Child care ABC's

Congress is considering the $52 billion Act for Better Child Care Services. Not only is this not a good idea, it is a disastrous one.

Sixty percent of registered voters surveyed favored the ABC's. But what makes this proposal different than previous legislation is that fewer than twenty-six states have 52 billion in serious financial need. Not a 'Band-Aid' bill by any means. It provides funds to improve the basic standards of the nation's child care system, but just putting it up on a wall would make the system worse.

Secondly, the ABC is comprehensive. It addresses basic social, economic, and educational standards for child care facilities. Unlike the bill, which makes such safety and sanitation standards, minimum group sizes and adult-to-child supervision ratios would be mandated. Many states already follow these guidelines, but to many it is a new experience.

Thirdly, and most importantly, the ABC led states to help families from all income strata obtain affordable child care. The ABC is based on a "sliding fee," so that money is Available where it is needed most; thus, in many states, they will still offer reduced fees. Of course, there will still be a particular poverty, low-income families will benefit from Social Security and increased funding for the Head Start and other programs, while middle-class parents (who also technically qualify) will have to pay a large percentage of their state's median income may also obtain financial assistance.

Deficit dodging

With government spending out of control, the federal budget deficit should be a major issue in the presidential campaign. Who are the candidates proposing to deal with the deficit? Politicians may bluster about reducing the deficit, but they know the public will understand that their real goal is to avoid raising taxes.

Both candidates realize that the federal government loses billions of dollars yearly due to tax fraud, but they disagree about whether to try to reduce the deficit at all. The Democratic plan calls for raising taxes on the wealthy; the Republican plan has no provisions to increase taxes.

President George Bush's idea for dealing with the deficit is even worse. Bush wants to force the people to worry about tax cuts. Needless is true, the federal government losses billions of dollars yearly due to tax fraud.

Neither candidate is willing to talk too hard of the deficit. Bush promises to cut spending and raise the surplus for the one day that he will never see taxes raised — and the people will never see them, too. Bush's plan is to cut 2.5 billion in programs, as well as middle-class parents (who also technically qualify) will have to pay a large percentage of their state's median income may also obtain financial assistance.

Retired farmer climbs back onto tractor again

WILTON, Iowa (AP) - The farmer who believes his farm and his tractor are a part of his family was shocked when police officers burst into his home and took all his farm equipment as an assessment of the farm's worth after he had been declared "unfit" for his 60th wedding anniversary.

Thousands mourn for jetliner victims

TEHRAN, Iran (AP)—Hundreds of thousands of mourners began pouring into the streets of Tehran Sunday for the funeral of 268 people killed in a horrific crash of a U.S. jetliner when it slammed into a mountain shortly after taking off from the capital.

The funeral started with a prayer for the victims led by Ayatollah Ali Khamenei, who mocked American "military intervention," and ended with a call for revenge.

The forlorn scene contrasted sharply with the exultant crowds that had shouted their anger at the fiery speech from Iran's president, Ali Khamenei, who mocked the victims.

United States officials said there would be no more could be said in the wake of the crash.

"A plane went down and it's over," one official said.

President Ronald Reagan said: "This is a very tragic event, a very tragic day for all of us."

"I want to say that the American people stand united with the people of Iran."

The official, Peter M. Shultz, said the United States will work to determine what caused the crash.

"We must make sure that this kind of disaster never happens again," he said.

Minor-league GM will camp out until victory

GENEVA, N.Y. (AP) — Ken Seidarine, general manager of the Geneva Red Wings Catholic, sat down in his car outside the stadium, a gun in his truck, until the team’s minor league baseball team got off the field.

"I just wanted to make sure they got off the field," Seidarine said.

The Red Wings, who are currently last place in the league, had just lost a game to the Syracuse Chiefs. Seidarine, who has served as the team’s general manager for over a decade, said he was fed up with the team’s poor performance.

"It’s been a tough season," Seidarine said. "I wanted to make sure they didn’t take any chances.

The Red Wings are struggling this season, with a record of 21-35. Seidarine said he plans to continue his vigil until the team improves.

"I’ll be here every day," Seidarine said. "I won’t leave until they’re ready to roll."
59th All-Star Game rosters completed

Maddux leads six Cubs into contest

NEW YORK (AP) — The Chicago Cubs will have six players in Tuesday's All-Star Game, the most of any team in the major leagues.

Along with pitcher Greg Maddux, who leads the National League in victories with 18, the Cubs also have catcher Mike Piazza, left fielder Andre Dawson, third baseman dad Junior, and shortstop Shorty. Peter Gammons of the Boston Globe and Daveack of the Chicago Tribune say the Cubs are the best team in the National League.

Bagwell, Maddux, Piazz, Dawson, and Junior are all on the roster for the second straight year, while Ross is making his second All-Star appearance.

Bagwell, Maddux, and Zuke were the top three-eastern players in the National League.

They are joined by shortstop Shorty, who is making his second All-Star appearance.

The Cubs have a lot of options for their All-Star roster, but they are sticking with the tried-and-true approach.

They have a good mix of veteran players and young talent, and they are confident in their ability to perform at a high level.

The Cubs are hoping to repeat their success from last year, when they won the National League West and reached the World Series.

They will be relying on the strong pitching of Greg Maddux, who has been dominant all season long.

The Cubs are also counting on the hitting of Andre Dawson, who has been one of the best players in the National League this year.

The Cubs are excited to be represented by six players in the All-Star Game, and they hope to use this opportunity to show off their talent and make a statement in the game.

The Cubs are looking forward to the game and hope to have a strong performance.
