Branstad welcomes talented youngsters

By John Bartlow

The Daily Iowan

Gov. Terry Branstad was in Iowa City Monday afternoon to tell hundreds of high school students in the first Iowa Governor’s Institute for the Gifted and Talented: "One reason the district was to compete with

The students will have the opportunity to attend middle and high school activities and receive tutoring. The institute was not to compete with elementary and secondary schools and is not to replace the Governor’s Institute for Student Leaders.

Branstad, who was in Iowa City Monday afternoon, also said the institute will have a "safe haven for students who want to get involved in different activities and are not necessarily comfortable being the most popular person in your class," said Branstad.

"We want to make it possible for the future leaders to develop their skills and to be involved in different activities," said Branstad.

Opportunities abound in summer workshops

By Deborah Dube

whether you've interested in learning a foreign language, writing for a publication, majoring in special education, mathematics, or just want to meet new people, there are programs for you to choose from. There are 13 major programs that are offered to teachers and administrators who have a genuine interest in teaching mathematics and science.

The workshops are held at 9 a.m. to 1 p.m. Monday through Friday, beginning June 18. Teachers and administrators interested in enrolling in courses are encouraged to visit the Department of Mathematics and Science at 200 W. Inn, Suite 201, to register.

Ambrisco raises questions about city sewer builders

By Tressi Aube

A Marion sewer construction project is causing some concerns for the city of Marion, according to city councilor William S. Duff, who said the city should be more involved in the process.

"I think the city should be more involved in the project," said Duff, who represents the area around the Marion sewage treatment plant. "I think the city should be more involved in the project." Duff said the city should be more involved in the project.

The current project is a $3 million project to construct a new sewage treatment plant in the city. The project is being built by a company called Ambrisco, which is based in Marion.

Duff said the city should be involved in the project because it is in the city's best interest. "I think the city should be more involved in the project," said Duff. "I think the city should be more involved in the project.

Duff said the city should be more involved in the project because it is in the city's best interest. "I think the city should be more involved in the project," said Duff. "I think the city should be more involved in the project.

Injured windsurfer improves

IOWA CITY (AP) - A windsurfer who was rescued after being stranded in the Mississippi River was released Monday night at UI Hospitals' Ophthalmology Center.

UI Hospitals' Ophthalmology Center's Dr. Richard Jones, who went to the site of the accident with another doctor to rescue the windsurfer, said the windsurfer, identified as Brian Wells, was released.

Jones said Wells was unconscious and had a low pulse when he arrived at the hospital.

He said the windsurfer had lost consciousness and was not breathing.

The windsurfer was flown to the hospital by helicopter and was taken to the hospital for treatment.

The windsurfer was initially reported to be in critical condition but was later upgraded to serious condition.

COMIC Mourns the Demise of an Old and Dear Friend  

Julie Stein  

A sudden and unexpected visit from an old friend. His arrival was a surprise to the comics, who had not seen him for several years. As they caught up, the old friend revealed that he had been struggling financially and had been forced to uproot his life and move to a small town. Despite his newfound simplicity, he was always a favorite among the comics.  

But the old friend's visit was bittersweet. It was clear that he was not well. He spoke with a heavy heart about the challenges he faced and the struggles he had endured.  

The comics were moved by his words and offered their support. They remembered the good times they had shared and the laughter they had brought.  

But now, as they said goodbye, they knew that they would never see their old friend again. His departure was a loss to them all.  

Striking similarities exist between undue wavers and  

John Domfield  

Domfield argues that undue wavers are often used to manipulate public opinion and create a false sense of urgency. They are used to shift the focus from more pressing issues and to create a climate of fear and suspicion.  

The book examines the ways in which undue wavers are used in various contexts, from political campaigns to media and social media. It also explores the impact of undue wavers on individual and collective behavior.  

Domfield emphasizes the importance of critical thinking and the need for individuals to question the information they receive. He urges readers to be skeptical of undue wavers and to seek out multiple sources of information.  

In short, "Deceitful War" offers a warning to the public about the dangers of undue wavers and encourages readers to be vigilant in their pursuit of truth.  

Hotel Moguly Caught in Act  

The Hotel Moguly, a prominent hotel chain, has been caught in a scandal involving acts of corruption and illegal activity. The investigation has revealed a pattern of behavior that has become a hallmark of the chain's operations.  

The Hotel Moguly's executives have been charged with embezzlement and fraud, and the company has been forced to face后果 severe financial consequences. The scandal has also led to a loss of trust among the company's customers and stakeholders.  

The investigation is ongoing, and it is unclear how long it will take to resolve. However, the Hotel Moguly's reputation has been irreparably damaged, and the company is facing an uncertain future.  

Sham Deportee Activist Leader  

In this edition of "Deportee Affairs," the Sham Deportee activist leader speaks out against the erosion of human rights and the exploitation of vulnerable communities.  

The leader discusses the challenges faced by deportees and the impact of deportations on their lives. He also highlights the role of the international community in addressing these issues and calls for greater solidarity and action.  

The leader's message is one of hope and determination, and he encourages readers to join the fight against deportation and in support of deportee rights.

Shamir depants activist leader

By Kathy Liti

LOM, Israel—Israel Monday turned away from the nation's most prominent activist against occupation, Robert Axelrod, an apologist for racial and ethnic equality, as the country's first government under the leadership of Ariel Sharon. Israel first announced a major change in its security policy on Tuesday, when it decided to deport Robert Axelrod, a 44-year-old advocate of non-violence against Israeli occupation. The move was made in response to a series of incidents in which Axelrod was accused of inciting violence against Israeli soldiers and civilians.

Axelrod, who has been active in the movement for Palestinian rights and has been imprisoned several times for his activism, was deported after a court ruled that he had violated the terms of his parole. The move was widely criticized by human rights organizations and by many Israelis who believe that the deportation is a violation of Axelrod's rights.

Israel's decision to deport Axelrod comes after a series of incidents in which he has been accused of inciting violence against Israeli soldiers and civilians. In one incident, Axelrod was detained for several days after he was accused of participating in a demonstration in support of Palestinian prisoners. In another incident, Axelrod was arrested for his role in a protest against the Israeli occupation of the West Bank.

Israel's decision to deport Axelrod has been widely criticized by human rights organizations and by many Israelis who believe that the deportation is a violation of Axelrod's rights. "This is a backwards and dangerous move," says B’Tselem, an Israeli human rights group. "Axelrod has always acted peacefully and has dedicated his life to promoting human rights and equality. His deportation is a gross violation of his rights and a step in the wrong direction."
Koop, forum address AIDS

U.S. reports: 1 case every 14 minutes

By Paul Raeburn

Great Plains, Central U.S. still ravaged by drought

West of the Rockies, sunshine and thunderstorms were widespread through Thursday. Some areas of a rural Midwest area at Boston in Massachusetts reached 92 degrees at 2 p.m. Hot readings around New England were in the upper 80s to lower 90s by late afternoon.

The evening forecast in the eastern half of the nation had temperatures around 80 degrees but with low relative humidity. The low humidity levels helped dry the hot air reasonably comfortable, but the domino is that it is hard to keep the moisture in the air on the islands.

 succeeds from page 1

The protests demanded that the government release students arrested Friday in major arrests.

Those battles broke out when riot police blocked thousands of students during a funeral march. The temperature at Logan airport was 80 degrees. Much of the remainder of the nation had mid-90s temperatures but ranged up to 105 degrees. The Man Who Shot Liberty Valence (1962)

WAISDELLHes, 32, and his son Tommy, 9, of Denmark, Wis., said they should be about double-time on their dresser, Wis. later this afternoon. The temperature in the southwestern U.S. was mostly in the 90s and had ranges up to 105 degrees in the desert Southwest. Temperatures at Logan airport were expected to reach 80 degrees in Logan, Mass., and 88 degrees in Boston, Mass.

Possible showers may move into the area by Friday afternoon.

Jerry Ross Lightfoot, R-Iowa, has assembled to monitor the drought. Most readings were in the 80s and had ranges up to 90 degrees in the desert Southwest.

A group of farm experts recently reported the drought was to last much longer.

The protesters demanded that the numbers suggest police blocked thousands of students during a funeral march.

There was more daytime thunderstorms were widespread through Thursday. Some areas of a rural Midwest area at Boston in Massachusetts reached 92 degrees at 2 p.m. Hot readings around New England were in the upper 80s to lower 90s by late afternoon.

There were expected to be several inches of rain over coastal sections of southern California and southern Florida. High temperatures were forecast for much of the northern Rockies and in the desert Southwest. The temperature at Logan airport was 80 degrees. Much of the remainder of the nation had mid-90s temperatures but ranged up to 105 degrees. The Man Who Shot Liberty Valence (1962)

WASHINGTON — An Agriculture Department official, speaking "too soon to yield," Monday said it's too early to press to the nationwide flooding. Since June 4, more than 700,000 acres have been flooded and 250 others were facing adverse changes.

"There's no 'one' flood," said researchers at the National Oceanic and Atmospheric Administration. The temperature at Logan airport was 80 degrees. Many of the nation's Great Plains and Upper Midwest were expected to be several inches of rain over coastal sections of southern California and southern Florida. High temperatures were forecast for much of the northern Rockies and in the desert Southwest. The temperature at Logan airport was 80 degrees. "There's no 'one' flood," said researchers at the National Oceanic and Atmospheric Administration. The temperature at Logan airport was 80 degrees. Many of the nation's Great Plains and Upper Midwest were expected to be several inches of rain over coastal sections of southern California and southern Florida. High temperatures were forecast for much of the northern Rockies and in the desert Southwest. The temperature at Logan airport was 80 degrees. Much of the remainder of the nation had mid-90s temperatures but ranged up to 105 degrees. The Man Who Shot Liberty Valence (1962)
**Local Iowa City team, Bell and Shore, cut LP**

By Brian Jones

It’s not often that new bands gain a presence on the downtown music scene. This past Saturday night, however, the country/folk duo of Nathan Bell and Susan Shore released their debut album, "Little Marvin," on the independent Lakeside Media label.

"We’ve been friends for over 18 months, working on material and writing songs," said Bell in an interview with the Daily Iowan. "It’s a pretty broad sweep of the things we enjoy." Bell said that the album was recorded at his father’s home in the southern Iowa hamlet of Bluffs.

The album, according to Bell, was "to get a pretty familiar feeling and drive the thing so do. It does a pretty good job of capturing that atmosphere." Although it is still early to tell how the album has been received, Bell says that "Little Marvin" is a "personal project for us and the people around the country."

The album is not only the debut album for Lakeside Media, but also for the duo of Bell and Shore. "It’s their own label," Bell said.

Bell and Shore are both senior history majors at the University of Iowa, and have been working on the album with a steady crew of assistants. "It’s been a real bonding experience," said Shore.

The album was recorded in a small Lakeside Media studio, located in the recent home of the Dolores Hancher Auditorium, the centerpiece of the University of Iowa campus.

Law named to U.S. Select team

Iowa junior Justice Law has been named to the 13-player United States national team which will compete on a 12-game tour of Europe next month. It is the first year that Law, a 6-7 guard from Ferguson, S.C., started every game of his career. The team will play a three-game series in England which will be followed by a three-game series against Spain. The team will also play in the World University Games in the Soviet Union.

Steve Buechler

Other Big Ten competitors on the team included Nikita Lawless and Gary Longhini, both of Ohio State, and Law's 6-11 guard spot against Angleterre, Slovakia, Poland, Russia, and Germany. This will be the second team which won a World Cup last summer in Taipei. The team which won the Jones Cup last summer in Taipei.

All-American wrestling team selected by

The Iowa Daily" announced Monday.

Steven Chaney, the eighth coach in the 21-year history of the franchise,

Philadelphia isn't still considered

to Philadelphia. The 1989 undrafted free agent was a starter at center throughout his career with the Bucks, and his solid play down the middle helped the team reach the playoffs in six of the past seven seasons.

Buoniconti says Citadel negligent with his injury

By Dave Smith
Associated Press

CHARLESTON, S.C.-Rebecca Ann Buoniconti was being carried into the stadium last week when she heard the team doctor and trainer at The Citadel were negligent in treating her husband, NFL star Lawrence "Buoniconti" Buoniconti, who suffered a serious neck injury in a 1985 football game.

"When you play football, you assume the risk of injury," Buoniconti's lawyer charged Monday. "If you're dealing with a serious injury, you have a right to assume that the treatment you're getting is going to help you.".

In the courtroom by his side was the former Tennessee State player who led his team to their last league title before a 1985 game against The Citadel. Buoniconti suffered neck injuries that ended his career and left him a paraplegic.

Buoniconti's former high school teammate said that Buoniconti has always had a winning attitude and that his decision to remain in the lawsuit is because the former football player is "the epitome of a winner." He said that the lawsuit is "a difficult decision to make." He added that the lawsuit is "the right thing to do for my husband."
Brown jumps to San Antonio

By Doug Tucker

LAURENCE, Kan. — Larry Brown, less than three months after being named the coac'h of the New Jersey Nets, added his name to the growing list of college basketball coaches who have made the jump to the NBA. Brown, who spent the 1980-81 season as assistant coach at Kansas under Roy Williams, has been hired to replace Bill Musselman as head coach of the San Antonio Spurs.

Brown, who was named the Big 12 Conference Coach of the Year after leading Kansas to the NCAA title game, is expected to join the Spurs in the next few days. He will take over a club that finished last season with a record of 21-61 and missed the playoffs. Brown is expected to bring with him several key members of his Kansas staff, including assistant coach Kurt Rambis and video coordinator Marty Ziegler.

Brown's arrival in San Antonio is seen as a major coup for the Spurs, who have struggled to attract fans and win games since their inception in 1973. The team has not made the playoffs since 1986, and its attendance has been among the lowest in the NBA.

With Brown at the helm, the Spurs hope to turn things around and become a contender in the Western Conference. Brown is known for his ability to develop young talent and has a strong record of success at both the college and professional levels.

Brown replaces Musselman, who was fired in November after a disappointing 3-21 start to the season. Musselman had been with the Spurs since 1988, but the team's poor performance and the coaching staff's inability to develop young talent were factors in his dismissal.

The Spurs are looking to Brown to bring some急需的 stability to the franchise, which has struggled to find a winning formula in recent years. Brown's track record in the college ranks and his ability to develop young players make him a strong candidate to turn around the Spurs' fortunes.

The hiring of Brown is expected to generate a lot of buzz in the basketball community, as he is widely regarded as one of the top young coaches in the game. He is expected to bring with him a strong staff and a strong roster, which should make the Spurs a strong contender in the Western Conference right away.

Brown's arrival is also expected to boost ticket sales and attendance for the Spurs, who have struggled to draw fans in recent years. The team's poor performance and the lack of a winning culture have made it difficult to attract fans to the arena.

With Brown at the helm, the Spurs hope to turn things around and become a respected franchise in the NBA. Brown's reputation for developing young talent and his ability to turn around small-market teams make him an excellent fit for the Spurs, and he is expected to bring a lot of energy and excitement to the franchise.

As the Spurs look to move forward and compete for a playoff spot, Brown's hiring is seen as a major step in the right direction. He is expected to bring a strong staff and a strong roster, which should make the Spurs a strong contender in the Western Conference right away.
