Panel doubts key Branstad plank

By Fred B. Dakar

Bicyclists beware. Old Man Dave Atkins is studying the possibility of installing bicycle signals in intersections where he says the number of bicyclists is growing.

Atkins began gathering information about bicycle traffic signals in late May. He attended a seminar on bicycle traffic signals and a conference in Chicago.

The bicycle traffic signals currently in operation in Europe, Atkins said, can be adjusted to vehicle and bicycle traffic patterns. In the United States, Atkins said, bicycle traffic signals are confined to bicycle lanes.

"There is absolutely nothing we can do at the moment," Atkins said. Iowa City Police Department officials won't even consider signals.

Over blown

UI Senior Randy American warns us before Iowa branching its lectures Tuesday afternoon at 4 p.m. near the Library. American is a Kendall professor in the English Department.

"I don't know what to do with this," Atkins said. Iowa City Police Department officials have refused to install bicycle traffic signals in Iowa City.

City starts wheels to motion in cite law-breaking bikers

Law-history professor Sutherland dies at 55

By Ann Egan

U. Iowa history professor Robert W. Sutherland died Tuesday evening of a viral infection. Sutherland was home sick from school on Monday and Tuesday.

Sutherland was an authority on the English legal system.

"He was a vital part of the department," said U. Iowa history professor William Deane. "He was a very kind and personable man with a great deal of knowledge."

Student senators discredit Rehnquist

By Joseph Levy

The Daily Iowan — Iowa City, Iowa — Wednesday, September 18, 1985 — Page 3A

Student senators on the University of Iowa Senate Council on Tuesday night disagreed with Chief Justice William Rehnquist's remarks that members of the University of Iowa Senate Council, including council member Margaret Widiss and Joe Hansen, needed to be more forceful in helping pass legislation.

"They are not a part of their party," Widiss said of the council members. "They can try, but they can't make a difference."

Widiss said she would like to see the council members "put the pressure on the administration and ask for more staff." She said that the administration was causing "a lot of work for the students and they would like to see more people on the staff." She said that the council members needed to be more forceful in helping pass legislation.

Hansen said that the council members needed to be more forceful in helping pass legislation. He said that the council members needed to "put the pressure on the administration and ask for more staff." He said that the administration was causing "a lot of work for the students and they would like to see more people on the staff." He said that the council members needed to be more forceful in helping pass legislation.

"They are not a part of their party," Widiss said of the council members. "They can try, but they can't make a difference."

Double nickels

Everyone can get a "load" foot from time to time while driving and see things from a new perspective. The recent passage of the "right to speed" law in Iowa gives drivers the option of going over the speed limit by up to 10 mph in most of 35 mph and school zones.

The penalty for such an offense is a $2 fine for every mile per hour over the speed limit, a 10 percent surcharge and 30 cents for court costs. But more importantly, this new law allows motorists two incidences of exceeding the speed limit by one to 10 mph before the citations start as an on-the-road driver.

However, many drivers on Iowa’s roads are taking the “right to speed” literally, Iowa’s renewable and highways appear to be taking in the characteristics of Los Angeles, and the situation might have suddenly become the unofficial speed limit in Iowa, with drivers passing at 30 to 40 mph.

There is talk around Washington D.C. that President Reagan may allow the 55 mph national speed limit and let the states determine their own standards. For some, like Arizona and Nevada, a hike in the speed limit might be practical because of their desert environments and their long stretches of open road into California.

But all the talk is going to mean more to drivers on foreign roads. But what is more important — seeing time or saving lives? Drivers have been known to kill.

The state is giving motorists on Iowa’s roadways a break with a "right to speed" but the speed limit is still 35 mph. For the safety of Iowaans and those traveling in Iowa at 35 mph.

Jim Anderson Editor Note

Friendly faces

The Big Brother/Sister program sponsored by The Black Student Union is on the way. Many freshmen require support and when they are through forms sent out by BSS and more are still seeking their guidance. Opportunities abound, but this is a Big Brother/Sister and they are now making and getting to know.

The purpose of the program is to help new students become acquainted with campus life. The transition from high school to college can be difficult and a student who has been through the experience can be a great help to a freshman who is having difficulty adjusting. Big Brother/Sister, a new student becomes familiar with the campus and answers questions about his or her college experience.

Since BSS is a minority organization, some emphasis is put on the cultural differences new students encounter while at the same time, freshmen, native or not, can certainly be entertained in some form. Big Brother/Sister, Little Brother/Sister and every experiment in a mature way.

Big Brother/Sister also lets the importance of academic and home maintenance since these were the main concerns in determining success at Iowa State.

Even in its early stages, the Big Brother/Sister program has proven to be a worthwhile effort. Hopefully, this program will continue to provide "personal" programs that will continue to get better in the future.

Cuba YEARBOOK

Forgotten lessons

In his own officinaal ceremony as Archbishop of Capetown, Desmond Tutu again made his commitment to non-violence and the其它 of apartheid. Our people are a peaceful people, he said "The miracle of our land is that it has not gone up in flames. People ask how can the victims of the recent attack in Newton and the thousands of others who have lost their homes, brothers and sisters of our land, be pacified? Why? Why did this happen? People say that violence seems to be more effective in resolving conflict and perpetuating their homeland?"

Why did Black South Africans walk with empty hands rather than turn in their best? Why did they become an instrument of violence and murder, without violent resistance? Why pickets and sitting outside police stations? The crime must be there. There must be some reason. And there must also be some reason that while America so freely harried about the "evil of the injustices and suffering of blacks in the 1960s and early 70’s. Did the mass violence somehow spark some native human consciousness, or be the cause of some empathy?"

We would like to think that the same thing is possible in a land of greater beauty than South Africa where there is a virtual absence of racism, honest government, and between the African and the white man."

Videogame vans live music in local clubs

By Tom Hunter
Special to The Daily Iowan

The city council of the music-oriented Iowa City is making efforts to watch video entertainment run its course, rather than harass the local bar owners and merchants. "What they are saying is, "Hey, why isn't the city doing anything to help us?"" said John Shire, manager of the line at the former home of the Crow's Nest, now known as Gabe's, 330 E. Washington St.

"But the city really only has room for about 150 bands contracted to play different nights a week. It's not like there's a list of bands waiting to get into Gabe's," Shire said.

In addition, sometimes contracts are forfeited to play a higher paying gig. "If people feel that the bar is going to lose money by not playing a show, they won't let the band come back," Shire said.

"There's not a whole lot of money in live music," Rogers said. "Contracts signed by bands must be paid whether or not an audience attends, but the bar owners feel that it is not enough money to play live music."

"If you want to tell a member of the local bar band what to play, you have to tell him," Rogers said. "People will start to turn away from bars and start to stay at home."

"When you look at it, they have to leave," Rogers said. "People will start to turn away from bars and start to stay at home."

"I think the guys really don't consider using it just for sex," Kunz said. "They think the guys really don't consider using it just for sex," Kunz said.

22 Iowans saved by seatbelts

ABOuin 22 Iowans have saved their lives, though only two-thirds of them have survived crashes because they buckled up. The 22 names have been placed on the DOT's "Life Toll," a running list of people who survived crashes because they buckled up. The survivors include a couple from Minnesota who were killed in all of these accidents since the month of August, 1985.

The survivors include a couple from Minnesota who were involved in a crash. The survivors include a couple from Minnesota who were involved in a crash.

"Life Toll" information is gathered from law enforcement officers who indicate an accident report form if they believe persons would have been killed if they had not been wearing seat belts. Preliminary 1985 data show 42 people were killed in all motor vehicle accidents during the month of August, 1985, in Iowa. All accidents were investigated during the same month.

It is estimated that 5,000 lives have been saved and 30,000 injuries prevented in the last three months. All accidents were investigated during the same month.

Blue Cross of Iowa to face inquiry

WASHINGTON (UPI) - Federal officials are investigating a $2.5 million settlement between Blue Cross and the state of Iowa. The investigation is expected to call for an investigation of the Blue Cross of Iowa, which is part of the nation's largest Blue Cross and Blue Shield system.

The settlement, which was announced in July, has drawn the attention of state and federal officials who are concerned about the adequacy of the settlement.

"It is important that we have an independent review of the settlement to ensure that the terms are fair and reasonable," said a Blue Cross official.

The settlement was reached with the state of Iowa after a lengthy negotiation process. The settlement includes a $2.5 million payment to the state, as well as ongoing payments over a period of years.

The settlement is expected to be finalized in the near future, but the details of the agreement have not been made public.

"We are committed to working with the state of Iowa to make sure that the settlement is fair and reasonable," said the Blue Cross official.

The settlement is expected to be finalized in the near future, but the details of the agreement have not been made public.

**Savings and loan and loan to replay creditors**

Cedar Rapids (IA) — A federal bankruptcy judge Tuesday approved a plan to reorganize two failing savings and loans, Cedar Rapids Financial Institution and Cedar Falls Financial Institution, where office from future participation in the financing of low-income housing projects and projects within the jurisdiction of the Department of Housing and Urban Development.

Judd Kiesle, the president of the former FDIC, announced the chapter 11 filing in court Tuesday morning.

The plan, approved by Judge Michael Melloy, will create a new $33.5 million fund to pay $33.5 million to its MorAmerica customers and $11.1 million on passbook accounts and $11.1 million on bonds. The plan is expected to pay about half the original $33.5 million fund.

The plan would also pay $33.5 million to the federal banking regulators. Of that, $33.5 million would go to the Federal Deposit Insurance Corporation and $11.1 million to the Federal Reserve.

MorAmerica and its subsidiary, Morris Plan, which serves more than 12,000 customers, would liquidate MorAmerica customers would receive about $33.5 million on bonds and another $33.5 million on its passbook accounts.

MorAmerica, which filed for Chapter 11 protection in March, is expected to file for Chapter 11 bankruptcy in the United States. The plan would create a new $33.5 million fund to pay about $33.5 million to its customers and another $33.5 million to the federal banking regulators.

Democratic chair accuses Branstad of 'buying votes'

By Brian Japan

Iowa Democratic Party Chairman Arthur North accused Gov. Terry Branstad of "buying votes" in an effort to "get a jump on" the elections.

"The Iowa Democratic Party and its candidates have been held up for several years by legal agreements between the city and the company," North said.

"If the company was not granted approval of an annual 1 percent franchise ballot to the city to allow it to buy votes, it might have been held up by the city and the company," North said.

North said the franchise agreement between the city and the company was drawn up by legal counsel for the company in March 1986 and signed in August 1986.

"The agreement is a legal contract between the city and the company and is not subject to approval by the Iowa Utilities Board," North said.

"The agreement is a legal contract between the city and the company and is not subject to approval by the Iowa Utilities Board," North said.

North said the company has been held up by the city and the company for several years because of the legal agreement.

"The agreement is a legal contract between the city and the company and is not subject to approval by the Iowa Utilities Board," North said.

Vendor food seasons mall

Working with people a plus for pedestrian mall peddlers

Jenks, a psychology major, said the job has extra benefits, including saving some money because she gets to eat for free.

"Working with people is always a good experience," Jenks said. "I like talking to people and helping them with their needs."

Jenks and John Muller, a couple from College Street, operate a vending cart in front of Create-A-Cone room.

"My husband is from Chicago and I was interested in serving Polish sausages and gyros in the downtown area," Jenks said.

Senate demands Daniloff's freedom

WASHINGTON (CNS)—The Senate demanded Tuesday that the Soviet Union free American journalist Daniloff, who has been under arrest in Moscow since March 9. The Senate said Daniloff was arrested without probable cause and is being held in violation of international law.

The Senate resolution was passed by a voice vote after two hours of debate. The resolution, sponsored by Sen. Danforth of Maine, was adopted by a vote of 91-4, with all but two Democrats voting yes.

The resolution stated that Daniloff's detention and trial have violated the guarantees of the First and Fifth Amendments to the Constitution, as well as international law.

The resolution called for the release of Daniloff and for the United States to take all necessary steps to ensure his safety and well-being.

The resolution also condemned the Soviet Union's treatment of journalists and called for an end to the harassment of journalists in the Soviet Union.

Senate Majority Leader Robert Byrd said the Senate's action was a "message to the world that we will not tolerate violations of international law or the freedom of the press." He added that Daniloff's case was a "matter of principle and conscience."
By Kevin Donecker

A separated scholar-athlete isn't alone in the world. Often, athletic opportunities and college scholarships are given to those who are academically talented and athletically skilled. In the case of Iowa's newest quarterback, Marc Mazzeri, he is one such athlete.

Mazzeri, a transfer from Nebraska two years ago, is a junior in the College of Business Administration, majoring in finance. His academic success has been matched by his athletic success.

Mazzeri was declared academically ineligible last spring for exceeding the NCAA's academic guidelines for Division I football. The NCAA's Academic Integrity Policy prohibits student-athletes from receiving academic credit for work done during the spring season, which Mazzeri did.

Mazzeri's reinstatement by the NCAA was a significant event for both the University of Iowa and the student-athlete himself. The decision has allowed him to return to the team and pursue his academic and athletic goals.

The reinstatement of Mazzeri is a reminder of the importance of academic success for student-athletes. It highlights the importance of balancing academic and athletic responsibilities and the potential consequences of not doing so.

Football

Travis Wakefield, who will not start Iowa's 1986 season as a redshirt.

Travis Wakefield's decision to redshirt was made by his coaches and the NCAA. Wakefield was granted a one-year extension to his redshirt status because of a knee injury suffered earlier in the season.

Wakefield's injury is a significant setback for the Iowa football team. The redshirt year will give Wakefield an extra year of eligibility, allowing him to play four years instead of three.

**NCAA returns full eligibility to all 60 Cornhusker players**

By Laura Palmer

The University of Nebraska-Lincoln has announced that all 60 Cornhusker football players have been granted full eligibility by the NCAA, allowing them to participate in the 1986 season.

The decision by the NCAA means that all 60 Cornhusker football players are eligible to play in the upcoming season. This is a significant development for the Cornhuskers, who were forced to sit out the 1985 season due to NCAA sanctions.

The Cornhuskers have been working hard to get back on the field and are excited to have the opportunity to compete in the 1986 season.

**Women's Cross Town schedule**

The University of Iowa has announced its 1986-87 women's cross country schedule.

The schedule includes five meets, with the first meet scheduled for September 12th. The Cornhuskers will compete against other Big Ten schools, including Iowa State and Northwestern.

The women's cross country team is looking forward to the upcoming season and is excited to have the opportunity to compete against some of the top teams in the conference.

**NCAA tournament rules for eligibility**

The NCAA has announced new rules for eligibility for the 1986-87 academic year.

The new rules include restrictions on the number of hours student-athletes can work off scholarship money, as well as limits on the number of days student-athletes can practice during the academic year.

The NCAA hopes that these new rules will help ensure that student-athletes have the time and energy to focus on their academic work as well as their athletic pursuits.

**Public relations and communications**

The importance of public relations and communications in the sports industry cannot be overstated.

Effective communication helps build a positive image for an athletic program, enhances the brand's reputation, and attracts new fans. It also helps to build relationships with media outlets and other stakeholders.

Public relations and communications professionals play a crucial role in the success of any athletic program. They must be able to effectively communicate with the media, fans, and other stakeholders and to create and implement a comprehensive public relations and communications strategy.
On The Line

The first deadline of the fall... The Line content is drawn from the game stories, box scores, and articles that we read in The Official Program. The deadline for this issue is Saturday, August 30th.

In this edition, we feature a few stories that have caught our attention. One story involves a football game where the touchdown was scored by a former basketball player. Another story discusses the potential for a player to make the transition from basketball to football.

**Dallas continues NFL robbery**

"Everybody knew what he had done in college, but in his first year or so in the USFL, he wasn't producing like some people thought he would," Cowboys Coach Tom Landry says of picking Herschel Walker in the 1985 draft.

"There were some over-exaggerations there," Landry said. "He was a very good player in college. Some people were saying he was a hall of famer. He was that good. With the right coach and the right situation, he would have been even better.\"\n
In fact, the Cowboys acquired three second-round draft picks in addition to their own first-round pick in exchange for Walker and MIke Singletary, former University of Illinois linebacker.

\"We were very high on him,\" Landry said. \"He had some speed and some power. There was a consensus that he would be a good one.\"

\"But even on the day of the draft, there were those who believed he'd be a hall of famer. It's not that he didn't have talent, it's just that he didn't have the right coach and the right situation,\" added Singletary.

\"He wasn't producing like people thought he would. With the right coach and the right situation, he would have been even better.\"

\"I'm not sure he would have been a hall of famer, but he would have been a very good player,\" Landry said.

**Lake Forest, Ill.**

More than any defensive player on the Chicago Bears, linebacker Mike Singletary has earned Tuesday's spotlight after publicly criticizing the team's decision to move from the NFL to the USFL. Singletary and the team will be at different sidelines.

\"They (the USFL) are selling a lot of tickets and making a lot of money,\" Singletary said. \"But I'm not sure they're giving us the best chance to win a championship.\"

\"The NFL is the best league in the world.\"

Running attack will key Cyclone start

AMES, Iowa (UPI) -- Iowa State Coach Jim Criner said Tuesday:

"We are not the kind of team who has a winning tradition in football -- at least not recently. We have been down nine or 10 years."

Criner said much of his team's improvement has been the result of a running attack, which he said has turned the team's leading rusher

"Iowa three years ago. Rob Whit aid 'tuesday ." Criner

"Iowa State, the team's leading rusher

"he said."

"In his three years at Iowa State, he has fielded against

"Our running game has improved the past few years. While

"As we (and) try to defeat the Big Ten squad is

"Iowa three years ago. Rob Whit aid 'tuesday ."

"In his three years at Iowa State, he has fielded against

"100 yards, 100 yards, 100 yards. That's important to us if we are going to have any ball control," Criner said.

"The running game is going to be the key to a successful start for us in Champaign," he said."

"It's going to take a great effort, not only by the offense, but by the defense as well," Criner said."

"All the keys to the Cyclones' improvement have been the running backs and receivers. Best is held, Andrew Jacob, who had 828 yards in the last year with 439 yards on 113 carries, is no longer in the backfield by suspension due to

"Now we've got the team he has fielded against

"However, he said there is no indication this will be the best team he has fielded against

"The loss was only because of an offensive line that had carried us for three years," Criner said."

"The fighting game is what we have been working on for three years."

"The unit that has been held, Jacob, has kept us in this year's loss," Criner said."

"We have to come out and

"The Iowa State defensive unit that has so far been held, Jacob, has been what we have been working on for three years."

At 82, Dr. Seuss keeps on ‘thunking up’ popular books

You would think nothing was known as Seuss, one of the most celebrated names in America, as presented to a children’s book, but the celebrated Oz character H. Holt, the creator of the beloved Green Eggs and Ham, is a solitary and richly talented talent.

You know, people have always wondered, why do you keep on thunking up popular books, because you’re living in a new age, and it’s all very exciting, and there’s new ideas, and there’s new people, and there’s new everything.

And the only book he thunked up that is really a hit is his book, “Green Eggs and Ham.”

The book is about a man who has a pet ham called Snoopy, and the ham is very difficult to like. The man tries to convince the ham to like eggs, but the ham refuses. The man eventually realizes that he should not force his pet to like something it does not want to eat.

“Green Eggs and Ham” was first published in 1960 and has since been translated into more than 50 languages. It has sold over 50 million copies worldwide and is considered one of Dr. Seuss’s most popular and beloved books.

At the Bijou

Waxman Hall (3333139) — On the stage at the Bijou this morning, Beatrice Balsam tells a story about a man who goes on a journey to find a special place.

Balsam, who is known for her storytelling skills, took the audience on a trip through time and place, sharing the tales of a man who sets out to find a place where he can be himself.

The story is about a man who travels to foreign lands in search of a place where he can express himself. Along the way, he meets new people and learns about different cultures.

The story ends with the man finding the special place he was looking for, and realizing that it was the place where he felt the most comfortable.

At the Center

HOLLYWOOD, CALIF. — The Hollywood Bowl will host a special performance of the opera “Carmen” this weekend.

Composed by Bizet, the opera tells the story of a beautiful woman named Carmen who seduces a man named Don José and leads him to his downfall.

The performance will feature a cast of opera stars, including Plácido Domingo and Renée Fleming, and will be conducted by Daniel Barenboim.

Tickets for the performance are available online or at the Hollywood Bowl box office.
