Ray: Slash UI budget by $17 million

Governor's budget cuts could devastate the UI, say administrators. Small

In addition, the UI could not build a $7 million electrical safety building for the west side of campus. Without the additional funding, Bernstein said, the UI would lose at least $7 million, including $8 million that had been reserved for the project.

Billed as a "great show," the forum was also an opportunity for the two candidates to meet in the face of such unfairness? he asked.

Grassley also agreed to participate in some of the non-UI-debates before winning the Senate nomination. But after IPBN agreed to debate a candidate on the UI Campus, others were new to the debate arena.

"I was a little surprised but pleased," he said.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

Culver, too, has proposed to cut $17 million from the state budget and has said that he would seek more state revenue, including $8 million that he had earmarked for a new communications building.

"We're not going to let the UI go down," he said. "We're not going to let the UI just sit there. We're going to do something about it." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won't look back," he said. "We didn't say that we didn't want to debate. We just wanted to debate on the UI Campus." He said the group would continue to try to persuade IPBN to allow a debate on the UI Campus.

"But we won"
5 Gilroy witnesses ask that cameras be barred

By ROY POSTLE

First scheduled occasion, including the 18-year-old daughter and the borough’s fourth judge, Michael O’Hare, Gilroy asked the court to eject area media photographers or recording any part of their trial. He further noted that he was ready and willing at the trial.

Two members of the defendant’s immediate family and Gilroy’s staff sincerely appreciated the court’s decision. In fact, without the threat of adverse effects, we are ready to sit in the courtroom and be assured of an honest verdict.

As the trial opened today, Judge William Eads set one by one, inviting 10:30 a.m. Iowa County District Court Judge William Eads set the start of Gilroy’s trial.

At the time of the early start of Gilroy’s trial, Lauri Gilroy, along with three agents for the Natural Resources Department of the Idaho, was in court for the trial.

On Wednesday, the Supreme Court of Wapiti ordered the Idaho State Fire Marshal to issue a search warrant to search for fire damage to the first and second floor of the Idaho State Capitol.

If the search warrant is issued, it will be the second search warrant for fire damage to the Idaho State Capitol. The first search warrant was issued on January 13, 2020.

The search warrant is for fire damage to the Idaho State Capitol.

If the search warrant is issued, it will be the second search warrant for fire damage to the Idaho State Capitol. The first search warrant was issued on January 13, 2020.

Konopka describes ways to help adolescents manage under stress

Gail Konopka says that adolescents must learn responses that are more realistic and that she has been teaching them through her new program, "Coping with the Stresses and Strains of Adolescence," which meets one hour a week for 16 weeks.

"The adolescents deal with stress by developing a philosophy," she said, "the philosophy that they are a victim, the world is against them, they are not responsible, they lack skills, they are frustrated." Konopka, who was born in Miami, said that after returning to Miami the crew was threatened with immediate death by the hijacker.

Konopka said that individuals who are influenced by their peers, talking with other adolescents, and overlapping are more vulnerable to the stress of adolescence. "We need to stress to them that they need to think things through and make responsible decisions," she said.

"We need to teach them how to bounce back from the stresses, to begin to learn their decision-making skills, to become more responsible," she said.

Konopka also said that the adolescents need to learn how to set boundaries, to say, "I need to say no," and to have self-esteem, to have a positive way to face stress.

"If we want a genius," she said, "we should not be encouraging them to take drugs or to engage in activities that are not healthy." Konopka said that the adolescents need to learn how to set boundaries, to say, "I need to say no," and to have self-esteem, to have a positive way to face stress.

"If we want a genius," she said, "we should not be encouraging them to take drugs or to engage in activities that are not healthy."

More than political rhetoric

Should the Constitution of the United States be amended to define and protect the rights of the unborn?
The debate held at the Union on Tuesday night to address that question was long, convoluted, and often incoherent-in other words, just like the people debating it.

The pro-choice speakers did not even challenge the wording of the proposition, which clearly shows that they believe in the right to an abortion. The only real debate came from the pro-lifers.

Student input on core requirements

Students who are comfortable with the current general education program should begin to consider the current]

Students should make sure their interests are adequately represented by attending faculty hearings on the proposed core emotion.

The Committee on General Education, comprised of members of the College of Liberal Arts, proposed changes in core faculty meetings. Though the committee has changed some of its initial recommendations, it has not changed the nature of the changes.

Outcry Garry Willis

The president has been accused of being an expert on the proposition. However, he is not a怪物. But the president must do something about the proposed changes in core faculty meetings.

Playing with the holds lives

The United States government has been accused of being a monster. But the United States government is not a monster.

Nothing is absolute, even Pluto

The analogy of the two moons of Pluto is a good example of how complicated and confusing things can be.

Letters

No line is 100% accurate. The human error that has blessed human kind is the common error that has blessed mankind-precisely what these guidelines are, and, apparently, nothing can be done about them.

A Rooster crows about the news biz

If you're on the prowl for some newsy poems and puzzles:

June 4: April Fool's Rooster has entered a brief conversation, in which it seems to be discussing some kind of bird behavior involving the head to its final rest.

But wait! It all adds up to something.

The newswriting common to wire outfits should pose here.

It's no coincidence the high-volume and Byline happens. A certain mechanical routine that creates a certain kind of wire. A rare behind-the-scenes glimpse of a bird.

"Doohickey" as Rooster Religious Writer could perfunctorily rewrite a story on how at the news biz and how information is sent it over the state's broadcast wire.

That's the real story here as far as Fox News' says. Favorite Religious Writer intends to pay tribute to The Rooster because of those ever-pressing space problems:

Since our April Fool's Rooster has experienced a brief resurrection, it seems appropriate to add a short epitaph before laying the bird to its final rest.

That's a nuclear attack on the United Nations. The Rooster because of those ever-pressing space problems. We don't go out and publicly get off the oil companies' backs.

As for the Rooster's editor who just read what the person who is just going to work.

"I HAVE Hold on! I have I have the idea!"

"NO WONDER THERE'S SO MUCH CONCERN ABOUT THE DANGERS OF FOOTBALL. THE TURKEYS GONNA YELL HIS LUNGS OUT!"

"IF WE JUST PULL THE PLUG ON HIS VOICE BOX WE CAN PERSUADE THE CHOWDERHEAD TO..."

"YES! ALL RIGHT!"

"HOLD ON! I HAVE THE IDEA!"

"AH, THE SWEET SOUND OF FIRST DOWN!"

"WHY DO YOU THINK TASTEBUDS ANYWAY?"

Op-ed policy

Used expertise every Tuesday and Thursday in The Daily Iowan. Op-ed means "opposite the editorial" page and features in-depth analysis and opinion about local, national and world issues.

The Daily Iowan—Iowa City, Iowa—Thursday, April 10, 1980—Page 7

Carter is April Fool's Pick

MARCH 23 (UPI)--There are an U.S. presidential primaries in the real world, but if there were, Jimmy Carter would carry the vote easily in a landslide. It is not that Carter is popular in the Arab East. Far from it. Rather, any Arab diplomat, Carter is the best of a disappointing lot. And the reaction of the Arab East. Far from it. Rather, any Arab diplomat, Carter is the best of a disappointing lot. It is not that Carter is popular in the Arab East. Far from it. Rather, any Arab diplomat, Carter is the best of a disappointing lot.

"I'M NOT GONNA DO THAT," said a nuclear attack on the United Nations. The Rooster because of those ever-pressing space problems.

Gloom fills budget speech

DES MOINES (UPI) - Although the March 26 speech was a week late, Gov. Robert D. Ray's budget for the 1984 fiscal year was a trifle less gloomy than some people expected.

"If the Legislature does nothing," Ray said, "they could reapportion the Legislature."

But Ray had been forced to cut a new budget because the last one was rejected by the General Assembly by projections of $6 million, or 9 percent, from the last biennium.

The budget was attributed to a combination of factors - most notably a slump in farm revenue caused by the lowest grain prices, highest costs and lowest commodity prices.

Adding to the economic scenario, Ray said the budget plan would keep 46-2 million in revenue sharing funds used at each county level in each consecutive year.

"The budget is probable, but not pleasant," Ray said. "Because of federal government decisions, there will be a tougher road ahead each year."

The budget cuts projected $11.2 billion in actual cuts and the rest in increases for the next biennium.

"I hope it doesn't happen," Ray said, "but we have to be prepared."

Ray said the Iowa Division of Tobacco Control, a Mason City chiropractor, would receive $1 million in actual cuts and the balance in increased revenues.

Robert D. Ray outlined a crash program to adjust state spending to adjust by $1 million on June 1 of the current biennium.

"To hit that target surplus, Ray said, cash flow may have to be increased by $1 million next year, because tax revenues are projected to fall $4 million below expectations by $6.5 million this year and revenue in last fall 11.

The budget, Ray said, could be traveled to by the legislature, requiring a certificate for the loan to increase state in $6.5 million projected by the Legislative Finance Bureau on the basis of the steep fall in revenue growth.

"To hit that target surplus, Ray proposed:

- Abandonment of an $1.3 billion across-the-board pay raise for state workers.
- A freeze on new state hiring and an
- Administrative and emergency operating expenses.
-\nWithdrawal of $16 million in supplemental spending requested by Ray in a special session that would have had a 2 percent inflation.
Elections

The results are:

- the first of eleven campus
- the second of eleven
- the third of eleven
- the fourth of eleven
- the fifth of eleven
- the sixth of eleven
- the seventh of eleven
- the eighth of eleven
- the ninth of eleven
- the tenth of eleven

The ELECTIONS Board began counting ballots at 4:45 p.m. today.

Balloons

Elections Board member Mary Gollner called "Cutting out the decision"--with part of the tabulation delay in Tuesday's election. The voting machines arrived at 11 a.m. today, followed by the ballots.

For the last few days, Gollner and her colleagues have been working around the clock to count the balloons. On five of the seven ballots, the new Hawkeye candidates have not been as high as expected. On three of the seven, the new Hawkeye candidates have been higher than expected.

Approximately 42 ballots are being held, said Gollner. The remaining ballots are being counted and checked. Tenth of the seven ballots have been declared invalid.

But despite the delays, Gates said she is confident that the new Hawkeye candidates will be elected. She said that the new Hawkeye candidates will be declared winners in the next few days.

The new Hawkeye candidates are expected to win the election. The new Hawkeye candidates are expected to win the election.

The people unceremoniously removed welcomed home Tuesday, concluding a project to rid the Marshall Islands of its nuclear legacy. The film and videotape by local women described as "inclined to write a campaign paper for political activism," left her professional duties in the family to write a campaign paper for political activism. Jessie Bernard, a teacher, struck me about the continuing subject of powerful feminism. Bernard, a feminist movement, was made. "We've heard the continuing subject of powerful feminism. Nothing more can be done about it."

On the continent spanned from women's liberation movement and the new activism of "révolution féminine" described as "a performance of women's interests," it struck me about the political activism of "la nouvelle femme," the "new woman," and her many chances to engage research. People unceremoniously removed welcomed home Tuesday, concluding a project to rid the Marshall Islands of its nuclear legacy. The film and videotape by local women described as "inclined to write a campaign paper for political activism," left her professional duties in the family to write a campaign paper for political activism. Jessie Bernard, a teacher, struck me about the continuing subject of powerful feminism. Bernard, a feminist movement, was made. "We've heard the continuing subject of powerful feminism. Nothing more can be done about it."

C.R. Ronstadt concert stirs campaign battle

DENVER (UPI) — The National Republican Senatorial Committee has bought $100,000 worth of 30-second TV spots to air Sunday for the federal campaign prosecutor in Washington, the committee said Friday night.

Network sources confirmed that the spots will appear in Denver, Dallas, Houston, and St. Louis.

Also, the committee announced it had bought another $100,000 worth of spots for next week.

The spots will air in Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, Anchorage, First win of season belongs to Cincinnati...

In Cincinnati, actually, the announcement was more in the form of a disagreement at first. Chalmers' insurance was the onlooker and the Braves fell to the Reds, 5-4.

Sportscripts
Baseball game rescheduled

Thanks to Wednesday's April shower, Iowa fans can now look forward to a long weekend of Hawkeye baseball. With the forecast looking quite favorable for the weekend, the Braves will now play the Friar's on Friday afternoon at 1:00 pm in order to make up the game that was canceled due to weather.

Softball team to miss tournament

The Iowa softball team will not be part of the Iowa State tournament this season. The tournament will be held in Des Moines, Iowa, and is expected to be held in Des Moines, Iowa.

IM co-ed softball entries due

Due to the busy schedule of softball entries, entries will be due Thursday, April 10th, at 8:00 pm.

Radio News

CINCINNATI (UPI) - George Foster drove in four runs with a homer, double and single today, leading the Reds to a 12-5 opening day victory over the Atlanta Braves in a nontoxic display of hitting power.

Foster's display of power led a pitcherless, 12-run day for the Reds. Foster, with two doubles and a single, tied the all-time high for runs scored in one game. The game was played under cloudy skies.

The win gave the Reds a 1-0 lead in the National as follows:

Orioles begin their quests for two league titles.

There are five opening day starts in the major leagues today. All five are expected to turn in a good performance.

The American League East opener is set for 1:00 pm on Sunday at Shea Stadium and in Boston. The World Series champions, the Seattle Mariners, are expected to turn in a good performance.

Saints at Angels.

The game is set for 1:00 pm on Saturday at the Coliseum in Los Angeles. The Angels are expected to turn in a good performance.

Seattle at Texas.

The game is set for 7:00 pm on Friday at the Coliseum in Los Angeles. The Texas Rangers are expected to turn in a good performance.

TUCSON, Ariz. (UPI) - Former University of Arizona head football coach Tony Mason was given a choice by university President John P. Schaefer - either quit or be fired. The Tucson Citizen said in a copyrighted story Wednesday. The school released a 17-page newspaper report, saying in its opening paragraph: "The Arizona Daily Wildcat Associates has accused Arizona head football coach Tony Mason of accepting kickbacks on charity drives that allegedly never were made; it also charged Mason with accepting $18,000 in travel and living expenses for airline trips that allegedly never were made. Mason was given an option of resigning voluntarily or being relieved of his duties because Schaefer believed Mason had been guilty of unethical conduct. Mason is asking for another four years of contract that already were awarded. The Citizen said, adding that the university had already decided to fire Mason. The Citizen said Mason was trying to negotiate the contract and other coaches had accepted the money as reimbursement for airline trips that were never taken. Schaefer denied Mason had accepted the money as reimbursement for airline trips that were never taken. He also denied the university had already decided to fire Mason. Hawk staff sells Arlando

By DOUG BEAN

The telephone hasn't stopped ringing since Arlando entered the Maroon office. Friends, family and Sawians have all been making rounds, congratulating Arlando. For Gaylord, it's been a typical coaching staff reaction. "He's been getting more opportunities, and more people are getting to know him," Gaylord said.

Many of the calls are coming from Gaylord's old college coach, but there are also calls from former coaches and current Sawians. "I'm not surprised, I think it was only a matter of time," Gaylord said.

The basketball team is set to face Marquette this weekend, and Gaylord said that Arlando will be instrumental in the outcome of the game. "We need him to step up and lead the team," Gaylord said.

Arlando is a senior forward and has been a key player on the Sawian basketball team. He's known for his defensive skills, and his leadership on the court.

"I'm looking forward to seeing what Arlando can do for us," Gaylord said. "He's a player that can really make a difference."

ONE ROO
Iowa softball team drops two games

By KATHY RADOWICZ
Staff Writer

Iowa softball team dropped both games in Tuesday's two-game series against Saint Ambrose in the final game of the season. Iowa played Friday and Saturday against the Hawks but lost both games 14-3 and 10-0.

The Hawks hung tough and trailed 6-2 in the final game before Iowa brought home a fourth place and a pair of sixth places.

Iowa played actively and batted well but they had problems executing their bunts. It was a day of doubleheaders.

The Hawks were playing split ends and did not have a lot of pressure on them. In our case, we didn't have a lot of help on the field. We were just playing our game. Our defense was reading our bats and we were hitting well. It was just a matter of running the bases.

Coach Jane Hagedorn cited Missy Murphy, who handled second base well and was ready to go at a moment's notice.

The Hawks were ready to go at any time and the Iowa defense was reading our bats and we were hitting well. It was just a matter of running the bases.

In the first game, Iowa's Cindy Carson caught to the mound and pitched a good game despite the score. We didn't play well in the second game. It was just a matter of running the bases and getting the runs across the plate.

Dealing with numerous rainouts this season, Hagedorn said, "We're not playing our best right now. We're having trouble adjusting to the weather conditions."

"We were just playing our game. Our defense was reading our bats and we were hitting well. It was just a matter of running the bases.

Iowa brought home a fourth place and a pair of sixth places. Iowa was concerned with Saturday's and next weekend's tournaments.

Cowens, 99-92

UPI) - Dave Cowens scored 17 points in a 2:52 span of the fourth quarter as he led the Boston Celtics to a 119-101 win over the Houston Rockets in their quarterfinal series night at Boston Garden. He held an 84-78 lead entering the final period when Cowens went on his tear. Held to just 2 points in the first half after foul trouble, he began a 10-0 Boston surge with a jump shot from just inside the 3-point stripe. The Boston captain then converted a Chris Ford feed, and after a Ford basket, tossed in a scoop shot and a lay-up to give Boston a commanding 94-78 lead with 9:08 to play.

Boston built the lead to 21 points, 107-86, on a backwards dunk shot by Cedric Maxwell to seal the victory. Boston, which had beaten Houston in all six previous games this season, got 19 points off Ford, 9 in the third quarter. Maxwell and rookie Larry Bird each had 15 while M.L. Carr added 13, Rick Robey 11 and Nate Archibald 10.

Houston was led by Moses Malone's 34 points and Calvin Murphy added 23 and Robert Reid scored 15.

The Celtics, shooting a blistering 53 percent, moved to a 39-23 lead at the end of the first quarter. Bird hit seven shots in the quarter for 13 points in his 3-pointer giving Boston its biggest lead of the period, 37-19, with 1:27 left.

With their five starters on the bench, the Celtics reserves, led by Gerald Henderson and Robey, built a 59-40 lead with 3:21 left in the half. But Houston went on a 16-2 shift, capped by a 3-pointer by Murphy at the buzzer to close to within 61 of halftime.

**Frisbee**

**Continued from page 2**

Snyder has compiled a 14-volume atlas of Frisbee which includes aspects of soccer and football. In his skills with the disc improved, Snyder participated in flying disc demonstrations with the professional team.

Snyder has a collection of flying discs, which now number more than 250, about 120 being on the wall of his room in Quadrangle dormitory.

"Most of my disc are true Frisbee, which means they were made by Wham-O. According to Frisbee co-owner, Royce Shanks, Wham-O bought patent rights from inventors Fred Marvin, who began testing discs out of plastic in 1937 when people began to become fascinated with flying saucers. The name was derived from Frisbie pie, whose pie tins were thrown by an Italian who manufactures and plays Frisbee for a living. After Snyder improved and showed me to get better," Snyder said.

ON THEIR PART, a 15-member team at his high school to challenge the Italian professional team at Ultimate Frisbee, which combines aspects of soccer and football. In his skills with the disc improved, Snyder participated in flying disc demonstrations with the professional team.

Dressing to kill’ may be the right formula for a glamorous night on the town, but when a woman ‘dresses to kill’ in the office, she may wind up killing her chances for a second chance at a successful career.

A recent study observed that elegant women are more likely to become fascinated with flying saucers. The name was derived from various sources, including a 1950s science fiction cult, the start of a new era in aviation, and the rise of the space age. The technique for spawning ideas is to imagine the center and names of all the planets around the rim.

In the outside Quadrangle dormitory, 12-year-old Snyder demonstrated his technique for catching a Frisbee between his legs.

If Snyder wants to go abroad, it’s important for him to know the sport’s rules because of the pressure of the sport.

BUILDING a good, basic wardrobe is the secret to successful dressing. And, with Snyder’s fashion sense, it’s likely he’ll be difficult to account for.

Julie Fiedler is shown here in a sun dress by Young Edwardian.
Denny Men's fashions - earth tones. Classic grays, tans, khakis and cloths. Ranging from pure tropical weaves, burly burlap, bones, as well as silk looks, transcribed classic boundaries with the traditional man, the" prep" look. Preppy sport shirts and striped ties are making a comeback with their image of the '50s have never been more popular. They have become a less common investment. They haven't really old news. It's been said that nothing goes through cy-cles. And all appearances present Iowa City stores in- dicate that the return of the '60s are actually back at the 90's. It's the clothing that our forefathers and grandfathers grew up with in their own time and some of it's even better. New & Next. And now it's spring time. "The style of the '90s We have explored and have proved to be the winner for individuality and versatility," said Tom Lawton, manager of stephen's men's wear. "They are a good representation of the people who are buying the clothes."

IF YOU WANT to be in "the next wave," you should be immediately tuned to the truth. Anything that is mass-made is going out," explained Marge Hafs, buyer in charge of Bonne's Women's Department. "Everyone is going back to natural fibers because people are getting on a democratic earth trend. Accordingly, cotton, silk, and wool should be big sellers. In the future, more match will be worn. People just want to get back to basics," added Mark Etter, advertising and display manager for Penney's. "There is a certain element of the pop-ularity of the button-up collar that is still wearing in." And some slightly longer fabrics that are worn pinned. "People are tired of dressing in a sea of shirts," commented." They're in need of wearing something that is comforting and versatile.

"It's coming in as a new revival," Summy noted. "The "prep" look has been rejuvenated. Everything is clean cut, and people are basking in it. The clothing looks are very tight on the fashion but we are used for playing games or just walking around.

Men's fashions — a variety of styles
Fashion is men's clothing for the spring and summer of 1980 offers the American male a personality, profession or career. And earth tones are evident in the designer pockets, according to the Men's Fashion Association. The clothing styles now express various codes are catching on since the economy in the mid-1980s have hardened. Everyone's sick of it. People want to get away from the "prep" look. It has been said that things go through cycles and this is one of them. People aren't afraid to wear the "prep" look.

"I love the idea of the '50s!" The look is more timeless than the "prep" look. We have come to expect things to last and be in good taste. The clothing looks are very tight on the fashion but we are used for playing games or just walking around.

"It's coming in as a new revival," Summy noted. "The "prep" look has been rejuvenated. Everything is clean cut, and people are basking in it. The clothing looks are very tight on the fashion but we are used for playing games or just walking around.

Beggars are about 360 degrees from the usual straight-leg type we've grown accustomed to in recent years. Instead of clinging tight to the skin, the new jean styles are predictably looser fitting and looser cut at the leg.

"WE'RE GOTTEN to roots of the baggies in all different colors," Jerry Seiferts of Seiferts said. The problem with the baggies, however, is that they don't compliment some body types. Designer pants like those produced by Calvin Klein continue to attract buyers despite the high prices. Once the status symbol cloth the fashion elite bag in season, they're now in the spectator Klein name plates.

The color schema is definitely bright. Reds, yellows, greens, purples and orange, light up store display.

But the colors have lend down a bit from last year's flashy dress woes. Seiferts said. Not quite so much color.

WHITE, of course, will always remain the mainstay in denim. Seiferts said. Last season saw the emergence of saddle shoes in black in the nation's stores.

Although the trend seems to be headed towards a dressier look, comfort is still a must. In both the men's and women's areas, dark pants continue to move fast off the racks.

The color scheme is also more subdued this season. No bright orange denim. The khaki-type pant with a smooth fabric - and one well

The usual fashion designs this season are emphasizing the generous - straight legs, and so on - Seiferts said. The formal seasons, however, are still a far cry away.

Seiferts noted that so far this season, no particular design or anything sporting a pocket will definitely be favored by the buyers. "They're putting trousers in everything, short dressers, looks sharp, too!

Coburn believes that the skin tight styles won't come around again in denim. "The men's wear, they look on clothes where bags, handbags. So, whatever your taste, we've got

"Top 40 is here!"

When we moved into our new store we discovered we had something very special - the perfect place to hang our "Top 40" handbags.

Our "Top 40" bags are our newest arrivals and change weekly. Of course we still carry lots of other bags, too. (Eastern Iowa's largest selection to be exact.)

So, whatever your taste, we've got one pegged for you.

Something for everyone.

for special occasions such as weddings, Coburn said.

The fashionable length for men is just below the knee. For women, the length going much above the knee. But Coburn doesn't see the return of the dressy look will be flaunted by the in-crowd.

In summer attire, terry cloth shorts, Bermudas and walking shorts, "We're getting back to the basic black cocktail dress," she said.

WITH MONEY TIGHT in the present economic situation, one sees the skirt and dress lengths are getting longer.

"This is the first year people have a choice of long legs or short," Coburn said. "The length going much above the knee. But Coburn doesn't see the return of the dressy look will be flaunted by the in-crowd.

Shaggy are about 38 degrees from the usual straight leg or a grown-acquainted loose shape. Instead of clinging right to the skin, the new leg styles are exactly what clients -- baggy, "WE’RE GOTTEN to what the motherly looks at a bit different. "Why," Zelinski of Seifert said. The problem with the baggy, however, is this too. Don’t compliment some body types. Designer pants like those produced by Celia Klein come in delectable colors, pleats and shorter hemlines. The bright colors have toned down the high prices. Once the status symbol was the orange leg bag attached to the back pocket, now it is the upholstered chin. The color scheme is definitely bright. Even yellows, greens, purples and oranges light up store displays.

But the colors have toned down a bit from last year’s flashy days. Zelinski said. Not quite so neon in nature. WHITE, of course, will always remain the mainstay in the spring and summer looks alike in all the major areas.

Although the trend seems to be the return towards a feminine look, comfort is still a must. In both the men’s and women’s areas, slacks pants continue to move fast off the racks. "Closet - a lighter weight, thicker, better fit with a lot of stretch" -- are also selling big.

"The past fashion design of the season is emphasizing the geometrics - stripes and such, " Zelinski said. The floral patterns, however, are still a common sight. Zelinski noted that no far as men are concerned, sporting a pant will definitely be favored in the present. "They’re putting pants on everything -- slacks, dress pants, knit, slacks, pin, etc."

"Clothes believe that the return of the dressy look will once again be common. Long years ago, are a no-no this year. But the colors have toned down the bright, yellows, purples and blues. The color scheme is definitely bright. Even yellows, greens, purples and oranges light up store displays.

Continued from page 5

"They’re putting parrots on the beach there will be a definite emphasis on the beach theme as a whole this season as well," said the big beaded chokers of the disco scene, Zelinskas said. Not so much as last year. But the colors have toned down the bright, yellows, purples and blues. The color scheme is definitely bright. Even yellows, greens, purples and oranges light up store displays.

The sparkling city by the sea

By HEIDI McNEIL

CORPUS CHRISTI, Texas — Native

family and it's the sparkling city by the

sea. Others know it as the "Swell of the

Washboard."

Corpus Christi's population nearly

equals that of Des Moines, yet lies in the

Bayou City from a lower place than that of Iowa City. Don't worry about it: it seems to be the favorite

game in the city.

The move to one-piece suits began in 1954. People used to say it was the sea

that made them go for the "suit," but now it's the style that they want to see.

Corpus Christi is the sea. It's trying to be up

in Texas' tradition of having the

largest and best of everything. This

is the state of Texas, the land of

Juniors, the sea of Texas.

game in the city.

The move to one-piece suits began in 1954. People used to say it was the sea

that made them go for the "suit," but now it's the style that they want to see.

Corpus Christi is the sea. It's trying to be up

in Texas' tradition of having the

largest and best of everything. This

is the state of Texas, the land of

Juniors, the sea of Texas. The Sea of Texas, the land of Texas, the sea of Texas.
Sweaters pocket along highway are consistent, as are driving方位的 ranging along the highway. This is especially so when you consider the area's high of 84 degrees that day.

There was no sign of parking restrictions. "Everyone always seems to have a lot of time to pass," said one woman, "and it's a good way to get some exercise in together." The notice was printed on a large billboard along the highway.

The city by the sea

The city by the sea, known as the "City of the Arts," is a popular destination for tourists and locals alike. Each spring, the city hosts a variety of events and festivals, making it a lively and exciting place to be. Whether you're interested in enjoying the local culture, exploring the picturesque landscape, or simply relaxing on the beach, there's something for everyone to love about the city by the sea.

Fashion

The fashion industry is always in a state of flux, and the spring season is no exception. This year, designers are focusing on a more casual, comfortable look, with softer, more flowing fabrics and a brighter color palette. The trend is reflected in the clothing that is being worn by the people on the street, as well as in the items that are being sold in the stores.

The city by the sea

In the city by the sea, the people are always on the go, and they look the part. The men are sporting casual suits, while the women are dressing in loose, flowing dresses. The students are wearing preppy, 1960s-inspired outfits, with a focus on color and texture. The overall mood is one of relaxed elegance, with an emphasis on comfort and style.

The city by the sea

The city by the sea is known for its laid-back atmosphere, and the people reflect this in their clothing choices. The men are seen wearing suits, while the women are dressed in dresses and skirts. The students are seen wearing preppy, 1960s-inspired outfits, with a focus on color and texture. The overall mood is one of relaxed elegance, with an emphasis on comfort and style.
In Mexico, time rules no one

SUNLIGHTS: The lightest shoes on earth.

Look down at the shoes you’re wearing right now. Are they brand new, spotless leather? And softly cushioned from heel to toe? That’s what you’ll find in Sunlights. Yet they’re still lighter than the shoes you probably wear. So, slip into something more comfortable...And find time for your feet.

In a moment of excitement south of the border Watchers and clocks are almost the only items left in the seemingly endless number of shops and stands that dot the embankment. Time rules no one. For a small market you can cross the Rio Grande from Brownsville, Texas, into Matamoros. In a moment you’re in Mexico. And if you’re an American, two cents buys you a glass of water. The Texan government allows market brokers to sell you water on the south side of the border. The cheapest price of liquor turns many otherwise law­ ­breaking citizens into sneaky drunks. Most Mex­ico­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­­…
Put a march to a shut out you'll get a new flame burning.

A worm is dropped into every bottle of Tequila processed in Mexico. If the worm doesn't live within a certain time period, it means the Tequila is not strong enough and the bottle is thrown out. The tradition is that whenever drinkers find the fatal worm in the bottle must die.

Some say that when one eats the slain worm, they will "see a vision." While sitting in the end of a bar listening to the strains of "La Charanga," (typical Mexican music similar to that of Cuba), a shopkeeper said his Tequila is bad until the worm is gone. After a meal the waiter will "swallow in the bottle" to warn the customer that the Tequila is not strong enough.

Don't try to smuggle more than you will get back across to Brownsville - as long as there's a border.

Sun products regulated

The newest sun products are regulated by the Food and Drug Administration's new controlled sun protection label. The word the consumer should look for is "SPF." This is the Sun Protection Factor, a number that tells you about the UV protection the product will give you.

SPF 2 means minimal protection, no protection at all in the case of sunglasses. SPF 15 means you can stay out in the sun without burning. The higher the number, the more protection you will get from the sun without burning.

Traveling in Europe

BY KATHY ORNE

So you want to go to Europe. For some of you fortunate enough to be spending the summer abroad, Europe can be an incredible opportunity. Sipping French wine on charming outdoor cafes, breaking bread beside a waterfalls high in the Alps, strolling on the square, many trunks of the world can seem like a dream, but for most of us, the idea of leaving the United States and visiting Europe can be overwhelming. For many, the thought of making it to Europe is a daunting challenge. However, as long as you plan ahead, keep a positive attitude, and stay on track, you will be able to enjoy your European vacation. In fact, Europe can be a wonderful place to visit, and with some extra effort, you can make the most of your trip.

Fate steers Kilgour from Canada to Iowa

By DAN O'CONNOR

Fate can work in strange ways sometimes. Take Ruth Kilgour as a prime example. The story of how the freshwater tennis player from Vancouver, Canada wound up at Iowa shows how strange it can be.

Kilgour grew up in school No. 1 singles player Karen Kettenacker. Her dad was there and she might be a connection there, you're absolutely right.

Kettenacker came to Iowa two years ago. "I came here because of high school and sports, I'm not thinking of playing at that time."

KILGOUR, a physical education major, wanted to go to school in Canada and thought she was through with collegiate tennis. "I played against thatimmer" (V. K.) Kilgour recalled. "I didn't even see Karen until I was entered about playing again."

Karen, a single-minded (Coach Cathy) (Bailly) has opened the door for Kilgour before school started, Kilgour continued. "Karen South told Cathy she wasn't going to play this year and Cathy told me to come on over."

Neither neighbor nor Ballard. All 6'6" and 175 pounds, Kilgour ranked as a 4.2 record last fall and is a 4.4 this spring. February, she has joined the No. 1 doubles leaders with her buddy Kettenacker, a union which has produced a 6-0 record to date.

"I think that now Kilgour became Kettenacker's partner and is in love. Kettenacker was teamed with Laura Legnini last spring and, as freshmen, they competed in the Intercollegiate Tennis Association for Women national tourney. "They're really coming in last fall and teamed with freshman Ana McCray new out with a third in- park and Karen Kettenacker. With McCray, Kilgour compiled a 6-3 record, with Kettenacker, she was 6-0. Ballard first put Kilgour with Kettenacker in the World Tour Tournament format match with Kil- wens (D. 1) on the low. Kettenacker had been for years. There were two reasons why Ballard selected that pair," Ballard explained. "Karn is very aggressive, but the others play the years a little bit. It's harder for opposing teams to play with that change of rhythm.

"ALSO, WE needed some leadership among the other players," and Ballard, who had been on August, has joined her on the market. "Laura teamed with Kettenacker at No. 3 l has continued her leadership development and she complemented Kettenacker."

Kilgour had played in some Canadian tournaments with Kettenacker or on a British Columbia team, but had not competed with her much in matches. "We did play doubles one summer and we won a big western Canadian tournament."

"I'm fine," said Kilgour. "But I don't want to play doubles with Karen but she had her partner. I played with her a third at a tournament in Chicago before Christmas and she just lost in the first round. But I played well and I think I'm doing well."

The ideal surfing conditions come during hurricane season, mostly during the hurricane season in August through October. A GROUND SWELL OCCURS when tropical depression causes turbulence in the water. Yellen said. The more hurricanes in the water, the better the waves.

Another factor in California is a rock reef. The reef sends up some energy - giving the wave a wall to break against and produce a larger wave. The Texas coast is nearly a solid sand bottom which gradually becomes the nearest wave sending nothing back to the surfers. The ideal surfing conditions come during hurricane season, mostly during the hurricane season in August through October. The transformation of cold water to hot causes turbulence in the water. Perhaps the surfing in Texas isn't quite up to par with that of California or Florida but according to Yellen, it's better than nothing.

"When I started surfing, there were only about four or five of us in Ocean Crest," Yellen said. "Now surfing has started to be a hot sport to get out and get a board."

"But there are only a handful that are really dedicated. They were on the go on any wave all year round - wind, rain, sleet, snow - they are the true surf junkies," Beck has traveled all over the world looking for bigger and better waves." He believes that Central America boasts the best surfing in the world. "The waves there are the best and the biggest," Beck continued. "The waves there are the best and the biggest." Beck said that the waves are judged on the shape and curl of its curling and curling up is the shape. "You want to catch the curling peak of the wave and be completely covered with the white water behind."

"The surf is the way to describe the steeper. The larger the waves, the better, said Yellen. "You have to be more maneuverable and move faster. And more maneuverable because you have a larger area to maneuver in.""}

'Some said that THE average cost of a sun shirt, wetsuit and fins, plus some money means cost for the boards plus a wet suit and one plan to surf during the winter. The sizes of the boards vary. Larger boards are more expensive when the shorter boards are for those more dune. The shorter boards are for hot surfing - Yellen said. "They are for quick maneuvering and quick turns." Beads usually are rented every time a surfer goes out, Yellen said. "If you did your own board, it's tiring trying to do much."

"I've completely rented a board," Beck added. "You can just take it off the rack and just ride straight into where you want."

Yellen continued that a beginning surfer should not be an excellent surfer. "If you don't know what you're doing when you first hit the water, you're going to be in trouble."

Yellen noted that some surfaces have "beach" on them. "But we go on the beach," Beck added. "We go on the beach and we ride on the waves that come in the beach."

"No, we ride on the beautiful," Yellen said. "Don't ride on the beautiful." Other than a few scrapes and bruises, the movie never-ending is more enjoyable. "The movie never-ending is more enjoyable."
Kilgour, a physical education major, wanted to go to school in Canada and thought she was through with competitive tennis.

She explained, "I keep playing girls tennis but I just don't feel like I'm getting very far."

Kilgour, who was born in Colorado, explained that she had been interested in surfing for some time.

"I started at home in Colorado and then I went to Florida, she said. "I really enjoyed it there and I wanted to go back to my roots."
Rafters challenge white rivers

BY CLAUDIA RAYMOND

"We're not in it for the bragging rights. This is not a contest. We're in it for the love of white water." -- Mark Murphy, staff writer

Drenched, totally soaked from ears to toes, coolness to sit and stare.

"We're not in it for the bragging rights. This is not a contest. We're in it for the love of white water."

Downtown at right side, draw! Downtown at right side, draw!

It was 8 M.M. Sunday at an 11th-century B.C. site on the upper Ganges River. Twenty of us from the US Army Language School sipped coffee and enjoyed the soothing ambiance of the ancient city. We were here to learn about the culture and history of the Ganges.

A CLASSIC KEPT slide out in every corner. A handclasp pulled down the -out our feet, to the tune, transforming raw water into body heat. A breath of air doesn't wear or rippling pool as good as the ice. A new day. We play just as we did the day before. The river knows how to survive. From the 30-year-old river water to the 30-year-old river water, to the current.

The water from the falls splashes, as the raft shoots from one half to the right. "That's God's last words in the leaf."

It's the last day of rafting. The rain and cold were nothing compared to the white water. The Challenge is classified as a "b". It's too cold to do anything.

The weather's getting better. The water flows downstream slowly, gradually feeding the river. High water of any kind turns a river that is at its most peaceful.

So this is our water. This is our water. This river flows downslope slowly, gradually feeds the river. High water of any kind turns a river that is at its most peaceful. We've been sitting high water for a few days instead of raining low, losing at the raft. We feel the water moving over our face. The sun is shinning, the water with low lights and rocks of meandering difficulty with wide passages. There are regular waves over two feet in height.

Bellwurades is 12-feet deep, deep into clear water. Bellwurades is 12-feet deep, deep into clear water.

What's happening on the surface? The water from the falls splashes, as the raft shoots from one half to the right.

"Draw right, low. Then don't let anybody go left," stresses Jim. "The raft shoots from one half to the right at the paddle machine."

The river knows how to survive. From the 30-year-old river water to the 30-year-old river water, to the current.

THE US is about to be hearing a proportionately huge share of the $2.3 billion in capital improvements, according to Mary Lucile Peterson, the temporary director of the university's energy conservation program.

THE US is about to be hearing a proportionately huge share of the $2.3 billion in capital improvements, according to Mary Lucile Peterson, the temporary director of the university's energy conservation program.

The excellent conditions are not to the right, a mighty
