U.S. students put together economic puzzle
City asks funds to upgrade computer

A proposed computerized crime investigation system is among the projects set aside for the 1982 City budget. Questions arise as to the city's storage space.

The mayor's plan is the only computer system the city has ever ordered. The system is slated to be delivered for $30,000. It's possible that the storage space can be improved, although it seems unlikely.

The city's storage space is used by the computer system to store data. The computer is designed to store data for 80 percent of the time. It may not be necessary to improve the city's storage space.

Additional phone rate increase takes effect after court okay

Davenport (UPI) - A 36 cent Northwestern Bell telephone rate increase will take effect today after the Iowa Supreme Court cleared the way for the rate increase. The rate increase was opposed by the Iowa Consumer Council on behalf of the Iowa Consumers' Council. The court's decision allows the increase, which would amount to $2.88 per month for the average bell telephone customer, to take effect.

The court said the increase was justified because of "the evident need for relief due to the increased costs of operating a telephone system." The court also ruled that the increase was a "reasonable" one because it was approved by the Iowa Commerce Commission and that the company had "adequately" represented the cost of operating the telephone system.

The court also ruled that the increase was a "reasonable" one because it was approved by the Iowa Commerce Commission and that the company had "adequately" represented the cost of operating the telephone system.

The court ordered the increase to take effect immediately and also ordered the company to file a report with the commission within 30 days showing how the increase will affect the company's ability to service its customers.

In 1982-83, the Iowa Legislature approved a bill giving the Iowa Commerce Commission the authority to set increases in local telephone rates. However, the commission had not acted on the request for the increase because it was not satisfied that the company had adequately represented the cost of operating the telephone system.

The company said the increase was necessary to cover the cost of providing service and to ensure that the company would be able to continue to provide high-quality service.

The company said it had been unable to raise rates since 1980, when it last increased rates, because of the recession and the high cost of living.

The company said it had been unable to raise rates since 1980, when it last increased rates, because of the recession and the high cost of living.

Saving Iowa's soil

Drive five minutes into the country and the roadside roadside begins to change color, some disappearing enough to reveal a permanent landscape. The cause of this metamorphosis is not yet

Iowa's farmers, wide acres and a wide variety of crops, have reached the point where many people are no longer interested in farming. Instead, they are choosing to spend their time in a variety of other activities, such as fishing, hiking, and simply enjoying the beauty of the land.

John Smith

Echo from the past

In what amounted to a farewell address, Adm. Hyman Rickover, one of the country's most decorated military leaders, had this to say about his military service: "The military is a special place, a place where people can come together and work for a common cause. It is a place where people can learn to be responsible for each other's safety and well-being.

"But the military is also a place where people can learn to be responsible for their own safety and well-being. It is a place where people can learn to be responsible for the safety of others. It is a place where people can learn to be responsible for the safety of themselves."

Rickover's words are a reminder that the military is more than just a place where people come together to fight. It is a place where people learn to be responsible for each other's safety and well-being.

**ECONOMY**

A majority of the students thought the supply-side economics and free Federalism, with some concern over it being a bad idea or something that was not a good program. Unemployment, which stands at 8.3%, may rise to 8.5% in the next six months, but it will still be lower than in the past three years. The government should plan for the possibility of increased unemployment, which would require more social spending and a more cautious fiscal policy. The government should consider implementing a more active labor market policy to reduce unemployment. Additionally, the government should focus on improving education to increase productivity and long-term economic growth. The country should consider providing incentives for businesses to invest in research and development to promote innovation and economic progress.

---

**Letters policy**

Letters to the editor are an important medium for public discourse and free expression. They provide a platform for readers to share their opinions, experiences, and observations on a wide range of issues. In this article, the editor highlights the value of letters in fostering engagement, promoting diversity of perspectives, and encouraging constructive dialogue. The editor encourages readers to participate actively in this space by submitting their own letters, ensuring that the dialogue remains vibrant and inclusive.

---

**Portability**

Portability is an essential feature in today's fast-paced and interconnected world. It allows individuals to stay connected with their loved ones, access information, and participate in decision-making processes without being physically present. The editor discusses the importance of portability in modern life and the challenges associated with it. The article emphasizes the need for ongoing innovation and technological advancement to improve portability, enabling people to live and work more efficiently and effectively.

---

**Supplemental Educational Op-**

**Rising**

---

**Family will file suit in Boston jet crash**

---

**PORTLAND** (AP) — Polish refusal to allow U.S. nuclear testing to continue on its territory has led to a political crisis in the United States.

**Letters**

In the letters section, the editor discusses the impact of the latest political developments on the political landscape and the broader implications for democracy. The editor highlights the importance of public discourse and the role of the media in shaping public opinion. The article emphasizes the need for open and transparent dialogue to address the challenges facing the country.

---

**New Federalism and college aid**

The editor explores the concept of New Federalism, which advocates for a more decentralized approach to governance and education. The article discusses the potential benefits of this approach, such as increased flexibility, responsiveness, and innovation at the local level. However, it also acknowledges the challenges and potential drawbacks, including the need for careful planning and coordination to ensure effective implementation.

---

**Economy**

Economic policies play a crucial role in shaping the direction of the economy. In this article, the editor discusses the need for a balanced approach that considers both supply-side economics and demand-side policies. The editor highlights the importance of investment in education and research, as well as the need for improved infrastructure and committed public-private partnerships. The article emphasizes the need for continued dialogue and collaboration between policymakers, industry leaders, and civil society to address the economic challenges facing the country.

Snow-laden Midwest digging out from the 'brutal winter of '82'

United Press International

Road crews Monday labored against high drifts across the snow-covered Midwest, where thousands of people were stranded in shelters or isolated in their homes by the worst snowstorm yet in the local area of '82. Fire Lt. G. Lincoln Jones said authorities struggled to get things moving after another winter storm dumped at least 15 people died in the brutal winter of '82. At least 8,000 were killed in the Midwest Tuesday.

The National Weather Service said another big storm that was building up over the Great Plains would move into the Midwest Tuesday.

FLOODS & MUDSLIDES

The snow storm that continued over the country Sunday dumped over 10 feet of snow in some areas. Snowplows raced to clear streets, and by Monday, 4 million homes in 10 states were without electricity.

Midwest where thousands of people were stranded in shelters or isolated in their homes by the worst snowstorm yet in the local area of '82. Fire Lt. G. Lincoln Jones said authorities struggled to get things moving after another winter storm dumped at least 15 people died in the brutal winter of '82. At least 8,000 were killed in the Midwest Tuesday.

Heavy rains and ice-clogged rivers that filled out a month of business and closing down schools.

A St. Louis resident attempted to dig his car out of a snow drift after the worst snowstorm since 1912 hit the city.

Spend Spring Break in--

Jamaica

Win a Jamaica vacation for yourself and a friend March 20-27...start clipping and enter

What's the deal?

This is week 3 of a six week contest to determine the winner of a trip for two to Jamaica and 57 other great prizes! This two-page ad will appear in the Daily Iowa each Tuesday, now thru February 2, 1982...

To enter this week, just:

1. Fill out coupon(s) with your name, address and phone number.
2. Clip out coupon(s). Entries must be made on DI coupons.
3. Drop in entry boxes at participating stores now through Monday, February 8, 10 am.
4. Limit: one coupon per person per store. Coupons placed in wrong store's box will be disqualified.
5. No purchase necessary.
6. The names of this week's winners will appear in next Tuesday's paper.

Trip includes:

A roundtrip airfare, hotel accommodations, transportation, round trip airfare, baggage, meals, and a friend March 20-27...

A special thanks to

**Photos show art of body building**

By Suzyanne Reichenbach

Sandy Flenniken's career has been rising steadily and her latest show is another step in her upsurge. She has been entering body building regularly since 1984 and has won numerous awards at regional and national levels. Her current major competition is the Miss America competition, where she is currently preparing for the next competition.

**Art**

Craig De Leu's installation of photographs of body builders is a fascinating exploration of the human form. The images are powerful and thought-provoking, challenging traditional notions of beauty and the glorification of the female body. The exhibition runs until the end of the month and is a must-see for anyone interested in contemporary art.

Iowa Oaks name, ownership

IOWA OAKS (1970) - The Iowa Oaks, who have been one of the most successful farming families in the state for more than 100 years, have named their new ownership.

The Oaks family has been involved in the state’s agricultural community for generations. The family’s farm, located in the heart of the state, has been a source of pride and productivity for years.

In honor of their continued commitment to the state’s agriculture and their support of the community, the Oaks family has named their new ownership. This move is a testament to the family’s dedication to the state’s farming community and their commitment to providing quality products.

The Oaks family has a long history of excellence in the agricultural industry. Their farm has been recognized for its innovative practices and dedication to sustainability. The family’s commitment to the state’s agriculture is unwavering.

The Oaks family’s new ownership is a significant milestone in the farm’s history. It is a reflection of their commitment to the state’s agricultural community and their dedication to providing quality products.

NFL contracts expire for 149 free agents

NEW YORK (AP) - Several of the NFL's top free agents, including Ty Law, who played for the New England Patriots, were granted tender status Thursday. But the number of tendered players dropped to 149, from 153 last year.

The decision by the NFL was made in conjunction with the collective bargaining agreement, which expires at the end of the season. The NFL and the NFL Players Association have been working on a new agreement for the past year.

The tender status allows teams to offer a one-year contract to players whose rights they wish to retain. The tendered players have the option of signing with another team if they are offered a better contract.

With the NFL lockout looming, the number of tendered players could drop further. The NFL and the players have until May 11 to reach a new agreement.

Zalesky win helps power West, 24-9

By Jay Christensen

Iowa’s Lennie Zalesky helped rally the West to a 24-9 decision of the East during the All American Basketball Game on Monday night in the Field House.

Gannon sprains ankle at practice

By Matthew Teschan

Lennie Zalesky sprained his ankle during practice on Monday night in the Field House.

Strength encounter

The 6-foot-5-inch Zalesky defeated 6-foot-8-inch East Dorms.

Missouri leads Big Eight, nation

United Press International

The Big Eight coaches have already selected the Tigers as the Big Eight’s top team. The Tigers opened the season with a 3-0 record against Missouri State, 3-0, and Kansas, 1-0, and have yet to lose to the Tigers.
