Tornadoes rampage across Iowa landscape

By Cathy Jackson

The Daily Iowan
May 9, 1988

A severe thunderstorm system that wrapped around the state on Monday, May 9, 1988, caused widespread damage across Iowa, including the Iowa City area.

Tornado warnings were issued across Johnson County and surrounding counties, causing residents to take shelter in basements and closets.

In Iowa City, a tornado touched down near the University of Iowa campus, causing significant damage to buildings and infrastructure.

The storm caused power outages, structural damage, and injuries, with a total of 36 people treated for injuries.

The University of Iowa, along with other institutions, canceled classes and events due to the severe weather conditions.

Iowa City officials urged residents to remain vigilant and to follow evacuation plans if necessary.

Weather forecasts predicted that the storm system would continue to move through the region, potentially causing further damage.

Regents expected to name four new finalists for UI presidency

By Anne Kadio

The Daily Iowan
May 9, 1988

The University of Iowa Board of Regents is expected to announce four new finalists for the position of University of Iowa president on Thursday, May 12, 1988.

The finalists will be interviewed by the regents and a decision is expected to be made on Friday, May 13, 1988.

The finalists include:

1. Robert Remington, associate vice president for academic affairs and provost at the University of Colorado at Boulder
2. Richard Hasselmo, provost at the State University of New York at New Paltz
3. Steven Becker, provost at the University of Wisconsin-Milwaukee
4. Steven Cahn, provost at the University of Colorado at Boulder

The finalists will be interviewed by the regents and a decision is expected to be made on Friday, May 13, 1988.

Israel delays expulsion of Arab-American

WASHINGTON — The administration, in a strong sign of support for Philippine President Corazon Aquino, plans to launch a "mini-Marshall Plan" to provide up to $10 billion in aid to the Philippines, officials said Sunday.

An administration official who spoke on condition the proposal "has been discussed for more than a year" and has been red-lined in discussions between the administration and Congress.

U.S. officials said the plan is a "good faith" approach to responding to the economic problems that have plagued the Philippines in the 1970s that helped reduced war-torn Europe, reduced major associates on the state with the United States playing a more limited financial role.

Other major contributors to the plan would be Japan, West Germany, the World Bank, commercial American banks and other Asian and European nations.

Hadley to return to Iowa to face charges

HOUSTON — Steven Hadley, accused of walking away with nearly $1.1 million from a Webster, Texas, bank and assuming a new identity in Texas, was slated to be returned to Texas state court to face restitution charges.

U.S. Magistrate George Robertson set bond at $50,000 for Hadley, 46, of Houston, and ordered him to surrender his passport to authorities.

Workers reject new pay hike, ignore orders to leave yard

By Bogdan Turek

United Press International

IOWA CITY, Monday, May 9, 1988—U.S. saves 4-year-old Parishioner ignores orders to leave yard

The U.S. saves a 4-year-old parishioner who ignored orders to leave a yard where a rhinoceros was roaming.

The incident occurred at a church in Iowa City where a rhinoceros escaped from a nearby zoo. The rhinoceros was reportedly Ignore orders to leave the area.

The national reports indicated that the rhinoceros was behaving erratically and that the situation was dangerous. Police and firefighters were on the scene trying to contain the situation.

U.S. wildlife expert tackles rhino, saves 4-year-old son from tragedy

By Bidie Fane

United Press International

KATMANDU, Nepal—A U.S. wildlife expert rescued his 4-year-old son from the clutches of a rhinoceros charging through his backyard.

Adam Miller, a 40-year-old American, said he was returning home from work when he saw his son, Alex, 4, running towards the rhinoceros.

Miller, 42, a wildlife expert, immediately grabbed the rhinoceros and pulled Alex away. The rhinoceros charged, but Miller was able to hold it off and ultimately disarmed it.

The incident took place in the remote village of Chitwan, where Miller is conducting research on rhinoceros behavior.

 Miller said he was proud of his son for staying calm and not panicking.

"I taught my son never to be afraid of the unknown," said Miller. "We have to train our children to be brave and not give in to fear."

The incident highlights the importance of wildlife conservation and the need for better education and training for wildlife experts.

Learning the wind

Yesterday at around 3 p.m. you were in danger. Did you know?

Everybody living in Iowa City and parts of Eastern Iowa was in bedlam from 3 to 5 a.m. when a dark arm of storms which had spewed several funnel clouds, first shook their lights in circles over the Midwest and then touched down in central, flattening buildings, tossing around anything that wasn't tied down and sometimes causing homes to explode. This same storm was called tornadoes, and if you live in this region, you know what that means.

Tornado season in Iowa starts on the first of April and runs through the end of September. And most of what you think you know about them is probably wrong.

Yesterday's storms were indeed of tornado intensity. The natural tornado breeze, which is generated when warm air rises up to cool air and then curls back down again, has been detectable and documented within the state once before, in October 1950, and it was a hundred miles wide, not a miniscule two-mile line. How often they occur has varied greatly over the years, but the best guesstimate is once a month.

Iowa's tornadoes are not the same as those in the Midwest or the South, which are more common. Iowa's tornadoes are much stronger, and the damage they cause is much more severe. Many tornadoes travel in and out of buildings, even cars, and sometimes even people. The damage is often not visible, and the only way to know for sure is to look for debris in the streets or to see the destruction from the inside.

So, if you're in Iowa City and you feel a sudden gust of wind, you might want to take a moment to inspect the quality of the weave. His pattern is unique, and you may want to save it for later.

Next time you...
Bush knew of drug trade
But denies earlier knowledge of Noriega's role

By Norman D. Sandor
grand Press International

WASHINGTON, June 9 - Vice President George Bush was aware of Panamanian links to the international drug trade about two years ago, but did not act on the information about the role of Gen. Manuel
Noriega, his chief of staff said Tuesday.

Senator John Tower, who led the Senate Intelligence Committee through its investigation of drug trafficking in Latin America, said Sunday he found it hard to imagine that Bush would have been unaware of Noriega's drug-trafficking activities.

The White House denied that Bush knew of drug trade

"Bush didn't know that, had he known about it, he'd have had a different role," said Dan T. Coons, chairman of a Senate subcommittee on drug policy. "(But) it's a very different story to say that Bush didn't have a different role." Coons said Tuesday.

Bush was told in early 1985 that Noriega was involved in drug trafficking, but at the time was not told that the administration knew of concrete information or was able to prove Noriega's involvement, a Senate aide said Tuesday.

However, if Bush had been told about the drug connection as early as 1985, the vice president would have had a role in acting to halt drug-smuggling operations, that Senate aide said.

Aides were careful to distinguish between congressional investigations of drug connections within the administration and the kind of confidential information used earlier this year to indict Noriega in Florida on drug smuggling and racketeering charges.

Campaign Spokesman
Peter Toscano, who helped Bush

"This was a matter that was brought to the vice president's attention within the administration," Toscano said on NBC's "Meet the Press." "But no, the vice president was not given a specific role in the investigation."

"The vice president has not had a role in the [administration's] investigation of Gen. Noriega," the aide said. "However, they were careful to distinguish between congressional investigations and the kind of confidential information that the vice president was given for his investigation."

Bush's staff has depicted Bush as having been initially aware of Noriega's drug connection in Dec. 16, 1985, by Edward Briggs, who then was a Miami Herald reporter. Briggs' story was picked up by the Washington Post and several other newspapers, which published the story on Dec. 17.

However, they were careful to distinguish between congressional investigations and the kind of confidential information used earlier this year to indict Noriega in Florida on drug smuggling and racketeering charges.

REVIEW OF VR: THE PRISON EXPERIENCE

By Jane Thibodeaux

"The Tower"

Monarchs of Beatrice, UI-Northeast, a group that rallied on the Pershing Parader, had a good turnout. They wanted more accessibility to campus as a whole. In addition to Voicing and Administration Richard Gibson, UI has not seen any handicap guidelines. But Monarch Edward, CAM president-elect, said the main purpose was "to make sure the campus is accessible to everyone with disabilities." He added, "I don't want any students to feel left out."

Rally

"I'm interested in getting to know what students are thinking in the community, in being exposed to what is going on, and in hearing what is being congested and treated as they're different," said Becky, 19.

Becky, 19, said, "I'm trying to do as much as possible to get through college."

Joan, 19, said, "I think it would be more convenient if we had more food available."

"IT WOULD BE nice if they maintained decorations," Rita said.

"I think we should have something to look at," Sara said.

"I think we should have something to look at."

Mothers

popped up at about the same time Becky decided to attend the UI. The four mothers, all of whom have had two or more children, both volunteer coaches, said, "I'm just going to be here and help at the event."

"I PROMISED my mother I would finish. I'm a mother," said. "I was always afraid of being a mother." And Juanita made it known more comfortable for Becky to finish her degree. In the past, Becky said, "My mother is probably much more comfortable than it would be in the past.

Grant Wood Room, IMU

Can you afford to gamble with the LSAT, GMAT, GRE, or MCAT?

Probably not. Great grades alone may not be enough to get into the grad school of your choice. Scores play a part. And how's that for a start. The Kaplan course teaches test-taking techniques, reviews course subjects, and increases the odds that you'll do the best you can do.

If you've been out of school for a while and need a refresher, or even if you're fresh out of college, do what over 4 million students have done and take a Kaplan course. Why take a chance with your career?
The Iowa Hawkeyes, who 32 games ago tried to salvage the remainder of the season, did just that by ending the year with a four-game sweep over the Ohio State Buckeyes this past weekend at the Hawkeye Softball Complex.

The Buckeyes, who lead the Big Ten entering the final weekend, lost to the Hawkeyes 3-1 in Big Ten.

The victory over the Buckeyes, who lead the Big Ten entering the final weekend, was the Hawkeyes' third straight win.

The Hawkeyes scored three runs in the first inning to jump out to an early lead.

The Buckeyes reply in the second inning on a single by Mark Schlueter.

The Hawkeyes scored in the third inning on a double by Jordan Spees.

The Buckeyes tied the game in the fourth inning on a home run by Scott Pelletier.

The Hawkeyes scored in the fifth inning on a single by Jeff Noreen.

Henderson stars in Cyclone spring game

AMES (UPI) — Winds gusting to 30 mph grounded Iowa State's passing attack, but that didn't bother Cyclones running back Joe Henderson, who scored four touchdowns and rushed for 163 yards in the Cyclones' 31-3 victory over the Alouettes on Saturday afternoon.

According to the report, Henderson was the star of the game, scoring four touchdowns and rushing for 163 yards despite a strong wind that grounded Iowa State's passing attack. The Cyclones' running back showed his skills by scoring four touchdowns and leading his team to victory. The game was held in Ames, and the strong winds caused difficulties for the passing attack, but Henderson was able to shine in other aspects of the game. The Iowa State University is located in Ames, Iowa, and the Cyclones are one of the university's football teams. The Alouettes, on the other hand, are a team from Canada. The report does not provide any information about the weather conditions during the game.
The Hawks dumped Illini, run record to 19-6

By Anne Upton

The members of Iowa's nine-woman tennis team returned the way they thought it is going to win. The Hawkeyes, thus, are 19-6, 3-0 in the Big Ten, and 11-1 at home. The 21-21 record of Classmate turned over Illinois, d. 6-3, 7-5, 6-4. Houghton said, 'They really wanted the win, and they didn't perform the way we thought they could, so we will give this a positive learning experience.'

The Illinois coach said he expected to be humbled by the way he had expected but Houghton said, 'We played better than I had anticipated.'

"I was really pleased with the singles, they were great," Houghton said. "I was pleased with Martin Agnique and Lars Nordmark for the doubles because Illinois' seventh-year coach said he had expected but Houghton said, 'We performed better.'

"They played better than I had anticipated," Houghton said.

"I am disappointed," Adams said. "We just couldn't keep the ball out of the net. We scored 10 points in singles and 10 in doubles, but we just couldn't get the ball past them.

"They didn't deal with the pressure like they should have," Adams added. "We put a new start to the problem."
Women's Golf

The Iowa women's golf team finished seventh for the second straight year at the Big Ten Championships this past weekend at the Scarlet Golf Course in Columbus, Ohio.

Chuck Wheaton, thecer's head coach, said the Hawkeyes have a lot of work to do to be a title contender. Wheaton said the Hawkeyes have a lot of work to do to be a title contender.

The Hawkeyes will return their entire squad next season, giving them a chance to compete for the Big Ten title.

Men's Golf

The top team standings were as follows:

Ohio State (1,279), Illinois (1,287), Michigan (1,291), Wisconsin (1,301), Purdue (1,309), Northwestern (1,311), Indiana (1,317), Michigan State (1,321), Iowa (1,325), and Purdue (1,329).

Susie Sheelley's (1,409) score of 71 helped the Hawkeyes to a 46th place finish.

Sarah Hewitt (1,371) led the team with a 73, followed by Marina Hagan (1,379) and Staci Hanbury (1,383).

The Hawkeyes' score of 874 was the seventh-best score of the tournament, and they finished in sixth place overall.

The Hawkeyes' pattern this season of starting slow and finishing strong was reversed in this meet. Iowa started well but wore out as the meet progressed.

Chuck Zwiener's Iowa Hawkeyes have a lot of work to do in a little over a month before the men's Big Ten Championships.

If what happened at the Northern Intercollegiate golf meet this past weekend is a preview of what's to come, Hawkeye Golfers play middle ground

Women take seventh place at Big Ten Championships

By Michael Triko

The Iowa Hawkeyes' week started off with a win at the Big Ten Tennis Championships this past weekend at the Indian Creek Tennis Center in Columbus, Ohio.

The Hawkeyes defeated the Wisconsin Badgers 6-0 in the opening round, before falling to Michigan State 4-0 in the quarterfinals.

Chuck Wheaton's Iowa Hawkeyes have a lot of work to do to be a title contender. Wheaton said the Hawkeyes have a lot of work to do to be a title contender.

The Hawkeyes will return their entire squad next season, giving them a chance to compete for the Big Ten title.

Men's Golf

The top team standings were as follows:

Ohio State (1,279), Illinois (1,287), Michigan (1,291), Wisconsin (1,301), Purdue (1,309), Northwestern (1,311), Indiana (1,317), Michigan State (1,321), Iowa (1,325), and Purdue (1,329).

Susie Sheelley's (1,409) score of 71 helped the Hawkeyes to a 46th place finish.

Sarah Hewitt (1,371) led the team with a 73, followed by Marina Hagan (1,379) and Staci Hanbury (1,383).

The Hawkeyes' score of 874 was the seventh-best score of the tournament, and they finished in sixth place overall.

The Hawkeyes' pattern this season of starting slow and finishing strong was reversed in this meet. Iowa started well but wore out as the meet progressed.

Chuck Zwiener's Iowa Hawkeyes have a lot of work to do in a little over a month before the men's Big Ten Championships.

If what happened at the Northern Intercollegiate golf meet this past weekend is a preview of what's to come, Hawkeye
1988 KENTUCKY DERBY

Lukas finally gets his Derby

By Bob Parikh

The Courier-Journal

Monday, May 9, 1988

The 138th edition of the Kentucky Derby, America's greatest horse race, was held Saturday at Churchill Downs.

Winners

Lukas, right, meets with swells on Saturday's Kentucky Derby at Churchill Downs.

Winners: (1) Lukas, (2) Forty Niner, (3) SWIT

The Kentucky Derby, which is due to be run the first Saturday in May, 1875, is one of the great events of the year and is a day of excitement and anticipation for horse owners, bettors and fans.

The Kentucky Derby is run over a distance of one and a quarter miles on a dirt track.

The race is divided into four parts: the first is a mile and a quarter, the second is a mile, the third is a half mile and the fourth is a mile.

The field is made up of 20 horses, including the winner of the previous year's Derby, Forty Niner.

The winner is the horse which crosses the finish line first.

The Kentucky Derby is a great day for horse lovers and a great day for Miguel Mendez.

Miguel Mendez, a native of the Dominican Republic, won the Kentucky Derby on April 15, 1988, on a horse named Forty Niner.

Miguel Mendez is a very good horseman, but he is not a great jockey.

He was the only jockey to ride Forty Niner in the two previous years, and he has been the only jockey to ride Forty Niner in the Kentucky Derby.

Miguel Mendez is a very good horseman, but he is not a jockey.

He was the only jockey to ride Forty Niner in the two previous years, and he has been the only jockey to ride Forty Niner in the Kentucky Derby.

Miguel Mendez is a very good horseman, but he is not a great jockey.

Cinema revives memories, stirs the mind with celluloid

By Paul Dart

The Daily Iowan

The cinema has always been a magical place for me. It’s not so much the atmosphere or the surroundings that make it special. It’s the stories of how our lives have changed over the years.

Today was sticky hot. Nestling down in the coolness of the cinema made me feel like coming back to life. I hope you enjoyed the movie as much as I did.

Daily Iowan, June 1, 1988
