Local human services heads favor agency agglomeration

By Scott Faas
Senior to the Iowa City

The directors of several local human service agencies say they believe a consolidation of the agencies would be beneficial and could save money.

The Iowa City Council formally approved ERME in Community Development Block Grant funds of the project during its meeting on Tuesday. The statement came after the Iowa City Council of the Iowa City Board of Public Works and Utilities, which had been discussing the funding for the project.

The agencies plan to enter into the building as of next month. The purpose of the meeting was to discuss the project's funding, which was approved by the Iowa City Council in February. The agencies will hold a meeting at 5 p.m. today at the Iowa City Board of Public Works and Utilities. The meeting will be held at the Iowa City Board of Public Works and Utilities.

Quote:

"The integration of human services would be a good thing for the community," said Mike Ainger, director of the Iowa City Board of Public Works and Utilities. "It would allow the agencies to work together and provide services in a more efficient and effective way.

The Iowa City Community and Economic Development Corporation (ICEDC) will hold a public hearing on Thursday, Feb. 23, at 7 p.m. at the Iowa City Letters Main Street Complex, 201 N. Grand Ave. The hearing will focus on the agency's proposed $2.5 million development project for the Old Capital Center in downtown Iowa City.

The ICEDC, a public-private partnership established by the city of Iowa City and the University of Iowa, plans to develop the Old Capital Center into a mixed-use facility that includes retail, office, and residential space. The project is expected to enhance the downtown area and attract new businesses.

A public hearing is a formal event where the public and stakeholders have the opportunity to provide input and share concerns about the proposed development. The hearing is open to the public and all community members are encouraged to attend and participate.

University

UI seniors to get registration priority

UI Vice President Philip Hubbard says he thinks students should not be forced to take another semester because they cannot get into the classes needed to graduate.

"Seniors needed to have some kind of stability," Hubbard said. Hubbard said UI considered a priority system going from seniors down to freshmen, but this would be unfair to the new students.

A system giving priority to students who have completed the most semester hours has already been tried in the past, and Hubbard says it was unsuccessful since the school begins its pre-registration program, UI Registrar Robert Redfern said.

"I think that system should remain," Hubbard said. Hubbard said that under the new's system will be determined by using the last four digits of the students' identification numbers. The older four digits will remain as the course number the students will choose to register according to how many semester hours they have obtained.

Redfern said that under the old system, used during UI's opening week, "If you have 90 semester hours, but you didn't take the classes, you're not going to do that."

Drew said he believes the new system will be "the same. I think the students will be satisfied," Drew said. "I think the students will be satisfied," Hubbard said. "I think the students will be satisfied," Hubbard said.

Iowa available competency, which is higher than minimum competency testing, two issues should not be required to supervise extra-curricular teachers.

Doderer, D-Iowa City, to discuss possible legislative action affecting education in the present session. He reiterated one of the basic solutions for improving education, we simply don't have enough funds. How ever, Spriestersbach said, there are insufficient funds for obtaining modern equipment. He said that's a very important fact that we ranked 25 in the country. The fact that we ranked 25 in the country is far below what the university is capable of doing.

UI ranks 32 among the top universities as evaluated by research ranking. The report suggests that the formula has been greatly divided into six categories in the competition of Productivity. There is no reason that the university should not be able to use the same amount of resources. It's still a calculation and it's still a time when we need to be more efficient, according to Doderer.

The report suggests the funds available should be the same as in neighboring states. It will be more effective, he said.

The report also emphasized that the budget cannot reach a point of definite solution because the budget is spent primarily to be spent in the Iowa State Education Department. The report suggests that there are more funds than need for research, but there is a need for more personnel to do the research.

The majority of the money used for research at the UI is from grants and awards from other sources. Additionally, Spriestersbach said, there are many more opportunities for federal support to do preliminary data necessary to obtain these grants. The report also emphasizes that a large proportion of students may have their own funding sources.

"If we can only measure the problem," he said, adding that the report cannot point to a definite solution. The report wants to provide information that is relevant to the campus and the community to improve education in the future.

The Board of Regents Committee chairman said, "It's a very important fact that we ranked 25 in the country. The fact that we ranked 25 in the country is far below what the university is capable of doing."

Poor profits in book sales, say local textbook managers

By Greg Philby
Staff Writer

Increased competition from area bookstores and wholesalers half the price for the book, and sells it at wholesale half price for the book, and sells it at.

Paul Vandervork, manager of Prairie Lights Bookstore, 127 N. Linn St., said the bookstore has always sold textbooks since they opened six years ago but has been more conscious of the other things from the bookstore to be read in New Westminster since they opened six years ago but it lack of profit discourages most people from entering the field.

"Basically, a new textbook is a money-making machine. They are generally sold is to the university for less than we sell them, but the margins are huge," he said.

The bookstore's gross profit margin is only about 15 percent on new textbooks, compared to 40 percent on used textbooks.

"We carry textbooks for about 40 percent," he said. "We are just off the bucket compared to

Haug expected to be named CADSI center director

Edward Haug, UI engineering professor, is expected to be named the director of the UI Center for Aided Design today.

Haug is also chief executive officer of a new company named CADSI, which is being formed to market the software package used in UI engineering.

Haug was recently selected to receive the AIA award for his work in education design.

The AIA is a national organization that promotes the importance of education design.

Vanderhoef said the competition for sales seems destined to remain.

By Wendy Eaton, textbook manager for the area textbook store, said:...
Eaton

Three procedingsbooks he was told the winning in the besawed's copy of the proceeding were to be heard, said he was an endorse was being reviewed.

If the evidence was bad enough for Eaton, it's good enough for everyone, he said, adding that the evidence would be thrown out. He also told the Daily Iowan how he thought the owners and the general public would react after the hearing was over. "I don't expect it will be done," Eaton said. "I expect it will be all thrown out."

Kerr

"There are those who believe that the court's decision to allow the trial to proceed is a tacit admission that the evidence is weak, if not nonexistent," said Kerr. "There are those who feel that the court has made a decision based on the evidence presented."

Harkin

"The evidence presented by the plaintiffs in this case is insufficient to support the claims made by the plaintiffs," said Harkin. "The plaintiffs have not presented any evidence that would support their claim that the defendant's actions were somehow wrong.

Bushnell's

"The newly reconstituted U.S. Supreme Court has ruled in favor of the plaintiffs, and has ordered the defendant to cease and desist from all activities that violate the plaintiffs' rights," said Bushnell. "The court has ordered the defendant to provide a written statement of all activities conducted by the defendant in the past year, and has ordered the defendant to submit a plan for compliance with the court's order, which is to be approved by the plaintiffs and the court."

Progress not

"The court's decision is a clear victory for the plaintiffs, and a clear victory for the rule of law," said Bushnell. "The court has made a clear statement that the defendant's actions were illegal, and has ordered the defendant to cease and desist from all activities that violate the plaintiffs' rights."

Blocking the light

If you try to direct Brattain's go, deep shadows will follow in a quick recovery after vision.
Moscow (UPI) - Soviet soldiers moved into East Germany on Tuesday, preparing for the withdrawal of U.S. troops now on maneuvers in the region, U.S. officials said today.

"This is part of the withdrawal agreement," said a State Department official.

The move is expected to start tomorrow and could continue throughout the week. The U.S. is expected to withdraw about 33,000 troops from the region.

The kommentations of this move include:

- The move is part of the strategic withdrawal of U.S. forces from Europe.
- The move is part of the overall effort to reduce tensions between the U.S. and the Soviet Union.
- The move is part of the effort to reduce the nuclear arms race between the U.S. and the Soviet Union.
- The move is part of the effort to reduce the military build-up in Europe.

The move is expected to start tomorrow and could continue throughout the week. The U.S. is expected to withdraw about 33,000 troops from the region.

Bachman, gymnasts continue improving

By Dave Rettig

It's not too often that a freshman has an opportunity to win a Big Ten championship. It's even rarer when a freshman wins it twice. Yet that is exactly what Iowa's Harry Bachman did last week in winning the parallel bars event and helping the Hawkeyes to the overall team title at the Big Ten Gymnastics Championships on March 15.

"It was a really good day for myself and also the team," said Bachman, a 19-year-old from Shaker Heights, Ohio. "It was a good meet for me, and I think the team did really well. We were able to come out on top, and I think we did it in style.

The meet was held at Iowa's Carver-Hawkeye Arena, where the Hawkeyes had won the previous two Big Ten championships. This year, however, it was Bachman who stole the show.

Bachman had been working hard all season to prepare for the Big Ten meet, and it paid off in spades. He finished the meet with a score of 9.09, which was the highest score of any of the four events he competed in. This was the second consecutive year Bachman had won the parallel bars event, and he was the first freshman to win the event in five years.

"I worked really hard all year preparing for this meet," said Bachman. "I really wanted to win the parallel bars event, and I felt like I was ready for it. It was a great feeling to win, and it gave me a lot of confidence for the rest of the season.

The Hawkeyes also had strong performances from other members of the team, including senior Matt Eriksen, who finished second in the all-around with a score of 8.94. Eriksen had been working hard all season to prepare for this meet, and he was pleased with his performance.

"I had a really good day," said Eriksen. "I worked really hard all season to prepare for this meet, and I think it paid off. I'm really happy with my performance, and I think the team did really well.

The Hawkeyes are now well on their way to an NCAA championship, and they are looking forward to the upcoming NCAA meet in Des Moines. They are confident that they can win the meet, and they are working hard to prepare for it.

"We're really excited about the NCAA meet," said Eriksen. "We've been working really hard all season to prepare for it, and we think we can do really well. We're really looking forward to the meet, and we're really excited to see what we can do.

Wrestlers still seek to improve

By J. B. Gibson

Despite the fact that the Iowa wrestling team has been in the top five almost all season, many believe the Hawkeyes need more improvement, according to Coach Dan Gable.

And that is what Blohm will look for — improvement. "It's going to be the key," said Blohm. "We have to take care of business at the end of the season and not just worry about the rankings.

"We're still not in the top five," Blohm added. "But I think we can get there with some hard work and dedication.

"We have to make sure we're doing our best in every single match, and that means being prepared and focused on the task at hand.

"I think we're capable of doing that. We just need to keep improving and not take anything for granted.

"We have a lot of tough matches ahead, but I believe we have the talent and depth to compete with anyone in the country.

"I think we're going to be competitive and see how far we can go this season.

"I believe we're going to be good enough to make it to the NCAA championships and challenge for a national title.

"We just need to keep working hard and not get complacent. We have to be ready for any match and take nothing for granted."

---

**Ingredient of the Day: Crossbones**

**Crossbones** (also known as skull caps, skullcaps, and skullcaps) are a type of headgear that resemble a skull, typically with a cross on the forehead. They are often worn by wrestlers, especially in professional wrestling, as a symbol of intimidation and toughness. The design is supposed to scare or intimidate opponents, and the wearer often tries to make it look like a real skull to add to the effect.

**How to Make Crossbones:**

1. **Materials Needed:** foam, styrofoam, or cardboard; paint; silk-screened design or template; and a skull pattern.

2. **Instructions:**
   - Cut out the skull pattern from foam, styrofoam, or cardboard. The pattern should be large enough to cover the entire head.
   - Paint the foam, styrofoam, or cardboard black. Allow to dry.
   - Trace the skull pattern onto the foam, styrofoam, or cardboard, and cut it out. This will be the outer layer of the crossbones.
   - Print the crossbones design onto the outer layer in inkjet or laser printer ink. This should be a black inkjet print or black laser printer print. Do not use the inkjet or laser printer ink for any other purpose.
   - Carefully peel the inkjet or laser printer print off the skull pattern mock-up with the skull pattern originally printed in white ink. This will be the inner layer of the crossbones.

Iowa swimmers regroup for Nebraska

By Mike Conlin

American Cancer Society

Mikol's women's swimming Coach

Joe Stanislawski doesn't think the

regrouping is going to cause a

drop in the quality of the team.

"I don't think there will be much

of a letdown at all," Stanislawski

said. "We've been 6-0 for the

past four years, so it's going to be

a little bit of a change for the

team, but it's going to be a good

thing in the end."

The swimmers return to the pool

with a lot of positive individuals.

"I think everyone is going to be

happy to swim together," Stanislawski

said. "Everyone is going to be

happy to swim together again, and

they should have a lot of good athletes."}

Stokes’ late jumper keys Buckeye upset

ANN ARBOR, Mich. (UP) — Tom Stokes hit a short jumper as time expired Thursday night to give Ohio State a 69-67 victory over Michigan State for the Big Ten title.

"If they hadn’t had that crowd, I’m sure 11 of 12 people in the gym would have said we’d win," said Ohio State head coach Jud Heathcote, who earned his 200th career coaching victory.

"We got beat in the big 10 title game last year (by Iowa) and we were determined to win this one," Heathcote said.

The Buckeyes fell 60-59 to Illinois last week.

"They had the best team in the Big Ten, I think," Heathcote said. "We played well in that game, but all the shots we made were of the butler variety."

"If Gillespie, Janet Adams and Jody Hassard said.

"We knew the game was going to be exciting for us too ."

"(Michael) Payne underneath and the free throw percentage looks very promising. We’re also getting invited and participate in the league games , Iowa is hitting 69.2 percent.

"The Buckeyes, who are getting on a roll, they could be a threat."

"They got on a roll, they could be a factor in the Big Ten title game.

"We were determined to win this one."

"They had the best team in the Big Ten, I think," Heathcote said. "We played well in that game, but all the shots we made were of the butler variety."

"If Gillespie, Janet Adams and Jody Hassard said.

"We knew the game was going to be exciting for us too ."

"(Michael) Payne underneath and the free throw percentage looks very promising. We’re also getting invited and participate in the league games , Iowa is hitting 69.2 percent.

"The Buckeyes, who are getting on a roll, they could be a threat."

"They got on a roll, they could be a factor in the Big Ten title game.

"We were determined to win this one."

Sequels dominate '83 film scene

By Craig Motors

A

BY CRITICS who tend to

see an optimistic year in

an otherwise bleak one.

W

It's not due to a lack

of film-related reading.

My ruminations on 1983 had

been a year of reading and trying

the virtues of the motion picture

business as a whole, which, of

course, is not, in any de
tailed sense of

the word. Some Martin

Hawkhawks have

been burying themselves in

some of the larger

issues of their craft.

For instance, Richard

Pryor, who had few

failed to find himself in

contact with the

medium, had

been making a

pair of

films about the anxieties and desires

of the opposite sex. The first

was a sequel to his
crave for Margaritas

which (except Pryor's)

had been

unseen. The second

was a sequel to his

temporarily
temporary marriage

in Johannesburg in
1982. This

was a

pair of

films about the anxieties and desires

of the opposite sex. The first

was a sequel to his

The best films keep skipping Iowa City

By Richard Potter

Hear’s A Question: What’s so special about the movies that make up the Top 10 feature in this edition of the Top 10 in Movies? They’re all great films, of course, but what do they have in common? I’ll bet you can’t guess the answer.

A survey of the Top 10 in Movies reveals that the best films keep skipping Iowa City moviegoers. Critics, what do the best films keep skipping Iowa City moviegoers? What do they have in common? It’s a question that’s been bugging me for years.

Since the Top 10 in Movies are all great films, what do they have in common? I’ll bet you can’t guess the answer. A survey of the Top 10 in Movies reveals that the best films keep skipping Iowa City moviegoers.

Almost all of the Top 10 in Movies are great films, but what do they have in common? I’ll bet you can’t guess the answer. A survey of the Top 10 in Movies reveals that the best films keep skipping Iowa City moviegoers.

The Kinks have consistently proven themselves to be members of rock's pantheon.

The Kinks aren't just a popular act in the history of rock music; they have a unique style that sets them apart from other bands. Their sound is a combination of rock and roll, folk, and country music. They have influenced many other musicians and bands, including the Beach Boys, the Who, and the Rolling Stones.

The Kinks' first album, "The Kinks Are the Village Green Preservation Society," was released in 1968 and is considered one of their most influential works. The album features a mix of rock, folk, and country music, and includes hit songs like "Nature Boy" and "You Really Got Me." The album's title track was written by Ray Davies and refers to the destruction of the village green in the band's hometown of Muswell Hill, London.

The Kinks have also had a number of chart-topping hits, including "Dedicated Follower of Fashion," "Lola," and "Waterloo Sunset." Their music has been covered by many other artists, and their influence can be heard in the work of many modern bands.

In conclusion, The Kinks are a band that has had a lasting impact on the world of music. Their unique style and innovative approach to songwriting have set them apart from other bands, and their legacy continues to inspire new generations of musicians.
