## Former CIA boss Casey dies of pneumonia

GLEN COVE, N.Y. (UPI) — William Casey, World War II spy chief, agent, millionaire Wall Street lawyer, former CIA director and key figure in the Iran arms scandal, died Wednesday of pneumonia.

The 74-year-old Casey, who served in high positions in the Nixon and Ford administrations, resigned as CIA director Feb. 2 following removal of a cancerous tumor from his brain last December.

He was admitted April 25 to the intensive care unit of Community Hospital of Glen Cove, where he died at 1:15 a.m. of "aspirational pneumonia as a result of a central nervous lymphoma," which a hospital spokesman said was believed to be cancerous.

Casey died the day after

retired Air Force Maj. Gen. Richard Secord told joint congressional Iran-Contra hearings that he met three times with Casey and discussed efforts to supply military aid to the Nicaraguan rebels at a time when such aid was prohibited by Congress.

**CASEY'S DAUGHTER**, Bernadette Smith, said that in lieu of flowers, contributions may be made to the William J. Casey Fund for the Nicaragua Freedom Fighters.

Smith said the family decided to establish the fund in memory of Casey "because he was so keen about the freedom fighters," the Contra rebels at the heart of the Iran arms scandal.

President Ronald Reagan, a

close friend of Casey's, and Vice President George Bush issued statements praising Casey's service to his country.

"In addition to crediting him with rebuilding America's intelligence capability, history will note the brilliance of his mind and strategic vision, his passionate commitment to the cause of freedom and his unhesitating willingness to make personal sacrifices for the sake of that cause and his country," said Reagan.

"Those who knew Bill Casey," said Bush, "will remember him for his service to his country in both war and peace. He was a man with high ideals and high energy; a patriot with warrior-like commitment to public service and to the

strength and security of the United States."

**OTHER REACTION** speculated on what effect removal of such a key figure would have on the the congressional hearings.

Sen. Orrin Hatch, R-Utah, praising Casey as "a great patriot" who revitalized morale at the CIA, said the death would cause gaps in the unfolding Iran arms story "because Bill Casey was probably the only person who could answer certain critical questions."

Arthur Liman, chief counsel to the Senate, was asked if congressional witnesses could now put the blame on Casey.

"I'm a great believer in cross examination and whenever

witnesses start to lay blame on dead people, they don't hold up very well," said Liman.

Casey is survived by his wife, the former Sophia Kurz, whom he married in 1941, and one daughter, Bernadette.

Following Reagan's election, Casey took over the CIA in January 1981. Despite his age, he was a vigorous director.

Casey testified last year before three congressional committees investigating the Iran-Contra scandal before suffering two minor seizures Dec. 15 at CIA headquarters in Langley, Va.

He underwent surgery for brain cancer three days later in Washington and was hospitalized until mid-February, returning for more treatment in mid-March.

William Casey

## Secord unsure if Reagan was aware of deal

WASHINGTON (UPI) — Richard Secord, saying he had "no direct knowledge" of what President Ronald Reagan knew about the diversion of Iran arms profits to the Contras, told Congress Wednesday Lt. Col. Oliver North told him he had discussed the scheme with Reagan.

"On a few occasions, I'd heard Oliver North, in an offhand and I think humorous vein, remark that in some conversations with the president he had mentioned that it was very ironic that some of the ayatollah's money was being used to support the Contras," Secord said.

"Whether he had actually said this to the president or whether he was joking with me, I'm not sure. It was not said to me in a way that I took it as a joke," he said. "I did not take it as a joke."

The retired Air Force general used his second day of testimony before the special House and Senate committees to defend passionately both the sale of weapons to Iran and the secret effort to aid the Contras.

For a related story, see page 5A.

diversion."

Fitzwater said a review of records indicated North met with Reagan more than the 19 times previously documented by the White House, but emphasized the discussions all took place in the company of others.

**SECORD ALSO SAID** Reagan relayed compliments to him for his work as a private foreign policy financier. In January 1986, he said, national security adviser John Poindexter told him "that not only was he pleased with the work that I'd been doing, but that the president was as well."

Sen. George Mitchell, D-Maine, said it was too early to weigh the importance of Secord's revelations, but, "The president is entitled to be believed unless there is evidence to the contrary."

Sen. Warren Rudman, R-N.H., said, "There was nothing in today's testimony that establishes any more than we've known already as to what the president knew or what he didn't know."

White House officials have said on previous occasions that North exaggerated the extent of his relationship with Reagan.

Sen. Howell Heflin, D-Ala., indicated the questioning would grow tougher Thursday and he was waiting to see how Secord would respond under rigorous cross examination.

"I haven't bought his story yet," Heflin said. "I'm waiting to see it all together."

Wednesday Secord said North dreamed up the diversion for the Nicaraguan rebels, but was never satisfied with the amount of money skimmed from the Iran deals. Secord also described the efforts to pry open channels to Tehran with weapons sales that he said were — from the start — arms-for-hostages dealings.

**Ignited inn**  
A firefighter removes glass from an upstairs window of a room gutted by flames — part of a 140-room wing damaged by fire Wednesday afternoon — at the Ironmen Inn in Coralville. No injuries were reported at the filled-to-capacity motel. For more details, see page 3A.

## Iowan stuffs his way to 'Pack-Off' title

NEW YORK (UPI) — An Iowa supermarket clerk, deftly shoving bananas, light bulbs, peanut butter and other staples into two bags so fast he accidentally ripped one, Wednesday won the All-American Grocery Sack Pack-Off title in 40 seconds flat.

Paul Heffernen, a 24-year-old Cresco, Iowa, native, defeated Peggy Weidner, 19, of Shippenville, Pa., for the championship in the big bag-off on NBC's "Today" Show.

The TV show's stop watch showed 41 seconds, but the judge's watch marked 40.

"Today" started their clock a little early," a contest spokeswoman said.

Heffernen was unruffled by his bag ripping.

"Aw, it was just a little tear," he said. "I think these sacks are made of lighter paper than I'm used to."

He was presented with the Charles Stillwell Award, a paper-bag trophy honoring the

grocery bag's inventor, and \$1,883 to commemorate the year of the patent. Weidner received a second-place prize of \$500.

Tuesday in Chicago, Heffernen scored 34½ points out of a possible 35, with points awarded for speed, weight distribution, efficient bag use and style. The less experienced Weidner, who has been bagging for a year, scored 33 points.

Heffernen beat 1,600 competi-

tors, including 25 finalists, to take the championship in 1986. His top rating earned him an automatic bid in the 1987 finals, which drew 27 baggers from 14 states, including Hawaii.

Veteran baggers marveled at Heffernen's packing prowess.

"With a pair of hands like that, he can grab four cans at once," said Sam Posner of the Stone Container Corp., which manufactured the sacks used in the event.

studied in civilizations as early as cave-dwelling humans, social scientists still do not fully understand the motivation for defacing public areas nor what satisfaction people receive from the activity.

Wieting said although spray-painted slogans are viewed as a destructive nuisance by those responsible for their removal, people who write graffiti may view what they are doing as beautiful.

"They don't see what they are doing as destructive. It is a means of expression," Wieting said. "One commentator on

graffiti called it 'the poetry of the poor,' a way for a disenfranchised person to immortalize his beliefs."

Graffiti that is mean or repetitious does not, however represent artistic expression but is a public nuisance, he said.

"BUT ORIGINAL OR witty sayings of a political or ideological nature have some value, and in those instances they are not a nuisance," he said.

Howard agrees some graffiti is a means of expression, but added, "I just wish they'd find somewhere else to express themselves."

## UI, railroad deal with student graffiti

By John Bartenhagen  
Staff Writer

A new coat of paint on the railroad overpass by the UI Main Library is not expected to remove free of graffiti for very long, UI and railroad officials said Wednesday.

Jim Howard, acting director of the UI Physical Plant, said although the overpass is the property of the Cedar Rapids and Iowa City Railway Company, the UI repaints the overpass periodically because UI students are responsible for most of the damage.

"But it doesn't really make any difference that we painted

it," he added. "They'll be back to mark it up again."

Although there hasn't been a great deal of defacement lately, graffiti activity at the UI comes in spurts, Howard said, and is especially common during events causing political conflict on campus, such as the CIA recruiters' annual visit. Howard said graffiti does not greatly affect the UI maintenance budget, though, costing less than \$5,000 annually to cover or remove.

**STEVE WIETING**, UI associate professor of sociology, said although graffiti has been

studied in civilizations as early as cave-dwelling humans, social scientists still do not fully understand the motivation for defacing public areas nor what satisfaction people receive from the activity.

Wieting said although spray-painted slogans are viewed as a destructive nuisance by those responsible for their removal, people who write graffiti may view what they are doing as beautiful.

"They don't see what they are doing as destructive. It is a means of expression," Wieting said. "One commentator on

graffiti called it 'the poetry of the poor,' a way for a disenfranchised person to immortalize his beliefs."

Graffiti that is mean or repetitious does not, however represent artistic expression but is a public nuisance, he said.

"BUT ORIGINAL OR witty sayings of a political or ideological nature have some value, and in those instances they are not a nuisance," he said.

Howard agrees some graffiti is a means of expression, but added, "I just wish they'd find somewhere else to express themselves."

Russ Johnson, roadmaster for CRANDIC, said graffiti is "just bad news."

"It's such a waste of money," he said. "We just paint our equipment and hope the vandals don't come back."

Painting signs on railroad bridges and tunnels is a favorite sport for local vandals, Johnson said. "It's not just a nuisance then, it's dangerous and stupid."

"If they've got an opinion or something to say, they should paint it on their own house or car," he said. "That way, maybe they'd appreciate it more — I know I would."

**Fire at Ironmen Inn causes limited damages, no injuries**

By Scott Hauser  
Staff Writer

Fire damaged part of a wing of a 140-room Coralville motel that was filled to capacity Wednesday, but no injuries were reported.

The blaze broke out shortly before noon at The Ironmen Inn, Interstate 80.

"The good part is nobody was hurt, but the bad part is we were full and now we have to find rooms for everybody," Bob Thompson, owner of the motel, said.

Thompson said damage was confined to four rooms — two of which were severely damaged — plus smoke damage in the area. He said it would be a few days before an estimate of the damage could be made.

Coralville Fire Chief Gary Kinsinger said he thought the majority of the motel's occupants would be able to return to

their rooms by Wednesday evening.

**THE FIRE APPARENTLY** began on the ground level of the building's southeast wing and was confined to rooms in that area, Kinsinger said.

"Now it's just a matter of digging into it to see what it was as far as the cause," Kinsinger said.

The fire was under control within 30 minutes of the fire department's arrival.

Elly Woller, who said she registered in Room 2107 — the room above where the fire began — said the rooms were unoccupied when the fire alarms went off.

The occupants of the wing were at an education seminar being conducted by representatives of the American Federation of Government Workers, she said. The 150-member contingent came from five Midwestern states, she added.

**WOLLER**, from Minneapolis, said she didn't know how the fire started.

Bob Eide, a AFGE representative from Des Moines, said no smoke or flames were noticed before the sirens went off.

"It appeared like spontaneous combustion," he said. "The one room just went up."

Woller said she first thought the alarms were a test because Minneapolis tests its sirens every Wednesday at about noon.

"We're pretty much conditioned to the things going off every Wednesday and thought they'd come in and say to disregard it, this is just a practice, but they didn't do that," she said.

Woller said she lost at least \$200 in purchases she'd made while in Coralville and Iowa City, but said a North Liberty firefighter managed to save her wedding ring, a gift from her mother.

**Speed bill heads to Branstad**

DES MOINES, Iowa (UPI)—A bill raising speed limits to 65 mph on Iowa's rural interstate won approval of a legislative conference committee and appeared headed to Gov. Terry Branstad's desk Wednesday night or today.

The compromise proposal, signed by eight of 10 panel members, would increase fines for speeders in the new faster zones and make no changes in the state's seat belt laws.

A special provision added to win the support of some senators would forbid insurance companies from increasing policyholders' rates based on minor speeding violations.

Rep. Deo Koenigs, D-McIntire, chairman of the House Transportation Committee, said the deal was struck when three senators agreed to sign the conference report without weakening the state's mandatory seat belt law.

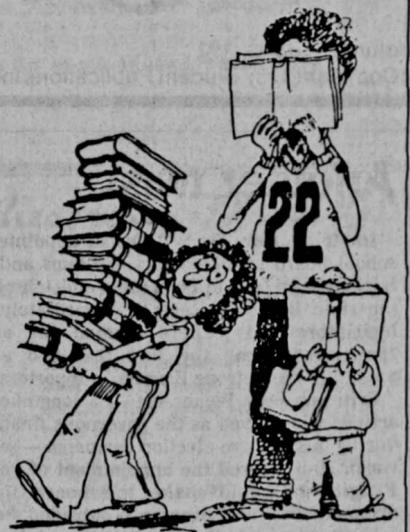

"We had talked about it at the beginning of the session and we felt as a legislative body it would be irresponsible to change the seat belt law since this year since it had only been in effect since January," he said.

WE HAVE A BRAND NEW CLEAN & EASY METHOD OF WAXING.  
Waxing especially for spring and summer (legs & bikini)  
WHAT IS WAXING?  
It is a very simple procedure. Warm wax is applied to clean skin. A cloth strip is applied to the wax, then is peeled off taking the hair with it.  
American women are just now learning the benefits of hair removal by waxing. It not only covers the hair, but removes dead skin cells leaving the skin smooth and silky. When the hair does grow back, it is softer and finer, unlike shaving stubble.  
The more you wax, the less likely the hair will grow back as the process tends to weaken the hair follicle.  
When done by a professional, waxing can be done safely from head to toe.  
To introduce our new clean & easy waxing system we are offering a special \$20.00 2 for 1 leg waxing.  
Let's not forget the men, often men have an unattractive brow line, also low neck line areas.

## Another twist

In March, Gov. Terry Branstad appointed Davenport school board member Mary Williams and Des Moines businessmen Marvin Pomerantz and John Fitzgibbon to the state Board of Regents. Immediately, many state legislators and leaders labeled the appointments "political," citing the fact that two of the three appointees are strong Branstad supporters.

Criticism over Pomerantz — a longtime Republican activist who served as the governor's finance chairman during last fall's re-election campaign — was especially vocal. Many feared the appointment of Pomerantz and Fitzgibbon would make the board too business-oriented. The furor eventually subsided, however.

Until this week, that is, when the plot of the regents story took another controversial turn. On Tuesday, at a special meeting in Des Moines, Pomerantz was unanimously elected board president. Although he had been officially seated only minutes before the election, the nine-member group quickly chose Pomerantz to fill the two-year post.

Pomerantz's eagerness and executive experience — he is the president of the Mid-America Group in West Des Moines — will help him to successfully lead the regents. But the hasty manner in which the board chose Pomerantz — there was little discussion about the presidency nor were any other nominations made — leaves many Iowans with unanswered questions.

First and foremost, is Pomerantz the most qualified board member to serve as regent president? While there is no rule prohibiting new members of the board from serving as president, one wonders if one of the six already-seated board members would not have made a more capable president. Regents Charles Duchon of Des Moines and Percy G. Harris of Cedar Rapids have served on the board since 1983. In the past four years, both men have seen how the board works and taken part in several important decision-making sessions. Would not either of these members be just as qualified, if not more so, to serve as president?

Secondly, did outside forces, such as the governor, orchestrate Pomerantz's ascension? Branstad aide Douglas Gross has denied that the governor conducted a lobbying campaign for Pomerantz, but two former regents have expressed concern that the board may become "an arm of the governor's office."

"I believe so strongly that the choosing of the president should be the board's decision and not the governor's," former Regent June Murphy of Des Moines said. "If the governor feels he can manipulate the board, it loses its strength."

And finally, now that Pomerantz is regent president, will education take a back seat to business? Since Pomerantz's appointment to the board two months ago, several state senators are worried that the regents will become more business-oriented. Now that Pomerantz is leading the board, will education and research lose priority to economic development?

Only time will tell what direction the new regents president will lead the three state universities. In the meantime, Pomerantz will have the opportunity to prove his spoken commitment to education and to earn the support of Iowans.

## Shoddy journalism

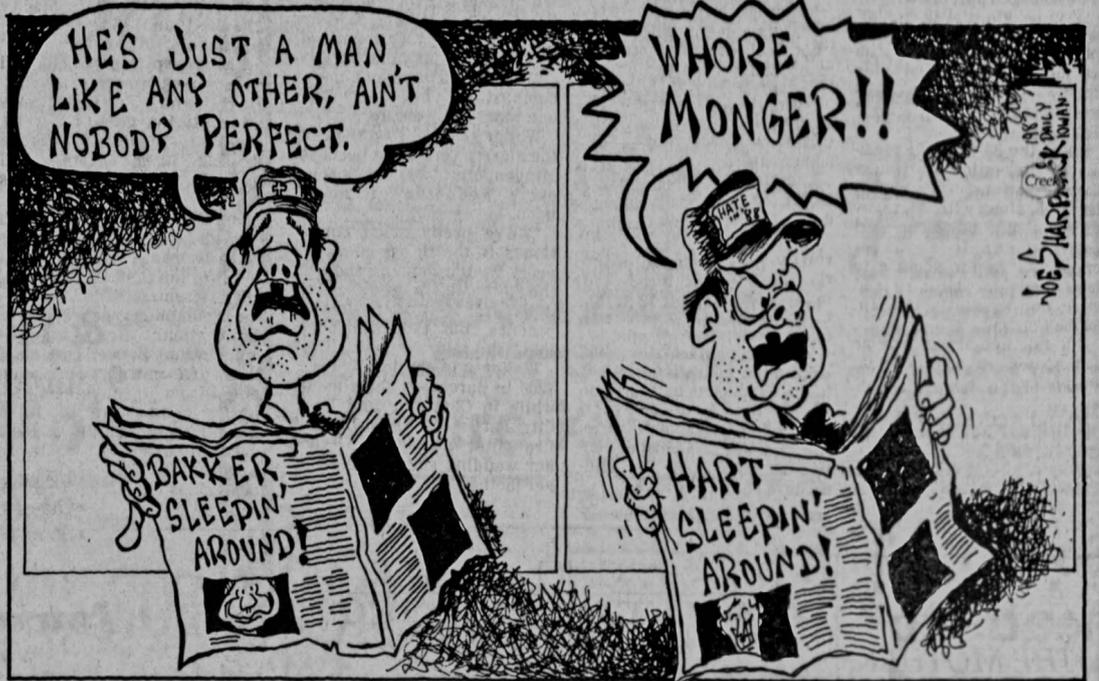

Since Monday, the hottest news story in the United States has been the Gary Hart "womanizing" scandal. Full color photographs of Hart's alleged companion, a swimsuit model, have graced the pages of some of America's largest newspapers and magazines. Questions from wild-eyed news reporters have been fast and furious: Did Hart, the frontrunner for the Democratic presidential nomination, really spend the night with the attractive young actress/model Donna Rice? Regardless of whether or not he did, doesn't the appearance of such promiscuity cast doubt on Hart's judgment capacities?

These are the burning questions being debated and discussed in the nation's press. But, perhaps the tables should be turned and the questions about ethics, integrity and judgment put to America's newspaper reporters, editors and publishers. Perhaps these newspaper people should be queried about their motives, their philosophy of news coverage and their understanding of service to the public.

The journalistic technique, the self-righteous attitude and the reckless use of facts and allegations which many members of the media have displayed in the Hart fiasco is painful for those who expect more than trashy tabloid exposes from the nation's leading press outlets. Put simply, the press, including the major metropolitan dailies which have broken all the stories in the scandal, has failed to heed the golden rule of journalism: check the facts before printing the story. Every dispatch has lacked the concrete evidence necessary to make it a real news story.

In all probability, the Hart sex scandal will fade, but the damage done to his candidacy and his personal reputation will linger. And, of equal importance, the injury done to the credibility of all news reporters will leave a lasting impression on a public already skeptical of journalists.

## Hart faces first challenge of campaign

By Mark J. Penn  
 and Douglas E. Schoen

**B**Y THIS MORNING, there won't be too many voters who aren't aware that Democratic presidential hopeful Gary Hart at least had dinner with an attractive model while his wife was out of town. Frankly, whether the voters consider this important information or not, the story has reached such a level of media saturation that it will affect the outcome of the presidential race — and perhaps the way politics is reported.

Many commentators are using this incident to conclude that from now on every minute of a public figure's private life will and should be subject to intense scrutiny. They believe that any headline, as in *Citizen Kane*, tying any candidate to a "love nest" in a town house will finish off any leader quickly, no matter how high his true public ideals.

This view is wide of the mark. While the nation has seen here a shift in journalistic techniques, there has not been any fundamental change in the way the public evaluates its candidates for higher office.

**THE PUBLIC ALWAYS** has been fascinated about the private life of anyone famous, whether Rock Hudson or Gary Hart. In the end though, American voters are intelligent and pragmatic. No matter how much curiosity they have about candidates' private lives, the salient issues remain the more fundamental questions about the candidate: his leadership abilities and positions on basic issues.

The Hart story is not a Chappaquiddick with an accidental death. There are no

## Comment

burglars to follow or millions of dollars to track down, as in Watergate and Irangate. No independent counsel will be appointed to launch an 11-month investigation into whether there was a back door to the Hart town house.

For the last six years, the electorate has been far more concerned with keeping taxes down and keeping America's defenses strong than with President Ronald Reagan's divorce or with inside tales his adopted son is spreading.

**WHAT THE VOTERS** will care about, however, is whether Hart has been honest and forthright in explaining the town house issue. The issue in politics is not morality but candor.

After giving his "Checkers" speech in the 1952 campaign, Richard M. Nixon learned a lesson he later forgot — that overwhelming public doubts can be turned around with a forthright, head-on confrontation of an issue. Mr. Hart's remarks to publishers yesterday — that he did nothing but won't do it again — hardly will turn public opinion around.

Now Hart has been transformed from leader of the Democratic pack to the more sympathetic role of a wounded front-runner, the same position he put Walter Mondale in last time. And we will now see endless news stories about whether Hart can make a comeback.

But our own polling has shown that Hart has other, more deep-seated problems that his candidacy will have to cope with if he is to win the nomination. As a "new

ideas" outsider with upscale support, his real attraction is to independent voters and not traditional Democrats. This means there has been a large group of liberal Democratic voters waiting for a candidate with an issues agenda like Mario Cuomo's or Walter Mondale's to pick up their support. To date, Hart has won little support from this group.

**OUR OWN POLLS SHOW** that voters continue to have doubts about Hart's character, and question whether he is an opportunist. For two years, he has been trying to erase the label Mondale hung on him — that he lacked "the beef."

Despite Hart's large leads in public opinion polls, which arise from his being the only candidate in the race with substantial name recognition, he has made almost no progress in improving his image and has focused no attention to his issues agenda. The voters only remember the Hart of the 1984 primary season — "new ideas" that nobody could find.

Now, for the first time, America is literally hanging on every word he and his dinner date have to say. They have the opportunity in the next few days for people to listen to him and form a personal impression about who he is and what he stands for.

What better test can there be for a presidential candidate than to respond to one of these sensationalistic press barages? This is not a welcome test of his new leadership abilities, but it is one he would certainly have to face if he became president.

Mark J. Penn and Douglas E. Schoen run a polling concern that bears their names. Copyright 1987 The New York Times.

## Letters

### Dubious decisions

To the Editor:

One must register a protest against the one-sidedness with which *The Daily Iowan* and, for the most part, American mass media are handling the issues of an American citizen of Estonian extraction's deportation to the Soviet Union to be executed as well as the accusations against Kurt Waldheim.

It does not take much courage or intelligence to speak out against crime and/or war, per se. But it does to try to understand highly emotional issues which took place in foreign lands, long before most of us were even born. Killing old men, who are by now the fathers and grandfathers of American citizens, as scapegoats will not protect the world from genocide.

The Office of Special Investigations of the U.S. Justice Department which in collaboration with the Soviet Union, is making these accusations and has compiled a list of more than 600 names for prosecution, has the de factor power of life and death over people. It should itself be publicly reviewed and evaluated before it is too late.

If people are to be accused of war crimes, is it fair to try them indirectly instead for "lying" on immigration applications and to shuffle them out

the back door to be executed? Is McCarthyism back in a new guise?

Congratulating Attorney General Edwin Meese, as the *DI* has twice now for the soundness of his judgment in endorsing what may be a "witch hunt" is dubious.

Irene Zvirgzdins

### Giving at the office

To the Editor:

Although it's common form in letters to the editor to pour forth either bile or bravos on some recently published work, I find *Daily Iowan* News Editor Christopher G. Wessling's piece on the homeless leaves me with rapidly alternating impulses to punch and promote this drifting bit of prose.

I suspect Wessling possesses each quality Dorothy's rag-tag needy partners went to see the Wizard about: brains, heart and courage. I also suspect he has experienced the same reaction of genuine confusion that helping feed similar travellers provoked in me. However, he hasn't directly indicated being haunted by the full sense of "there but for fortune go I" which even "sanitized" compassion requires.

Ever since giving Salvation Army sandwiches to people who looked more like peers than social problems, I have been haunted and have ques-

tioned my own "compassion." The possibility that "they" might routinely draw from "our" number is, I believe, why we all do find ways to keep them at a distance through "giving at the office," patronization, caricature, abuse, insult, debasement — whatever.

For those among us who fear we might someday find ourselves seeking out the Wizard (and my final suspicion is that Wessling and I are both occasionally in this group), I hope we can always maintain the option of doing it with a call — or letter — from the office.

John R. Morgan

### Hats off to nurses

To the Editor:

This is National Nurses' Week. When most people think of nurses, they picture bedpans and women in white uniforms passing pills. What nursing actually involves is so much more. Nursing is a profession in its own right, a profession that deals with this world's most valuable resource — people.

Nursing, like any other profession, means advanced education and keeping up with all the latest technology, but yet not losing site of the greatest gift we can provide another — comfort, care and love. Nursing means knowing when it's appropriate to use the latest

technology, and when pain becomes so unbearable that technology is no longer an asset. Nursing at times means watching people, not machines, die. Nursing means holding a hand, comforting family members, meeting and working with patients, becoming attached and then having to let go. Nursing a lot of times means not understanding why illness is a part of life. And at other times nursing means watching people get better, watching family and friends become closer because of an illness and the wonderful experience of watching a new life brought into this world.

What nursing means to me is pride. Nursing is one of the few professions that encompasses all aspects of living and can be such an exciting career. There has been much written lately about the shortage of nurses because young women and men have better opportunities open to them. I hope that more young people will turn towards nursing rather than away from it, and that nursing will be looked upon as the valuable profession that it is. I have come to love what nursing has taught me about myself and what nurses can and do provide to their patients — comfort and love.

## Massive riot breaks out after funeral

BELFAST, Northern Ireland — Hundreds of masked rioters Wednesday night hijacked cars, hurled gasoline bombs and besieged a police station to protest the presence of riot police at a guerrilla funeral earlier in the day, officials said.

At least 17 people were injured in clashes between mourners and the police at the funeral of Irish Republican Army "volunteer" Finbarr McKenna, 33, who blew himself up as he tried to hurl a homemade hand grenade at a police station last weekend, officials said.

For two hours, 400 masked supporters of the outlawed IRA surrounded three sides of a fortified police station and hurled rocks and bottles over a 30-foot-high wall before police in jeeps from other stations chased them away, witnesses said.

## Nixon, Reagan discuss arms control

WASHINGTON — President Ronald Reagan spent more than an hour discussing arms control with former President Richard Nixon at the White House last week, two days after Nixon publicly warned Reagan about achieving a deal too favorable to the Soviets, the White House said Wednesday.

Nixon and former Secretary of State Henry Kissinger wrote a newspaper editorial critical of a proposed medium-range missile agreement on April 26, and Nixon then had a similar column published in Time magazine.

After the articles, chief of staff Howard Baker phoned the former president and invited him to the White House, Reagan spokesman Marlin Fitzwater said.

While praising Reagan's restoration of American military strength as the main reason for Soviet willingness to talk about eliminating medium-range missiles from Europe, Nixon warned the president in print not to accept the nuclear arms reductions without requiring the Soviets to eliminate their conventional warfare superiority in Europe. He also said Reagan must insist that the Russians remove any medium-range missiles from Asia.

## Arafat urges end to Persian Gulf war

MANAMA, Bahrain — PLO leader Yasser Arafat Wednesday urged headline states, such as Libya and Syria, to stop supporting Iran in its war with Iraq and join Arab efforts to end the 6 1/2-year-old Persian Gulf conflict.

"I am quite sure that without Arab unity, Palestinian unity is not enough to solve the problems we have," Arafat told a news conference.

The Palestine Liberation Organization chairman arrived from Kuwait on the third leg of a tour to brief Gulf leaders on last month's meeting in Algiers of the Palestine National Council, the Palestinian parliament-in-exile.

## Men convicted of disfiguring model

NEW YORK — Two men were convicted Wednesday of slashing and disfiguring model Marla Hanson's face in a gruesome razor attack on a Manhattan street corner last June.

Darren Norman, 20, and Steven Bowman, 27, were convicted of first-degree assault and face up to 15 years in prison when they are sentenced June 8.

The jury found they were hired by Hanson's former landlord, Steven Roth, to cut her face in a dispute over an \$850 rent deposit and because she spurned Roth's romantic advances.

"I'm relieved," a smiling and buoyant Hanson said at a news conference after the verdict.

Hanson, 25, a chestnut-haired beauty who came to New York from Independence, Mo., by way of Dallas to become a covergirl, was permanently scarred in the attack.

## Stadium parachutist found in contempt

NEW YORK — A federal judge Wednesday found the man who parachuted into the sixth game of the 1986 World Series in contempt of court for refusing to identify the pilot who flew him over Shea Stadium but allowed him to remain free until sentencing next week.

Michael Sergio, 37, sat quietly in U.S. District Court in Brooklyn as Judge Henry Bramwell told him he had one last chance to identify the pilot. When defense lawyer Richard Simon said his client would make no statement, Bramwell ruled Sergio in contempt of court and set sentencing for Tuesday.

"The position of Michael Sergio is unwarranted and legally unjustified, and this court finds Mr. Sergio to be in contempt," the judge said.

## Quoted . . .

I just wish they'd find somewhere else to express themselves.

— Acting Director of the UI Physical Plant Jim Howard, lamenting the need to paint over graffiti on the railroad overpass near the UI Main Library. See story, page 1A.

## Botha opponent wins seat

JOHANNESBURG, South Africa (UPI) — One of three renegade government party members opposing President Pieter Botha Wednesday became the first Independent in more than 50 years to win election to South Africa's all-white Parliament.

Early returns in a whites-only election that ignited the worst racial violence of the year and a nationwide general strike by 1.5 million blacks showed the National Party made some gains, taking seats from opponents on the left and right.

Wynand Malan, who abandoned Botha to campaign with former ambassador to Britain Denis Worrall for greater and faster political reform, received 8,240 votes to defeat his National Party opponent by 2,647 votes.

"We have entered a new

phase," he said. "The new spirit in South Africa has spoken out. We have chosen for a future."

**ELECTORAL OFFICIALS** reported brisk voting throughout the day and an evening surge before the polls closed. About 3.1 million whites were eligible to vote in the election for 166 lawmakers in the House of Assembly, the dominant white chamber of the Parliament in Cape Town.

Analysts predicted the National Party, which has been in power since 1948, will continue to hold the reins of government, but they expected gains by right-wing opponents in some regions.

More than 2,300 people, the overwhelming majority of them black, have been killed since a wave of violence

against the white-minority government and its policies of racial separation, known as apartheid, erupted in September 1984.

Authorities reported the worst racial unrest this year on election day and more than a million black workers stayed home in their segregated townships on the second day of a protest against the vote. At least 500,000 students boycotted classes.

"Our people are merely exercising their right to show their contempt for white paternalism expressing itself through these racist elections," said Murphy Morobe, spokesman for the opposition United Democratic Front.

"The deployment of thousands of troops and police can never be a substitute for democracy and peace," said Morobe.

# Lee Hart dismisses reports of husband's 'womanizing'

DENVER (UPI) — Lee Hart, tense but smiling as she emerged from days of seclusion following reports her husband spent a weekend with an attractive blonde, said Wednesday "if Gary says nothing happened, nothing happened."

"I love my husband very much," the wife of Democratic presidential hopeful Gary Hart said at a news conference. "I have my support as strong today as I have always given it to him."

"I know Gary better than anyone else, and when Gary says nothing happened, nothing happened. The one thing I do know, especially about my husband, is that he does not lie. In the 28 years we've lived together I've always trusted him."

"In all honesty, if it doesn't bother me, I don't think it ought to bother anyone else," Lee Hart told a small group of reporters before flying to New Hampshire to rejoin her husband.

Lee Hart band on the campaign trail.

**RUMORS OF GARY Hart's "womanizing"** became a political issue when The Miami Herald staked out his Washington home and Sunday ran a story saying Donna Rice,

29, of Miami, had spent Friday night and most of Saturday with the former Colorado senator while Lee Hart was in Colorado.

Gary Hart told the American Newspaper Publishers Association in New York Tuesday that Rice had not stayed with him and that he had done nothing wrong.

Lee Hart said she thought her husband might have been guilty of "bad political judgment" but that did not justify "the kind of character assassination that's been going on."

"I think there has been a tremendous breach in journalistic ethics in the way the story was printed in the first place," she said. "I think that is something I personally find outrageous."

Lee Hart had been secluded in the couple's home southwest of Denver since the story broke Sunday. Aides said she was suffering from an ear infection.

# Assembly defrocks Bakker

SPRINGFIELD, Mo. (UPI) — PTL founder Jim Bakker was defrocked Wednesday by the Assemblies of God for conduct unbecoming a minister, including a fling with a church secretary and alleged "bisexual activity."

Richard Dortch, Bakker's top aide, was also expelled from the church for deceit and concealing Bakker's behavior.

When Bakker resigned from the PTL March 19 and handed the \$172-million ministry over to the Rev. Jerry Falwell, he and Dortch also resigned from the charismatic Assemblies of God.

But the Assemblies of God, headquartered here, does not allow ministers merely to resign. The church launched an investigation which could have resulted in quiet acceptance of the resignation or revocation of credentials.

The Rev. G. Raymond Carlson, general superintendent of the church, announced Wednesday that Bakker's credentials were revoked for reasons that "include conduct unbecoming to a minister based specifically on his confession to a sexual encounter with Jessica Hahn and his alleged misconduct involving bisexual activity."

Carlson gave no details of the bisexual activity charge. Falwell, the new chairman of the PTL's sprawling Heritage USA Christian resort and theme park at Fort Mill, S.C., was not immediately available for comment.

Falwell spokesman Mark Demoss said in Lynchburg, Va., that "I frankly am not sure it (defrocking) will have a major effect on the PTL one way or the other."

# Capitol Hill repudiates Reagan's view of pact

WASHINGTON (UPI) — The House insisted Wednesday that President Ronald Reagan keep the Star Wars program within a "narrow" definition of the 1972 ABM treaty, flatly rejecting Reagan's "broad" reading of the pact.

It was the first full-fledged Capitol Hill repudiation of Reagan's position. The move by conservative Republicans to cut from the defense bill language insisting on the "narrow" or traditional treaty interpretation failed 159-262.

As members worked on a \$289 billion 1988 defense spending bill, they voted 245-181 to tell Reagan he must keep U.S. forces within the warhead launcher limits of the unratified SALT II treaty, as long as the Soviets do likewise.

Members also voted 241-174 against a Republican proposal

to boost the defense spending figure to \$302 billion.

Neither side disagrees that deployment is banned without consultation. Nor does either side disagree that under the treaty Reagan could, if he wanted, pull the United States out of the ABM pact on six months' notice by declaring such a move was in the supreme national interest.

"This is a treaty. It's not an installment sales contract. This is a treaty made by the United States. Treaties solemnly made ought to be solemnly kept," said Rep. John Spratt, D-S.C., adding it was not an effort to kill the SDI program.

But Rep. John Kasich, R-Ohio, said the administration should be allowed to finish its new review of the treaty before the House deals with the issue.

# Aborted fetuses used in rally

CHICAGO — Nine infant caskets filled with 500 aborted fetuses in plastic bags were paraded in front of a medical clinic Wednesday by an anti-abortion group seeking to "rub America's face in it's abortion binge."

The bags, taken from dumpsters behind the Michigan Avenue Medical Center for Women over a two-month period, were clearly labeled with the full names and ages of the women who had received abortions.

Members of the media and public were allowed to handle the remains, most of which were labeled with a woman's name and age and stamped with the date the abortion was performed. Posters above the

caskets read "Mother, which baby is yours?"

"We're not trying to embarrass these women," said Timothy Murphy. "These are the ways the abortionists threw these babies out."

**TOM MASLOSKI**, a spokesman for the clinic, acknowledged the bags contained women's identifications, but he said it was necessary to trace results of a pathology report.

But, he said, "Since we have discovered that these women's privacy has been violated by these people, that identification is now being destroyed before (the bags) are disposed of." Murphy said he and protester

Peter Krump have visited the clinic's dumpsters 10 times since late February and found, in each visit, about 50 fetuses in large cardboard boxes. The boxes were sealed with electrical tape, with the fetuses inside in plastic bags.

"It made me sad and angry," Krump said. "When we first found these babies, we took them out on a Saturday evening and many of the bags were still warm. Just a few hours before, these babies had been inside their mothers."

Krump said he kept many of the fetuses refrigerated in his basement for the past two months. Murphy also has kept the fetuses, unrefrigerated, but said "they keep pretty well in this formaldehyde."

# University UI faculty will travel 'Express'

By Scott Hauser  
Staff Writer

UI faculty and staff won't be leaving Iowa City without their American Express cards this fall, the UI Business Office announced Wednesday.

Faculty and staff whose budgeted salary is greater than \$15,000 will be eligible to use a UI corporate American Express card to pay their expenses when they travel on university business, UI Acting Treasurer Richard Stevenson said.

"Our objective is to make university business travel more convenient for our faculty and staff," UI Vice President for Finance Dorsey Ellis said in a press release issued Wednesday.

"At the same time, the travel card system will make our business office more efficient," he said.

Stevenson said the card would make it easier for the UI to keep records of its travel expenses, and people using the cards would not have to carry as much cash when they travel.

AMERICAN EXPRESS was chosen because of the versatile services it offers travelers, he said.

The advantages of the card include: no annual fee, no risk of loss of cash or travelers checks, check-cashing privileges, travel discounts, no limit on American Express charging, and no finance charge when monthly balance is paid in full.

Stevenson said the records generated by using the cards would help the UI in negotiating discounts with firms the UI uses a lot in traveling.

He said between 2,000 and 3,000 people would be eligible for the cards.

The cards will replace the UI's current system of paying cash advances and personal expense reimbursements to employees who travel.

The office is issuing applications this week to departments and colleges and conducting orientation seminars on how the new system will work.

Faculty and staff must apply for a card from their departmental office which will forward the applications to the UI Travel Office.

# UI Faculty Assembly passes foreign language proposal

By Scott Hauser  
Staff Writer

The UI Faculty Assembly voted 34-23 Tuesday to adopt a recommendation requiring two years of college-level foreign language studies for all degrees offered in the UI College of Liberal Arts.

Assembly members who spoke on the measure generally spoke in favor of the recommendation in principle, but debate centered on whether the college could afford to require the four semesters when resources for foreign language departments are scarce.

Other items presented to the assembly:

- UI College of Liberal Arts Associate Dean and Director of Academic Programs James Lindberg announced to the assembly that UI Vice President for Academic Affairs Richard Remington has approved the college's recommendation to implement a plus/minus grading system.
- UI College of Liberal Arts Dean Gerhard Loewenberg announced the defeat of an amendment to the college's entrance requirements which

would have required incoming students to have one year of education in the fine arts.

IN THE FOREIGN language requirement discussion, the assembly approved a "Recommendation by the Educational Policy Committee to require, for all College of Liberal Arts degrees, two years or the equivalent of college-level study of a single foreign language. The effective date of the requirement should coincide with the College's new admissions requirements, and should be reviewed at the end of its first five years of implementation."

Lindberg said the new admissions requirements will be implemented in the fall of 1989. "This won't affect any students currently enrolled or enrolled before 1989," he said.

Loewenberg said the recommendation must be approved by the UI Office of Academic Affairs before it is included in the admissions requirements.

UI Professor of English Donald Marshall, an EPC representative, said the consensus of the committee was that the requirement was a good one, but it recognized the difficulties in implementation.

HE SAID THE committee "gritted its teeth" to pass it.

"I don't want any sense that anyone is blithely approving this," he said. "We did it with our eyes open."

Several speakers said they hoped the new requirements would put the burden of teaching foreign languages at the high school level.

In 1986, only 740 of 3,600 entering UI freshmen met the four-year standard proposed by the new requirement. In 1985, 726 of 3,597 freshmen met the standard.

In discussion of the plus/minus grading scale, Lindberg said a proposal approved by the UI Office of Academic Affairs makes it optional for UI colleges to adopt the program.

If they adopt the system, the "A-plus" grade must be included. For transcript purposes, the highest grade point average will continue to be a "4.0," Lindberg said.

He said the UI College of Liberal Arts has approved the system, but details need to be worked out with the EPC and the UI Registrar before it can be implemented in the summer of 1988.

## Cyclones humiliate Hawks in twinbill

By Cathy Cronin  
Staff Writer

Going into Wednesday's game against Iowa State, Iowa was in a position for a possible Western Division Big Ten title, also pending a four-game series with Minnesota this weekend.

But based on Wednesday's performances and on what Iowa Coach Duane Banks said, their chances for even one win this weekend are slim at best.

"They just come out and go through the motions in non-conference games," Banks said. "The thing is I don't see how we can change their attitudes in a day. I don't see how the hell we can beat Minnesota... If we lose all four games, it won't surprise me."

**THE ONLY HIGHLIGHT** for the Hawkeyes in the first game of the Cyclone doubleheader was Bill Heinz's home run in the bottom of the fourth, his 10th for the season.

After Iowa pitcher Steve Denkinger walked in four runs in the first inning, Iowa went on to be defeated 12-2.

Things began to look up for the Hawkeyes in game two as they took their first lead 6-5 at the bottom of the fourth.

With the Cyclones leading 5-0 at the bottom of the third, Iowa managed a six-run fourth inning. Gary Ellis first singled home Brian Butz and moved to second on an error, bringing the score to 5-1. Luis Ramirez later doubled for two RBIs, lifting the score to 5-3.

**AFTER RUNS BY** Randy Frakes and Jason Jones, Butz walked to score another run putting the Hawkeyes in the lead 6-5. But this lead didn't last long as the Cyclones whirled yet another run in the fifth inning, evening it out at 6-6.

Then in the sixth inning Iowa State Coach Bob Randall's team scored four additional runs to the Hawkeyes zero, and both teams came

Iowa State's Bill Argo slides into second base Wednesday afternoon during a doubleheader with the Hawkeyes at the Iowa Baseball Diamond. The Cyclones took both ends of the twinbill 12-2, 10-6.

## Baseball

out of the seventh inning empty handed. With a final score favoring the Cyclones 10-6, disappointed is an understatement for how Coach Banks was acting.

"We stink so bad," Banks said. "Our three, four or five hitters should have stayed in the dorms, drank some beer and chased some girls. They

would have had more fun." Even though Iowa's own coach is all but optimistic about his team, Randall thinks otherwise.

"Iowa just played real poor. This is not indicative of the way they'll play this weekend," Randall said. "I like Iowa's chances against Minnesota. I think they'll outpitch them. They're (Minnesota) good at coming back in late innings."

As far as this weekend is

concerned, the Iowa players better not use final exams to excuse any poor playing because Banks just won't buy it.

"They (exams) have nothing to do with it. If they can't give us a couple hours out of the day they shouldn't be out here," Banks said. "It's an absolute joke with day games. We should play conference games and nothing else. If we don't play all out every game, we're not going to win."

## Board finds Hawkeyes given cash

By Marc Bona  
Staff Writer

The ad hoc committee created in conjunction with the Board in Control of Athletics found after its six-week investigation that former Iowa football player Ronnie Harmon and an unnamed student-athlete accepted at least four payments each from sports agent Norby Walters.

According to the report, evidence was discovered showing Harmon received at least \$1,000 while "Student B" accepted \$575. The charges were based on records of Western Union money orders sent by Walters to the former athletes.

Student B has been identified as Devon Mitchell, now with the Detroit Lions, according to United Press International reports.

**THE COMMITTEE TO** Investigate Alleged Relationships Between Sports Agents and University of Iowa Student-Athletes — appointed by Iowa President James O. Freedman March 13 — issued its findings May 1 in a nine-page report to Freedman and Dorsey Ellis, vice president for finance and university services.

The committee was appointed by Freedman after he met with Ellis after learning of the allegations.

The announcement was made Wednesday at a press conference by Ellis, Law Professor David Vernon and Athletic Director Bump Elliott.

In addition to Vernon, the members of the committee are: Allan Vestal, law professor and former dean of the college of law; Julia Davis, current chair of the Board in Control of Athletics, professor of speech pathology and associate dean of the College of Liberal Arts; and Leodis Davis, chemistry chair and board member.

**"RULES WERE VIOLATED,**" Vernon said. "NCAA rules and our rules were violated when they took the money."

"In a sense, we have been troubled by the fact that they were so disloyal as to do it. It endangered their teammates and the program pretty seriously, and we would like to figure out sort of why that happened and see if we can avoid it."

Ellis added the two displayed a "disloyalty to the institution" by violating NCAA, Big Ten and university rules which "had been effectively communicated to them."

But he said that while they showed "a lack of respect for the regulations under which they were playing," they should also be considered victims of "unscrupulous agents who come in and dangle large sums of money in the eyes of young men who are minors and are still students."

Devon Mitchell

**IN ADDITION TO** Harmon and the other player, referred to respectively as Student A and Student B in the committee's report, two other Iowa student-athletes were offered money by Walters but refused. No other evidence was found concerning any other present or former Iowa players.

The committee also found that all Iowa football players were repeatedly informed of the rule violations which would occur if they signed a contract with or received money from an agent while they were eligible to compete for Iowa.

The unnamed student-athletes, including Harmon, have their identities protected by a federal statute called the Buckley Amendment, Ellis said, which encompasses the rights of former and present students.

**THE COMMITTEE** attempted to contact Harmon and his family but did not succeed, Vernon said. He added the board made no effort to contact Walters. He would not comment on whether Walters still represents Student B.

In all, approximately 30 people — including football and basketball coaches, trainers and graduate assistants — were interviewed. The board, which did not have subpoena power according to Vernon, did not talk to anyone who refused to be interviewed. Vernon said no staff member declined to be interviewed but did say other people refused to be interviewed.

He said the committee also found that Harmon did in fact acquire a Mercedes, but the car was used in Iowa City for a short time only and was purchased several months after Harmon completed his eligibility.

Harmon and Walters each have pending lawsuits against each other.

**MICHAEL ROSENBERG,** an assistant to the certification systems coordinator of the NFL Players' Association in Washington, D.C., said agents

## Bucks edged out by Boston, 126-124

**BOSTON (UPI)**—Danny Ainge and Larry Bird scored 30 points each and Dennis Johnson sank a pair of free throws with 29 seconds remaining Wednesday night to lift Boston to a 126-124 victory over the Milwaukee Bucks, giving the Celtics a record-tying 14th straight home playoff victory and a 2-0 lead in the Eastern Conference semifinal.

The best-of-seven series is set to shift to Milwaukee for Game 3 Friday and Game 4 Sunday.

Boston led 122-115 after Bird's two free throws with 1:50 remaining, but Paul Pressey's three-pointer and a jumper

## NBA Playoffs

and two foul shots by Sidney Moncrief tied the score with 43 seconds left.

**JOHNSON, WHO FINISHED** with 21 points, then hit two free throws and Pressey's driving scoop shot with 14 seconds remaining hit the bottom of the rim. On Boston's ensuing possession, Fred Roberts sank a pair of free throws with six

seconds left for a 126-122 lead. Jack Sikma completed the scoring with a layup with three seconds left.

For Boston, Robert Parish added 24 points and Ainge, who netted four three-pointers, notched a new personal playoff scoring high.

The Celtics tied the record for consecutive home playoff victories, set by the Minneapolis Lakers in 1949-51.

Celtics forward Kevin McHale, recovering from a severely sprained ankle, did not start but entered the game late in the first quarter and finished with 12 points, playing 26

minutes before fouling out with 43 seconds remaining.

Boston has won its last 33 home games and 79 of its last 80 games at Boston Garden.

Milwaukee, swept by Boston in last year's playoffs, was led by Terry Cummings' 28 points.

The teams had traded leads through the first 15 minutes of the game, until Milwaukee used a 13-4 run to take a 45-37 lead at 6:20 of the second quarter. The Bucks twice held nine-point advantages before Boston closed the half with a 12-6 run for a 64-64 score at intermission.

## Intramural program could face elimination

By Cathy Cronin  
Staff Writer

All Iowa students have to take some time out for a study break this weekend, so put that time to good use. Without it the Field House is in serious danger and next August, when there is spare time, it will be too late.

"I don't think anybody realizes how big of a problem we're talking about here," Warren Slebos, a Recreational Services Director, said. "To make it (the budget cut) up within the intramural program, we'd have to eliminate the whole program."

## Intramurals

What has been a major area of controversy over the past few days is the \$38,000 budget cut to Recreational Services as ruled by the Iowa student senate.

**ACCORDING TO RAY** Beemer at Recreational Services, the original amount allotted to this program, after the budget cut, was zero. Student Senate's rationale behind this move was the idea that of all organizations, Recreational Services could cover the loss easily.

"After hearing about the cut, Harry talked to them about the Sportsclubs. Originally all sportclub money would go directly to the student senate," Beemer said. "Then the senate decided to deal with clubs through the Field House, so that money that they cut from us was never ours in the first place."

When Harry Ostrander and the senate finished discussing the matter, that's when the 36 cents, now Recreational Services' only source of revenue, was allotted them.

"That 36 cents doesn't compromise anything," Beemer added. "That money was going

to the senate anyway."

**"YOU HAVE TO CLASSIFY** this as a devastating cut," Slebos said. "We'd have to drop flag football all together just to pick up \$8,000. Then we'd still be faced with eliminating half of the intramural program and one grad assistant."

This is just an example of what could be done, according to Slebos, to accommodate for the loss. But the Recreational Advisory Committee will be looking at all choices possible for the July 1 date set for the new budget announcement.

The list of alternative choices is a long one, and not all of which are desirable. The

nine in consideration are: increased intramural fees; restrict the number of teams; eliminate some of the intramural programs; install a swimming fee; increase racquetball fees; rid towel service; reduce building hours; increase locker fees; reduce staff and the installation of a general user fee.

**"THIS IS ALMOST** becoming like a private club concept," Slebos said. "We don't want to get into the situation where students can't afford it."

Recreational Services, which has always been subsidized by the Student Senate previous to

this cut, must make its final decision, determining what services are to be cut, in June. But for the students who will obviously be suffering the most, it's not too late to act.

Officials and interested students, whom were at the Field House when the news of the budget cut first arrived, organized petitions and from 3 p.m. until close, they collected over 500 student signatures.

To lend your support, the students organizing the petition drive will be set up on the lower level of the Union today, Friday, and Monday from 10 a.m. to 5 p.m. to collect additional signatures.

### Baseball Almanac

Today is May 7, 1987. It's Day 32 of the season. The All-Star Game will be played in 68 days. The playoffs start in 152 days. Through Tuesday, Eric Davis of Cincinnati leads on a pace to hit 75 homers and steal 81 bases.

**Match-up**  
Baltimore lefty Mike Flanagan, 0-4, meets Minnesota southpaw Frank Viola, 1-4, in a battle of struggling veterans at the "Home-Home".

**Stat of the Day**  
The Royals' Steve Balboni was 0 for 31 before a run-scoring single Tuesday night.

**Who's Hot**  
Through Tuesday, the Reds' John Franco had retired 28 of the 29 batters to face this season with the only runner reaching base on an error. The left-hander racked up live saves in his first nine appearances.

**Who's Not**  
After a 20-3 start, the Milwaukee Brewers have lost three straight, including back-to-back shutouts against California.

**Hot Seat**  
San Diego pitchers have served up 42 homers in their first 28 games. On Tuesday, Eric Show yielded Rafael Belliard's first major-league homer in a loss to Pittsburgh.

**Trainer's Room**  
Detroit starter Jack Morris left in the seventh inning of Tuesday's game against Seattle because the stiff neck that has bothered him for more than two weeks began acting up again. Morris planned to endure about 20 minutes of traction Wednesday to try to cure the problem.

# Erving's 'housecalls' came as credit to pro basketball

Sunday was a sad day for sports fans, and for the NBA.

When Julius Erving walked off the Mecca Arena court in Milwaukee following the Philadelphia 76ers loss to the Bucks in the final game of their five game playoff series, hearts were broken throughout the nation.

Everyone knew it was coming and indeed it was the perfect time to depart, but when the Doctor made his final housecall, it was hard to hold back the tears.

Julius Erving has been the NBA for the 11 years he played in it. His defiance of gravity, his moves in the paint and his ability to score over, under and around multitudes of opponents has been the source of playground imagination for years.

THAT ONE OF THE final shots of his career was a slam dunk and the other a three-pointer stands as a tribute to the versatility of this very special individual.

I remember the only time I saw Dr. J in person. The fact that it was during the late stages of his career made no difference. He was still brilliant and I was still on the

## Steve Williams Sportsview

edge of my chair.

The 76ers were doing their best to keep up with the Detroit Pistons before a then NBA record crowd in the Silverdome last season. But down by at least a dozen midway through the fourth period, hopes were beginning to fade.

A "housecall" is the least that could be said to describe what took place in the next few minutes. Erving asked for and received the ball on command the next few trips up the floor. Moments later, the score was tied, and even though Philadelphia wound up losing the game in double overtime the display put on by the Doctor was one which will stand as my fondest memory of perhaps the greatest basketball player ever.

BUT WHAT MAKES the Doctor such a household name has stretched far beyond his play on the court.

Erving exemplifies class. He is a true sportsman on and off the court and his modest yet

inviting personality is one everyone should look up to, not just in the NBA, but everywhere.

Julius Erving took the game of basketball to a new level. His antics above the rim are largely responsible for the new fast paced, slam-dunking style the league is now famous for.

There may be players in the league who do things as well as the doctor does them — now — but until they can put the kind of numbers Erving put up for 16 years, it will be hard to convince me there was a better player, game in and game out. The most notable of these being Erving's 16 straight All Star game appearances in the ABA and NBA.

And during a time when the use of drugs was becoming a problem in professional basketball, Erving was a shining example of the right way.

The Doctor will mean a lot of things to a lot of people in years to come. To me, he is simply the greatest.

Good luck Julius, and congratulations. You couldn't have picked a finer way to go out.

# Warriors must slow Lakers

INGLEWOOD, Calif. (UPI) — The Golden State Warriors, on the wrong end of the most productive third quarter in NBA playoff history, agree the way to slow the Los Angeles Lakers is to bring their own offense to a crawl.

The Lakers scored 49 points in the third period of Tuesday night's Western Conference semifinal opener and took a 1-0 lead with a 125-116 victory. Game 2 is Thursday night at the Forum.

"I think one area where we made a mistake was not to be patient enough on offense," Golden State Coach George Karl said. "Against the Lakers, you have to be patient and not take bad shots. They're great at taking advantage of bad shots and turning the break."

Chris Mullin, who had 11 points in 25 minutes of the opener, said the Lakers will have fewer opportunities if

the Warriors control the clock.

"TO STOP THE Lakers from streaking like they did, I think we need to take longer on offense," he said. "We'll do better if we slow them down."

The Warriors led 62-55 at halftime before the Lakers blistered them with fastbreaks and uncanny outside shooting. The 49-23 third-quarter advantage gave Los Angeles a 104-85 lead entering the final period.

"I think we have a good chance against this Laker team," Karl said. "If you take eight minutes out of this game, we win the game. The Lakers are going to have their spurts and when they get it going, they're like scavengers."

The Lakers blamed their slow start on a six-day layoff following their opening-round sweep of the Denver Nuggets.

"It got kind of monotonous," Michael Cooper said of the

time off. "We had to shake off those six days. It took some time to get going. Don't look for that again. We definitely believe that they are strong and we won't take them lightly."

LOS ANGELES COACH Pat Riley said his team fell behind in Game 1 because of a lack of aggressiveness.

"Our effort was good in the first half, but we were in a waiting mode," he said. "I was happy we were only down by seven at the half. Defense was the key (in the third period). When we're sustaining our effort on the third and fourth pass, good things will happen."

Riley said the Lakers spent much of the six-day off-period preparing for the Jazz, Golden State's opponent in the opening round.

# Warhol art fetches \$660,000

NEW YORK (UPI) — Auction sales of contemporary art soared toward \$40 million Wednesday with record prices set for more than a score of artists including the late Andy Warhol, whose painting of a car crash repeated 19 times fetched \$660,000.

"White Car Crash 19 Times," a silk screen of synthetic polymer on canvas painted in 1963, was knocked down to Thomas Ammann, a Zurich dealer who is writing a definitive catalog of Warhol's work, at a Tuesday evening sale at Christie's gallery.

The previous auction record for a Warhol was set last November in New York when his 1962 "200 One Hundred Dollar Bills" sold for \$385,000. Warhol died Feb. 21 and the Christie auction was considered the first test of whether his art would increase dramatically in value.

NINETY-FOUR PAINTINGS and sculptures were sold at Christie's for a total of \$15.3 million, nearly \$1 million above the high pre-sale estimate. The sale continued at the gallery Wednesday with the disposal of 252 lesser works.

European buyers dominated the Christie's sale and Japanese bidders, who bought 10 of 69 contemporary paintings sold at Sotheby's gallery Monday, made no known purchase.

## Art

ases. Ammann also bought Mark Rothko's 1954 oil, "Yellow, White, Blue Over Yellow on Gray" for \$924,000.

The highest price in the sale was \$1.76 million for British artist Francis Bacon's "Study for Portrait II," a blue pope on a golden throne, establishing an auction record for the artist. A second Bacon, "Portrait of George Dyer Talking" dated 1966 sold for \$1.43 million. Both were purchased by Jan Krugler, a Geneva dealer.

THE AUCTION RECORD OF \$451,000 for a painting by Hans Hoffman established Monday at Sotheby's was broken Tuesday by the sale of his "Garden of Love," a lushly colored abstract, for \$715,000 to an

unidentified London gallery. Records also were set for Cy Twombly, \$462,000 for his untitled grey oil scribbled with white crayon, and for R. B. Kitaj, \$385,000 for his portrait of Juan de la Cruz.

Other top prices were \$605,000 paid for Roy Lichtenstein's cartoon-like "Modern Painting with Small Bolt" by a Chicago dealer and \$572,000 for David Smith's welded steel sculpture, "2 Circles 2 Crows," by Citibank Art Advisory.

They were among the 17 contemporary works consigned by Baron Lambert, a member of the Rothschild family and retiring chairman of Groupe Bruxelles Lambert in Belgium. The Lambert collection fetched a total of \$6.34 million.

A GROUP OF conceptual and minimal art from the collection of the Gilman Paper Company in Florida also was sold, some of it in the form of specifications or wall drawings that will have to be recreated by the purchasers.

One of these, Sol Lewitt's "Ten Thousand Lines About 10 Inches Long, Covering a Wall Evenly," was bought by New York dealer David McKee for \$26,400.

The 48 Gilman works were the first such collection ever auctioned and brought a total of \$2.9 million, \$700,000 above the pre-sale estimate.

# Duo tops Billboard's soul chart

LOS ANGELES (UPI) — The top black singles in the pop music field, based on Billboard's survey of sales and broadcast play:

1. "There's Nothing Better Than Love" — Luther Vandross & Gregory Hines

**STUDENT FOOTBALL PRIORITY SALES ENDS FRIDAY, MAY 8**

The cost of the tickets are \$35.00 per student and \$80.00 per student guest ticket. Student season tickets are good for all five home games of the 1987 football season. Student guest tickets are available on a limited basis; all students ordering these tickets may not be accommodated, but will receive a refund for their order at fall pickup. Priority buying was from April 13th thru May 8, and this is the only time that guest tickets may be ordered. Athletic Ticket Office hours are 9 am to 4 pm, Monday through Friday. Students may pick up their tickets beginning September 9. Please read the student ticket policy before placing your order.

**STUDENT FOOTBALL POLICY • 1987**

1. A student may purchase one season ticket at the student price of \$35.00. A guest ticket may be ordered at the public price of \$80.00. A limited number of guest tickets will be available; therefore, all students ordering these may not receive them. The guest ticket will not be available after May 8, the deadline for student priority. Office hours are 9:00 a.m. to 4:00 p.m. Monday through Friday.
2. Students will receive priority based on the number of consecutive years they have applied for or purchased football tickets at The University of Iowa. There will be no loss in priority for off-campus programs or a bona fide illness. An individual who misses two or more consecutive seasons for reasons other than the above will lose all priority.
3. In order for a student to receive their priority for football he/she must order sometime during the period of April 13 to May 8, 1987. These orders will be filled according to priority established. Any order placed after May 8 will be filled as if the order had zero priority. Students ordering after the priority period will also accrue a year of buying credit toward their priority purchase of tickets in the following years.
4. Individuals may order season tickets for a group no larger than eight. If all group members cannot be present when the order is placed, the members who are not present must provide either their personal check with current and summer address thereon or cash and their ID number to the person placing the order. One student may not write a personal check in payment for another student's tickets.
5. The lowest priority within a group will determine the location of the entire block of tickets for that group. That is, all students within a group will carry the lowest priority of any member in that group. If certain priorities are denied student or guest tickets, anyone with higher priority requesting seating with this group will also be denied tickets.
6. Student season tickets will continue on sale on a non-priority basis after May 8 and will remain on sale through Friday, September 4 if still available.
7. Each student must pick up their own ticket in the fall. The student must present their own student ID with current registration (Fall 1987) sticker and picture ID at the time of pickup. Student pickup will begin Wednesday, September 9.
8. Students may cancel their football season ticket order and receive a full refund up until the Friday before the first home game. After that date, refunds will be issued only for the portion of the games remaining to be played. No cancellations or refund requests will be honored after the student ticket has been picked up and signed for. All requests for refunds must be made in writing to the Athletic Ticket Office. Please provide your full name, ID number and an address for the mailing of your refund check.
9. A student ticket, to be valid, must be accompanied by a University of Iowa ID with current (Fall 1987) registration sticker and a picture ID. A student ticket may be used by the original purchaser or by any other University of Iowa student, but the original purchaser will be held liable for any violations of the student ticket policy. If a non-student is found using a student's ticket, the student forfeits all future student ticket privileges. The penalty for a violation of the University policy involving the ID and ticket will be the loss of the use of the ticket for two games. **DUPLICATE TICKETS CANNOT BE ISSUED FOR LOST OR STOLEN STUDENT TICKETS.**
10. Everyone, regardless of age, is required to have a valid ticket for admittance to all University of Iowa football games. This includes infants in arms.

**WELCOME TO THE REAL WORLD**

College is behind you, and chances are so is any health insurance protection you had as a student.

Now's the time for some temporary protection until you qualify for a group insurance program.

There's no better protection than National Travelers Life Company's Short-Term Major Medical Plan.

- Flexible coverage periods — 30, 60, 90 or 180 days
- \$250 or \$500 per-term deductible, not per incident
- \$1,000,000 lifetime maximum benefit per insured
- Comprehensive coverages, including hospital room expense (semiprivate and intensive care), home health care and more

Get the health insurance protection you need when you need it the most. Talk to your local National Travelers Life representative about Short-Term Major Medical.

**SPORTSWRITERS WANTED**

Have you ever wondered what it would be like to sit in the press box during an Iowa football game or to talk to the players after a big win?

Here's your chance to find out. The Daily Iowan is currently seeking sportswriters for the upcoming fall semester. For anyone interested in a career in sportswriting, The Daily Iowan is the place to begin.

If you think sportswriting is for you, contact Steve Williams at The Daily Iowan (335-5848) or stop by N201 of the Communication Center and pick up an application. All applicants will be considered and experience would be appreciated.

Arts/entertainment

Milwaukee 'Visitation' features heroes, angels

MILWAUKEE (UPI) — A gigantic iridescent figure suspended in mid-swoop from a ramshackle grain storage elevator draws a noontime group of onlookers who shade their eyes, squint and wonder what's happening.

Artist Terese Agnew has the answer. "This is happening because a lot of people are getting behind something pretty crazy," Agnew said, while supervising placement of the fiberglass statue.

The 18-foot, 350-pound super-sculpture is one of 11 the 27-year-old artist built from 400 lbs of chicken wire, steel rods and donated fiberglass. Nine were designed to hang around the 128-foot-high elevator, another pair to "fly" nine blocks south near a downtown bank.

ABOUT A DOZEN companies donated labor and materials to help with creation and hanging of the sculptures, collectively titled The Visitation, which will be in place for two weeks "unless there are real problems," Agnew said.

"I think that people get a sense of their own power by getting behind something like this," she said. "Also they are put into a position where they can make a difference."

She said she received grants from the Wisconsin Arts Board and the Milwaukee Artists Foundation. Companies donated \$3,000, trucks, riggers and fiberglass, as well as men and equipment to erect the sculptures. The city donated use of a police car, which is to become part of one sculpture. About 200 people were involved in the project in some way, Agnew said.

"IT WOULDN'T HAVE happened without a ton of people," Agnew said, estimating the project would have cost about \$35,000 without the volunteers.

Two of the figures were designed for placement in front of a downtown bank — an angel zooming onto a parked police car and a figure flying out of the river on the State Street Bridge.

"The fact that there's a fleet of angels and superheroes suggests a premonitory state of alarm. It's like something is wrong or they wouldn't be there," Agnew said.

She said the project partially was

"This is happening because a lot of people are getting behind something pretty crazy," says artist Terese Agnew of her 11 larger-than-life "supersculptures."

inspired by a series of Byzantine-era apocalyptic illustrations similar to comic book illustrations. She turned to body-building magazines for the physiques of the supersculptures.

"You see the overdeveloped arms and the way the muscles stand out on the stomach, that's where that came from," she said.

SHE HAD A GROUP of local musicians record a tape loop of sound effects — "like flying, and super heroes talking to each other, it's very subtle" — to be played over hidden speakers at the elevator, a former brewery company structure destined to be demolished once the sculptures come down.

"It (the grain elevator) sort of is representative of industry, which is kind of an unfortunate dying thing in this country. So it's got an apocalyptic quality, there's no question about it," she said. "You come down here and it's like a ghost town."

The sculptures are made of fiberglass over chicken wire attached to steel rods linked with 4-by-4 wood blocks. Eye-bolts attached to the rods are connected to supporting cables.

The paint is bronzing powder in polyurethane varnish — "really iridescent and sparkly, because I wanted them to have kind of a magical quality," she said.

Agnew also said her sculptures poke fun at technology.

"I'm saying that we buy into it a little too much. Like that's not where the real power is," she said. "I think that we're kind of expecting science to save us from everything, and I think that social change is the only thing that's going to save us."

HELP WANTED
