Militants: Khomeini can order release

A spokesman for the militants accepting the hostage situation called it a "coup" and said the Ayatollah Khomeini, if he were the Shah, would never have ordered the hostage crisis.

"We come from Iran," the spokesman said. "We are the revolutionaries and we represent the interests of the revolution. The Shah is a foreigner and has no right to represent us. We are the revolutionaries and we have the right to speak on behalf of the revolution.

Cable firm asks deadline extension

Wells said the city council had not made a decision on the extension request, but said it had been granted in previous years.

33 council tie snags renewal of bar license

Briefly

Tito's condition 'serious'

BELGRADE, Yugoslavia (AP) - An official medical bulletin said Wednesday that Yugoslav President Josip Broz Tito had a heart attack and kidney condition of ailing President Josip Broz Tito.

Government sources said the situation was "serious." They said the President is under constant medical supervision and that he has been transferred to a hospital. Tito's condition was not immediately reported to have improved.

NRC denies notifying

PAUL, Va. (AP) - God Thorburn Thomas, chairman of the U.S. Nuclear Regulatory Commission for failing to notify him of a leaky primary coolant system at the North Anna Power Station, Virginia.

The NRC said in a separate statement, that it "has not been requested to do so by the plant's license holder."

The statements came two days after a federal judge ruled that the NRC had been negligent in failing to notify him of a leaky primary coolant system at the North Anna Power Station.

Bundy sentenced to death

HARRISBURG, Pa. - President Jimmy Carter has commuting a June 23, 1975, murder conviction to life in prison.

Bundy, 52, was convicted of killing 10 people in a spree that lasted from 1974 to 1976.

He was found guilty of killing the first woman, 16-year-old Sarah Jane活, in a North Carolina parking lot in November 1974. Bundy was also convicted of shooting and killing two women in Florida.

The trial of the Ford Motor Co. on reckless homicide charges from Lake City Junior High School on Feb. 9, 1978 and prosecution.

Prosecutor Michael Cosentino completed his case Tuesday in an effort to show that Lance and three others were acting as a gang when they killed a 17-year-old boy.

A Federal court explaining that the world's "experience of the energy revolution has made the cost of our goods prohibitive. Almost needles in the world your response was tremendous."

We endured the trauma of construction that produced our beautiful as an aid to teaching the medical profession.

EDITOR WANTED

The Board of Student Publications, Inc. and the publisher of the Daily Iowan will invite

Applications will be considered only for the fall term from:

Applications will be accepted until April 6, 1982.

Steppes takes ZIP board leave
citing possible conflict of interest

BY MERRILL BARST

Steppes, president of the
department of the law, said he
would not be in a conflict of in-
terest, but the student body would
permit the conflict.

The $7.00

The ZIP board, comprised of 14
directors, now decides financial
and selects the publisher and
editor of the ZIP. Steppes was elected to a
one-year term of the 12 member board in
last year's student elections.

STEFFENS asked for the board's opini-
on the measure. It needing to be a
3/4 vote, board members indicated they
have no interest. Only Steppens wanted to
decide, and said he would like it
to be a "better matter among all of" in
the lack of a favor of distance.

At Editor Neil Breen said believing
to the board's decision-making abilities should
take place or resign. Most people do
not think that ZIP board should control the
external content of the paper. Julia could
not influence how ZIP covers things, but
she is a person who think she
would not do it.

Breen indicated that ZIP's "laurel of
deployers" because the ZIP board meeting is dated for Feb. 3.
the day senior elections will be conduc-
ted. Steppens will serve only one board
meeting during their leave of absence.

More than 80% of students spent
more in basic darks and spring tones.

India tells Russians to leave Afghanistan

Prime Minister Indira Gandhi insisted that the Russian military buildup in Afghanistan is a threat to regional stability. The tension in the region should be ended by Friday, the spokesman said.

Gromyko's visit, the prime minister and Gandhi and Gromyko on the first day of shooting that the Russians must get out of Afghanistan, telling

The president of the International Olympic Committee said Tuesday the IOC has unanimously decided to go ahead with the Moscow Games. Killanin said the IOC cannot solve the political problems of the world, but calls upon the governments of all countries, including the Afghan allies and joint Soviet-British concern over terrorism and in India's neighbor Pakistan.

Despite mutual concern over Pakistan, the US injected for the pro-Moscow position, including the Afghan allies and joint Soviet-British concern over terrorism and in India's neighbor Pakistan.

20-year-olds first to go if U.S. reinstates draft

WASHINGTON (UPI) - President Carter held Council Tuesday that if America returns to the draft, the first chosen will be 20-year-olds picked by lottery.

"It is ever becoming necessary to draft service in Selective Service in order to maintain our military readiness," said President Carter. He also said the draft lottery is not a "quick fix" but it is a "way to start the process.

The first draft lottery since 1973 will be held on March 25. Carter said a lottery would be held for the first time since the last lottery in 1973.

Carter also has power to register men for military service but in making such a decision he will consult with Congress and registered men and respond to his register calls for more volunteers. Carter continues to call for a policy of using women in the peacekeeping force, such as in peacekeeping, security, peacekeeping, and combat units.

Despite this, however, the register is still due. Congress is expected to resume registration for the draft. To be effective, Jepsen said the proposal must have people go down to the post office and register. The draft registration is due by April 22 for men between 19 and 20 years old. The draft registration must be completed by the end of July.

The draft lottery will be held on March 25 and will be held for the first time since the last lottery in 1973.
Voice quality mystifies researchers

Dwinston Belk

This is the first of an ongoing series of articles by D. Belk on himself and students.

Almost everyone talks. It's a constant conversation lost in the background. How often do we even consider the quality of individual voices? If we did, the results might surprise us. The quality of speech may vary from one person to another. For example, the voice quality in a speaker's voice may change from one language to another. The voice quality of a speaker may also be affected by the emotional state of the speaker. The voice quality of a speaker may also be affected by the weather. For example, the voice quality of a speaker may be affected by the weather conditions. The voice quality of a speaker may also be affected by the weather conditions. The voice quality of a speaker may also be affected by the weather conditions. The voice quality of a speaker may also be affected by the weather conditions. Hawkeyes sink Gophers in fight for second place

By SHARI ROAN

The Iowa Hawkeyes were on the hunt for second place against Minnesota Tuesday night in the Field House as the Golden Gophers had just felled a previously unbeaten tournament team.

"It was a battle of heart and soul," said Coach Don Nelson, who transferred to Iowa from Minnesota last year.

"I thought both teams played a great game and the Hawkeyes just couldn't get enough pins. The score could have been against us at the end." Nelson added.

"But the Hawkeyes are the team to beat in the Midwest." Coach Mike Schwall.

"We were down 16-12 before the Iowa fans from Iowa City were able to make a comeback. We tied the game at 16-16 but then lost by 2:30 remaining.

"It was a great battle. We lost by one in the last period." Coach Mike Schwall.

Minnesota's Mary Mandeloff defeats the shot of Iowa's Rich Bigelow but the Hawkeyes came back to finish the year 7-14. However the Hawkeyes defeated the Gophers in the second period of the game at 19-18.

"They were the first loss we've had all season." Coach Mike Schwall.

"The Gophers are the team to beat in the Midwest." Coach Mike Schwall.

"It was a great battle. We lost by one in the last period." Coach Mike Schwall.
For most of the athletes who will compete during the next Olympics, Lake Placid will be just another big speed skating city. For Eric Heiden, the Games will be a nice place to pick up some more gold medals.

LAKE PLACID, N.Y. (UPI) — Eric Heiden, the Games skater who has not possibly been as talked about in America as some others, will be in Lake Placid this week.

Heiden, the current figure skating champion and 1976 World Champion figure skating champion, has already made a name for himself in America. He has won gold medals in four consecutive Olympics, and his performance has been nothing short of breathtaking.

Heiden, who is considered by many to be the best athlete in the world, is expected to make a big comeback at Lake Placid. In fact, many believe he will win another gold medal.

“I’m not so important what I do,” Heiden said. “I just want to win.”

LAKE PLACID, N.Y. (AP) — With a steady competition well underway at the Winter Olympics, the United States will face the next round of the battle in hockey today.

The U.S. men's hockey team, coming into the Olympics after a 5-0 defeat at the hands of the Soviets, is facing another test. The Americans are scheduled to face the U.S.S.R. in a preliminary round game to determine who will advance to the quarterfinals.

The game is expected to be tight, with both teams looking to claim an advantage in their Olympic ambitions. The U.S. is currently in third place in the tournament, while the Soviets are at the top of the table with a perfect 3-0 record.

The match will be held at 11 a.m. local time, with the winner advancing to the next round. The loser will likely be eliminated from Olympic contention.

Other events on the Olympic agenda include alpine skiing, figure skating, and cross-country skiing, among others. The U.S. has a strong contingent in these events, with skiers and skaters looking to make a mark on the international stage.

The Olympics continue to be a major event for athletes around the world, with athletes from many countries competing for gold, silver, and bronze medals.

Stay tuned for updates on the U.S. team's performance and other developments from the Winter Games.
IOC backs Moscow Games.

A U.S. hockey team, needing at least a tie to remain in strong position to reach the medal round of competition, trailed 2-1 in the final minute of play when Coach Herb Brooks pulled goalie Jim Craig in favor of a sixth attacker.

Dave Silfies of; Bethel, Maine, had added that the United Committee also to take the Moscow Games, away, after the games had ended.

The U.S. team had been close to being a major disappointment for the U.S. hockey team.

The U.S. had been expected to win the gold medal, but the team had been trailing 2-1 in the final minute when Coach Brooks pulled goalie Jim Craig in favor of a sixth attacker.

The U.S. team, needing at least a tie to remain in strong position to reach the medal round of competition, trailed 2-1 in the final minute of play when Coach Herb Brooks pulled goalie Jim Craig in favor of a sixth attacker.

INSIDER:

THE 1980 PINTO.
Good news for the New Year: In spite of the tight economy, the outlook for summer jobs in 1980 is good. Although summer may be just a dream now while you're buried under a mountain of homework, you can still plan for your future by taking advantage of summer jobs. The Department of Labor estimates that more than 190,000 students found paid part-time and full-time work last summer, and they figure that the youth unemployment rate was lowest since 1972, and job openings increased in fields such as recreation, construction, and manufacturing. More than 1.4 million students found part-time or full-time jobs in the private sector. And more than 200,000 students ran their own businesses.

The youth unemployment rate was lowest since 1972, and job openings increased in fields such as recreation, construction, and manufacturing. More than 1.4 million students found part-time or full-time jobs in the private sector. And more than 200,000 students ran their own businesses.

Today, the number of corporations offering internships is increasing, so more companies recognize the need to establish relationships with future graduates.

And while it may not prevent an immediate financial shortfall, nearly half a million students earned a paycheck this summer. Since they're still in school, they've been planning for the future by taking advantage of summer jobs. The Department of Labor estimates that more than 190,000 students found paid part-time and full-time work last summer, and they figure that the youth unemployment rate was lowest since 1972, and job openings increased in fields such as recreation, construction, and manufacturing. More than 1.4 million students found part-time or full-time jobs in the private sector. And more than 200,000 students ran their own businesses.

Remember, summerers between college years offer a unique opportunity for "apprentice employers" — a chance to develop your skills and to get a feel for what you'll be doing full-time by the time you graduate. They can provide insight into what you'll be doing full-time by the time you graduate. They can provide insight into what you'll be doing full-time by the time you graduate.

Narrowing your plans for summer can be a tough time in its own way. But with a little planning, you can find your self-filling for history at an archeological site,ouching survival in the wilderness, or eblazing adventures with policymakers in the nation's capital. A chance to develop your skills and to get a feel for what you'll be doing full-time by the time you graduate. They can provide insight into what you'll be doing full-time by the time you graduate. They can provide insight into what you'll be doing full-time by the time you graduate.

That's what this magazine is all about, helping you discover your options and giving you the information you need to get the summer job that fits your special talents. Good hunting!
Plan Ahead for a Summer in the Sun

When the midwinter doldrums hit, the prospect of summer in the sun at a resort can mean a magnet's pull. Down by variably opalescent waters, the beach beckons, friends, thousands of the dunes beckon to teeming areas and entertainment parks.

Typical job openings include front office, waiters, waitresses, chambermaids, lifeguards, parking lot attendants, florists, bakery clerks, and entertainers.

Landing a job is a competitive activity. More than 7,000 people applied last summer for the 2,500 jobs at Disney World. If you have special qualifications—such as waitathing experience or a high school or college golf instructor—your chances are better. Getting a good resort job can take several months. Most employers are already accepting applications.

But if the beginning of the summer finds you jobless, don't give up. Large parks and small motels should be able to overlook the hordes of job-seekers, and your chances improve daily if you're willing to adapt.

Not many employers make up their minds to open before Labor Day, but tourist employment is expected to stay until summer's end. Contract-breakers often lose their share of a tip pool given as a backup during the summer months.

"I'm going through the diaries of my summer work experience, and I'm going into split housing is basic at best, and tip pools are often the only money we receive in summer months. They traditionally equal large portions of college students' summer income. More than 3,000 students quit. Also, contract-breakers often lose their share of a tip pool given as a backup during the summer months.

For more specific information, contact local chambers of commerce or the state department of labor. Many student sites are available, and dozens of programs are available. About half of the students who auditioned last summer were hired. This year's tourists will be held March 5-7 at the Opryland Hotel in Nashville, Tenn. For details, contact Martha Smith, 1100 Eighth Ave., Nashville, Tenn. 37214.

Many resort jobs require a change, and a question of how you can adapt," Kevin Gray, a summer worker, said. "I learned a lot from my summer job. It taught me patience, how to stay calm, and how to work with people."

In the Southwestern Theatre Conference held in Nashville, Tenn. For details, contact Martha Smith, 1100 Eighth Ave., Nashville, Tenn. 37214.

Kevin Gray: Center Stage

Kevin Gray, a sophomore, spent last summer performing stock in a summer stock theater in Fort Worth, Tex. Last year, 1,000 students were represented. For information, write the Minnower, P.O. Box 2083, Fort Worth, Tex. 76101.

The Institute of Outdoor Drama will offer auditions to high school and college students at the University of North Carolina at Chapel Hill March 15, 26 and 27, and the summer stock companies are represented. For information, write the Minnower, P.O. Box 2083, Fort Worth, Tex. 76101.

Start your summer job hunt by listing the possibilities in the area you want to work. Conditions in cities and parts vary, but generally the pay is low and training is basic at best, and the hours tend to be longer than average.

Most resorts employ fewer college students and require many college students to work with general population. Many positions are open, and positions are available, and dozens of programs are available. About half of the students who auditioned last summer were hired. This year's tourists will be held March 5-7 at the Opryland Hotel in Nashville, Tenn. For details, contact Martha Smith, 1100 Eighth Ave., Nashville, Tenn. 37214.

Many resort jobs require a change, and a question of how you can adapt," Kevin Gray, a summer worker, said. "I learned a lot from my summer job. It taught me patience, how to stay calm, and how to work with people."

Though you'll find the rocky trails of North Dakota and Minnesota to be more scenic, you'll find the east coast to be more exciting, and it's always a good idea to combine the two. Like (Summer) plays, you may not think of anything you didn't like it.

Kevin Gray, a sophomore, spent last summer performing stock in a summer stock theater in Fort Worth, Tex. Last year, 1,000 students were represented. For information, write the Minnower, P.O. Box 2083, Fort Worth, Tex. 76101.

The Institute of Outdoor Drama will offer auditions to high school and college students at the University of North Carolina at Chapel Hill March 15, 26 and 27, and the summer stock companies are represented. For information, write the Minnower, P.O. Box 2083, Fort Worth, Tex. 76101.

Start your summer job hunt by listing the possibilities in the area you want to work. Conditions in cities and parts vary, but generally the pay is low and training is basic at best, and the hours tend to be longer than average.

Many resorts employ fewer college students and require many college students to work with general population. Many positions are open, and positions are available, and dozens of programs are available. About half of the students who auditioned last summer were hired. This year's tourists will be held March 5-7 at the Opryland Hotel in Nashville, Tenn. For details, contact Martha Smith, 1100 Eighth Ave., Nashville, Tenn. 37214.

**Working Abroad**

Let wanderlust lead you to a job in a foreign land.

**Financing a Foreign Summer Job**

Planning ahead not only in your personal finances but also in the cost of your adventure. Here are some cost-cutting measures:

- An International Student Identity Card is issued by the school and gives discounts on flights, trains, and hotels.
- Some schools also issue travel passes for low fares in advance.
- The Student Travel Catalog, available through the council for details or write CIEE, 205 East 42nd St., New York, N.Y. 10017.

- Travel for Love and Money

A summer job overseas, of course, can be a fulfilling experience, it has undoubtable appeal. While working abroad may be a challenging experience, it probably won't be profitable or glamorous. And jobs are not plentiful. The satisfied traveler often has to consider:

- If it is affiliated with CIEE, Write CIEE, 205 East 42nd St., New York, N.Y. 10017.
- As a student working in the United States, since most employers will not promise you employment, a travel agent or write CIEE for membership information, write American Youth Hostels, National Office, Delphina, Va. 22025.

Government Green
Federal, state, and local jobs are waiting for a few good workers.

An Inside Look at Government
Uncle Sam wants you—at least for now. The Federal Government uses temporary workers for tasks that range from sorting mail in the local post office to operating the space shuttles in Williamsburg areas. Government jobs offer valuable experience, frequently accompanied by healthy pay-checks, but openings are limited. Every month, the Office of Personnel Management releases a list of federal jobs in various areas. The New York Times reports that the Government is looking for clerical clerks, mail handlers, and for about 100,000 summer jobs in federal agencies, departments, and national parks, but only 18,000 local positions are available.

Almost every government agency has summer jobs for both undergraduate and graduate students. Undergraduates and graduate students can work in public service or in the humanities. For example, you may work in the Library of Congress, the National Endowment for the Arts, or the National Park Service. The most common state and federal summer internships-in Congress, federal agencies, and state and local government-offers can give you great experience. You'll need to tour the nation, determine the diversity of your jobs, and start early.

Most programs are here and they're here to stay. Get them. For laborers, and merit jobs in federal agencies, meetings must be made through your school placement office or your state or local employment office. The Local Postmaster conducts the 1980 election.

Getting SET for Clerical Jobs
Don't panic if you haven't taken the Federal Employment Test. You're still in the running for a federal job. The deadline for applying is the 15th of the month in which you apply. If you apply in the month of March, you must take the SET. The Government will ensure your ability to perform clerical tasks quickly. Then it's up to you to change the change for the change, which will be administrative and/or for government clerical duties.

Dollars and Sense from the Census
Approximately 2,300 students at 48 universities will be contacted this spring. The Bureau of the Census conducts the census every 10 years. They will earn about $14 an hour as participants in the Experimental Student Intern Program. Students hired to conduct the 1980 census will be considered for additional summer work, says bureau director Vincent F. Barba. The programs also will pay

CASH FOR TRASH
Garbage isn't a dirty word to some Oregon college students. Last summer, the 100-member Oregon Youth Litter Patrol took to the highways to gather trash in giant plastic bags. They were cashing in. Studies showed that for every trash bag collected, the amount of trash on the roadways decreased. Oregon State University, Western Oregon University, Portland State University, and George Fox University together collected 2,267,000 pounds of trash, equivalent to 242,000 car loads. This year's program, run by the state legislature in 1977, is funded by the sale of customized auto license plates, which brings in about $400,000 each year. Students apply for the jobs at the state employment office in their area.

"This Oregon is pretty much unique in funding this program," says state highway maintenance office coordinator Ken Knapton. "It was just a matter of passing the legislation to do it. We have plenty of kids willing to do the work."

Earning and Learning: Government Interns
Wants to learn about politics without becoming a politician? An array of government internships—in Congress, federal agencies, and state and local government—will get you to Washington, D.C. or your state capital.

UNITED STATES GOVERNMENT

PROFILES

Jose Balles: Rocket Man
Jose Balles had six in his eye when he was hired as an intern with the National Aeronautics and Space Administration. A senior in mechanical engineering at the University of Florida, he interned with the Johnson Space Center in Houston while studying to take a senior engineer in flight operations.

NASA intern earned $2,000 an hour while doing research on space vehicles and helping to plot the course of Skylab. Jose learned to operate a console, which sends commands to satellites, and sat in on simulations in the mission control room. "You can, at times, be a little isolated," he notes. "The most important lesson any intern can learn is that this job may be as high as $7,500 a week, depending on the intern's qualifications.

Although two-thirds of the federal summer interns work in Washington, about 30% are hired by federal agencies around the country. For information on how to apply, contact your school placement office or the Office of Personnel Management in Washington, D.C.

State government offers a variety of internships in state and local legislative offices. Some programs, such as North Carolina's Summer Internship in State Government and Illinois's Legislative Staff Internship, consider applications from non-residents as well as from students within the state. State employment offices offer information on state government positions.

Internships and Co-ops

Breaking Into the World of Business

Business internships aren't just for business majors anymore. Even if your field is in a non-business area, you may be able to get a job in a corporation this summer. One large chemical corporation hired more than 60 minority students last year in disciplines ranging from business and economics to zoology. "We're not looking for people who've already been trained," says a company spokesman. "We look at a student's technical skills, motivation, ability, interest in business, and whether or not he or she is pleasant to be around." Getting a foot in the door of a corporation is increasing, placement officers say, because students can gain work experience while companies get a preview of each crop of potential employees. Companies generally are hired for placement officers if they specialise in the field, though in special situations a placement officer is assigned to the student's school, community, or university. Some internships pay only $100 a week and often pay only the minimum wage, but many pay more than $100 a week.

GETTING TOGETHER: INTERNS AND ALUMNI

Students at Cornell University take summer internships seriously—so seriously, in fact, that they have developed an extensive students' alumni network for placing interns. The student-run Cornell Internship Program matches the skills and interests of job-seeking students with the needs of employers who are alumni. The CIF counselors do the initial screening of internship applications, allowing employers to make the final selection.

Last summer, CIF placed more than 100 students in career-oriented jobs with Chase Manhattan Bank, Xerox, IBM, Ford Motor Company, Memorial Sloan Kettering Cancer Center, and a host of other government, health, and business organizations.

Do-It-Yourself Internships

Making the Co-op Connection

For instance, taking the initiative is easier when you're on their turf. They're likely to become more interested in seeing how your idea would affect their cooperative education programs, which guarantee placements for students. Private businesses, the federal government, and more than 3,000 colleges work together to set up "co-ops," which combine periods of on-campus instruction with paid full-time jobs at participating firms or government agencies. Cooperative education programs are open to all students, but the ones you're considering depend on the student's school, community, and university. Some internships pay only $100 a week and often pay only the minimum wage, but many pay more than $100 a week.

Work-Study: Off-Campus Options

Fletcher Johnson: An Eye on the Action

Fletcher Johnson wants to produce TV documentaries, and a summer internship helped him close on the deal.

FLICAP in York, Pennsylvania, paid $5,000 a month to write, produce, and sell a 45-minute video program for its new employees. While you're eating through to test career goals, a little detective work, a good idea, and a persuasive pitch can win you a summer job at the company who can tell at least one term remaining in your program.

News for Minorities

A number of professional fields offer summer internships for minority recruiting programs. One nationwide program is sponsored by the American Association of Advertising Agencies, which placed 20 minority interns in all of its member agencies last summer. Interns worked 10 hours a week and gained experience that will give them an edge in the highly competitive advertising field after graduation. Application deadlines for the AAAA's summer internships are February 15. Application forms are available at any university's placement office or from the Project M of the American Advertising Foundation.

Developing professional-quality proposals and polish your sales techniques before approaching the employer. And don't forget to consider your cover letter and additional letter about qualifying for academic credit as well.

INTERNS AT WORK

Eliot Western, a junior majoring in the University of Denver's Judy Smith, has been selected at her internship for the summer.

"They treated me like one of the workers. Because of my internship, I'm headed for an industrial company when I graduate.

Do-It-Yourself Internships

Outdoor Jobs
Break out! You don't have to spend the summer surrounded by four walls.

PROFILES

David Sesholtz: King Arthur's Carpenter

A medieval fantasy comes true every summer in a New York City park, as 35,000 visitors flock to see the pageants, jousts, and wandering balladeers of King Arthur's day. David Sesholtz, on 18-year-old sophomore at the University of New Mexico, helped build the kingdom of the Middle Ages. For the past three summers, he has served as a carpenter for the event, called the Cloisters Festival, designing and building stalls for merchants, pitching tents for medieval courts, and fashioning booths for medieval games. In 1979, he spent the summer sponsored by the New York Metropolitan Museum of Art, where he learned the art of medieval construction for a long time," says David, an architecture major. "I brought a lot of my own ideas to the festival three years ago, and they're still being used."

Steve Sandrock: Making Tracks

Steve Sandrock spent last summer working on the railroad all the flowering day, and it wasn't "just to pass the time away," He worked high and hard labor for the Arizona Fall University fishermen.

Though a winter or two in New York, Steve never had an opportunity to build in a California setting, so he chose to work on many railroad projects from coast to coast and west to east, creating old track and repairing old track and rail for the Burlington Northern Railroad in West Quay, Montana. He made his plans in advance, applying for the job during Christmas vacation of his senior year in high school.

"I don't really mind physical labor," he says. "In railroad work, there are too many different things to do for it to get monotonous."
Entrepreneurship, Summer Style

Establish your own goals—and your own business.

Your own boss. There’s nothing wrong with accepting a raise every year, even if it’s only for the economy. But how realistic is it? First, you need to know yourself: Are you an entrepreneur? An interpretative idea, whether it’s taking photos of Little League teams and selling them to proud parents or re-vamping an neighborhood, can mean the difference between income and failure. Your personality is a primary consideration in determining whether you’re able to handle your own business. Do you have the initiative and tenacity to make work, or will your enthusiasm wane in adversity? Another important factor in starting your own business is an understanding of human nature, entrepreneurs must understand consumer vacation good.

A successful business of your own will require at least a two-sided approach, and probably a lot more. Also, most business ventures will involve a financial investment at the start; be sure you’re prepared to make the initial investment. If you are convinced that running your own show, even temporarily will not keep you busy, you should investigate the following-consider your situation, and make sure that the effort is worth the effort.

Funding for Summer Adventures

Robert R. Welch, a self-styled fund-raiser, has been great last summer. A $100,000 research grant for an enlarged suite from the National Science Foundation paid salaries and room to a group of Eastern (Washington) State College students who studied the effects of attitude on group decision making.

Getting a grant requires financial planning and a carefully thought-out proposal, but meaningful fund-raising effort the effort. The NSF and the National Science Foundation for the Humanities and Social Sciences do not ask for both organizations by November of each year.

The appropriate agencies for a copy of the writing guidelines. Be ready to explain what you want to do, and why it is important to you. Also, don’t forget that an offer is only as good as your ability to gather the necessary information. Write to the National Science Foundation or the National Endowment for the Humanities, or contact a professor who does research similar to the project you would like to do. Your librarian can help you find addresses.

Taxes, Fees, And Legalese

You don’t need a degree in accounting to run a summer business. But you do need to keep the following in mind.

Pounding the Pavement for Profits

Salesmen may be the subject of many jokes, but in John L. Evans, 16-foot tall salesman for the Northeastern Republican Party, last summer, the University of Southern California student earned $2,500 in 16 days. Trade shows there to make it

Getting into the management and understanding on the ground level will pay off handsomely in experience, and in giving you firsthand knowledge of the field. What does he need at student’s end?

But it wasn’t easy. He worked thirteen weeks and had countless doors slammed in his face. "Without tremendous determination to acci­ ment," says John, who was out every day and worked until 10 p.m. "Each time I was turned down or sent away, I had to go out—there’s nothing else you can do but go out there."

If you share John’s qual­ ities of ambition, determination, and perseverance, direct sales may be a way for you to increase your earning power this summer. While you ultimately will not be your own boss, you will build contacts about how long and how hard you want to work. Make sure that you are related to how long and how much you want to earn.

Several national companies hire college students to work during the summer. (For more information, write Dearborn Corporation, Dearborn, Michigan 48126; Pequot Sales, Inc., Dearborn, Michigan 48126; Tupperware Products, Inc., Philadelphia, Pennsylvania.)

For other firms that demand personal attention, check the Yellow Pages for general contact. Find out what their rates are and how much business they do. Is there room for a new vendor?

Balance your expected expenses against potential profits, allowing a healthy check for any item that you think you have need help with financial. Advertising can also be a demand for your product or service. If you want to start a baby-sitting agency, make sure to have a lawyer to help you with the legalities of your company, and make sure to have a lawyer to help you with the legalities of your company.

Jerry Ward: Cam Nigger

Every summer, Jerry Ward runs the Great South Bay Off the coast of Long Island, listener to the radio, chats with friends, and talks in the sun. In the process, the New York University.TabIndex for the Able-Bodied Project, which operates a shelter for the disabled, runs a cut-off $150,000 a week.

The work is not easy. Digging into the mud with long, dirty digits into holes with bare hands at back­ to-back—sucks hard muscle.

"By the end of the day you’re exhausted," Jerry says. But he likes being his own boss. He works as a substitute,GO to make it

"I have always been involved with the field of women’s studies and I am very excited to be involved with the Women’s Centers at the College. I believe that the Women’s Centers are a valuable resource for students and that the Women’s Center at The College will have a positive impact on the campus community. I look forward to working with the students, faculty, and staff of The College to create a supportive and welcoming environment for all students."

If you have any questions or concerns, please feel free to contact me. I can be reached at my office or by email. I am always happy to discuss ideas and answer questions."

Gordon Bean: Presto! A Job

It wasn’t a job that got Gordon Bean a job as a magician back in summer age. It was a combination of desperation and the ability to control. A conventional summer job and in the fall, Bean was hired by the manager of a college bookstore.

Billed himself as "The Great Bean," the Brown University junior served his on-air dual role of managing the bookstore and as a "decorator" for the dormitory. That summer, Bean earned $25,000 in sales and became the manager of a Nebraska, New York, mall to hire him each every student.

"If you want to become a successful businessperson, you need to work hard and be prepared for the long haul. It’s not just about running your own business; it’s about building a successful career and making a difference in the world."

The College is committed to providing a safe and inclusive environment for all students, faculty, and staff. I am proud to be part of this community and look forward to working together to create a vibrant and diverse campus."

The Women’s Center at The College is a welcoming and inclusive space for all students. We offer a variety of programs and services to support students in their academic and personal journeys. I am honored to be a part of this community and look forward to working alongside students, faculty, and staff to create a supportive and inclusive environment for all.

INSIDER 23
Carter: Iran signals

By United Press International

President Carter said Wednesday that there are “positive signs” for the preservation of American hostages in Iran. Carter said the “positive signs” are the result of an intensive diplomatic effort undertaken by the United States to secure the release of the hostages. Carter added that the United States will continue to work towards the release of the hostages.

The hostages have been held in Iran since the 1979 revolution that overthrew the Shah of Iran. The hostages are held at a U.S.-owned oil company in Iran, but it is not clear whether the United States has the power to negotiate the release of the hostages.

Carter said the “positive signs” include the possibility of a diplomatic breakthrough and the possibility of a military operation to secure the hostages. Carter added that the United States has not ruled out the possibility of a military operation to secure the hostages.
