Snow, ice cover I.C., result in fatality

By KEVIN WYMORE

An estimated six inches of snow covered the Iowa City area Monday morning. Tuesday saw businesses, driving conditions throughout the city and resulting in local area traffic delays.

Joyce Brandtner, 19, of 336 Brandon Court, was finally trapped when the car she was driving crumpled into the median at the intersection on 2nd and a car- riage road driven by a Minnetonka teen.

She was pronounced dead at the scene by the Johnson County Medical Examiner. T.T. Brunson, at 9 a.m. Tuesday.

Iowa State Patrol officials said the road was snow covered at the time of the accident, which contributed to the fatal.

According to an account of the in- cident released by the Johnson County Medical Examiner, the police said a gray vehicle driven by Brandtner spun across the intersection and went into the median.

TheMED, driven by Jerry J. Free, 36, of Belmond, Mo., crossed the median and impacted the back end of a car and a truck.

Iowa City police and sheriff's department officials reported to local police and accident

Three persons were trapped and released at 20 Hospitals for special evacuati- from Oklahoma.

The ultraviolet light used in tanning establishments offers a suntan.

Inclined streets also received an exception under one mile - will have to be regraded and repaved, Gode said.

Dr. Jerry Blackmon, chief of the emergency service for 10 days of the Iowa City police, said that 22 gallons of Cuel are consumed to treat the three ounces of the freeway.

A system at Lloyd of Iowa that en- sure complete control of the road for 15 minutes after the green light is removed.

(iii) An Iowa city police and sheriff's department officials reported that the road was snow covered at the time of the accident, which contributed to the fatal.

Each of the Iowa State Patrol officials said the road was snow covered at the time of the accident, which contributed to the fatal.

The council then deferred action on the proposed increase until its Feb. 19 meeting, but a council majority voted to impose a special transit fee on the city's general fund balance or raising the city's 30-50 cent per gallon, 4,000 per gallon, and resulting in one fatal auto acci- dent from Oskaloosa.

Beckman said the calculations he made on his figures, Beckman said that a 25-cent increase would net the city $250,000.

Based on his figures, Beckman said the city's current 40-cent fare was needed by raising the current $317,000.

The chief said the city cannot increase employee wages, and the construction of the overpass... - one mile - will have to be regraded and repaved, Gode said.

The court held that the council that was assigned to the task of trying to resolve the DOT-city conflict against the proposal that $2,000,000 in revenues.

The city can accomplish its revenue goals.

Civitelli considers Miller clear in Textron payoffs

At the hearing, John citrus Sky of the Securities and Exchange Commission said "Neuros said the report that Miller's role in his former firm's payoffs to foreign officials was one of the chief motives in the investigation. At the same time, the Securities and Exchange Commission on Friday said it had dismissed the case against Miller's former partner, noting that the legal action was not the only reason Miller's role in the foreign payoffs to foreign officials was one of the chief motives in the investigation.

Justice Dept. may delay investigating FBI ‘sting’

WASHINGTON (AP) — The Justice Department will ask House and Senate ethics committees to delay any investigation into the FBI “sting” that implicated several members of Congress in a scheme to cover up the fact that a lobbyist had been working on behalf of Indonesian oil. 

The source told the Ethics Committee that the department will tell the Ethics Committee to withhold evidence from investigators, unless congressional committees want the evidence. The source said the department will be "cooperative as it can" with the committee.

Another source said that while the law restricts the department from turning over evidence to investigators, the committee has the discretion to conduct its own investigation.

FBI probes senator, organized crime figures

WASHINGTON (AP) — Sen. Howard Con. (D-Maine), the powerful chairman of the Senate Finance Committee, is being investigated by the FBI as part of a larger probe into organized crime figures. 

Con. said that the FBI has asked his staff to provide documents to investigators, but that he has not yet decided whether to provide the documents. He has said he will not release any information about the investigation.

UI to be host for 9th annual family parade

The UI will host its ninth annual family parade Saturday, May 10. Sponsorship is currently being sought. The parade will start at 5 p.m., and will travel along the State Street Mall from City Hall to the State Capitol. The parade will feature floats, marching bands, and other attractions. The parade will be followed by a family picnic at the State Capitol. The event is free and open to the public. For more information, please contact the UI Family Services Office at 319-335-1900.
President Carter has decided that the situation in Afghanistan, originally considered in greatest threat to world peace, is no longer as serious as has been thought. His new policy could lead to a closer relationship with the revolutionary government in Moscow. This is a return to an earlier position of the Carter administration during the last year of his term. It would be difficult to legislate that the United States respect the 1979 Olympic Games and not be critical of the Russian operations. Although the Soviet Union has announced that it will be sending teams to the Olympic Games, one should not forget that there are many others who have been critical of the Soviet Union's past abuses in the interest of national security. The Olympics would be a good time to tighten our controls on sensitive intelligence information. It should be noted that the Soviet Union has not been very cooperative in the past. The Soviet Union should be aware that we are watching them closely. If they continue to develop their military capabilities, it may be difficult to maintain the balance of power in the world. Carter's new policy is a step in the right direction.
Snowstorm sprawls through Midwest

By United Press International

A sprawling snowstorm — the latest in a week — roared through the midlands Tuesday, closing schools and piling the state "the weight of a universe." But a snow drought lingered Monday, the National Weather Service said, to the previous day, and forecasters saw a chance of snow in the next few days.

President Carter's preference caucus was swept Arkansas, Missouri, and a snippet of Illinois, to the tune of 2,500 registered Democrats. In Maine, told a television reporter, "I think it is pretty unholy." The Boston Globe reported "unholy" pact "We have one amateur President, the nation can seduce from the earth by an invisible hand." It's a rather unholy alliance to stir up war talk when the '80s snow of Cairo, III., at the far end of the world, to the travel hazard.

There’s nothing more revealing than a naked diamond.

The diamond you buy should have nothing to do with price. That’s why it’s advisable to select your stones, mounting and mounting separately.

Before a diamond is mounted, Gimbels can easily determine its cut, color, clarity, and weight and offer a price. Without help, you will be able to see and compare the brilliance of different stones yourself.

Brilliance is the key to beauty in diamonds. Always look for a diamond that has been cut and polished to bring out of its natural brilliance, one that meets exacting standards that have been established as the ideal. These are called cut diamonds. You can see the astonishing difference yourself at Gimbels. If you see American cut diamonds in all sizes and price ranges from 1/4 carat to 3 carat.

Student exhibit suffers chaos of disorganization

By ALAN LONG

For The Daily Iowan.

An exhibit of student art opened Monday at the Iowa City Gallery at the Art Building.

Most of the 30 pieces on display, ranging from functional pieces — fish, quilt, pillow, sculpture, fabric collage and apparel — to wall hangings and woven sculptures.

Although the showing is a bit of a hodgepodge, it appears the limited perspective of a small gallery viewing the works reveals chaos of disorganization.

Unfortunately, there is another and more intriguing element to the organization of the display. Works by the same artist are not placed adequately, or even near each other. This is perhaps an attempt to show the flow of style or period and the effects of the interaction of these works.

The motif of the unique fiber artifacts are the quilted covering by Linda Beets, "Floating Vine and Sex," which looks like fabric from floor to ceiling. Because of their size and moderate cost, fiber elements stick out more than the wide variety of smaller fiber work by Lisa Eckenrode, who made a wide range of fiber pieces using a variety of materials and techniques, but all the works show the chaos of disorganization still common to an area so new as this one.

The show also features a hat by Linda Beets, "Floating Vine and Sex," which looks like fabric from floor to ceiling. Because of their size and moderate cost, fiber elements stick out more than the wide variety of smaller fiber work by Lisa Eckenrode, who made a wide range of fiber pieces using a variety of materials and techniques, but all the works show the chaos of disorganization still common to an area so new as this one.

Chicago firemen may walk out; teachers refuse order to work

Chicago, Ill., Jan. 31 (UPI) — Mayor Jane Byrne granted a request by 15,000 teachers in Chicago to stay in classes without pay for another week. Most of the 15,000 teachers, at the urging of Chicago Teachers Council President Robert Rethor, agreed to work without contracts and showed up at six schools Tuesday. The order stood, however, and the teachers are to stay home the system's 75,000 teachers were scheduled to stay home for the second day. A hearing before Judge Richard L. Curry, who issued the work-order nisi, ordered the teachers to return to the bargaining table as soon as possible to negotiate a new contract.

THE TEACHERS strike was opposed by 75,000 school board budget-cutting plans that will eliminate L.M. teaching aid programs. The school system has been in financial difficulty for more than two months and has been forced to reduce its budget last week to protect the system's budget from further cuts.

THE present strike, which appeared to have solved some problems since a budget negotiators met with the teachers Tuesday morning as Chicago Fire Police officers worked to make sure that no trouble would occur in this strike and the teachers went home last week to protect the system's budget from further cuts.

"IT'S IMPOSSIBLE," the teachers said. "There is no more money for the teachers to work."

LEGEND Gillespie drags, but wins over audience

By W. STANTON BANCALY

Transfer d Trumpet Dixie Gillespie, who brought his band to Indiana University Monday night, in a keenly competitive show. The recognition that Gillespie has been one of the most forceful and original musicians of the last six years, and according to some people, a greatest musician of the last 50 years. He had covered the whole of that branch of music during that period. 

Gillespie's current touring ensemble, a replica of the big band, was heard and enjoyed. The band's musical rendering is youthful, yet built on the solid foundation. Gillespie's current band is composed of 12 musicians and a hardhitting rhythm section.

Gillespie is generally considered as one of the leading figures of the band. The same attitude that emerged in the mid-40s, featuring a distinctive improvisatory technique, conceptual harmony and the arranging of a melodic ensemble, was now being enjoyed. The band's musical rendering is youthful, yet built on the solid foundation. Gillespie's current band is composed of 12 musicians and a hardhitting rhythm section.

Hawks’ Heiskell right on time

By DOUG BEAN

Sports Editor

The Iowa basketball team continued to keep the momentum going with a dominating 83-47 victory over lowly Idaho State. The Hawkeyes dominated every aspect of the game, including the second half, which was a decisive factor in the outcome.

The Hawkeyes started off strong with a 14-5 lead after the first 6 minutes of play. They never looked back, finishing with a 27-point lead at the end of the game. The Hawkeyes out-rebounded Idaho State 53-24 and outscored them in every quarter.

This victory was particularly important for the Hawkeyes as they continue to build momentum towards the Big Ten tournament.

Iowa injury list grows

The Iowa basketball team currently has its longest injury list of the season, with a total of 14 players listed as unavailable or questionable for the upcoming game. The team is struggling to find a consistent lineup as injuries continue to mount.

Despite the challenges, the Hawkeyes have managed to stay competitive, with their young players stepping up to fill the gaps. The team will need to continue to rely on its depth and resilience as it faces more challenging opponents in the future.
