Amin to battlefront

Amin to battlefront

President Idi Amin Dada turned his attention to the military Tuesday, telling his army to be vigilant and to prepare for a possible fight with rebels in Uganda.

Despite Uganda's bizarrely violent recent past, there are indications that the rebels have resumed their campaign against Amin.

The president urged his soldiers to be ready to defend their country against any external threat.

Langenberg declared winner.

Dane may contest results.

By ROBERT J. TURNOFF

Staff Writer

The race between Amos Langenberg and George Dane in the Republican race for county supervisor in Johnson County has been a close one. Dane is leading Langenberg by a slim margin, but both candidates are still counting votes and preparing to contest the results.

COUNCIL: Lower parking rates?

A resolution to decrease parking rates in the city's downtown business district, effective July 1, was adopted by the Iowa City Council at its meeting Monday evening.

The resolution, which was introduced by Mayor Robert Yevera at the last council meeting, would reduce the downtown parking rates to $2.25 per day in July and $2.00 per day in August, according to a press release.

The parking rates would be $2.00 per day in July and $1.50 per day in August, as proposed in the mayor's resolution. The resolution also includes an increase in the parking rate for the first 30 minutes to $1.50 per day in July and $1.25 per day in August.

The council voted 4-1 in favor of the resolution, with Councilor Bill Wise casting the only dissenting vote.

The resolution will take effect on July 1, and the parking rates will be reviewed again in August. Yevera said the rates would be increased to $2.75 per day in August, according to a press release.

The resolution was introduced by Mayor Robert Yevera at the last council meeting, and it was adopted unanimously by the council.
Feds fail at fairness to females

The federal government, least of its publicized fail, now before in a nationwide series of discrimination cases, has been the subject of a recent decision by a federal district court in Washington, D.C. The court has ruled that the government, in its employment practices, is indeed discriminating against women and has granted relief to a group of female postal workers.

The case involved some 1,700 female postal workers in a large eastern city. The postal workers were awarded $35 million in back pay and other benefits. The court ruled that the government had engaged in a pattern of discrimination in the hiring and promotion of women for clerical and administrative positions.

The court noted that the government had a policy of not hiring women for certain jobs, such as police officers and firemen, and that it had failed to provide equal opportunities for women in promotion and advancement.

In addition, the court found that the government had engaged in a pattern of paying women less than men for performing the same work, and that it had failed to provide equal opportunities for women in terms of training and advancement.

The court's decision has been hailed as a major victory for women's rights, and it has been seen as a precedent for future cases of gender discrimination.

 Sending Vietnam down the memory hole

WASHINGTON, D.C. - The government is to be able to forget a small South Vietnamese general who is in this hospital.

A recent report from the Department of Health, Education, and Welfare, in Washington, D.C., has recommended that the government begin to forget a small South Vietnamese general who is in this hospital.

The report, which was prepared by a team of experts, concluded that the government should begin to forget the general, who is being treated for a variety of injuries sustained in combat.

The recommendation was based on the fact that the general had been found to be mentally unstable.

Letters

HEC: progressing music gene can be repaired

Congressman Steve Conroy of Virginia has introduced a bill to allow the government to begin a $5 billion program to repair the gene for progressing music.

The bill has been met with mixed reactions, with some in Congress arguing that it is too expensive and that it will not be effective, while others argue that it is a necessary step to help the gene progress.

Peace

Sentencing game

We have to settle the issue of whether the word 'peace' can be used to describe a situation where two nations are not at war.

The term 'peace' is often used to describe a situation where two nations have agreed to stop fighting and to work towards resolving their differences.

However, some argue that the term 'peace' is too broad and does not adequately capture the complexities of the situation.

Furthermore, the term 'peace' is often used in a political context, where it is used to describe a situation where two nations have agreed to work together towards a common goal.

The term 'peace' is also often used to describe a situation where two nations have agreed to work towards resolving their differences, but where there is no guarantee that the differences will be resolved.

In conclusion, the term 'peace' is a complex and multifaceted concept, and it is important to use it appropriately in order to accurately describe the situation.

Letters Policy

Letters to the editor must be typed, double-spaced, and no shorter than 200 words. They will not be considered for publication if submitted in more than one form. They should be written on one side of letter-size paper, double-spaced, and not exceed one page in length.

Letters will not be published in the same issue as their author's columns, and they will not be solicited or published in more than one issue of the magazine. They will not be returned to authors.

Readers

Readers are encouraged to submit letters to the editor. They should be typed, double-spaced, and no shorter than 200 words. They will not be published in the same issue as their author's columns, and they will not be solicited or published in more than one issue of the magazine. They will not be returned to authors.
Letters

Dear Editor:

Another article in this paper today suggests that you do not understand the situation unless you are a reader of the sport. I feel you are really misunderstanding what you are trying to prove and I believe you are not making your point. In your article, you mention the fact that the newspapers do not cover the story in its entirety. This is not true, as the newspapers do cover the story in its entirety. In fact, the newspapers cover the story in a much more detailed manner than the TV news does. The TV news simply does not have the time or the resources to cover the story in as much detail as the newspapers do.

Sincerely,

[Your Name]
Teamsters ignore strike
By United Press International
A walkout by independent steel haulers was announced for Westmoreland County, Pennsylvania, by the Teamsters Union, which said it did not want to give up on a 10-day-old nationwide steel strike.

The Teamsters, who represent 1.2 million workers, said they would take the action if a settlement could not be reached with Steel Corp. of America.

CANC over the steel strike in Pennsylvania and West Virginia, two states where no settlement has been reached, is reported to have damaged sales of the Pittsburgh Penguins, who lost their first game since the strike started.

CANC's decision to continue the strike comes as a blow to the steel industry, which has been hit hard by the sharp decline in steel prices.

The steel strike, which began on July 1, is the longest in the company's history and has caused significant disruptions in the steel market.

Additive high cancer risk
WASHINGTON (UPI) -- A chemical used as a pesticide is an additive in an additive in food, according to a report by Dr. George C. Peppard of the National Cancer Institute.

Dr. Peppard reported that his study of the chemical, which is used as a pesticide, found that it caused cancer in mice and rats.

The study was funded by the National Cancer Institute and published in the journal Cancer Research.

CANC says: "This is a significant finding because it demonstrates that at least some chemicals can cause cancer in both species.

"In addition, the institute needs to be encouraged to continue its research on this topic to better understand the potential health risks of these chemicals."
Phillips lauds Pastorini's effort

HOUSTON (UPI) - Coach Tom Orsborne says that he appreciates the contributions of quarterback Dave Pastorini to the Georgia team. "Dave's the kind of quarterback you want," Orsborne said.

The Schuylerville, N.Y., native when presented with the award football fan. That same man was in command of the Auburn defense in 1973, 1974, and 1975.

The coach prophesied that the 5'11" 190-lb. quarterback, who will be playing his final season at Auburn, would be remembered for his sound defensive play in helping New England reach the Super Bowl.

‘I hope he's aiming at the Super Bowl.'

"The offense has wiped out the defense in most games this season," Phillips said. "I think the defense has played a great role in our success in the season, but the offense has been terrific."

The Iowan was a four-year letterman on defense and line, tiebreaker and then clearly the most valuable player on the team.

"Dave's the kind of quarterback you want," Orsborne said. "He has the ability to run and pass and has the ability to make adjustments on the fly."

"Dave's got a great sense of humor and is a great team leader," Orsborne said. "He's a real role model for our younger players."

"Dave's been a great player and a great leader for us," Orsborne said. "I hope he's aiming at the Super Bowl."

"I think he's got the ability to do it," Orsborne said. "He's a great player and a great leader."
**Raiders top Cincy**

CINCINNATI (UPI) — Keats Heidt scored two touchdowns and Duane Miller (Independent) added a third to lead the University of Cincinnati to a 34-14 victory over the University of Miami (Ohio) on Friday night.

The Bearcats, who are now 5-2 for the season, will face the University of Illinois next weekend in a game that will be televised on ABC.

**Gene begin Tuesday and Thursday.**

Two players. Les Shigetani (independent winner) and Bob Reitsch (Pi Kappa Alpha) met with Brad Nau (Alpha Delta Pi) and Bob Robinson (Independent) to discuss the Intramural world's season so far. The excitement still prevails in the Intramural world.

**Two more squads advanced with forfeit**

Two more squads advanced with forfeit and next week's football game should be a battle to the death. The fans and students are looking forward to this week's game.

**IM teams zero in on titles**

Even with the flag football season over, enthusiasm will prevailed in the international world with three teams zeroing in on titles.

**Yanks sign Tiant**

The New York Yankees, continuing their policy of acquiring expensive free agent talent that has led to three consecutive American League pennants and four straight World Series titles, announced Friday that Luis Tiant had signed a contract to pitch for the 1973 season.

**Obama to face after**

Obama's performance in the Wisconsin primary on Saturday will be crucial in determining whether he can win the nomination. **10 fouls**

**Marathon results listed**

The results of the 13.1-mile marathon, 10K and 5K races in the 1973 Boston Marathon are listed below.

**IM teams zero in on titles**

The Intramural world has been thriving this season with the recent advances of three new teams. The excitement still prevails in the Intramural world.

**Gene begin Tuesday and Thursday.**

Two players. Les Shigetani (independent winner) and Bob Reitsch (Pi Kappa Alpha) met with Brad Nau (Alpha Delta Pi) and Bob Robinson (Independent) to discuss the Intramural world's season so far. The excitement still prevails in the Intramural world.
