Chernenko likely to follow Andropov

MOSCOW (UPI) - Konstantin Chernenko, 73, ambassador to the United Nations and the new leader of the Soviet government, has been elected as the new leader of the Soviet government, according to sources in the United Nations and the new leadership.

Chernenko, a close associate of the late Leonid Brezhnev, is expected to lead the Soviet government for the next few years, pending the election of a new leader for the Communist Party.

Chernenko was chosen by the Communist Party's Standing Committee to replace Andropov, who died suddenly last week.

Andropov, 72, was considered the likely successor to Brezhnev, but he was discouraged by Andropov's illness and decided not to compete for the top post.

Andropov, who was a key figure in the Soviet government, was a moderate and a statesman, but he was also a controversial figure who was not well liked by many.

Andropov's death has thrown the Soviet government into turmoil, and it is not clear who will succeed him as the leader of the country.

The Soviet government has been weakened by the death of Brezhnev and the illness of Andropov, and it is not clear how long it will take to find a new leader.

Chernenko, who is known for his moderation and his ability to work with others, is expected to try to stabilize the government and to continue the policies of Brezhnev and Andropov.

The Soviet government has been under pressure from the United States and other Western countries to make reforms and to open up its economy.

Chernenko is expected to work to improve relations with the West and to continue the policies of Brezhnev and Andropov.

City council plans to revise current revenue bond policy
By Carrie Trine

In an attempt to update and specify requirements for Industrial Development Revenue obligations, the Iowa City council has approved a new revenue bond policy. The new policy seeks to ensure that bond issuances are structured to support specific projects and to maintain the integrity of the bond market for Iowa City.

The council's decision to revise the current policy, which regulates requirements for industrial development purposes, is based on the need to adapt to changes in the financial market and to respond to the needs of the city. The new policy will focus on ensuring that bonds are used for specific projects that will benefit the community.

The council's action follows a meeting with representatives of the Iowa City Development Corporation, who discussed the need for a more flexible and responsive bond policy. The council has also received input from various stakeholders, including local businesses, community groups, and financial institutions, in formulating the new policy.

The new policy is expected to be implemented by the end of the month, following a period of public comment and review. The council will continue to monitor the bond market and to make adjustments as necessary to ensure that bonds are used in a responsible and effective manner.

DIAMOND HEART

There was a struggle over the amount of money that the University of Iowa could receive from the state for its academic programs. The University of Iowa's President, J. Franklin B然son, said that for every dollar the University receives from the state, it must return $1 in effective aid to the University industry. This is necessary to support the University's academic programs and to ensure that the University can continue to provide a high-quality education to its students. The University has been working to improve its academic programs and to increase its effectiveness in providing education to its students. However, the University has been facing financial difficulties and has been struggling to maintain its level of effectiveness. The President of the University has been working to address these problems and to ensure that the University can continue to provide a high-quality education to its students. The University has been receiving criticism for its academic programs and has been struggling to improve its effectiveness in providing education to its students. The University has been working to address these problems and to improve its academic programs. Foothold funds controversy persists

By Dennis Noonan and Greg Penny

Six months after the city began to actively consider the $180,000, Iowa City Mayor John McDonald said he's happy to approve splitting the cost of a pedestrian bridge in half.

"The bridge is a good idea," McDonald said. "It will be good for the city." But some councilors, including Ernest Zuber, do not think the city should pay for the bridge.

"I'm leaning toward no," Zuber said. "I think the city should help, but I don't think the city should be the only one."

"I'm not sure," said Larry McDonald. "I'm not sure what we can do with the money." But some councilors, including Larry Mancini and Paul Bradner, support the bridge.

"I think we should "pay for the bridge," said Bradner. "I think it's a good idea." But some councilors, including Zuber, do not think the city should pay for the bridge.

"I'm not sure," said Larry McDonald. "I'm not sure what we can do with the money." But some councilors, including Zuber, do not think the city should pay for the bridge.

Fog stops Jackson, Bond visits

By Jeff Stierman

DENVER (AP) - A fog advisory prevented two prominent Iowa Democrats from making scheduled appearances in Iowa City Friday afternoon.

Democratic presidential candidate Sen. Tom Harkin, who was scheduled to speak at the University of Iowa at 3 p.m. Friday, was not heard from in the state. Iowa Sen. Tom Bradley was also expected to speak in Iowa City later Friday afternoon.

A Democratic party spokesman said the speaker who was not called on the bomber in the United States because the party could have really benefited from Jesse Jackson's endorsement.

Another woman said she was disappointed at the last chance to vote for Jackson.

"This was NOT a case of making a bad decision. I know that both houses discovered it was a very difficult decision to make," said the speaker.

Firebreaks were called a very relaxing word because the United States may have met similar problems in the past. The United States has introduced a new arms control agreement.

In the past, front-runner Wright or the Iowa senator was the Iowa senator, who spent an hour of debate questioning each other.

George McGovern, spent an hour of debate questioning the Iowa senator, who spent an hour of debate questioning each other.

"If we really had to do this debate, I think we'd have a lot of military preparation anyway behind the Iowa senator," he said.

Harkin went on to say that the Iowa senator, who spent an hour of debate questioning each other.

Harkin also went on to say that the Iowa senator, who spent an hour of debate questioning each other.

"This coalition of Democrats needs to be heard. It's very important for the Iowa senator to be heard. It's very important for the Iowa senator to be heard."

COWBOYS ROPE IOWA; CLAIM WRESTLING SUPREMACY

By J.B. Green

Nebraska State Cowboys roused the 国际 University national wrestling championship.

The Hawkeyes behaved the year-old school on Saturday night, losing 24-18. The Cowboys, the No. 2 team in the country, won 12 of 14 matches.

The Cowboys' top-30 Buell, who led the team with one victory, didn't lose a match.

With a 14-1 pinfall victory over Iowa's 133-pounder, Buell continued his winning streak, improving his record to 7-0. He is the only undefeated wrestler in the nation.

BUELL FOUND A WAY TO GET 12

In the 121 E. weight, Iowa's 133-pounder also found a way to lose.

Buell, who was second in the country, lost to Iowa's No. 1, 9-1. Despite the loss, Buell is still considered one of the top wrestlers in the country.

BUCKEYES SLIP PAST POWERFUL BUCKEYES

By Steve Barkowski

Like a bolt of lightning, the Iowa defense just doesn't know how to lose.

The Hawkeyes never scored a point in the first half of the game, held at Iowa's Kinnick Stadium. The Buckeyes won 12-8.

The Buckeyes' defense was the key to victory, as they prevented the Hawkeyes from scoring.

With a 14-1 pinfall victory over Iowa's 133-pounder, the Buckeyes continued their winning streak, improving their record to 7-0. They are currently ranked No. 1 in the country.

Hawkeye guards victimize Illinois as Anderson reaches point plateau

By Mike Carlson
Associated Press Writer

A good portion of the crowd for the second half of the Iowa-Illinois basketball game Monday night was probably on the verge of a nervous breakdown.

Illinois coach Lou Henson and Iowa's Joe Polk were at it again. Each time they seemed to be getting a little closer to their goal, the other would steal the ball and keep the other from scoring.

So it went. The Hawkeyes were up 10 points at one point. The Illini were up two. And Polk came on for what the crowd thought was the game-winning free throw... and missed.

Finally, the scoreboard showed Iowa 74, Illinois 85. But the Hawkeyes were still alive, and Polk was still trying to make his free throw.

"I don't think I'll ever forget that free throw," Polk said. "I didn't want to make it. I just wanted to get it over with."

Polk's missed free throw wasn't the only one.

Iowa's John Hulme missed two free throws late in the game to keep the Illini from scoring.

"We were just so close," Hulme said. "We were just so close for a win."

First dual loss comes to Hawks at Indiana State

By Ali Hakeem

The Iowa women's gymnastics team lost their first dual meet of the season, despite turning in fine performances on all events.

After a Saturday night showdown at the University of Texas, Iowa's meet at the Gymnastics Center in Bloomington, Ind., was scrapped due to rain. The meet was rescheduled for Monday, but the weather conditions were no better.

"We lost, but the gymnasts did pretty well," said Iowa Coach Jerry Hassard. "We had a few slip-ups, but overall we did a better job than what the scores indicate."

Hassard praised the team for their efforts, noting that they had worked hard throughout the season. "These girls have been practicing for a long time, and they deserve some recognition," he said.

The meet was scheduled for Sunday, but due to the weather, it was postponed to Tuesday. Hassard said that the team would have to regroup and prepare for the next meet, which is against the University of Illinois on Friday.

The Hawkeyes' next meet is against the University of Illinois at 7 p.m. on Friday. Hassard said that the team needs to focus on their technique and improve their consistency in order to get back on track.

Mol's streak is kept alive with tough win

In a victory with a toss of three, 13-3, Iowa senior Mol Gaffney earned her first shutout of the year against the University of Nebraska-Lincoln. Gaffney improved her season record to 6-0.

"I'm really happy with the team's performance," said Gaffney. "We played well defensively and offensively."

The Hawkeyes recorded their third straight shutout, allowing just one point in total. Gaffney allowed no runs in the game, as the team dominated with a strong offensive performance.

The team scored five runs in the first inning, including a home run by senior Emily Condon. Condon's home run extended the team's lead to 5-0.

In the fourth inning, the team added three more runs, with junior Sarah Smith hitting a two-run home run. Smith's home run increased the team's lead to 8-0. The team added two more runs in the fifth inning, with senior Megan Murray hitting a two-run home run.

The team finished the game with 15 hits, including two home runs. Gaffney allowed just one hit and struck out four batters in the complete-game victory.

"We played well defensively and offensively," said Coach Jerry Hassard. "The team showed great improvement in all aspects of the game."

The team improved their season record to 10-1 with the win. They will next play against the University of Illinois on Friday, with a chance to maintain their top-10 ranking in the Big Ten Conference. The team will need to continue their strong performance if they want to remain in contention for the conference title.
Iowa men's tennis team jumped all at a good start this season, winning eight straight matches in the Big Ten. In this season, both the Hawkeyes and Sooners have two losses, making it a realistic chance to be in the top three in the conference, according to our victory.

"I thought the Sooners were a bit stronger this year," said Coach Dave Houghton.

Iowa State's George Montgomery and Mike Olson made the Sooners and the Hawkeyes look like a very good team in their respective matches.

"I thought we did a good job of playing with the Sooners, Houghton said.

The Sooners pulled within two points, 32-30, and expect to have a realistic chance to win.

Houghton said the Sooners were the most difficult team they've played in the Big Ten, and they expect to continue to play well over the weekend.

"I don't think we're too far ahead of the Sooners," Houghton said.

The Sooners will continue to beat the Hawkeyes and expect to have a realistic chance to win in their next game.

On the other hand, the Sooners have had two losses in the Big Ten, making it a realistic chance to be in the top three in the conference, according to our victory.

Russian pole vaulter Bubka wins at Olympic Invitational

EAST RUTHERFORD, N.J. (UPI) - For some pole vaulters, Olympic gold is the ultimate goal. To Russian Ilya Bubka, 30, it was simply the last round.

Bubka, who vaulted to Olympic gold in 1980 and again in 1984, clinched his third Olympic gold medal as a member of the Soviet team with a vault of 19 feet 3 inches Saturday in the Olympic Invitational here.

Bubka rises to the occasion

"I rise to the occasion as a competitor," Bubka said. "I am the best athlete in the world and I never had to prove it to myself."

Bubka, who is憧憬着 a fourth gold medal in another Olympic tournament, this Sunday in the world championships in Rome, Italy, vaulted to Olympic gold in 1980 and again in 1984.

New Christine McVie LP outsulines other Fleetwood Mac solo projects

By Allen Nogey

Christine McVie of Fleetwood Mac recently released her new solo album, "Decca," which has received critical acclaim. The album features a variety of styles, including rock, pop, and folk, and has been praised for its mournful ballads and upbeat dance tunes.

McVie, who has been a member of Fleetwood Mac since 1970, has had a long and successful career as a musician. She has also collaborated with a number of other artists, including Stevie Nicks, who also performed on the album.

McVie's voice is well-suited for the album's diverse range of styles, and her lyrics are often introspective and emotional. The album's title track, "Decca," is a particularly powerful song that showcases McVie's vocal abilities.

In addition to her work with Fleetwood Mac, McVie has also released several solo albums, including "The Chain" (1976) and "Everywhere" (1984). She has also worked as a producer and songwriter, and has contributed to numerous other projects.

McVie's latest album is available now, and is sure to please fans of her previous work as well as new listeners.

Big band fans relive era at casino

Music lovers were treated to a night of nostalgia when the Big Band Era was relived at the casino. The show featured a variety of classic big band hits, including tunes from the 1930s, 1940s, and 1950s.

The band was led by none other than the legendary bandleader, who had been a staple of the casino scene for many years. The performance was a hit with the crowd, who sang along and danced to the music.

The show included favorites such as "In the Mood," "Take Five," and "Begin the Beguine," among others. The band's arrangements were expertly crafted, and the musicians were skilled at both playing and performing.

The casino was packed with people, and the sound system was crystal clear. The lighting was also impressive, with a variety of colors and effects that added to the overall atmosphere of the performance.

Overall, the Big Band Era relive at the casino was a night to remember for all music lovers who were lucky enough to be there.
Klezmer musicians emit musical frolic

Music

The Kleztnorim were a band of musicians who performed traditional Yiddish music in a nomadic setting. They were known for their unique blend of Eastern European and American musical styles, creating a new genre they called klezmer. Their performances were characterized by their energetic and improvisational style, which was often accompanied by physical gestures and vocalizations.
