Iowa compling lists for draft boards

By Brian McVey

The University of Iowa has begun compiling lists of students for draft boards. The lists will be used if Iowa is called up to send troops to a foreign country.

The university is using the same system that was used during World War II and the Korean War. The system involves the university gathering information about each student and sending it to the federal government.

The university will also be required to send a list of students to the federal government if Iowa is called up to send troops to a foreign country. The list will include the names of all students who are old enough to be drafted.

The federal government will then use the list to select students for draft boards.

If a student is selected for a draft board, the student will be required to report to the board and may be subject to induction into the military.

The university has been working on compiling the list for several weeks. The university has been gathering information about each student, including their age, gender, and address.

The university will continue to compile the list until the federal government is ready to use it.

Iowa will be one of the last states to compile the list. The federal government is expected to use the lists to select students for draft boards in early February.

The University of Iowa is one of the few universities in the country that is still using the system to compile lists for draft boards. The system was used during World War II and the Korean War, but was abandoned after the Vietnam War.

The university has been using the system to compile lists for draft boards since the early 1970s.

County says herbicide safe, Free Environment disagrees

By Yal Rooksme

Herbicide being used to control weeds in Johnson County is found to be safe in a review by the Environmental Protection Agency. However, some environmentalists have expressed concern about the spraying of the weeds.

The herbicide, called "Mist," is being used to control weeds on public and private lands in Johnson County. The herbicide is applied by airplane and helicopter, and has been used for several years.

"Mist" is a herbicide that is designed to control weeds on public and private lands. It is applied by airplane and helicopter, and has been used for several years in Johnson County.

**HERE’S OUR TEST!**

Today you want to be sure you’re getting the most for your food dollar. The best way to be sure is to compare. And the best way to compare is to look at total savings, not just a few prices. That’s how our test works!

1. **YOUR LIST:** Make out your family’s regular weekly shopping list.
2. **YOUR TEST:** Note the price for each item on the list at Eagle and any other store.
3. **YOUR PROOF:** Add up the prices for every item. And the best way to compare is to look at totals, not just a few prices.

**HERE’S WHY IT WORKS!**

When you compare, you may find an occasional “special” that’s lower than a price at Eagle. But we’re confident that our storewide low prices will reduce your total food bill at the checkoutstand. That’s where savings really count! And that’s why our test works! You use your own weekly shopping list and compare Eagle, total for total, with any other store you choose. Our test proves savings at Eagle on your family’s entire weekly food needs.

Multinational drug companies amass profits in Latin America

**By Chris Holidays**

GUATEMALA CITY — American pharmaceutical manufacturers are competing in Latin America but the region is still a potentially enormous market for the United States, partly because the governments of most Latin American countries have not changed their policy of encouraging local drug industry.

However, the use of imported medicines has increased in the last decade, especially because of the high cost of local drugs.

In addition, the United States is the largest producer of drugs in the world.

**PHARMACEUTICALS**

**By Brian Schaffron**

U.S. pharmaceutical companies are competitive in Latin America and are beginning to realize that the market for their products is growing.

By the end of the year, the U.S. pharmaceutical market will have reached $1 billion.

In many cases, the U.S. companies have been able to increase their market share in Latin America, especially in countries like Brazil and Argentina.

But in other cases, the U.S. companies have had to face competition from local drug manufacturers.

**MEXICO**

By Naomi Schiller

Mexico is one of the leading drug markets in the world.

Mexico has the largest population of any country in Latin America and is the second largest market for pharmaceuticals.

Despite this, the Mexican government has been slow to regulate the drug industry.

**SURVEY**

**By Robert Schaffer**

The survey of Mexican drug companies showed that the majority of them were not satisfied with the government's policy.

They felt that the government was not doing enough to promote the drug industry.

**Sidebar**

**By Chris Holidays**

The United States is the largest producer of drugs in the world.

In the United States, the drug industry has become one of the largest employers.

The U.S. pharmaceutical industry has a $1 billion market, which is expected to grow to $2 billion by 2000.

Physics building may be named in Van Allen's honor

By Jackie Boucher

The UI's President James Van Allen, who died Dec. 20, was a leader in the development of the physics building. The UI has named it, the Llinus A. Vennig, in honor of Van Allen, who was named dean of the College of Liberal Arts and Sciences at the UI in 1945. Van Allen was professor of physics and astronomy at the UI from 1945 to 1950.

Overcrowding a problem for computer science class

By Natalie Shearin

Overcrowding of classes continues to plague the UI's College of Liberal Arts and Sciences. The university has announced that it will begin a new class in the fall to accommodate the growing number of students in the computer science program.

New corridor plan discussed

By Jackie Rawl

A new preliminary North Corridor alternative has seemingly dis- appeared Monday night during a work session at the Johnson County Board of Supervisors. The plan, which had been on hold due to a last-minute decision by the Johnson County Development Commission, has been tabled for the time being.

The new corridor plan would involve the re-zoning of land for sewer and water facilities and the development of the North Corridor. The corridor was zoned in 1976 as a principal of a united labor and would be considered individually and with the other existing plans.

The corridor was zoned in 1976 as a principal of a united labor and would be considered individually and with the other existing plans.

New reannounced plan to be released

INDIANAPOLIS (AP) — The revised re-announced plan will be released at 9 a.m. on Wednesday, June 10, 1981. The plan will be released on the same day as the new corridor plan.

United Auto Workers, AFL-CIO to reunite

The United Auto Workers, AFL-CIO, has decided to unite with the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO). The decision was made at the AFL-CIO convention in Detroit.

The large-scale corporate, labor and political powers have long been separate and often opposed to each other. The decision to unite may signal a change in the political landscape.

**Pictures’ doesn’t land on its feet**

**By Jim Hostetler**

The television commercial for the new Sharp washing machine is a series of confrontations, presumably meant to demonstrate the machine’s effectiveness. It is not, however, nearly as memorable as the one for the company’s microwave oven back in 1991. Since then, Sharp has diversified its line, and it now includes washing machines, which are sold as a new product. The commercial begins with a shot of a maid ironing a shirt, followed by a shot of a woman pouring detergent into a dispenser. The woman then proceeds to clean the washer, adding detergent and starting the cycle. The washer then proceeds to agitate the clothes, followed by a shot of a man in a suit standing in front of the washer. He then turns the knob, and the washer begins to spin. The man then walks away, and a shot of the woman closing the washer door is shown. The commercial ends with a shot of the woman again doing the laundry, this time in a different setting, followed by a shot of the man in his suit, again doing the laundry. The commercial is a good example of how the company is trying to position itself as a leader in the household appliance market.
50,000 miners honor pickets

By United Press International

Angry mass construction pickets filled over 500,000 of the nation's 800,000 unionized iron miners.

The workers, later over the main streets of their United Mine Workers' convention while guests' construction work was for over 500,000 people to show their support to the picketers.

In ILLINOIS, at least 2,000 miners were kept off the picket line by strikes of contractors and other firms.

In Virginia, where presidentunionized industry bargaining during the strikes, was also reported to have been successful in keeping some miners from being laid off.

In that state's District 4, an estimated 10,000 UMW convention honed the prison picket line.

HUNGER-STRIKING VETERANS OUSTED

LOS ANGELES (UPI) - Hunger-striking Vietnam-era veterans who were arrested Tuesday in the first city of a series of a Veterans Administration Hospital.

The protesters had been picked up by police a day after they began a hunger strike to demand that they be allowed to return to their homes.

The veterans, who had been on the picket line for over a month, were treated in the hospital for dehydration.

They said they were being held in the hospital for political reasons.

"A lot of families have a hard time because of it," said a veteran in the hospital. "They have so many veterans coming in and out every day."

"It's a lot of work," another veteran said. "They're treating the veterans as if they were criminals."

Los Angeles Police Department strong two agitated veterans,所述 from the hospital grounds two days after the strike began.

PROTESTER Frank Terry said the former hunger-striking veterans and their supporters were part of an effort to "keep the pressure on" the hospital administration.

"We're willing to do whatever it takes to get these men out of this hospital," Terry said.

"This is a very serious situation," he added. "We're not going to give up until we get justice for these veterans."

The veterans, who had been on the picket line for over a month, were treated in the hospital for dehydration.

No progress in strike dispute

NEW YORK (UPI) - No progress was reported today in the long-running contract dispute between the National Football League and the players' association.

Executive Officer of the NFL said there were "no substantive differences" in the two sides' positions.

"I'm just trying to bring the players together," he said. "But it seems like they're just not willing to compromise."

WEEKER announced Monday that he will send a team of negotiators to the league for an impasse hearing on the contract issue.

The board asked for the appointment of a special master to help resolve the dispute, but the NFL rejected the request.

"We're not going to go to an impasse hearing," NFL President Frank Vukov said. "We're going to settle this at the bargaining table."

"If that happens," Miller said, "we'll continue to negotiate."

"But we won't have any meetings left," the commissioner added. "We're not going to sit down and talk any more."

No progress
in strike dispute

NEW YORK (UPI) — No progress was reported in the
strike dispute between the Players' Association and the
Major League Baseball Commissioner. The negotiating
table were at least 6 hours.

Players have been on strike this
morning and told their series with everyone involved, "said
"I do not know if the other side
is making any progress, we do not understand how stringent
they are setting the terms."...they may wait a little longer.

SKEEER Announced Monday, will.

The baseball players will not return to the field until
more progress is made in the negotiations for the new
agreement that can delay the start of the season.

The board asked the players to extend the
strike for one year. The owners have agreed to a new
compensation plan. The players would strike within 48 hours
of the agreement.

IF THAT HAPPENS, Miller would have to cut

**Three Hawkeyes picked in NBA draft**

By Jay Clynwbank

Iowa natives Steve Krohns, Ben Braum and Andrae Wofford were picked Tuesday in the National Basketball Association draft in New York.

Krohns was the choice of the Atlanta Hawks in the first round. Braum and Wofford were picked on the second round.

The Hawks are the mostaland well-known of <br>three players at the Atlanta Hawks, 1978 draft. Krohns was the pick of the Denver Nuggets in the first, and Wofford is the second round pick of the Boston Celtics. The

The Hawks are a franchise of the NBA for one season. Krohns had a 6-0 record with a 6-1 record. Wofford is a 6-6 senior who was a starter on the GTA team.

**Laid back**

With the guidance of instructor Carolyn Crow, Kristiie Foo of Iowa City attempts a back flip. Youngsters all across the state are on the Iowa campus for the week to attend the UI camp.

**Indiana's Thomas selected by Pistons**

By Peter Finney, Jr.

United Press International

NEW YORK - Three days after Mark Thomas was thinking about spending the NBA season in a city whereilation and baseball are the principal sport, the Pistons decided they were in the market for Thomas.

That was when Thomas still assumed he was a second round choice of the Dallas Mavericks, who owned the first pick in the entire draft. Thomas, the Iowa guard point guard who led the Hawkeyes last year, was chosen instead Tuesday by the Detroit Pistons, who always had all his hopes of obtaining Thomas when they had a 2-1 lead by the 15th-picking position in the National Basketball Association draft.

NO ONE REALLY knows how the Mavericks decided to select Detroit. Three days after they were eliminated from the NBA playoffs, it was a decision that had to be made quickly.

I can say this for a fact - Mark Aguirre is a great player and I'm happy to get him. Thomas said of his fellow Chicagoan and current Dallas Mark Aguirre who was draftead for a long time.

The Mavericks played just two seasons ago in the NBA, but was immediately recognized as college basketball's premier power player. His positioning ability and excellent passing ability were complemented by a gifted outside shot and those skills make the major difference. Dunn, who is a former Kansas City executive, is a former Washington State and is a former Washington State basketball star.

"Eye can tell you right now that it's Mark Aguirre who is a great player and I'm happy to get him. Thomas said of his fellow Chicagoan and current Dallas Mark Aguirre who was drafted for a long time.

"It's going to be great for me to have Mark Aguirre for a long time. Thomas said of his fellow Chicagoan and current Dallas Mark Aguirre who was drafted for a long time.

"But what I want is my own player, Thomas said. "I'm happy to get Mark Aguirre, and I'm happy to have him. I'm very pleased. I'm very pleased." Thomas said.

"I'm happy to get Mark Aguirre, and I'm happy to have him. Thomas said of his fellow Chicagoan and current Dallas Mark Aguirre who was drafted for a long time.
