JARULZELSKI in after shuffle ousts Kania

WAWANG, Poland (AP) — Communist Party chief Jaruzelski has ousted his deputy Kania, who was named to take the place of the ailing leader Lech Walesa, in a major government shakeup.

This is the first time in a year Jaruzelski has taken such a strong public line on Walesa, who is suffering from a kidney ailment and is less than 200 percent effective in leading the country's industrial workers' union.

Jaruzelski has been in charge of the country since the death of its former leader, Mikhail Gorbachev, in 1980 and has led the country through a series of economic and political crises.

The move comes after Jaruzelski was elected in the third round of a presidential election last month, with a vote of over 60%.

The new government will be in charge of the country for the next three years, during which time Jaruzelski will have the opportunity to implement his policies without the interference of the opposition.

Jaruzelski's government has been criticized for its economic policies, which have led to high inflation and unemployment.

Jaruzelski's successor, Kania, will have to deal with the country's economic problems and also needs to address the issue of Walesa's health.

New Polish leader moderate but tough

Analysis

Jaruzelski's moderate stance is seen as an attempt to calm the country's unrest and provide stability after the death of Gorbachev.

Kania's appointment is seen as a move to strengthen the government's position and to maintain the country's economic stability.

However, the move is expected to face opposition from the opposition parties who have been critical of the government's policies.

Jaruzelski's government will have to address the country's economic problems, including high inflation and unemployment, and also needs to address the issue of Walesa's health.

Jaruzelski has been in charge of the country for the last three years, during which time he has been able to implement his policies without the interference of the opposition.

Jaruzelski's government has been criticized for its economic policies, which have led to high inflation and unemployment.

Jaruzelski's successor, Kania, will have to deal with the country's economic problems and also needs to address the issue of Walesa's health.

The silicon valley is filled with religious leaders. At least 300 of the 200 million Americans who define themselves as non-religious are active in religious organizations. The number of people involved in religious organizations in the U.S. is estimated to be around 10 million. This is a significant increase from the 1970s when only 2 million people were involved in religious organizations.

The silicon valley is home to a variety of religious organizations, including Christian, Jewish, Buddhist, and Hindu organizations. These organizations offer a wide range of services, including religious education, counseling, and social services. The silicon valley is also home to many religious leaders, including ministers, rabbis, and imams. These leaders are actively involved in their communities and are often seen as leaders in the silicon valley.

The silicon valley is also home to a variety of religious organizations that are not part of the mainstream. These organizations include the Church of Scientology, the Church of Jesus Christ of Latter-day Saints, and the Hare Krishna movement. These organizations are often controversial, and their activities are often the subject of debate.

The silicon valley is a unique place, and its religious landscape is a reflection of this. The silicon valley is a place where people from all backgrounds come together to create something new. This is reflected in the religious landscape of the silicon valley, where people from all faiths and backgrounds are working together to create a better world.

Military solutions

The situation in Egypt presents an interesting example of the problems of military solutions. In the United States, military aid to Egypt is a contentious issue. Many people argue that military aid to Egypt is a waste of money and that it is better to focus on economic aid instead. However, military aid to Egypt is not the only solution to the problems in Egypt. There are also political solutions that could be effective.

On the one hand, the United States could increase economic aid to Egypt. Economic aid could be used to create jobs and help improve the economy. However, economic aid alone is not enough to solve the problems in Egypt. There are also political solutions that could be effective.

The silicon valley is a unique place, and its religious landscape is a reflection of this. The silicon valley is a place where people from all backgrounds come together to create something new. This is reflected in the religious landscape of the silicon valley, where people from all faiths and backgrounds are working together to create a better world.

Send peace not arms to arms carriers

New prison isn’t seen as solution

By Annette Frank

Construction of a new state maximum security prison at a cost of approximately $28 million per prisoner has been proposed by some to reduce the prison population. But the proposal is similar to those of Fort Madison and other towns in the state that are overcrowded and have to dump profits into the state treasury.

According to the state budget, a new prison is needed because prisoners now use too many state resources.

However, some prisoners who are not part of prison tests are not liked in that they are not allowed to vote outside the prison.

Furthermore, the average cost of prison tests is not limited to the amount of money the state spends on prisons.

But situations that are more related to social issues are more likely to benefit from prison tests, given that many are involved in social activities.

Long-term success of correctional programs requires change in attitudes, behavior, and increased understanding of the potential.

UI weekend, night classes prove a popular alternative

By Lee Whisnant

Established in the fall semester and Evening Class Program has increased more than 16 times since the program began from the hospital board idea.

When the program was started, less than 40 people were enrolled in 10 courses, and the director of the program, currently the program of a new semester is underway to more than 1,700 students.

The program in one of four available to more than 3,700 part time students. The faculty and evening classes, when guided correspondences enrollment and part-time evening classes, is making it possible for the part-time student to work.

Howard Laster, dean of the College of Liberal Arts, said it is important for faculty members and students to be aware of the program. Program began in 1971.

"Students who attend a university for the first time and graduate in four years and then graduate are not as common they were 25 years ago," Laster said.

"We try to offer normal University of Iowa classes of weekend sessions," Laster said.

Without these special programs it is very difficult for part-time students to continue their education, Laster said. Employers demand more knowledge from their employees which makes the number of part-time students continue to increase.

"I think the future looks great for continuing education," he said.

Unmarried couples triple

WASHINGTON (UPI) - The Census Bureau, releasing new U.S. statistics, said families are growing smaller as young couples are more likely to divorce, single and the dissolution of marriages through remarriage.

The number of divorced women has tripled since 1970 to 1980, said Howard Fitch, a professor of Sociology at the University of Iowa. Fitch thinks the number of part-time students will continue to increase.

"I think the future looks great for continuing education," he said.

Washington, D.C. — Thomas J. Tucker, 18, of Saddle Tavern, was arrested early Sunday.

Terry L. Walcutt, 18, of Saddle Tavern, was arrested Saturday without a warrant and one count of discharging a firearm, according to city police.

The incident reportedly occurred shortly after 11 p.m., Thursday.

Cliffs Lugares, 28, of Iowa City, was arrested early Friday morning.

In addition to the theft of the tire extinguisher from Lakeside Inn, the number of individuals from their records, Mildenstein received several wounds which were not kept prior to 1975.

When Fitch became director of the program in 1975, 90 percent of the students enrolled were women. She said the move to make classes available to students with a job or family.

"We try to offer regular University of Iowa classes of weekend sessions," Laster said.

Fitch thinks the number of part-time students will continue to increase.

"I think the future looks great for continuing education," he said.

SOCIALIST party triumphs in Greek election

WASHINGTON (UPI) — Sen. John Glenn, a leading voice of moderates on Capitol Hill, opened his new official term in Congress today with a warning that the Greek constitution has been violated and called for the immediate recognition of Greece's first socialist party. The statement was made in the form of a letter to the Greek government. A spokesman for Greece's first socialist party said that the Greek government had been notified of the letter. In a statement read on behalf of the Greek government, the spokesman said that the Greek government took the letter as a message to Greece's first socialist party. The Greek government has not yet responded to the letter. Greece's first socialist party has been in existence for more than 20 years and has been a major force in Greek politics. The party has long been critical of Greece's foreign policy, particularly its support for the United States in the Vietnam War. It has also been critical of the Greek government's handling of the country's economic problems. Greece's first socialist party is the first socialist party to win a seat in the Greek parliament in more than 50 years. The party's leader, Mr. Rallis, said that the victory was a significant step forward for the socialist movement in Greece. "This is a great day for the socialist movement in Greece," Mr. Rallis said. "We have been fighting for many years for the recognition of our party and today we have achieved it. This is a victory for the working class and for the people of Greece."

Dayan

Dayan, a young and talented former minister of defense and foreign affairs, has been appointed as the new minister of defense and foreign affairs. Dayan has been a strong advocate of peace and has been a vocal critic of the Israeli government's policies. He has been a member of the Knesset, Israel's parliament, for more than 10 years. Dayan has been a vocal critic of the Israeli government's policies, particularly its handling of the situation in the West Bank and Gaza Strip. They’re Playing Our Song: cuteness bordering on corn

By Rebecca T. Moeller

Arts/Features

They’re Playing Our Song is in full— scouts— but with one significant exception. The evening features three new roles: just boys, just girls, just women. As the going is a little slow, the company seems to be working on the evening theory of three new roles: just boys, just girls, just women. The opening night was marked by the appearance of the company, Marvin Schilling and friends. The production was presented at the Anderson Auditorium last Wednesday and Thursday.

The play is about a group of friends who have found success among the masses and think that everything is wonderful in their own particular world. On the stage, the tension and style of the periodic vein. Not only does the music make them smile, but the songs that are sung are often shot through with humor and wit. When they perform, you can almost hear the laughter of the audience.

Verna Goodrich (George-Paul Fortun) is the head of the company. Verna Goodrich and his partner, Steven Giniber, Del Parker, and others were interested in the world of the anachronistic pen. The play, directed by Roxanne Holloway as the heavy, with equal adeptness. Raymond Schilling, who took the role of the heavy, was probably the best. Perhaps, he was just a little too much in the role to be taken seriously.

It was June Gable who made the anchovy flavor more evident. The play was light, bright, and very funny. It was not the kind of show that was intended to be a laugh riot, but it was the type of show that the audience will enjoy. The show was quite well written and acted.

Play gives haunting portrayal of anguish in German camps

By Rebecca T. Moeller

Arts/Features

The horrors of German concentration camps are brought to life in a country by American and German. The real horror is what the world feels at the ever-present war when it comes to the order of the day.

Peter Schilling, the play’s writer and director, is a German who was born in a concentration camp. His war experience as a German is known to everyone, and he has a reputation of being a great writer. The play, directed by him, was performed very well. In one of the scenes, the German character is shown standing in front of the Reichstag. He is speaking to the camera, and he is telling the audience about the war and what happened to him.

The Wehrmacht also entered, bringing gymnastics that heightened the tension. A necessary role of keeping the playground lively, did not lose sight of the fact that they thought the war was over. The staging was not as successful as it could have been. The audience was not as aware of the war as it should have been.

The Wehrmacht also entered, bringing gymnastics that heightened the tension. A necessary role of keeping the playground lively, did not lose sight of the fact that they thought the war was over. The staging was not as successful as it could have been. The audience was not as aware of the war as it should have been.

Mummmenschansch astonishes, delights ‘kids of all ages’

By Maria Bates

Arts/Features

As one of the officers said, “scary short” was excused to us by the president of the company. Thursday night’s Mummmenschansch performance at the annual meeting of the company was an exciting one. The audience was there to see a show that was very different from the usual. It was not a show that was intended to be a laugh riot, but it was the type of show that the audience will enjoy.

The play was about a group of friends who have found success among the masses and think that everything is wonderful in their own particular world. On the stage, the tension and style of the periodic vein. Not only does the music make them smile, but the songs that are sung are often shot through with humor and wit. When they perform, you can almost hear the laughter of the audience.

The play, directed by Roxanne Holloway as the heavy, with equal adeptness. Raymond Schilling, who took the role of the heavy, was probably the best. Perhaps, he was just a little too much in the role to be taken seriously.

It was June Gable who made the anchovy flavor more evident. The play was light, bright, and very funny. It was not the kind of show that was intended to be a laugh riot, but it was the type of show that the audience will enjoy. The show was quite well written and acted.

The weatmacht also entered, bringing gymnastics that heightened the tension. A necessary role of keeping the playground lively, did not lose sight of the fact that they thought the war was over. The staging was not as successful as it could have been. The audience was not as aware of the war as it should have been.

**Clever, skilful production best part of “Dragonslayer”**

Craig Warren

The long-haired, dark-voiced and rather grim-looking Max Midas, as the villain in “Dragonslayer,” must have been conceived with the intention of having as much impact as theogous as the demarcation of the two forces in this third-layer fantasy film. Max is such a sinister character that when he tries to recreate his past, the audience is not left in the dark about the nature of his villainy.

In fact, the audience is able to see the entire sequence of events that led to his present role as the dragon’s ally. The scene is set in a village where Max is seen as a hero. He is the only person who can save the village from the dragon, and his bravery and skillfulness are on full display.

Max’s role is to be the focus of the film’s action, and his interaction with the other characters is crucial to the plot. He is a master of the dragon’s language and is able to communicate with the creature, which he uses to his advantage.

The film’s production values are impressive, with the dragon’s breath and the dragon’s attack scenes being particularly well done. The dragon is a powerful creature, and its size and strength are clearly visible.

The film’s soundtrack is also well done, with the music and sound effects adding to the overall atmosphere of the film. The film’s pacing is well done, and the action sequences are well-constructed.

The film’s message is one of the importance of bravery and the value of friendship. The film’s conclusion is a satisfying one, with the hero emerging victorious over the dragon.

Overall, “Dragonslayer” is a well-crafted film, with a strong message and a high production value. It is a film that is well worth watching.

**An Open Letter to the Iowa City Community**

We are members of the Iowa City community who regularly practice the Transcendental Meditation (TM) technique. We are extremely pleased with the practice that we have been doing year after year. This simple mental technique—requiring no belief, diet, or exercise—is yielding for us full mental and physical potential.

Even though our published scientific studies have verified the benefits of the TM technique, we are concerned that you are not aware of its great value.

Research indicates that the TM technique increases health, intelligence, and learning ability and that it solves social problems by reducing crime and the need for drugs, by making rehabilitation effective, and by enhancing personal relationships.

Here are some of the findings:

* After beginning the TM technique, University of Hawaii students increased their grade point averages by 20% within one semester.
* The biological ages of long-term meditators averaged 15 years younger than their actual age.
* After two years the recidivism rate of meditating Folsom parolees was 40% lower than that of nonparolees; this was not a hand-picked sample.
* What of a city population practice the TM technique, the crime rate decreases.

We know that TM technique is not a part of the occult and is not evil. It is for all people who want to live a better life. We feel it is the greatest scientific discovery of the 20th century.

But don’t take our word for it; come and see for yourself. Have and question experts who will conduct a series of free seminars examining the TM technique.

We promise that each evening will be lively and informative. Please come.

Jefferson starved lead singer Walter Thomas Davis on a powerful performance for a crowd of about 4,200 fans at the UI Field House Friday night.

High tempo and volume detract from groups' jazz performance

By James Gieh
special to the Daily Iowan

Clapp Recital Hall was electrically charged with the goals of the Old Gold Singers and Johnson County Jazz Band when they shared the stage at the UI on Saturday night. Unfortunately, the performance failed to live up to the anticipation

The two groups performed separately, but the audience was given the opportunity to hear them together.

This also was the opening number for the Old Gold Singers. The audience was enchanted by the performance, and many were sparked by the enthusiasm generated by the audience.

Jefferson starved frontman performed his band's famous song, "White Rabbit," on stage about a briefcase containing top secret documents literally in his hand. The audience was inspired by the group's performance, and many were sparked by the enthusiasm generated by the group.

The group performed a spirited version of "Soleado," which was a favorite of many attendees. The music was light and easy to follow, and many were sparked by the enthusiasm generated by the group.

The lively performance continued until the end of the evening, with the group's performance remaining a highlight of the evening.

The group's performance was a fitting end to the UI Dance Performances, and many were sparked by the enthusiasm generated by the group.

Fry also has Iowa's station in game two of the series. Burris pitched a scheduled to pitch for Los Angeles and be opposed by "something that would be built for the 1976 Olympics."

Estimates put the cost for finishing the Montreal tower originally built as a waiting area at over $100 million.

Burris and Fry have seen each other every year at the World Series. Fry said, "I don't know if anybody has ever been in a stadium where you can see coming into the game, and there is a wait of three hours." The Rockies, however, have several tough games ahead of them, including Wednesday's contest at Western Illinois. Although Iowa has beaten Western, 15 service weeks ago, Cavillini said the game will be a real test.

Weather delays decisive contest in N.L. playoffs

MONTREAL - The 5th and deciding game of the National League Championship Series between the Los Angeles Dodgers and Montreal Expos was postponed by rain Sunday and rescheduled for Monday.

A light drizzle began late Sunday afternoon and continued into the evening, forcing pitching umpire Bob Coluccio to call the game. The weather forecasters in Montreal said it might rain all day Monday. The series is tied 1-1, with the Dodgers leading 2-1.

Philadelphia suffers first defeat as Kramer powers Minnesota

By United Press International

Terry Kramer certainly didn't play graduate school ball when he led Minnesota to a 47-28 victory over Philadelphia last week.

The four-year starter at quarterback fired three straight passes to move the ball from his 30-yard line to the Eagles' 1-yard line in the first five minutes of play.

Kramer later scored on a 6-yard run to help the Gophers, 5-2, to their fourth straight victory. The Eagles, 6-1, had allowed only 17 points in their previous three games.

Kramer didn't feel as though he had performed anything special, however.

"I don't feel like we were outclassed, only because we didn't play well," Kramer said. "But we needed experience in a big game." Kramer and playwright pointed out that the victory was the first for an American Football Conference team over an Eastern College Athletic Congress opponent this year.

"We've known we were better," Kramer said. "Now we have to prove it against the tournament champs." Kramer said he knew we were better, "But we needed experience in a big game."

Thomason said the Gophers got more experience.

"You take a step back when you lose," Thomason said. "And will new people we should move up three or four years from now."

Netters gain split; close season at 5-3

By Mike Kurt

The Iowa women's tennis team improved to 15-1 overall and 7-1 in conference play with a 5-3 victory over Northwestern Tuesday night at the McCurdy Tennis Center.

Iowa's best singles players, however, didn't contribute to the win, as 11th-ranked Kari Gustafson lost her singles match. In doubles, the Boilermakers won two of three matches, with Schnepper and Halvorson winning at No. 2, but the No. 3 doubles team of Kellner and Biensch fell. Iowa's Hopkins said, "I was ready at the net because there was no shortage of hitting talent." The Hawkeyes themselves engaged in a close match with the Boilermakers, as Northwestern's Rochman and Schnepper rallied to win the No. 3 doubles match. The No. 1 and 2 doubles matches were not played.

Iowa upset No. 8 Missouri last week and wait until another score. Northwestern, a team that beat the Hawkeyes last season, has a record of 5-4 overall and 1-2 in conference play.

Mistakes haunt Texas in 42-11 loss to Hogs

By United Press International

Texas' third straight loss to Arkansas Tuesday night, 42-11, was not for lack of trying by the Longhorns, but they were outplayed by the Hogs. The Hogs outscored Texas 21-0 in the first half and 32-11 in the second half.

Texas' first half interception, however, was not a factor in the game. It was the first half interception that was a factor in the game. It was the first half interception that was a factor in the game. It was the first half interception that was a factor in the game.

Raiders suspected in gambling scandal

NEW YORK (UPI) - Federal and California law enforcement agencies have arrested two people and seized gambling equipment and cash from a raid of the Raiders' Las Vegas restaurant.

A raid on a restaurant run by the Las Vegas Sahara has led to the arrest of two people, including a restaurant owner and a manager, in connection with the operation of an illegal gambling establishment.

The restaurant, which is owned by the Raiders, was shut down by the Nevada Gaming Control Board on Monday night.

Hockey team wins Big Ten title game

By M. ViewPager Assistant Sports Editor

It was no surprise when the Iowa and Michigan hockey teams met Saturday night in Ann Arbor; the hard-hating, eminently entertaining game was the Kahle-Steel Classic. Iowa won 3-2.

The game was pitting four teams for the Big Ten hockey championships. The tournament was held in the Big Ten annual meeting in Chicago and included Iowa, Minnesota, Michigan, and Ohio State. Iowa actually dominated a 6-1 day, was scored by Iowa, and played in a rainstorm. The only goal of the game was scored by Iowa earlier in the championship. The Hawkeyes handed Purdue a final score of the Big Ten teams earlier in the season.

The only goal of the game, which was impressive with Lynn Stadtmueller, was an experiment, as he said in writing for the Iowa-Minnesota game. The Hawkeyes were also the strongest players on the team, and were impressed.

"No Coina Needed" by Jay Carisier, sports editor, Iowa Daily

Iowa defeated Michigan 5-2 in the first round of the game. The final score of the game was 5-2.

Iowa swept all three games and went on to win the Big Ten title. The Hawkeyes were 12-6-2 in the conference, and were 1-9-0 in the conference.

Iowa defeated Minnesota 4-2, and then went on to win the Big Ten title. The final score was 4-2.

Iowa defeated Ohio State 4-1, and then went on to win the Big Ten title. The final score was 4-1.

Iowa defeated Purdue 5-3, and then went on to win the Big Ten title. The final score was 5-3.

Former Iowa goalie Pat Foster's comments were published in the Daily Iowan.

"The margin of victory

Iowa tradition place kicker Tom Nichol launches the extra point from the hold of quarterback Lynn Stadtmueller. He hit the Buffalo Bills and the Minnesota Vikings. Nichol accounted for all of Iowa's nine points and was named the game MVP.

Hawks send Rec Building into 'ecstasy'

By Melanie Hanson

Iowa Men's Swimming Coach Glenn H. Pat Foster said of his team: "Iowa had a very good week in the pool. We had a lot of good performances. We also had a lot of good breaks. We had some good breaks."

Also turning in a consistent performance was Lynn Stadtmueller, who scored the first goal of the game.

"This was a very aggressive tournament," Pat Foster said.

Stadtmueller received the ball well, and was awarded the game MVP. He drove the game and the jubilant fans.

"I'm not going to go down in the history books, because I did not turn the page," he said.

"But I am going to go down in the history books, because I did turn the page."

"I'm not going to go down in the history books, because I did turn the page," he said.

"But I am going to go down in the history books, because I did turn the page."
