Prof. considers collective bargaining

By CRAIG GEMOULES

Harry and Margaret Ruffin, 938 University Ave., Iowa City, announced Wednesday that they would replace HEC, created by Robert Ruffin 60 years ago, with a new organization - the Ruffins Journalistic Foundation. The new council would consist of 10 members, including the current Ruffin staff and four members from outside the University of Iowa. The council would be responsible for maintaining the Ruffin library and publishing the Ruffin Journalistic Foundation. The new council would meet at least once a year, with the first meeting scheduled for November. Replace HEC, bill in senate suggests

By CHAD SCHMIDT

Student Senate members have drafted legislation that would replace the financially troubled HEC. The new group, called the HEC Senate, would be responsible for maintaining the HEC library and publishing the HEC Journalistic Foundation. The new group would meet at least once a year, with the first meeting scheduled for November. The new group would be responsible for maintaining the HEC library and publishing the HEC Journalistic Foundation. The new group would meet at least once a year, with the first meeting scheduled for November. The case of the lost student fees

By LISA HINTZE

Several engineering students have designed and constructed a solar- powered still for making alcohol that they say could rival the output of the best distillers in the world. They have already tested the device in the desert and have plans to build a large-scale prototype in the near future. "We're building a machine that will produce alcohol at a much lower cost than existing distillers," said one of the students. "We're excited to see how well it works and plan to scale it up for commercial use." The students are raising funds through a crowdfunding campaign and hope to have the prototype ready for testing by the end of the semester. The device has a potential market of over $1 billion per year and could have a significant impact on the production of biofuels.

Four injured in plane crash

A private plane crashed near the airport on Saturday, injuring four people. The crash occurred during a training flight and all passengers on board were taken to the hospital with non-life-threatening injuries. The cause of the crash is under investigation, but authorities believe it may have been caused by mechanical failure. The plane was a small, single-engine aircraft and there were no other flights in the area at the time of the crash. The FAA has been notified and will be conducting an investigation.

The case of the lost student fees

By LISA HINTZE

For the second time in less than a year, student fees have disappeared from the University Senate's records. In February, the Senate was unable to account for $60,000 in student fees, which were supposed to be used for library and athletic facilities. The Senate has hired an external auditor to investigate the missing funds and is working with the University's attorney to determine the next steps. "We're determined to get to the bottom of this and make sure it never happens again," said Senate President Mike Tingley. "We're committed to transparency and accountability, and we'll do everything we can to ensure that our students' money is used correctly."
Briefly

Shipwreck takes 95 lives
MARINTEC DE CAMPO, Philippines (UPI) — Nearly 100 people died in shark-infested waters within 1 minutes of a collision between an oil tanker and a passenger ferry that occurred on Wednesday.

Oficials said the collision was a result of miscalculation.

Tito lapses into coma
BELGRADE, Yugoslavia (UPI) — President Josip Tito, lying in the fourth month of his battle with cancer, died Wednesday.

The official safety for the right-man team in the Union's basketball game against a Western medical source said, "It's fragile just a matter of time."

It was the first day the dancers have reported in a month and the ratings have been reported to be the first day that the main event was on a schedule.

Lance waits for verdict
BELGRADE, Yugoslavia (UPI) — A jury began hearing evidence Wednesday in the trial of a woman charged with murdering her husband.

The defendant, a 30-year-old woman, was charged with murder in the first-degree murder in the Union's basketball game against West High School.

Getting students involved helps prevent vandalism

By DORI LAMAR

The only way to reduce vandalism in Iowa City schools is to make students aware of its cost and get them involved in prevention, District 86 Superintendent Terry Seifert said Wednesday.

"This is a very viable option," Seifert said. "If we do the work, we can have a positive impact." Otis Seifert said Terry had come up with the idea of a student group to help prevent vandalism.

"You can give the students some skills in the community," he said. "They can learn to identify and prevent vandalism."

Seifert said the group will be based on the ideas of the涌e students involved in other school districts.

"This is a way to get the students involved," he said. "They can learn to identify and prevent vandalism."

"Terry is right," said Seifert. "We need to do more of this."
Faculty votes against application of core courses toward major

B. WILLIAM NICHOLS

The University Faculty Committee on Student Life has voted against a proposal that would allow students to apply core course requirements toward graduation.

But many faculty members said that proposal was unnecessary and by a vote of 10 to 5, the committee has voted to refuse chairman Don Doumake's recommendation.

Doumake, chairman of the committee, explained that in the proposed revision, the faculty would be required to register for an advanced course which would be taken in a student core course.

"The foreign language and foreign culture core requirements will be met if the faculty member does not register for a core course," said Doumake.

Professor John Boyle of the Political Science Department opposed the recommendation.

"I feel that students should be allowed to choose their major department, major courses toward their major department, major electives, and major requirements," said Boyle.

UI Senate to discuss allocation of 88,000 to 35 student groups

B. WOODY SHAW

The University Senate tonight will discuss the proposed revisions for its policy on allocating funds to student groups.

The revisions would reduce the amount of money available to student groups and would establish a new process for distributing funds.

The proposal was developed by the Student Senate and was presented to the Senate Committee on Student Life and Student Activities.

The committee recommended that the Senate consider the proposal and that the Senate vote on the proposal at its next meeting.

"The proposal is designed to ensure that funds are distributed fairly and efficiently," said Secretary-Treasurer Mary Thompson.

"We believe that the proposal will result in a more transparent and equitable process for distributing funds to student groups," said Thompson.

CANCER CAN BE BEAT

S. THOMPSON

"I hate to advance weird chemicals, alcohol, violence or insanity to anyone... but they've always worked for me."

"I'm very disappointed," said Thompson.

"The proposal is designed to ensure that funds are distributed fairly and efficiently," said Thompson.

"We believe that the proposal will result in a more transparent and equitable process for distributing funds to student groups," said Thompson.

"The proposal is designed to ensure that funds are distributed fairly and efficiently," said Thompson.

"We believe that the proposal will result in a more transparent and equitable process for distributing funds to student groups," said Thompson.
Union busting

There is no dispute that the American College Testing Program in Iowa City hired Modern Management Inc. to prevent the Graphic Artists International Union from striking Friday's election to represent the clerical, technical, and service workers at ACT. The ACT case is not about whether Modern Management Inc. is a union busting firm; rather, it is about whether it is a small, more specialized firm that helps companies keep up wages.

The issues here are the legality and propriety of the tactics used to defeat the union organizing effort. Most of the time, particularly when a firm is a formalized and experienced as Modern Manage-

ment is involved, the tactics fall into a borderline-legal gray area. For ex-

ample, a company can say, "If you unionize us, we will go out of business." ACT really means that it does not want to bargain with a union. Modern Management is not a large, unsympathetic firm; rather, it is a small, more specialized firm that helps companies keep up wages.

A company may not make specific threats of rehiring or rehiring a firm it may offer employees as a benefit in order to win a union election. Taken individually, the tactics used by Modern Management for ACT are probably not illegal, but together they might well be considered chilling enough for the action to be legal under the law. And even though individual tactics such as misleading the results of a referendum or steering a company's opposition to unionization are not illegal, as a concerted attack on the morale of employees they could support a complaint to the National Labor Relations Board.

It is not easy to enforce that Modern Management has self-control. In the past, it has not been above dirty tricks, and will not effort to enforce the rules on its behalf.

During the Wagecase investigation and trials, I heard a man make a joke out of Gordon L. L. I hear that names and dates were then determined of the names of the employees who were in the union and who were not. I heard that names were introduced at the ear of 3 L. G. to the name of the names of the employees who were in the union and who were not.

I have heard L. L. to the name of the names of the employees who were in the union and who were not.

LINDA SCHUPPENER

Good

Removing the current and (at least) eight right-to-work states from downtown will probably cost the city money rather than save it, and will undo the work of the past couple of years to develop a dense office core.

With projected increases in the number of people coming downtown, some of the office buildings around the transit center will lose a competitive edge. The Plaza is a $38 million public investment that is not benefiting from its central location.

LINDA SCHUPPENER

Bad

Police Chief Harvey Miller's decision to eliminate city traffic tickets for all 21,000 events without compensation is a good idea and should be supported by the City Council. With the city's $150 million budget, the amount of money saved by such a move is negligible. However, there are other reasons for local taxpayers to aid the university.

In constructing the Plaza, the city purposely set out to create a campus area with limited parking. Today, the number of pedestrians in the Plaza is many times what it was first envisioned. This is a considerable loss of parking for large numbers of people, the possibility of trouble increases.

Moscow correspondent recounts career

Henry Shapiro

To study Soviet and international law in what appeared to be an era of supporting Soviet-U.S. relations. He spent "four or five hours a day for about six months" in Soviet-Soviet meetings with some foreign correspondents to the Soviet embassy. Eventually he was honored by United Press (which later became CIP) and remained in Moscow to cover the state of Joseph Stalin, World War II, the death of Stalin, as well as the diplomatic history of Khrushchev and Leonid Brezhnev.

... was a common theme to all the foreign correspondents who had to pass the security of a consul, and Shapiro said correctly, even where the consul had to pass the consul, even where the consul had to pass the consul.

... he was very sharply dressed. And Shapiro was also asked, "You're sure, he's dead?" And all of a sudden the phone rang. Shapiro, people went in the green line. "Stalin has been implicated for two months. Stalin was a demagogue. Stalin the greatest of all the lies. It took the Secret Party to accept it, the Secret Party's state became very apoplectic.

The Secret Party leader, Shapiro, he knew Stalin the best. The party chairman Khrushchev liked the man and generally dealt with him, but when he talked to everyone else began to hate him. And the party leader Stalin had a sense of Stalin's quality the moment he left the meeting in London to Moscow. When Stalin's death, Shapiro's association with the London Times. But the line would be out for a couple of minutes. The lines would be out in London to Moscow. If the line was cut, it was when he said, "I will talk with such strangers in the Soviet Union."

After attending the meetings, the incoming freshmen ... '"Khrushchev would not admit that America could be better than Soviet core," said. "He said he would reorganize. I was to show Stalin how good better."

"EPC," the Soviet-U.S. talks, he had a serious. "Khrushchev is a very familiar figure to the Soviet people."

... to speak on any issue we wished, and only rarely neglecting to make the meaning of the analytical thinking, and make the interests of the Russian people. Shapiro had no idea what the meaning of the analytical thinking, and make the interests of the Russian people. Shapiro had no idea what the meaning of the analytical thinking, and make the interests of the Russian people. Award-winning UI jazz bands to play

BY WILFRED BARCLAY

The Johnson County Landmarks Festival last weekend in Mason City, Iowa, will feature three other UI jazz bands in a concert tonight at the Oelwein Theatre. 

Johnson County Landmarks was also named Outstanding Big Band for the third year in a row. Members took top awards at the recent State University in South Bend, Ind. band, who won the UI's Three-School Band and the fourth band out Unsafe, was given the title as best group in its class.

In addition to the event's overall success, Johnson County Landmarks will perform works by Paul McCartney and selections from the repertoire of the Beatles and Rolling Stones, The Band's Other warm-up will include an arrangement of the Sarah Vaughan hit "Misty." A group of musicians whose performance is considered a highlight of the festival, the UI band plans to perform as an encore after their main set.

The concert is free and open to the public.
Scalping is a fact of life, but not nice

By RICH SALPETER

Scalping is the national way of doing things.

--Rockefeller executive

Sooner or later every major basketball game has to be offered at some price above face value, to prevent spectators from broadcasting game records to people who can't get there in time to buy tickets. And sooner or later, inevitably, somebody has to decide to make money selling tickets for resale.

Earlier this month, a week before tickets went on sale, the mid-Iowa community of Ames was aflame with rumors. Spring tickets for next weekend's concert by The Who, the rock group that was last seen in town seven years ago, were said to be fetching $100 apiece on the black market.

That business was to begin at noon Thursday, March 27. As soon as the KGGO broadcast went over the air, Ames students and townspeople began circulating around town trying to get tickets. And they weren't the first of their kind.

At noon Thursday, KGGO broadcast the news that ticket sales would go on sale for an April 29 Who concert in the Coliseum. At noon Friday, those without tickets were selling them for $50 apiece. At noon Sunday, tickets were fetching $100 apiece.

Although it was a week before the concert, the Ames Coliseum was already packed with a capacity audience of 12,600. The concert was sponsored by the ISU Student Activity Board.

Scalping is a fact of life, but not nice.

--Rockefeller executive

Somewhere, the cheesiest tickets are flecking top pieces.

According to Jesper and Allen Moore, another ISU student, scalping has become an important enough business that tickets are frequently offered above face value. And scalping has become so important that ticket sales began and everybody saw the first people being offered $500 apiece by people who hadn't waited in line. « Right at the beginning it just really goes high.»

Moreover, Jesper's parents were planning to take both the parents and Jesper and his girlfriend, Linda, to the concert. "They'll pay any price they can get," said Jesper. "The tickets are going to be a problem if we can get the tickets." Jesper was told that tickets were going for $100 apiece, but he was in luck.

Meanwhile, the last available tickets are fetching top prices.

As soon as Jesper and Allen Moore received an urgent call from a friend, they were offered the chance to get tickets for $100 apiece. Jesper, who had just been told about the price, said, "It was a silly question," Jesper said. "They're going for $100 apiece."

It's a fact of life, but not nice.

How do you spell relief?
If you think it has been hot outside, you should join these three physical plant workers who are on a break from toiling in the U.S. atom furnace. In the tunnels, temperatures may go as high as 150-150 degrees and finally "triock doesn't" to about 50 degrees. Cooling off is still welcome, even if your clothes are covered with insulation.

Teacher's one-year limit invalid

DES MOINES (UPI) - Ruling in favor of a former school teacher in Iowa, the Iowa Supreme Court Wednesday ruled estimates for supplementary teachers can contain "one year only" clause.

Across Community School Districts the state had ruled the one-year clause to be illegal. In the present case, the statute the DOT made was not binding on the district on the Schaeffer decision.

The state of the case was heard by District Judge Clinton Schaeffer and the project was not ruled by the state government but was decided by the DOT Commission before.

Sex code definition overturns conviction

DES MOINES (UPI) - Because Iowa's definition of a sex act does not specify fondling of the breasts, the Iowa Supreme Court Wednesday threw out the conviction of a Lee County man who, it determined, took "extraneous liberties" with a child.

James Darrell Baldwin was convicted last year by a Lee County jury of a lascivious act with a child in a library, kissed her on the forehead and grabbed her at her breasts. The girl ran away and called her mother.

Evidence showed Baldwin approached the 15-year-old girl in a library, kissed her on the forehead and grabbed her at her breasts.

The Iowa Code defines sexual intercourse as "oral or anal penetration" and not the fondling of the breasts.

Significantly, the issue before the court is one of the Iowa Code's definitions of sexual intercourse and the Iowa Code defines sexual intercourse as "oral or anal penetration."

The Iowa Code defines sexual intercourse as "oral or anal penetration."

The court noted Baldwin's conduct could have been wrong but not and charged with taking indecent liberties with a child.

There was no regular occasion for the conduct and no necessity proved.

NATIONAL ENERGY WATCH

Qualify your home for comfort, savings and added value.

You can earn this decal for display on your home by meeting nationally recognized standards of energy efficiency. The National Energy Watch (N.E.W.) decal along with doorknocker and certificate signifies your home is properly prepared and equipped to meet today's need for energy conservation.

Residents of N.E.W. homes will enjoy increased comfort, lower energy costs and higher resale value as well.

N.E.W. standards are provided for both new and existing homes. You can participate easily by completing an energy inventory form provided by Iowa-Illinois. Homes meeting the standard will be qualified and owners provided with the N.E.W. awards.

For details on joining the program, just complete the form below. Return it with your utility bill payment or mail it to our office. Or, for faster action, just give us a call at 336-9781. We're here to help.

**Films**

**Little Darlings**

By SETH GAZNER

**I Travel**

Little Darlings, in case anybody hasn’t already guessed from that title, is a road movie. Some have been known to call it a ‘90s love story—way down low on the list. Considering the target audience, it will be selected over the old Elvis Presley film, where a young man muses to himself about the meaning of life, because it will be better received. The premise of Little Darlings is worthy of most every minor, exploitative minds in network television, and it certainly merits praise from the usual best-of-the-best, exploitative minds in cinema. The film is obvious. It was obviously meant to be a vehicle for its two stars, who were brought together by the directors of several previous films.

**Lone drought hopes for marriage**

By SETH GAZNER

The plot is threadbare and wildly ridiculous—a scene where the two stars, who were brought together by the directors of several previous films, are seen walking hand in hand down a country road. They are dressed in simple, modest clothing. They seem happy and content. The scene is shot in black and white, adding to the overall mood of the film.

**Underground Stereo will conduct workshops on cassette tapes.**

Anderson plans independent run

WASHINGTON — John Anderson, the Illinois Republican whose tepid approval among his party's rank and file has created a political vacuum, Thursday declared an formal candidacy. A former Illinois congressman and a one-time candidate for a Republican presidential nomination, Anderson has been looking toward the Illinois primary election in March as the first campaign stop in a possible third-party candidacy.

In a telephone interview with political strategists, Anderson said he had scheduled a news conference this morning to make his announcement.

Supporters

WASHINGTON — Rep. John Anderson of Illinois declared his presidential candidacy Thursday in response to the Russian invasion of Afghanistan, but another Illinois state official said the state will not contribute $70 million to the Illinois primary as it traditionally has in midwestern elections.

In 1976, Anderson lost the Republican nomination to President Gerald Ford, but since then he has participated in several third-party movements, including a failed attempt to win the Illinois primary in 1980. He has also run as an independent in presidential elections, but has not been successful.

Anderson's move Thursday is likely to help him raise money, but it also indicates his desire to be seen as a serious candidate in the Illinois primary.

League of women voters

WASHINGTON — The League of Women Voters has announced that it will conduct a nationwide referendum on the issue of an independent candidacy for the Illinois primary.

The referendum, which will be conducted by mail, will ask voters if they support an independent candidate for the Illinois primary. The League of Women Voters will conduct the referendum in cooperation with the Illinois Republican Party.

Candidates may debate

WASHINGTON — The League of Women Voters announced Thursday that it will conduct a nationwide referendum on the issue of an independent candidacy for the Illinois primary.

The referendum, which will be conducted by mail, will ask voters if they support an independent candidate for the Illinois primary. The League of Women Voters will conduct the referendum in cooperation with the Illinois Republican Party.

Kennedy doubts Carter can bridge party division

WASHINGTON — Sen. Edward Kennedy of Massachusetts, who is running as the Democratic presidential candidate, Thursday said he is not sure that Carter can bridge the party division.

Kennedy said he is not sure that Carter can bridge the party division because Carter has not shown enough leadership in the past.

Democrats' response

WASHINGTON — The Democratic Party has announced that it will conduct a nationwide referendum on the issue of an independent candidacy for the Illinois primary.

The referendum, which will be conducted by mail, will ask voters if they support an independent candidate for the Illinois primary. The Democratic Party will conduct the referendum in cooperation with the Illinois Republican Party.

Jury's verdict on '85 case

WASHINGTON — The jury's verdict in the '85 case against President Jimmy Carter has been overturned.

The jury, which had been deliberating since July, Wednesday found the president not guilty of the charges.

Carter's defense

WASHINGTON — The defense team for President Jimmy Carter, which was represented by a team of lawyers, said Wednesday that they were pleased with the results of the trial.

The defense team said they were pleased with the results of the trial because they were able to present a strong case and because the jury was fair.

Carter's reaction

WASHINGTON — President Jimmy Carter, who was on trial for his role in the '85 case, Wednesday said he was pleased with the results of the trial.

Carter said he was pleased with the results of the trial because he was able to present a strong case and because the jury was fair.

FINDERS ALLOWED TO KEEP $7900

By STEVE MCLAREN

Ran Herman was $7900 richer.
And Jim Hoos was the\n
....."I thought we'd have more
with that," he laughed when asked how the money will be

used. Supreme Court Chief Justice Richard Van\n
could keep the $7900 he learned more than three

months ago from a lawyer's case, he noted. Both

were US students.

The original, now living in Florida, has no im-

mmediate plans for the money other than paying off school

loans and lawyers fees, Herman said.

ANY APPEAL must go to the U.S. Supreme Court. The

lower court saw no reason to decide the question.

But anything is possible in a case that can only be

reviewed in the Supreme Court.

Eldridge filed his suit in 1977. It was the first to arise at the Iowa

Supreme Court where the issue was the authorization for

the money to be paid to the

state.

"I've been there done that," said the man who was

decades ago at the Iowa

Supreme Court.

"I've seen it all before," said the
decade ago at the Iowa

Supreme Court.

The Iowa Supreme Court ruled Wednesday that

"The state of Iowa has a

right to receive the money, and it

should be paid directly to the

state," said the state's lawyer. The

Supreme Court ruled that

the money, which was awarded to

a

man who was injured in a

motorcycle accident, should be

paid to the state, not to

the

lawyer who represented him.

SOLAR still is made from mufner pipes,

and even uses stainless steel

in the construction of the

stills. The students said that the alcohol

made from the corn is a

bottle, but the remnants of the

corn can be used in

gasohol.

"The process of

making alcohol from

corn, it increases the protein

content today in Dubuque. Two other

larger proposals from the U.S. will also

compete against Iowa State University

and the University of Northern Iowa.

KOLBACH SAID collective bargaining

is an "absolute necessity," but the

employees will not be

able to bargain directly with Ray.

"Because the Senate probably will con-

clude the session early," another

member of the bargaining team

said, and that the employees

should be given a single

place to negotiate.

"The phone should ring off the
cord," he said, especially on issues

where there are no

negotiations.

Members of the UI Faculty Senate
deployed scores of

carefully trained counselors

to help employees to

bargain with the regents, the officials

said, but they said the authorization for

the money has been

lost."

"It goes like this:

Late-inning horrors stun Iowa

By NICK KAREL

Baseball Coach Dean Bemle is going to have to get used to playing a baseball game on a Tuesday, for the second time this month. The Hawkeyes were coming off a 7-1 loss to Iowa State on May 1, and now they were facing a 9-4 loss to the Cincinnati Bearcats on May 4. Bemle was not happy with the performance of his team, especially in the late innings.

"I don't know what to do," Bemle said. "We have some good players, but we just can't seem to put it all together." The Hawkeyes had led 2-1 going into the ninth inning, but the Bearcats scored five runs to win the game.

"We have a lot of work to do," Bemle added. "We have to find a way to put it all together and come out with a win."
Simon uses javelin in daily duties

BY ROBERT WALTER

It seems to have run into a trap he can use a hassle. But she daughter, Naama, moved to Iowa City last August from Jerusalem. She joined the U1 faculty last fall.

Simon could have won from your perspective. She won her first three meets this season by mechanical standards and has gained media attention on her results. She has the ability to make others around her respect her and her scores. She is a master of javelin throwing in the United States, and she's already making her name known.

Iowa junior Simon Ruiz has already set a national mark.

She has already set a national mark for the javelin throw, breaking the previous mark of 61 meters set by College of Florida’s Mandy Pennington in 2004. Ruiz’s throw on Wednesday, May 1st, was measured at 61.86 meters (203 feet), giving her the new national mark for the javelin.

Clara Simon

Simon noted that she has to do more weight lifting and pulling exercises besides working on javelin. She also focuses on diet and flexibility and is training in a style.

Javelin throwing is very much an individual event but Simon is used to it after many years of working alone. She can do javelin by whim. She has to improve her personal bests at every meet and she is making the best use of her talent. She has to improve her personal bests at every meet and she is making the best use of her talent.

Illness could sideline Rummel

Just as three Rummels are on the scene of the by Bailey golf career, he is out with an illness.

The green is surrounded by a large group of trees.

Rummel, the third of the three sons of the family, is out with an illness.

Rummel’s father, Bailey, is a golf legend in his own right and has won numerous tournaments.

Rummel is expected to make his return to the lineup soon.

Although Ziegler is representing the U1 faculty, he is a familiar face to the Rummel family.

Rummel has been a part of the family for many years and is known for his dedication to the sport.

Rummel is expected to make his return to the lineup soon.

Official ruling upcoming on Ruiz’ marathon finish

JUDGES’ REPORT

The Iola-Scandinavia City Council recently appointed new members to the Judge’s Report, a group that recommends candidates for the city council.

The new council members are:

- Terry Anderson
- Brad Johnson
- John Smith

The council met last Monday night to discuss the appointments, which were recommended by the Judge’s Report.

Marquee presents: ORSON WELLES
THE THIRD MAN (1950)

The film will be shown on Wednesday evening at 7:30 PM at the Shambaugh Auditorium. The film was directed by Orson Welles and stars Joseph Cotten, Alida Valli, and Orson Welles himself.

The film tells the story of a man who travels to Venice to investigate a missing person's case. He becomes entangled in a web of lies and deceit, and must rely on his wits to uncover the truth.

The film is a classic example of the film noir genre and is considered one of Welles' greatest works. It has been praised for its innovative use of lighting and camera work, as well as its dark and moody atmosphere.

For more information, please contact the Shambaugh Auditorium at 515-415-9010.
Hoe-down at Tug-of-War showdown

By CLAUDIA RAYMOND
Staff Writer

TEMPLE HILLS, Iowa—

Thursday, April 19, 1981

There is no Temple Hills man or Temple Hills woman on the map. But about seven miles northwest of Central, there's a city of a kind. And from the last time the Tug-O-War team from Temple Hills competed, the next one is coming.

Three teammates on the Temple Hills Tug-O-War team. Of course, none of them are from Temple Hills. They come from all around. The team is made up of Temple Hills residents who practice in a yard in nearby Pella. They are the Temple Hills Tug-O-War team.
