Temp housing is now permanent

By Thomas Brown

Some of the 400 students still living in temporary living quarters on the Iowa State University campus were in shock yesterday when they learned that they would have to remain there for the rest of the semester, said George Dolley, acting director of Residence Services.

The students, who have been living in temporary rooms since the end of the fall semester, had been told that they would be able to move into their new dormitories in early December.

Students were not being housed in temporary rooms because dormitory space had been opened for other students who had moved to on-campus apartments.

The temporary rooms were filled with dormitory furnishings and were designed to provide temporary living quarters for students who had no other options.

Members of the Residence Services staff met yesterday to tell the students that they would have to remain in the temporary rooms until new dormitories are ready.

The students were told that they would have to remain in the temporary rooms until the end of the semester, and that they would be able to move into their new dormitories in early January.

The students were not happy with the news, and said that they would have to continue to live in the temporary rooms until the end of the semester.

Economically bad times forcing change in shape, and one change that Iowa State University has made for the past four years is the elimination of the residence hall and the installation of dormitory-style rooms.

In the past, Iowa State University students who lived in dormitories were housed in residence halls.

One of the reasons for the change was the elimination of dormitory-style rooms.

The new dormitory-style rooms are designed to provide a more comfortable and convenient living environment for students.

In addition, the new dormitory-style rooms are designed to provide a more flexible living environment for students.

Consumers are eating out less; decline hurts restaurants’ profits

Hotel-motel tax fills gap in city revenues

Iowa City and Coralville have been reluctant to adopt the state hotel-motel tax authorized by the Iowa Legislature in 1979 as a local revenue source. It will help to keep costs down in other Iowa cities, however, it has proved that it is an effective way to keep pace with city needs in this changing world.

Fourteen cities and one county have adopted the "pillar tax," which allows local governments to place up to a 1 percent tax on the gross receipt of hotel and motel rooms. Most cities have opted for a 1 percent rate. The most appealing aspect of the tax is that it draws funding from visitors to improve local services.

In Cedar Rapids, the tax is a more efficient way to pay for city services, and it helps to promote growth of the city. It consumes the size of Iowa City, most of the proceeds go to pay for the cost of services and maintenance.

With their tight budgets, Iowa City and Coralville cannot afford to lose potential revenue. The tax would provide a significant source of revenue and it is the only way to cover operating costs from the new Iowa City Public Library. Coralville officials are opposed to the tax. The city is being carried with an amendment, through a special tax on the hotel and motel room fees, which is the gradual elimination of the hotel revenue.

In the cities that have imposed the tax, however, adverse reaction from hotel owners has been minimal. The clear benefits of the tax have been striking. Hotel owners have been convinced that the tax will help improve the hotel industry and attract new guests to their cities.

In Iowa City and Coralville, the tax has helped improve the hotel and motel industry. The clear benefits of the tax have been striking. Hotel owners have been convinced that the tax will help improve the hotel industry and attract new guests to their cities.

Letters

Student socializing

The article by Diane Mehlman on student facilities in the Iowa City Library should be praised. The article clearly suggests that there is an urgent need to improve the social facilities in the library. The social facilities should include places where students can meet and discuss their studies.

The real significance of this relatively new social space is to improve the lack of public amenities or community spaces at the University of Iowa. This lack of public amenities is reflected in the terminology used, such as "library." The quality of these public amenities or community spaces should be improved, and the terminology should be changed to reflect this.

Nancy Waterman

A Barstool, a cocktail, a dialogue, a goodbye

It was 11:20 when she walked into the bar. It was 11:00 in Iowa. Butchers had a late lunch.

She didn't drink much. She had to read her lines first. She had to read them over her shoulder, one sentence at a time. She had to read them loudly. She had to read them over her shoulder, one sentence at a time. She had to read them loudly. She had to read them over her shoulder, one sentence at a time. She had to read them loudly. She had to read them over her shoulder, one sentence at a time. She had to read them loudly. She had to read them over her shoulder, one sentence at a time. She had to read them loudly.

Reader response: competence of U.S. foreign policy makers

In the United States, the U.S. foreign policy makers often seem to be at odds with themselves. This is especially true when it comes to the Middle East. The United States has been involved in the Middle East for many years, and the issue of U.S. foreign policy in the region is often controversial.

On one hand, there are those who believe that the United States should be very active in the Middle East. They argue that the United States should use its military might to protect its interests in the region. On the other hand, there are those who believe that the United States should take a more passive role in the Middle East. They argue that the United States should let the nations of the Middle East solve their own problems.

I believe that the United States should take a more active role in the Middle East. The United States has the military might to protect its interests in the region, and it should use this military might to protect its interests. However, the United States should also be careful not to involve itself too deeply in the Middle East. The United States should let the nations of the Middle East solve their own problems, but it should be ready to use its military might if necessary to protect its interests.

Minnesota doctor links bacteria to TSS, Rely not sole culprit

By Craig Dermansky

One of four girls who helped create a cookie jar. Their statements are as follows: "Alcohol is the problem."

The committee was divided on the issue. Most members said that the problem was not with the girls, but with the administration.

MEMBERS OF the winning team rest on a stool, person on left who turned around to send "Get it!". It seemed to be a victorious moment for the girls, who were smiling and laughing.

"I think this is likely to be a very controversial topic, the image was in a news story."

The cookie jar was made from a special type of plastic, which was not tested for safety. The members agreed that the issue needed further investigation.

We give pre-priced items the works.

DISCOUNT TAKES THE CHANCE OUT OF SAVING!

When you do not use the price you can get. It is a deal you cannot refuse. The discount is available for all items, but only while supplies last.

"You need to be aware of the dangers involved in using tampons, the risk of getting toxic shock syndrome by constantly using tampons, "Osterholm said.

UI alum program to aid students with career choice, resume writing
By Tim Rehman

The UI Alumni Association is beginning a new program to help UI graduates find a career by putting them in contact with local UI alumni who have volunteered to serve as mentors for former students.

UI students will now be able to come in contact with local UI alumni through the Career Information Network, a new program spearheaded by the UI Student Alumni Association.

The network, initiated by UI President Edward H. F. Clapp, will help UI alumni and students to communicate with each other to share their experiences and increase the network of people available for them, Harper said.

"We're asking our alumni to help us help UI students," Harper said.

"We've had many requests from UI students to give them advice about getting a job," Peters said. "We've found that the best way to help is to have alumni help alumni.

All four different services are offered by the network, such as the Career Advice, Employment and Placement Service, Business Placement Service, and the Resumes and Letters service.

"No one is allowed to put things under the table that are against the law or that violate any university regulations," Harper said.

"We will try not to put material under the table that is not appropriate," Harper said.

"We will try not to put material under the table that is not suitable," Harper said.

"We will try not to put material under the table that is not useful," Harper said.

"We will try not to put material under the table that is not helpful," Harper said.

"We will try not to put material under the table that is not informative," Harper said.

Iowa City, Iowa

October 13, 1980

Madison, Wis. and Berger King, have checked up sales increases, although not as much as their competitors had expected. High food operators have benefited from these gains in sales.

"The cost of the fast-food industry has gone up and maybe the downturn in the restaurant business.

"The cost of doing business in general," Mr. O'Brian said, "is going up. As we're looking at the times, we're going to have to look at our costs in the future. We're going to have to do our work more closely."
**Close Encounters remake:** only soft-core SF

By Judith Green

The following review is presented as a public service, in case you're unfamiliar with the 1977 film "Close Encounters of the Third Kind." The review was written by a Staff Writer to provide insight into the remake's potential appeal to fans of the original. It is recommended for those interested in science fiction and film history.

**Bowie's latest album** — old 'New Wave'

By T. Johnson

With New Wave taking hold of the music industry and new musicians appearing across the country, Los Angeles almost entirely to remodel deeply rooted musical genres. This trend has led to Bowie's success, where he is considered one of the innovators of the New Wave genre.

**Films**

If you're a fan of noir, you've likely heard of "The Big Red One." This film, directed by John Farrow, was released in 1951 and stars Richard Widmark as Private Schiltly, a World War II veteran who sees action in North Africa in 1942. The film is a critical analysis of the horrors of war and its effects on soldiers.

**Theatre**

Theatre is a form of art that has been popular throughout history. It involves performances by actors on a stage, with a script written for the audience to follow. The theatre industry is known for its creativity and innovation, with many talented individuals contributing to its success.

**Arts and entertainment**

Arts and entertainment refers to a wide range of activities and media that involve creative expression and enjoyment. This includes cinema, theatre, music, literature, visual arts, and more. It is a significant aspect of modern society and is valued for its ability to inspire and entertain.

Pick up registration forms at the Student Activities Center, 1st Floor, 11AM - 3PM, registration deadline: Oct. 8th

**FURTHER INFORMATION CONFERENCES**

The Homecoming Banner Contest is a great opportunity for students to show their school spirit and creativity. It is open to all students and groups, and prizes will be awarded to the winners.
Playwrights get British advice

From left Penny Cheung and Doug Lucy. British playwrights is a residency program with University Theatre. Read through a script with their students. Lucy is not quite 25, which makes him younger than many of the aspiring playwrights in things of kinds. I like pieces that are accessible and williii-in communicative.

About Lucy's plays. Cheung says modestly, "Doug, a young writer can's be too perfect." How far, has been published, he explained wryly. "Until I learn the habit of writing plays with set and fixed characters, I'm personally free-lance.

Lucie has always thought in a somber-based theater program, and that has had at least some of their representations. "The students have very little time, and that is a great way of helping them see their training as a lot of hard work. What I've found is that we've learned a lot from the visit to basic work technique and warms-up.

Cheung and Lucy not only teach their separate classes, but they also teach together creating a true department of theater. Actors and writers must respect each other.

Profile

We are interested in working together in order to build bridges between the two programs at the UK — creating a true department of theater... Actors and writers must respect each other.

Cheung, a director and "very busy lad," first met Lucy when she directed a post-Edward production of T.S. Eliot's "The Spanish Inn" in Ireland. Both wrote their first plays in their early teens. While at the University of Iowa, Lucy and Sheila Rinehart. One of her recent productions is "Lettres From Home," a play by Rosa Leonard (London) based on the writings of Friths "I've done things in different areas of the house in the house," she said. "I've been very fortunate in being a part of this kind of theater - the divided in the University of Iowa, CICEREY's driving work has been about equally divided between student repertories, including a few numbers of musicals and non-musicals. A person for the "university theater," Lucy explained, is the kind of base — in other words, a person to have the stress. Lucy was very much in demand, and she was very much in line. It made me to have to spend time warm-ups."
Pomero's Daily Iowan carried the IT- terminal departures version of the major news services' top story—"6-Flag football players in the news, women's, and coal district. Despite the lack of national attention, these players have made several contributions and taken advantage of opportunities. Pomero, one of the leading players, has also been in the news recently. More than 3000 concepts are the three divisions and most have played only five games or so far. This is many feared and we hope to get in the picking a job. Warmly Blessed, director of MIA, is impressed with Pomero's performance. Pomero said he made last year's strong team and also how well they are playing this season. Getting information from officials and field experiences, Pomero examines this feedback.

Dan Pomecny

along with new market, reputation, and competition strength.

SUNOCO VIEWERS view's many himself, professional and watching the work of the Fort Department's graduate assistants. "It is really interesting how the teams are scored on ties. It is a strength against different league and them. Nancy Fraga, director of women's and even with a regular and we're ranking this their rankings. "I look at the point spread and at the strengths and performances of teams from previous years," Fraga said. "The bottom part of the tie-in is the teams in the other conferences and they're hard to determine." With SUNOCO MANAGERS for television and radio. Century time and Des Moines time, in the team and conference, improved significantly. We're often overrated, we need to focus on the ranking and best they're a lot of fun," Della said. Chief Pilot, manager of the N-I-D Iowment in the women's division, agreed with those comments. "It's a lot harder to judge the relative David Simbu manages the top-ranked football team for the University of Iowa, which players have not played flag football before and this type of publicity helps us to stimulate their interest.

Jeff Wente, of the No. 1 Iowan team at Kirkus Melvyn, said: "It's nice to see us. I love the goal of a real challenge for our team. The rankings are good because we know who is playing and doing well. Unlike its intercollegiate counterpart, the 10 teams do not determine the four chances. The playoff system takes care of that. So, even without a new field or situation, if the polls are correctly thought out and well received by the 10 participating teams.

Lary

LARY MIKI, share field hockey. "It would have been hard to knock others out at a Division 2 level," she said. "Instead, I wanted to be out all field hockey when we get out and put. I have more experience to draw from."

Hawks work on 'little mistakes'

Irish Head Coach, Fred Fry called Monday's practice a "great workout." He said the Hawks were working on the little mistakes that make a team a "guider," referring to the team's 2-1 record at State Saturday.

For a quarter, Crazy Boulton's Phil Bone has been given more minutes in the perimeter. Bone, who was slated to start against Arkansas- Saturday, another quarter, Crazy Boulton's Bone has been given more minutes in the perimeter. Bone, who was slated to start against Arkansas, said, "It's tough to get in a rhythm when you're on the bench."

"It's a great opportunity for us to compete," he said. "We have a lot of skilled players on this team."

Wilson practices while court decides

CHICAGO (AP) — An Illinois Supreme Court panel Tuesday refused the immediate release of University of Chicago quarterback Dan Wilson.

An appeals court earlier had ruled Wilson could remain free until a full hearing is held next month, which has been delayed until the university sports season. Wilson is a suspect when Justice William Clark agreed to hear a request by the university to suspend and deny eligibility for the game. Wilson is a suspect when Justice William Clark agreed to hear a request by the university to suspend and deny eligibility for the game.

Sports briefs

Rose Bowl ticket deadline

Those wishing to enter the drawing for tickets to the Rose Bowl Game have three weeks to which to order. All entries must be postmarked on or before Oct. 15.

To enter, write your name and address on a postcard and mail it to: Rose Bowl Ticket Drawing, P.O. Box 3333, Pasadena, Calif. 91107. Entry forms are limited on a first-come, first-served basis.

This is the only public sale of tickets for the Rose Bowl, and the entries will be drawn at random. The names of all aequired individuals will be listed in the Rose Bowl program. The drawing is sponsored by the Pasadena Tournament of Roses Association.

Intramural managers to meet

There will be an intramural manager's meeting at 1 p.m. Thursday in Room 306, the Field House.

The Iowa Daily

"The strong will survive" is an old saying that is often quoted in sports. It implies that the team that is strongest will emerge victorious. However, in the world of sports, strength can be measured in different ways. Physical strength, tactical strength, and mental strength are all factors that can contribute to a team's success. For example, a basketball team might have great physical strength due to their height and athleticism, but their tactical strength could be lacking if they struggle to execute the plays they know. Mental strength, on the other hand, refers to a team's ability to handle pressure and perform well under difficult circumstances. It's a combination of these strengths that ultimately determines a team's success. So, the next time you hear someone quoting "the strong will survive," remember that it's not just about physical strength—it's about the whole package. **Virgin Ward: Move over**

**Top basketball recruit to Iowa**

Iowa athletic officials said Tuesday Mike Payne of Philadelphia, Ill., announced his intention to enroll in Iowa in 1981 and has committed further basketball scholarship. The 6-5, 225-pound Payne, who is ranked 11th in the nation by that report, is a consensus top five recruit. Payne, who is expected to receive an official national letter of intent by next month, is the top recruit in the past five seasons and is considered a serious contender for the 1981-82 season. **Top basketball recruit to Iowa**
