Airport ordinance backed despite resident outcry

By Dawn Unmel

In Iowa City Thursday evening, a small but determined crowd opposed to extending the runway at the Iowa City Municipal Airport met the evening's adjournment with the hope that their position would be heard. The ordinance was passed by the City Council in spite of objections from residents and the Iowa City Airport Commission.

Not everyone was happy with the decision. Juku, the troupe's name means mountains-water school. The troupe is based in Iowa and performs across the country. In the end, the troupe's name remains Jessica Winchester, who was key in the decision to extend the runway.

The相对性应答器的接受度提高了，但在实际中，由于环境因素和技术限制，实施效果并不尽如人意。一些国家和地区已经开始研究使用更先进的通信技术来提高服务器的响应速度和稳定性，但目前尚未有成熟的应用。而且，服务器性能的巨大提升也对网络带宽提出了更高要求。在今后的研究中，需要进一步探讨和改进现有的通信技术，以满足日益增长的通信需求。

**Congress okays money bill,compromises on taxes**

WASHINGTON (AP) - The bill for putting a $30 billion surplus into the government's coffers got another round of approval Tuesday night when the House passed legislation designed to appease business interests.

The House voted 260-175 to pass the bill, which would have raised $30 billion in new revenue over five years. The Senate had passed a $45 billion version, but that bill was killed in the House.

**Candidates battle over past, future**

**PHILADELPHIA (UP) - The President Clinton and Democratic challenger Geraldine Ferraro began their first debate Thursday as they sparred over their party's future, economy, religion and terrorism.

The debate was held in the heart of Pennsylvania, a state Republicans hold by only a 1 percentage point in national polls. Bush and Ferraro began their campaign by addressing the convention in Philadelphia last week. The debate Thursday was the first of three scheduled.

In a letter the city received from the FAA, the FAA stressed the need for the airport to operate in accordance with current safety requirements. The city was asked to bring the airport into compliance with current safety requirements.

The relatively unimportant tax question became an issue in the final adjournment of a week's debater in the Senate. The Senate adjourned for the year on Friday, and is the only law-making body that has adjourned for the year.

With passage of the current session bill, needed for these agencies that were not funded when Congress adjourned to pay all the needed taxes, it had appeared that final adjournment was involved.

But the Senate and House have been contacted in the battle over the airport ordinance, which is a non-binding measure that would not become law unless it is signed by the governor. The Senate adjourned last week without acting on the Internal Revenue Service legislation, which the Senate passed on a bight. Later, the Senate adjourned on a bight.

Others bills were declared dead by the

**CANDIDATES BATTLE OVER PAST, FUTURE**

The relatively unimportant tax question became an issue in the final adjournment of a week's debater in the Senate. The Senate adjourned for the year on Friday, and is the only law-making body that has adjourned for the year.

The Senate's vote Sunday 28-11 for the $7 billion bill, which would eliminate runways and adjust the FAA, could result in the future restriction on the future. Senate leaders have said they would not vote to pass the bill.

Injured in bus, car collision

By Greg Miller

A collision involving a school bus and a minivan Thursday afternoon at the intersection of 14th Street and Fifth Avenue has resulted in an injury to the driver of the minivan.

Mary Pendle, a passenger in the school bus, said she was traveling north on the bus when it made a turn at the intersection and was hit by the minivan coming south.

Pendle said she was not injured in the accident, but the driver of the minivan, who was also a passenger, was taken to the hospital.

The school bus was carrying a group of students from the junior high school.

Subway fires wreak havoc

NEW YORK — Fire swept through a subway station Thursday afternoon, sending thousands of commuters fleeing for their lives.

The fire, which started in the 42nd Street-Port Authority station, caused a total of 1,200 fires that have occurred in the New York City subway system in the past seven days. On Oct. 1, a fire ripped through one of the busiest commuter stations in the High Street station, resulting in a total of 1,200 fires that have occurred in the New York City subway system in the past seven days.

Police

By Mark Silver

A North Liberty man made an initial appearance in court Thursday following a traffic accident that occurred on Main Street.

The man will be tried at 11 a.m. on a charge of failing to use a vehicle on a road.

PERSONAL COMPUTERS for STUDENTS

The Office of Information Technology and the Weeg Computing Center are pleased to announce a pilot program to make personal computers available to students. Five hundred personal computers are available for lease to full-time students on a first-come, first-served basis. When the pilot program ends in May, 1983, participants will have the option to purchase the leased equipment.

Participating students may choose either an Apple Macintosh®, or IBM PC® personal computer. Word processing, graphics, and programming language software are included with both computers. Options with either choice are a printer and communications equipment. Costs range from $35 to $75 per month depending upon the options selected.

If you wish to participate you must register for the program at the Calvin Hall Registration Center. Registration begins at 8:30 a.m., Wednesday, October 17. * The first 500 registrants will be included in the program.** An additional 100 names will be placed on a standby list in case of cancellations. When you register you are only signing up to participate. You will not select or order equipment at registration.

An information packet explaining the program in greater detail will be provided at registration. Important dates are:

Wednesday, October 17, 8:30 a.m. - registration at the Calvin Hall Registration Center.

Monday, Tuesday, and Wednesday, October 22, 23, and 24, 9 a.m. to 5 p.m. - walk-in equipment information and demonstration sessions in the Hawkeye Room of the Iowa Memorial Union.

Wednesday, October 24 to Tuesday, November 6 - equipment ordering sessions. The times and locations will be provided at registration.

Wednesday, November 7 to Wednesday, November 21 - equipment delivery and orientation sessions. The times and locations will be provided when equipment is ordered.

* You must be a full-time student; bring your student ID card when you sign up.

** You can only submit one request for a personal computer.

Macintosh is a trademark of the Apple Computer Corporation. PC is a registered trademark of the International Business Machines Corporation.
UI to offer new rental-retail computers

The campus is considering offering a new system where students can rent personal computers for a fee. The system, known as the "University of Iowa Library's Rental Retail System," is being developed by a group of students and faculty members who believe it will provide a more cost-effective way for students to access technology.

The system will allow students to rent workspace, software, and other computing resources for a fee. The idea is to provide a more flexible and affordable way for students to access technology, especially for those who may not be able to afford to purchase their own personal computers.

The rental system will be available to students through the UI Library's Rental Retail System, which is being developed by a group of students and faculty members. The system will be available on a limited basis to students who are interested in trying it out.

The rental system is still in the planning stages, and the University of Iowa Library is seeking feedback from students and faculty members to help shape the system. The library will be holding a series of workshops and meetings to discuss the system and gather feedback from the community.

"..."
New Aquino suspect implicated

SAN JONE, Calif. (UPI) -- An op-
erous report on President Ferdinand
E. Marcos' closest confidant and former
Minister of National Defense Juan
Aquino Jr. has been leaked to the news.
It details a plot to overthrow the
Aquino government.

The leak follows recent reports that
Aquino is preparing to run for presi-
dent in the 1986 elections.

Aquino has denied the reports and
claimed he is not a candidate for presi-
dent. However, the leak has raised
questions about his political intentions.

Aquino has been a key figure in the
Aquino administration, which has been
plagued by corruption and economic
problems.

The report mentions that Aquino
funded opposition groups and plan-
ed to use them to destabilize the
Aquino government.

Aquino has been under fire for his
role in the Marcos regime, which was
overthrown in a popular uprising in
February 1986.

The leak has added to the turmoil in
the Aquino administration, which is
struggling to deal with economic
problems and political instability.
A mighty fine road?

**TV’s Mike Farrell hits campaign trail for Harkin**

By Colleen Kiley

Mik'l Farrell, the California actor known for his role as B.J. Hunnicut on the TV series "M*A*S*H," has been touring Iowa for the past four days campaigning for Democratic U.S. Sen. Tom Harkin to be re-elected.

"I'm asking people not to take my word for anything," says Mike Farrell. "I'm simply here offering my opinion and asking voters to look at the record."

"I'm a king not to take my word for anything. I'm simply here offering my opinion and asking voters to look at the record," Farrell said when he topped In Iowa City last night to campaign for Democratic senatorial candidate Tom Harkin.

Farrell, who is known for his role as B.J. Hunnicut on "M*A*S*H," appeared at a rally in Coralville on Friday evening, speaking to an estimated 1,000 people.

Farrell's appearance was part of a national tour to support Harkin, who is running for re-election.

Hospice race lacks quality times, but not numbers

In the marathon field will be Kim Haney of Cedar Rapids, three-time Big Ten champion, and Mark Hartz of Iowa City, who won three of the last four Big Ten titles. The field will also include four-time Big Ten champ Lisa Peck of Princeton, N.J., and three-time Big Ten champ Edith J. Shiley of Iowa City.

The marathon will be held at 8 a.m. The 10-mile race will be held at 9 a.m. Both will be held on the University of Iowa campus.

The big question is whether the race will attract enough runners to make it a success.

The race will be held on the Iowa campus, and the course will be marked with signs and volunteers.

WC Water polo game tickets on sale

The Bears can sell up to a total of 2,500 tickets until the day prior to the Waterloo Invitational, which is on Saturday, November 16th. Persons who order tickets in advance will be able to pick up their tickets at the door of the Recreation Building on the day of the meet. Children's and adult admission is $3.00, and there is a discount for groups of 20 or more.

In addition to the usual 100 yards, both the men's and women's teams will be participating in the Waterloo Invitational, which is a meet that takes place on Saturday, November 16th. The meet will be held at the Recreation Building, and all games will be played at 1:00 p.m. sharp.

The Waterloo Invitational is a prestigious meet that attracts teams from all over the country. The Bears have a strong history of success at this meet, and they are looking forward to another strong showing.

The meet will feature a variety of events, including freestyle, backstroke, breaststroke, and individual medley. The Bears will be looking to perform well in all events and to come away with a strong showing.

IM water polo deadline today

The final deadline for registration for the IM water polo league is tomorrow, October 24th. The league is open to all men and women, and it will be held at the Iowa City Parks and Recreation Building. The league will run from October 25th to November 22nd, and players are expected to have their own pool sets.

The league will feature a variety of events, including freestyle, backstroke, breaststroke, and individual medley. Players are encouraged to come to the league with their own pool sets, and they will be responsible for providing their own equipment.

The Bears have a strong history of success in the IM water polo league, and they are looking forward to another strong showing this year.

Pryor may be in Iowa for good

By Brent Shelton

Richard Pryor came to Iowa from Florida and offered himself as much as he could be considered a headliner. However, a 6-4, 230-pound freshman defensive end, and as importantly widely right decision to continue in Iowa to play football. "I'm not quitting," he said. "I'm doing my best to go out here."

As far as his teammates on the East and West sides of the campus are concerned, Pryor said, "They don't care. They play. "People will wake up and see and know a nosebleed."

Pryor added that this is the last year he will be in Iowa, where he has been offered a scholarship to play football. "I have to start playing for the Michigan team," he said. "My brother is coming in to take the Michigan team and to keep No. 1 platter."

Paul Thomason has a great career ahead of him, but he will not play for the Hawkeyes in 1984.

"If you want to go out and play for the Michigan team, you have to start now," Thomason said. "I'm not saying that he can't play, but he has to start now."
**Saints reunite Campbell, Phillips**

**NFL roundup**

"I TALKED TO Earl after our game a couple of weeks ago," said New Orleans running back Wayne Wilson. "I said, 'Man, you need to be with us.' He said, 'I know,'" Wilson said. "That George is No 1 back. Earl is No 2 back, P.I. is No 3, and I'm at No 4.'"

Fittingly, impossible Campbell never figured he'd have to do. The former University of Hawaii standard gained 440 yards during his rookie year of 1981 and picked up 3,160 and 1,200 the next two seasons — easily the best three-year start in league history.

But since then he's highest season has been 1,200 yards (1984) and during an injury-plagued 1986 season he gained just 380 yards.

The 5-4 Saints are hoping that playing once again for Phillips will rejuvenate Campbell and launch the NFL's few senior citizen to make the playoffs into possible action.

**ELSEWHERE SUNDAY.** It is Chicago at St. Louis, Cincinnati at New England, Indianapolis at Philadelphia, Houston at Miami, the Giants at Atlanta, the Jets at Cleveland, San Diego at Kansas City, Tampa Bay at Denver, Buffalo at Seattle, Dallas at Minnesota, and New Orleans at Green Bay.

No. 17 Purdue hosts Iowa; Illinois looks to stop Byars

Purdue finds itself atop the Big Ten Conference standings but the real test of the Boilermakers' season comes this weekend. With a win, Purdue will move within two games of the conference lead. The Boilermakers' next home game is the season finale against Iowa, which will be played in the Carrier Dome. At stake is a potential Big Ten title and a shot at a national championship. The Boilermakers have already registered a victory over Illinois, with a win over the Hawkeyes, they will be in great shape for the Big Ten championship game. Purdue's defense has been the key to their success, ranking among the best in the nation in several categories.

The LEAGUE EXPERTS agree. "We look forward to a tough game against Purdue, but our defense is ready for the challenge," said one analyst. "They have a great quarterback and a strong running game, but our defense is up to the task." The Boilermakers' strong defense will be crucial in determining the outcome of this game.

Illinois, on the other hand, is coming off a loss to Northwestern. The Illini were hoping to move closer to the Big Ten title, but their hopes were dashed by a strong performance from the Wildcats. The Illini will need to regroup and focus on their next game against Purdue. Illinois' quarterback, who has been dealing with injuries, will need to step up and show leadership.

The Boilermakers' quarterback, who is known for his strong arm, will need to show his talent against a tough Illinois defense. The game is expected to be a high-scoring affair with both teams looking to make a statement.

Chick Corea brings romanticism, folk to recital

By Anne Witting-White

TRUE DUBED "Jazz meets classical music on a grand scale," the concert at Hancher Auditorium on Friday, Oct. 12, might have been more accurately titled "Jazz incorporating some elements of Romanticism," Spanish folk forms and improvisations. One reason for this was that the concert took place in an evening of original music, "Making it public the concern was more about being able to give the impression it was going to be a real show, rather than a jam."

Through the six musicians who are playing with Chick Corea today — Brazilian guitarist Paco de Lucia, saxophonist Paquito D'Rivera, Ukrainian bassist Yuri Goloubev, soprano saxophonist Tony Malaby, and pianist Paul Bley — Corea has brought his music to life in a way that has been compared to the work of a classical composer. Each member of the septet has brought his own musical device (notably, each member of the quintet was asked to bring a piece described as a solo) and has at times tended to sound like a catalogue of musical elements, but each has also brought a certain amount of thematic glue.

The concerts opened with "Concerto for All," a piece described as "the longest piece Corea has ever written." The piece was written for the premier of the Brazilian guitarist Paco de Lucia, Corea's occasional collaborator, and the piece ended with a flourish that was both dramatic and emotional. The piece was a vehicle for Corea's virtuosity and a showcase for his technical abilities.

The second movement of "Concerto for All" was a slow, reflective piece that was played by the entire ensemble. The piece featured a solo by guitarist Paco de Lucia, who played a beautiful and expressive solo that was both technical and emotional. The piece was a highlight of the concert and a testament to Corea's ability to bring out the best in his musicians.

The third movement of "Concerto for All" was a fast, energetic piece that was played by the entire ensemble. The piece featured a solo by saxophonist Paquito D'Rivera, who played a driving and explosive solo that was both technical and emotional. The piece was a highlight of the concert and a testament to Corea's ability to bring out the best in his musicians.

The fourth movement of "Concerto for All" was a slow, reflective piece that was played by the entire ensemble. The piece featured a solo by guitarist Paco de Lucia, who played a beautiful and expressive solo that was both technical and emotional. The piece was a highlight of the concert and a testament to Corea's ability to bring out the best in his musicians.

The fifth movement of "Concerto for All" was a fast, energetic piece that was played by the entire ensemble. The piece featured a solo by saxophonist Paquito D'Rivera, who played a driving and explosive solo that was both technical and emotional. The piece was a highlight of the concert and a testament to Corea's ability to bring out the best in his musicians.

The sixth movement of "Concerto for All" was a slow, reflective piece that was played by the entire ensemble. The piece featured a solo by guitarist Paco de Lucia, who played a beautiful and expressive solo that was both technical and emotional. The piece was a highlight of the concert and a testament to Corea's ability to bring out the best in his musicians.

The final movement of "Concerto for All" was a fast, energetic piece that was played by the entire ensemble. The piece featured a solo by saxophonist Paquito D'Rivera, who played a driving and explosive solo that was both technical and emotional. The piece was a highlight of the concert and a testament to Corea's ability to bring out the best in his musicians.

The concert closed with a piece titled "Romanticism," which was a beautiful and reflective piece that was played by the entire ensemble. The piece featured a solo by guitarist Paco de Lucia, who played a beautiful and expressive solo that was both technical and emotional. The piece was a highlight of the concert and a testament to Corea's ability to bring out the best in his musicians.
Films

Unlikely stars in King of Comedy as a world-beanstand-up comic with the unlikely name Rupert Pugle. Despite his 180 for his quip: "I've got a number on a seaweed talk show hosted by See Jerry Langford - Rupert's scene of getting it what he wants to be - is a classic in its own right. Each show ends with a controlled performance in Rupert's old gig and, as he's about to leave for a night out.

After repeatedly pressuring Langford's office for an audition, and even showing up uninvited at Langford's weekend house, Rupert sees no alterative to seizing the day. An ex-bartender, ex-fugitive and ex-actor, Pugle was a nobody in the New York world of show business. But his one-time dream of being on the silver screen was realized when he was able to "look down on everyone and say, 'You look like crap."

The film is variously populated with cold reception- nates, lukewarm reception critics, offbeat characters, and New York showbiz history, all of which makes for a hilarious and enjoyable viewing experience. And when Langford, a middle-aged man, shows up later and says, "Why, Rupert, you're a genius!' the audience is left laughing along with Langford and Pugle. The film is a perfect send-up of the New York showbiz world, and a true classic of its genre.

Music

Trombone music hits new heights

By Kate Van Orden

The trombone player does not have the best reputation of musical instruments to choose from. In fact, it is notoriously poor and has been the butt of many jokes. But trombone music has come a long way in recent years, and the trombone is now considered a valuable and versatile instrument. Trombone players are now sought after in a variety of musical styles, from jazz to classical to rock. The trombone has even been used in contemporary music, showing its versatility and adaptability.

The trombone player's ability to produce a rich and powerful sound is one of the reasons for its popularity. The trombone produces a deep and resonant tone that can add an extra layer of emotion to any musical piece. It is also a very expressive instrument, allowing the player to express a wide range of emotions through their playing.

The trombone player's technique is also constantly improving. Advances in mouthpiece and valve design have made it easier for players to achieve a good tone. The trombone player's ability to control the instrument's sound is also becoming more refined, allowing for greater expression and nuance in their playing.

The trombone player's versatility is also a major factor in its popularity. The trombone can be used in a variety of musical settings, from jazz bands to symphony orchestras. It is also a popular instrument in many styles of popular music, such as rock and pop. The trombone player's ability to adapt to different musical styles is a major reason for its versatility.

The trombone player's dedication to their craft is also a factor in their popularity. The trombone player's attention to detail and commitment to their instrument is evident in their playing. The trombone player's passion for their instrument is also evident in their dedication to improving their skills and knowledge of the instrument.

The trombone player is a unique and valuable addition to any musical ensemble. The trombone's rich and powerful sound, versatility, and dedication to their craft make it a popular and respected instrument in the music world. It is no wonder that the trombone is a beloved instrument and continues to see growth in popularity and demand.
