’s inaction.

Clark took the Senate floor to argue that the Administration’s failure to act on a farm bill is directly attributable to its lack of a comprehensive farm policy. “The Administration has failed to this point to establish a comprehensive farm policy that is necessary to ensure the stability of agriculture,” Clark said.

The Democratic Representative from Wyoming also said that the Senate’s failure to vote on a farm bill is an example of the Administration’s failure to act on its own farm policy. “The Senate’s inaction on a farm bill is a clear example of the Administration’s failure to act on its own farm policy,” Clark said.

Clark and his colleagues contended that the Senate’s failure to vote on a farm bill is an example of the Administration’s failure to act on its own farm policy. “The Senate’s inaction on a farm bill is an example of the Administration’s failure to act on its own farm policy,” Clark said.

Too-cute attitude toward logrolling

In the 3rd quarter of 1978, the Illinois Supreme Court heard the case of Illinois v. Judge Richard E. Smith. The 3rd quarter of 1978 was a time when the Illinois Supreme Court was hearing the case of Illinois v. Judge Richard E. Smith. The court was considering whether the judge had engaged in logrolling, a practice in which two or more politicians work together to advance their own interests at the expense of the public interest. Logrolling is considered unethical and can undermine the integrity of the judicial system.

Prostitution: Ultimate private enterprise

The legal system that sentenced Patty Hearst to 7 years in prison has struck a new fine on fornicators. Today, the San Francisco police announced that a new high court has been established to combat the exploitation of women in the sex trade. The new court, known as the "Anti-Prostitution Court," will have jurisdiction over all cases involving prostitution.

Lack of talks holds greater risk

Israeli Prime Minister Menachem Begin and Egyptian President Anwar Sadat began today to discuss the possibility of a war on the Golan Heights. The Golan Heights, a territory disputed between Israel and Syria since the 1967 war, have been a source of tension and conflict. The protagonists have agreed to hold talks in Washington, D.C., over the next 24 hours. The talks are aimed at resolving the conflict and ensuring peace in the region.

The Writers Workshop's Hualing Nieh Engle sees 'second liberation' Importing Chinese talent

BY MARIA FLOOD

"I was like a stranger who took a tour," said Hualing Nieh Engle of her recent visit to the People's Republic of China. "It was an absolutely unique experience," she said. "Many people who know China may be surprised to hear that..." Hualing, whose family background is rich in Chinese culture, had never been to China before. Open Door’s director of International Writing Programs, Hualing Nieh Engle and Paul Engle were on an opportunity to visit their relatives in China. They visited to meditate, write, and observe life in China. "China was professionally significant," for them they demonstrated a reinvigorated spirit in literature, and in all of Chinese culture a rebirth. "China is now a very special place to me," she said.

Hualing Engle said, "I was in tears when I..." During a picnic at a park in Beijing, the family, including her husband, Paul Engle, and their two daughters, were surprised to find a rejuvenated spirit among the Chinese. "The atmosphere in Beijing had never been like this before," Hualing said. "It was a beautiful place," and the Chinese people were friendly and hospitable.

Hualing Engle said, "I was amazed at how..." Among the Chinese people, she discovered a renewed spirit of hard work and determination. "The Chinese are working very hard," she said. "They are very determined to make their country better." Hualing said.

Hualing Engle also discovered a renewed spirit of cultural exchange. "I was amazed at how..." In Beijing, the family had the opportunity to meet with Chinese writers, artists, and scholars. "We..."

Schofield, Wis. (UPI) -- The Johnstown (Pa.) Courthouse was on lockdown when a man with a gun walked into the building Tuesday afternoon, police said.

The man was taken into custody and authorities were trying to determine his motive.

Police said they were called to the courthouse around 2 p.m. and found a man inside with a gun.

The man was later identified as a local resident who had previously been involved in a domestic dispute with a police officer.

Police said the man appeared to be emotionally disturbed and was taken to a local hospital for evaluation.

The courthouse was closed for about an hour while officers searched for any potential threats.

No one was injured during the incident.

**FBI ex-agent charges sex biases**

WASHINGTON (UPI) -- One of the FBI's top women agents, who quit in disgust in 1977, is charging the bureau with discrimination in recruitment, training, and employment of women.

The complaint also alleges that she was fired on the courthouse lawn.

The final ruling on the complaint is expected in the next two months and is being appealed to the Justice Department.

And never one to leave a stone unturned, the FBI official, noting the administrative proceedings are now complete, has arrested the suspect for a federal fraud.

A Civil Service Commission representative is expected to hold hearings on the complaint in the next two months and is to make a recommendation to the Justice Department.

The suspect was charged with making false statements to the FBI in preparing to conduct a "true" of its own.

**Rogers: 1978 season will be one big bowl game**

Rogers coaches are in almost unanimous agreement that Michigan State will be the team to beat in the nation this season. Michigan looks to have the most balanced team in the Big Ten, with the Buckeyes’ only real problem being the question of who will be their quarterback.

**Big Ten preview**

Receiver Edgar Wilson, Rogers’ mainstay on offense, said, "I’ve never had a quarterback that I could get along with as well as with Ernie. Rogers points out that Michigan’s defense is solid and balanced and that the Buckeyes have a strong enough offense to challenge Michigan.

Rogers added that the Buckeyes have a tough schedule and that they will have to play well all season to remain in contention. He said that Michigan’s defense is the best in the conference and that the Buckeyes will have to be very careful in their games against them.

**In the Big Ten, you need very good players and good coaching to win," Rogers said. "And you have to play well every year to stay in contention."

Rogers is confident that his team will be able to handle the challenge of the Big Ten and that they will be able to compete for the conference title. He said that the Buckeyes’ defense is the key to their success and that they will need to be strong against the Michigan Wolverines.

The Buckeyes are coming into the season carrying the expectations of winning the conference. Rogers, who has been a head coach for 23 years, said that the pressure is on him to deliver.

"I think we have a chance to win the Big Ten," Rogers said. "But, we know we have to play well this year and not get into any bad habits."

An encore? Connors survives upset challenge

NEW YORK (UPI) - Jimmy Connors, generally considered a major force in tennis, is not about to stop charming the fans at the duPont Tuesday to stop Indian Illinois, he decided to try his luck in a third money-making event at the duPont this year, in which he has been successful in the past. The event: a nine-hole mini-tournament.

Connors, who won the first two matches of his mini golf event here on Monday and Tuesday, will try Thursday when the event is held, where the prize pool is $1,000. The mini-golf tournament was organized by Pawsall to raise money for the Pancreatic Institute.

Andy Roddick, who won the two matches, was not too pleased with what he called his "lack of concentration" in the final. Connors will be facing Jimmy Connors, who won the first two matches.

"I'm not too sure about the final," Connors said. "I didn't play too well, and I think I need a little more concentration."
