Congress agrees on spending bill

WASHINGTON (UPI) - House and Senate negotiators broke a two-day standstill late Wednesday and reached agreement on a $670 billion 1986 spending bill that could allow Congress to adjourn for the year.

The deadlock was finally broken late Wednesday when negotiators reportedly agreed to a $670 billion bill - $15 billion below the Senate's $685 billion proposal and $2 barn below the House's $683 billion plan. After the deal was reached, negotiators went to the House to negotiate for approval of $1 billion on chemical weapons production facilities due in 1986.

The Senate has indicated that production of the military chemical weapons itself in the early months of 1986, according to a spokesman for Senate Majority Leader Robert Dole.

The Senate bill was expected to go to the House Thursday for approval. The House agreed to adjourn for the day.

Vacant city positions may go

The Iowa City Council is considering the simul- taneous elimination of the city’s first and second assistant managers, to make way for the new corporate form of governance. The move could save the city up to $600,000 per year in salaries and benefits. The current city manager is in the process of selecting a new city manager.

The move is expected to be announced at a future council meeting. The new city manager will be responsible for overseeing the day-to-day operations of the city.

Possible city job cuts

- The city manager
- The city auditor
- The city treasurer
- The city engineer
- The city attorney

These positions are currently filled by their respective department heads. The city council is expected to discuss the possibility of eliminating these positions during its next meeting.

Order

A proposal to study vacant city positions could save the city up to $600,000 per year. The proposal would allow the city to consider whether to retain these positions or to eliminate them. The city council is expected to vote on the proposal at its next meeting.

Convicts release seven guards ending Oklahoma prison uprising

Oklahoma State Prison Warday Gary Maynard, right, route with Terry Kinney, left, and James Clayton during a demonstrator at the Oklahoma City, Okla, prison, Tuesday, Oct. 15. Prison officials said Kinney, Clayton and Joe Jenner and three others have been hospitalized in stable condition after the guards and other convicts released seven guards during a routine lockdown. Inmates on the Oklahoma State Prison's Unit 10 in McAlister, Okla., took seven guards hostage Tuesday night during the early evening minutes of the lockdown between meals. A prison official said guards were beaten and injured, and Kinney, Clayton and Joe Jenner and three others have been hospitalized in stable condition.

The announcement marked the fourth consecutive year that land values declined across the state. The state's average land values for 1985 have declined an estimated 36 percent since 1982. According to the annual survey conducted by the ISU's Real Estate Center, the state average for 1985 was $250 per acre, down from $685 per acre in 1982. The survey is based on reports by licensed real estate brokers and knowledgeable of land market conditions.

In north-central Iowa, where acreage declined the most - down $1,586 per acre since the peak year - the survey found that land values are down 60 percent from 1982. The southwestern counties were the only area with an increase, up three percent from 1982 levels. The survey found that the largest decline was in north-central Iowa, where acreage declined 62 percent from 1982 levels.

The survey is based on reports by licensed real estate brokers and knowledgeable of land market conditions.

"In the long run, land values will reflect current earnings from land, expected rates of growth in earnings, changes in rates of interest and inflation," Lawyee said. "Changes in these factors since the early 1980s have tended to reduce land values." Land values are also affected by land markets, development costs and changes in land use.

Steel beam falls, leaves 3 dead

LOS ANGELES (AP) - A steel beam collapsed on three workers Monday, leaving 3 dead. The beam was being used in the construction of a new airport terminal.

The beam fell during a routine lockdown at the airport. Inmates beat the guards and other convicts released seven guards during the lockdown, officials said.

Circumstantial evidence pieced together in Mayberry conviction

**Analysis**

James Mayberry was convicted of murder. His trial featured a string of circumstantial evidence gathered over a period of four years. The trial was marked by several key moments that contributed to the conviction.

1. **Motive**
   - Mayberry's motive was not explicitly stated, but the prosecution suggested it was financial gain, as Mayberry was in debt at the time of the murder.

2. **Weapon**
   - The murder weapon was never found, but the prosecution argued that Mayberry had access to a specific tool that could have been used in the crime.

3. **Place of Crime**
   - The crime was committed in an apartment, and the prosecution showed that Mayberry had been in that apartment shortly before the murder was reported.

4. **Eyewitness**
   - There were no eyewitnesses to the crime, but the prosecution argued that an unidentified individual was also present and could have been responsible.

5. **Confession**
   - Mayberry initially claimed he was in a different location at the time of the murder but later admitted to the crime.

**Central Argument**

The prosecution's case rested on the cumulative weight of these circumstantial pieces of evidence. Each piece, while not conclusive on its own, supported the overall narrative of Mayberry's guilt. The defense, on the other hand, argued that the evidence was inconsistent and did not prove guilt beyond a reasonable doubt.

**Conclusion**

The ruling on the Mayberry case highlights the challenges of proving guilt in the absence of direct evidence. It underscores the importance of careful examination of all available information, even if it is not conclusive on its own. The case also raises questions about the reliability of circumstantial evidence and the legal standards for establishing guilt.

**Job-oriented students miss out**

**By John Doe**

To general studies major Julian Clark, college is more than just a place to study. He believes that the skills and networks he is building are just as important as the knowledge he is gaining.

"I have my entire life to work at a career that I didn't choose," Clark said. "I feel like if you don't have a degree and don't have a job, you're just going to be stuck.

"I think that's the biggest problem with纯 students," Clark said. "They don't have the opportunity to explore different career paths and see what they like."

Voted "Best Bookstore in Iowa City" by U of I Students
NEW YORK (G.P.) - Texaco was a temporary restraining order Wed­
nesday by a federal judge that halted a $1.3 billion judgment against the oil giant by the United States government.

The federal court in White Plains, N.Y., granted Texaco's request for a temporary restraining order against PNG, a subsidiary of American Oil company.

The judge ruled that PNG, which is named in the case, was not a proper defendant as the judgment has been rendered against Texaco and the U.S.

The ruling means that PNG can now seek to have the restraining order lifted, which could allow for settlement discussions.

The case involves a dispute over the theft of uranium by PNG from Texaco. The theft occurred during the building's construction.

The court said that Texaco had the right to seek a temporary restraining order to prevent further damage to its reputation.

The judge also noted that PNG had not provided sufficient evidence to support its claim of innocence.

In a separate ruling, the judge deniedTexaco's motion to have the case dismissed due to lack of evidence.

The judge ruled that Texaco had not met its burden of proving that PNG was involved in the theft.

The case will now proceed to trial, which is scheduled for early 2019.

FARM

The farmer said he was disappointed by the ruling.

"I fought for years to get that judgment against PNG," the farmer said. "I feel that the court is allowing PNG to continue to profit from its illegal actions.

The farmer added that he plans to appeal the decision to a higher court.

More than babysitters

When US Student Senate President Steve Grubbs demanded that dorm fees be frozen, I learned one thing only—believe that education is of little value to him. I learned a lot more when he appeared before the state Board of Regents. "Do you realize that there are people out there who can't afford to go to college?" Cut the rest of "Listen to this fool and meet your Maker." If this man is the future of education, it's no surprise that student enrollment is at an all-time low. At the college level as well as the preschool level, the quality education requires certain experiences.

It is this kind of attitude that brings the teachability of the student to its current inglorious state. Few employers believe that education is of little value to him. Besides, there will always be someone—usually less well-qualified—willing to work for minimum wages.

The arrest of the teenager in Iowa City has set a dangerous precedent. If the teachers cannot be offered the salaries they need, many will leave the profession to its current inglorious state. Few employers believe that education is of little value to him.

I wish to express my objections to the recent charges against Bruce Fomon. I feel that the whole thing was a setup. I feel it's necessary to incite the city to pursue the case against Bruce. I feel that Bruce had given the matter much thought and had made a decision.

The arrest came as a surprise--I wish to express my objections to the recent charges against Bruce Fomon. I feel that the whole thing was a setup. I feel it's necessary to incite the city to pursue the case against Bruce. I feel that Bruce had given the matter much thought and had made a decision.
This Holiday Season...

mend a quarrel
seek out a forgotten friend
dismiss suspicion & replace it with trust
share some treasure
give a soft answer
encourage youth
manifest your loyalty in word & deed
keep a promise
find a time
forego a grudge
forgive an enemy
listen
apologize if you were wrong
try to understand
examine your demands on others
think first of someone else
appreciate
be kind & gentle
laugh a little more
deserve compliance
decry complacency
express your gratitude
go to church
welcome a stranger
gladden the heart of a child
take pleasure in the beauty
& wonder of the earth
speak your love
speak it again,
speak it once more.

Best Wishes to all for a happy holiday season & a prosperous, peaceful New Year.

IOWA STATE BANK & TRUST COMPANY
iowa City and Coralville  369-5800  Member FDIC
Chicago rules NFC
Pro Bowl lineup

NEW YORK — The Chicago Bears, whose 161 record is the NFC's best, lead the NFC for Pro Bowl roster honors after announcing their selection for the all-time leading rusher in the NFL who will be announced Wednesday, Dec. 23.

The Pro Bowl, matching NFC against AFC for the first time since 1969, was scheduled to begin at 8:30 p.m. in Honolulu.

Selections for the Pro Bowl include the following:

**Running Backs**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

**Wide Receivers**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

**Corners**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

**Defensive Ends**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

**Defensive Tackles**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

**Linebackers**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

**Interior Line**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

**Specialists**
- Gale Sayers (Chicago)
- Jim White (San Francisco)

This is the 15th time a Pro Bowl selection has been made for the Chicago Bears. They are the only team in the NFL to have had a Pro Bowl selection from two different positions in the same season. Gale Sayers and Jim White are the only players in NFL history to have been selected for the Pro Bowl in the same season.

**Hawkeyes gear up for Sooner’s dual**

By Dan Milles Staff Writer

While most Iowa locals would expect their top geezers to be out scouting for the recruiting season, the 19-year-old upperclassmen are the ones getting ready for another top match next week.

At 6-foot-3, 235 pounds, the Iowa Indoor Wrestling Team has one of the finest wrestlers in the country in Donnie Williams.

The team's first match of the season against Northwestern will be held Sunday, Dec. 23, in Iowa City.

**Wrestling**

Iowa, home State, and Illinois State, in that order, will face off in a dual meet at Carver-Hawkeye Arena on Sunday.

The 1985-86 season will be one of the most challenging for the Hawkeyes as they face off against some of the top programs in the country.

**SURVIVING that weekend without a loss will be a tremendous accomplishment for the Hawkeyes, and finding two top performers in the same meet is like finding two Seismus Trojan winners, Amherst Giffin.**

The Hawkeyes, who finished 1984-85 with a record of 13-3, have won their last six meets, including a 27-20 victory over the Sooners last year.

**Injuries**

The Hawkeyes have lost to the Sooners since 1983 and Iowa State since 1982, but the team is a different one this year.

The team has two of the top wrestlers in the country in Williams and Steve Delaney, who finished second and third at the national championships, respectively.

**Iowa coach: recruiting under siege**

By Steve Sands Staff Writer

Success has brought its own problems for Iowa coach Hayden Fry.

While recruiting and retaining talent is a never-ending problem, it is especially difficult now, as he tries to keep his team competitive.

Fry is looking for a way to motivate these guys to stay in school and work hard, because once they get out they find out how hard it is, a year or two later, says Bob King, who is in charge of academic counseling at the university.

"You have got to find a way to motivate these guys to stay in school and work hard, because once they get out they find out how hard it is, a year or two later, " says Bob King, who is in charge of academic affairs at Purdue.

"We have got to find a way to motivate these guys to stay in school and work hard, because once they get out they find out how hard it is, a year or two later, " says Bob King, who is in charge of academic affairs at Purdue.

**College athletes forget student roles**

"The ONE intangible that has really no way to handle is the motivational " Bob King, Purdue's assistant athletic director for student-athlete development, said.

"We have got to find a way to motivate these guys to stay in school and work hard, because once they get out they find out how hard it is, a year or two later, " says Bob King, who is in charge of academic affairs at Purdue.

By Brad DeMozne Staff Writer

"A choice at a professional career shouldn't be the only reason high school athletes choose to go to college."

When an athlete finds out no contract in waiting after their college career, they are the ones left to realize they should have worked harder.

This has become a major problem in intercollegiate football and basketball because a number of student-athletes today are leaving college and professional careers.

The coaching staff for the Pro Bowl will be from the Iowa State University football team.

Iowa State's football team is in the process of converting the best of the best from college to pro careers.

The coaches are pleased with the selection of Gale Sayers and Jim White as representatives of the Iowa State football team.

"The Cyclones have to be represented by a number of student-athletes today are leaving college and professional careers.

Faust returns to Buckeye state; accepts Akron coaching position

AKRON (Ohio) - Former Notre Dame Coach Gerry Faust, admitting to being overwhelmed by the news he was to be named the coach at the University of Akron.

"I'm here and I'm bucked. I'm happy to be here," said Faust, a former Ohio State Buckeye, at a crowded news conference attended by football players and students at the school's JAR Arena. "It's a thrill to be back in Ohio."

Faust said he has signed a five-year contract, but did not disclose financial terms.

However, United Press International (UPI) reported Faust will earn $140,000 per season in straight salary, plus $135,000 in straight-year bonuses, and $120,000 in Ohio State football coach Earle Bruce.

Faust, who was dismissed after five years at Notre Dame in which he compiled a disappointing 26-26-2 record, said he was contacted by 15 colleges and subsequently offered five jobs.

YOUNGSTOWN State, Rice, Marshall andRo Mulus (Mich.) High School, andR omulus (Mich.) High School

"I was interested in Faust," said Faust, who said he made his decision in 3 p.m.

Monday. "We're considering more the size of Akron as a city and the integrity of the University and its athletic department."

"It's an ideal place to attract young men," he said.

Faust said his contract did not have an escape clause.

"I'm not interested in roaming," he said. "I want to be able to stay and go. If you look at my record, I've

A.J.

been more or less in place in every season."

Boston Pops may perform for Lady Liberty on July 4

BOSTON (UPS) — Music lovers fumed Wednesday over the possibility the Boston Pops Orchestra will break a long tradition of celebrating the city on the Fourth of July by performing at the dedication of the refurbished Statue of Liberty.

In the days leading up to the dedication, Boston Mayor John F. Sheehan invited the orchestra to perform July 3 as part of the pre-dedication ceremonies. Bostonians in the city and across the state have long regarded the music of the Pops as an integral piece of the July 4 festivities.

"This is where our families formally accept the invitation," Smokey said. "We want to make sure we can be back in time to perform here the next day, Thursday, December 19, 1985."
**U.S. cities offer a variety of holiday culture**

By Lisa Norton

**Chicago** — Fortified by the city's chill, you can enjoy plenty of delights to store. Perhaps the simplest fun of all is to look at the Christmas lights. This year, three neighborhoods are particularly well decorated. In West Loop, you'll find lots of lights and displays from the 19th and 20th centuries. In the Rogers Park neighborhood, there are many Christmas lights and decorations, as well as a festive parade. And in Lincoln Park, you can see lights and decorations outside the Lincoln Park Zoo.

**New York** — If you're looking for a winter wonderland, you'll find it in New York City. The city is covered in snow, and the streets are decorated with wreaths and garlands. The Macy's Thanksgiving Day Parade is a must-see event, and the holiday season kicks off with the lighting of the Rockefeller Center Christmas tree.

**San Francisco** — The city is a winter wonderland with its snow-covered hills and mountains. You can see the beauty of The North Carolina Theatre's production of *A Christmas Carol* if you visit the city during the holidays. The city also has many other holiday events, such as the Christmas tree lighting at Union Square and the Nutcracker ballet performances at the War Memorial Opera House.

**Miami** — The city is a winter wonderland with its snow-covered hills and mountains. You can see the beauty of The North Carolina Theatre's production of *A Christmas Carol* if you visit the city during the holidays. The city also has many other holiday events, such as the Christmas tree lighting at Union Square and the Nutcracker ballet performances at the War Memorial Opera House.
