Military support of Khomeini up

TEHRAN, Iran (UPI)—Hundreds of soldiers marched after Friday prayers to join the masses demanding the restoration of Ayatollah Khomeini. Some 15 million people gathered in Tehran and other major cities for what they consider the most important political rally in Iran in 20 years.

The rally was the first since Khomeini's departure from Iran in exile in 1964 and the first since the Islamic revolution that ousted Shah Mohammad Reza Pahlavi in 1979. The rally was also the first since the Shah's death in 1980.

Jury-tampering suspected

Flood retrial possible

WASHINGTON (UPI) - A holocaust judge, who reportedly gave false jurors damaging information on three key prosecution witnesses in the trial of convicted mass murderer John Minority, would be held in federal jail for at least 90 days if convicted. Minority, who has been in jail since 1966, has a federal court order to appear in court for trial on charges of murder and assault.

The minority, who is about 30 years old, committed to the trial by police said. He was identified as the person whose body she stabbed. Police said there no indication the woman had known the person whose body she stabbed.

The minority said the woman would be charged with dissection of a human body in the trial. The minority said the woman had been known to police, who said they were attempting to locate the woman to give her condolences.

New film of Dallas found

DERRY [UP] - Western Penn reported Thursday that a secret footage has been discovered which a lawyer says may provide new information in the assassination of President John F. Kennedy.

The lawyer, who has a clear view of the footage, said it was shot in the months after the assassination. The footage was shot in a copyright film, he said, and was bought by a former employee of the film company.

The Western Penn lawyer John F. Kennedy, who represents the minority, said that the woman could have helped the shooting of the film.

Paramedic disputes ‘Times’ story on Rockefeller

NEW YORK (UPI)—A paramedic who treated Nelson Rockefeller the night he died said Thursday that the former vice president’s staff called for help but told doctors Rockefeller was barely breathing.

The nurse, who did not want to be identified, said she was one of several nurses on duty at 8:30 p.m. Monday night when the vice president was admitted to St. Luke’s Roosevelt Hospital.

“The vice president’s staff told us he was having severe chest pain and needed medical attention,” the nurse told UPI. “His heart rate was slowing, and he was breathing slowly.”

The nurse, who asked not to be identified, said the doctor told her the vice president was not breathing and that he had no pulse.

Robert Parson, a paramedic for the New York State Department of Health, said Thursday that the former vice president’s staff called for help but told doctors Rockefeller was barely breathing.

The nurse, who did not want to be identified, said she was one of several nurses on duty at 8:30 p.m. Monday night when the vice president was admitted to St. Luke’s Roosevelt Hospital.

UI report proposes ways to assure access to sun

By MIKE CONNelly

A number of people and agencies are trying to prevent obstructions from being built on solar farms. Legislation could specifically regulate the power of solar energy, creating, which central ruling, to implement the agreements. All parts of the state to the Iowa City Council. Therewith, three UI engineers proposed legislation that guarantees access to the sun. Written by Edith Fein, said, "That's one of the things that unreasonably block access to a solar collector.

The problems of access to the sun are great as the other areas of the country. The report states, "Farming and many residential neighborhoods in the state, which change by season," the report claims.

The report says in action to make use of poorer energy economically feasible.

Ford re-sends Pinto recall notice

DETROIT — Ford Motor Co. said Thursday it is sending a second recall notice to 800,000 Pinto owners who ignored earlier warnings of the fire hazard.

A Ford spokesman said only 120,000 of the 3.5 million Pinto owners who were initially recalled last June by a federal court order have responded to the sending of "Dear Motorist" letters by Ford.

Ford said it will send the recall notices by mail to motorists who have not replied to the letters. Another 300,000 letters are going to persons who may have been missed the first time around it said.

"We're just trying to remind people that we have this concern about their vehicle and we'd like to get it repaired," Ford said.

In December, recall notices were being lagging in rate of up to 14,000 a week. In January, that had fallen off to 5,000 a week. 

"Human nature is a funny thing," the spokesman said. "It seems like people who own Pintos don't want to be bothered.

No modification has been brought in for the modifications designed to prevent against fuel leaks but Ford is not planned on changing the vehicle's design.

Billy Jones estate to children despite will

BARTON FERRY (AP) — The estate of Billy Jones, a legendary Texas oilman, will be divided among five children, according to court papers filed Thursday.

Jones, the founder of the Billy Jones Petroleum Co., died in 1979.

His will directs that $1 million be divided among his five children: James, John, Robert, Bill and Sally. The will also specifies that the children receive a percentage of the estate's income, with the balance going to a trust fund for their children.

Jones was a key figure in the Texas oil industry, having been involved in many major deals, including the acquisition of a large share of the oil company's stock.

His death in 1979 left a large estate, which was subsequently divided among his children.

The will also includes provisions for the children's education and for the maintenance of a trust fund for their children.

National security endangered

ITT Chile case dropped

Washington, D.C. — Concerned about the loss of a volatile foreign policy weapon, the Justice Department announced Friday that it would abandon a three-year-old probe into the complaints of a former employee of the U.S. government.

The decision was made in the wake of the growing scandal surrounding the Department of Justice's decision to grant a special overseas assignment to John Kindley, who reports the operations of the CIA in Chile.

The move is expected to reinforce the government's commitment to protecting the nation's security interests, according to senior administration officials.

Kindley, who was working for the ITT Corporation in the United States, was given an overseas assignment to work in conjunction with CIA agents in Chile.

The decision was made following a review of the evidence gathered by the Department of Justice in its investigation of ITT's activities in Chile.

ITT Corporation, a major U.S. defense contractor, has been accused of providing technical assistance to the Chilean government.

The move was controversial because it was seen as a way to avoid U.S. sanctions against ITT.

However, the administration said that providing a special overseas assignment to Kindley was the only way to ensure that the CIA's activities in Chile were properly monitored.

Kindley, who was previously stationed in Latin America, was assigned to work with CIA agents in Chile.

The move was seen as a step forward in the government's efforts to keep tabs on Chile's internal security.

The decision was announced after a series of meetings with top administration officials, including the National Security Council.

The move was seen as a significant step towards resolving the controversy surrounding the ITT-Chile issue.

However, critics said that the decision would only serve to undermine the administration's efforts to ensure the nation's security interests are protected.

The Justice Department said that Kindley would be carefully supervised by CIA agents in Chile, and that his activities would be closely monitored to ensure that they were in line with the government's goals.
Credibility wrangling

Injured reporter remains in coma; police confused

NORTH LITTLE ROCK, Ark. (AP) — Police investigating the shooting of a United Press International reporter as she drove home along a remote road near Little Rock have not ruled out that two other vehicles were near her when she was severely wounded and shot.

John Danielik

Detective Sgt. Walter Miles said his department does not suspect anyone else fired shots at correspondent John Danielik, 25, who shot over the windshield of his vehicle near the base of Bull Run Mountain in eastern Little Rock early yesterday.

Miles said Danielik, a University of Arkansas at Little Rock student, had been studying about 8:15 p.m. near the Arkansas River, then saw two other vehicles and stopped his car.

The scene was isolated in the community of Stone River, at the southern end of the Ouachita National Forest.

Miles said Danielik left the area in his car after he was shot.

"The most important thing is that he's alive and we are trying to help him recover," Miles said.

Miles said Danielik was shot in the chest and in the left leg.

The shooting took place when Danielik was driving along an unlit back road that is not on any map, Miles said.

Miles said investigators are questioning three people about the shooting.

New education dept. proposed by Carter

WASHINGTON (AP) — The administration Thursday proposed a new department of education, and promised it would be fully funded and offered with a $1 billion budget and $50 million in grants.

President Carter announced the education department in a White House conference call with national leaders.

The president said the new department would "create a government strategy for educating all Americans, including those who have been left behind in the past."
Laetrile clinic unaffected by death

BOSTON (UPI) — Children with leukemia may one day be cured if the disease removes in recurrences for at least 4 years after chemotherapy and radiation treatments are discontinued, doctors reported Thursday. The findings were presented at a meeting of the American Society of Clinical Oncology in Chicago.

Leukemia 'cure' defined: 4 years

"A patient can be considered cured if the disease remains in remission for at least 4 years after the completion of all anticancer therapy," the report said.

The findings are based on a study of 1,600 patients who were treated for leukemia at Children's Hospital in Boston. The study included patients who were treated with chemotherapy, radiation therapy, and bone marrow transplants.

The findings are significant because leukemia is one of the most common types of cancer in children. It is estimated that there are about 6,000 new cases of leukemia in children each year in the United States.

The study also found that the risk of recurrence is highest in the first year after treatment. After that, the risk of recurrence decreases sharply.

The findings are important because they provide hope for parents of children with leukemia. It is estimated that about 1 in 7,000 children in the United States will develop leukemia at some point in their lives.

Booze labels won't carry health warnings

WASHINGTON (UPI) — The U.S. Army ruled Thursday that Spanish-speaking soldiers cannot be banned from speaking Spanish in units because it would hurt combat efficiency.

The Army, which has traditionally prohibited soldiers from speaking their native language on military bases, said Thursday that soldiers are Spanish-speaking and must be allowed to communicate in their native language.

The Army's ruling comes after a lawsuit by the American Civil Liberties Union, which claimed that the ban on Spanish-speaking soldiers was unconstitutional.

The Army said that the ban on Spanish-speaking soldiers was implemented to prevent soldiers from using Spanish to communicate with each other, and that it was necessary to maintain combat readiness.

The Army also said that the ban on Spanish-speaking soldiers was necessary to maintain discipline and order in the Army.

The Army's ruling is significant because it represents a victory for soldiers who speak Spanish and their rights to speak their native language.

The Army's ruling is also significant because it may set a precedent for other military branches to allow soldiers to speak their native language.

If you're a junior or senior majoring in sciences like math, physics or engineering, the Navy has a program you should know about.

It's called the Nuclear Propulsion Officer Candidate Collegiate Program (NUPOC-C) for short and if you qualify, you can earn as much as $4650 a month right through your senior year.

Then after 16 weeks of Officer Candidate School, you'll get an additional year of advanced technical education.

This would cost thousands in a civilian school, but in the Navy, we pay you.

It isn't easy. There are fewer than 400 openings and one in five applicants will be selected. But if you make it, you'll have unequaled hands-on responsibility, a $24,000 salary in four years, and gilt-edged qualifications for jobs both in the Navy and out.

Ask your placement officer to set up an interview with a Navy representative when he visits the campus, or contact your Navy representative at 800-841-8000, or send in the coupon. The NUPOC-C Program. Not only can it help you complete college, it can be the start of an exciting career.

The dual meet season is when the Iowa State wrestling team and the Cornhuskers meet in Lincoln at the volleyball tournament. The first match of the season is the Big Ten Championship meet, which will be held on Saturday, February 25. The match will begin at 7:30 p.m. and will last until 10:30 p.m.

The matches can be watched on TV, with NBC Sports Network airing the matches live on Saturday night. The matches will also be available online via the Big Ten Network's website. This is a great opportunity for wrestling fans to support their favorite team and enjoy a night of exciting sports action.
Hawks' honeymoon over; swimmers face Gophers

By WORCE WATSON

WANTED · So.

Saturday's 2 p.m. matchup against Minnesota will mark the first time this season that the Hawkeyes have played in the Field House. In fact, it could be a season start. The Gophers, led by Minnesota native Coach Glenn Patton and his crew of 10, are 4-1 overall, including a 3-1 dual competition record. This will mark the first time that the Hawkeyes will face the defending state title, a record that they're starting to taper so that they can focus on a different competition. The Hawkeyes, who were a part of Iowa's nine freestyle events, are the strongest lineup in the nation. The Hawkeyes will be looking forward to the Minnesota meet and they're anxious to earn their regular events again.

The goal is to win the event for the second year in a row. The Hawkeyes will be looking for a win on the first day of the meet. The Hawkeyes' record is 1-2, and they're looking for a win in the dual competition against Minnesota.

The Hawkeyes are ranked second in the nation, with a score of 1.3357. With a score of 1.3357, the Hawkeyes have the second highest score in the nation. The Hawkeyes have also won five of seven dual competitions this season. This will mark the first time that the Hawkeyes have faced the defending state title. The Hawkeyes' record is 1-2, and they're looking for a win in the dual competition against Minnesota.

Iowa's Dave Wiltse dunks against Michigan's Jay Tiller during the second half of the Big Ten basketball game. Wiltse finished with 20 points, including the final six, for Iowa in the 91-82 win over Michigan.

Buckeyes 63, Wolves 45

KANSAS CITY, Mo. (UPI) - Ohio State's Kelvin Ransey scored 18 points, including the final six, as the Buckeyes extended their winning streak to 13 games by pulling away from Minnesota 63-45 in the Big Ten's annual five-team Invitational.

Ransey, whose 18 points gave him 1,000 career points, scored the final six points of the game after Ohio State had built a 12-point lead midway through the second half. The Buckeyes (11-3, 6-3 Big Ten) have won all three of their Big Ten games by double digits since MN State.

Wisconsin 72, Northwestern 54

CHICAGO - The 3-point bombing that made Northwestern one of the nation's top teams Saturday night against Illinois State proved to be a no-show against Wisconsin.

Despite a miserable shooting night, the Badgers welcomed the return of forward Mike Waideman and shot 64 percent from the field to win, 72-54, at Comiskey Park.

Waideman, who had been out since Nov. 7 with a pulled back muscle, scored 11 points and grabbed seven rebounds.

Wisconsin never trailed.

Michigan State 72, Northwestern 51

EAST LANSING, Mich. - Michigan State added to the jitters of Northwestern Coach Layne Greer when the Spartans got a 20-point lead in the opening minutes of the Big Ten game Saturday.

Northwestern, which had beaten Michigan State 81-78 in the season opener, did not win another Big Ten game.

Big Ten Standings

02/10/1983

Fourth quarter

1. Iowa 11-3-2 6-3 54 72 2. Illinois 10-3-2 6-3 47 73 3. Ohio State 11-3-2 6-3 61 76 4. Michigan State 10-4-2 6-3 60 72 5. Northwestern 2-12-2 0-9 29 61

The Hawkeyes' top shooter was guard Pat Judge, who scored 18 points and pulled down six of Iowa's 28 rebounds in its victory over Northwestern.

Hawks gain in tourney

BLOOMINGTON, Ind. (UPI) - For the second time in Iowa history, the Hawks won a Big Ten tournament.

Iowa, which upset the Spartans 55-54 in the semifinals, led for most of the second half and won 91-82. Assistant Coach Heathcote said of his team, "They did everything we could ask for, and they did it twice."

Trackmen seek Nebraska titles

Evanston, Ill. (UPI) - Mark Griswold of the 1,500-meter and Curtis Redmond of the mile broke the 1980 Illinois track team's record of remarkable performances at the outdoor Big Ten track meet.

The Hawkeyes' 20-point lead after falling by 13 at the half at Herman Field House, was converted to a 20-point victory. Iowa was leading, 39-31, at the end of the first half.

The Hawkeyes were slightly underestimated because of their 1-6 record in the Big Ten.

An overtime victory over Northwestern was the first Big Ten win for the Hawkeyes this season and the first Big Ten victory for Iowa basketball coach. It marked the first time Iowa has won a Big Ten game since its 1978-79 season.

Northwestern's 54-51 loss to Iowa in the Big Ten opener may have prevented the Wildcats from returning to the NCAA tournament.

...next year's Hawks will be a tough act to follow, with senior shooting guard Pat Judge and sharpshooting senior center Joe Barry Carroll returning. The Hawks won the Midwest Regional and reached the NCAA tournament for the first time since the 1978-79 season.

Hawks' top scorer was Joe Barry Carroll, who scored 18 points and pulled down six of Iowa's 28 rebounds in its victory over Northwestern.

Hawks' top scorer was Joe Barry Carroll, who scored 18 points and pulled down six of Iowa's 28 rebounds in its victory over Northwestern.
