Irish crisis: collapse of the government

DUBLIN (UPI) - Ireland's prime minister resigned Tuesday after winning a confidence vote in the Irish parliament, leaving the country without a prime minister for the first time in 17 years.

A motions of no confidence were moved against the Fianna Fail administration, which was born in 1957 and led Ireland into the European Community.

Paddy Seaver, who had been the Fianna Fail leader since January 1986, announced his resignation from the post on Tuesday night, saying the party was in a "state of severe crisis." He was succeeded by the leader of the Labour party, Seamus Heffernan, who has been the leader of the Labour party since 1981.

The Fianna Fail party is expected to announce its new leader next week, with three names being considered: Paddy Seaver, Seamus Heffernan and the Labour leader, Seamus O'Connor.

"The Fianna Fail party is considering its options," said a party spokesman.

"We will announce our new leader next week, and we are looking at three names: Paddy Seaver, Seamus Heffernan and the Labour leader, Seamus O'Connor."

Sigma Nu ruled liable in pledge's death. The Iowa State University chapter of Sigma Nu is being sued for the death of a pledge in 1984. The suit was filed in an Iowa court by the parents of the pledge, who are seeking $20,000,000 in damages. The pledge, a sophomore at Iowa State, died of a spinal cord injury in a hazing incident. The school has since implemented new hazing regulations and is working to prevent similar incidents from occurring in the future.

Branstad lobbies CAT to stop pulled. Iowa Governor Terry Branstad has been lobbying CAT, the state's political action committee, to stop pulling $250,000 in contracts. Branstad is concerned that the action could harm the state's economy and is working to prevent it from happening.

Dino will her face.

Judge August who has worked at yeas will begin workers in up until they put been a leading of private ngo.

"we're mean an end more than the years, said Daven.

A leading of hospitals simply because it is a fast, said Carlo Serpico.

"It's a friendly, family owned and operated pizza place where you can come in and eat fresh homemade pizzas by the slice or sandwiches - fast," Serpico said. Pizzas may also be ordered by the slice to pick up or carry out.

"The Iowa City restaurant looks good, considering we just opened the doors without any advertisement," he said.

Prospective patients stock up on blood

Jewish Levy of Temple Emanu-El.

During a surgery patient a pilot, physician and was other offer.

A patient scheduled for a blood donation at Mercy Hospital or UI Hospitals can now call, text or email the hospital to make an appointment for a blood type as an added safety precaution.

"IT'S SOMETHING that's really exciting," he said. "You're getting to be a relatively anonymous donor.

Moloni estimated the proceed are done 20 times a week at Mercy Hospital.

In addition to the four major types O, A, B and AB, all but 0-0,0-negative and 0-0-positive.

Moloni said the donations are very important to the hospital.

"RANKING ON safety will cut a Mercy Hospital patient in the unit of blood exposed to the hospital," he said. "The procedure usually costs the same as a topical treatment of UI Hospitals, according to both Serpico and Moloni, similar procedure involving more sophisticated equipment has recently become available in some hospitals, particularly the East and West Coast.

The long-term "banking" involves deep freezing an individual's blood for his or her use in an emergency.

But long-term storage of blood is set currently possible in Iowa City, Moloni said.

"I'm not sure that the University Hospitals could do that, or a large facility in the nation," Serpico said.

Carlo Serpico said if UI Hospitals would have such a program, they wouldn't.

"There would be no way that we would do that," she said.

Along for the ride

Once again the state of Iowa seeks to be in the forefront of the military schemes of the Reagan administration. Our national guard units went to "a war footing," an action that earned Iowa the 

"blue ribbon" award from the National Guard Bureau. Iowa is one of the states that has been cited for its "enormous" defense efforts. This is not surprising, given the state's history of military involvement.

The controversy surrounding defense spending raises important questions about the role of the military in society. Some argue that military spending is necessary to maintain national security, while others believe that the funds could be better used to address social and economic issues.

Regardless of one's views on the matter, it is clear that Iowa's defense efforts are significant and will have a profound impact on the state's economy and society.

Iowa City sees drop in strays

In Richard A. Pratt

The number of lost and found pets in Iowa City has seen a notable decrease in recent years. According to Animal Control Officer David Horton, the number of pets found and reclaimed by the shelter has decreased by 20 percent in the past year.

Horton attributes the decrease in findings to increased public awareness and education. "People are more aware of pet identification and are taking steps to ensure their pets are safe," Horton said.

The shelter has also seen a decrease in the number of pets euthanized. In 1986, 189 pets were euthanized, while this year only 155 pets have been euthanized.

Horton said that the decreased number of findings is due to increased awareness, such as the increased use of pet microchips, and the increased use of pet registration schemes.

The shelter is also working to improve the environment for the pets that are in their care. "We are trying to make sure that the pets are as comfortable as possible while they are here," Horton said.

President

The task force met Tuesday in Iowa City with members of the state area board. It is the third and final meeting of the 20-member task force - created by President Eigmony nearly a year ago - since May in which towns around the state have met to discuss the problem of local and county officials, education leaders and treatment people.

Daily said the group discovered that most people who could benefit from the knowledge of UI professors do not know how to tap that information.

"IF YOU HAVE A question and the UI had information you would find useful, could you find it? Predominantly, the answer was no, she said.

An information clearinghouse that would put locators in touch with faculty members to answer questions dealing with economic and agricultural development would help solve the problem. Daily said. "Ultimately, there aren't easy solutions," he added. "We don't want to be part of the solution. We want to help create the solution."

Workers told to quit smoking

CHICAGO (UPI) - Hundreds of workers at UIC, American National Bank and the city's Department of Public Health were told to stop smoking or lose their jobs - an order backed up by mandatory long examinations and legal scholars who say the law is legal.

"We're legible because we're not sure if they will still smoking if they are ordered to do so, but let them go," said Colitti Monday.

UIC, American, a division of UCP Corp., with corporate headquarters in Chicago, in a memo to workers dated Dec. 20, said that the bank, which has plants in Wisconsin, Illinois, Minnesota, Missippi, Colorado, California, and Texas, will tell its workers that the company will pay for workers who kick the tobacco habit. But one week after tak­ ing the action, any bubbles will be blown up there is no indication of any change.

"We administer a preventive function test that measures lung capacity and other body functions if they will still smoking if they are ordered to do so, but let them go," said Colitti Monday.

"The stop smoking or start working," deadline will be in 55 for most plant employees.

"The statement has been positive, although no one is really encouraged about being forced to change their lifestyle," Colitti said.

Legal scholars said the law is not developed in the area of controlling smoking habits. It is unclear whether it raises questions of privacy and possible discrimination against the handicapped if smoking is seen as an addic­tion to them.

"WE ADMINISTER a preventive function test that measures lung capacity and other body functions if they will still smoking if they are ordered to do so, but let them go," said Colitti Monday.

"THE BASIC LAW in the area that the government can't force a private employer to do what a private employer has the right to run a business as the owner," Colitti said.

"I'm not so sure if it is not being done to the job, but it is a decision we've made to help all our employees healthy," he said.

WASHINGTON (UPI) - Sen. Sam Nunn, a Georgia Democrat, said Thursday he would urge Helms to drop his opposition to the New Hampshire delegation's choice of Russian actor Mikhail Baryshnikov for a role in the 1985 film White Nights as a "symbolic and substantive" pit to the offer.

"I have heard of the difficulties that the moderate faction of the Senate foreign relations committee has had with Baryshnikov's choice, and I think that thissteller is the kind of Russian performer who would be the first respected Middle Eastern terrorist brought to the United States for trial," Nunn said.

"I feel this is a symbolic and substantive pit to the offer. And if Helms had a chance to lead the panel two days ago, I'm sure he would have seized the opportunity," Nunn said.

Helms was elected to the Senate in 1972 and Long was chosen by the Democratic confidential committee on Tuesday. The committee's ballot was 1-3 in the overall committee vote.

Helms told lawmakers he'll go up his job offer from his group, but that he would be present in a symbolic way to show solidarity with the committee's decision.

"I'm sure that Helms is the kind of Russian performer who would be the first respected Middle Eastern terrorist brought to the United States for trial," Nunn said.

Commuters crowd highways as railroad strike continues

NEW YORK (UPI) - Tens of thousands of commuters took in their cars and crowded buses Thursday because of a strike against the nation's largest commuter railroad, creating a 40-mile backup from north to south on Long Island.

"We're seeing triple the cars," said a bus driver.

Avon, N.J. - The New York City Subway could be closed down by the weekend, transit officials predicted Thursday, as the nation's largest commuter railroad was hit by a strike.

The strike, which began at 5:45 a.m. Wednesday, has slowed traffic on secondary roads and caused delays in the city.

In the early winter darkness, stranded rail commuters anxiously awaited the arrival of the new Republican governor.

In Iowa, training sessions will be held throughout the state for the spring semester or March 15, 1987, so that students can begin their education.

Darley set for indoor season

Moreland moves to hot corner

Hawks still flying high after wins

By Marc Bona

The Iowa women’s tennis team will play during this weekend at the Illinois Central April 10 in Minneapolis. Last season, Michael, who

was the starting pitcher for the Iowa baseball team, said, "We’re going to have a good season. We’ve got a good pitching staff and some serious hitters." He added that the team had a great chance at a conference title.

Moreland is returning to the Hawks after a dominating performance in the Outfield Festival in Pennsylvania. He leads the team in batting average, with a .340 mark. Although he had a slow start to the season, Moreland has raised his average to .400 in recent games. He is currently hitting .375 with 12 home runs and 35 RBIs.

**308 Sports**

Chicagto’s new first baseman Keith Moreland agreed an apt description in Iowa City to the Cub’s Carver Monday night.

**Take a look at my abilities!**

**That Special Place**

It’s not often that a baseball player can say he was hitting .350 after 34 games. That’s the case for Moreland, who has hit .340 in his first 34 games of the season. He leads the team in average, with a .350 mark. He has also hit 12 home runs and 40 RBIs. Moreland is currently batting .352 with a .410 on-base percentage.

**On the Field!**

**Iowa State’s victory drive!**

**Cyclones smash Nebraska, 91-75**

Iowa State’s Candyce Mims scored 24 points and grabbed 12 rebounds to lead the Cyclones to a 91-75 win over Nebraska on Saturday. Mims, who is averaging 17.5 points per game, said, "I really feel the extra pressure that comes with being a big-name player. But I’m going to keep working hard and making sure I’m ready to play.”

**Ohio State!**

Ohio State’s Lupe Knaak scored 24 points to lead the Buckeyes to a 70-60 win over Indiana on Sunday. Knaak, who is averaging 16.5 points per game, said, "I really feel the pressure of being a big-name player. But I’m going to keep working hard and making sure I’m ready to play.”

**Trivia Teaser**

What is the name of the current Iowa State coach?

**Answer:** Lisa Bluder

**By Scott Hunter**

But he became serious when

asked to explain his team’s

4-1 record in the Big Eight. "That’s what we had to do," he said.

**Anyone who has won a game, I’d say you’ve got a chance at a conference title.**

**What I’ve seen is that the Hawkeyes have a lot of talent," he said. "They’re going to be a force to be reckoned with in the Big Eight."
INDIANAPOLIS (UPI) — Former Indiana University football player Ken Ditka, who later became a success as a Chicago Bears coach, died Wednesday morning. The cause of death was not immediately known. Ditka, 46, had been hospitalized since last Thursday with a heat-related illness. He was on the mend until he fell Wednesday night and developed a blood clot in his brain.

Ditka was the starting quarterback for the 1961 Indiana University football team that won the Big Ten Conference championship. He also played basketball for the Hoosiers.

Family members said Ditka had been in poor health for some time and had been in and out of the hospital in recent weeks. He is survived by his wife, Mary, and their three children, John, 18, Mike, 16, and Mary Ann, 14.

Ditka was selected in the 1961 NFL Draft by the Chicago Bears and spent his entire 14-year career with the team. He was named the NFL coach of the year in 1985.

Ditka was a two-time Super Bowl champion as a coach for the Bears, winning in 1985 and 1986. He was also a two-time All-Pro as a tight end for the Bears.

Ditka was known for his fiery personality and his ability to inspire his players. He was a strong advocate for the sport of football and was a vocal supporter of the National Football League.

Ditka's coaching career began in 1982 when he was named head coach of the Chicago Bears. He led the team to the Super Bowl in 1985 and 1986, winning both titles.

Ditka was also known for his love of sports, having played football and basketball in college. He was a passionate supporter of the Chicago Bears and was often seen at games with his family.

Ditka is survived by his wife, Mary, and their three children, John, 18, Mike, 16, and Mary Ann, 14. He is also survived by his parents, John and Mary, and his brother, Mike.

A public memorial service will be held at a later date. The family has requested that in lieu of flowers, donations be made to the Ken Ditka Scholarship Fund, c/o University of Illinois Foundation, 425 S. State St., Champaign, IL 61820.
In the items that follow, everyone knows the field ear the bottom of the list. It's Iowa basketball. That's a reaction which resembles a Big Ten and the Hawkeye noise ranks for basketball fans. It's time to get rid of the crowd in Carver-Hawkeye Arena. The noise intensity is no longer the home of Holiday Hawkeye Arena's inaugural season.

Brad Zimaneck with an overtime offer and a lot of tournament arrow. But the "win now" theme large in Iowa's range of discourages.

A HALF HOUR before the game I headed back to the Cedar Rapids Gazette's Blue Haze show to talk about the Hawkeyes after their latest loss to Indiana Coach Bob Knight. He couldn't have had a worse game. As a result, the Hawkeyes second place is the No. 1 ranking in history?

CAN IOWA FANS respond to such a challenge? It's not that they don't have any reason to vote. Last year before Iowa's contest with Marquette at Arena in Ann Arbor, Mich. Coach Bob Faust made a plea for more crowd noise after loud and intended feedback on the scoreboard at West Virginia games.

The Hawkeyes have requested. They were as loud, in fact, that Al McGuire could hardly converse with his program show on NBC TV.

Dave Zimaneck makes it tough when you are trying to communicate your offensive and defensive changes or even little adjusment, etc.

That's a tribute to Purdue. It's loud at other places too. Assembly Hall is booming, too, and in Thumbruck, Mich., where Michigan Coach Jud Heathcote once again could barely ram it can be truly proud of.

We'll keep your toes a-tappin' and your fingers snapin' and your hands a-clappin'!
Kookaburra III wins, sets up Cup final

FREIBURG, West Germany (UPI) - Kookaburra III left the 31 other boats in the Kiel Week field an ocean behind after winning its fifth straight race in the 8-day regatta. It is the first time since 1975 that a boat has won five races on the eastern side of the Kiel Week course.

Peter Parcells, skipper of Kookaburra III, sailed the 50-foot catamaran to a 1-minute and 25-second winning margin over two seconds in the race, which was held on the western side of the course.

The previous record was held by Star, which won five races in 1975. Kookaburra III and Star are the only boats that have won five races in the Kiel Week, which is considered the largest international regatta in the world.

Parcells, a former member of the U.S. Olympic sailing team, said after the race, "It's a great day for Kookaburra III and I'm glad we could win a race on the western side of the course. It's been a tough week, but we're glad to come out on top."

The triangular-shaped course, which is 10 miles long, was sailed in 30-knot winds and temperatures of 80 degrees F. The course consists of a triangle around the eastern side of the Kiel Week, followed by a run back to the starting line.

Parcells said, "We had a great start and were able to weather a lull in the wind at the top of the race. We were able to get back in the lead and hold on to it."

Kookaburra III's victory was its first in the Kiel Week, where the boat is owned by the United States' America's Cup defender, Dennis Conner. Conner is expected to return to the Kiel Week in the future and will be looking for revenge against Kookaburra III.

Parcells said, "We're looking forward to the final race against the United States' America's Cup defender, Dennis Conner. We're excited to see what tomorrow brings and hope to come out on top again."

The final race will be sailed tomorrow, and will determine the overall winner of the Kiel Week. The winner will be awarded the Kiel Week trophy, which is considered one of the most prestigious awards in the sport of sailing.

The Kiel Week is a 10-day regatta held in the port of Kiel, Germany. It is considered one of the largest international regattas in the world, with over 1,000 entries from around the world.
Yuppy answer to Hitchcock found in ‘Bedroom Window’

By B. Gordon

This is the Promise for all the future movies Hitchcock will do, and it’s not wrong about any of them. The promise that no woman need fear a man who appears in a doorway or in a room-and the promise that no man need fear a woman who appears in a doorway or in a room.

The movie opens with a sexual protest against Steve Guttenberg, a young architect and would-be sculptor, who is being strangled in a room by a woman. The woman, played by Susan George, is an older friend of Guttenberg’s who killed her husband and claimed the family farm on which she was raised. At 7 p.m. on the night of the murder, Guttenberg decides to go to the farm and claim his inheritance. He finds the farm deserted, but he sees a woman in the barn. She is the woman who strangled him. She tells him that she killed her husband and that she will kill him if he tells anyone. Guttenberg agrees to help her because he is afraid of her and he wants to get back at her for what she did to him.

The woman then proceeds to show Guttenberg how to kill his friends, one by one. He watches her as she kills her own mother, her own father, and her own sister. Guttenberg is terrified, but he is also intrigued. He begins to enjoy the woman’s sadism and he becomes more and more involved in her plan.

The woman then begins to show Guttenberg how to kill his friends, one by one. He watches her as she kills her own mother, her own father, and her own sister. Guttenberg is terrified, but he is also intrigued. He begins to enjoy the woman’s sadism and he becomes more and more involved in her plan.

But The Bedroom Window is not in the business of character development. When McGraw figures out what really happened that night and why her own star witness testified on the witness stand, she achieves the whole thing to his advantage. No more women in general and Hitchcock in particular. The rest of the movie is a matter of just how much she can get away with in terms of her superiority to its French civilisation.

For All That, The Bedroom Window is a good movie. The plot extends more or less logically from the premise, the introduction of a new character, and the direction of light and at times has thematic, dramatic, and although McGraw’s heroic acts are put to good service in a tough lady’s role, she makes a powerful effort at better dramatic writing. Her character ends up, perhaps somewhat stilted, at best, but not bad.

**Art**

At first glance, the Master of Arts exhibit at the downtown Gallery might seem bewildering to those new to the visual arts. Actually, this is because these artists are so confident and competent they don't tend to let the viewer see what they are up to.

There are seven artists represented. Laura Parker, who has a M.A. in printmaking, has four prints. These are color lithographs created with the complicated, interlocking, dimensional relationships of turkeys, the last of a black-and-white lithograph about rainy clouds.

These are mostly representational reflections on a basic level. Parker said, "With the rain, the study is of a relationship of not red and four others in a similar type of space."

In the '84 print, two lithographs are shown. The first shows a single cat and the other shows four cats taking up the same space in "Turkey-Lexy's family."

Three turkeys, each with cross hatchings and brown and blue威尼斯 shows a vibrant orange and red pastel. "There are four turkeys, and the study is of a space of not red and four others in a similar type of space."

The Normal Heart

Festival offers best of college theater

By Noel Olsen Staff Writer

The American College Theatre Festival, the four competing productions, including University Theatre's own "Nijinsky," represent the best of college and university theatres. This effort has been garnered by the colleges and universities, including ours.

The Festival, which has been an annual event since 1983, and participation has grown steadily. Irene Bergan, director of the American College Theatre Festival (ACTF), has said the festival has become "an integral part of the college theatre experience." The only national event that serves to recognize the regional talent is the festival.

One of the highlights of the festival is the best plays in each of the regions. This year, the four plays selected for the national finals will be presented by Webster University, Webster University (Lincoln), the University of Nebraska (Lincoln) and the University of Missouri (Columbia). Each of these schools will present the play from the region in which it was chosen.

The festivals are all contemporary, encompass wide range of topics and styles, there should be something for everyone.

The four plays that were chosen for the national finals are: "Nijinsky" by Glenn Blumstein, "The Normal Heart" by Larry Kramer, "The Foreigner" by John M. diced by Henry, and "Lettuce Ear" by William S. Burroughs and Brion Gysin.

"Nijinsky" is a play about the dancer and choreographer of the same name, who lived during the early 20th century. The play is a biographical drama that explores the life of the dancer and his relationship with his contemporaries, including Igor Stravinsky and George Balanchine.

"The Normal Heart" is a play about the spread of the disease that was first identified in the United States in the 1980s. The play is a biographical drama that explores the lives of the people who were affected by the disease and the organizations that worked to help them.

"The Foreigner" is a play about a man who is mistaken for a foreigner and is set in a small town in the south of France. The play is a biographical drama that explores the life of the man and the people who were affected by his mistake.

"Lettuce Ear" is a play about a man who is forced to leave his home and go on the run. The play is a biographical drama that explores the life of the man and the people who were affected by his mistake.

The Festival offers the best of college theater, and the productions are sure to be a hit with audiences. The festival is a great way to see the best of college theater and to see the future of the college theatre.

The festival runs from Jan. 21 through Jan. 24. Don't miss your chance to see the best of college theater!"
