Iran’s army chief backs ailing Bakhtiari government

MARRAKESH, Morocco (UPI) - The head of Iran’s army expressed his support for the regime of Premier Shah Ali Bakhtiari Monday, thus clearing the deck for a possible military coup. Bakhtiari, who has been severely undermined by the political chaos expected when a tribal leader named Sidi Ali Ibadi becomes interim prime minister next week, is caught in the midst of a political crisis that some observers regard as an attempt to oust him from power. Despite the political chaos, Bakhtiari has remained in power, but his position is increasingly tenuous. In addition to the political crisis, Bakhtiari is also facing economic problems, including a severe shortage of food and water, as well as widespread discontent among the population. Bakhtiari has been under pressure from both within and outside the country to resign, but he has so far refused to step down. The army’s backing for Bakhtiari is significant because it is understood that the army has the power to intervene and remove a government if necessary. Bakhtiari has been in power for 18 months and his government has been seriously undermined by a series of events, including the death of the shah and the rise of Ayatollah Khomeini. The army is expected to play a key role in any future transition of power in Iran.
"Laws unconstitutional"  

ICLU to defend landlords  
By PAM MELLOR  
Staff Writer  

The American Agriculture Movement is being called by some a "grassroots" political organization and by others "the tractorcade to the nation's capital." The tractorcade movement, which originated from the idea of fighting for a $10-a-month raise for farm workers, has now grown to include a broader movement to regain family farms and to implement the 90 per cent farmer ownership.  

"The tractorcade to the nation's capital is the culmination of a year of hard work by a group of dedicated farmers," said John Ivers, the director of the ICLU, an organization that is supporting the tractorcade movement. "This year, farmers have come together to fight for their rights and to bring about a change in the system of land ownership."  

Rally supports legal abortions  
By ANNE GREENBERG  
Editor  

The sixth anniversary of the 1973 U.S. Supreme Court decision legalizing abortion has been observed by a number of groups across the country. The abortion issue remains a controversial one, with strong support on both sides.  

"It's important to remember that reproductive freedom is a necessity for all women," said Jane Addams, a founder of the National Organization for Women. "Abortion is a medical decision that should be made by women in consultation with their doctors. It is a personal decision that affects women's health and privacy."  

For more information, visit the National Organization for Women at their website: www.naw.org.

Ul College of Liberal Arts approves academic 'minors' plan

By LEE EVERT
Black Lion
Ul liberal arts students may now be credited with minors to complement their majors by the summer, Dean Howard Laster and Monday. Students working to officially declare one now "can be in a political science major and have a minor in art history," Laster said. The decision is in particularly good news for students who, in the past, have been faced with the decision to choose between a major and a minor that is not offered at UI or who have wanted to minor in another field but have not been able to declare it for the major they are choosing.

Laster said that the addition of minors is in line with recent changes in the academic programs that are being made at other institutions. The addition of minors will allow students to explore other areas of interest without having to choose a minor that is not offered at UI. This will also allow students to pursue a wider range of courses and develop a more well-rounded education.

Ul's new program will allow students to choose from a variety of minors, including art history, political science, and various other fields. The minors will be offered in addition to the major that the student is already pursuing, and will not replace the major.

Laster said that the new program will be beneficial for students who want to pursue a wider range of courses and develop a more well-rounded education. The program will also allow students to explore other areas of interest without having to choose a minor that is not offered at Ul.

Definitive test sought

Court to rule on laetrile

WASHINGTON (UPI) — The Supreme Court agreed Monday to review whether the federal government is justified in keeping the preserved human cancer cell line derived from the controversial drug laetrile.

Lower courts have ruled the Food and Drug Administration had authority to ban and seize the drug, which is made from apricot pits.

The court also granted a request by the World Health Organization for laetrile to be used in tests on cancer patients in the United States.

The high court is expected to rule on the cases by the end of the October term.

In recent years, the effectiveness of laetrile has been bitterly debated. Many terminally ill cancer patients have reported that the drug cured or helped them.

The National Cancer Institute, meanwhile, is seeking the F.D.A.'s permission to test the drug on cancer patients who have not responded to conventional treatment. The agency has done nothing to check whether the laetrile is working and deserves further testing around the country.

Ray's Raycr Catering fund raising

DES MOINES (UPI) — Gov. Robert C.按规定 436-6350 for the Carter Administration for aid and loaned the Carter Administration for $4,000 to help battle the disastrous flood that hit the state.

The governor said, "I just thought you people ought to know where to find a place to wash your clothes."

Ray's Catering was able to open for business again Monday after having been closed for three weeks due to the floods. The governor said the money was "just for the people who lost their homes in the floods."
