UI lines shorter than before

But students still wait at financial aid

By John Butcher

Lines of people waiting for books, whether at the Library or at several Iowa City bookstores, have been a common sight in recent years. But while UI students are used to long lines around campus, the beginning of fall semester usually brings many long lines around campus this year.

Many students who visited the bookstore had to wait in long lines to purchase books. It is not uncommon for students to wait for more than fifteen minutes for books.

By U.S. News Services

WASHINGTON - Nearly 2,000 pounds of drugs seized in Gulf of Mexico by the U.S. Navy's amphibious attack group were turned over to the U.S. Coast Guard on Monday.

The drugs, which include cocaine, marijuana, and hashish, were seized as the amphibious group's LCU-1094, the ex-Naval Auxiliary Vessel "Biscayne," began a supply mission.

The "Biscayne" is the only remaining U.S. Navy amphibious vessel that is still in service.

Holiday week may lose city towing contract

The Iowa City Council discussed a plan to consider the loss of Iowa City's current towing contract.

The current contract, which is held by Holiday Racer and Crime Service of Grinnell, is up for renewal in 2019.

The City Council will meet next week to discuss the possibility of losing the current towing contract.

New York professor guilty on assault, theft charges

By James Cafhey

A New York medical professor was sentenced Friday to five years in state prison for an attempt to strangle a former student who accused him of sexual harrassment.

Dr. John P. L. Smith, 52, was convicted in April of assault and attempted murder in the case of the former student, who was 20 when she met Smith at a medical school in New York City.

The professor, who was a former student of Smith's, said that the case was a "cry for help" and that he was ready to go to prison to protect himself from further harassment.

But in another case, Smith was found guilty of assault after he allegedly grabbed the throat of a former student in a school hallway.

The former student, who was 21 at the time, said she was afraid of Smith and that he had threatened to kill her if she told anyone about the incident.

LAW LISTING BECOMES LAW

A University of Law Alumna Foundation for Human Rights has been established to finance law schools and to provide legal aid to low-income clients.

The foundation will also provide scholarships to law students who are interested in public interest law.

The foundation was created by the late Professor Robert H. Brown, a well-known law professor and a former president of the American Bar Association.

The foundation will provide scholarships to students who have been accepted at law school and who are unable to pay tuition.

The foundation will also provide legal aid to low-income clients, including those who are victims of domestic violence.

Iowa public school offers
current curriculum, higher pay

DES M O N S - (AP) - Students begin to push the third-grade classroom doors open Friday to see if they can get in.

The classroom was one of 10 members of the 10-member board which governs the school. Tickets to the show are $1 and are available by calling the school at 616-111.

Anyone with a serious interest in the school's programs and activities will be considered for the seat.

Iowa public school offers new curriculum, higher pay

The school district is considering a new curriculum that will be more challenging for students.

The new curriculum will include more advanced math and science courses, as well as a greater emphasis on technology.

The district is also considering offering higher pay for teachers who work in specialized areas, such as technology.

Hospice holds auction

Iowa City Hospice will be holding a "Bake Sale for Hospice" on Saturday, July 7, at 9 a.m. to 2 p.m. The sale will be held at the hospice's office, 1300 Custom Ave.

The sale will feature a variety of baked goods and souvenirs, as well as a drawing for a chance to win a trip to the center.

Hospice is a non-profit organization that provides care and support to people with life-threatening illnesses.

Council discusses plan for joint animal control facility

By Joseph Levy

The Daily Iowan

Iowa City and Coralville are considering a plan that would establish a joint animal control facility.

The plan, proposed by administrators from both cities, would involve the construction of a new animal control facility that would be located near the Coralville Police Department. The facility would be funded by both cities and would be managed by the Coralville Animal Services Department.

According to the proposed plan, the new facility would be designed to handle up to 1,000 animals per year and would feature a variety of amenities, including a spay and neuter clinic, a boarding facility, and an adoption center.

The cost of the new facility is estimated to be around $5 million, with the cities each contributing $2.5 million. The facility is expected to be operational by 2023.

Support for the plan has been strong, with both city councils voting to move forward with the project. However, some residents have expressed concern about the potential impact on nearby properties.

Anyone interested in learning more about the plan is encouraged to attend a public meeting scheduled for next month.

9 hopefuls vie for 4 spots as school board elections near

By Craig Swenson

The Daily Iowan

With less than a month until election day, nine candidates are vying for four seats on the Iowa City Community School District's Board of Education.

The candidates include four returning board members and five newcomers, each with different perspectives and platforms.

The candidates will run in a non-partisan election on Nov. 3, with the top four vote-getters winning seats on the board.

The campaign has been marked by heated discussions on topics such as curriculum, school safety, and funding priorities.

Voters are encouraged to research the candidates' platforms and make an informed decision on Nov. 3.

Slipping schools

A new report examining recent trends in the American educational system raises important questions about the effectiveness of current reform efforts. It suggests that the gains made in the early years of reform efforts may be reversible if specific actions are not taken.

Striking back

Scant media attention notwithstanding, the biggest strike in South Africa in recent memory was only one of many recent labor conflicts. The strike was largely sparked by the government's decision to reduce the size of the black working force in the mines. Thousands more are threatened with dismissal or demotion. 'Any self-respecting union cannot limit itself to campaigning for an end to unilateral black dismissals,' the Soweto Miners' Union leadership declared. 'We are just watching from the sidelines.'

Reunification of Republicans

The endgame that many analysts and politicians expected for the 1988 Republican presidential campaign may have occurred much earlier than expected. The retirement of the sitting president, Ronald Reagan, has caused so many conservatives to reassess their candidates that there is virtually no contest for the nomination at this point. The South Atlantic sector of the political spectrum is virtually leaderless—fiscal conservatives like Tennessee's Bill Grass, who was supposed to be the chief of the conservative party, seems to have deserted the field.

Back to the political basics

For many, this is not just the political endgame, but also the economic endgame. "As the Republican party moves into the 1990s," Texas Senator Strom Thurmond said, "the window of opportunity for our party will be closing."

Air Force defends MX against report

By John M. Broder

WASHINGTON — The Air Force on Monday sought to defend its position against a congressional report that accused it of misleading lawmakers about theMX's nuclear impact. The report, issued by the Senate Armed Services Committee, said that the Air Force had overestimated the MX's ability to deliver a nuclear warhead.

The Air Force has been under pressure from congressional critics who have questioned the MX's effectiveness and the costs of its deployment.

The report said that the MX, the most technologically advanced Strategic Defense Initiative (SDI) weapon, was being deployed as a result of broken promises and secret agreements made with Soviet leaders.

The Air Force has been under pressure from a number of critics who have questioned the MX's effectiveness and the costs of its deployment.

Jews protest movie viewing on Sabbath

Jews around the world protested the showing of the movie "Blade Runner" on Sabbath, despite an order from the country's highest court. The movie is set to open in Israel on the Sabbath, and the Jewish community has been divided on whether to allow screenings on the holy day.

Israel's cinemas from sundown Fridays to sundown Saturdays are closed to comply with Jewish law. The Court of Appeals in Jerusalem's CJM last week ruled that the movie should be allowed to run during the Sabbath, but the decision was overturned by the Supreme Court.

SPLASHDOWN move kills wrestler

GREAT YARMOUTH, England — The British Wrestling Association was forced to cancel its event after a wrestler was killed during a match in London. The wrestler, who was performing a move called "splashdown," was killed when he collided with the mat. The incident has raised concerns about the safety of wrestling events.
Injuries mar Haight's return

By Tony Muller

SPARTA, Wis. (AP) — Nine months after suffering a serious knee injury, Northwestern's D.J. Haight returned to the field Saturday night at SPArta. He made his last appearance in a game on Oct. 12, 2013.

Mike Haight

Haight was active for 10 games during the season but didn't plan to try out for games at all. The final letter of his season at home was against Minnesota.

IF THE TEAM SUCCEEDS

Haight is making the most of his return to the team. He's working hard in practice and contributing valuable support on the field. After the win over Minnesota, Haight said: "I'm happy to be back with the team and I'm excited to see what we can do in the future."

Writer Grady looks forward to new jobs

The Daily Iowan

Al Grady, a reporter and editor at the Iowan, looks forward to new opportunities after his recent graduation from the University of Iowa. Grady, a long-time Iowa Regulars' publication editor and an assistant editor at The Daily Iowan, will enter the workforce in a wide range of positions.

USOC director quits position

INDIANAPOLIS (AP) — George Miller, executive director of the U.S. Olympic Committee, announced Monday that he will step down from the position this fall. Miller, 57, has been in the role since 2013 and has been an influential figure in the sport of track and field.

Advertising Internships

Wildcats: 'We're on the right road'

Ellen Millerberry, a senior from Oak Park, Ill., shown for the aggressive style of play at which she is best during volleyball practice Monday at Carver-Hawkeye Arena.

By Mark Stein
The Daily Iowan

A third-place Big Ten finish in 1986 wasn't enough for the
members of the Iowa relay teams. This year, they want more.

Late recruit, the Hawkeye trio of Don Mullarkey, Stacey
Dye and Scott Stewart is the key to the team's success. "It's
the best team we've had in my three years here," said
Mullarkey, a senior from

The biggest concern lies in the
feel that Bob Kratch may be
WILL f of the Iowa meet. "We've got a lot of young men,
who aren't really sure where they are going to be. It's
perfect for us to have that contact with people. We want to
see what we can do."

of us (Joe Page 5)

JETS

Former Iowa football player Mike Durant, the No. 1 draft choice of the New York Jets a year ago, is hoping for an injury-free year. See Page 10.
