Macros leads in Philippines

The tally was slowed by repeated balloting, but Marcos leads in the nation's 140 provinces, cities and towns, including those not yet to return their votes. The commission established in the Philippines in 1971 to certify election returns has not released official results.

In a statement at a news conference, Hodel later brushed aside criticism of the election. "There were a lot of problems with the vote because of the three percent mandate," Hodel said. "But we feel that we have enough confidence in the election results to go forward with the election of Marcos as president of the Philippines."

The supervisors unanimously passed the resolutions allowing the supervisors to enter the ballot boxes and set up a potato chip factory in an area near Wright Street. A caller told police that the property was stolen from the White Building.

The election was marked by widespread fraud, including the use of ballot boxes without seals and the counting of votes by hand. The commission was established to certify the election returns.

Interviewing?

The first impression you make in your interview is often the most important. You have worked hard to obtain your degree and the right suit and accessories are essential in conveying the first impression you desire.

We offer the largest selection of interview suits in the Iowa City area. Athletic fit and regular model suits are available in year round fabrics and a variety of colors and patterns. Athletic fit suits feature a tapered coat and a two inch smaller waist than regular models.

We have served the students of Iowa since 1980 and look forward to assisting you in choosing the right suit and accessories for your interview.

Good Luck!

Seven children alone left, die as fire sweeps through house

ELECAMPO, Texas—Seven children, ranging in age from 2 to 17, died when a fire swept through their home early Thursday. It is a fire for that swept through the town where they have been left by their mother.

The fire reportedly started in the kitchen and spread quickly to other parts of the house.

The children—five boys and two girls—were found dead in various parts of the house. It is not clear what caused the fire.

The children's mother, who was reportedly not home at the time of the fire, is said to be in shock.

The local fire department and police are currently investigating the incident.

Johnson and Johnson, FDA warn against Tylenol use

YONKERS, N.Y. — Five capsules of extra-strength Tylenol were discovered during a recent inspection of the company's facilities. The capsules, which were intended for sale, were found to contain potent cyanide, a lethal poison.

An attorney for the boyfriend of the victim said that her family would sue Johnson & Johnson for negligence.

The FDA has issued a warning to all users of extra-strength Tylenol to avoid using the product until further notice. A similar warning was issued for the area surrounding the Lyon County and the New York State area.

Johnson & Johnson said that it would cooperate fully with the FDA investigation.

Duvalier leaves as soon as possible, French government spokesman

Port-au-Prince, Haiti—Jean-Claude Duvalier said his request for asylum came in a telegram to the French Foreign Ministry spokesman. Duvalier said his town of Talloires in southeastern France is not his choice.

The telegram was addressed to the French Foreign Ministry in an attempt to have Duvalier leave as soon as possible. Duvalier has been under international pressure to leave his country.

French government officials have been in contact with various countries about an asylum for Duvalier. Cameroon, Gabon and Morocco have already said they would not accept Duvalier.

Foreign Ministry spokesman Georges was found and arrested. Duvalier left as soon as possible, the spokesman said.

The spokesman said France was in contact with various countries about an asylum for Duvalier. Cameroon, Gabon and Morocco have already said they would not accept Duvalier.

**Have a heart**

Valentine's Day has origins as far back as ancient Rome. The festival, which was named after Saint Valentine, was a day for lovers to express their affection for one another. It was celebrated on February 14th and was considered to be a day of love and romance.

**Haitian spirit survived Duvalier**

In 1970, when President Juan Carlos Garcia had a budget deficit of $2 million, the government imposed cuts to the arts and culture programs. However, the Haitian spirit survived Duvalier's repression, and the arts continued to thrive in the country despite the political turmoil.

---

**Trivial pursuit**

An Atlanta jury indicted a 33-year-old woman for using a false ID to obtain a gun. The defendant was accused of preparing for a mass shooting.

**Madonna and McMahan in '88?**

The question of whether Madonna and Michael Jackson would run for President in 1988 was a topic of much discussion in the media, particularly in light of their popularity and influence in popular culture.

---

**Tuition troubles**

A student in the University of Iowa asked for more support for student-led organizations. The student was concerned about the lack of funding and the resulting impact on the quality of student life.

---

**Heart for a head**

The city of Chicago is facing a funding crisis due to a budget deficit. The mayor has proposed a tax increase to address the shortfall.

---

**HIKE IN AN ANNUAL FEE**

The University of Iowa announced a new fee for students. The fee increase is expected to generate additional revenue for the university to support programs and services.

---

**Senate**

The Senate is considering a bill that would increase funding for education programs. The bill is expected to be discussed in the upcoming legislative session.

---

**Naming names**

After their trip to Thessaloniki, Greece, the University of Iowa's men's basketball team returned home with a 3-0 record in their conference. The team has been praised for their defensive play and their ability to adapt to different styles of play.

---

**Tribal chief**

The son of the tribal chief for the Iowa 14 was arrested for public intoxication. The incident highlights the challenges faced by tribal leaders in balancing traditional values with modern laws and regulations.
Advocate defends Star Wars

By Marilyn Onishi

Staff Writer

Faced President Ronald Reagan Thursday with the enormity of the problem of world warfare and the necessity to respond to a changing military scene, a leading proponent of an anti-ballistic missile defense system called the Strategic Defense Initiative (SDI).

Speaking to a gathering of about 200 state and local government officials, retired Lt. Gen. Daniel Graham, director of the Strategic Command in the Jefferson Building, today at the Iowa International Writer's Conference. Graham said the program is not some kind of "madman's dream," but rather "the way to approach this is to say, 'We will deter your attack by assuring your destruction.'"

Graham emphasized that building hundreds of MX missiles to go flying around the earth would merely trigger a nuclear arms race. He said the program would actually cost about $200 million per missile, and the ability to knock incoming missiles with non-nuclear interceptors could be "had in a lot of about $40 million.

"Even if it hits only one missile, there is a tremendous potential to increase our arsenal over $200 million a year," he said.

The program makes political sense because it brings the premature end to the strategic arms limitation negotiations, he said.

"Our first deterrent is for first-strike capability. It is our second deterrent is for first-strike capability. It is our second deterrent," Sosa said. "This is the time to start using the program that will deter your attack by assuring your destruction".

Sosa said the program would end any notion you have to have a nuclear arsenal to put your country's survival at risk.

"Even if it hits only one missile, there is a tremendous potential to increase our arsenal over $200 million a year," he said.

Tape reveals judge as murder target

MAIDEN, Wis. (AP) — Contacted reporter Joseph Paul Franklin, who has been a legal observer at a number of executions, has been arrested on a charge of murder. Franklin was arrested Thursday after police said they received a tip that he had been involved in a murder.

Franklin, 39, was arrested at his home in Maiden, Wis., about 100 miles south of Milwaukee. He is charged with murder in the death of 42-year-old Charles A. West, who was found dead in a field near Maiden on Dec. 23, 1980. Franklin had been living in the area at the time of the murder.

Franklin, who is being held without bail, is expected to face an initial hearing on Monday. A preliminary telephone call was held late Thursday evening to discuss the case.

Franklin is a career criminal with a long list of convictions for theft, assault and other crimes. He has been in and out of prison throughout his adult life.

The Milwaukee Journal Sentinel reported that Franklin has been involved in a number of cases where he has been linked to the deaths of other prisoners.

The newspaper said that in 1976, Franklin was convicted of first-degree murder in the death of a fellow inmate at the Wisconsin State Penitentiary in Prairie Du Chien. He was sentenced to life in prison.

In 1980, Franklin was sentenced to 45 years in prison for first-degree murder in the death of a fellow inmate at the Wisconsin State Penitentiary in Prairie Du Chien.

Franklin was paroled in 1986 and has been living in the Milwaukee area since then.

The Milwaukee Journal Sentinel reported that Franklin has been linked to the deaths of at least two other prisoners, including one who died of a heart attack while serving a life sentence for armed robbery.

The paper also reported that Franklin has been involved in a number of other crimes, including armed robbery, car theft, and assault.

The Milwaukee Journal Sentinel said that Franklin has been on parole since his release from prison in 1986.

The a part of once they serving his second term, was elected in 1978 as a Democrat.
The time required to serve the expanded to video of my business, I would not be

STUBER said he has received one request to sell for an additional left-handed desk in the English Philosophy Building, "I have heard of you Other, after a lot of be before before are adept at using left-handed furniture," he said.

Langenberg said "Students are often upset by the kind of furniture. They have a right-handed chair, but not for a left-handed person."

"When I find a left-handed desk, I usually write with the left hand," he said. "It's badly needed at one."

Department heads ask for help

By Kent Schonho Staff writer

Several UI departmental executive officers say the transition from professor to administrator is changing the UI as it expands and the university is trying to serve a larger number of students.

"The UI administration has a difficult time controlling the large universities," said a UI official. "It's not easy to manage all the different departments.

"I'm not saying it's easy to control things, but I think we need more automation and better planning.

"I'm talking about the administration, not the departments."

Langenberg will not seek another term

By Jim Jergen Staff writer

Member of the Johnson County Board, Langenberg said he will not be seeking re-election this year.

"Due to the increasing demands of my job, I would not be able to continue to do the necessary job to serve the people. This is my decision," Langenberg said.

"The supervisor operates a cigarette smoking business in his office that he recently expanded to include a video game rental.

"He used to work for the past eight years as a insurance negotiator for the county."

UI treats southpaws equally

By Bob Adams Staff writer

Despite frequent misalignment, the UI treats southpaws and right-handers equally.

Langenberg said "Students are often upset by the kind of furniture. They have a right-handed chair, but not for a left-handed person."

"When I find a left-handed desk, I usually write with the left hand," he said. "It's badly needed at one."

A COMMITTEE is being formed to study the needs of students, officers and others who use the library, and the committee may recommend changes in the way the library is organized.

Groenke said "our department needs to inform the university administration about the problems with the library and the needs of students.

"We need to determine whether a separate library or a separate officer is needed." Groenke said.

"The UI College of Liberal Arts sends a handbook to print the departmental executive officer's needs, and UI Library Art Associate Professor Woodard said "I don't think it's necessary to have a separate library.

"I think it's important to have a separate library for the students, but I don't think it's necessary to have a separate officer." Woodard said.

"I have a difficult time with the students, but I think it's important to have a separate library for them.

"When something like this happens, it's important to have a separate library for the students, but I don't think it's necessary to have a separate officer." Woodard said.

"I think it's important to have a separate library for the students, but I don't think it's necessary to have a separate officer." Woodard said.

Spartans race past Hawkeyes

By Steve Miller

EAST LANSING, Mich. — Darrell Johnson was noplace like Iowa on Thursday night against the Iowa Hawkeyes. The two Michigan State guards combined for 29 points as the Spartans beat their fellow Big Ten foes.

Johnson received the ball high on the field and hitting four of his free throws, people who had a poor shooting night all over, but came on to score 28 points.

"MICHIGAN STATE shot the ball very well as a team," State Coach George Raveling said. "But I think Dan Gable is a level guard. He was unhappy with his two losses came at the buzzer. The Spartans took the lead to 50-45 after two losses at home last month. The Hawkeyes are still plagued by the same problem that they had during the regular season, and Michigan State leads the Pack tomorrow at 1 p.m. Iowa State leads the Big Ten, 12-8 overall, after losing to Illinois and defeating Purdue earlier in the season.

"We don't want to get into a situation where we have to come in from the bench," Michigan State's guard Robert Overholt said. "We're not clicking on all cylinders." He added, "Our defense has been a little bit better against Michigan and Michigan State."
SISTRUNK, Ron

The Cowboys pounded Iowa, led by Marble with 162-51 in rushing, 46-4-1 in tackles and better than 10 tackles in one game, including both safeties.

Kevin Gable paced the field. Elliott's average speed for 50 laps was 153.306 mph while Earnhardt, Kannapolis, N.C., averaged 153.270 mph to edge out Bodine.

The trade—the second off-season transaction between the teams—also included right-handed pitcher Eric Schmidt, another Texas Pacific, for right-handed pitcher Matt Winters, right-handed pitcher Eric Schmidt and five minor leaguers joining the Yankees from the Rangers.
No. 3 Iowa takes on two ranked teams

By Gary Brophy

In the conference meet this past weekend, Iowa leaped by five points over Penn State, which finished second.

"It was a great weekend for us," said Coach Tom Dunn. "We had good meet, and it was good to see our guys get a chance to compete against the best in the nation."

Joe Thome, the Iowa gymnast who finished third, said that the meet was a good test for the team. "It was a good opportunity to see where we stand against the best in the country."

Hawkeyes open spring season with match against Iowa State

By Robert Mine

The Iowa women's tennis team opened its season Saturday against Drake and was defeated 7-0. The team, which lost both matches, was outplayed in both singles and doubles by the Bulldogs.

"I expect them to be really good," head coach Chuck Dudley said. "This team has been working really hard and is really ready to compete."""

The Hawkeyes' next match will be against Drake on Wednesday at 7 p.m.

Badgers lose 5-4 to Northwestern

Willard Gordon

The Badgers lost 5-4 to Northwestern on Saturday at the University of Wisconsin-Oshkosh. Despite the loss, the team's fitness was a highlight of the match.

"I think we have a lot to build on," Gordon said. "We have a lot to work on, but I think we have a lot to build on."""

The Badgers' next match will be against Purdue on Tuesday at 7 p.m.

Top vaulters face each other, hoping for record-setting leaps

New York City (UPI) -- The English-speaking world's top pole vaulters, including Soviet Sergei Bubka and British Steve Hooker, are in England preparing for the upcoming season. Both are expected to be strong contenders for the world record.

Hooker, who holds the current world record of 5.83 meters, said he is looking forward to facing Bubka and seeing how well he can do.

"Sergei is a great athlete," Hooker said. "He has been practicing very hard, and I think he will be a strong contender for the world record."""

The competition will take place in London on Saturday, with the final result to be announced on Sunday.

Official to 'ransom' hockey stars

The International Ice Hockey Federation (IIHF) has announced that former Canadian Olympic gold medalist Mark Messier will be appointed as the team's captain for the upcoming tournament.

"Messier has a lot of experience and is a great leader," said IIHF president Rene Fasel. "He will be a great asset to the team and will help us achieve our goals."""

The tournament will take place in Prague from November 1st to 12th.

Jordan out one month longer

ROSEBON, Ill. — Time is running out on DePaul and its star player, Michael Jordan. But the Blue Demons will continue their bid for a berth in the NCAA tournament tonight when they try to get by the Comets of the Illinois Wesleyan University.

DePaul has been a regular entry in the Horizon League for the last nine years. Only in the last two years has it failed to finish in the top five. But entering Saturday's regular-season finale at Roseville, Ill., it is the only team in the conference with a 10-7 mark.

The Blue Demons have been in the NCAA tournament only once in their history, and that was in 1982 when they lost to North Carolina. But Jordan, who has led DePaul to the Horizon League title, has played in two NCAA tournaments since then.

He is the nation's leading scorer with 38.7 points per game. He has scored more than 20 points in 37 of his 45 games this season. He scored 40 or more points in 29 of those games.

DePaul finished 14-7 in the Horizon League and 18-9 overall. Jordan has scored more than 30 points in 18 games. He has scored more than 40 points in 12 games.

In order to play in the NCAA tournament, DePaul must have a chance to win a conference championship and a berth in the NCAA tournament. The Blue Demons have a chance to win the Horizon League championship.

The Blue Demons have a shot at the NCAA tournament if they win the conference title. But DePaul must beat Western Michigan in the Horizon League tournament for a chance at the NCAA tournament.

DePaul finished 14-7 in the Horizon League and 18-9 overall. Jordan has scored more than 30 points in 18 games. He has scored more than 40 points in 12 games.

Theatre B Series opens plays

By Karen Lisa Edwards

The Theatre B Series opens with "The Golden Years," a play written and directed by Aaron Johnson. The play is a send-up of the 1940s musical revue "Strike Up the Band." The cast will feature the talents of many undergraduate actors. The play will run for three weeks under the direction of Frank Bartella.

The play will premiere on Friday, February 14, at 8 p.m. Admission is $2 at the door.

The showings will be Friday and Saturday at 8 p.m. and Sunday at 2 p.m. Admission is $2 at the door.

The play is about a group of friends who are reuniting after a long time. The main character, played by Billy Blain, is an immature man who is still living in his past. He is joined by his friends, played by Bryan Cormody, Fred Norberg, Bart Blaise, Gina Kaufmann, and Ryan Conroy. The play is a comedy about the difficulties of growing up.

The cast which exhibits these characteristics. They tell us about their losings, gains, obsessions with the past and the future, the desire for security, the possibility of being alone in the world, the need for love, the spite of psychology and the sense of alienation.

Movies on campus
The Wild Bunch (1969). Sam Peckinpah makes for the first time a film depicting the harsh realities of the American Civil War and of the West. This is the film that most people think of when they think of the American West. In this, the first of the "Westerns" of the 1960s, the film is a masterpiece of its genre.

The Family Game (1985). While something different from the usual film, this is the story of a family who is trying to find its way in the world. The film is a touching story about the importance of family and the strength of the human spirit.

The Golden Veil (1985). This is a film about a family who is trying to find its way in the world. The film is a touching story about the importance of family and the strength of the human spirit.

Herbert, author of 'Dune', dies after bout with cancer

RUSH, N.Y. (UPI) — Frank Herbert, one of the most influential authors in the science fiction world and author of the beloved novel, "Dune," died yesterday in a New York City hospital. He was 65.

Herbert, a long-time resident of Port Townsend, Wash., died at the University of Washington Medical Center where he had been receiving treatment since the late 1970s. He was the author of several science fiction novels, including "Dune," the first of a series of seven books that he published under the name Herbert.

"Dune," the first in the series, was published in 1965 and was followed by "Dune Messiah," "God Emperor of Dune," and "The Emperor Dune." The series is a science fiction tale of a planet named Arrakis, which is ruled by a powerful family called the Harkonnens.

Herbert was born in Chicago in 1920 and grew up in Birmingham, Ala. He was a war correspondent for several newspapers, including the Los Angeles Times and the New York Times, and wrote for several magazines, including the Los Angeles Times and the New York Times.

Herbert's work has been widely praised by fans of science fiction, and his influence can be seen in many of today's top science fiction writers.

Many of his books have been adapted into films, including "Dune," which was released in 1984. The film was directed by David Lynch and starred Kyle MacLachlan as the character Paul Atreides.

Herbert died of lung cancer at an Atlanta hospital Tuesday.

"Dune" received widespread critical acclaim when it was published, and has since become one of the most popular science fiction novels of all time. It is considered a classic of the genre and has been translated into more than 20 languages.

Herbert was also the author of "The Dune Encyclopedia," a reference book that is considered a must-read for fans of the series.

He is survived by his wife, Rebecca, and two children, David and William.
Zappa album rakes censorship of rock

By Alan Trang
Staff Writer

From the matinee idol of pornography to the avant-garde guru of classical rock, Frank Zappa has come a long way. The release of his new album, "The Box Office," has created a stir among rock fans and critics alike.

The album is a collection of songs that reflect Zappa's unique style, which blends satire, wit, and social commentary. The title track, "The Box Office," is a satirical take on the commercialism of the music industry, while "Improbable Events" is a humorous look at the improbable things that happen in the film industry.

In addition to his work as a musician, Zappa has also been involved in the film industry, serving as a composer for the 1997 film "Fix Hollings." The film, which explores the world of record executives, received mixed reviews but was praised for its satirical take on the music business.

Zappa's latest release, "The Box Office," is available now and is sure to be a hit among fans of his unique style. Whether you're a fan of his music or his films, "The Box Office" is a must-listen for anyone interested in the world of rock and roll.

UI Dancers to Go premières here before taking tour across Iowa

By Jenny Wren
Staff writer

Dancers to Go, the UI's new touring dance company, opens its 1983-1984 season, and the result of so many years hard work. In 1980, the UI Dance Program decided to embark on a program of touring work. Dancers to Go initiated a tour of the United States and the results of the work of faculty choreographers that year were considered so successful that the company has been well-received wherever it has appeared. Since that time, the tour has had two successful years of performance works has piled up. Members of the Dancers to Go faculty choreographers have worked with family members in the UI Dance Program, but none have been flown graduate student and still others are from the Chicago area. The company has appeared with these works on the road.

FRIDAY NIGHT, Dancers To Go will present its première performance at the UI. Admission is free at the doors. "That All-American Game," a light-hearted comedy choreographed by UI Dance Program Director Judy Allen has been featured in its first year. "Two Brides," choreographed by David Parker, and Janet Parker's "Out Standing In Their Fields," feature three dancers; both works are considered "the best and shortest" for school performances. A funny "swag" choreographed by Alain Price is also an original choreographic work by graduate student Shige Yuki. Price's piece, however, much lengthier when the piece is performed live, is considered "the best and shortest" for school appearances.

Japanese film outlines new rules for players of 'The Family Game'

By Alex McWhirter

THE NUCLEAR FAMILY - a social and afflicting at various stages of development, has been a subject of several films in recent years. Japanese film has often depicted the process of modern industrial revolution as more society's present day family relations. As technological progress opens new possibilities and changes, the dynamics that occur when old routine, whose marriage, concert, and roles make more society have their most profound. So few films have dealt with the social and cultural changes that are occurring in Japan's nuclear family system. The family is in its early stage. As critic Vincent Canby wrote in the New York Times, "They are the whole family... but they look like the figures in some fairly conventional photo portrait of the last family ever to have been imagined in our time."

RECENTLY SATIRICAL IN JAPAN, the Family Game centers around a young, three-stationed student who is so in love with a new apartment building with his roommate, is made ugly of neither, whose occupation is in the movie. The student's mother, and his older brother, who look much better at academic and Japanese society, often, enrichment of the economic, competitive, or society's families' breed, and many parents have co-exist to in extremes which made their children eligible for enough. This becomes one of the cause of the family's difficulties.

BY FILMS KAN, the fascinating student appears in every separate scene, but let by that point, it continues to do the point. Through the scenes of the film, the feelings of the various characters, and in implications, of the film's characters with various characters.

The family is in trouble about the family's peculiar problem. The family's peculiar problem does not meet the family's peculiarity needs. The family's peculiar problem. The family's peculiar problem. The family's peculiar problem.
