Reagan hints he’ll reduce taxes first

By Donald H. May

WASHINGTON (UPI) - While avoiding a direct commitment, President Reagan Thursday righted strongly re¬
scaled tax cuts might come.

"Over the past decade," he said, "the national recession followed "the greatest fiscal policy in the history of the world," the largest tax cut on record.

"But that was always an idea that couldn’t be cut until spending was reduced. Well, we don’t believe in that pattern of running a deficit and then saying we can cut some next year but not the one after that.

That appeared to be another way of saying no new things grows.

This tax cut is one of the government’s major goals of the Reagan administration’s legislative and the executive branch to lower the tax burden.

THE IRS (prevailing the advice Treasury Secretary Donald T. Regan) said the proposed tax cut, totaling about $100 billion over the next several years, would be part of the "estimated 1981 surplus of government revenues over expenditures.

Federal Reserve Chairman Paul Volcker said Congress might be able to get the opening rate cuts the Treasury proposed, but not the proposed budget cuts.

The hard part — the specific cuts in spending — will have to wait for Reagan’s State of the Union speech to a joint meeting of Congress, Feb. 18.

Not necessarily true in the case of Iowa City schools, however, according to Ray Hadley, a high school principal in the district.

"I don’t think that’s true," he said. "I think they’re not spending enough money on education, but they’re not spending enough money to provide the kind of education that Iowa City needs to provide."

48% of 200 loyal Budweiser drinkers also prefer Schlitz

Schlitz' impressive showing against Michelob wasn't the first time loyal beer drinkers picked Schlitz over their brand. Results were similar in earlier tests against number one selling Budweiser.

In a live TV taste test conducted just before the second half of the Oakland/Houston playoff game, 46 out of 100 loyal Bud drinkers preferred Schlitz over their own beer. A week later, 100 more Bud drinkers were tested. This time 50%—exactly half—pulled the switch for Schlitz.

All in all, 48% of the loyal Bud drinkers tested liked Schlitz better. Prior to the test, the panelists had signed affidavits affirming that Budweiser was their beer. Most of them seemed confident that Bud would be their choice in the test. At least 40% left with a new outlook—and some, perhaps, with a new beer.

“It was confident” states Schlitz Chief Frank Sellinger

The results of the taste tests were not unexpected for Schlitz Chief Executive, Frank Sellinger. People thought it was risky to do live TV taste tests in front of millions of people, says Sellinger, but it didn’t take nerve; it just took confidence.

Sellinger, a master brewer for 40 years, has helped brew some of the world’s finest beers. Since joining the company three years ago, he has concentrated on making Schlitz the best premium beer on the market.

“They brought me here to brew the best,” says Sellinger. “And the Schlitz is it.”

It seems quite a few of the Bud, Miller and Michelob drinkers tested agree.

200 Miller drinkers tested: Schlitz is preferred by 37%

In the weeks following the impressive showing against #1 Budweiser, Schlitz went head to head against another leading beer—Miller.

In two taste tests appearing on live television, a total of 200 loyal Miller drinkers were asked to choose between their beer and Schlitz. Again, a significant number of Miller drinkers decided their beer was second best and pulled the switch for Schlitz.

“I was confident”

Panelists who decided their beer was second best and chose Schlitz expressed surprise. Similar reactions have been registered in other taste tests across the country.

“While Miller is better, I preferred it and I wasn’t Miller,” admitted Miller drinker, Albert Gualano. “I’m genuinely surprised,” exclaimed Guy D’Anne. “I thought Bud was better but I’ve been proved wrong.”

Do it yourself—try the “Great American Beer Switch” test

This test requires two identical mugs, a Schlitz and your regular beer, at equal temperatures. Label the mugs “1” and “2” so the taster won’t know which beer is which. Pour the beers to equal heads out of the taster’s sight.

To ensure that the choice is made on taste alone, serve the beer in non-transparent mugs or have the taster close his eyes. Now let the taster sample both of the beers and choose the one that tastes better. Now you taste both beers yourself. Did you pick your regular brand? Or today’s Schlitz?

Loyal Michelob drinkers chose between unlabelled mugs of their Michelob and today’s Schlitz.

50 out of 100 Michelob drinkers pick Schlitz on live Super Bowl TV

100 million fans watched as Schlitz took on Michelob in the finale of “The Great American Beer Switch.” The dramatic test was conducted live during halftime of the Super Bowl game.

The huge audience witnessed 100 loyal Michelob drinkers choose between two unlabelled beers—their own Michelob and today’s Schlitz. The outcome proved a surprise to many Michelob drinkers who found themselves preferring the taste of Schlitz over the taste of Michelob.

Each of the 100 loyal Michelob drinkers was served two beers, one Schlitz and one Michelob, in unlabelled ceramic mugs. Tasters were told to indicate a tie or make a choice by pulling an electronic switch left or right in the direction of the beer they preferred. To insure fairness, the testing was conducted by a leading independent consumer research firm.

The results were validated by another top statistical research company, Ecklek and Luevige, Inc.

Before the test, the Michelob drinkers probably thought they would pick their own brand. A lot of them seemed surprised as they watched the number of Michelob drinkers who preferred Schlitz flash up for national TV.

Amy Irving Wants to Be a Star

BY MICHELLE KROE

The publicity for the Columbia Pictures release of "The River," which opens in New York next week, has been kept low-key by the studio. The reason: Aletha Haines is the lead actress in the film, and her public image is that of a star on the rise. Haines has been featured in several short films and has appeared on television, mainly in soap operas and dramas. She has also appeared in a few commercials and has done some work as a model. Her screen debut was in "The River," where she played the role of a young woman who falls in love with a man who is already married.

The film was directed by Steven Spielberg, who has expressed his admiration for Haines's work. "I think she's got a lot of talent," Spielberg said. "She's got a great sense of humor and a great ability to convey emotion on screen." Spielberg also praised Haines's work on the set. "She's a very easy person to work with," he said. "She's very professional and very talented." Haines has also received positive reviews for her work in the film. "She's a very talented actress," one critic said. "She brings a lot of energy and enthusiasm to her performance." Another critic praised Haines's work, saying, "She has a great sense of timing and a good sense of comedic timing." Haines has been nominated for an Academy Award for her performance in "The River," and she is expected to receive more nominations in the future.

But despite the accolades, Haines is still a relatively unknown name in Hollywood. "I'm not really sure how much more publicity I can get," she said. "I feel like I'm still a long way from being a big star." Haines has been working hard to make a name for herself in the industry, and she is determined to continue to work hard to achieve her goals. "I'm going to keep working hard," she said. "I'm not going to give up until I've accomplished what I want to accomplish." Haines's hard work and dedication have already paid off, and she is looking forward to what the future holds for her. "I'm excited about what's coming up," she said. "I'm looking forward to what I can do next." Haines's success in "The River" has already opened doors for her, and she is looking forward to what other opportunities may come her way. "I'm going to take every opportunity that comes my way," she said. "I'm going to make the most of my time in the industry."

Movies Are More Than Ever

With the opening of the 1980s, the Hollywood industry is facing a new challenge: the rise of rock and roll. The once dominant film industry is now competing with music, which has become a major force in popular culture. The success of rock and roll has led to the creation of new genres, such as rock opera and rockumentary, which have become popular among younger audiences. This has led to a shift in the types of films being produced, with a greater emphasis on music and performance. As a result, some traditional genres, such as westerns and epic dramas, have fallen out of favor. The industry is also facing financial pressures, with a decrease in ticket sales and a rise in production costs. This has led to a greater emphasis on cost-effective filmmaking, with a focus on smaller budgets and limited casts. Despite these challenges, the film industry remains a vital part of American culture, and continues to evolve and adapt to the changing times.
He is America.

The weekend has sent a wave of students home for the holiday, but the performers are optimistic because the Georgia Tech football game will be played the next day across town.

By showtime, about 50 persons have wandered in. Parks seems satisfied with the turnout, and bits of the stage in good spirits.

Naming Names

Victor S. NASKY

Writing Press ($15.95)

Are you now or have you ever been a member of the Communist Party? And are you willing to name the names of other people who were?
He is America.

He is the son of its heroes and its villains, its soldiers and its lovers, its builders and its dreamers.

They lived for him and died for him and everything they did, they did to music.

This is his story. These are his songs.

It’s an epic journey down through the music of American time through the eyes and spectacular moving art of Ralph Bakshi, the creator of “Fritz the Cat,” “Heavy Traffic” and “The Lord of the Rings.”

It’s the ultimate sight and sound experience with the mind-blowing music of Bob Seger, Jim Morrison, Jimi Hendrix, Janis Joplin and many other great American artists.

Baxter on Rolling Your Own

He makes me so the present. He's the master of his craft. Whatever you want to call him, he's the king. And he's got a great sense of humor. His music is so unique and so special. It's like nothing you've ever heard before. He's the reason I started making music. I never thought I could do it, but now I'm so proud of myself.

Clifford on Hearing It Best

I'm moving to Seattle in a new area, but I'm not worried. It's a great city, and I'm excited to see what's in store. I've been making music for a long time, but I've never been as happy as I am now. I'm getting really good reviews, and I feel like I'm finally getting the recognition I deserve. It's been a long time coming, but it's finally happening.
