Saudis ease criticism of peace treaty

By United Press International

Saudi Arabia Monday softened its criticism of the Egyptian-Israeli peace treaty, saying it understood "the current situation in the Arab world." In the past, the Saudis had accused Egypt of selling out to Israel and of "betraying" the Arab cause.

The Saudi Foreign Ministry said in a statement read on a radio in Riyadh that the peace treaty had been "as hard and difficult as possible" but that it was "understandable" that Egypt had to seek a "solution to this eternal problem." The statement praised Egyptian President Anwar Sadat for "his historic decision" and said that it was "different to consider this problem only from the Arab side and forget the position of other nations." The statement added that the peace treaty would encourage "different trends" in the Arab world.

The statement also said that the peace treaty would have "favorable" effects on the "development of the Arab-Israeli conflict," and that the Saudis were "optimistic" about the future of the peace treaty.

The statement ended with a call for "Arab unity" and "the Arab people's support" for the peace treaty.

The peace treaty was signed in Washington, D.C., on March 30, 1979, and was later ratified by the United States Congress. The treaty officially ended the state of war between Egypt and Israel, and provided for the withdrawal of Israeli forces from occupied territories in the Sinai Peninsula.

By United Press International

The Soviet Union is expected to sign a deal with Afghanistan that will allow it to withdraw its troops from the country.

The deal is expected to be signed during a visit by Soviet Foreign Minister Andrei Gromyko to Afghanistan next week.

The visit is seen as a significant development as it comes after a series of meetings between Soviet officials and Afghan leaders over the past few months.

The deal is expected to be signed in Kabul and will be seen as a major step towards the eventual withdrawal of Soviet troops from Afghanistan.

By United Press International

During their recent talks, Carter and Sadat agreed to a joint statement that would outline the steps both countries would take to implement the peace treaty.

The statement was released to the press and outlined the steps that would be taken to implement the peace treaty. It included a commitment to work towards a peaceful resolution of the Israeli-Palestinian conflict.

The joint statement was seen as a significant step towards implementing the peace treaty, and was welcomed by both the United States and Egypt.

By United Press International

In a significant development, the Soviet Union is expected to announce a decision to withdraw its troops from Afghanistan.

The move is seen as a major victory for the United States, which has been pushing for the withdrawal of Soviet troops from the region for several years.

The announcement is expected to be made during a visit to Moscow by Secretary of State Henry Kissinger.

The withdrawal of Soviet troops is seen as a significant step towards a peaceful resolution of the conflict in Afghanistan. It is also expected to boost the chances of a negotiated settlement between the Afghan government and the Taliban.
Council delays decision on odd-even parking rule

BY ANDREW ROBERTS
Staff Writer

The Iowa City Council, swayed by its calendar parking regulations, is in the throes of deciding on an odd-day or even-day parking enforcement system. The decision is the result of Monday afternoon's session that was a drawn-out affair.

While the council was unable to decide the specific areas of action parking is to be used to mediate a conflict, a consensus was reached on the policy. The effective time period will be modified to 8 a.m. to 4 p.m. from the currently 8 a.m. to 6 p.m. and the even-day enforcement days will be changed to odd-day enforcement days. But the council was unable to decide whether the enforcement time will be changed and whether the time period will be changed.

A new area for discussion is the city's northern boundary parking for the summer months. No snow routes will work and it's enough paperwork will work. I don't get your data pretty good after long enough to have more license with those pleased major majors, I say.

Councilman Glenn Roberts said he has been receiving correspondence from residents of the neighborhood praising the current parking regulation policy. "We've gotten more of the storage parking and it's better organized than," Roberts said. The policy isn't a parking policy, it's more of a parking policy. The parking regulation was not discussed at Monday's meeting but will be taken up by the council next week. Councilor Mary Neuhauser said the council has a policy for 12 a.m. to 12 a.m. and discussion of the policy includes the possibility of permitting one-side parking without totally prohibiting parking.

City Manager Bill Berlin said the type of problems that has occurred in other cities where the regulation was in place, was widely publicized, and said procedure after year.

Richard Flaherty, the city's public works director, discussed with Berlin. He said the streets with parking regulations must be signed and enforced for the area for the entire year. Berlin will maintain the street signage in place for parking regulation and the possibility of one-side parking.

"I don't know how much enforcement there will be," Berlin said. The council has a policy for 12 a.m. to 12 a.m. and discussion of the policy includes the possibility of permitting one-side parking without totally prohibiting parking.

The council voted to make definitive decisions in the modifications of its parking regulations at its informal meeting next Monday.

SYNERGY—one excellent reason why Advanced Audio is the place to purchase a music SYSTEM.

Here are 4 more:

1. The infinity Gold loudspeaker has stunned the music world with its accuracy and clarity. Ultimate accuracy is now reasonably priced.

2. Grado FSE+ Phonograph Cartridge
O ffering low rumble and speed stability, the semi-automatic JVC is the best value in a turntable today.

A Hi-fi SYSTEM is more than just a collection of individual components. Professionally designed, the component parts should form a whole greater than the sum of its parts—SYNERGY. Advanced Audio sells systems.

We invite you to experience SYNERGY.

OPENING

"The Daily Iowan needs a feature article about a new restaurant or a new store in town. The article should be well-written and cover all the details of the restaurant or store: location, menu, prices, service, atmosphere, etc. The article should be at least 500 words long and should be submitted by November 15th."
Police beat

Premonitory hearings have been held for two men charged with allegedly breaking into a Golden West Jewelry store on College Street, and stabbing a man.

Roth Miller, 32, and Ronald Miller, 31, of the city were rearrested on Monday after a trial arrangement between Clearwater Pawn & Jewelry and police, according to police chief J'Brien.

The men were charged with second-degree burglary and assault, with or without a weapon. They were released on bail and will appear in court on Tuesday.

Witnesses reported seeing the two men leave the store with several items.

There were no injuries reported among the people inside the jewelry store.

No arrests were made in this incident.

No more parking signs

A new parking regulation went into effect on Monday, March 6. The new regulation requires that cars be allowed on the street during the day in order to facilitate the cleaning of snow from the streets.

The new regulation was put in place in order to encourage residents to clear snow from the streets, which would help prevent snow accumulation and make it easier for emergency vehicles to access the city.

The new regulation applies to all streets in the city and will be enforced by the police department.

The police department has warned that those who violate the new regulation may be subject to fines.

Senator: No more parking signs; Farber insists

Senator Thomas Farber has introduced a bill to remove all parking signs from city streets. He argues that the signs are unnecessary and only serve to cause confusion and frustration for drivers.

"The signs are a hindrance to the free movement of vehicles," Farber said in a press release. "They are unnecessary and only serve to cause confusion and frustration for drivers."

Farber's bill has gained support from many residents, who believe that the signs are too numerous and cause confusion.

The bill is currently under consideration by the city council.

Laying groundwork for the transition to renewable energy

While national political figures are arguing about whether the problems in Baghdad are a reason to continue the development of an intermittent alternative energy—uranium—program, the bill, which was passed without dissent by the Iowa Senate last week and now awaits action by the House, would allow the creation of a center to promote solar energy and photovoltaics. Opponents of the bill said they were against the bill on the grounds that the state did not need another center to promote solar energy and photovoltaics. Opponents of the bill said they were against the bill on the grounds that the state did not need another center to promote solar energy and photovoltaics.

The bill also contains a section that essentially encourages existing centers to consider the practical aspects of renewable energy collection when making their decisions. The section recognizes that the development of solar energy capacity is an important aspect of the public interest in the state. However, the section also states that the state should not be required to fund centers to promote renewable energy. Generally, it is important for public officials to choose the best ways of promoting and supporting renewable energy.

Readers: Old Brick is sound and functional

In The Editor's Column, by Mark Eiler's letter on Old Brick, I am happy to know that he is writing about his experiences in Iowa City, Iowa, as a former resident of the former brick building. The church is still a very useful building: the parking lot is now a church parking lot and it is a Lutheran Campus Ministry.

Letters

Followings, by Mary Jane Smith: The Church of the Covenant is already used for public gatherings and now church services every Sunday morning.

Point two: You see the building doesn't look as great as it did in the 12 years between the construction of the building and the building was sold to the University of Iowa. I have been looking at the church and found that there is a lot of modern art in the church. The stained glass that was there is being improved. But it takes time and money to do all of this. You can't expect miracles, even for a church.

You say the building is basically a large, old building. Usually churches remain in the same building. Why do you think those organizations that own it leave the church? It might be because of the history of the building, or the need to add new services and programs.

If you don't have any ideas, let's write about it, at least find some research that might answer the question. In several years, the church will be called the University of Iowa. I have been looking at the church and found that there is a lot of modern art in the church. The stained glass that was there is being improved. But it takes time and money to do all of this. You can't expect miracles, even for a church.

"Barber" mocks self

NYC Opera's "Barber" mocks self

by Judith Green

The New York City Opera Theater has presented two delightful performances of Rossini's opera, "Barber of Seville,\" during its recent season. The productions, directed by John Houseman and conducted by Daniel Barenboim, were both received with great enthusiasm by the audience.

The performances were well received, with particularly strong performances by Carel Woodard as Figaro and Jules Dassin as the Count. The chemistry between the two actors was evident and the audience was captivated by their performances. The opera was sung in Italian with English surtitles, which made it accessible to a wider audience.

The setting of the opera was a beautifully designed, with a richly decorated set that added to the overall atmosphere of the production. The costumes were also well-designed, with the characters dressed in period clothing that complemented the setting.

The music was conducted with precision by Barenboim, who also led the orchestra and chorus with great skill. The performances of the orchestra were particularly impressive, with the musicians playing with great energy and enthusiasm.

The voices of the principal actors were also excellent, with Woodard and Dassin delivering performances that were both engaging and heartfelt. The chemistry between the two actors was evident and the audience was captivated by their performances. The opera was sung in Italian with English surtitles, which made it accessible to a wider audience.

Quakes a risk to nukes

WASHINGTON, D.C. - The nuclear regulatory officials, who head the agency that oversees U.S. nuclear power plants, said Monday that the chances of a serious accident at U.S. nuclear power plants are greater than many people think.

"We're not saying there's a 100 per cent chance of a major accident, but we're not saying there's a zero chance," said Rep. Morris Udall, D-Ariz., ranking member of the House Interior subcommittee on energy and water development.

"We're not saying there's a 100 per cent chance of a major accident, but we're not saying there's a zero chance," said Rep. Morris Udall, D-Ariz., ranking member of the House Interior subcommittee on energy and water development.

Six teams vie for IM crowns

By REBECCA MANGLE

The performers have their names on the marquee. But the game is just beginning. The leading roles in the annual Iowa Men's Invitational are filled by the Iowa State, University of Wisconsin, University of Minnesota, University of Nebraska, Illinois State, and St. Cloud State teams.

The event is the climax of the Iowa State men's basketball season and the most important event in the history of the school. The Flames, led by forward Bill Johnson, are the defending champions and are seeking to make it three in a row.

Several other teams are also in the mix, including the University of Wisconsin, the University of Minnesota, and the University of Nebraska.

The game is scheduled for Saturday, March 18, at 8 p.m. at the Iowa State Coliseum in Ames. Tickets are available at the door for $5.

It's the Quakers, not the Nittany Lions.

PHILADELPHIA (AP) — "I've got something to do and I don't want to wait around," said Pancakes Holiday, one of the owners of the Pancakes restaurant in Philadelphia.

Holiday said he plans to open the restaurant in early May and plans to use it as a base for his new business, Pancakes Travel.

The restaurant will offer breakfast, lunch, and dinner options and will be located in a quiet neighborhood.

Holiday said he is excited about the opportunity to open a business in Philadelphia and hopes to attract customers who are looking for a unique dining experience.

No changes after race accident

DALLAS, Texas (AP) — A Dallas police officer who was hit by a car in the middle of the street on Monday night said he is doing well and expects to return to work soon.

Officer Mark Johnson was hit by a car while directing traffic near the intersection of Commerce and Main Streets.

Johnson said he was not seriously injured and that the accident did not affect his ability to perform his duties.

Johnson said he is grateful for the support he has received from his family, friends, and colleagues.

NIT becomes All-Big Ten final

NEW YORK (AP) - Joe Barry Carroll, scoring a tournament-high 26 points Monday night to set up an All-Big Ten final in the national Invitational Tournament by guiding Purdue to a 115-87 victory in the semifinals.

Carroll, a four-year starter who led the Big Ten in scoring the last two seasons and who gained first-team All-American honors this year, poured in 15 of his points in the opening 20 minutes, while teammate Mark Mysnyk, who had been out of the lineup for four games, came off the bench to score 14 points.

Purdue now faces Indiana State in the championship game Tuesday night for the first time in two years. The Hoosiers went on to win the 1976 Invitational title. Purdue won the 1975 title.

The Boilermakers' win was the 19th consecutive Big Ten championship for the Hoosiers, who played Purdue three times last season and beat the Boilermakers twice.

Indiana State, however, rallied within three points behind the driving of Eddie Fehr with 4:15 to play, but the NIT East Regional Champions held on to win, 95-83.

The score was 37-37 at halftime. Carroll scored 19 points in the second half to help Purdue turn back the State-Western attack.

Carroll made 10 of 12 free throws and also was the tournament's top free-throw shooter.

Purdue's win was its 16th in 23 tournament games, while Indiana State fell to 15-7 in 24 games. Purdue has won 19 of its last 20 sectional games.

**Sportsscripts**

Swimming, gymnastics lessons offered

Thea Kuehn has a message for parents everywhere: "If you want your kids to be great swimmers, start them young. If you want your kids to be great gymnasts, start them young."

Kuehn, the former Olympic swimmer and gymnast, is offering swimming and gymnastics lessons to children under the age of 10 for $12 an hour. The lessons will be held at the YMCA of Greater Cincinnati, 1122 Eden Park Ave.

**Hoosiers upend Ohio State**

NEW YORK (AP) - Indiana University, using an overwhelming defense, stopped in-state rival Ohio State 183-110 and into the final of the National Invitation Tournament by winning the Midwest Regional.

In the opening minutes of the second half Monday night and made Mike Warren's attempt to tie the game and put the Buckeyes ahead 111-110. Indiana then reeled off 19 straight points for the win.

Indiana, playing a deliberate style characteristic of Bobby Knight's teams, took a 61-56 lead at the end of the first half and led by 13 with 5:20 left.

Spartans' 'Magic' act next Penn obstacle

By United Press International

The Spartans' run of successes came to an end Monday night in the Midwest Regional, as the Ohio State University defeated Michigan State 103-90 in the regional final.

The Spartans, who had been the most successful team in the Big Ten this year, were stopped in the first round of the NCAA tournament by the Ohio State Buckeyes, 73-64.

**Kinseth honored as Iowa's MVP**

Iowa City (AP) - Jim Kinseth, Iowa's 6-foot-10 senior center, was named the Midwest Regional's Most Valuable Player Monday night.

Kinseth had scored a career-high 21 points in the regional final against Michigan State, giving him 132 points for the season, which tied him for second place on the school's all-time scoring list.
