Briefly

Agent Orange activist dead of cancer

HARVARD UNIVERSITY - Paul Bonfield, a Vietnam War veteran who died a year before his cancer was ascribed to his exposure to Agent Orange, died on Thursday. Professor of Medicine, Mr. Bonfield had been a vocal opponent of the Vietnam War and a long-time advocate for Agent Orange victims. He was 50.

CARTER puts pressure on the Israelis

President Carter stepped up his public pressure on Israel Thursday after the United Nations General Assembly approved a resolution that called for a freeze on Jewish settlement expansion in the West Bank and Gaza Strip. "The United States stands firmly with the United Nations in condemning the Israeli violations of the 1967 cease-fire," Mr. Carter said. "We expect the Israelis to live up to their responsibilities as a member of the United Nations."

Shah denies ‘last chance’ offered

President Carter’s offer of a "last chance" to the Shah of Iran was rebuffed by Iran’s leading general Thursday in a new round of talks between the United States and the Iranian government.

Help is available in ‘suicide season’

Most students can expect the next two months to be a tense psychological time. Final exams, filled with anxiety, followed by college and Christmas breaks, are likely to be a major psychological strain for students. Some experts believe that the disparity between the hallucinations of Christ and Christmas holidays can lead to suicide attempts.

Dim holiday for strikers at Delavan

The workers at the Delavan (Wis.) plant of the American Smelting and Refining Co. have been on strike since last October. The workers have been demanding a wage increase and better working conditions.

Kucinich won’t sell

CLEVELAND - The city of Cleveland will not sell its $15.5 million bank of short-term notes if the City Council votes to sell the notes on Thursday as a way of averting a debt crisis.

Kuchinsky, a member of the City Council, said he would not sell the notes, arguing that the move would put the city in the same financial straits it’s in now.

W. Germany clears last breeder reactor

West Germany’s government cleared the way Thursday for the construction of a last breeder reactor, which officials hope will help solve the country’s nuclear power shortage.

Callaghan supported

LONDON - Prime Minister James Callaghan was given new powers to deal with the crisis in Northern Ireland by the British House of Commons on Thursday. The new powers include the right to introduce new legislation, and to impose a state of emergency if necessary.

Callaghan had wished the life of his deceased brother, who had been a well-known poet and writer. The call of his brother, who was a member of the Northern Ireland Social Democratic Party, had been toned down after power, which is due to be kept by West Germany’s government in future.

Teamster chief dislikes Carter's wage guidelines

WASHINGTON (UPI) — Teamster President Frank Fitzsimmons expressed dissatisfaction with President Carter's revised wage guidelines that he said may result in contract takeovers in the months ahead.

Fitzsimmons stopped short of rejecting the president's con-
centric theory that the goal of the current round of negotiations is to slow the inflation rate, but said it does not appear that the union will pledge to fight for wage stability measures that would keep Teamster 's "in the mainstream of American life."

The Teamster contract bargaining could end on the standard three year time scale, Carter's voluntary anti-inflation program is in its infancy and there are no definite dates for the five-week old negotiations. The president's lawyer for the Labor-Vice President session was federal Judge Robert Ward in a one paragraph statement Friday that said:

"The case has been suitably settled out of court, " both labor and management spokesmen and various materials from the Talmadge report, and there was no danger that the case would be brought on a federal circuit.

Don't alter economic policies, Carter told

WASHINGTON (UPF) - The economy must be left alone to work, Teamster President Frank Fitzsimmons said Thursday in a speech to the chamber of commerce.

"We cannot afford the consequences of a policy of the President's shape," Fitzsimmons said.

A speech before the chamber of commerce in Georgia, where the economy is hard hit by the oil crisis, is expected to receive national attention. But any direct allocation of funds will be deferred action on the part of the administration, but the president's plan is the best way to maintain the country's economic standards.

As part of that statement, the president's plan is to maintain a $10 billion allocation of funds that would be used to purchase goods and services.

But any direct allocation of funds will be deferred action on the part of the administration, but the president's plan is the best way to maintain the country's economic standards. But any direct allocation of funds will be deferred action on the part of the administration, but the president's plan is the best way to maintain the country's economic standards.
Submarine plotter guilty of wire fraud

IT LUDWIG (UPI) — A federal judge sentenced Andrew J. Hubbard, a submarine plotter, to 10 years in prison for fraudulently using money for a plot to defraud the United States.

The jury took 15 minutes to find Hubbard guilty of wire fraud on March 29 after a three-week trial in Manhattan federal court.

Hubbard, 30, was arrested Nov. 29, 1958, by the FBI in a 23-storey hotel in the heart of Manhattan and was charged with conspiracy to defraud the United States.

He was convicted of conspiracy to defraud the United States in March 1958 and sentenced to 10 years in prison.

The money was to be used to defraud the United States of $1 million, the FBI said.

The trial was reported on March 29 in the New York Times.

The judge, who did not want to comment on the sentence, said Hubbard's actions were "a hue and cry for a return to the old days of the 1950s and 1960s when the mob was still the law and money was the law."

In 1958, the only remaining French Cajun accordionist, Isidore Bereal, published a publication that was to be instrumental in the development of Cajun music. The book, "Le Cahier des Accords Cajuns," was a fundamental text that taught Cajun musicians how to play the accordion. This publication, along with the influence of other musicians and the growth of Cajun music, has allowed the Cajun music tradition to flourish until today.

Air feelings to offset depression

Continued from page 1

"very depressed," she said, "very sad, hopeless, tense and real guilt. The person has a difficult time getting out of bed and sometimes stays there all day. There is also an altered state of consciousness with loss of energy, weight loss or gain, insomnia, and extreme fatigue. The individual may also have a poor appetite, concentration problems, and feelings of worthlessness or guilt. There can also be diurnal variation, where the person feels better at night than they do during the day. The difference is the degree and how long it lasts."

"It's not going to be one of these issues, but it's another thing to have been all for three or four weeks without alleviation, especially when you begin to think, 'This, it's not going to go away,'" Henderson said.

"I can relate to this," she said. "Any patient facing an emergency can walk in without a consultation between 8 a.m. and 5 p.m. and see a counselor without charge. I'm not sure about the wait in the clinic, Henderson said."

"It helps to come to realize their feelings and have someone else hear them and understand it and respect it," she said.

"While Culture's study shows that people who commit suicide do not talk a lot, Henderson said. "Very rarely does someone do it who has talked about it or hinted at it. They can be very clear that they're thinking about it."

The social worker said that "symptoms of someone who is ready to jump up and that talk about it, with them, ask them right away. "Give warning signs."

"If the family has any kind of a warning sign."

"If they're going to do it, the

symptoms are a bit different. They talk about what's wrong, they break down but they're not real upset."

Venus's haze layer is sulfuric mist, probe data show

WASHINGTON (UPI) — The government, citing such ugly pollution specifications, would have to impose the new regulations on the companies were leaking more than 15 million tons of such wastes every year in the United States. Companies also would have to pay $1 million in fines for violations of the new laws. EPA Administrator William Ruckelshaus ordered the regulations on Monday and the companies have 90 days to comply. Every company would have to report on the air quality of the area they are classified. Under the regulations proposed by the Environmental Protection Agency, the companies would have to pay fines of $500 for not complying with the new laws. Under the regulations the companies would have to report their emissions of the more than 200 hazardous chemicals they release at 1000 sites every year. The rules would cover companies producing more than 400 pounds of hazardous waste per year.

Air pollution breakthrough achieved

WASHINGTON (UPI) — Thursday, U.S. scientists in a bid to begin the first large-scale test of a pollution control system they call "cradle-to-grave" rules on hazardous materials.

The system, called the "cradle-to-grave" parts of hazardous waste management, will cost about $15 million to develop and will be complicated by the fact that most hazardous waste is in liquid or solid form. It will be tested at Charlotte, N.C., on the industrial area of the Charlotte-Mecklenburg Metropolitan Area. The system is already in use in Texas, Ohio, and Pennsylvania. The EPA is searching for a place in the United States where the system can be tested. The EPA said it would test the system at the Charlotte-Mecklenburg Metropolitan Area. The system is already in use in Texas, Ohio, and Pennsylvania. The EPA is searching for a place in the United States where the system can be tested.

Feds probe rumors of crime film payoffs

WASHINGTON (UPI) — Thursday thieves have caught an alleged Hollywood executive who was present at the dining of the film "The Godfather" and "The Godfather Part II". The executive, said by his attorney to be Hollywood film producer, was arrested early Tuesday morning and charged with money laundering and fraud.

Several sources confirmed the executive, said by his lawyer to be Hollywood film producer, was arrested early Tuesday morning and charged with money laundering and fraud.

Police said no one other than the executive was involved in the incident, which was investigated by the FBI.

John Doe, a former executive for the former TV producer hit by the FBI, was also questioned by the FBI. John Doe, a former executive for the former TV producer hit by the FBI, was also questioned by the FBI.

BEAT INFLATION
Buy our $599 Advent-Yamaha-Pioneer System now.

$599

Due to price increases from Advent, Pioneer, and Yamaha, our $599 system will soon sell for $649. Careful buying at the old price is allowing us to keep our $599 price (hopefully) through December. So here's your chance to buy a terrific sounding stereo and save $50 by doing it now.

The Advent/1 is a new speaker that replaces the famous Smaller Advent. It's Advent's redefinition of just how close you can come to, for fewer dollars and in a smaller cabinet, to the performance of the New Advent Loudspeaker. (The next version of this company's most successful playback speaker). It's performance-per-dollar (and cubic foot) is unsurpassed by any other speaker consumer at the $500 price range.

To match the Advent/1 speakers, we picked the Yamaha CR430 receiver. The CR430 combines clean power (9 Watts into 8 Ohms from 20 to 20,000 Hz; at no more than 0.05% total harmonic distortion) with useful features such as continuous loudness control and independent input and record selectors.

We've chosen the new Pioneer PL314 turntable to complete the system. The PL314 is belt-driven and semi-automatic. We add the Shure M75ED cartridge to insure good record care.

Retired Chamberlain may return to play.

LOS ANGELES (UPI) - Chamberlain, who retired in 1973 after amassing 31,016 career points, may return to the Los Angeles Lakers this season, General Manager Jack Kenton said in his column Saturday.

"Chamberlain said he's been sobering up and that he has no intention of retiring for a while longer." Chamberlain's return to the Lakers would be a major boost to the team, which is currently struggling to find consistency. Chamberlain's scoring and rebounding abilities would provide a much-needed spark to the Lakers' offense.

The Lakers had a middling season last year, finishing with a record of 42-40. They missed the playoffs for the first time since 1970. Chamberlain's return could help the team make a playoff push this year.

"It's been 15 years since Chamberlain retired, and his return would be a huge boost to the Lakers' fans," Kenton said. "Chamberlain was a once-in-a-lifetime talent, and his return would give fans a chance to see one of the greatest players in NBA history in action again."
Football followers feast on bevy of bowl battles

By United Press International

The major college post season football boom takes Saturday with the inaugural Garden State Bowl played in New Jersey and the Independence Bowl in Shreveport, La.

It's been more than a year since the last bowl, the Orange Bowl that featured Army and Oklahoma and Rutgers (B), has been picked to represent the Big 5 against the Power Five in the inaugural Garden State Bowl. Rutgers (B) and East Carolina (A) are meeting at the Garden State Bowl.

In order to maintain the bowl amounts between the two teams' gavels and next week's action: Texas A&M (A) will host Notre Dame (B) at the Hall of Fame Bowl at at St. Petersburg, Fla., Wednesday night at 1 p.m. (EST).

The Christmas vacation opens with Navy (B) vs. Brigham Young (A) in the Bowl at Idaho Falls.

Teaft happy at Baylor, turns down OU offer

Waco (Texas) - (AP) - Baylor University football coach Bill Teaft was quoted today as declining the football coaching job at Oklahoma State University to stay at the school where he was once tabulated on the expanded list of possible replacements to replace coach John Taliaferro at Oklahoma. Teaft is the Oklahoma State coach.

NFL power margins Pro Bowl squads

NEW YORK (AP) - The NFL Pro Bowl squads, announced Tuesday by special committee, will play in a wild-card playoff-type setting in the National Football League's showcase event.

The Pro Bowl has in recent years been a showcase for the league's top stars, but this year's edition is being staged in a new format designed to create more excitement.

The Pro Bowl is scheduled for Sunday, January 29, at 2 p.m. ET, at Darien, Connecticut, and will feature 32 players from the NFC and AFC. The game will be televised on ESPN.

The Pro Bowl will consist of two teams, each consisting of 16 players, chosen by the Pro Football Writers Association. The teams will be coached by two of the league's top coaches, with the NFC coached by Jim Harbaugh of the San Francisco 49ers and the AFC coached by Bill Belichick of the New England Patriots.

The Pro Bowl is traditionally played in Hawaii, but in 2023 it will be held in Connecticut to create more excitement and attract more fans.

The Pro Bowl has been criticized in recent years for being a less competitive game than the regular season, with players often playing conservatively in order to avoid injury or furthering their reputation for the upcoming season.

By ITS Press International

Pro Bowl teams will play a playoff-style format in the NFL's showcase event, with the winning team securing a spot in the title game.

The National Football League announced Tuesday the Pro Bowl game will be held in a new format. The Pro Bowl will take place in a four-game playoff-style setting, with the winning team moving on to the championship game.

The Pro Bowl has traditionally been a showcase for the league's top stars, but the new format aims to create more excitement and make the game more competitive.

The Pro Bowl will feature two teams, each consisting of 16 players, chosen by the Pro Football Writers Association. The teams will be coached by two of the league's top coaches, with the NFC coached by Jim Harbaugh of the San Francisco 49ers and the AFC coached by Bill Belichick of the New England Patriots.

Women hope for victory after tough loss at Drake

Drake University

Iowans back from a tough 81-73 loss to Northwestern this past Saturday will be looking to end their four-game winning streak as they travel to the Drake Bulldogs on Wednesday at 8:00. The Bulldogs have won their last four games, and a win on Wednesday will keep them within striking distance of the Summit League.

The Bulldogs have been on a roll, but the Hawkeyes have been on a roll as well. They will be looking to end the Bulldogs' winning streak and pick up their first win of the season.

Drake University

Iowans take aim at the Summit League this week, while the Hawkeyes will have to face the Bulldogs in a tough contest.

Track season opens with intrasquad meet

University of Illinois

The Hawkeyes will be looking to continue their recent success as they host their annual track and field meet this weekend. The meet, which starts at 11:00 AM on Saturday, will be a great opportunity for the team to showcase their talents.

The meet will feature a variety of events, including sprints, hurdles, distance races, and field events. The Hawkeyes have been strong in most events, and they will be looking to continue their success.

Women swimmers take turn against ISU

University of Illinois

The Iowa State University women's swimming team was defeated by the University of Illinois on Wednesday evening. The Hawkeyes were able to come out on top, winning by a score of 131-188.

The meet was held at the University of Illinois' pool, and it was a great opportunity for the Hawkeyes to showcase their talents.

The Hawkeyes have won their last three meets, and they are looking to build on their recent success. They will be looking to continue their winning streak as they host their next meet on Saturday morning.

Hawkeyes face Illinois Wesleyan

Things have been a little too close for comfort recently and Iowa's Coach Luke Giaraggi is hoping his team improves defensively and will continue to get more points out of his offense.

The Hawkeyes clung to a 61-59 lead when the Hawks host Illinois Wesleyan, a small school that carries a 7-2 record into 10-of-11 games.

That is far from a comfortable margin of victory, especially since the Illini are coming off a 50-46 victory over Iowa State Monday and Olson is leading some of the Illini's more consistent marksman.

"That's what we're up against," Giaraggi said. "Our defense isn't as consistent as it needs to be.

"We're having too many possessions that we don't score on.

"That's a lesson we have to learn to get better.

"The Illini are a team that has a chance to win a lot of games."}

Thank you students and faculty of the University of Iowa for making our first year successful.

All the controls are located right where you need them. The soft satin
finish and beveled edges reflect the extra quality and extra care that goes into every ME.

It'll be love at first touch. Here's why:
The Pentax ME feels better in your hands. It's human engineered for the ultimate in handling ease.
All the controls are located right where you need them. The soft satin finish and beveled edges reflect
the extra quality and extra care that goes into every ME.

With the ME, you don't have to worry about setting
shutter speed: it's automatic! All you have
to do is press the shutter button. If a perfect exposure
requires a shutter speed of 1/250 of a second, that's
precisely the speed you get. Automatically. But if
you wish to change the pre-selected shutter speed, just
rotate the aperture ring.

The ME is a cinch to load. The Magic Needle loading
system provides the easiest film takeup ever.

One look through the viewfinder and you'll be impressed by the brighter
image. Even in low light, the ME gives you a clear picture of what you're shooting.
The ME is a snap to operate. Even if you've never taken a 35 millimeter picture before, you can
operate the ME in less than a minute. Just set, focus and shoot. It's that easy.
The ME is the smallest, lightest automatic-35 millimeter SLR on the market. Which makes it easy to
take anywhere.
The Pentax ME never loses its automatic feature unlike shutter preferred cameras. It's automatic in the camera,
not in the lens.
The Pentax ME never loses its automation because unlike shutter preferred cameras; its automation is in the camera,
not in the lens.
The ME offers added excitement. With the accessory
Auto-winder, you can shoot sequential action at
nearly 2 frames a second.
The ME delivers professional quality photographs. From your very
first roll of film, you'll be delighted in your photographic expertise.

Whether you're a first-time user or an advanced enthusiast, the Pentax ME provides sophisticated
simplicity and beautiful results. But don't take our word for it. Come in and touch the merchandise.
We think it'll be love at first touch.
