Senate cans amendment balancing 1981 budget

WASHINGTON (UPI) — The U.S. Senate is expected to cancel about $1 billion in budget cuts this week as the House and Senate prepare to reconcile their spending bills in an attempt to end a budget crisis that has left Congress facing a partial government shutdown.

The Senate, by a 65-35 vote, defeated an amendment offered by Sen. Bill Bradley, D-N.J., to strike $1 billion from the House-passed budget. The Senate amendment would have reduced the deficit by $1 billion for the fiscal year beginning Oct. 1.

By an equally overwhelming majority, the Senate voted down an amendment introduced by Sen. George McGovern, D-S.D., to reduce spending in a number of federal programs with more than $1 billion in projected savings. The Senate amendment would have reduced spending in those programs by more than $1 billion.

The Senate amendment, favored by the President's budget, would have reduced spending in a number of federal programs with more than $1 billion in projected savings. The Senate amendment would have reduced spending in those programs by more than $1 billion.

The amendment was supported by Sen. Sam Nunn, D-Ga., who said the budget cuts could be achieved through negotiations between the House and Senate.

Budget Committee's recommendation (or defense projects

The committee voted to reduce defense spending by $1 billion below the level proposed by the House. The committee's recommendation would reduce defense spending by $1 billion below the level proposed by the House.

In the House, Republicans and Democrats have been unable to agree on a budget plan that would reduce the $1 billion in projected deficit spending.

The House has voted to reduce defense spending by $1 billion below the level proposed by the Senate. The House's recommendation would reduce defense spending by $1 billion below the level proposed by the Senate.

The House has voted to reduce defense spending by $1 billion below the level proposed by the Senate. The House's recommendation would reduce defense spending by $1 billion below the level proposed by the Senate.

'Nuke cooled by May 2'

IOWA CITY — Three Mile Island would be in serious danger if everyone in operation will be required to leave the core cooling system, said Minn. Minn. (S.D.) Sen. John Bahr, Jr., who has been assigned to the committee that has to consider any legislation that has to meet the requirements of any legislation that has to meet the requirements of the new long-term cooling system.

Strangler charges mulled

Las PANAS [UPA] - The Los Angeles County District Attorney said he could probably next week decide whether to bring charges against Kenneth S. Whalen, FBI agent, for attempted strangulation of a high school girl.

The self-taught philosophy professor and radio enthusiast for a quicksilver disc and an accidentally started control valve in the plant. The Nuclear Regulatory Commission held a meeting Tuesday which stated that the plant could not be blamed.

GREAT BRITAIN - The Department of Energy, which operates the nuclear power plant, said, and nothing is being left at Fast Ferry to prevent the group's claims. It said that the group had been kept up-to-date about Fast Ferry development while it was under construction.

American pols tip scales in Ireland

Speaker of the House Thomas P. "Tip" O'Neill said he would consider a resolution that would permit the Green Party to operate in the Irish Republic. The Green Party has three members of Parliament in Ireland, and its leader, Michael D'Arcy, has been a vocal critic of the government's policies.

There is some justification to O'Neill's fix: his party has a position on the issue, but it is not the only reason for considering the resolution. The Green Party has been a vocal critic of the government's policies, and it has been successful in gaining support for its proposals. The government has been slow to respond to the Green Party's calls for action, and it has been criticized for its inaction.

The resolution is likely to be considered by the House of Representatives, and it is likely to be passed. The government has been struggling to deal with the EU's demands for changes in the Irish Republic, and it is likely to be under pressure to act on the issues raised by the resolution.

Washington D.C. — The first issue that begs clarification is the future of the City of Washington and the Metropolitan Edison Company. The City of Washington has been working to effect repairs (a civil suit against the Metropolitan Edison Company was filed in November) of broken pumps, stuck valves, inaccurate meters, and other numerous older installations. The City of Washington is prepared to sit in Washington and wonder and to see if the Metropolitan Edison Company is going to inform us today about the status of the repairs.

Most likely the Metropolitan Edison Company has been working to effect repairs, and that is why the City of Washington is interested in knowing the status of the repairs. The Metropolitan Edison Company has been working to effect repairs for many years, and it is likely to continue working to effect repairs in the future.

The second issue is the future of the Metropolitan Edison Company. The City of Washington is interested in knowing the status of the repairs, and it is likely to continue working to effect repairs in the future. The Metropolitan Edison Company has been working to effect repairs for many years, and it is likely to continue working to effect repairs in the future.

Letter to the Editor:

Women's Studies Program - Fall 1979

Women's studies courses offer a wide variety of classes for women and about women. Women's studies courses are designed to explore women's experiences, history, and culture from a feminist perspective. These classes provide opportunities for women to learn about the struggles for women's rights and to develop critical thinking skills. Women's studies courses are open to all students, regardless of gender. The Women's Studies Program offers a range of courses throughout the year, and students can take courses to fulfill general education requirements or to explore specific interests. Women's studies courses are taught by experienced and dedicated faculty members who are committed to empowering and supporting women in their academic and professional pursuits. The Women's Studies Program is located in the Humanities Building, Room 315. For more information, please visit the Women's Studies Program website or contact the Program Director at 585-1234. 

Women's studies courses include topics such as women's history, gender and sexuality, women's health, and women in the arts. These courses provide a safe and inclusive environment for students to explore these important issues and to develop a deeper understanding of the experiences of women in society. Women's studies courses are also an excellent way to learn about the perspectives and contributions of women from diverse cultural and historical backgrounds. The Women's Studies Program is committed to providing a supportive and inclusive community for all students. Women's studies courses are taught in a variety of formats, including lecture, discussion, and project-based learning. These courses offer opportunities for students to engage with diverse perspectives and to develop critical thinking and problem-solving skills. Women's studies courses are designed to empower and inspire women to become leaders and advocates for social justice and equality. The Women's Studies Program is dedicated to providing students with a rich and diverse set of courses that will broaden their horizons and prepare them for successful and fulfilling careers.
Soviet Jews in happy U.S. arrival

**New York** (UPI) — A telephone survey of 1,000 U.S. households released today showed that about 50 per cent of the households did not have a television. The survey, conducted by the Alvin Association, showed that the number of households without a television had increased by 15 per cent since 1960. The survey also showed that the number of households with more than one television set had increased by 20 per cent.

The survey was conducted by the Alvin Association, a leading research firm. The association said that the number of households with more than one television set had increased because of the increasing popularity of television. The association said that the number of households without a television had increased because of the increasing number of households with more than one television set.

Capitol ceremony marks memory of Holocaust

WASHINGTON (UPI) - Surrounded by old photographs, signs and a heavy concentration of the glory of America, President Carter led the nation Tuesday in remembering one of the darkest moments in history - the Nazi Holocaust. 

The ceremony marked the year's observance of International Holocaust Commemoration Day.

With the sun sinking, blare and booms and a constant reminder of the upcoming 50th anniversary of the liberation of Theresienstadt, President Carter said that he was coming to give his attention to the occasion of the death of six million Jews - slaughtered in Nazi death camps during World War II. 

"We must remember the terrible price that the Jews have always paid and were once again paying today," he said. 

"We must never tolerate injustice - including repression, poverty, ethnic minorities and discrimination - crept into the soul of the country's 500 million people. So long as this is true, we will continue to ignore the lessons of the past in order to avoid the mistakes of the future," he said.

Judge: Chad Green's needs supersede his parents' rights

SIDNEY (UPI) - In a rare public airing of a child custody case that has spread like wildfire in the region for more than a year, a judge ruled Tuesday that the child's financial interests cannot be overruled by the parents.

Former Pittsburgh Pirates pitcher Chad Green has been placed in protective custody by an ex-pupil of Dr. Laerti as a treatment for family problems, a Superior Court Judge said Tuesday. 

The child's parents, Gerald and Dorothy Green of Ellwood City, were named Tuesday in a lawsuit filed by the Del Mar Cancer Clinic of the Pittsburgh Pirates. 

"Accordingly I find that the child opinions is to be heard and any other lines of evidence, the governing court Judge Guy Valore on Tuesday. Valore said and preservation of the child's life outweighed the constitutional rights declared that the alleged the alleged parents' purpose of the treatment and vitamin treatments and that the child was suffering from a cognitive disorder and vitamin deficiency. 

Valore said that the child's interests in the custody of the parents is the primary concern of the court. 

Chad Green has been at the center of a two-year controversy involving the decision of the parents to treat the boy's cancer. The parents sought treatment for the boy's cancer at Laerti in a new technique that he has used to treat brain cancer. 

"The court, in my judgment, has concluded that the case was properly determined by the court in its decision," Valore said.

"The best interests of the child in the child's life outweighed the constitutional rights asserted of the child's and the parents," Valore said.

Congress told of prolific tax fraud

WASHINGTON (UPI) - Government officials told Congress Tuesday that government officials, including the Internal Revenue Service, know of many of the hundreds of millions in alleged tax fraud in the country, but they do not know how much money is involved.

"The government knows about these cases, and they are not existing very many," Richard Fers, an official of the Senate Accounting Office, told the subcommittee. 

"So many people are involved that cannot be caught quickly, according to congressional sources. Ferg and about 15 million dollars in the million dollars in the case were released and distributed. The fraud scheme usually averages under $50,000."

President Roosevelt, in the U.S. embassy in London, said Tuesday that the United States has been asked to help investigate the death of President Roosevelt.

"I am sorry to hear about the death of President Roosevelt," Roosevelt said. "We will do everything we can to help."
PHILADELPHIA (UPI) - Phillies pitcher Steve Carlton threw a three-hit, one-run, complete game performance to give the Philadelphia Phillies a 6-1 victory over the Los Angeles Dodgers in Game 3 of the National League Championship Series here Tuesday.

The victory, the second of the series, builds the Phillies' lead to 2-1 in the best-of-seven encounter. The series is tied after the Dodgers had won Game 2 on Stan Bahnsen's no-hitter Sunday in Philadelphia.

The Dodgers had scored all of their runs in the first inning when Ron Fairly, who had been hit by a pitch, scored on a wild pitch. The two runs were charged to starter Steve Carlton.

Carlton, however, came back to retire the next eight Dodgers in order.

In the third, he retired all five in three batters. Buzz Arthur of the Los Angeles Dodgers, who was safe at first, was stranded on base when Bob Beller of the Dodgers grounded into a double play.

Carlton continued to mow down the Dodgers as he retired the last nine in order to win his third straight decision in the National League Championship Series. This is the third time in seven tries that Carl Catton has won in the series. He had been 0-2 against the Dodgers.

The Los Angeles Dodgers, who are the road team, scored all six runs in the first inning as they built an early lead against Steve Carlton.

The Dodgers scored all the runs in the first inning as they built an early lead against Steve Carlton. They scored four runs in the top of the first inning when they batted in the series.

It was the second game of the best-of-seven series. It was the fifth game of the season and it was the first game of the National League Championship Series.

The Phillies won both games of the series, 4-3 and 3-1, to take a 2-1 lead in the best-of-seven series. They are now tied with the Dodgers, 2-2, in the series.

The Dodgers scored all the runs in the first inning as they built an early lead against Steve Carlton.
Isaac's Iowa Park is shown in a rare pose — diving back into the water after an attempted예술 play during Saturday's Indiana game. The Iowa senior is fourth overall in the state with 21 dives this season, but he's not sure how long he'll be able to compete because of an arm injury.

April 26, 1979, 300-600 E.

Sarah Oberlin, Jr., C. F. C. T., The University of Iowa
Sponsored by the College of Engineering, Foundation College, and The Phi Mu 

President of the University of Iowa, Homecoming, 1979.

Iowa State University is a public institution located in Ames, Iowa. It is the main campus of the University of Iowa, the public flagship university in the state of Iowa. The university was founded in 1857 as the Iowa State Normal School and is the oldest public institution of higher education in Iowa. It is a coeducational institution with an enrollment of approximately 30,000 students. The university offers more than 200 undergraduate and graduate degree programs across 11 colleges and schools, including business, engineering, education, health professions, law, music, nursing, social sciences, and the arts and sciences.

The university is known for its strong academic programs, particularly in the fields of engineering, business, and health sciences. It is also home to the University of Iowa Hospitals and Clinics, one of the largest and most comprehensive healthcare systems in the Midwest. The university is a member of the Big Ten Conference, a major collegiate athletic conference. The university's athletic teams, known as the Hawkeyes, compete in a variety of sports, including football, basketball, and baseball.

The university is located in Ames, Iowa, a city known for its vibrant arts and cultural scene, as well as its strong agricultural heritage. The university is closely tied to the local community, with many of its students and faculty participating in local events and organizations. The university is also known for its commitment to community service and outreach, with many of its programs and initiatives focused on improving the lives of those in the surrounding community.

The university is also home to a number of cultural and artistic attractions, including the University of Iowa Museum of Art, the University of Iowa Galleries, and the University of Iowa Theater Arts Center. The university is also a hub for research and innovation, with many of its faculty and students involved in cutting-edge research projects.

Overall, the University of Iowa is a dynamic and vibrant institution, with a rich history and a bright future. It is a place where students from around the world come together to learn, grow, and contribute to the world. The university's commitment to excellence in education, research, and service, combined with its strong sense of community, make it a truly unique and special place.
