New effort under way to release hostages

By Kevin Kane

Emergency room personnel group by a path of joggers at the Rec- 
Center last Friday to help resolve a heart attack crisis suddenly 
stricken in the common area of UI Hospitals.

Louis Paine, age 48, and 
attendee of the University of Iowa, had his heart attack.

Mirrors, who works at the University Hospital and who was notified about the jogger's crisis, said, "I'm surprised he survived the en-

Joe Keating, UI nurse, said he 's surprised that the man he noticed was the fifth attempt to

The jogger was later transferred to the Field Hospital where a nervous patient office was made. After a nurse, the man was flown to the hospital for further treatment.

"I saw him in the afternoon," said Joe Keating, a nurse at the University Hospital. "He was walking around with a backpack on his shoulders and a cane in his hand."

Keating said the jogger was taken to the hospital in a large ambulance. He said the jogger was in stable condition and was later transferred to the Field Hospital.

"I was just glad to see him alive," said Keating. "It's not everyday you see someone take off like that."

CAREER EXPLORE GROUPS

Gain information about your: Interests, skills, abilities

Learn about: decision making styles, career opportunities.

The Career Exploration groups will be offered. Each group meets once a week for seven sessions and is limited to the first 15 people who sign up for that group which will be held after work hours.

Group I: Thursdays 2 to 3pm
Group II: Thursdays 3:30 to 5pm

Group III: Saturdays 9:30 to 11:30am

Group I and II will begin on April 3. Group III begins on April 13.

For further information, or to register, call or stop by the Career Counseling Office, 123-456.
Coralville's sign ordinance

For years the Coralville Strip has been the butt of jokes made by town residents and businesses. This small enterprise has expanded at the expense of the town's appearance. Concerned with the criticism, the Coralville City Council has decided to hold a public input session tonight before considering changes in the city's sign ordinance.

Signs in Coralville that currently do not comply with the ordinance are to be brought into compliance by September. The city official that the council might have to change the sign ordinance to accommodate businesses with conflicts with local merchants who own property in the area.

One contested provision of the ordinance, for example, is the rule that no sign be placed on a public right-of-way. Another provision applies to all businesses. Any permit allowing more signs, larger signs, or flashing and animated signs would make the Coralville Strip even less attractive than it is now.

KOREY WILLOUGHBY

Family problems

If national delegations select the summer White House Con- ference on Families, Coralville's City Council will be left to determine the line of the conference. The event will be dominated by conservative and narrow-minded views. Those of us who may benefit from family law will be cut.

At the next state conference on families, we are to present to this summer's regional gatherings in Minneapolis, Baltimore, and Los Angeles. People who have more than once come to the realization that there are seven of us against a woman's right to choose abortion and that we are not in the habit of losing are here.

The Coralville City Council needs to support the Equal Rights Amendment; the majority of the 86,000 delegates are yet to be secured, eight by Gov. Robert Ray and eight by Mayor Tom Drury.

Historical evidence continues to show that getting married and having children is not necessarily a happy experience. There is a lot of misery for many children and adults in what is supposed to be the "ideal marriage." Some elementary school is expected everyone who marries bears and children to be capable of providing the atmosphere for healthy family growth, and it is unfair to expect children to bear the heat of their parents' untrained affections.

In a group study in Sweden concluded that children born of women who don't marry their husbands could be more eligible. Poorly educated or socially driven could have trouble with the law and have more dependence on welfare than children born of married couples. Adults who have lived severely deprived lives as children generally are not capable of making good marriage partners or creating healthy family environments.

Some state laws require suspected cases of child abuse, whether mental physical, or emotional, to be reported to state depar­
tments of social services; the two-year-old law in Iowa is promoting indications of large numbers of abused children. Also, adopted children are more likely to be abused than children of natural parents.

Evidence shows that abused children grow up to be abusive parents, continuing an ugly cycle in some family relationships.

The word "family" is too broad definition. For every individual the word has personal connotations, and families are as variable as the people comprising them. What is important for anyone to announce that he or she alone knows the correct definition of a family. But those who are just that righteous in their beliefs appear to be the ones who may determine family standards.

The White House conference was intended to bring people of all walks of life together to discuss the problems of the family, and set aside the conventions of ways to improve the family structures and insure healthy environments for the children who are the future of our society. This White House conference is dominated by those who refuse to accept wide-ranging definitions.

The other 86 delegates to the White House Conference on Families have arrived. It's far too early to say if any of the myths of the old topelines. Before the opening.

Census

To the editor:

As members of the City Council who voted against the mandated budget this year, we are at odds with all taxpayers who live here. We have represented the interests of local city in the 1980 census. From it you, too, can disagree with some of the provisions of the proposal, do not reject your proposal. The results of the 1980 censuses are vital to all the people of Iowa City. Many other cities in low income families in Iowa have experiences more punitively with his is to do with the social games imposed upon her when she has been picking the very time when inflation affects her in a large or small way what. Frequently, we say that balancing this budget is not an easy job by any means. It will be a political challenge and a social challenge.

DOONESBURY by Garry Trudeau

COLOMBIAN leftist leaders release 2 hostages

Dozens of French hostage-takers, including four women, were released by leftist guerrillas in Colombia yesterday, ending a 32-day standoff that had threatened to become the worst international crisis since the Vietnam war.

The French government, which had been negotiating with the guerrillas for the release of its diplomats, said it was pleased with the agreement reached with the guerrillas, known as the Revolutionary Armed Forces of Colombia (FARC).

The FARC said it would release the hostages in exchange for the release of four of its leaders, who were being held by the government.

The FARC had been demanding the release of its leaders as a condition for releasing the hostages.

The French government had been pressing for the release of the hostages, who were held by the FARC since March 22.

The FARC had been demanding the release of its leader, Jose Marmol, as a condition for releasing the hostages.

Print exhibit pleasingly represents Cruikshank

BY JUDITH GREEN

"George Cruikshank, Printmaker" is an exhibit of works from about 200 of Cruikshank's etchings - original and secondary impressions with copies or secondary impressions with the finished hand-colored etchings, pirated - and 140 prints by his contemporaries. The show is on view at the Des Moines Art Center, 3rd and Grand, through July 8.

The exhibition is organized by Robert Kichka of the Art Museum of Western Reserve in Cleveland, who wrote the catalogue which accompanies the show, published by the Cleveland Museum of Art.

Kichka states in his essay "The Art of British Graphic Art in the 19th Century" that Cruikshank's "figurative style, popular in his time, is now, happily, considered of permanent value. The aim of Crickshaan's art, from the beginning, was to tell a story, a narrative story, with a plot, a framework, a line of development. The print, as an art form, was for him, as it is for all artists, an effective method of communicating his vision of the world, a method of expressing himself, and a means of earning his living."

Kichka notes that the works of Cruikshank and his contemporaries are most appropriately seen as individual images rather than as part of a larger, more comprehensive work. He states that the exhibition aims to present the works in a way that is both informative and engaging, allowing visitors to appreciate the artistry and craftsmanship of the printmakers.

The exhibition includes works by Cruikshank and his contemporaries, including Samuel Cruikshank, John Leech, and R. W. B. Ould. The works are arranged in a thematic sequence, starting with Cruikshank's early work and moving through his later years.

The catalogue, "George Cruikshank, Printmaker," is an excellent resource for anyone interested in Cruikshank's work and the history of printmaking. It includes a detailed chronology of the artist's life, a bibliography, and a comprehensive catalog of his work, including reproductions of many of the prints on display in the exhibition.

Kichka's essay, "The Art of British Graphic Art in the 19th Century," provides a valuable context for understanding the works in the exhibition. He discusses the development of printmaking in Britain during the 19th century, and the role that Cruikshank and his contemporaries played in this development. He also provides information about the different types of prints and the techniques used to create them.

The exhibition is a must-see for anyone interested in printmaking, graphic art, or the works of George Cruikshank. It is a beautiful and informative show, and the catalogue is an excellent resource for further study. The show is on view through July 8, and should not be missed.
Iran

Ms. Sawa noticed it was neither hot nor cold, but refused to identify it. She asked the shop assistant to explain the damaged areas of the carpet and what it was worth. The assistant informed her that the carpet was slightly damaged, but refused to give an exact value. She decided to purchase it anyway.

The US Consulate General in Isfahan was also closed due to the security situation in the city. However, it was not clear whether the closure was permanent or temporary.

Thief

The Campus Security officials estimated that 20% of personal property thefts involved the use of flashlights or other similar devices.

Thefts were reported in the lower level of the School of Business, the Engineering building, and the Business Administration building.

Thefts also occurred in the student union, the library, and the student center.

Rescue

Michael Brown was saved after trying to rescue his friend, who had fallen into the lake. He was praised for his quick thinking and bravery.

Eaton

Eaton's lawyer, Mr. Smith, said that Mr. Eaton was not guilty of any wrongdoing and that the charges were baseless.

Students

Several students complained to the dean of student affairs about the lack of智能化 services and resources. One student said, "I feel like we're being left behind in this digital age." Another student added, "We need more resources to support our learning needs."
Fans scramble for ‘Iowa’

By WINTON BARCLAY

Among the sides effects of the Final Four is the scramble for leftover tickets. The basketball fans’ scramble for success was on a large scale.

The scramble produced both extra work and goals for local businesses.

“This is madness,” said the realization of Judy Kucka, owner of University Bookstore.

The scramble is not only a success for a single business, but also for the economy in general. It is a success for a single business, but also for the economy in general.

THE FIELD HOUSE

The Daily Iowan—Iowa City, Iowa—March 21, 1980—Page 5

continued from page 3

Griffith was asked if the C-6
man crowd went too far.

"It's in order, you know. To
prepare for one of the biggest
games of their careers, wouldn't
be right to go all out that way.

"I wonder if it was going to
come to Griffith versus Ronnie
Lester in the semifinals. Before
the game, Lester was asked if
he could outshine Griffith.

"I've heard it before. I've
heard it for years."

Griffith smiled.

"I've heard it before."

California races swim crown

By DON MEADLEY

California Monterey, using depth and width of talent, came out on top for the first time in five years to win its second straight national crown for the NCAA men's swimming and diving competition following the 57th Annual National Men's Swimming and Diving Championships at the University of Texas.

The Golden Bears, qualifying the number-two team in America for the championship meet, scored 166 points on the final day to win the national title.

In second place were the University of California at Los Angeles. The Bruins scored 157 points.

Ohio State rounded out the top three finishers, with 139 points.

The Bears took 11 of the 16 events on the final day while UCLA won four and Ohio State two.

In the meet's final event, the 1200-yard freestyle relay, the Bruins scored a winning time of 14:00.84 to edge Ohio State by a total of 0.98 seconds.

The Bears finished 166-157-139 with UCLA winning the meet 166-157-139.

The Bruins won four events on the final day to edge out the Bears 157-166-139.

In other highlights, Ohio State took two events in the meet with a 139-166-157 finish.

The Bears were led by freshman Stephen Harrison, who placed third in the 50-yard freestyle with a time of 21.78.

Harrison also placed third in the 100-yard freestyle with a time of 46.38.

He won the 200-yard freestyle with a time of 1:39.46 and also took the 400-yard freestyle relay.

Harrison took the lead to stay after Arvidsson's 400-yard backstroke title.

York also claimed the 50-yard freestyle with a time of 19.90.

No other member of the Bears' relay team was able to come close to his time, but they still won the event.

The Bears' relay team consisted of Arvidsson, York, Saylor and Schrock.

The Bears won the 200-yard medley relay with a time of 1:33.10.

The relay team consisted of Arvidsson, York, Saylor and Schrock.

In other events, the Bears won the 200-yard backstroke with a time of 1:39.46.

The relay team consisted of Arvidsson, York, Saylor and Schrock.

The Bears also won the 200-yard breaststroke with a time of 1:39.46.

The relay team consisted of Arvidsson, York, Saylor and Schrock.

The Bears also won the 200-yard butterfly with a time of 1:39.46.

The United States wrestlers have not won the World Cup since 1982, and they made a strong showing this weekend to view some of the nation's top wrestlers. The Babu, Carrolls and Griffiths are among the top wrestlers in the nation. The Masons almost scored, but head coach Donnie Walsh says it was clear that the Americans' power was on display.

The Babu, Carrolls and Griffiths are among the top wrestlers in the nation. State guard Kelvin Ransey to be the three main players in the series. Walsh said he expects Carroll, Griffith and Gusev through an interpreter. The US wrestlers have not won the World Cup since 1982, and they made a strong showing this weekend to view some of the nation's top wrestlers. The

Walsh predicts Griffith, Carroll and down the road to top pro drop

DENVER (UPI) - The Denver Nuggets are back in the playoffs for the first time in 22 years, and head coach Donnie Walsh says it is a great feeling for the team. The Nuggets faced the Los Angeles Lakers in the first round of the playoffs, and Walsh was in Los Angeles for the series. The Nuggets are getting a chance to compete for the West Coast title, and Walsh is excited for the opportunity.
