# Travel officers positions

By Rochelle Bozman

The director of University Travel resigned Tuesday and the impeachment proceedings taken against three top executives of the group by UI Student Senate President Tim Dickson will be dropped.

Motions for impeachment of the three were to be considered at tonight's senate meeting because of the misappropriation of over \$600 and the refusal of group members to work with the UI Student Senate.

But Dickson and senate Vice President Sheldon Schur dropped the motions after meeting with the three executives and other members of the group Tuesday

Mark Wisehart, the UI student in charge of University Travel, offered his resignation to Dickson and Dickson dropped the impeachment proceedings against Wisehart, Assistant Director Mark Simonson and Financial Director Dave Deasy.

UNIVERSITY TRAVEL is a senate commission set up to provide low-cost tours for students and to give students a chance to gain experience in setting up the tours.

The three funding losses are: • A trip expenditure of \$429 to Deeann Brauer, former assistant

• A \$150 cash advance to Guy Davis, a former member of the • A \$57.15 cash advance to

Wisehart. Dickson said the problem has

been going on for a long time, because there is a lot of "inbreeding" within the senate's

"Their main justification for doing it was that it was going on for a long time," he said. The travel executives asked why they should be held accountable for the bills when every other travel group has done this in the past. "I told them that I wasn't

senate president at the time," Dickson said. "And second, you don't go out and make expenditures for your own benefit just because it's been done for a long

"It's a problem that in student senate we've had with all our commissions," Dickson said. "This parallels the HEC problem.

HANCHER **Entertainment Commission was** disbanded in 1980 after running up a debt of over \$20,000 as of June 30, 1980, Student senate was forced to repay the debt.

We want the commissions to start reporting to us before they get into trouble," Dickson. The senate will work with Un-

# Harrison Williams withdraw reluctant to resign

WASHINGTON (UPI) - Harrison Williams, facing Senate votes to censure or expel him for his Abscam conduct, ignored the urging of some colleagues Wednesday and declared he is not considering resigning "right

Instead, the convicted New Jersey Democrat sat through the fifth day of an increasingly personal trial on the Ethics Committee's recommendation that he be expelled for "ethically repugnant" behavior that "tends to bring the Senate into disrepute."

Senate Republican leader Howard out for any lesser crime than treason Baker said after the censure vote, or disloyalty. which was expected late Wednesday. he would immediately recess the Senate until Thursday.

He said his purpose was only to pause at a logical "benchmark" in the trial, but an overnight recess also will give Williams the option of resigning before the expulsion vote the next day.

If he does not choose to resign, Williams could become the 16th senator ever to be expelled — the first in 120 years and the first ever booted

MOST EYES in the galleries, however, were on Williams, who was sitting with his palms together, resting on his chin. His wife, Jeannette - a tall blonde in a light gray dress - was, as always, in the first row of the mem-

Sen. John Melcher, arguing Williams' case, said the Senate was about to commit "a due process

See Williams, page 8A Sen. Harrison Williams: "This is a day to clarify the mysteries."

# **Opinion** in pro-life dispute due today By Karen Herzog A preliminary vote has been taken, but UI Student Judicial Court justices say that a decision on whether the UI Student Senate acted unconstitionally in denying a pro-life group funds will

not be final until 5 p.m. today.

The justices declined to comment on the preliminary vote Wednesday night, saying that they were still working on writing the opinions. Justice Ken Roberts said the decision could-'theoretically" change before it is announced today.

Roberts said every argument will be explained in the judicial court opinion. We spent many hours going over case laws and the exact arguments given ... think this court clearly set forth its boundaries that certain groups seeking funding have if they feel they were violated by denial of funding," he said.

The case before the court stems from a complaint filed by the UI Students' Right to Life Committee Oct. 21 after it was denied funds by the senate in April 1981. The senate's Budgeting and Auditing Committee had recommended the senate allocate \$144.60 to Right to Life, but the motion to fund the group failed at the senate's April 30, 1981, meeting after two votes were

THE FIRST VOTE was tied until Senate President Tim Dickson broke the tie, voting against the funding. A second vote - on whether the group should receive half of the recommended funds - was also defeated.

Dickson said Wednesday that a majority of UI students are pro-choice. The senate allocates mandatory student fees to groups who support university students, and there's no way I can justify expending funds to this organization.

But Right to Life members questioned whether student government at a public institution can withhold mandatory student fees from a group because the senate disagrees with the group's philosophy.

# Children use colors to show pain

By Mary Schuver

Hospitalized children who are in pain may refuse to tell a nurse when and where they hurt because, "Everytime they say something hurts, we hurt them by checking them," said Perle Slavik, a head nurse on Two West, a medical and surgical unit at the UI Hospitals.

But, courtesy of a UI assistant nursing professor's research, young cancer patients at the UI Hospitals mark their "owies" with yellow, orange, red, green, blue, purple, brown or black x's to help nurses discover where and how intensely they are experiencing pain.

FOR ABOUT a decade, Jo Eland has studied children's perception of pain, using patients aged 4 to 10 years. In 1975, she developed a procedure in which children use colors - a medium they are familiar and comfortable with - on a body diagram to communicate

their pain. The procedure seems to out where he hurt, even though there work as an early-warning system to alert nurses to yet-undetected ailments and degrees of disease, Eland said Fri-

The children are given diagrams showing the front and back of a body. Next, they are asked to choose four colored crayons - a color for "the worst hurt that had ever happened to them, a little-hurt color, a betweenhurt color and a no-hurt color," Eland said. The children are asked to color the area on the body diagram which corresponds to where they hurt on their vocabulary that can enable them to bodies, using a color representative of the pain they are experiencing.

"SO MANY people still believe that kids can't tell you where they hurt ... which is kind of crazy. We ought to put that one to rest," Eland

One boy, who was hospitalized with a area on a diagram a deep red to point put in your cheek and you leave it there

were no symptoms that could justify his experiencing abdominal pain, Eland said. Fifteen hours later, it was discovered the boy had a bowel obstruction.

Children may deny a pain to escape the needle, or they may do so because they can't express pain in their limited vocabulary, Eland said.

Adults have 141 different words to describe pain, ranging through stabbing, throbbing, and excruciating. But children have not yet acquired the describe pain in adult terms, she said.

"SOMETIMES even as they learn word labels, they get mixed up. Like,'I got a headache in my knee," "Eland said. In another example, she said one child told her his leg felt like a lemon. 'I said, 'What, a lemon? Tell me about that.' And he said, 'Well, you know leg infection, colored in the abdominal when you have a lemon drop and you

a long time, and you take it away, and you know how your cheek feels?' And I said, 'Shriveled.' And he said, 'That's the word, my leg feels shriveled."

The color communication tool has been used with children suffering a variety of afflictions and diseases, including burn patients and the chronically ill, Eland said.

"IT'S THE only tool that's been developed for kids to use to communicate their pain," she said, adding that although other tools have been developed, they have not been extensively researched. "Maybe it does, maybe it doesn't" have potential as a reliable clinical assessment tool, Eland said, adding that it seems to

Slavik, the head nurse of the unit at the UI Hospitals where Eland tests her assessment tool on young patients, said the system is effective and can take the children's minds off the hospital side of See Art, page 8A

# Briefly

### Protesters met with force

GUATEMALA CITY - Police and soldiers firing automatic weapons and tear gas grenades Tuesday dispersed 1,000 people protesting the presidential elections, witnesses said. Dozens were reported beaten or detained, including eight foreign journalists.

It was not immediately possible to confirm the number or seriousness of the casualties. Nor was not clear whether the police shot the protesters, who gathered despite a stiff government warning that it would "repress"

### Austria welcomes Khadafy

VIENNA, Austria - Libyan leader Col. Moammar Khadafy arrived in Austria Wednesday on his first state visit to the West and said he had come to talk about preserving 'world peace.

The visit, for which Austria was given only two days' notice to prepare a 1,000-man security operation, brought an immediate chorus of criticism against Chancellor Bruno Kreisky, who defended the decision to receive

### Protest ends in violence

TEL AVIV, Israel- Israeli soldiers wounded a Palestinian youth in Nablus Wednesday and used tear gas in Bethlehem in the fifth straight day of increasing anti-Israel demonstrations in the occupied West Bank, the

The army said youths milling in Nablus' central square threw rocks and iron bars at soldiers, despite orders to disperse followed by shots fired in the air.

### Troops clash with rebels

SAN SALVADOR, El Salvador -Government troops backed by heavy artillery and planes Wednesday swept through a northern guerrilla stronghold in an attempt to halt rebel attacks on the Pan American Highway, army officers said.

Soldiers from the Green Beret-trained Atlacatl Battalion and garrisons of San Vincente, Sensuntepeque and San Salvador participated in the attack, which was launched Tuesday in northern Cabanas province, the officers said.

### Brezhnev's son surfaces

MOSCOW - Yuri Brezhnev, son of the Soviet president, returned to his job Wednesday after a long absence, scotching rumors that he had been ousted in a campaign against his father.

Brezhnev, the first de foreign trade, reported to his office and "is working very hard," an assistant said.

"He has been ill for a long time and he has a lot of meetings to attend now," said the assistant, Antonina Grigoryeva.

# Call to limit nuclear arms

WASHINGTON - Nearly 140 members of Congress called Wednesday for the United States and the Soviet Union to freeze the nuclear arms race and negotiate reductions in their massive atomic arsenals.

Resolutions asking for an end to the stockpiling of nuclear weapons and urging talks on weapons cutbacks were filed in the House and Senate. The bipartisan proposals were co-sponsored by 138 members.

was "monitoring" her behavior.

Later that month, J. Patrick White, first assistant county attorney, told the board that the attorney's office had a new wordprocessing machine that would aid Johnson County officials in their attempt to recover

Under the old policy, only one late notice was mailed to the patient, but White told the board that the word processor would allow the county to mail two or three letters and also help to institute proceedings in smallclaims court.

Under the new plan, the ambulance service still sends certain cases, such as those involving wrong addresses or patients who have moved, to their collection agency.

BULKLEY SAID Wednesday that the report is intended to inform the supervisors of the changes that have occurred so far. "We're briefing them on what's been done

so far," said Bulkley.
White said that no figures were available yet to compare the policy with the old one, but added that he assumes the board will continue with the new policy.

Ambulance service director Mike Deeds told the board last month that the service is not a money-making operation, and the supervisors have recently been investigating ways to increase its efficiency and improve

The board is in the process of attempting to set up a task force of county officials and representatives from Mercy Hospital and UI Hospitals to investigate possible changes in the service's operation.

At a Feb. 16 informal board meeting, Deeds said that a "consortium" ambulance service available to and supported by both hospitals might be the most efficient way of providing service.

# Bulkley. hat no figures were available e the policy with the old one UI College of Law receives high rank

By Mary Schuver

The UI College of Law has received a high ranking on a national law college survey, even though the American Bar Association has raised questions about the college's future accreditation if a proposed \$23.3 million law building is ejected by the Iowa Legislature.

According to a survey conducted by Charles Kelso, a professor at the University of the Pacific's McGeorge School of Law, the UI Law College is ranked fourth in the nation.

The UI college received a score of 10 n a scale counting up from a perfect score of six. Only Northwestern, Yale and Columbia law schools received beter scores. The UI college tied with Harvard, Stanford, Michigan and the University of Washington.

The ranking, in light of the battle for better facilities, is a "paradox," said N. William Hines, dean of the

The survey's criteria was favorable to the UI law college, even though the college is smaller than most of the other top-ranked colleges in the survey, Hines said Wednesday. The survey anked 167 law schools accredited by ne association.

THE KELSO SURVEY assumes that brary resources availible to students tors that "makes a good school," Hines

Because of its well-known library. the UI Law College has acquired a reputation for having excellent resources, although the library ilding is cramped and cannot take e load of student and faculty use, he said. The college has about 100,000 library volumes in warehouses around

Not much remains of this year's lush banana crop at the UI's Westside Botony away at it four weeks ago as it ripened. The approximately 125 bananas were Greenhouse since Dr. Robert Muir's staff and botony students started peeling the result of a 12 month growth cycle that is about to start over again.

# Herky the Hawkeye: 'one big fan'

By Mary Tabor ecial to The Daily Iowan

One extra Hawkeye will board the plane this morning as the UI men's basketball team heads west for the NCAA tournament. This one can't dribble, shoot, or pass, but he faithfully helpful (to charitable groups) without dons his black and gold suit, packed turning strong-arm tactics on its own with enthusiasm.

employees," Ellyson said. "They want This Hawk is Herky, and whether he's on the court, mat, or field, he an organization to develop its own incarries a lot of weight. formational system rather than having

"Herky is like one big fan," said Craig Standish, chairman of the Delta Way did a much better job of publiciz-Tau Delta committee which is in charge of the mascot.

BESIDES THE 40 pound helmet he wears during the football season, this United Way will be happy with the spunky bird carries a staunch tradition on his shoulders. The character can be traced to James Fenimore Cooper's 1826 novel The Last of the Mohicans. Natty Bumppo, a fictional hero who appears in Mohicans as well as several other Cooper novels, is nicknamed Hawkeye by some Indians he

ted but not surprised about the task In the 1957 edition of the historical fiction, Bumppo is described in the in-'There's not any change from last troduction as "a sophisticated year. It won't be any better," Randall woodsman, restive in the confinement said, adding, "I'm not surprised that of white civilization, and a believer in presentations on campus when spon-sored by a recognized UI group, and to have chosen in United Way fund-Randall said the role UI employees retributive justice remindful of the Old Testament." The state took the nickname in 1832 and the UI adopted it raising activities is "a totally passive role. And that's not an effective way to

> THE HAWK caricature was created in 1948 by former UI Journalism Instructor Dick Spencer, who was inspired while studying stuffed animal specimens in the UI Museum of Natural History in Macbride Hall. The staff's approval — as well as a faculty approval which was voted in Later that year, Belle Plain resident early last week - will be forwarded to John Franklin supplied the winning en-

try in the name-the-hawk contest, and Herky was complete.

Different members of the Delta Tau Delta fraternity have "played" Herky for the past 21 years. Last fall, Herky was officially accepted as a part of the UI when the UI Men's Intercollegiate Athletics department decided to sponsor the mascot.

Standish said the department's spon- for all football games, and home

sorship didn't effect Herky's status. The people who play Herky still travel with the cheerleaders and the men behind the mask receive no pay, Stan-

FOUR EXPERIENCED Herkies -Standish, Mike Manful, Keith Kraus and David Gross — currently perform

the crowd is large enough to "fire up" Herky will also appear at other sporting events, Standish said.

Some members of Delta Tau Delta

who are training to be Herky at big sporting events put on the Hawk costume for parades and visits to hospitals and elementary schools.

'It takes a special person to climb inside that suit," Standish said. "You have to have enthusiasm, school spirit, and a certain class," he added.

Kraus said the highlight of his experiences playing Herky happened during the Rose Bowl game when he was "smashed" by a Washington player.
"It's the only thing a lot of people remember from the game," he said.

MANFUL, a two-year Herky veteran, said, "It's a kind of schizophrenic feeling. Outside the suit I'm just Mike Manful, but inside the suit I'm the best Hawkeye fan that ever lived."

Standish said Herky gets more popular as teams become more successful. 'The crowd changes you. You let them dictate your actions. But if one philosophy summarizes Herky it must 'Go Hawks'."

Besides the fun, there are some drawbacks to being Herky. Manful said he hates dealing with nasty fans from opposing teams. "They will even throw things or grab you," he said.

Kraus said that although many people think Herky only focuses his eyes on the sporting events, he actually pays more attention to the crowds.

Standish said his name was drawn to be Herky for the first round of the NCAA tournament. If the Hawks advance to Utah, however, the other three Herkies will draw for the spot.

Loren Woods' letter, describing how he was again "dumped" from his wheelchair on campus, should shock anyone who reads it. It should also encourage people to evaluate their attitudes to the handicapped, considering how they might have dealt with Woods' predicament.

According to Sharon Van Meter, Coordinator for the Office of Services for the Handicapped, the people who dumped Woods in Burge Hall were students, who deliberately attacked him - this was not a case of carelessness.

Not many would act as callously as these criminals, but neither did anyone offer Woods assistance. Some time during his fall he lost his wallet — someone drew money from his checking account. Van Meter stresses that despicable events like these are rare, but they dramatically illustrate the serious problems handicapped students face in being accepted.

These "attitudinal barriers" are what the UI is emphasizing in its "Handicapped Awareness Days," today and Friday, Much has been achieved here in terms of physical accessibility, but attitudes are still a problem. Those who fail to help students in difficulty may feel troubled, but for some reason they are afraid. Perhaps they feel ignorant and unable to cope; perhaps they don't want to get involved; perhaps they are afraid of being rebuffed.

Whatever the reason, people must overcome their fear and treat the wheelchair-bound or the blind with the humanity they would treat any neighbor. Offering help is always appropriate, even if the handicapped decide they do not need it.

With luck, this latest campaign will help in forcing people at the UI to examine their attitudes, but awareness and acceptance of the handicapped is not just a day-long gimmick. A disability lasts a lifetime — let's hope that Loren Woods and others will not have to spend their lives in fear of the insensitivity and downright brutality of other human beings.

Liz Bird

# College loan plan

Iowa's 27 private colleges and universities have been the victims of declining enrollments. Much of this is due to the distressed economy that has increased operating costs, inflated tuition fees and thereby decreased the number of students able to afford the

The Iowa Senate has come up with a plan to help. If Gov. Robert Ray approves, up to \$100 million in tax exempt bonds will be available for student loans at below-market interest rates. The state will not be required to contribute any funds but only to administer the program.

The collateral for the loans will come from the private schools' real estate and endowments. Recent cuts in state and federal aid to students have sorely hurt private institutions. The state universities have also suffered as a result because many of the students the smaller colleges lost are now overcrowding the public

The new law may help to ameliorate the situation, but its effects will probably be minimal. Although it is a bold step for the private schools to make - risking their land and money to assist students - the interest in and cost of private education make it a luxury not many can afford, even with financial aid.

The effort of the Senate and the colleges and universities to resuscitate the private school program without public funding deserves support. It seems the best solution to a problem whose causes lie far beyond Iowa's perimeter and that probably no individual state could solve. But because of the depth and complexity of the factors involved, don't expect the state's plan to fully

# El Salvador

The number of options at the Reagan administration's disposal for a peaceful solution to the war in El Salvador diminishes almost hourly. When the U.S. State Department shunned Mexican President Jose Lopez Portillo's offer to mediate the conflict there, it brought the United States closer to full-scale armed intervention.

It is difficult to see what the administration found wrong with Portillo's offer. Portillo is sensitive to the needs and security interests of the area. He is also a valuable but tenuous U.S. ally, and one whom the president cannot well afford to snub.

Publicly, the administration has said it prefers to allow interested parties in El Salvador to express their political interests by voting in the elections to be held in the country later this year. The administration's faith in the democratic process is either a ruse or an indication of incredible naivete, as it would be virtually impossible to conduct free elections in El Salvador at the present

Citing the lack of a candidate who represents their interests and the certainty of election day fraud, leftists in the country have called for a boycott of the elections. For similar reasons, several Western nations have refused the United States' request to send neutral observers to monitor the elections.

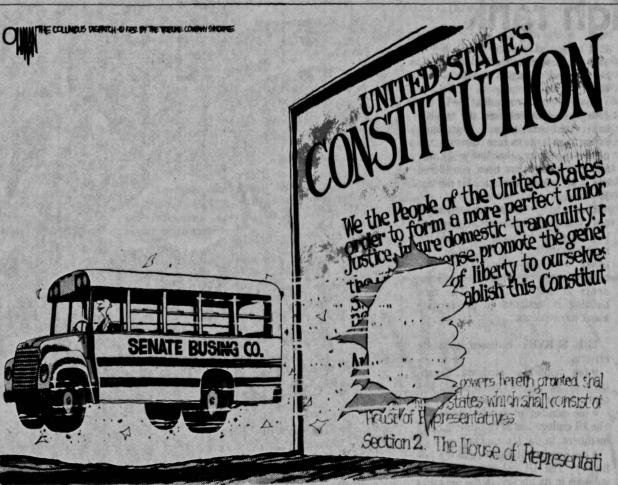

By shunning Portillo's offer and endorsing the upcoming elections, the administration shows itself to be less interested in promoting democracy in El Salvador than in denying the leftists the right of democratic representation in their own government. Mediation would mean giving all parties in the El Salvador conflict a chance to voice their concerns. The administration apparently considers this an unnecessarily democratic alternative.

# Handicapped student 'dumped' from his wheelchair on purpose

To the editor:

On Jan. 28, I was dumped from my wheelchair while in Burge Hall basement. This was the third time such an incident has occurred in the seven months I've been a student at the UI; which means I've been dumped nearly every two months!

In the process of getting myself back into my chair - no-one offered to assist me - my wallet was stolen. To compound the situation, money was withdrawn from my checking account on two separate occasions.

The greatest barrier facing the handicapped at the UI may well be the attitudes of some of the non-disabled.

# U.S. foreign policy

The news media are very important to any study of politics; they select the information and misinformation that help us define sociopolitical reality. The mass media say many things about Communist oppression — what about the system of the United States? This is a nation of many different social, economic, ethnic and regional groups. which make varied and competing demands on public office-holders. The government must act as mediator of these conflicting demands, attempting to formulate policies that benefit the public. But what is happening in foreign policy?

The government claims it is defending democracy against the tyranny of communist insurgents in Asia, Africa and Latin America. But in reality they are defending the capitalist world from social change. Guatemala in 1954 and Chile in 1973 are

In both countries popularly elected governments began instituting progressive changes for the benefit of the poor and began to nationalize or threatened to nationalize multimillion-dollar U.S. corporate holdings. The United States was instrumental in overthrowing these governments and instituting right-wing fascist regimes, and U.S. governments have been propagating fascist regimes throughout the world, using assassination squads, torture and

The U.S. government provides a foreign aid program ostensibly designed to help poorer nations, but aid is usually allocated on condition that it be used to buy American goods at American prices, to be transported in American ships. Foreign aid and investments help U.S. capital exploit the recipient country's labor. monopolize its resources, control its politics and influence its tastes, markets and technical needs, so that dependancy continues well after the aid program has ceased.

The effect of foreign aid and private U.S. investment is to dislocate the economy of the poorer country. suppress democracy and freedom

CARP supports research into a positive alternative to totalitarian Marxism-Leninism, which can boast no working model, and into the rekindling of spiritual and moral ethics based on harmony, individual responsibility, and the broadening of the individual's consciousness to establish a world patriotism.

# Military spending

To the editor:

I congratulate Tim Dickson for his guest opinion on the effect of the proposed 1983 budget on student loans. but disagree with his statement that many "are categorically rejecting New Federalism, and the Right - New or Old." (DI, March 2). How can we reject New Federalism when it hasn't been debated vet?

I am sure many people don't agree with all of President Reagan's ideas including myself. Yet, when I voted for him in 1980. I saw different solutions to the complex problems facing our country - solutions that he is trying to carry out now.

Our form of government lets us disagree with proposals like Reagan's budget. I believe he will realize his proposed military budget is too big and that some social programs need more money, including student loans. Dickson's suggestion that students write and let their representatives know how they feel was good. What we should do is give them logical reasons

why students deserve aid and the Pentagon budget should be lowered. Many people's major concern is that the budget deficit and the increase in military spending are too big. We need a secure defense system that will protect our interests abroad and at home. We don't need an inefficient Pentagon that receives what seems like an unlimited budget - to squander

on useless weapons The Pentagon's large cost over-runs of the weapons being developed by the private sector are seldom questioned by the U.S. Defense Department. because those in charge are afraid to jeopardize their post-military jobs in the private sector. The B-1 and Nimitz nuclear carrier are good examples of the Pentagon's ability to waste billions of dollars. The B-1, which should be ready in 1986, will be obsolete by 1990. The Nimitz, as Admiral Hyman Rickover said, would last "about two days" during an all-out war because of

its size and weight So let your representative know that the best defense system we can have is one that is efficient. If enough people respond, the military budget should be reduced and the necessary social programs bolstered with the shift of

# Ronald encounters Cheshire Watt's grin

self into quite a pickle. After eating a jellybean inscribed "Eat me and increase national more than three inches in height. Adding to his peril, he is now face-to-face with the Cheshire

RAWING HIMSELF up to his full height - which was not very full and hardly any height at all - Ronald said in his sternest tone, which was now more of an annoyed squeak, "See here! I'm

not in the least bit fond of being called endangered. Neither am I terribly keen on being referred to as a species. So you can just scat. Go damage some upholstery or something.

But the Cheshire Watt's smile never wavered and his gaze remained intent. 'You are by far the proudest lunch I've had all week," he purred. "Most endangered species are rather more timorous than you. I imagine they're embarrassed. But then it is all their own fault. They are put here on this earth to be used as we superior species see fit, wholesale slaughter being perhaps the fittest use of all. Now could you please scurry a bit? To just have you standing about like that is ever so dull.

It now dawned on Ronald that tough talk, his preferred tactic, was not going to have the desired effect. He considered his usual second option, telling a joke, but stopped short when he considered that if the Cheshire Watt opened his mouth to laugh, he might very well close it on Ronald, which wouldn't do at all.

THEN RONALD thought that the Cheshire Watt might be quite hungry indeed, and conceived a plot to kill two birds with one stone, which would probably appeal to the Chesire Watt in

'Sav." said Ronald brightly. There's been a simply scrumptuouslooking cockroach about, and he scurries quite nicely. I believe he's even in this building somewhere. Mightn't he make a much more satisfying meal than I?"

The Cheshire Watt's smile retained its steady gleam. "Oh. come now." mewed the Cheshire Watt. Cockroaches are hardly endangered at all, now are they'

But this one weighs 50 pounds!" 'He's endangered now!" yowled the Cheshire Watt, his smile growing impossibly wide now. "That sounds quite rare indeed. Thank you so much. Sorry about that little misunderstanding before. Now if you'll excuse me. I must make a trip to my box.

RONALD MADE a face. "I hardly see the need to discuss such things in public. It is ever so indelicate.

"Oh, it's nothing like that," purred the Cheshire Watt. "I just like to pretend I'm strip-mining. It whets my appetite so." And with that, the Cheshire

Watt slunk away into the gloom. Ronald sank to the floor, relieved that he hadn't ended his life as a snack. But that hardly solved his current problem. Not wanting to risk eating any more jelly beans, he decided to explore the building to find an alternative solution. Unfortunately, the gloom and accumulated dust quite obscured the knothole he now trod on. Light as he was, he was heavy enough to fall through the hole's plug of grit. He landed with a resounding thud on a huge mattress in what appeared to be the basement. And standing there, looking at him with a none-to-pleased expression, was the cockroach!

Next Week: The Finale of Ronald in No-Wonderland.

Humes is a UI undergraduate. His column appears every Thursday.

# **Undergrad GPA dips slightly**

By Karen Herzog

The UI underdergraduate grade point average dipped to 2.687 last semester, the lowest in 10 years, according to W. A. Cox, UI registrar. But UI administrators aren't going to panic yet. Philip Hubbard, vice president for Student Services, said Tuesday, "We're not concerned about it at this time because we know there are small fluctuations from semester to semester, and it may go back up

Over the 10 year period, each UI undergraduate college has recorded lower GPAs for fall semesters than for spring semesters.

However, UI administrators attribute the low GPA for fall 1981 to a number of non-seasonal factors. Sensitivity to 'grade inflation,' a record number of new freshmen, improved advising, and fewer pass - fail option courses were all mentioned as possible

The UI College of Nursing recorded the largest GPA drop of all undergraduate colleges - from a 3.077 for fall 1980 to a 2.862 last fall.

Eleanor McClelland, assistant dean of the College of Nursing, said, "I would tend to attribute (the drop) to a greater effort on the part of the faculty to evaluate students more critically.

"GRADE INFLATION" has not een a problem at the college, McClelland said. "As faculty members, we've been sensitized to it." Cox pointed to the record 3,836 new

Undergraduate grade point Liberal Arts **Business Adm** 10-year GPA comparison DI graphic by Howard Hess Source: UI Registrar's office

freshmen enrolled at the UI last fall. He speculated Tuesday night that first semester freshmen have lower GPA's than other undergraduates.

Many freshmen receive better grades in the spring than the fall, after they become accustomed to college and learn better study skills, Cox said.

"Perhaps it's just a matter of adjustment," Hubbard said, adding that ACT scores indicate that the qualifications of students admitted to the UI have improved over the ten year period.

An improved undergraduate advising program may also encourage students with low grades to remain at the UI, bringing down the over-all GPA. "Now

students getting low grades may talk to an adviser and they won't give up so easily. This could be an encouraging sign if students are dealing with the frustration instead of dropping out,"

Only a very small percentage of all undergraduate students are dismissed from the UI because of poor grades, he said, "But the poorer students tend not to re-enroll.

COX SAID that freshmen are slightly more likely than upperclassmen to drop out in response to poor grades. But, he said, the dropout rate for new freshmen has declined over the past five years. Of those enrolled last fall,

87.2 percent re-enrolled this spring. 'I'm sure there are a number of reasons for this, and improved advising is one of them," he said.

1981-82 2.668 2.905

. 2.758

.2.734

2.742

Reduction of the number of pass fail option courses may also be a factor in the drop, Cox said. "Now students are having to spend more time with their classes because they can't 'just get by' with a passing mark (as the pass-fail option allows)." This may bring a student's grade point average down, he said.

Mary Skourup, campus progams assistant, noted that the current tight budget is forcing more students to work, which may lower their grades.

# NAACP members elect new officials

Approximtely 25 people cast ballots in an election held by the UI college chapter of the National Association for the Advancement of Colored People Tuesday evening at the Union.

Kelvin Ward, a UI graduate student in secondary education from Chicago, was elected president. The office of vice president will be filled by Jennifer Walz, a graduate of the UI. Lisa Brown, a UI sophomore from Kansas City, Mo., was elected secretary, and Lois Greene, a UI senior from Cedar Falls, was elected

A nine-member executive board was also elected by acclamation on Tuesday. They are: Sheila Burks, John Vadnal, Sierra Walker, Melvin Caldwell, Jill Johnson, Carmen Cason, Romayne Hollis, Joey Thurman and Johnny

Lisa Brown, secretary, said the UI chapter was established in the fall of 1981 and has a membership of 110. "It is the largest undergraduate college NAACP chapter in the Iowa-Nebraska NAACP state conference," she added.

Jennifer Walz, vice president, said the members spent last year organizing the UI college chapter so their membership charter would be accepted by the national office of the NAACP at a meeting in Houston in April. "We had to get a certain number of members to

be eligible. The office of the UI chapter of the NAACP is located in the Student Activities Center in the U-

# **Deficits ahead for Job Service**

DES MOINES (UPI) - Job Service of Iowa officials said Wednesday the agency faces monthly deficits through 1983 unless the state borrows money from the federal government or changes its unemployment law.

The bleak outlook follows another report that Job Service may go broke during the last two weeks of April, Director Colleen Shearer said. She said the agency may have to borrow federal money to remain solvent in late April. The fiscal projections for 1983 were prepared in optimistic and pessimistic versions, but both predicted frequent monthly deficits and a year-end deficit of \$7 million to \$94.7 million,

The immediate money problems of Job Service have lessened in the past month, but still remain much worse compared to February 1981.

# Reagan bans Libyan oil imports

WASHINGTON (UPI) - President Reagan ordered a total ban on Libyan oil imports Wednesday and cut off virtually all U.S. sales to the North African nation in retaliation for strongman Moammar Khadafy's support of international terrorism.

In announcing the steps, the State Department issued a statement saying the actions were taken because of "a continuing pattern of Libyan activity which violates accepted international norms of behavior.

The crude oil cutoff is not expected to have a measurable effect on American consumers, officials said, since the amount of Libyan oil the United States imports is negligible.

The sanctions, long under study by the administration, are the latest installment of escalating battle of nerves between the adminsitration and and medical supplies."

LAST AUGUST, two U.S. Navy jets THE BAN on Libyan oil comes at a

cluding the president.

Citing threats to the Sudan, Somalia, and North Yemen, a State Department official said, "Libya's activities are worldwide" and extend to financial support for left-wing governments and groups in Central America, including the Nicaraguans.

The specific sanctions, authorized in a proclamation signed by Reagan Wednesday, include:

• Prohibition of imports of Libyan crude oil. That would not include petroleum refined aboard. • Banning U.S. "oil and gas

technology equipment that is not readily available from sources outside the United States." • Requiring licenses for other ex-

ports, with the exception of "food and other agricultural products, medicine

shot down a pair of Libyan planes off time, State Department officials said, the Libyan coast, and late last year when U.S. imports are less than 150,000 reports surfaced that a Libyan "hit barrels a day - less than 3 percent of squad" had been dispatched to U.S. imports and only about 1 percent assassinate top American officials, in- of U.S. domestic consumption.

pressure on the Khadafy goverment, which is running a financial deficit and is drawing on its currency reserves because of a worldwide drop in oil de-

American officials have repeatedly charged that Khadafy provides funds and training for terrorists operating around the world.

In detailing the sanctions, a State Department official referred to "an outrageous" attempt to destroy the American Club in Khartoum, Sudan, with large bombs timed to explode when the building would be filled with hundreds of weekend dancers.

The bombs, hidden in stereo speakers, were discovered, the official said, and traced to "Libyan intelligence officers." The bombing attempt occurred last November.

WHEN THE "hit squad" reports surfaced, Reagan directed Americans in Libya — then numbering about 1,500,

ficials, only an estimated 400 Mobil.

The limits are designed to put Americans, most of them married to Libyans, have chosen to remain in the

> The official said the small amount of Libyan oil now used in the United States can easily be made up from other sources. However, he said, the ban will remain in effect even if the international petroleum surplus should

Officials said Libya, at the current level, earns about \$150 million a month, or nearly 25 per cent of its total hard currency revenues, from the sales of oil to the United States.

The U.S. statement said. "We will no longer be providing the dollars or technology which can be used for activities that threaten international stability.

A recent report by the General Accounting Office said the cut-off of Libyan crude should have virtually no effect on oil supplies or prices, although it will have a specific impact on the most oil company employees - to American companies doing business with Libya. They are Amerada Hess, According to State Department of- Conoco, Marathon, Occidental and

# Coroner's ruling in Belushi case: 'narcotics death'

LOS ANGELES (UPI) - Comedian John Belushi the round-faced anti-hero of movie and TV fame, died six days ago of an overdose of heroin and cocaine, county coroner Thomas Noguchi said Wed-

"The medical investigation into the death of John Belushi has been completed," Noguchi said in a brief statement. "The deceased died of an overdose due to intravenous injections of heroin and cocaine.

"Both cocaine and heroin were found on the premises," Noguchi said.

The announcement came shortly after Police Chief Daryl Gates confirmed that a white powder believed to be cocaine was found in Belushi's hotel room and said he thought the comic had died a "narcotic's

Gates' comments during a speech at the Police Academy and in answer to reporters' questions after the talk were the first on-the-record statement by authorities on what might have caused the 33-yearold actor's death.

There have been numerous reports that Belushi died of an overdose of cocaine, but the coroner's statement was the first mention of heroin. After the coroner's announcement, Gates iden-

tified for the first time the woman taken away from hotel in handcuffs the afternoon Belushi's body was discovered by a friend and physical therapist who was unable to reach him by telephone.

GATES IDENTIFIED the so-called "mystery woman" as Evelyn Smith, but gave no further details about her.

Miss Smith, who signed for Belushi's breakfast that morning when delivered by room service and later drove up to the hotel in his rented red Mercedes, was released by detectives after several hours of questioning at police headquarters.

Gates said there was no evidence someone else gave Belushi the fatal injection of the two drugs known as "hardballing." The chief said he expected no charges to be filed in the case.

Belushi, the manic, irreverent comedian who skyrocketed to fame on the "Saturday Night Live" television series, was found dead in bed in his Hollywood hotel bungalow at the Chateau Marmont last Friday.

THE COMEDIAN, who went on to star in such movies as "Animal House," "The Blues Brothers" and "Neighbors," often spoofed the drug culture in his comedy routines — in particular cocaine. In one skit, Belushi appeared with white powder smeared over his face while being questioned by a police officer about cocaine.

The Los Angeles Times reported Wednesday that unnamed sources said needle markes were found on Belushi's body and had mainlined cocaine.

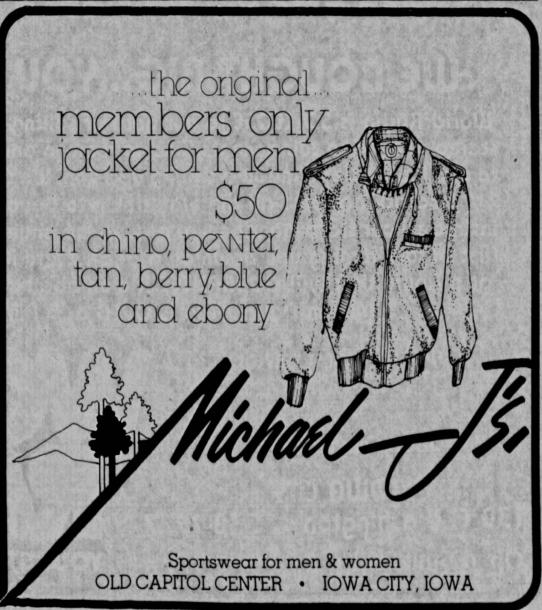

Earlier Wednesday, a doctor who recently treated Belushi said cocaine can be deadly in very small amounts.

"Cocaine reaction will cause a complete respiratory and cardiac attack," said the Beverly Hills ear, nose and throat specialist.

# **Brown announces** senatorial candidacy

LOS ANGELES (UPI) - Gov. Edmund Brown Jr., who failed twice in White House bids, Wednesday annouced his candidacy for the U.S. Senate charging that President Reagan is dragging the nation into a "black hole" of economic turmoil.

"The hard truth is that the president's economic game plan is not working," the Democratic governor said. "Wall Street knows it. Main Street feels it. The long unemployment lines prove it.'

Brown, who opened his 1980 presidential bid by pledging to "protect the earth, serve the people and explore the universe," said his Senate campaign would be based on increased employment, equity for the elderly and poor, environmental quality and "scaling

back" the nuclear arms race. He called for cutting the federal deficit by establishing a "luxury tax" on expensive jewels, furs, yachts and other "less essential items." He also recommended deferring the 1983 tax cut approved by Congress last year and imposing a \$2.50 per barrel import duty on foreign oil "as long as the glut con-

"HIGH INTEREST rates, rising unemployment and general economic confusion are weakening our nation and dividing the social fabric," Brown

The two-term governor told a news conference that the nation's housing and automobile industries have been "decimated" and complained that America's world leadership in electronics and technology was being sharply challenged by foreign competitors.

'It is time for the president and the Congress to take decisive action to halt the downward spiral of recession," he said. "It is dragging this nation deeper and deeper into a black hole of unemployment, bankruptcies and economic

allocation" of defense spending, but announced for the first time he is a supporter of the controversial B-1 bomber. The recently resurrected project will bring millions of dollars in defense funds to California's aerospace industry.

"The advantage of the B-1 (over a missile) is that it can be called back later in the event of some kind of exchange," he said.

GORE VIDAL, the sixth Democrat to announce for the Senate seat being vacated by retiring Republican S.I. Hayakawa, filed his official candidacy papers Tuesday. The author criticized Brown for constantly running for of-

Asked about Vidal's remarks, the 43year-old governor defended his pursuit of the nations' highest office.

There is nothing more American than ambition," Brown said. "Striving to do your best and reach the top is what America is all about."

Brown has pledged he will not seek the presidential nomination in 1984, promising to support the candidacy of Sen. Alan Cranston. But if elected to the Senate, Brown's term would expire in 1988 — another presidential election

Brown has collected \$1.8 million for the campaign. He may not spend much of it to win the June 8 primary, but could need every cent to win the general election.

The latest California Poll by Mervin Field shows Brown trailing the leaders in the Republican race for the nomination - Reps. Barry Goldwater Jr. and Paul McCloskey, and San Diego Mayor Pete Wilson.

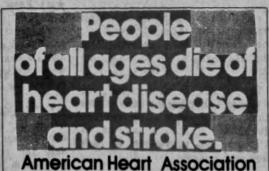

"I'm running as an underdog," said Brown, who promised to debate his eventual GOP opponent. "The Republicans are enjoying the mantle of invisibility and the association with

# Haig: Aid for El Salvador 'crucial

WASHINGTON (UPI) - Secretary of State Alexander Haig told Congress Wednesday the situation in El Salvador is "not as grim as some might suggest," but said continued U.S. arms and economic aid is "crucial."

Haig, appearing before the Senate foreign opropriations subcommittee, reiterated the U.S. desire for a political solution to the civil war in the Central American nation.

While not outrightly rejecting a Mexican peace proposal, he restated the reluctance of the administration and the U.S.-backed junta to hold negotiations with leftist guerrillas who have refused to take part in elections March 28 of a constituent assembly.

He and other administration officials declined to confirm or deny a report that President Reagan has approved a covert action plan against Nicaragua, where the administration charges guerrillas are exporting arms to El Salvador.

Haig's testimony came at a time of mounting concern in Congress that the U.S. involvement in El Salvador could grow into

Sen. Mark Hatfield, R-Ore., an early critic of the U.S. role in Vietnam, has said he will propose legislation to cut off all military aid to El Salvador unless the junta enters "good faith negotiations" with the rebel forces. THERE IS A LOT of misinformation on

the airwaves," Haig said. Haig said the junta headed by President

Jose Napoleon Duarte has long been willing to negotiate with the guerrillas so they can participate in this month's elections.

'No one has rejected negotiation where the people are willing to lay down their arms, sit down and negotiate a formula for the expression of the will of the people according to American values," the secretary of state

But, Haig said, the junta "rejects a kind of negotiation which the left is insisting upon and which many misinformed Americans are supporting - and that is not a negotiation at all but to sit down and redistribute power between the extreme left and those who are in

without reference to the will of the people of El Salvador."

power in El Salvador today, and to do so

Testifying on President Reagan's \$13.3 billion foreign aid program for fiscal 1983, which includes \$166 million in military and security aid for El Salvador, Haig said the military situation in El Salvador is "not as grim as some might suggest."

"In practical terms, they (guerrillas) are not about to overrun the country," he said.

But, Haig said, "I think American arms are crucial. I think it (an arms cutoff) would be a fatal blow to the government's ability to sustain itself. Maybe the political and psychological consequences would be greater.

In testimony before the House Foreign Affairs Committee, Defense Secretary Caspar Weinberger said the alternative to continued U.S. military aid "could well be the establishment of a communist stronghold of some dimensions on the mainland ... in a way that would enormously complicate the defense of the United States

# American Airlines probed for trickery

DALLAS (UPI) - The Civil Aeronautics Board is investigating allegations that American Airlines used a secret corporate strategy of "dirty tricks" in an attempt to force Braniff International into bankruptcy,

UPI learned Wednesday. The key issue is whether American deliberately or accidentally created a Braniff cash-flow crisis last week by keeping some \$9 million worth of Braniff tickets in its revenue accounting department and suddenly "dumping" them on the industry clearinghouse for

William H. Wentz, general counsel to the CAB in Washington, confirmed that his agency was investigating a series of allega-

dustry sources. The CAB independently received essentially the same allegations, he

"WE RECEIVED quite a few allegations and communications about possible problems," Wentz said in Washington. "Some of them don't pan out and some of them may have substance.

There are a number of rumors, allegations and innuendos floating around. In the last week, particularly the past several days, they've been getting hotter and heavier. Our

people are pursuing several things right

now," a CAB source said.

American spokesman Paul Haney said the allegations were "ludicrous and ridiculous at best and ugly at worst.'

Sources said that American triggered a critical Braniff cash-flow crisis last week by 'dumping' \$9 million worth of Braniff debts on the Airline Clearing House in New York.

THE INDUSTRY clearinghouse handles airline tickets much the same way banks process checks. When a traveler uses a ticket issued by one airline to travel on another, the airline that actually carries the passenger takes the ticket, sends it to its revenue accounting department for processing and then to the clearinghouse, where it is eventually

Haney said the Airline Clearing House operation, headquartered at Chase Manhattan Bank in New York City, was operated "on a rigid timetable and there's no way - even if we wanted to - we could play games with the

system.' Sources said that to meet the demand, Braniff was forced to slash employee paychecks in half, which successfully raised \$8 million in cash flow and helped Braniff avert the immediate crisis. But news accounts of Braniff's inability to issue full paychecks to employees triggered an avalanche of cancellations - with many of the travelers switching to American.

iversity Travel to try to recover the funds from Brauer and Davis as part of the agreement between the group and

The senate took steps to recover the funds before the agreement was reached, instructing Cindy Thrapp, Student Organizations auditor, to "do what is necessary to recover the funds" on Monday.

Thrapp said the \$150 cash advance to Davis was actually issued to Deasy, who will ultimately be responsible for repaying the money.

"Dave Deasy took it. Dave Deasy is responsible for it," Thrapp said. "Now he may have given it to Guy Davis, but Dave's name is on the advance."

ALTHOUGH DEASY is ultimately responsible for the funds, Dickson said the money will not be collected from him. The money will be collected from

Thrapp said cash advances are given to students directing the tours to give parties for the people on the trip. The \$150 was given to Davis for a trip to Wisconsin, but no receipts or cash were ever returned.

"When they take cash advances they need to bring back receipts to verify the purchases or bring back the cash,'

The \$57.15 to Wisehart was accounted for, but the receipts were suspect after they were turned in, Thrapp said. "He brought back the receipts, but they didn't think the receipts were

legitimate." Wisehart took a cash advance of \$85 and returned receipts for \$57.15 and \$27.85 in cash, Thrapp said. When Dickson asked him about the receipts Wisehart told him the money was spent

on a party for the group University Travel will identify the members of the group in attendance at the party and will collect the \$57.15 from these members, Dickson said.

THE TRIP expenditure to Brauer was a trip to the Rose Bowl and was given to her "because she was a senior, guess," Thrapp said.

Dickson said Brauer and Davis will be charged on their student billing from the UI. However, this will be possible only if they have outstanding U-bills because they are no longer stu-

"The last time we checked Davis still had an outstanding U-bill, but I don't know about Brauer," Thrapp

If no outstanding U-bill exists for the two former members, the travel group and Dickson will authorize "whatever necessary legal measures in order to recover the above funds."

ALTHOUGH THERE is no system to follow the accounts for the various commissions of the senate, Dickson said the senate has made some progress in "firming up" the ties of the commissions and the senate this year.

"They (members of the commissions) have gotten lax with proper procedures and they don't feel a responsibility to the senate," Dickson said. "We've been trying to tighten up the reigns all year and we are starting to make some progress.'

Senate will also work with University Travel to "review and revise the University Travel procedures regarding trip attendance, selection, expenditure policy and permissible expenditures," to prevent further

# Court

Roberts said some of the arguments presented "were tricky in interpretation" and the court could only look at things within their jurisdiction.

Right to Life is requesting the court award it the \$145 it had originally requested and \$500 in damages. It had also originally made two other requests, including limiting the senate's allocation of mandatory student fees until it published "concrete and objective" funding standards and requiring the senate to give notice to groups that are denied funds.

REED SAID THAT Right to Life has

Dickson said Right to Life "tried to do an outrageous end-run around the legislative process." Right to Life's choice to file a complaint with the court was wrong, he said.

In its complaint, Right to Life has stated that the senate violated its own Constitution and group members have said that their freedom of speech has been violated

Dickson said Wednesday that he would not ask that the group be denied its recognition. "In no way would I ever remove recognition of this not decided what it will do if the deci- organization. And I would fight anyone sion is in the senate's favor, but the who would remove their opportunity to discuss the right to life

# Mercy plans require city bonds

By Cherann Davidson

About 15 area residents heard detailed plans of Mercy Hospital's proposed addition and parking ramp, plans that would require financing from city-backed industrial revenue bonds, at a meeting Wednesday night.

The hospital hopes to receive \$23 million in bonds from the city for building renovation, a building addition, helicopter landing pad and park-

Sister Mary Vernarda, Mercy administrator, said the renovations are part of the hospital's plan to move from "an illness system to a wellness system" of patient care by providing more outpatient services.

The building additions would allow expansion of outpatient services, and the proposed two-level parking facility would have about 137 more spaces than the current lot.

visitors and clergy come to the hospital

JAMES BRACHTEL, city traffic engineer, said in a March memo that the new parking facility would create no traffic snarls if there is an entrance and an exit on Johnson Street, and another entrance on Dodge Street.

The proposed expansion also calls for heliport for patient landing to be located on top of the existing building.

In response to a question from the audience on whether it is safe to have a eliport in a residential area, Sister Mary Josephus, a hospital administrator, said the approach of the helicopters "will probably" be over the street areas, but definite flight patterns have not been set.

Currently, Mercy patients are flown to UI Hospitals and then transferred, health permitting, to Mercy, she said. A man in the audience asked about increased noise, and Josephus said the

landings would not be occurring more than once a week, adding that am-

tering the hospital

bulances currently are noisy when en-

Josephus said the helicopter landing pad will expand use of helicopter service for transporting patients. The helicopters save a lot of time, she said, and about 60 percent of Mercy's patients come from outside of Johnson

A Feb. 17 memo from the Airport Commission said that a heliport for emergency use only "would be an excellent addition to the city's emergency transportation systems."

THE MEMO also states: "However, it should be understood that if the heliport is approved it should only be used for emergency transportation and not be used as a base station for a helicopter. Our prime concern for not recommending a helicopter to be based there is its close proximity to a residential area, increased usage and increase in noise.'

The Iowa City Council also requested

an opinion from City Attorney Robert Jansen on the legality of funding a religiously-affiliated hospital.

In a March 3 letter, Jansen said the hospital "appears to have no policy which restricts admissions or medical staff membership to Catholics or any other religion." He cited many instances where cities have financed

hospitals with religious affiliations. Jansen also reported that the city can finance a hospital although it does not allow elective abortions and sterilizations. "It thus appears that religiously-motivated policies with respect to abortion or sterilization" do not affect Mercy's use of tax-exempt financing methods.

He concluded that issuing bonds to Mercy "would not violate the Establishment Clause of the First Amendment nor is Mercy Hospital required to provide elective abortions while receiving tax-exempt financing through the issuance of industrial

only embarrassing, it is frightening." John Greaney, executive director of the 3,200-member Association of Retired Intelligence Officers, called the Post "absolutely un-American" for disclosing a covert plan.

POST EXECUTIVE EDITOR Benjamin Bradlee said late Wednesday Greaney was "the first person to say anything" about the Post's coverage and he would have no further comment on it.

Jaime Wheelock, a member of Nicaragua's Sandinista government in Washington on an unofficial visit, said the report shows the United States plans a replay of the 1973 military coup against Socialist President Salvador Allende in Chile.

Said Weinberger, "I'm just not going to comment on a lot of reports about

alleged covert or intelligence activities. I never have. They are all highly classified, the whole subject is."

BUT WEINBERGER said during an appearance before the House Foreign Affairs Committee his "no comment" does not mean he is implying "in any sense that there are plans or that the story is correct or incorrect.'

CIA spokesman Dale Peterson said. "It's not our policy to comment on such allegations" and White House spokesman Larry Speakes took a similar position.

The Post said Reagan has ruled out the use of U.S. military forces in anti-Nicaraguan operations, but the commando force would engage in paramilitary activities aimed at

# Indiana not likely to repeat as titlists

CHICAGO (UPI) - There are some absolute certainties in this year's NCAA basketball tourna-

DePaul will snap a jinx and win at least one NCAA game. Indiana won't win back-to-back national championships. There will be at least one "Cinderella team" in the West. And the Big Ten won't get a team in the Final Four for the first time in four

But probably the biggest certainty is that North Carolina will win the tournament.

Being No.1 in the nation is supposed to be a jinx. Just ask DePaul the last two years.

But the Tar Heels have several things going for them. They have the best talent, the momentum of beating Virginia to win the ACC tourney and the home court advantage through the regionals.

North Carolina will play all of its games in the state until the Final Four when it gets to New Orleans. By then, Coach Dean Smith's club will have seen enough upsets that the field will have been diluted.

IN ADDITION, Smith has history on his side. He has never won the NCAA tourney and he has last year's memory of a second-place finish to Indiana to serve as even more impetus.

North Carolina should beat Ohio State and face St. Joseph's, the pesky team that knocked off DePaul last year. St. Joseph's should get through Northeastern a villanova and probably Memphis State.

Of the four Big Ten teams, Ohio State is certain to lose to North Carolina. Iowa won't get past Idaho and Minnesota won't beat Birmingham. The best chance for the league again is the team that won it all last year -Indiana. But the Hoosiers don't have Isiah Thomas and won't be back to the Final Four.

DePaul, like North Carolina, is top-seeded in its regional. Look for the Blue Demons to get past the USF-Boston College winner (likely Boston College) but either lose to Arkansas or Missouri in St. Louis. Tulsa is playing at home in this weekend's opening rounds but would have to face Missouri in a semi-home court situation at the Checker-

Look for a Missouri-Arkansas final with the Tigers advancing to New Orleans.

THE MIDEAST Regional has all the potential for drama and See NCAA, page 2B

# lowa picked to win in wrestling

By Jay Christensen

AMES - If seedings are any indication of who will win the 52nd annual NCAA wrestling championships, Iowa is clearly the favorite.

The Hawkeyes, rated No. 1, have more seeds than any other team with nine. Three Iowa grapplers are ranked No. 1 and two are listed at No. 2. Only at 150-pounds, where freshman Marty Kistler has a 12-15 record, do the Hawks not have a seed.

Second-ranked Iowa State has eight grapplers seeded with one top ranked wrestler - defending 134-pound national champion Jim Gibbons. top seeded, and Oklahoma, rated No. 3, has five.

Receiving a No. 1 seed going into the tournament for Iowa are 118-pounder Barry Davis, 142-pounder Lennie Zalesky and 177-pound two-time defending national champ Ed Banach.

DESPITE HAVING only five wrestlers seeded, Oklahoma State has three No. 1 seeds. They are 150pounder Kenny Monday, 158-pound two-time defending national champion Ricky Stewart and 167-pounder Mike

Iowa and Oklahoma own the top ranking in all but three weight classes 126, 190 and heavyweight. California-

25-1-1 season record, has top billing at 126. Lehigh's Collin Killrain, an All-American last year who is undefeated in 18 matches this season, is the 190pound top seed. Indiana State heavyweight Bruce Baumgartner, runner-up to Iowa's Lou Bananch last season, is top seeded. Baumgartner has a brilliant 38-0 record this year.

The Hawks' Mark Trizzino is seeded No. 2 behind Cuestas at 126, and Jim Zalesky is right behind Stewart at 158. At 134-pounds, Jeff Kerber of Iowa is third. Pete Bush of the Hawks is

No. 2 seeded Lou Banach of Iowa is 13-

Two Iowa wrestlers, Davis and Fitzgerald, wrestle in the pigtail round today at 10 a.m. Davis wrestles Bruce Malinowski of Missouri, while Fitzgerald challenges Pennsylvania's Mark Schlitt. The pigtail round is to even out the number of wrestlers in a bracket. Selections on who wrestles in them are made by draw.

IN THE PRELIMINARY round, immediately following the pigtails, all of Iowa's grapplers will see action. At 126 Trizzino wrestles Mike Millward of Lockhaven. At 134 Kerber faces Nebraska's Lance Milsap, while Lennie Zalesky is paired against Ben Kistler will meet the winner of Doug

Reifsteck of Indiana State and Ron Winnie of Brockport State at 150. Jim Zalesky at 158 has Pittsburgh's Jeff Jelic for an opener, while Ed Bananch meets either Steve Evans of VMI or Brett Stamm of Wheaton.

Bush meets North Dakota State's Dave Hass, while Lou Banach meets George Fears of Navy. Iowa State received a tough draw in the pigtail round when heavyweight Wayne Cole is slated to meet Steve Williams of Oklahoma, the No. 3 seed.

At 7 p.m. today second-round action begins. Tickets still remain for all ses-

# Hawks sending record number to AIAW meet

The Iowa women's track team will have more Hawkeyes entered in individual events than ever before when competition begins in the Association for Intercollegiate Athletics for Women's national indoor meet Friday at the UNI-Dome in Cedar Falls.

Big Ten conference champions Nan Doak and Kay Stormo are among Iowa's seven participants. Jenny Hayden, Jenny Spangler, Chris Daven-port, Mary Mol and Kathy Gillespie will also participate.

The national meet starts Friday at 10 a.m., with a second session beginning at 2 p.m. Saturday's action begins at 11 a.m. Finals will be held both days.

THIS YEAR IS a record-setting year for the Iowa track team. "Last year we sent 13 members to the national meet, but they were mostly in relays,' Hassard said. "This year we have seven individual qualifiers." The old record is five individual qualifiers.

Hassard says veteran national performers Doak and Stormo are the "two most likely to have scoring potential." They also have a chance of earning All-American honors. The top eight finishers in each event become All-

Individually Doak will be competing

Stormo will run in the 880-yard run. They will combine with Davenport and Hayden in the distance medley, an entry Hassard says could also earn All-American honors

THE OTHER IOWA team members have outside possibilities of good showings in the meet, but will benefit more from the experience of competing at nationals, according to Hassard. "Mary Mol is a dark horse in the high jump," Hassard said. "Hayden could run a great mile and place well."

As well as running the second leg of the distance medley, Davenport will race in the 600-yard run. Spangler will join Doak in the two and three-mile e-

Freshman Kathy Gillespie, who qualified in the pentathlon, will make the trip but will not compete. She has been out of competitive action for six weeks and has not had enough time to prepare for the national meet. Hassard decided it would be best to keep her out of the meet and have her compete during the outdoor season.

Stormo is a senior with two years of national meet experience. Her advice to the first timers is: "When the gun goes off, everyone's equal. Don't be in awe of anyone. Look close and they tie their shoes the same way.'

# Longhorns dismiss 'crusty' cage coach

tongued Abe Lemons, whose barbed comments have been a delight to admirers but an irritation to his many rivals, was fired as basketball coach of the Texas Longhorns Wednesday.

Lemons, after trying to avoid writers and broadcasters for most of the day, finally opened his office five hours after the announcement to say he should have learned years ago to keep his mouth shut, but that silence was not his

"I am kind of crusty," admitted Lemons, 59, who has been a head basketball coach for 27 years. "What you need to do is keep your head down and keep your mouth shut and you will stay around a long time. Abe Lemons can't do that.

"IT WAS A total shock to me. If they had told me I had been elected governor of Texas it couldn't have shocked me more.

Lemons said he had not been given an exact reason for his dismissal and no reason was forthcoming from Athletic Director DeLoss Dodds other than to say the Longhorns needed new leadership.

Dodds, who said the final two years

of Lemons' \$52,000-a-year contract would be honored, indicated the firing was not precipitated by the unexpected collapse of the Longhorns' team this year. Texas won its first 14 games and was ranked fifth in the country only to lose 11 of its last 13 following an injury to star forward Mike Wacker.

But whatever the reasons, it appeared Lemons' often controversial comments concerning other coaches and teams - particularly rival Coach Eddie Sutton of Arkansas - did not help his cause.

Lemons and Sutton have been at odds for several years and their rivalry was only intensified by an incident involving the two teams at Fayetteville this season. After being berated by fans all night, Lemons diverted from his path to the locker room after an overtime loss to confront a Razorback supporter who was yelling at him.

Arkansas' Darrell Walker was kicked out of that game for striking Texas guard Ray Harper and videotape of the incident also showed Harper had kicked Arkansas center Scott Hastings while Hastings was lying on the court.

"I'm always saddened anytime a coach loses his position," said Sutton.

### "Half the patients on the floor do rather be there in person. See Tickets, page 2B 1982 team reminds Scheuerman of '56

By Steve Batterson

High above the west end of the basketball court in the Iowa Field ouse hang banners of Iowa's Big Ten hampionships, including two from 1955 and 1956

As a member of those teams coached by Bucky O'Conner, Sharm Scheuernan, now a member of the broadcast leam for the Iowa Television Network hat covers Iowa's games, has seen many changes in the sport in the past ecades. Scheuerman also served as a head coach at Iowa from 1959-1964, one

of the youngest persons to ever be named to a head basketball coaching position at a Big Ten school. He was 24 when he was named to the coaching

Scheuerman sees similarities between the team of 1956 that finished second in the NCAA Championships and the 1982 Hawkeye team.

"I think that the Iowa team this year, and all of Lute's (Iowa Head Coach Olson) teams have been good defensive clubs," Scheuerman said. "The team this season probably has as

much quickness as any of his teams. I

think this ball team is an unselfish

team. They are tough defensively and they work at hitting the open man.

"IN THOSE TWO respects, the 1956 team and this team are quite similar," Scheuerman said, "The 1956 team was also unselfish and we had teamoriented players. We got along well. We spent a lot of summers together and a lot of time off the court together, and we still do keep in close touch with each other.'

The Hawks made appearances in the NCAA Tournament and won the Big Ten title in both 1955 and 1956. It might be easy now for a team to gain two

NCAA berths, but winning the league title twice in a row is still quite a

watch the games," Burnett said.

"Some of the biggest fans are patients

from other states, especially Illinois. If anyone from (Michael) Payne's

hometown is in, he'll usually come visit

Cindy Elliott, a senior in therapeutic

recreation, generally spends her

group at Lucas Elementary School.

But she usually gets to see the Hawks

play on Saturdays and said she prefers

to watch the games in person. "I like

getting wrapped up in the crowd. But I

"There were only 16 teams in the NCAA meet then," Scheuerman said. "We made it to the final four both years, and it was much more difficult to make it back to the NCAA meet than it is now. Everybody is laying for you and everybody wants to beat the champs. Our 1956 team started off with a 3-5 record in the non-conference

Michigan State by one point and then we went on to win 17 in a row before losing to San Francisco in the NCAA Finals at Northwestern (83-71).'

THE NCAA TOURNAMENT was more of a privilege than a right in the 1950s. "Getting a berth in the NCAA Tournament was just frosting on the cake," Scheuerman said. "Winning the Big Ten was what we were all concerned about and now the Big Ten championship seems almost secondary because the second and third place teams usually go to the NCAAs and See Sharm, page 2B

Marge Burnett, a staff nurse in the orthopedics ward of UI Hospitals, said she has had tickets every year for the past four seasons, but because of work

doesn't get to go very often.

"We just weren't playing well together," Scheuerman said. "Then we lost our first home Big Ten game to

# lowa cagers begin regional play

By Betsy Anderson

Sharm

First round action in the Association for Intercollegiate Athletics for Women Region VI tournament begins today for the Iowa women's basketball team. The Hawks' (8-16) first game in the tournament, scheduled for 4:30 p.m. in Warrenburg, Mo., is against the Iowa State Cyclones (9-19).

Although the Hawks and Cyclones have already met twice this season, splitting the series, Iowa Assistant Coach Vickie Wilson thinks the Hawks are ready for the game. "We are more

they go further than the champion."

Scheuerman believes that the

emphasis on the tournament has taken

a little away from the prestige of winn-

ing the league. "I think it has taken a

little bit away from the Big Ten cham-

pionship. If you only choose 16 teams it

is quite an honor. I'm all for the NCAA

tournament, just as long as it doesn't

detract from the season cham-

relaxed now than we have been all season, and we're playing with more confidence.

"I think defensively we're playing with more intensity and are more intimidating," she continued. "We played a one-three-one defense the last time and it was more effective against them, though we did have to make a few changes to cover their strengths. If we have to, we can use any one of three defenses against them.'

THE CYCLONES will be playing without the shooting talents of their

complishment in doing that."

would be against Big Ten champions Minnesota Minnesota (15-9) finished second in last year's regional tournament behind Kansas

"Minnesota has more size and a lot of depth," Wilson said. "We can play with them and hold our own, but they're the type of team that, if you make a mistake they'll capitalize on it.

'They beat us twice quite handily (77-52 in Iowa City and 90-43 in Minneapolis)," she added, "and may be looking past us to nationals already." AIAW nationals begin March 21 in Philadelphia.

Continued from page 1B

I'm an upperclassman on camera now rather than a freshman.'

Scheuerman said Iowa should fare well in the NCAA tournament this season. "I think that a sound defensive team, like Iowa, has a chance of going further than a run and gun team," Scheuerman said. "I think that if the Hawks can shoot in the neighborhood of 50 percent they can play with anybody

# **Tickets**

like the instant replays on TV because I don't always see what's happening."

THOUGH BECKY HUMMEL, a senior in recreation, couldn't afford tickets this season, she has had tickets the past two years. Hummmel said she and friends sometimes meet "on the spur of the moment" downtown at Joe's Place, 115 Iowa Ave., to sit and watch the games. She said there are a lot of vocal fans at Joe's, but that she'd rather be at the game in person. "You can get into the game and scream and vell a lot more.

Erik 'Oley' Madsen has had the good fortune to be a statistician for Ron Gonder, announcer for WMT radio.

Madsen said he likes being at the games, although he doesn't have time to cheer for the Hawks. "If you're at home, you're just sitting there and you can't yell and influence the team."

Continued from page 1B

When he does watch at home he likes to get together with friends because "it's no fun to celebrate or complain alone.

"We watch even in Pella," said Chris Skelley, a junior at Central College. Skelley said that when she was in Paris over New Year's as part of an exchange program, she and friends paid \$40 to watch the Hawks in the Rose Bowl via satellite. "Everyone's a Hawk fan," she said.

New Orleans jazz. Music that comes from the turn-of-the-century street parades, saloons, and river boats. Music played by men who worked the docks all day, but weren't too tired to blow their horns most of the night. Sweet, sad, exuberant music whose players are perpetuating a tradition that their grandparents helped to create. Music which invites its audiences to clap their hands and stamp their feet. An evening of original New Orleans Jazz.

# Local programmers examining informative, entertaining shows

By Jeffrey Miller

"We're looking for shows that are educational and informative under the guise of entertainment.'

With those words, KWWL-7 programming director Ed Piette summed up not only his own position but the position of his eastern Iowa counterparts and many fellow programmers attending the National Association of Television Program Executives convention in Las Vegas this week.

As reported in Tuesday's column. such quasi-informational shows about soap operas have attracted a great deal of interest at this year's convention, and Piette is among those looking carefully at those programs.

'We've been getting about a letter a day about 'Soap Spot' (a five-minute syndicated fan magazine show currently running on KWWL), which is a good response," Piette remarked. "Soap World," a new half-hour show featuring "Soap Spot" host John Gabriel, is one of the programs Piette is examining, along with off-network reruns of ABC's old soap "Dark Shadows."

DENNIS CZECHANSKY, programming director of KGAN-2, lacks Piette's enthusiasm for soap-related shows. Both he and Piette, however,

# Television

are paying close attention to current developments in children's programm-

"Not much has been done in this market with children's programming not enough has been done anywhere, period," Piette said - a statement echoed by Czechansky. Both programmers feel that the images of their stations would benefit from shows that, in Piette's words, "address the growth and development of our younger

Among the shows Piette mentions as possibilities for the fall schedule are "Dr. Snuggles," an innovative animated series from Britain that has been endorsed by the National Educational Association, and syndicated episodes of "New Zoo Revue," another information/entertainment

AS FOR SYNDICATED reruns, both Czechansky and Piette are concerned about the increasing economic strain of purchasing off-network shows.

'Ad revenues are about the same for an inexpensive syndicated show like 'The Newlywed Game' as they are for dicated product like 'PM Magazine, Czechansky said. "Of course it's more profitable for the individual station to program the cheaper show, especially if it gets ratings like 'The Newlywed

A further problem this year, adds Piette, is the proliferation of hour-long reruns that fail to hold viewers and are difficult to schedule even in the best of. circumstances. With the station's emphasis on sports programming, hour-long reruns have little chance of appearing on KWWL-7's fall schedule. It appears, then, that aside from the

usual sitcom or two, eastern Iowa TV this fall is going to be dominated by video versions of Good Housekeeping, Highlights and Daytime TV magazines: shows that present a few minutes of what can loosely be called 'information" in formats that are almost as entertaining as someone unpacking a suitcase. These shows reflect a well-

intentioned self-consciousness in the TV industry that is rapidly becoming unbearable. Turning away from "mindless entertainment" might be a fine thing, but turning to programming that is just as vapid and a lot more pretentious hardly seems the noblest course

# 'Making Love' conclusion makes message sweet, not bittersweet

By Roxanne T. Mueller Arts/Entertainment Editor

When the two main male characters of Making Love have their first screen kiss as homosexual lovers, one young woman in the seat ahead of me verbally expressed her feelings. "Ick," she said.

The first time I saw the same scene, a similar kind of thought crossed my mind: did this movie have to be made?

Well, no movie has to be made, and some, God knows, should not have been. What Making Love offers is a non-exploitive, well-acted film about a trio of upwardly-mobile professional types who deal with a problem Freud would love - latent homosexuality. Michael Ontkean plays a doctor named Zack who has been happily married to Claire (Kate Jackson) for eight years. Apparently in reaction to the stress of his work, Zack's "curiosity" is aroused and he finds himself cruising gay bars. Zack eventually falls hard for a novelist named Bart (Harry Hamlin) and leaves Claire behind (why all these characters have short, punchy, one-syllable

names is for you to figure out). As a love story, Making Love is unusual, but as the Burt Bacharach theme song implies, the story hinges on the premise that "there's more to love than making love." Thus, the entire story can be summed up very simply: boy meets girl, boy meets boy, boy drops girl, boy loses boy, boy finds other boy, girl finds other boy.

DIRECTOR ARTHUR Hiller (Love Story) takes an antiseptic ap-

tancing himself from judgmentmaking. Characters often appear against bright, white backgrounds and long shots through doorways Arts

manager, b

3. You must clude your r

Unfortunately, the control doesn't persist and specific narrative points are left dangling. A brief scene in the home of Zack's father is a lost opportunity for making points about Zack's background. A stern father is no indication that a son will choose homosexuality.

A scene in a cowboy bar establishes the intimacy of the relationship between Zack and Claire, but the lingering shot on a hopelessly untalented country singer named Lucy Lee seems to be there only because Lucy Lee is really the director's daughter.

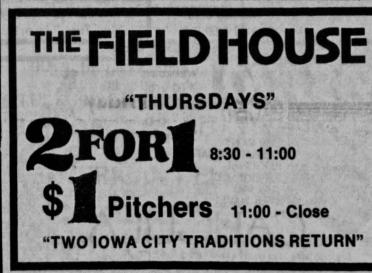

The ending, a flash-forward that tells how swell Zack and Claire are doing after separating, seems illfitting and forced. It's Hiller's and screenwriter Barry Sanderson's propensity for tying matters up in neat little packages that dulls the film's final impact, making the overall impression not so much bittersweet as simply sweet.

# Better than a majority of films, 'Chariots' is still disappointing

Arts/Entertainment Editor

There is something compelling about discovering the motivation for what makes athletes compete. Why is it men and women tax their bodies to the limit in order to run fast, jump high and throw far? What is that innate urge that feeds an ego to compete for what is, more often than not, one rush of elation when the finish line is crossed?

Chariots of Fire is a film that addresses those basic questions but unfortunately doesn't come up with anything particularly revealing. The acclaim the film has met from so many critics (it's nominated for seven Oscars) is confounding. Certainly, Chariots of Fire towers above other Hollywood drivel in the level of its acting, photography and music, but director Hugh Hudson tends to substitute slow motion beauty for any penetration of the psyches of two sprin-

ters who compete in the 1924 Olympics. Eric Liddell (Ian Charleson) is a character who wears his nobility on his sleeve. He proclaims early on that he runs for Jesus and any talents he possesses are a direct gift from God. That's all well and good, but it tends to make for a lack of fireworks. There's an almost shocking lack of tension in Liddell's story that stems from Hud**Films** 

On a rising scale of one to five stars: \*\*\* Ladd Company/Warner Brothers. PG. Written by Colin Welland

Showing at the Englert

son's skipping over the character's in-ternal struggles, low-key as they seem to be. When Liddell refuses to run on the Sabbath in a required pre-Olympic heat, we sit there watching him act noble - just like he's supposed to act. The man of speed is encased in marble as the man of principle - but what's so new about that?

THE OTHER runner, Harold Abrahams (Ben Cross), is Liddell's opposite. Instead of nobility, he defiantly swathes himself in martyr-like ashes. Abrahams is Jewish and likes to carry the weight of centuries of prejudice on his shoulders with a snarl on his lips

Far more interesting than these two are the people who surround them - or at least the ones around Abrahams. Those who interact with Liddell, like his missionary sister, are just as ironclad and smarmy as he is. Abrahams. on the other hand, is blessed with a blustery coach (the Oscar-nominated Ian Holm) and a lady friend (Alice Kirge) who exudes the smoldering sexuality and excitement everyone but Holm lacks.

In Chariots of Fire, she adds a dimension to what is essentially a onenote tale. While she does eventually disintegrate into playing "the woman back home" who waits at the train station for her love, Kirge, with her fleshy face and full figure, is surprisingly the most interesting character, physicallyspeaking, in a film that purportedly examines the stamina and pain of runn-

Perhaps it's all too "British" - embellished with an understatement that tends to present, spare and lean, a simle story very simply. I'm not saying the film should be another Rocky, full of cutesy characters who mumble their way into an audience's heart and with a plot that leads to a knockabout finale, but in a film that attempts to sanctify the glory of sport and will, Chariots of Fire is more than a little disappointing.

**CONTEST RULES** 

1. Use this official entry blank and visit our 39 stores under one roof anytime before March 21, 1982. We're open week nights until 9 P.M. and Saturday and Sunday until 5 P.M.

2. Each store will display a prominent MEET-THE-MANAGER picture poster so you can match the manager's number to the store name on the entry blank. You don't have to actually meet the manager, but we hope you will.

3. You must be 18 or over to win. Be sure to include your name, address and age on your completed entry blank. Old Capitol Center employees and media employees are not eligible.

4. Simply leave your completed entry with any Old Capitol Center manager. You will then be eligible for the big drawing on March 22 at 5 P.M. in the main court of the Center. You need not be present to win, but we hope you will be.

5. The first *correct* entry we draw will be the winner of the entire \$1,000 in Old Capitol Center merchandise. That's \$25 to spend in every store. Get going and good luck!

# Fine actors wasted in 'Caligula'

By Craig Wyrick

Much of the controversy surrounding the absolutely atrocious Caligula has been self-hype. Penthouse editor Bob Guccione, in the name of "freedomloving Americans," has carried the flag of Caligula through battles in court against that dreaded enemy, censorship. Caligula may have a right to live, by virtue of the First Amendment, but, as a friend of mine asked me after we left the theater, "Is it worth \$3?"

No, it's not worth \$3, nor the \$7.50 charged when it was first released in New York as an X-rated feature. From the first day of its release in spring 1980, Caligula has been the object of attacks by Morality in Media and various church groups wishing to have the film confiscated and destroyed. In Boston, amid a flurry of publicity, the

# **Films**

Caligula Penthouse. R. Written by Gore Vidal Co-directed by Bob Guccione and Tinto

... Malcolm MacDowell Tiberius Caesar ...... Peter O'Toole Showing at the Astro

Penthouse-sponsored film won the right to live. The judge even went so far as to say that Caligula had a "serious political theme" and was important for showing Americans

'degrading periods of history to prevent repetition."

SOMEWHERE NEAR the start of the project, the film may have had the "serious political theme" the judge claims it has, but by the time it was released, something was wrong - the originators now take only half-credit for their work. Gore Vidal says he only wrote the script on which the film was based, and the original director, Tinto Brass, will only take credit (or blame) for the principal photography.

Co-producer Guccione made himself the co-director by photographing the additional sex scenes. The version that reaches Iowa City is only rated R, and is missing approximately one-half hour of X-rated material.

PETER O'TOOLE and John Gielgud's appearances in the film

(both of their characters mercifully die early on) are nothing compared to the wholehearted enthusiasm of Malcolm McDowell, who appeared in scenes that had to be excised for the R rating. As Caligula, the crazy Roman Emperor (37-41 A.D.), McDowell obviously saw potential in the role that the director didn't realize. Filmed as if on a stage, the close-ups are nothing more then shaky zooms and the longshots are unframed monsters.

The \$17 million film is shot like a layout for Penthouse (which many of the scenes became), and even the make-up is slapped on the actors' faces in ludicrous amounts. Who knows what these fine actors originally thought they were getting into, but they certainly weren't pleased with the results. Nobody is really pleased with the result, except for Bob Guccione and his

# A Nobel for Grass — someday

By Ken Harper Staff Writer

Headbirths or The Germans Are Dying Out by Gunter Grass. Harcourt Brace Jovanovich, 1982, 136 pages.

One of these days Gunter Grass the German novelist, poet, graphic artist, playwright and public speaker will get what he deserves: the Nobel Prize. Headbirths or The Germans Are Dying Out adds to his impressive list of literary accomplishments.

The book is not a novel, although there are fictional elements. It is not autobiography, although there are ample autobiographical inclusions. It's not a film script, although there are

Decent exposures

m.a. thesis works by nancy skye pamela wessels

E.C. MABIE MARCH 12 &13 8:00pm

GENERAL ADMISSION \$1.00

several directions and questions addressed to Volker Schlondorff, the German filmmaker who turned Grass's epic The Tin Drum into an awardwinning film, something that does not usually happen when the printed page

is transformed into celluloid. The apparent idea for Headbirths was for Grass to write a fictional work that Schlondorff could adapt for the cinema. Grass's book suggests the journey a 30ish German couple might take. Schoolteachers Harm and Dorte spend a fictitious summer travelling through India on an unusual "reality"

Times, the idea did not take. Schlondorff opted for another film set in Beirut and focusing on the PLO. But Grass's book does not suffer from allusions to film, which promote the idea of film-within-book.

Harm and Dorte must decide if this is the kind of world into which children should be brought. There are the dangers of nuclear power, the impositions children place on a woman's career, the ubiquitous assassinations and murders that are the staple of the "news" world, starvation and more.

But, then too, what does the decision not to have children imply, par-ACCORDING TO the New York ticularly for German culture, east and

MILLER TIME

constantly decreasing birth rate?

Grass shifts between these alternately absurd, alternately provocative questions, splicing observations from a trip to China he took with Schlondorff. At the end of Grass's interrogations of planetary conditions is the question of life: is it worth living? Is there any joy in being alive this century? Any foreseen for the next?

The joy for the reader, however, is not in answering the questions, but in the ways Grass puts them. Headbirths gets at problems anyone in the world who would ever think about having a child might, no doubt should,

# XTC's fifth LP pushes past promise

The British import edition of English Settlement, XTC's fifth LP, is the most jarring, substantial and up-to-date rock 'n' roll record yet released in the '80s.

XTC has been aspiring to great things since making its debut in 1978 with two of that year's more promising records, White Music and Go 2. But it was the following year's Drums and Wires that showed a group capable of pushing past promise to actually deliver the goods.

1980's brilliant Black Sea extended the band's style - bright pop tunes anchored by Terry Chambers' explosive polyrhythmic drumming, Colin Moulding's McCartneyesque fretless bass embellished by just-right guitar and keyboard textures of Andy Partridge and Gregory. Production, as on Drums and Wires, was by the current era's brightest producer, Steve Lillywhite.

While the Beatles have been exhumed repeatedly since their break-up (most obviously by Badfinger and the stylistic extensions of Squeeze), XTC may be the first band to represent a valid artistic extrapolation of the Beatles' direction had that band's spirits

THE BEATLES' SUCCESS could reasonably be attributed in equal parts to the prodigious songwriting skills of Lennon and McCartney and to the fact that the duo represented the two finest "classic" white rock 'n' roll voices ever included in one work-

XTC cannot match them for pure vocal

# Records

skills - both Partridge and Moulding have decidedly pedestrian voices - yet their compositions are infectious, quirky, multi-leveled echoes of the surprising intelligence, depth and delightfully humane humor of the Beatles' later work, but with heightened social consciousness.

And the band is better. The group's songwriters are as prolific as they are consistent - of XTC's 64 LP tracks, 41 were penned by Partridge and 20 by

English Settlement ("settle" is the pivotal thematic word here) is available in two forms the original two-record British import and the abbreviated and insensitively remixed/re-packaged U.S. single disc release.

FOR REASONS OF better packaging, pressing, mixing and 22 additional minutes of music whose elimination from the American edition cannot be fathomed, we will deal with the U.K. version. If you bought the U.S. copy, play it, love it, give it to a friend or sibling and then go buy the real thing.

Full attention cannot be given to each of this remarkable work's 15 tracks - five of which were arbitrarily dropped for the domestic LP. Every cut is valid, intense and pointed - those below are merely some stan-

"Runaways," the Moulding-written opener, is a haunting, sensitive study of domestic violence and its effect on children. Beatlesque backing vocals that are alternately breathy/ethereal and brightly chirpy build on Hugh Padgham's dense, layered production.

Partridge's "Senses Working Overtime" is probably the most immediately accessible tune on the LP. Lyrically, vocally and instrumentally dynamic, "Senses" opens with a muted acoustic guitar and synthesized drums, then picks up steam until release is achieved by an incredibly catchy chorus underpinned by Partridge's acoustic, Gregory's stinging 12-string electric and Chambers' relentlessly monstrous drum work.

THE KINKS' Arthur and Village Green Preservation Society period is evoked by the basic song, subject matter (demolition) and lead vocal on Moulding's "Ball and Chain." "No Thugs In Our House" is a tale of parents unaware of their son's delinquency that escapes cliche by the sheer power of Partridge's lyric. Gregory's Spanish guitar highlights "Yacht Dance," a slightly demented, yet pretty waltz.

'All of a Sudden (It's Too Late)" is a clearheaded accounting of lost love driven by Moulding's great fretless bass, Chambers' loping drums and a Beatle-like 12-string signature by Gregory. Partridge chips in with one of his best vocals as he warns:

"Love's not a product you can hoard Or pack a suitcase with -It's more a way you have to give."

INTRODUCING

MAXIMUM RELIEF FROM

MENSTRUAL CRAMPS.

"MELT THE GUNS," a call for disarmament and "Knuckle Down," a tuneful appeal for racial harmony are again saved from cliche by Partridge's straightforward, clear delivery and bare-faced naivete (Ringo would have sung "Knuckle").

"Fly On The Wall," an itchy, nervous stomper punctuated by Partridge's "wing-buzz" synthesizer, is a loose analogy connecting the fly on the wall with a Big Brother-ish "bug." 'Down In The Cockpit" is a sprightly, if simplistic, accounting of woman's struggle for e-

This is smart art-pop at its percussive, melodic best. XTC's ties to the Beatles are as close/distant as that cathartic pop group was to its Everlys/Perkins/Holly/Motown/skiffle axis. Enough ties remain to show the connection, but not so many as to bind the group

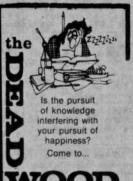

The word "great" gets thrown about a lot in criticism, but this is truly a great pop work. To borrow a phrase from an earlier, yet less substantial, pop group, XTC's English Settlement is meaty, beaty, big and bouncy.

# Expansion of tourney weighed

Because of increased interest in college basketball, and bigger, richer television contracts, the NCAA tournament has doubled in size in the past

eight years — and may grow even larger yet.

David Cawood, NCAA public relations director, David Cawood, NCAA public relations director, said the tournament started its rapid expansion in 1975, when it was enlarged from 24 teams to 32. In 1979, the tournament grew to 40, and in 1980, it was expanded to 48 teams.

Previous expansion has led to projections that the NCAA will further expand to 64. Critics charge that a field of 64 would be diluted and would take some of the prestige out of an NCAA tournament hid. But

the prestige out of an NCAA tournament bid. But lucrative television contracts seem to be signaling an increase in the size of the tournament.

Iowa State Head Coach Johnny Orr is one who feels the tournament should cease its expansion.

"I DEFINITELY don't think the NCAA should expand to 64 teams," Orr said. "I think that even with the present situation, you take some of the glitter out of the tournament. But there's too much money involved and it will never go back (to 32 teams).

"It was more prestigious when there were fewer teams," he continued. "Of course, there will always be some teams that aren't as good in the tourney.

DePaul Assistant Coach Joey Meyer agreed that the tournament should not expand. "The possibility of diluting the tournament is there with an increase to 64 teams. As (NBC sportscaster) Dick Enberg said, if they add two more rounds, they can get almost everyone into the meet and I don't think they

should go that far."

The NCAA's Cawood denied that money was a fac-

tor in the expansion of the tournament.
"Money has nothing to do with the expansion of the tourney," he said. "Gate receipts don't do much to offset the expenses that the teams incur. The bulk of the TV money is there no matter how many games you play."
He said that NBC did not increase the number of

exposures when the tournament expanded.

THE NATIONAL INVITATIONAL Tournament, which gives bids to 32 teams that get shunned by the NCAA, has a stake in the NCAA's possible expansion. According to NIT Publicist Christine Fallon, the NIT is in good financial shape right now. Last year the NIT set attendance records — 326,000 fans attended games throughout the country.

But, "if the NCAA goes to 64, I know we're in trouble," Fallon said. "Right now, there's so much balance in Division I basketball that the talent dropoff isn't so bad. But if the NCAA expands again we'll be dipping too deep into the basketball well. Things were better when the NCAA invited only 24

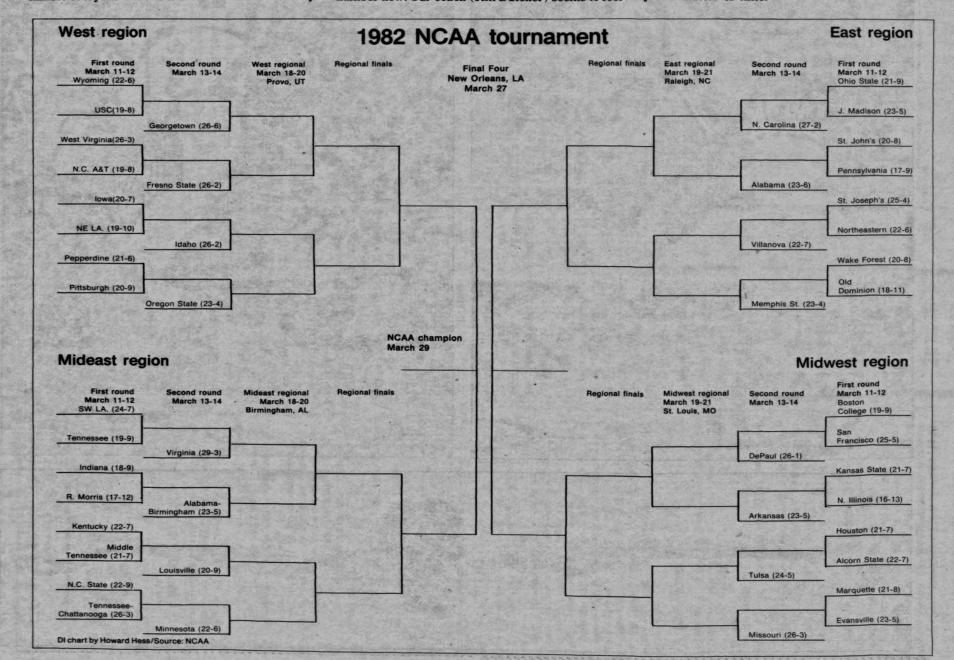

Oregon State Athletic Director Dee Andros thinks the tourney is too large right now. "I would go along with my coach, Ralph Miller, and say that there should be no byes," he said. "I'd personally prefer 32

Minnesota Athletic Director Paul Giel is opposed to expanding the tourney. "I think expanding it would dilute the tournament. I think it's the right number now. Our coach (Jim Dutcher) seems to feel

linois' Bryan Leonard in March 4's 73-67 overtime

that the field is set and I respect his decision." But Orr said expansion of the tournament is inevitable. "They're going to expand it," he said. "It's

# Basketball

# **Northeast Louisiana** has fast break style

By looking at Northeast Louisiana's team statistics, you would probably guess that it's a high-powered offen-sive team and a porous defensive team.

Iowa's first opponent in the NCAA basketball tournament is scoring 76.6 points per game and allowing 72.1, but the Indian Head Coach Mike Vining said those figures are deceiving.

"It (the high defensive average) is a combination of things. When you run like we try to do, you give the other team posession of the ball often," he said. Vining said his team has had occasional defensive lapses. "I'm not interested in statistics, I'm interested in winning," he added.

Northeast Louisiana, located in Monroe, finished third in the Trans-America Conference and made the NCAA tournament by winning their post-season conference tournament. Two of the Indians losses came from conference champion, Arkansas-Little Rock, both by one-point margins.

"WE WERE LED by a small forward, senior Donald Wilson, in the tournament," Vining said. Wilson, a first-team All Trans-America player, was the tournament's most valuable player. Wilson is averaging 16.2 points

Louisiana, thrusting the forward into a eadership role. Vining said that although the Indians have four veteran starters from the 1981 team, it took most of the season before the other players stopped viewing Wilson as the sole floor leader.

"Once that happened things began to fall into place for us," Vining said. Another key player is Terry Martin, 6-foot-9 forward, who averaged 14.6 points per game. He was a second team

onference performer. Their strength is their forwards, vho are good outside shooters," said Ted Lewis, a sportswriter for the Monroe News Star World. "They're not a particularly strong team. They don't have a big kid like Iowa; their center omore Gerald Morris) is only 6-

"WE START A sophomore at center and they start a freshman (Michael Payne), but he's four or five inches taller," Vining said.

Northeast Louisiana uses seven players effectively. "We rely pretty heavily on reserves," said Dan O'Connor, a graduate assistant in sports information. He said the top reserves are Bruce Williams, a 6-5 sophomore, and Bobby Joe Douglas, a 5-10 sophomore.

The Indians are a fast-breaking team when possible. "We like to run, but we don't always get to," Vining said. He

used the Trans-America Tournament as an example. Northeast Louisiana won its first game, 54-46, then beat Centenery in the final, 98-85. "We have to recognize what the other team's dodefensively) and adjust to it," he

Indians. "We've had 21 consecutive winning seasons so you can't say that we're headed upward," Vining said. "Last year we were 15-13, but we had four starters returning.

THIS WILL BE the Indians' first trip to the NCAA tournament, and Vining says "its something our players have been working towards all year." The Indians' debut is also very important to Vining, who became head coach this season after serving as an assistant for three seasons. Vining played his college ball at Northeast Louisiana.

Vining realizes the tough task ahead of his team in Iowa. "I think this will be a great incentive for them (Iowa) after their recent troubles. It's new life for them. They feel they're fortunate to

have a chance (to redeem themselves)," he said.

Vining said he isn't sure how he'll attack the Hawkeyes. "It depends on what they do to us," he said. "We don't go to one person or one style. We feel we've got seven or eight guys who can

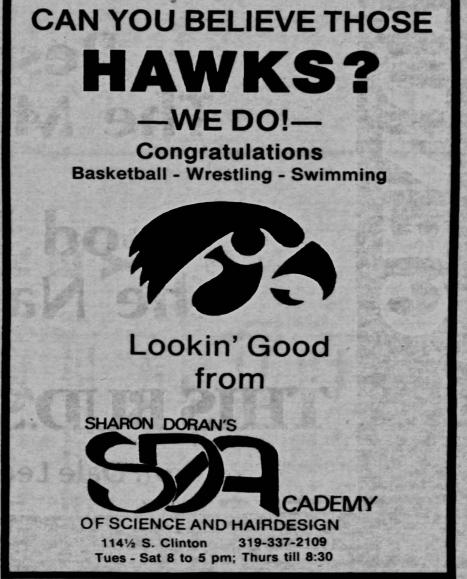

get the job done."

Iowa Head Coach Lute Olson said his team will be ready for the relatively little-known Indians. "Our team has been through it enough to look at something and be fooled by a name. I really doubt that we'll have a problem getting the players ready to go," he

After viewing game films of the Indians, Olson said they run a five-man Michigan State's and Iowa's. Another observation Olson made was that the Indians send four men to the boards for offensive rebounds, which leaves the Hawks with a fast break option should they get the rebound.

Defensively, Vining said: "We play a little man-to-man and a little zon

By Thomas W. Jargo Staff Writer

Iowa's basketball team, like many a month of March, came in like a lion and went out like a lamb.

The team breezed through the non-conference schedule and a majority of the conference schedule. But it was the last week of the season that did the

Iowa opened the 1981-82 season right after Thanksgiving with an easy victory over Northern Illinois, 84-66. Freshmen Todd Berkenpas, Michael Payne and Greg Stokes passed the initiation test in leading the Hawks to victory. They had 16, 13 and eight points respectively. Berkenpas was 8-for-9 from the field for his 16 points.

IOWA HEAD COACH Lute Olson said the Hawks' next victory over Nebraska-Omaha, 71-58, was "unimpressive," because his team didn't seem ready to play. Bobby Hansen and Kevin Boyle led the Hawks with 17 and 16 points, respectively.

The Hawkeyes faced their first real competition of the year when they took on Marquette in Milwaukee Dec. 5. The Hawks were behind by 11 points at the half, but came back to win 68-65.

Marquette jumped to a 37-26 half-time lead behind the play of sophomore Glenn "Doc" Rivers. But the Hawks battled back behind veterans Kenny Arnold, Mark Gannon and Hansen. Hansen led all scorers with 17 points. Payne added 16.

The Hawks were 3-0 as they headed into the first game of the mythical state championship against Iowa State. Iowa was an easy winner, 79-68, behind the 17-point performance of Payne. Olson said the game was the best he has seen against the Cyclones

since he has been at Iowa. Next on the list for the Hawks was Northern Iowa in game two of the state championship. Iowa won easily, 84-53, as Hansen canned 21 points, and Craig Anderson added 17. Olson said the game was great for the Hawkeyes because everyone got a lot of play-

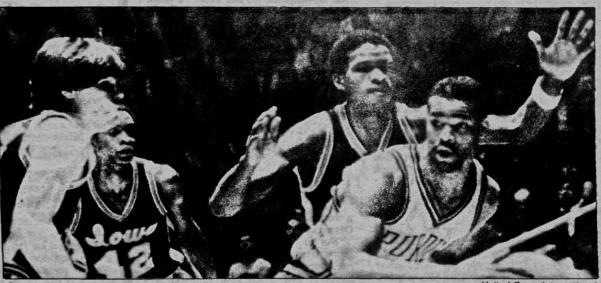

THE HAWKS THEN traveled to Houston, Texas, for the Kettle Classic, Dec. 18-19. The other threeteams in the tournament were Clemson, Mississippi

The Hawks reached the finals with an 80-68 win injured his foot and had to miss the next four games.

They faced Houston in the finals of the tournament and suffered their first loss of the season, 62-52. They were out-rebounded and out-played in the game and could have used the services of Hansen to break the

The Hawks returned home to the friendly confines of the Field House and won the mythical state championship, defeating Drake, 60-49. Payne led the way with 18 points, and Berkenpas added 12, as the Hawks were again without Hansen.

In the final non-conference game of the year, Iowa defeated the Gamecocks of South Carolina, 57-47. They went into conference play with an 8-1

Iowa put on its most impressive show of the year with an opening Big Ten victory over Purdue, 62-40. The game was tied at 26 at half time, but the Hawks went on to outscore the Boilermakers, 36-14, in the second half. Iowa's defense was superb as Purdue

IOWA SHOT 55 percent from the field in a victory over Illinois, 56-50. Payne and Gannon each had 15

Iowa then suffered its first conference loss of the season, a 61-56 defeat at the hands of the Minnesota Golden Golphers. Olson was angered at comments made by Minnesota Head Coach Jim Dutcher before the game to hype up his center, Randy Breuer. The loss dropped the Hawks out of a first-place tie with

Iowa rebounded to destroy an inexperienced Wisconsin team, 78-62, and moved back into a firstplace tie with Ohio State. OSU lost to Indiana to

Iowa then traveled to Evanston, Ill., to take on an improved Northwestern team. They led in the game only once, at the end, 49-48. Arnold hit a jumper with five seconds to go to give the Hawks the win.

Iowa then returned home to romp past a pathetic Michigan team, 56-38. Michigan's 38 points was the lowest point total allowed by an Iowa team since 1948, as the Hawkeye defense shined again. Also, Hawkeye Jerry Dennard got his first chance to play after having back surgery earlier in the year. The victory put them in sole ownership of the Big Ten lead

HANSEN'S TWO free-throws with 14 seconds left n the game gave the Hawks a 57-56 victory over sing before this victory. Iowa played that game without the services of Payne, who apparently injured his foot in the Michigan game.

Four Hawkeyes were in double figures led by Gan-non's 19 points as Iowa easily defeated Ohio State, 76-66, in Columbus, Ohio. Steve Carfino, Hansen and Arnold each added 14 points for the Hawks. The victory set up a showdown with Bobby Knight's Indiana Hoosiers at the Iowa Field House Feb. 4.

What figured to be the battle of the best defenses in

erence turned out be be a blow out in favor of Hawks were the superior team that day. It was the third consecutive time Olson had beaten Knight.

Iowa entered the second half of the season with a 16-2 record, first place in the Big Ten conference and a top 10 ranking, a place where they have most of the season. They continued their winning ways with a 69-63 victory over Ohio State, as Payne returned to the line-up and scored 25 points. The victory put the Hawks up by two games over the Gophers, who lost to Indiana, 58-55.

DEFENSE CARRIED THE Hawks past the Northwestern Wildcats, 62-49, for a season sweep. The victory set up a nationally-televised showdown

Big Ten standings	Confer	ence	All Games			
	W	L	W	L		
Minnesota	14	4	22	5		
lowa	12	6	20	7		
Ohio State	12	6	21	9		
Indiana	12	6	18	9		
Purdue	11	7	14	13		
Illinois	10	8	17	10		
Michigan State	6	12	11	17		
Michigan	6	12	7	20		
Northwestern	4	14	8	19		
Wieconcia	3	15	6	21		

Iowa beat Indiana at home, but the tables were turned when the Hawks traveled to Indiana's Assembly Hall. They looked poor in a nationally-televised loss to the Hoosiers, 73-58. Ted Kitchel scored 33 points to lead the Hoosiers to victory and cut the Hawkeye conference lead to just one game. The Hawks rallied back to defeat Michigan State,

59-53, to sweep the season series for the first time since 1968. Hansen and Arnold had 23 and 15 points pectively for Iowa. They also connected on 24 o

On Feb. 20 the Hawkeye downfall started. They they routed Michigan, and they should not have lost this game. However, Michigan outplayed the Hawks and earned the victory. The only bright spot for the Hawks was that both Minnesota and Indiana also lost, and the Hawks remained in first place.

IOWA REBOUNDED well after the Michigan loss and went on to destroy Wisconsin for the second time this season. Hansen and Payne scored 15 and 14 points respectively to lead four Hawks in double figures. The victory gave the Hawks their four consectutive 20-victory season.

After the Wisconsin game, the Hawks started to look like the Chicago Cubs often look in late summer. They started their late season swoon by losing a triple-overtime thriller to Minnesota, 57-55.

THE IOWA-MINNESOTA match was the last game played in the 55-year-old Iowa Field House, if the Carver-Hawkeye Sports Arena is open for the 1982-83 season as scheduled. But it wasn't a happy ending for the Hawkeyes as Minnesota's Darryl Mitchell, who was fouled by Gannon with 0:00 remaining on the clock, sank two free throws to give the Gophers a 57-55 win and start the Hawks on their

point lead midway through the second half, but Illinois chipped away and tied the game at 60 all, on a tip in by guard Craig Tucker. The Illini went on to win in overtime by a score of 73-67.

The loss dropped the Hawks out of a first-place tie with Minnesota. Going into the last week of the season, Iowa needed to beat Purdue and Ohio State had to beat Minnesota for Iowa to salvage a tie for

the conference championship.

Just the opposite happened as Purdue nipped Iowa,
66-65, and Minnesota crushed Ohio State, 87-75. Iowa lost on a last-second foul called on Kevin Boyle. Dan Palombizio sank the ensuing free throw, giving the

hardest that deserves to be No. 1."

Iowa and Iowa State each has a full squad of 10 wrestlers in the tournament and Oklahoma has nine. Oklahoma State, expected to be a dark horse for the

Iowa State Head Coach Harold Nichols refused with talk to The Daily Iowan about his team's chances, but Assistant Coach Les Anderson did. "I think we can take a very serious run at the title," Anderson said. "We've been wrestling very, very well — at least in the wrestling room. We think we're ready to go.

STILL, FEW DOUBT Oklahoma's capabilities, especially Anderson. "Oklahoma has more talent than anybody in the wrestling room," he said.

Said Gable: "I think Oklahoma has a lot of pressure on them. This was supposed to be their year and they haven't been getting the job done."

Coaches agree that the seedings prior to the tour nament are nearly as important as the meet itself.

"Seedings are pretty crucial," Sooner Coach Abel said. "They have a lot to do with who wins and

Anderson echoed Abel's comments. "Seedings are always very important. A lot of people think they have No. 1 seeds, but there will be surprises along

the way."
Oklahoma State Head Coach Tommy Chesboro is worried about early match-ups between Iowa, Iowa State, Oklahoma or Oklahoma State wrestlers. "If the Big Eight starts off meeting each other, or Iowa runs into the Big Eight early, it could make a dif-

than the seedings are where wrestlers are placed in their weight bracket. "Twelve wrestlers get seeds," he said. "But say Ed Banach (Iowa 177-pounder) gets the No. 1 seed, (Mark) Schultz (Oklahoma) and (Perry) Hummel (Iowa State) would probably be the No. 2 and No. 3 seeds. That would be good for us since Hummel and Schultz would have to meet in the

"But say Schultz gets the No. 1 seed and Ed is No. 2 and Hummel No. 3. That would mean Ed would have to meet Hummel in the semifinals. Instead of one tough match, he would have two."

favors the Hawkeyes to win the crown. "Iowa is the favorite because they are on a good roll right now. They had the tremendous lopsided victory over Iowa State, who beat us in the Big Eight tourney."

Berkenpas said. "When I visited, Mrs. Olson prepared a meal and we sat down and talked. It took away a lot of the hassles of recruiting and always having to talk about basketball. It was a real homey atmosphere."

Bobbi Olson said that she and her husband try to approach the potential recruit's visit to Iowa, "on a casual basis."

when you fee will a recruit for three straight days ... you get the idea what that person is really like. You can't be formal when you're with each other that long. It gives Lute another basis of saying, 'What did you think about this player? How do you think he'll fit in?' I'm not evaluating the person on his talent. I know the coaches have already done that. I'm going by what kind of a person I think he is and of course, Lute asks the team what they think after that. He feels it's important that the recruit meet every player. It has to be the way it's going to be after he comes to school.

"YOU'RE NOT BRINGING him in and introducing him to the governor and all the big boosters because he's not going to see those people again. He's going to be with the team and with us."

But characteristic of Bobbi Olson, she de-emphasized her role. "I think I can be objective about it (a recruit's character), but I don't want to sound like I play a big part in whether the student comes here or not, because I don't. It's just another opinion for the coaches to go by."

An opinion that is worthy of respect, for as long as Lute Olson has been in the coaching business, this is his 25th year, Bobbi has been by his side for every one of them.

In the early years, when the Olson's five children were growing up (three now live in California, one in Oklahoma and one in Iowa City), Bobbi said her involvement was somewhat limited

Asked what advice she would give to a woman thinking of marrying a coach, Olson stressed the word "patience."

"As our children got older, I started going with Lute to recruit and he got me more involved so that I would be happier. But when your children are smaller, you just can't pick up and travel all the time and leave them, so it's kind of lonely at that point. But you know he's out there working. If you want your husband to succeed in the job he's doing, you have to back him

"I'm very proud of my husband,"
Olson said.

There was never any doubt.

# Bobbi Olson: wife and mother are only a few of her roles

Bobbi Olson knows that being the wife of a coach carries with it a good deal of responsibility, recognition and yes, some downright inconvenience.

Grown men have pushed her out of the way to get her husband's autograph, but Bobbi Olson is not one to stand in the shadows for long.

On the other hand, she is not one to grab a piece of the limelight merely for the sake of doing so.

Olson does her part to contribute to the Iowa men's basketball program, more than most people are aware of, but shies away from getting the recognition she feels belongs elsewhere, like with the assistant

coaches.

A college coach's wife has to be a cheerleader, surrogate mother, steadying force and more. She has to be able to take as large or small a role as necessary for the growth of the team, but she must possess the perceptiveness to step back out of the picture when the situation calls for it.

BOBBI OLSON DOES all these things yet must also be expected to put up with the tremendous crush of on her husband and herself.

Court & Dubuque Streets lowa City, lowa 52240 319-351-8262

worse. The town Bobbi Olson's husband makes his living in could be indifferent to him or even dislike him, instead of worshiping him the way they

times when you're out with friends or all alone, and maybe talking about something very serious and somebody will come up and say, 'I hate to bother you, but can I get an autograph?'
"I completely understand that peo-

ple like to talk to Lute or members of the team, but there are times when I feel sorry for him, that he can't just sit

Bobbi Olson played basketball recreationally in high school (there was no girls' team), but isn't a basketball wizard, nor does she try to be. "I know just enough to enjoy it," she said. "Married to a coach as long as I have been I've seen women who really try been, I've seen women who really try to know too much about basketball and coach. We always talk about it (basketball), but not about intricate plays."

MARRIED TO A man with a 24-hour job cannot exactly be the easiest thing for a wife to endure, yet Bobbi emphasizes that Lute does not let his work interfere with his home life.

'What he tries to do, and he succeeds at it," Bobbi said, "is not bringing it

comes through the door, whatever has gone wrong at the office, he leaves. We'll talk about it. We talk about basketball. We talk about the kids. But, he tries to share his good moods. If he's had a bad day, for instance, and he comes home and the children are over, he won't start getting mad at all the

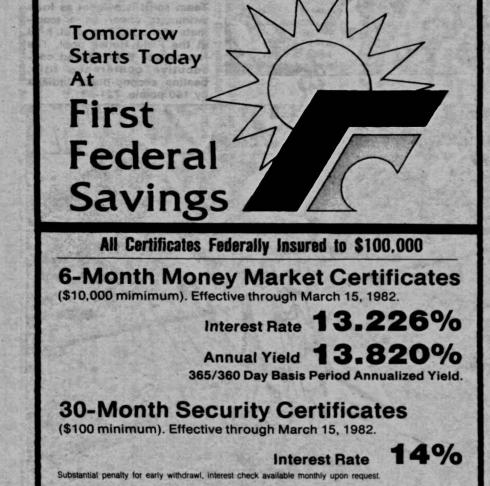

What most people do not know about Bobbi Olson is the involvement she has in recruiting. After the high school athlete's basketball ability is evaluated, whether he is an All-American candidate or not, his character must meet the same rigid tests that his athletic ability had to. Iowa has turned down more than one potential star necessary on a Lute Olson team.

Iowa Assistant Coach Jim Rosborough expressed his appreciation of Bobbi Olson's role in recruiting. She has been a very, very big asset to us recruiting-wise because number one, she is so dedicated to Lute," he said. "Particularly on recruiting weekends in the fall, she puts in all kinds of hours. The recruit can see that they're welcome there (in the Olson home). Bobbi is a very likeable per-

# Swimming

# Steady ascent marks Hawk swim success

By H. Forrest Woolard Assistant Sports Editor

After winning the Big Ten chamear, the Iowa swimming and diving eam and Coach Glenn Patton are convinced they can make it "No. 3 in 83."

"We're not letting up," Patton said.
"Winning Big Tens will only help. The nomentum is in our favor."

Iowa's recent conference success is the result of a steady, year-by-year climb, starting from 10th place at the 1975 Big Ten championship to first-place finishes both this season and last.

Patton joined the Hawks for the 1975-6 season, but the team could only nuster a ninth-place finish. During Patton's next season with the Hawks, Iowa took seventh, and by the 1978 meet the team placed fifth. By the 1979 championship the Hawks were strong enough for fourth and came back in

Up until last year's championship, indiana had won the Big Ten crown 20 consecutive seasons. But a determined bunch of Hawkeyes, whose motto was "No. 1 in 81," dethroned the Hoosiers and won their first championship since

THE HAWKEYES didn't stop there, place Indiana last season by 30 points, he Hawks won this year's meet by 180

"What you've seen is the beginning of a dynasty," Patton said after his team won the Big Ten championship Saturday night. Patton equated the Hawks' accomplishment to the "dynasty" established by Iowa Wrestling Coaches Dan Gable and Gary Kur-

And just as the Iowa wrestlers rose from conference to national prominence, the Hawkeye swimmers

have the same goal.
Prior to the 1978 NCAA meet, where the Hawks finished 27th, Iowa had not scored a point at nationals since 1962. As expected, Iowa's upward mobility in the conference was paralleled by higher national finishes.

The Hawks placed 24th nationally in

1979 and 22nd in 1980. Iowa's 10th at the 1981 NCAA meet, however, was as big a step for the swimming program as winning the Big Ten champion

"If we maintain our 10th place I would be very happy," Patton said. "It's not practical to think we could finish higher, especially losing Graeme

BREWER, WHO came to Iowa two seasons ago after winning a bronze for Australia in the 1976 Olympics, will not compete in the NCAA meet having completed his eligibility. The Big Ten champ in the 200- and 500-yard freestyle was enrolled in college in Australia before joining the Hawks.

"With the wrestling team No. 1 and the football team going to the Rose Bowl, people are starting to realize where we are," lowa Swimmer Tom Roemer

"You can't replace those points Graeme would have scored," Iowa All-American Tom Roemer said. "Mentally, we're going to do well, though.'

The Hawks have already qualified four swimmers in nine individual events and all three of their Big Ten championship relays. Friday and Saturday several more swimmers may qualify when Iowa and Iowa State meet at the Field House pool for final time

Also hoping to represent the Hawks at nationals is diver Randy Ableman, who will be competing in the Midwest regional meet over the weekend in Columbus, Ohio. Ableman is the NCAA defending champ on the one-meter board and winner of the Big Ten threefrom Cedar Rapids defeated the 1981 NCAA three-meter titlist, Robbie Bollinger of Indiana, to win Big Ten honors Saturday night.

LOOKING PAST THIS season, Patton and Roemer anticipate that top

the football team going to the Rose Bowl, people are starting to realize where we are," Roemer said. "They're not getting us confused with Idaho or

Iowa's football, basketball and wrestling programs "gives us a lot more visibility. It helps make Iowa a more nationally-prominent name in sports

The Iowa coaching staff works around the clock, phoning top prospects daily, in hopes of securing the fastest swimmers in the country. When Iowa was in its early stages of development, Patton relied on foreign recruits to turn his program around.

Besides Brewer, there is Steve Harrison, a member of England's Bent Brask, who was an Olympian from Norway. Iowa Assistant Coach Brett Navlor, who was on the Hawks' 1981 Big Ten championship team, competed in the 1976 Olympics for New Zealand

Over the past two seasons the Iowa coaching staff has only recruited United States swimmers. "What we're trying to do is get the best swimmers in the U.S., which are the best swimmers in the world," Patton said. "We don't mind recruiting overseas, though."

lowa All-American Tom Roemer looks to his cheering teammates while he takes the block as the Big Ten 100-yard backstroke champ Friday night at the Field House pool. Steve Harrison (left) finished second for the Hawks.

ROEMER SAID THAT for the concern for minor sports," Patton said. "(Iowa Athletic Director) Bump Hawks to stay on top, they would "have to land more top recruits. We need guys like Graeme who are already es-

Roemer added that the Iowa coaches are doing a good job turning the other swimmers around. For example, freshman Steve Ferguson was the Hawks' second choice as an individual medley recruit. But at Big Tens, Ferguson, who finished third in the 200 and 11th in the 400, recorded faster times than the Hawks' leading can-

Patton said the coaches are doing all

Elliott believes you build Olympic sports through collegiate programs."

With the many points in Iowa's favor

for building a national swimming power, there may be a missing ingredient, a variable the Hawks have no control over - the weather.

"The weather is a tough obstacle," Patton said. "Swimmers like the war-

Patton and Diving Coach Bob Rydze chuckled when asked whether it was possible to build a national cham-pionship swimming team at Iowa. "We don't know, but we're trying," Patton they can and so is the administration. replied. "That's a question that "Our administration has a legitimate remains to be seen."
