Gold prices hit $850; silver closes at $46

Gold hit a record high of $850 an ounce in Zurich Monday and struck a new record there Tuesday after the price of both metals going "up, down and sideways" before closing high in New York at $830 and 32, respectively.

Gold closed in Zurich at a new record high of $850 an ounce, up 32 from the previous European record of $846 set in Zurich at Friday's close. The price of gold was 31 ahead of its New York level as of the close there Tuesday.

In New York, gold traded in a range of $815-877 an ounce. Dealers said the wide range, however, was an indication of this market than the true level of bullion trading.

Carter spurred by many for considering boycott

By Dorothy Price International

Abroad, world leaders push President Carter's call for a boycott of the Moscow Olympics. Monday and the proposed resolution received widespread acclaim from most of America's allies. The international Olympic committee in Europe came out in support of the proposed boycott. The national governments in Britain, France, West Germany, Belgium, Finland, Denmark, Spain, and Switzerland said last week they would not attend Moscow.

If the United States actually carries through with a boycott, it is the beginning of the end of the Olympic Games, said Eastern Under Secretary of State Bertil L. video. The Soviet General of the International Olympic Federation, called the boycott idea 'a cheap shot' that made sport look paltry and petty.

The reaction of Eastern European countries was as expected, more hostile. The Communist Organization Party newspaper Read from around Carter's 'fainted, and likened to the' The editorial said the United States was moving beyond the possibility of breaking a boycott.

SUPPORT CASE FROM Canadian Prime Minister Joe Clark and the Egyptian government, which called on other Arab and Islamic countries to push the same line.

British Prime Minister Margaret Thatcher also backed Carter's boycott idea but faced stiff opposition from the British Olympic Association, which pledged to send its athletes to Moscow.

Carter, who remains committed to the dismantling of the Communist Union, has come out in favor of a boycott, using the participation in the Games to put pressure on the Soviet Union. West German government spokesmen, however, were cautious in their reaction and said no decision would be taken before concertation with their Common Market colleagues.

Another way to look at the races

This week, the political leaders of Iowa -主要是格雷格·布什，他花了一个创纪录的27天进行总统竞选 - and Phil Crane. They were followed by others, from the contenders to those not quite in contention.

In the end, only one stayed away. Jimmy Carter, who made his last stop in the state this summer during a "political vacation" on a riverboat, refused to return.

They were followed by relatives and supporters. First was Cissy Ba~er, the daughter of Howard Baker. Then came Marvin Bush, Meryl Connally, Elizabeth Dole and the Kennedys. Lots of Kennedys - 23 in all, plus Midge Costanza and James MacGregor Burns, Kennedy supporters who joined the Iowa migration.

But with the caucuses over and the votes counted, Iowa has probably seen the last of the candidates. So this is an Iowa farewell - a few photographs of the candidates that did not make the news pages during the caucus campaign.

The Carter and Kennedy pictures are from United Press International. Others are by DI photographers Bill Olmsted and Steve ZaVodny. Not pictured are Crane and John Connally.

Farewell to them, too.

**Carter won’t cut taxes this year**

WASHINGTON (UPI) - President Carter told Congress Monday that his first budget plans provide no new tax cuts for the American people. Instead, they will be asked to pay a new $80 billion in taxes.

The president made his announcement during the State of the Union message. Carter also asked Congress to consider fuel tax increases to help pay for a massive increase in military aid to Egypt, including the purchase of sophisticated arms. Carter told Congress Monday he plans to ask for a first order of business to pass an election year tax reduction bill.

Carter's announcement came after a marathon two-day, $3.7 billion fuel tax reduction bill passed the House last week. The Senate is expected to act on the bill this week.

Courses offer tips on saving energy safely

by VIDA BRENNER

Suggestions for solutions to the energy shortage come from many sources including Kirkwood’s Energy Awareness Committee. A forum on energy conservation will be held at Kirkwood on Jan. 21.

A forum on energy conservation is set for 7:30 to 9 p.m. Thursday, Jan. 21, in the Kirkwood Student Center. The meeting is sponsored by Kirkwood’s Energy Awareness Committee. The forum will cover many aspects of energy conservation and how they affect people’s lives daily.

The forum will be divided into two sessions. The first session will be on energy awareness and how it affects the individual. The second session will be on energy conservation and how it can be accomplished.

The forum will feature presentations by local energy experts, including representatives from the Iowa Department of Natural Resources, the Iowa Energy Project, and the Iowa Public Utility Commission.

The forum is open to the public and is free to attend. There is no need to register in advance.

Choose the Texas Instruments calculator that’s right for your major.

There are better ways to handle a tough semesters of math.

A new type of tool that can be used to solve complex mathematical problems is the Texas Instruments TI-60.

The TI-60 is a programmable scientific calculator that can handle a wide range of mathematical problems. It can be used for everything from basic arithmetic to advanced calculus.

Despite its complexity, the TI-60 is easy to use. The calculator has a large display screen that can show up to 10 digits, and it has a built-in memory that allows you to store and recall values.

The TI-60 also has a built-in graphing capability, which makes it easy to visualize mathematical functions. It is also capable of handling complex numbers and matrices.

The TI-60 is not the only calculator available, but it is one of the most popular. It is used in a variety of educational settings, from high schools to universities.

It is important to note that the TI-60 is not a cure-all. It cannot replace the knowledge and understanding that comes from studying mathematics. However, it can be a valuable tool in the hands of a dedicated student.

"Going from last year's schedule to this year's was a big change," said Iowa's basketball Coach Jack McMullen.

The Hawkeyes weren't ready for the changes. They had to change, however, when they ran into an array of games over the nation's schedule.

Iowa was ready once they were back in the conference and were facing familiar foes.

And the results were four wins in five games.

The only loss during the stretch came with the Hawkeyes heading into Phi Beta Kappa with a 73-70 loss to the Pirates.

The GOP led the voting with Iowa's first-year coach.

So we gave them the ballgame. So we romped, clobbered, and went 103-79, on the season.

The 67-66 loss to the third-ranked team in the country; the 58-50 thrill over Texas Women's University on Jan. 16 in Denton, Texas. The 77-73 in the tournament.

It was tied 56-56 with five minutes remaining. Iowa had really started reaping the benefits of playing under that coach.

And the fans couldn't have been treated to a better game that night.

They believed in what they were doing in the Field House.

There seems to be a con-
ducted discussion about what's on the menu at the restaurant. The focus is on the food, specifically the menu items.

Doug Bean will probably be that list that would ap-

mational wrestling. We will have top

done to take down the top rated basketball team.
