Schlaflly's UI visit stirs up disputes

By Susan E. Parker

UI administrators have given the impression that the meeting
promised to be a press conference with Schlaflly, but in fact it was a private
conversation at the Action Center. But WRRK leaders said they will not allow her to speak in the
buildings.

For some political components have been
working on the press conference with Schlaflly, at the Eagle Point, a
department for Traditional Americans Society.

Bob Black said that defensively, a big
problem with UI is the fact that the press conference was set for Thursday.
The only other day that a meeting was at the center was due to Schlaflly's
wished to speak at the center about of UI leaders.

Black confirmed that they would
consider the action to be taken over
of Schlaflly's political causes.

Phil Hildreth, UI vice president for
Students and Services, however, has already given permission for Schlaflly to speak in the
buildings.

Black said that the meeting with Schlaflly is an attempt to make
UI leaders speak in the buildings.

Document on WRRK officials
show that Schlaflly is not
formally invited to speak at the center.

Women's rights groups have been
invited to speak at the center, and both\nchapters have been invited.

On the issue of whether Schlaflly will
be allowed to speak in the buildings,
Black said that the meeting was set
for Thursday at the center.

Black confirmed that they will

Iowa National Guard wants city to give away park land

By Mark Leonard

In an attempt to save some money and expand its facilities in Iowa City, the Iowa National Guard has asked the city to donate Elm Grove Park to Iowa City. City officials met with the Guard, however, and expressed interest in selling the park, should the Guard choose to build. The Guardsmen have a new building constructed in 1980, and they hope to sell the land for $20,000.

Iowa City's mayor, David Perret, said that the city is not interested in selling the park, but the Guardsmen have expressed interest in buying the land. The Guardsmen have already made an offer of $20,000, and the city is still in negotiations with the Guardsmen.

City Council gets involved in dispute over library access

By Mike Heflin

The Iowa City City Council has gotten involved in a dispute over library access. The Iowa City City Council has been discussing the issue of library access for the past month. The council has been debating the idea of charging fees for library access.

"I'm really not disappointed by ineffective communications," said John Paul, the city's director of library services. "We're making progress, but we need to do more to reach our goals." The council has been discussing the issue of library access for the past month. The council has been debating the idea of charging fees for library access.

Financial planner finds his niche

By Allen Seidner

Robert Nolan, a local resident who was a managerial consultant to the University of Iowa, was among the first to notice that the "niche in financial planning" was a potential career path, "to become like the financial firm," as he put it.

The new certification was developed, he said, because too many people were selling insurance and not working toward the CFP certification. Nolan, who has been in the investment business for 15 years, has a master's degree in science, and a master's degree in business administration, recommends it as an examination nothing less than a financial degree that he passed this fall in an effort to regain the apartment complex on Second floor of South Quadrangle.

Nolan's attorney, William Lucas, said he has been looking to get the suit off his plate after Iowa City last week in an effort to regain the apartment complex.

The suit against Iowa City last week in an effort to regain the apartment complex South Quadrangle.

Nolan's attorney, William Lucas, said the suit protests the double vote on the issue. Board member Peter said the suit protests the double vote of March 2 meeting to revoke the permit conditionally and subsequently voted 3-1 to simply revoke the permit.

Chairman Dennis said the suit protests the double vote on the issue. Board member Peter said the suit protests the double vote of March 2 meeting to revoke the permit conditionally and subsequently voted 3-1 to simply revoke the permit.

Government must ensure public gets medical care, panel claims

WASHINGTON (UPI) - With some 35 percent of the population lacking health insurance, the federal govern-
ment has a moral obligation to make health care for all a top priority, a panel of experts said today.

“The purpose of governments is to protect the rights of citizens,” said former health care commissioner
Robert M. Berdahl, a member of the President’s Commission for the Study of Ethics Problems in Med-
ical Research. “The government’s concern for the health of its citizens is as much a part of the pub-
lic welfare as feeding the poor and education.”

Washington Post

Despite White House pressure, arms budget hike fares poorly

WASHINGTON (UPI) - A request to Congress for a $16 billion increase in the defense budget
that exceeds the President’s version by $4 billion was rejected today.

The House of Representatives, in a 249-194 vote, rejected the $4 billion increase as part of the

The Senate, in a 64-35 vote, also rejected the $4 billion increase.

The White House has been pushing for the increase in defense spending to meet the needs of the
nation’s defense strategy.

Weinberger touts Reagan ‘hope’

WASHINGTON (UPI) — Defense Secretary Caspar Weinberger said yesterday the president’s step-up campaign to sell his nuclear arms control policies is working.

"We think it can do more," Weinberger said in an interview on NBC's "Meet the Press." "I know the president is working hard on a joint approach to selling his arms control programs."

In other news:

Chicago

Mayor Jane Byrne said yesterday she had invited both the Catholic Diocese and the mayor's own administration to the city administration to begin talks on forming a city zoning code.

"We're not going to be able to make this work if we don't have agreement on a zoning code," Byrne said.

STAR WARS' WEAPONS

It is an adage to the notion last week, President Reagan was Virginia to his travel itinerary. - The Russians are coming! The Russians are coming! - a press release from the Pentagon. This statement made a few "mistakes." In fact, there was no mention of the Russians that would cite if they could, that the Soviet Union is now among the United States and the United States have not mentioned the defense spending and rebuild its nuclear arsenal. At least it had been a total of arms and graphs and as would be made some estimable. In one presentation, Reagan compared Soviet and American strength in the areas where the Soviet Union is strong - such as theater -based missiles - but not in areas where the United States is strong - such as submarine-based missiles. Moreover the collapse of the Soviet Union and it is the warheads that contain the bombs that do the damage. Reagan thus lied by omission about the comparative strength of the two countries.

He also called for intensified research into defensive weapons, such as lasers and particle beam weapons - the idea being that a defense build-up would gain more support if the public believed it was the greatest to switch to a defense rather than offensive weapons. The idea is defensive. But there are a few problems with it.

First, the technology does not exist. That means decades, or perhaps a matter of years that would turn that time and cost and destructiveness. Second, the Soviet Union will hardly be listening to the defense of the United States and its own defensive weapons and, like us, will also be attempting to develop a counter-attack to our systems.

The arms race would thus enter new and equally deadly phases - each side would find itself in a more dangerous position. This is the race into the defensive weapons that will enter to the other's side and into the race for destruction of any possible weapon in order to make the other side's weapon less effective. The argument is not whether we should enter into the competition for the most effective weapon, but to ensure that the race is not a race towards annihilation. The real danger is that the Soviet Union is not in the warheads that contain the bombs that do the damage. Reagan thus lied by omission about the comparative strength of the two countries.

El Salvador official 'lied' to U.S.

SAN SALVADOR, El Salvador (UPI) — An El Salvadoran army officer said Sunday that 50 peasants killed in a massacre were leftist guerrillas. Another U.S. official said that Gen. Guadalupe Cura, the army commander in chief, had admitted to Congress that 74 peasants killed Feb. 22 by army troops on a nearby cooperative farm were leftist guerrillas.

"The congressional delegation, on a fact-finding mission to El Salvador, interviewed Col. Carlos Col. Carlos Teixeira, a free-lance journalist for NBC radio, told the congressmen she was arrested while visiting the home of Jose Guadalupe Garcia, who had promised a forthright investigation, but no one has been arrested or charged yet.," said a diplomatic source.

"American journalist T. J. Western, a fellow American journalist on the San Salvador expedition, later met Saturday night with the congressman she had been promised while visiting the home of Jose Guadalupe Garcia, who had promised a forthright investigation, but no one has been arrested or charged yet.," said a diplomatic source.

Final Four creates 'March Madness'

Valiant Iowa right ends in Final 16

By Helene Hansen

KANSAS CITY, Mo. — The final buzzer sounded in the Vector Bowl Friday night, not for the Iowa men's basketball team, but for Ralph Sampson. The Virginia high scorer dropped just short of 40 points, and with it his team's hopes of winning the national championship.

The post-stormie's final five minutes left the Hawkeyes behind, and theexe.

Iowa, however, didn't have a chance. The Hawkeyes didn't do it. They did not have a chance. They were down by 12 points at the start of the game, and they never caught up. The Hawkeyes missed free throws, and Virginia missed easy shots. The Hawkeyes turned the ball over to Virginia, and Virginia ran away with the game.

A RALF-BARRED Iowa great victory over Ohio State in the Big Ten. Iowa's second game in the tournament started with a bang.

LARRY JAMES CALLED the free throw in the second half from the Big Ten bigs to bring Iowa back into the game. Iowa's leading scorer in the tournament, Larry James, scored 12 points, and Iowa was never behind again.

The Hawkeyes won by a score of 120-101.

But Larry had been hurt. The Hawkeyes were down by 12 at the start of the game, and they never caught up. The Hawkeyes turned the ball over to Virginia, and Virginia ran away with the game.

The Hawkeyes won by a score of 120-101.

The Hawkeyes were down by 12 at the start of the game, and they never caught up. The Hawkeyes turned the ball over to Virginia, and Virginia ran away with the game.

Consistent Hawks 5-3 at Soonier Invitational

Consistently and efficient athletes, the Iowa men’s track team are in a 5-3 tie at the Soonier Invitational, March 10th at Norman, Okla.

"Our meet was key to us getting to the NCAA's," said Assistant Coach Dan Gavel.

Iowa finished in second place, nine-tenths of a point behind Ohio State. The Buckeyes were the overall winners of the meet, with a score of 109.2.

"Our performances this past weekend was a great start to our season," said Iowa co-captain Melanie Ruth. "We are still a young team, but we are making great progress."

Iowa’s Ron Rechenmacher took top honors in the 107.9-meter throw, with a distance of 95.2 meters. He was followed by Iowa’s John Keating, who took second place with a distance of 94.8 meters.

In the 400-yard dash, Iowa’s Melanie Ruth finished in third place, with a time of 52.4 seconds. Iowa’s Nancy Stewart and Olsen placed 17th and 18th, respectively.

"I am proud of our team's performances this weekend," said Coach Dan Gavel. "We have a lot of potential and we are working hard to improve our times."

Iowa's infectious optimism and dedication to the sport is evident in their performances, and they are looking forward to the upcoming NCAA Championships.

The Hawkeyes defeated Missouri State 1-0 on Friday, March 9th. This victory was a significant milestone in their season.

"Our team is working hard to prepare for the NCAA Championships," said Iowa co-captain Lisa Masters. "We are confident in our abilities and we are looking forward to the challenge."

Ross gains All-American honors

Iowa broadcaster David Ross achieved the "triple crown" by winning the 50 yard dash, the 110 meter hurdles and the javelin at the NCAA Swimming and Diving Championships. Ross, a sophomore from Mount Pleasant, Iowa, was named Most Outstanding Swimmer and the meet's Male Athlete of the Meet. He set a new meet record and broke 13 school records.

Iowa's swim team finished third, the meet's top team. The Hawkeyes finished third in the nation with a 42-point lead over Singapore. The team's success was due in part to the efforts of place.

Olsen's writing fosters human creative capacities

By Ellen Pollock

March 29

I was recently introduced to Tillie Olsen by the publication of her book, "Silences." Her story caught my attention in several ways. Olsen, a talented and wise woman who lived in Iowa City until her death in 2002, is the subject of a recent biographical novel, "Tillie: A Life," by Dorothy lnclined. Olsen was born in 1922, the daughter of a German immigrant and an Irishwoman. Her family was part of the growing Jewish community in the Midwest. Olsen's life was marked by the turmoil of the Great Depression and World War II. Despite these challenges, she managed to stay true to her artistic vision, even when others might have given up.

Olsen's writing was characterized by a deep engagement with the world around her. Her work was grounded in her experiences as a journalist and a teacher, and she brought a sense of urgency and humanity to her writing. She was committed to exploring the lives of ordinary people, particularly those who were marginalized or ignored by mainstream society.

One of Olsen's most important works is "Yonnondio," a novel she began writing in the late 1930s and completed in the 1960s. The novel tells the story of an Indian family and their struggle to survive in the face of the encroachment of white settlers. Olsen's depiction of the native experience is rich and nuanced, and she was one of the first American writers to explore the complexities of Native American identity and culture.

Another of Olsen's significant works is "Silences," a collection of short stories that were published in 1962. "Silences" is a powerful exploration of theilent feelings and experiences of women. Olsen's stories are known for their sensitivity to the inner lives of her characters, and she was particularly adept at capturing the struggles and joys of working-class women.

In addition to her writing, Olsen was an active member of the women's rights movement. She was a founder of the Woman's International League for Peace and Freedom, and she worked tirelessly to promote women's rights and equality. Olsen's dedication to social justice is evident in her writing, and she used her platform to champion the causes of those who were most vulnerable.

Olsen's life and work continue to inspire readers and writers today. Her legacy is a testament to the power of creativity and the importance of giving voice to those who are often ignored or silenced. Olsen's writing fosters human creative capacities and reminds us of the importance of listening to the voices of the marginalized and the oppressed.

At the Bijou

Georg Buechner's Woyzeck is one of the landmark works of German literature, a forerunner of 20th century expressionism and epic realism, and the beginning of a worldwide literature.

Woyzeck is a soldier in the Napoleonic army killed by his mistress, the mother of the soldier's young son, and his son starves to death at her affair with an officer. She later commits suicide, and he is to be executed for her murder and crimes. The play is a moral and political statement. It is a story of innocence and guilt. In Woyzeck's tormented mind and experience of being a victim of a society, he becomes a symbol of the struggle of the individual against the state. Woyzeck faces a world that is not just a continuation of history but a perpetual whirling and movement, which led to his exile. His political passion is expressed through the classics, and his passion for music is expressed through the use of music and dance. His music is a symbol of his suffering and his struggle. In Woyzeck's tormented mind and experience of being a victim of a society, he becomes a symbol of the struggle of the individual against the state. Lowe's 'Showman' entreats, but don't listen too long

Still live

The UI DANCE Program will host New York-based Mika Yamamoto, director and master teacher, in a week-long labanotation workshop for the UI Dance Company. Yamamoto will be in residence at the University of Iowa until April 28, working with the UI Dance Department. Yamamoto will present two talks that will be open to the public during his visit.

Yamamoto's labanotation workshop will include the choreographic score of the UI Dance Company's production of the Chauve-Souris in 1977. The workshop will also include the creation of a choreographic score for the UI Dance Company's production of the Chauve-Souris in 1977. The workshop will also include the creation of a choreographic score for the UI Dance Company's production of the Chauve-Souris in 1977.
