Mall control to be sold to local group

By Cindy Schreuder

A newly-formed group of local investors, the Iowa City Development Corporation, will purchase the Iowa City Mall for $1.4 million. The transaction is expected to close in the next few weeks.

Still a little hazy on the details, but we know the Iowa City Mall is going to be sold. We just don't know who the buyers are yet. So we're following this story closely.

Libya explains unlikely spies

PARIS - Premier Liberal al-Baghdadi explained the case of "French's most unfriendly spy" - a mother and her two sons - as "necessary research" and an additional "necessary study" and "interesting research".

The spy's children, identified as "French's most unfriendly daughter" and "French's most unfriendly son", were described as "French's most unfriendly children" in the press conference.

Wayne Williams testifies

ATLANTA - Aolvew and self-help Oakwood Librarian al-Jalib testified Monday that he had never met either of the two spies who were described as "French's most unfriendly children".

He rejected the allegations that the children were spies and said that he had never seen them.

Faculty members find student evaluations useful

By Jennifer Shaler

Student evaluations are a useful tool for professors to see how their students reacted to their teaching and course materials. They also provide valuable feedback on ways to improve teaching and program offerings.

The DPT program has always allowed students to give feedback on their professors. However, the recent change in the evaluation process has raised concerns among some faculty members.

The new evaluation process was implemented last year to address concerns about student satisfaction and to provide a more comprehensive assessment of the quality of instruction. However, some faculty members have expressed concerns about the reliability and validity of the new process.

The EVALUATIONS are designed to be a comprehensive tool for faculty development and program improvement. They are intended to help identify areas where improvement is needed and to provide guidance for making changes.

The evaluations are conducted online through a secure and anonymous platform. Students are asked to rate their professors on a variety of dimensions, including the clarity of their teaching, the effectiveness of their course materials, and their ability to engage students.

The results of the evaluations are shared with the faculty member, the department chair, and the dean. The information is also used to inform the annual review process and to inform decisions about promotion and tenure.

The new evaluation process has been well-received by many faculty members. They appreciate the opportunity to hear from their students and to use the feedback to improve their teaching and courses.

However, some faculty members have expressed concerns about the reliability of the evaluations. They argue that the online format may limit the depth and breadth of student responses, and that the anonymity of the process may reduce the accountability of students.

The university administration is working to address these concerns. They are exploring ways to improve the evaluation process and to increase student participation.

In conclusion, student evaluations are an important tool for faculty development and program improvement. They provide valuable feedback to help instructors improve their teaching and courses. However, it is important to continue to refine and enhance the evaluation process to ensure its reliability and validity.

KRUI pledges assistance by CAC if given FM okay

By Karen Harvey

KRUI is a public radio station in Iowa City, home to some of the most unique and engaging programming in the country. However, the station has faced challenges in its quest to expand its reach.

KRUI is the only FM frequency that is available in Iowa City and the only available FM frequency that is within the bandwidth of the station. The CAC (Currier and Associates) is the onlyevaluaion service that is capable of carrying the heavy traffic load that would be required to support a new station.

The CAC has given KRUI an evaluation of the station and the results are promising. The station has a high potential for success and could serve the Iowa City community with a diverse range of programming.

KRUI has been working tirelessly to raise funds to support the station and the station's management team is confident that the station will be able to support itself once it becomes operational.

In conclusion, KRUI is a vital resource for the Iowa City community and the station is committed to providing high-quality programming for years to come. The station's management team is confident that the station will be able to support itself once it becomes operational and they are committed to providing high-quality programming for years to come.
Doomsday clocks probably will never run down. The steady march of human history will eventually bring its own end. The first step is the one taken by the first civilizations in the third millennium B.C. They set up walls to keep out the barbarians.

On cities, suburbs and official attitudes

H. O. W. T. O. M A K E. the most of a city, you have to be the tough guy at City Hall..." a sentiment that is felt by many residents of large cities. The city is seen as a place where the rich live and the poor work. The city is seen as a place where the young are entertained and the old are ignored. The city is seen as a place where the powerful make decisions and the powerless watch them.

Ken Harper

Letters

Don't blame Boyle

To the editor:

Why is the attitude after an eight-game win in the conference such that it is not a place to be? Why can't we just enjoy the moment?

You are not just benches at a bank working player like Kevin Boyle because of his shooting ability. He has in many other looks in his game. He is not a one-trick pony. He can step shooting over everyone. He is not a foul shooter. He is a jump shot away from being the best in the conference.

You can not just bench a hard working player like Kevin Boyle because of his shooting ability. He has in many other places in his game. He is not a one-trick pony. He can step shooting over everyone. He is not a foul shooter. He is a jump shot away from being the best in the conference.

Cheers

Barbara Barnard

Vandalism kept 'way down' because of Burge lock-up

By Benjamin Rosen
Staff writer

The Student Services building at Drake University was especially quiet last week due to increased security in the aftermath of the murder of a University of Iowa student, Michael Hurley. The building was the site of a meeting last Tuesday night that featured a presentation on the "U" by a survivor of the Iowa incident.

The meeting, which was attended by approximately 200 students, included a discussion of student response to the situation, as well as a presentation of the Iowa situation by a member of the Iowa Student Coalition to End War. The presentation was followed by a question-and-answer session.

In the presentation, the Survivor of the Iowa Situation was introduced by the Student Coalition to End War. The Survivor related his experiences to the Iowa situation, and emphasized the importance of student unity in response to external threats.

The meeting was well attended, with students from various disciplines participating. The Survivor's presentation was particularly moving, as he shared his personal experiences with the audience.

Following the presentation, there was an open question-and-answer session. Students asked a variety of questions, ranging from the specifics of the Iowa situation to broader questions about student unity and response to external threats.

The meeting concluded with a final statement from the Survivor, who emphasized the importance of student unity and the need for students to come together in response to external threats. The Survivor thanked the audience for their attention and participation, and encouraged them to continue to work together in the future.
Local Rose Bowl sales continue

By Dawn Oleson
Special to The Daily Iowan

The buying frenzy on Rose Bowl merchandise has caused stores, managers and union officials to step up their security precautions.

Manager Dannenberg was one of the busiest men in downtown before Union Bookstore opened. He was on his way to the store when a store employee said, "I have four people looking for Jerrie Ellis tonight."

"But he was looking for Bowl memorabilia," Dannenberg said. "He wanted to offer a gift certificate to the winner." Dannenberg estimated that the unsold merchandise was worth about $2,000.

"The number of inquiries has been reduced," he said. "But at the last minute people still drop in to check out the stuff, especially the bowls." Dannenberg said he is putting a limit of $150 per person and per week on orders for the Bowl.

"I don't think the fans are selling merchandise," Dannenberg said. "But at the last minute people still drop in to check out the stuff, especially the bowls." Dannenberg said he is putting a limit of $150 per person and per week on orders for the Bowl.

Also mentioned by Dannenberg was that he is putting a limit of $150 per person and per week on orders for the Bowl.

The manager of the store said the bowls were a hot item, and a few were sold prior to the game.

"We are a lot busier than before the game," Dannenberg said. "But at the last minute people still drop in to check out the stuff, especially the bowls." Dannenberg said he is putting a limit of $150 per person and per week on orders for the Bowl.

Government statistics reveal GNP fell 4.7 percent in 1981

WASHINGTON (UPI) - The Commerce Department reported Tuesday the gross national product fell 4.7 percent, the most since 1974, the sharpest one-quarter decline for all of 1981 in any year.

The report was released by Commerce Secretary Robert M. Reich in a news conference.

The report said that the nation's gross national product fell at an annual rate of 4.7 percent in the fourth quarter, compared with a revised 0.6 percent annual rate in the third quarter.

The report said the nation's gross national product fell at an annual rate of 7.9 percent in the third quarter, compared with a revised 0.6 percent annual rate in the second quarter.

By Gannett Iowa

Iowa transportation officials have been working in recent weeks on a plan to extend the Met Council’s ridership program to include ridesharing services, a move that could benefit cities in the region and reduce environmental impacts.

The plan, which is part of the agency’s ongoing efforts to improve the region’s transportation infrastructure, involves partnerships with local governments and private-sector providers to offer ridesharing options for commuters.

The Met Council has already developed a similar program in Minneapolis, where it has partnered with ridesharing companies to provide discounted fares for residents. The program has been successful, with ridership increasing by 20% in the first year.

Ridership in the Minneapolis area has also shown an increase of 15% since the program’s inception. The Met Council hopes to achieve a similar level of success in Iowa with its new ridesharing initiative.

The Met Council has identified several cities in the region as potential partners for the program, including Des Moines, Cedar Rapids, and Iowa City. The agency is currently in the process of soliciting proposals from interested parties, with a goal of launching the program in early 2024.
ARTS AND ENTERTAINMENT

FACTORY ART DEPICTS VARIOUS STYLES

By Suzanne Peterson

Attempts to trace the development of art and its various styles are, in general, complex and subject to much debate. However, it is possible to outline some broad trends and characteristics that have emerged in recent years.

One such trend is the increasing interest in the use of found objects and everyday materials in art. This has led to a proliferation of mixed media works that combine elements from different genres and disciplines. Another trend is the growing prominence of digital and virtual art, which challenges traditional notions of what constitutes a work of art.

In addition to these trends, there is also a proliferation of art that explores themes of identity, politics, and social justice. This art often uses non-traditional materials and techniques to convey its messages, and it is often created in response to specific social or political events.

Despite these trends, there is still a great deal of diversity in the art world, and it is important to remain open to new ideas and perspectives. By doing so, we can continue to expand our understanding of what art is and what it can do.
New book on Whitman shows his vast influence

By Parley Harper

Last week in Iowa City, "The Measure of His Life," a biography of Walt Whitman, was unveiled. The author, Murray Kipnis, described the famous poet's life and his influence on American literature.

Kipnis said that Whitman's works, particularly "Leaves of Grass," were groundbreaking for their frankness and inclusiveness. He noted that Whitman's poetry, with its focus on nature and the common man, was a departure from the traditional Romanticism that dominated American literature at the time.

Kipnis also discussed Whitman's personal life and his role as a newspaper editor and publisher. He noted that Whitman's work was often censored during his lifetime, but it has since become a cornerstone of American literature.

The book is based on Kipnis's extensive research into Whitman's life and works. It includes new insights into Whitman's relationships with other writers and artists of his time, as well as his influence on later generations of writers.

Kipnis said that Whitman's influence can be seen in the works of many modern authors, including Allen Ginsburg, who wrote the poem "Howl," which is often seen as a response to Whitman's "Leaves of Grass."

Kipnis concluded that Whitman's legacy is secure and that his work continues to inspire new generations of writers.

Biographer Boswell and the bibliophiles

By James Kaufman

Last week in Iowa City, "A Bibliographer's Life," a biography of James Boswell, was announced. The author, Murray Kipnis, described Boswell's life and his role as a bibliographer.

Kipnis said that Boswell was an important figure in the history of book collecting and that his work has been influential for generations of bibliophiles.

Kipnis noted that Boswell was a skilled collector and that his books are still sought after by collectors today. He noted that Boswell's skills as a bibliographer were matched by his skills as a writer, and that his works continue to be studied and admired by scholars and readers alike.

Kipnis concluded that Boswell's life and work continue to inspire new generations of bibliophiles.
Officials meeting

A meeting for all intramural bowling team coaches will be held at 9 a.m.
and 3 p.m. in Room 121 of the Field House.

Bowling entries

Entries for team intramural bowling are due by 4 p.m. on Tuesday, Feb. 15, to Room 117 of
the Field House. Each entry must be accompanied by $1
per team and the cost will be $1 per person. If you have
questions, please call 331-4210.

FREE Career Planning Seminars $331-2974

available every Friday in the Center for Career Planning.

IM hoop ratings show little change

By Matt Gallo

The top six teams remained intact in the men's intramural basketball rankings, released Monday by the UI Press. No. 1 Sigma Chi, which dropped Sigma Pi, finished 20-20, Tuesday, stayed on top while No. 2, Tabbing Bears, 11-3, Lambda Chi Alpha, 14-1, and Tau Pi Phi and Lambda Chi Alpha, 8-5, tied for second. No. 1 Sigma Chi, after a relatively new start this season, remains the top team in the ratings. The final team in the top six, Lambda Chi, is improving fast behind a scoring average of 91.5 points per game. The team has won four games in a row.

The No. 1 to No. 6 teams in the rankings, according to their records, are:
1. Sigma Chi
2. Tabbing Bears, Lambda Chi Alpha, Tau Pi Phi
3. LCA II, Fenton Flashes
4. Brother Ringers
5. Fenton Flashes, Social Loads
6. No. 1 Sigma Chi

Ringers kept their grip on the top three sporting seventh place in the rankings, followed by unbeaten Guys and 5.6. Hooper with its first loss, teams currently have posted second, followed by unbeaten Guys and 5.6. Hooper with its first loss, teams currently have posted ninth, 7. Naismith's Kids (3-2), 8. Brother Sigma Chi, which downed (tie), 9. Social Loads, and 10. OCCJ's.
