Carter: U.S. must adopt tough austerity program

WASHINGTON (AP) — The president and his top economic aides today launched an all-out campaign to get the nation’s economic problems under control.

The president said he would be willing to go to Congress to get the kind of authority he sought in his budget request for fiscal 1980.

But the new program, which Carter termed "a moment of truth," would be met with tough resistance from the Senate and the House.

In an interview with The Associated Press, Carter said he would be willing to go to Washington to get the kind of authority he sought in his budget request for fiscal 1980.

But the new program, which Carter termed "a moment of truth," would be met with tough resistance from the Senate and the House.

Takes Richard ‘elected’ sentence suspended

TORONTO (UPI) — Keith Richard, musical star of the Rolling Stones, was granted a conditional pardon in Ontario court today and is now free to give concerts in the province.

The 44-year-old singer, who had been charged with two counts of possessing marijuana, was granted the pardon by Justice of the Peace Vernehead. Richard piped up to say he was “thankful” for the ruling.

“I don’t think it’s a good idea for a consultant to be suspended for the whole year,” he said. “I believe he should be included.”
**Air controls axed**

WASHINGTON (UPI) — A federal court order that banned air traffic control workers from striking for three years ended today and it appeared the government had lost its challenge to the workers over the issue of secret court orders.

Declaring 'Air Traffic Controllers' not 'essential' in negotiations, the air traffic controllers are not considered essential employees under the National Labor Relations Act, a court had ruled.

President Jimmy Carter declared the order in an effort to keep the nation's air traffic moving smoothly, and the president's decision was based on the law.

**Perjury trial may be dropped**

WASHINGTON (UPI) — Superior Court Judge Charles M. Duffey said today he might drop the perjury trial of a megalomaniac who is charged with leaving an abandoned building.

The trial has been set for next month, but the judge indicated he might drop the charges against the accused, who is charged with leaving the building.

**Chief of Gonzon to visit UI**

**Washington** — The chief of the CIA, William J. Casey, will visit the University of Iowa next week to discuss the CIA’s role in the war on terrorism.

Casey will meet with University officials and speak with students about the CIA’s work.

**Homecoming Thieves Mark Spartan**

The Promenade (IMU Riverbank)
Sunday, October 29
10 am to 5 pm
Weather Permitting

The first time all three candidates for REPUBLICAN OF THE FIRST DISTRICT to the U.S. HOUSE OF REPRESENTATIVES will answer questions from the public.

**Bio Resources Inc.**

318 E. Bloomington
The Quality Plasma Center

You can earn up to $65/month as a regular plasma donor

**RUSH MY ORDER OF:**

**SHRINK WRAP KIT**

**VARIETY OF USES**

Handy and versatile, the French Crate fits anywhere and can be used as a bookshelf, a plant holder, a coffee table, or TV stand. The natural wood finish fits any interior.

**OVER 300,000 SOLD**

For the first time, this great crate is offered in all over the United States. Only $9.95 for a complete kit or a super value of $3 for $10.95 (you save $2.50).
Oregon rape arrest points to changing status of marriage

By Joseph Hukot of the Salem, Ore., in the first case ever included in that state's law, a man has pleaded not guilty to a charge of rape by sexual abuse during a relationship with his wife.

The case is expected to be a significant test of Oregon's marriage law, which allows a couple to legally marry without a formal ceremony. The defendant, a 38-year-old man, has pleaded not guilty to the charge of rape by sexual abuse, which carries a maximum sentence of 15 years in prison.

Law enforcement agencies have been working to address the issue of domestic abuse in the state, where the number of reported incidents has been on the rise. The case is being closely watched by advocates for victims of domestic violence.

Oregon and Iowa laws are occasionally cited as examples of allowing marriage to same-sex couples. These laws recognize a relationship as marriage even if the couple is not legally married. The laws are being tested in court as several same-sex couples have filed suit to establish legal rights akin to marriage.

The Oregon law was adopted by the legislature in 2013 and took effect in 2014. It allows same-sex couples to enter into a domestic partnership, which provides many of the same benefits and protections as marriage.

In Iowa, a similar law was adopted in 2013 and took effect in 2014. It allows same-sex couples to enter into a civil union, which provides many of the same benefits and protections as marriage.

In both states, the laws were challenged in court, but the higher courts have upheld the laws, finding that they do not violate the Constitution.

The Oregon case is expected to be argued before the Supreme Court of Oregon in the coming months. The Iowa case was argued before the Iowa Supreme Court in 2014, and the court upheld the law.

In both states, the laws were challenged in court, but the higher courts have upheld the laws, finding that they do not violate the Constitution.

If you happen to see a group of people wandering around campus in the middle of the day, it's probably an orienteering class. It is quite common, but recently someone asked me if I had ever seen one before. I have, but it's not necessarily a regular activity. In an orienteering class, you are taught how to use a compass to navigate.

In this sport, participants race across campus, using only a map and compass to reach various checkpoints. The checkpoints are marked on the map, and the participants must find the correct path to each one. The time it takes to complete the course determines the winner.

Orienteering is a great way to explore campus and get some exercise. It's also a fun way to spend a day with friends. So next time you're on campus, keep an eye out for an orienteering class and give it a try!

Tumbling at a tender age
If only recruiters had it so
good: preschool gymnastics

By JUDITH GREEN
Staff Writer

Walk into the gymnasium room of the Field House any weekday morning and there's a crowd of pint-sized gymnasts three feet, ten inches tall on the average, and weighing round 70 pounds, hard at work and play. The budding athletes run, hop- ping, hopping, swinging, tumbling and rolling, gleefully learning from one activity to the next for the first time. What they lack in form they more than compensate for in enthusiasm.

These kids are part of the preschool gymnastics program sponsored by the Division of Recreational Services. Marchen of the preschool gymnastics team and students from physical education methods courses work with the preschoolers, teaching the children on a very basic level to help them learn elementary skills needed for coordination. Thirteen instructors teach approximately 150 kids, aged through 6, the maximum number of children per class is 20. There's a conveniently small ratio about six to one - of teachers to students.

Judy Gehrke has coordinated the preschool program for the past three years - it was begun seven years ago by Dr. Schiltz, an instructor in the women's P.E. department. Gehrke selected the teachers on the basis of gymnastic ability and their desire to work with preschoolers. A recent graduate in P.E., she taught preschool gymnastics herself and also brought her enthusiasm for the program. "In my opinion, preschool gymnastics program, the kids learn the kind of things very young children can do and what they can't."

Gehrke explains the developmental nature of the activities, which she has designed to promote a specific progression of abilities and skills in the children. These kids each class with a series of the bending and stretching exercises - it's amazing to see just how many varieties of movements these tiny kids can do when they are challenged for the first time. "Look at this..." Then the kids take a small group and move through a series of six events or stations, which include rolling, rolling, rolling, cartwheels, handstands, and locomotor movements (jumps, hops, and toe touches)...

"When the kids are learning at this age it is important that make gymnastics out of story," Gehrke said. "It helps encourage the kids to learn in a fun, to turn upside down, in Understand what they're doing in some situations, and what they're doing."

Children are not particularly interested in the story called, contrary to what you may think, the said. "It has, they're interested. And they're not interested very well. When a group of kids to do a stick-and-push, back, for instance, their faces are too short. When we try to get them to do the story, the kids don't have muscular control. If you just drop it on the trampoline, your kids would have fun and still do ask, is this fun? Children don't know how to control their muscles, as we tell them instead to hold their feet together as tightly as you can. In the push, they still can't do it very well, but it's a beginning, and they're getting the feeling."

Watching the kids is like watching a live parallel, the seemingly small bodies are substantial enough to create the necessary balance from the springboard. But when they're ready to go on the uneven bars, and the trampoline, your seat muscles have to be substantial enough to create the necessary balance from the springboard. But when they're ready to go on the uneven bars, and the trampoline, your seat muscles have to be substantial enough to create the necessary balance from the springboard. HACKENSACK, N.J. (UPI) - Dr. Myron A. Farber, who faced 40 years in jail rather than reveal Farber's sources for the "Doctor magazine," was freed yesterday by Superior Court Judge Theodore Trautwein, who ruled that Farber could not be convicted of contempt of court.

Trautwein said he decided to reverse Farber's conviction because the conviction had been based on hearsay, not on direct evidence. He also said he could not find that Farber's refusal to reveal his sources had been contemptuous.

"I am satisfied that the jury was not warranted in finding Farber's conduct to be malicious," Trautwein said.

The jury of six men and six women acquitted their verdict and released Farber on bond.

However, Farber will continue to be under the supervision of the court. He must appear in court every two weeks for the next three months.

Farber, who is 54, is a specialist in internal medicine. He was convicted of contempt of court in 1977 for refusing to reveal his sources.

"I am pleased with the decision of the court," Farber said.

The court decision also has implications for other journalists who have been tried for contempt of court. The decision may mean that journalists who refuse to reveal their sources may not be found guilty of contempt.

Trautwein ruled that Farber's testimony in the case was not admissible as evidence.

"I am satisfied that the court was not warranted in finding Farber's testimony to be relevant to the question of contempt," Trautwein said.

The court decision may also affect the case of Dr. Farber, who is being tried for contempt of court in another case.

"I am satisfied that Dr. Farber's testimony is not relevant to the question of contempt," Trautwein said.

The court decision may also affect the case of Dr. Farber, who is being tried for contempt of court in another case.

"I am satisfied that Dr. Farber's testimony is not relevant to the question of contempt," Trautwein said.

The court decision may also affect the case of Dr. Farber, who is being tried for contempt of court in another case.

"I am satisfied that Dr. Farber's testimony is not relevant to the question of contempt," Trautwein said.

The court decision may also affect the case of Dr. Farber, who is being tried for contempt of court in another case.

"I am satisfied that Dr. Farber's testimony is not relevant to the question of contempt," Trautwein said.
L.A. brush fire damage heavy

LA TIMES CITY (11/27/87) -- A raging fire when 5 die

11/27/87 -- A raging fire burned five people to death, four others burned seriously and forced hundreds of homes evacuated. The fire started in the Angeles National Forest and spread rapidly across the San Gabriel Mountains.

The fire burned through dry brush, believed to have been started by a lightning strike.

The fire destroyed over 50 homes and forced hundreds of people to evacuate their homes. The causes of the fire are under investigation.

---

Gas pipeline burns; 5 die

HORSE VILLAGE, N.D. (11/27/87) -- A natural gas pipeline explosion in northeastern North Dakota killed five people.

The explosion occurred near a gas pipeline when a team of workers were repairing a leak.

The explosion killed five people and destroyed several homes.

---

Boardwalk shops burned

Atlantic City, N.J. (11/27/87) -- A raging fire burned down several boardwalk shops, including a popular tourist shop.

The fire started in one of the shops and quickly spread to nearby shops, destroying several of them.

---

Desolation row

Anson was burned the largest of four brush fires burning Tuesday in Los Angeles suburban, destroying 60 homes valued at $1.2 million of million of dollars. "Desolation row" stored out in the Smokey Bear campaign.

The fire started in the Angeles National Forest and spread rapidly through the dry brush, destroying several homes.

To Be or Not to Be, to the Delowina Hotel on...
Gaylord Perry becomes oldest Cy Young winner

NEW YORK (UPI) — Gaylord Perry was 38 years old when he pitched three shutouts in his last six starts to win his second Cy Young Award, becoming the oldest pitcher ever to win a World Series when the San Francisco Giants beat the Baltimore Orioles in Game 7. Perry, a journeyman pitcher in his prime with the Giants, became the first pitcher to win the Cy Young Award in two different decades. He was also the first pitcher to win the award in two different decades. Perry, who pitched for the Orioles, became the first pitcher to win the award in two different decades.

Bullard resigns from Texas A&M post

COLLEGE STATION, Texas (UPI) — Bullard Lambert, Texas A&M football coach, said Monday he is stepping down as head coach after four seasons. Lambert, who led the Aggies to a 40-20 record, said he was leaving because he wanted to spend more time with his family. Lambert, who is the all-time winningest coach in Texas A&M history, said he will join a new college as an assistant coach. Lambert, who has been the Aggies' head coach since 1984, said he is leaving because he wants to spend more time with his family.

Maryland-Duke showdown nears

COLLEGE PARK, Md. (UPI) — Maryland and Duke are set to play each other in a football game on Saturday, and the game is expected to be a high-scoring affair. The Terrapins and Blue Devils are both coming off losses, but Maryland has the edge in the head-to-head series with a 4-3 record. Maryland is ranked No. 2 in the country, while Duke is ranked No. 3.

TV adds incentive for Hawk win

Iowa Coach Kirk Ferentz is hoping that a technological breakthrough will give his team a slight edge in the upcoming game against the Big Ten's best team. Ferentz said that he has been experimenting with a new television system that allows players to see in real-time the movements of their opponents. The system is expected to give the Hawkeyes a significant advantage on the field.

Steelers 'blessed' with defeat

PITTSBURGH (UPI) — It's been a rough season for the Pittsburgh Steelers, but their victory over the Cincinnati Bengals was a welcome sight. The win was the first for the Steelers in over a month, and it was a much-needed victory for a team that has struggled all season. "It was a good win for us," said quarterback Ben Roethlisberger. "We're blessed to have a win, and we're going to take it."

Bears go back to Xs & Os

CHICAGO (UPI) — Laid-off Coach Neil Armstrong said he's excited about his new role with the Chicago Bears. Armstrong, who was let go by the Bears last season, is now working as a consultant for the team. "I'm really looking forward to working with the players," he said. "I think I can help them in a lot of ways."

**Wrestlers sponsor contest**

In an effort to celebrate the upcoming tournament which is being held at the school, the high school boosters are organizing a wrestling contest. The winners will be awarded prizes for their best matches. The event is open to all wrestlers, but registration is necessary. Prizes will be awarded for both individual and team performance. The contest will take place on the school grounds at 3 p.m. on Saturday.

**Registration underway**

The registration for the tournament is currently underway. Interested wrestlers should contact Coach Thompson at 555-1234 for more information. The deadline for registration is Friday to ensure a spot in the tournament.

**Nadia third compiles compulsory**

**STRAUSSBURG, France** — The French government has declared Nadia Comaneci a national hero in recognition of her exceptional performance at the 1976 Olympics. Since winning the all-around gold medal, Comaneci has become an inspiration to young gymnasts worldwide. The Romanian government's formal recognition is a significant step in honoring Comaneci's contributions to the sport.

**L's Feaney: Einbrenner vies for top job**

**NEW YORK** — Former Senator L's Feaney is running for the top job on the Republican ticket. Feaney's campaign is highlighting his experience in government and his ability to work across the aisle. His primary opponent, Einbrenner, is portraying himself as a fresh face with a new approach to politics. The race is expected to be close, with both candidates focusing on key issues such as healthcare, the economy, and immigration.
