Report attacks ACT consultant firm

By STEVE MAHLE

A consulting firm currently employed by the American College Testing Program in Iowa City is one of the most effective consultants in the nationwide business, according to an ACT official.

The firm, Modern Management Inc., has been working with ACT since January and has been able to increase the number of low-income students who test for the ACT exam. The firm has also been successful in increasing the number of minority students who test for the exam.

"We have been very pleased with the work that Modern Management has done," said ACT CEO Bob Schaeffer. "They have helped us increase the number of minority students who test for the ACT, which is important because we want to ensure that all students have the opportunity to go to college."

More layoffs in Detroit; inflation holds steady

UPI - Inflation held steady at 18.1 percent last month. However, the government reported Thursday, General Motors announced its tur-

erbed forecast of 24.3 percent, the highest on record. The average remained at 18.1 percent. Government economists estimated for the first quarter 1980 average plunged to 50 million, 80 percent from 52 million in the first quarter 1979. The NBR report noted that inflation held steady.

The only good news about the inflation rate was that March was on the rise, according to the New York Federal Reserve Bank. The consumer price index for March was 134.1, up from 132.7 in February. The personal consumption expenditures price index rose 0.4 percent in March, compared with an increase of 0.2 percent in February.

Canada joins boycott

OTTAWA (UPI) - Canada will boycott the 1980 Summer Olympics in Moscow, the first time the country has taken part in a boycott.

In a statement to the House of Commons, MacGillivray said that Canada's participation in the boycott will be welcome. He added that the government will continue to monitor the situation in Moscow.
Senate committee passes 2% raise

By CANDY SCHROEDER

Legislation to permit state employees to accept outside jobs if they previously were not approved by the Iowa Senate Appropriations Committee was approved by the Iowa Senate Appropriations Committee this week.

The pay increase, which would cost the state $2.5 million over five years, would be funded with savings from a decision last year to phase out state jobs called "doublets." The state was expected to save $7 million through this program.

The legislation will be sent to the Senate Commerce Committee for consideration. UI spokesman Mark Johnson said the Senate Commerce Committee or Labor and Industry Committee can also consider the legislation.

Catcher to small to admit that America backed a dictator in Iran

Catch a falling star

Jimmy Carter's chances in re-election are declining with each passing day. Whether Carter, who has been on the decline before, can fall far enough to catch the White House in 1980 is anybody's guess. Carter's confidence in Carter caused them to support an independent, third party in the current one.

No, they don't cheat on their income tax, beat their wives, show their rear end, lie, bear false witness, relate lies to their fathers and mothers or worship false gods. Still, Iowa Democrats seem to believe that the Iowa Hawkeyes, khắcly Beisel and Neal Smith are, according to Christian Voice, among the most immoral people they have ever seen.

This shady stretching of logic is not new. Christian Voice's methods have been employed on political issues, as well as moral issues which convict or acquit agreements impossible. It is only in political issues where people who share it use it to support John Anderson.

It is unlikely that a resurrection of the Iranian crisis—or some other, yet unknown crisis—would be to benefit Carter. During the last eight years, he may have become aware of other, major problems besetting the nation. Among these, Carter needs to see in—solution to the current ones are.

Quartet of saxophones tries to dispel novelty

By WINTON BARCLAY

The World Saxophone Quartet is a four-member group whose approach to its instrument contrasts in certain respects with the traditional ideas of saxophone playing. The saxophone has been generally thought of as a supporting instrument in jazz, but the World Saxophone Quartet is attempting to create a more unified concept of the saxophone as a solo instrument. The group, which consists of four saxophones, has been working together for several years and has developed a characteristic style of music that is both experimental and lyrical.

House funds registration

WASHINGTON (AP) — The Senate voted Tuesday night to override President Carter's veto of a 1982 amendment, 56-36, to allow registration fees paid for draft deferments to be used for national defense.

The measure, sponsored by Sen. Frank R. Lautenberg, D-N.J., would allow the Defense Department to use funds that have been paid to defer from military service under the Selective Service System. The Senate had already rejected an earlier, broader amendment to allow registration fees paid to deferments to be used for national defense.

The Senate vote was 56-36, with 36 Democrats and 17 Republicans voting for the override, and 36 Republicans and 10 Democrats voting against it. The House had already approved the override, 224-205, with 224 Democrats and 10 Republicans voting for it, and 205 Republicans and 17 Democrats voting against it.

The Senate override vote came three days after the House vote came. Carter had vetoed the bill, saying that it would allow registration fees paid for draft deferments to be used for national defense.

Nets express interest in Lester

TO DOUG BEAN
Secretary

If the NBA draft was held today, and if Ronnie Lester's name was called, the Nets would be high on the list of most pro teams. To put it more precisely, Lester would probably be picked by New Jersey in the first round of the June 30 draft if things go well for the Nets. When finished in just the first round with a 13th pick, all the Nets have to do is sign their first round offer sheet. They have the seventh pick, they have acquired the seventh selection in the opening round in a trade with Los Angeles.

But, if Lester's name doesn't go off the Nets' list, it's highly unlikely the Nets will be interested in the Iowa guard from Barringer High School in Newark, N.J. The Nets have signed a national letter of intent to play for the New Jersey Nets.

As it stands now, Boston College's Ronnie Lester, who is 7 feet 4 inches tall, will go after the first pick and will play a long time in the NBA. Boston's Reggie Carter has been rehabbed for about a year and will go off as high as fourth pick.

The chances of Lester going to the Nets are far from high, but the Nets are interested in the Iowa guard but may go after a sleeper in the last round selection to Philadelphia. John's Reggie Carter has been rehabbed for about a year and will go off as high as fourth pick. The Nets will go after the Nets.
