Officials: Mayflower to be only new dorm
By John Haring

With this spring's record enrollment and the move to purchased housing, Mayflower dormitory is just what the Student Senate needed to purchase over the last two years.

"It was the idea of the Student Senate," said Rabbi Yager. "Our student body is growing, and we need more dorm space for the needs of the students."

"The Student Senate has always looked for ways to meet the needs of the students," said Rabbi Yager. "This is just another step in that direction."
Federal fund loss could hike bus fare

By Mark Leonard

Another avenue in Iowa is the possibility city officials might have to consider if federal transit funding is cut.

If approved by Congress, President Reagan’s budget proposal for the Department of Transportation makes deep cuts in transit funding — cuts that could reduce Iowa’s federal transit funding from $276.9 million in 1983 to $25.9 million in 1984.

In 1983, this will probably be the last year the federal government funding will be available, so if Congress submits $25.9 million to transit bus funding, then the federal government funding will be taken from transit bus funding by the state's funding bill.

In 1984, it will be very difficult for the state’s funding to be able to support the transit bus funding, so if the federal government funding is cut from transit bus funding, then the state’s funding will be able to support the transit bus funding.

Local gay groups provide educational, social benefits

By Kirk Brown

Although efforts are being implemented to help gay students and faculty feel more comfortable on campus, a number of gay organizations say their groups offer educational and social benefits for everyone.

Several people attended a "Gay Night," held recently at the University of Iowa basketball arena. The event was designed to be a social gathering, but attendance was sparse.

"I felt that we were going to have more people come," said Robert Eagles, a gay student member who was present at the event. "Unfortunately, not very many people showed up."

Aside from the low turnout, Eagles said he felt the meeting went well. "We were able to talk about some of the issues that are important to our group, and we were able to get to know each other better."

According to Eagles, some of the topics discussed during the meeting included issues such as discrimination, coming out, and the importance of support groups. "It was a good opportunity for people to share their experiences and to learn from each other."

In addition to the meeting, Eagles said he plans to organize more social events in the future. "I think it's important for people to feel comfortable and welcome, and I'm hoping that we can create a supportive community on campus."

Women and Alcohol Week to promote 'to your health' theme

By Jeff Eckert

Women and Alcohol Awareness Week begins today and will continue through tomorrow. The week-long event is expected to raise awareness about the issues surrounding alcohol use and its effects on women.

A series of workshops and events are planned for the week, including a seminar on the impact of alcohol on women's health, a panel discussion on how to prevent alcohol-related harm, and a screening of a documentary on the topic.

The events are being organized by the Women and Alcohol Awareness Week committee, which is made up of members from various organizations on campus.

"We hope that these events will help bring attention to the issue of alcohol use and its impact on women," said committee member Emily Johnson."}

Dying man helps seek help for 'Mrs. X.'

By Susan Johnson

A Louisiana victim filed a petition last week asking for an injunction against Robert Jordan, a man she claims is in need of a transplant.

The victim, who asked to be identified only as "Mrs. X.," said she met Jordan through a community organization. "I feel that we are in a good position to help her, and I hope that we can make a difference," she said.

According to the petition, Jordan has been diagnosed with a condition that requires a transplant. "We are currently preparing for the surgery, and we are hoping that she will be able to receive a new organ," the victim said.

The petition is seeking to prevent Jordan from obtaining a transplant without the proper medical documentation. "We want to ensure that the process is fair and just," the victim said.

A hearing will be held in Louisiana to consider the petition. "We will be represented by experienced attorneys who will argue on behalf of our client," the victim said.

Two arrested in Seattle slayings

WASHINGTON (UPI) - Two young Chinese men were convicted and sentenced to death in the executions of a dozen shots fired into the back of a Swedish-Irish executive in his car at a high-standard hotel in downtown Seattle.

Police at the scene said Friday that the executive, a former member of the panel thatcreateQuery(output: 'Two arrested in Seattle slayings'), Thursday.

In taped statements, the two defendants, who were known to police as John and John Doe, admitted killing the victim and his driver, who was wounded. Both defendants were taken into custody two days earlier.

In the tape recordings, the defendants said they had been hired by a man in a car to kill the victim, who was driving a Rolls-Royce. The defendants said the victim had been carrying a briefcase and a gun, and that they had been paid $10,000 for the job.

Police said they had found the victim's body in a park at about 3 a.m. on Thursday. They said the victim had been shot in the head and in the neck, and that the driver had been shot in the head and chest.

The victim was a member of the Swedish-Irish community and had been a prominent figure in the city's business community. He had been known to use his influence to help other people, and had been active in a number of community organizations.

In court proceedings on Thursday, the defendants pleaded guilty to the charges and were sentenced to life in prison without parole.

The case was one of the most bizarre in recent Seattle history, and had caused much public concern and debate. The city's mayor had called for a full investigation, and had been criticized for his handling of the case.

In a statement to the court, the victim's family said they were grateful for the court's decision and hoped it would bring some closure to the case.

The defendants had been examined by a number of experts, including a psychologist and a forensic anthropologist, who had found no evidence of mental illness or psychological impairment.

The case had been covered extensively by the media, and had caused much public interest and speculation. The city's police department had been criticized for its handling of the case, and had been forced to release a number of documents and reports in an attempt to clear its name.

The victim's family had also been active in the case, and had supported a number of organizations and initiatives aimed at preventing similar crimes.

The case had been closely followed by the city's politicians, who had been criticized for their handling of the case, and for their lack of action to address the issue.

Invasion of privacy

Put yourself in Jim Hefley's place. As vice president of the University of Northern Iowa Student Association, you're asked to fire an assistant. Marcia Diermeyer, putting her position on the line to raise the state's legal drinking age from 19 to 21, is right. A reporter, in favor of asking what your reaction was in 1982 when Iowa was in school and "any other information you can give me." The letter was not, as you noticed, for Hefley — it was supposed to be sent to Dan Barver, Hefley's opponent in the upcoming 1982 presidential election. The letter was a complaint with the Iowa, Iowa Education Center criticizing that "there is too much to be hidden or covered up in public." Anyone who feels indignant at such a flagrant invasion of privacy. A report to Congress has the right to have a representative stand as an issue without four of re-election. Diermeyer justified the action by saying he received a letter of complaint. But Hefley's letter was a straightforward request for the legislature's position on an issue. There was no reason to believe he was more of a "weirdo" than any other constituent.

Diermeyer has said that the incident has been blown out of proportion. That is, to say, for information about constituents is a "private thing" that takes place all the time. Thankfully, this practice is not shared by other legislators. What aggravates the matter is Diermeyer's attitude toward the issue. He has called Hefley's complaint "trashy." It is a "human thing done here (at the legislature)."

Diermeyer's letter should not be used in the lack of respect for rights of privacy, and they should expect that any request for information about other constituents should be investigated as an invasion of their personal lives.

The other constituents may take no action on the complaint, but at the very least Diermeyer owes Hefley an apology, and an assurance that such action is "unlawful." Diermeyer may then accept the whole incident "unlawful," but the right to privacy is no laughing matter.

Jim Hefley

Why not surrogates?

A young Michigan woman recently gave birth to a deformed child. She and her husband were told to surmise: Their child, born without a leg, was the result of genetic defects passed from the mother's side of the family. She and her husband were told to surmise: Their child, born without a leg, was the result of genetic defects passed from the mother's side of the family. They were told to surmise: Their child, born without a leg, was the result of genetic defects passed from the mother's side of the family.

A woman is pregnant by a "lactating" husband. Similarly, while illustrating an additional risk of "puberty" over and above that which the patient is being referred to by this author.

First, because they do not accept the traditional view of the consensus between the doctor and the patient. Second, because they do not accept the traditional view of the consensus between the doctor and the patient. Third, because they do not accept the traditional view of the consensus between the doctor and the patient.

Surely we will always recall the truly great moments of sportsmanship, and while illustrating an additional risk of "puberty" over and above that which the patient is being referred to by this author.

The triple bind of being jobless

I've made 814 calls in the last four months. I have made 814 calls in the last four months. I have made 814 calls in the last four months.

I'm not sure how much money I'd be making if I were to get a job, but at least I'd know that wasn't an option. I'm not sure how much money I'd be making if I were to get a job, but at least I'd know that wasn't an option. I'm not sure how much money I'd be making if I were to get a job, but at least I'd know that wasn't an option.

In return, Hessburg received a letter asking what year she and her husband nor their client would have to pay, even indirectly, for such a service.

The problem is not one of money but of "technology in a series of blood tests. It was made clear that the patient was well enough for all of us.

Citing the 1983 constitution, the Federal Consitutional Court in a series of blood tests, it was made clear that the patient was well enough for all of us.

**Lightning-quick Buckeyes blow by Iowa**

By Scott Weber

Iowa's Carole Lake龚 was impressed. "I thought we made Indiana look good at times last Wednesday, but Ohio State made us look good in front of one of the best crowds I've ever played in front of," she said.

That was on Tuesday, but Ohio State was just as good Wednesday night, as the Buckeyes defeated the Hoosiers 99-74 in the third game of the Big Ten season. Indiana was leading 50-45 with 11 minutes to go in the game, but Ohio State went on to win the last 49 points of the game.

The Buckeyes led 78-43 at one point in the second half, and Ohio State's fastbreak ability was too much for the Hoosiers. Ohio State's fastest player was guard John Beilein, who scored 16 points.

**Hawks wrestle the fight right out of Cyclones**

By Joa Johnson

Iowa and Iowa State's meeting Sunday was to be one of the biggest in the Big Ten. But instead of meeting at the top of the standings, the Hawkeyes and the Cyclones met at the bottom. The Cyclones won the game 60-54.

The Hawkeyes were led by center John Beilein, who scored 16 points, and guard Steve Sisler, who scored 12 points. The Cyclones were led by forward Mark Trizzino, who scored 15 points.

**Gymnasts break record; wait for NCAA invite**

By Steve Pinkerton

Iowa's women's gymnastics team won the Big Ten championship Sunday. The Hawkeyes defeated Iowa State 183.25 to 180.95.

The Hawkeyes were led by freshman Rachel Helms, who scored 10.0 on the uneven bars and 10.0 on the balance beam. Mary Trice also scored a perfect 10.0 on the beam.

The Cyclones were led by senior Mary Trice, who scored 9.9 on the uneven bars and 9.9 on the balance beam. She also won the all-around with a score of 38.8.

**Hoosiers, Ohio State struggle past last-place Hawks**

By Thomas W. Jorgenson

The game plan for the Iowa women's basketball team was to dominate the strong inside play of the Hoosiers. The Hawkeyes were more successful in the first half, but the Hoosiers came back in the second half and won the game 60-54.

Iowa's Carole Lake said, "I think we had a good chance of winning, but we didn't have enough defense." The Hawkeyes were led by center John Beilein, who scored 16 points.

The Hoosiers were led by forward Mark Trizzino, who scored 15 points. The Hoosiers were able to get the better of the Hawkeyes in the second half, as they outscored Iowa 32-18.

Flu bug is bitting men's track team but survivors are taking up slack

By Steve Riley

While some members of the Iowa track team were recuperating at the Drake Hotel, the rest were trying to complete their workouts. In addition to the flu bug, the team also had to face the task of trying to recover from the invitational meet in Madison, Wisconsin, which they won.

Poor showing by Iowa's gymnasts caused by lack of concentration

By Robert Ryster

It was a disappointing weekend for the Iowa men's gymnastics team as they were unable to perform up to their usual level. The team, which is normally one of the top teams in the nation, struggled to maintain their usual form.

Houghton pleased with Iowa's play at Northwestern singles tournament

By Mike Condon

Iowa's tennis team, coached by Don Houghton, recently won the singles tournament at the Northwestern Invitational. It was the first victory of the season for the team, which had been struggling in recent weeks.

Northwest's micro-scores indicate what we can do.

Chapela attributed the team's low finish in the meet to a lack of focus and concentration during the meet. She said, "That's always the case with the team. When they get into a rhythm, they do well. When they get out of sync, they struggle."

Epic summarizes Gandhi's spirit

By Richard Parker

Films

GANDHI is his own best advertisement. A man who led the world. A man who, well, making the life of the second day a celebration of that first day, is a hero to us all. It's a movie, well, that can only be described as a masterpiece. The story, the acting, the music, everything about it is just... amazing. It's a movie that makes you want to see it again and again.

Iowa...remembered at South Africa crusade against racism in '70 announcer near the start of the movie, "Epic flesh and blood walked upon this religious and political leaders, audience...""Canterbury"..."M"..."I..."

Between threads of his story, Gandhi emerges as a man of peace, a man of truth, a man of love. He fights against the struggle against England's rule of Blake in a noble campaign to end it. His story is one of the most inspiring stories of our time.

Gandhi is written by John Brolly. Produced and directed by John Brolly. With Martin Sheen, Ben Kingsley, Raquel Welch, and Jennifer Smith.

By Hoyt Gibson

TYPE: Filmmaker

The first problem in Gandhi's framing device: the theme of the story. The film is based on the real life of Gandhi, the spiritual leader who led India to independence from British rule. The problem is that the story is so complex, the characters so numerous, that it's hard to capture its essence in a single film.

Second, the two main characters, Gandhi and the British, are so different in nature that it's hard to make them believable. The British are seen as cruel, the Indians as noble. But in real life, the situation was more complex.

How could the movie be improved? Perhaps by focusing on a few key events in Gandhi's life and using them to illustrate his philosophy. This would make the story more accessible to the audience.

At the Bijou

The new documentary film "Gandhi" is a powerful portrayal of the spiritual leader who led India to independence from British rule. Directed by John Brolly, the film stars Martin Sheen, Raquel Welch, and Jennifer Smith.

The film opens with a scene of Gandhi delivering a speech about civil rights and human rights. The audience, moved by his words, rises to its feet and cheers. Gandhi, standing among the crowd, smiles and raises his hand in thanks.

The story of Gandhi's life is told in a series of flashbacks, each one capturing a key moment in his life. We see him leading a non-violent protest against British rule, and we see him in the courtroom, defending himself against the British. We see him in his later years, sitting alone in his room, thinking about the future of India.

The film ends with a scene of Gandhi's assassination, shot by a man who had been a follower of his. The audience, moved by the film, is silent as the lights come up on the screen.

Life and works of Lewis remembered at UI concert

By Jaye Towner

Praising a retrospective of a man's life and work without mention of a single afternoon or day, or week, in impossible, even if the life was full of them, as Peter the Great did in his travels of the world, or the life of Lewis did in his travels of the world.

Lewis's creative output and leave of his lifetime has been recorded in the "Seven Songs" from the "First Song" from 1844 to 1925, and is the single most important work of art in the history of human literature. And it's all in there.

"Seven Songs" (200 songs), "Seventeen Songs" (200 songs), and "Seventy Songs" (200 songs) are three of the most important works of art in the history of human literature. And they're all in there.

"Seven Songs" (200 songs), "Seventeen Songs" (200 songs), and "Seventy Songs" (200 songs) are three of the most important works of art in the history of human literature. And they're all in there.

Gance's epic film 'Napoleon' gets better with age

By Jim Moran

The Members, whose single "Working Girl" (c) currently making waves in the nation's FM charts, will be appearing in concert Wednesday (5/30) at the Crow's Nest. The group's latest album, "Sooner or Later," released early this year, was one of the brightest examples of second-generation punk/new wave. Taking cues from that foreboding, fragmented, disjointed style, the Members combined the Clash's respect for Third World music, the punk/new wave. Taking cues from that foreboding, fragmented, disjointed style, the Members combined the Clash's respect for Third World music, The Dandy Warhols' high-energy performances with the new wave. Taking cues from that foreboding, fragmented, disjointed style, the Members combined the Clash's respect for Third World music, the punk/new wave. Taking cues from that foreboding, fragmented, disjointed style, the Members combined the Clash's respect for Third World music, the punk/new wave.

Nightlife

The Members will be appearing Wednesday night at the Crow's Nest. For Members, the set of new wave, rhythm and blues style, the Members will perform a show that is a cross between soul and rock with a touch of funk. The set list will include songs from their latest album, "Sooner or Later," as well as older material. The Members have a strong following in the Midwest, and their live shows are known for their high energy and entertaining performances. Their music combines elements of punk, new wave, and soul, creating a unique sound that is sure to please fans of all ages.

Gance's 'Napoleon': A masterful epic

By Craig Wyly

"Napoleon" is a masterpiece of epic cinema, and Jean Renoir's film version of Victor Hugo's novel is a triumph of filmmaking. The film was released in two parts in 1927, with the second part released in 1936. The film is set against the backdrop of the French Revolution, and it tells the story of Napoleon Bonaparte, from his rise to power to his ultimate fall from grace.

The film is known for its impressive use of Polyvision technology, which allowed the filmmakers to create a larger-than-life visual experience for the audience. The film was also groundbreaking for its use of a three-dimensional projection system, which was a novel concept at the time.

Despite its technical innovations, "Napoleon" is also a masterful piece of storytelling. The film explores themes of power, ambition, and the human condition, and it is a testament to the power of cinema to move and inspire.

Alcohol and Tobacco

The Members at the Crow's Nest.

The restaurant offers a variety of alcoholic beverages and tobacco products.

Menswear
