**Extended library hours slated for fall finals, spring**

By Heathcote Mahler

The Daily Iowan

Across the country today, commemo-
ration and remembrance services will
be conducted in honor of Veterans Day,
and in Iowa City veterans have planned
their own events through the week of Nov. 27.

A candlelight vigil at the Veterans Administra-
tion Medical Center Chapel Thursday evening in honor
of Veterans' Day. Market was one of three
ROTC members who were holding the first ever vigil
of the vigil that is scheduled to continue through
fall finals today.

Wealth of talent brings richness to ‘Dance Gala’

By Katie Gourley

The Daily Iowan

It was an evening to remember. Dance Gala 2018
was held as a major industry, it would be called "The
Twelve Dances of Christmas." It would go like this:

"The First Dance features a modern contemporary dance
"The Second Dance features a modern contemporary dance
"The Third Dance features a modern contemporary dance
"The Fourth Dance features a modern contemporary dance
"The Fifth Dance features a modern contemporary dance
"The Sixth Dance features a modern contemporary dance
"The Seventh Dance features a modern contemporary dance
"The Eighth Dance features a modern contemporary dance
"The Ninth Dance features a modern contemporary dance
"The Tenth Dance features a modern contemporary dance
"The Eleventh Dance features a modern contemporary dance
"The Twelfth Dance features a modern contemporary dance

**Burge fire forces evacuation**

By Hydran Mader

More than 300 students were evacuated from four residence halls last Thursday after the fire broke out in a basement room in Burge Hall.

Firefighters were called to the scene at 6:30 p.m. to find a small fire burning in one of the hallways of the third floor. The flames quickly spread and forced the evacuation of the entire floor.

When firefighters arrived on the scene, they discovered that the fire had already spread to the second floor and was threatening to spread to the third floor.

Firefighters worked quickly to contain the fire and prevent it from spreading further. The evacuation was orderly and efficient, with students being guided to safe locations.

Police

By Lisa Snape

An Iowa Iowae resident reported that a fire broke out in a basement room in a residence hall.

The woman said she was at work when she received a call from her roommate, who reported that a fire had broken out in the room.

The woman called the fire department and was told that they were on their way to the scene.

The fire was quickly extinguished and the students were allowed to return to their rooms.

Courts

By Bethna Mower

The Daily Iowa

A former Iowa student was charged with petty larceny in connection with the theft of a laptop computer.

The student was arrested after authorities received a tip from a concerned student who reported seeing the suspect in the vicinity of the theft.

The suspect was questioned and admitted to the theft, saying that he needed the money to buy food and pay for his rent.

The suspect was booked into the Johnson County Jail and is being held on a $2,000 bond.

**Tomorrow**

Tomorrow's events include a blood drive, a Chinese Film Festival, and a meeting of the Student Senate.

The Johnson County Blood Donor Center will be holding a blood drive at the Iowa Memorial Union from 9 a.m. to 3 p.m. Everyone is encouraged to donate blood to help save lives.

The Chinese Film Festival will be held on Saturday from 1 p.m. to 5 p.m. at the Iowa Memorial Union. The festival will feature a variety of Chinese films and will include a discussion with the filmmakers.

The Student Senate meeting will be held on Monday at 3 p.m. in the Iowa Union. The meeting will be open to the public and all students are encouraged to attend.
Judges call argument heart of case

Metro/Iowa

By John Thiry

The Daily Iowan

Judges said Monday that the heart of the argument in a lawsuit over a disputed tract of land is whether state officials properly handled the sale of the property.

The property in question is located in the northwest corner of Johnson County near the town of Thompson. It was once owned by the State University of Iowa, but in 1983 it was determined that the land was surplus and that the university should dispose of it.

The court heard arguments Monday morning over a case that has been in litigation for nearly a decade. The dispute centers on whether the state's actions in selling the land to the highest bidder were proper.

Attorneys for both sides presented their cases, with arguments continuing until late in the afternoon. The court is expected to rule on the matter in the coming months.

Home games mean big business

By Noelle Nystrom

The Daily Iowan

A sellout football season means huge Mark fans, and empty coffers for Mark fans on an otherwise promising.

Many downtown shops, restaurants and bars are enjoying a great gain in income during a home football game. QuickTrip, 206 W. Washington St., has business increased 10 to 15 percent on game days, manager, who declared

"We don't sell out our business before and after games," he said. "We have an increased volume of business before and after games." The Fieldhouse, 111 E. College St., said business has increased 10 percent during the season.

"We are in business for three years and business is as normal weekend," said Thelma Warden, manager at the Fieldhouse.

"I have sold a lot of tickets through here," said the Fieldhouse. 

"We sold out the Fieldhouse," said the Fieldhouse. 

"I have sold a lot of tickets through here," said the Fieldhouse. 

"We sold out the Fieldhouse," said the Fieldhouse.

"We should not be denied the right to recruit at the university," said Roberta Rawlings, manager of New Wave.

"There has been an increase of New Wave's efforts on the campus. Football season is always a big time for CIA recruitment," said New Wave's five managers, Roberta Rawlings, manager of New Wave.

"Last year we were very busy with Parent's Weekend," said Roberta Rawlings. "By the end of the season we were even more busy with parent's weekend." 

"We didn't get tickets for the game this year," she added. "I don't think there exist this type of demand and supply situation, and the fieldhouse is a way to meet this."

It's showtime

In last week's issue, I discussed the new Super Collider in Iowa City-
the biggest, baddest, boom-box of a project to come down the pike in years. At one time, it was feared that the project might be located in another state that might not have had the same amount of white house political clout as Iowa. But now, it seems that things may be turning around for us in Iowa. The governor has officially announced his support for the new Super Collider, which is expected to be built over the next few years. This is a significant victory for our state, and it's clear that the project will be a major boost to our economy. The governor has already spoken out in favor of the project, and it's clear that he's committed to seeing it through. With his backing, we can be sure that the project will be a success.

Deconstructive behavior

In my opinion, the editor's recent comments about the public school
system, as presented in last week's issue, are deeply troubling. It is
important to recognize the value of public schools in our society, and
to support efforts to improve them. The editor's comments about
the negative impact of public schools on society are not constructive
and do not address the complex issues involved.

Letters

Poor comparison

The editor's recent comments about the public school system are
poorly thought out and do not provide a balanced view of the
situation. The public school system is facing many challenges, but
it is important to recognize the value of public schools in our
society. The editor's comments about the negative impact of public
schools on society are not constructive and do not address the complex
issues involved.

Joe Bob Briggs

The Daily Iowan

Movie manners

In my opinion, it is important to treat others with respect in all
situations. This includes being polite and considerate when watching
movies. The editor's recent comments about the importance of
movie manners are well taken, and it's clear that it's important to
behave appropriately when watching movies. The editor's comments
about the negative impact of bad movie manners are not constructive
and do not address the complex issues involved.

Renewed British-Iran ties raise hope for hostages

John Denver was banned from Britain last month over his "two serious" interviews on a Soviet-sponsored radio. But the Sovets' supporters believe that with $10 million the pop star can change the tides of the project.

"It happened that I am prevented from going $10 million, that I think's a regret," said the pop star and that it's the way to the problem.

Striking Brazilians die in riot

RED DE ARMIRO, Brazil (AP) — Gunfire and a police siege on the side of a highway outside Rio de Janeiro left six people dead, including a policeman, authorities said.

A group of strikers were demanding a minimum wage of $100 for workers and their supporters had been in talks with government officials. The talks were called off late Wednesday.

The strikers were demanding a minimum wage increase to $150 for workers. The government and the union representing workers had reached an agreement to raise the minimum wage to $150.

The police said a remaining group of about 300 workers left the plant Thursday.

"We are not in a position to negotiate," Dunaev said, "but we want to continue to negotiate with the government."
Air Force has Stealth jet squadron at Nevada base, Pentagon reveals

WASHINGTON (AP) — The U.S. Air Force has begun flying a "Stealth" state-of-the-art fighter for seven years, and now has about half the planes at an operational base in Nevada, the Pentagon said today.

Pentagon officials had said earlier this month that the planes were being prepared for combat duty, but details were expected to be announced today. The planes are assigned to the 49th Tactical Group at Nellis Air Force Base in Vegas. The strength is based at the Nellis. The Stealth aircraft are assigned to the 49th Tactical Group at Nellis Air Force Base in Las Vegas. The stealthy jets are currently located at Nellis.

"The Stealth jets will be part of the Air Force's new operational command structure," Pentagon officials said today. "The planes will be operational by the end of the year in the Nevada market district, operating as part of the Pacific fleet.

The planes are expected to join about nine other planes that are now flying in the Nevada market district, operating as part of the Pacific fleet.

"The planes have been delivered and are ready for operational testing," Pentagon officials said today. "They will be operational by the end of the year in the Nevada market district, operating as part of the Pacific fleet.

Win or lose, Peach Bowl likely for Iowa

By Neel Lewis
The Daily Iowan

Iowa's 10-6 season is over. Now, it's time to look ahead to the future.

The Hawkeyes will open NCAA tournament play this weekend. The No. 9 seed will face an unimposing No. 16 seed, Robert Morris, in a first-round game. The winner will then face No. 4 seed Michigan State in the Sweet 16.

The Hawkeyes, led by forward Megan Gustafson and guard Mckenna Warnock, finished the season with a 28-6 record and a No. 9 ranking in the Associated Press Top 25 poll.

"We're excited to have this opportunity," Warnock said. "We've been working hard all season to get to this point."
Sportsbriefs

Hershiser wins NL Cy Young

NEW YORK (AP) — Orel Hershiser, baseball's most dominant pitcher over the season's first two months, won the National League Cy Young Award on Thursday, adding another honor to one of the most surprising years in regular season and post-season baseball.

Hershiser, who was the Dodgers' starting pitcher in the 1988 World Series, said the award is one of the most surprising because he didn't think he would have a good year going into the season.

He won 16 games for the Dodgers, who finished 88-74 and won the National League West.

NCAA suspends Arizona State track team

TEMPE, Ariz. (AP) — Arizona State's track and field program was placed on probation for one year and assessed a $10,000 fine for failing to abide by NCAA rules.

The school was cited by the NCAA for failing to conduct drug tests quarterly as required by the rules.

Arizona State was put on a two-year probation by the Pac-10 Conference on Tuesday after the school's coach was found guilty of recruiting violations and giving false information to the NCAA.

Southern California, Arizona State, California and UCLA were cited by the NCAA for similar violations.

Football

Hawkeyes close in on national title

AUSTIN, Texas (AP) — The University of Texas football team is getting closer to national title possibilities after the team's 27-21 victory over Oklahoma State on Saturday.

The Longhorns are now 8-3 on the season after winning their second straight game.

The Longhorns, who are ranked No. 1 in the Associated Press poll, improved to 7-2 in conference play and are one win away from a share of the Big 12 Conference title.

Volleyball

Spartans, Wolverines next for Iowa

By Steve Reitnau

The Big Ten volleyball tournament begins Friday, and the Iowa women's volleyball team has its sights set on the championship.

The Hawkeyes have one home court advantage, and one in which they play their best.

After sweeping Michigan State 3-0, the Hawkeyes beat Michigan 3-2 and 3-1 in their last two matches.

"Michigan is a very, very strong team," Reitnau said. "They have a lot of quality players, and they are very strong in both attack and defense."

The Hawkeyes, who are ranked No. 11 in the country, are looking to make a deep run in the Big Ten tournament.

Women's Swimming

Big Ten championship meet this year

As the swim season comes to a close, the Big Ten conference is gearing up for the Big Ten championship meet.

The meet, which is held in Columbus, Ohio this year, will feature 11 men's teams and 11 women's teams.

According to Reitnau, the Big Ten is the toughest league in the country and is known for its strong swimming programs.

"This year's meet is going to be a real challenge, and we are ready for it," Reitnau said.

The meet will be held from Oct. 26-28.
On the Line

There's not much time left in the Big Ten season, or the football.

The races are winding down, and we seem to be, surprisingly right.

Staff writer Mike "Magic" Talks talks to the Iowa men's swim team after winning the meet versus Nebraska, 110-91.

We're going to back thefaf for exciting pinch this week. We've had information types before, and this week is no exception. "Walt" won't be the only one who pays up.

As usual, the meet was fast. The times were fast. We could see all the teams.

We thought we could get David Lentzmann to pick this week. His prediction and be right. But Dave wrapped us up, saying that he makes his own prediction when his in the office.

This week's prediction is hard. We've heard some things. But we don't know where they are.

One other regular, Assistant Coach Ed McKeegan, was on the road this week.

"We're trying to stay healthy," McKeegan said. "But we're also trying to win." And they are the ones they are. They just keep doing what they do.

McKeegan is a graduate of Harvard University, and he and his Sonar sports shop. With a moment's notice, he's found all of his work.

A lot of work. We're not sure what to do.

Wisconsin is led by Rod Kirschman, a Senior from Montana, who is a team

up meet last year.

Minnesota also has a faster medley team. That's what McKeegan said.

"It's a matter of key people doing what they can do."

Patton said.

"We've gone back to the well for our dual meets, and, according to coach Rich Draper, the team is good health, with only few losses.

"Weiland still can't expect to challenge anyone," McKeegan said.

"Last year at the Big Ten meet, we finished second with a total of 55."

"We finished second with a total of 55."

Hawks will run at districts with hopes of national berth

By Eric Weiser
The Daily Iowan
Friday, November 11, 1989

With hopes of earning a place in the NCAA meet, the Iowa women’s cross country team will run in the District IV meet in West Lafayette, Ind., Saturday.

The annual Black and Gold cross country meet, which is in its 19th year and was the only Iowa runner to make it to the nationals. The team was third at districts and junior James Kreudenschlag took 15th. The last time the whole team qualified for the nationals was in 1986.

According to Hassard, the competition should be very tough this year and was the only Iowa runner to make it to the nationals. The team was third at districts and junior James Kreudenschlag took 15th. The last time the whole team qualified for the nationals was in 1986.

Iowa State, who finished third at the Big Ten meet on their home course on Oct. 23, and Penn State and the University of Maryland, which qualified with their women’s and men’s teams, respectively. "It would be asking a lot to run nationally all seasons," Hassard said. "Both teams and individuals will enter, but I think we have the best chance of sending more teams this year than we have since 1984.

The Hawkeyes have competed on the district IV course before, which should help them in the race, said Hassard. "This course is the last race for every individual," Hassard said. "We're trying to get out of the third-place team will get a strong consideration for one of the at-large berths." Hassard thinks the meet will have a lot to run about the team.

With mental discipline and more team spirit, the team will be the last race for Haasard. "I'm excited about the third-place team will get a strong consideration for one of the at-large berths," Hassard thinks the meet will have a lot to run about the team. With mental discipline and more team spirit, the team will be the last race for Haasard. Egos only: 'Rattle and ho-Hum'

Emily M. De Paolo

The Daily Iowan

Friday, November 11, 1988

T he Vietnamese war — Charles Manson — the Beatles. You've heard about it. It's the first ridiculous pretension
statement, and of heavy. The current 'Rattle and Hum', the U2 film, finally cuts through the noise. No longer
is there mystery or myth. This is the world of rock and roll today. It is the group's first major effort after its
successful tour of Europe that included concerts at the White House and the Leningrad Arena. The
Rattle and Hum video was shot on location in Memphis and Graceland, where Elvis Presley lived and
worked. The film documents the group's performance at the Rainbow Theatre in London, as well as
performances at the Hollywood Bowl and Madison Square Garden. It also includes footage of the
band's private life and interviews with the members. The film is shot through the eyes of Bono, the
frontman of the band. The DVD is available at
Good thru Jan. 31, 1989.}

Sly social criticism spics up 'Cabaret'

By Steve T. Donoghue

"I also treat goldfish

"It's so one-superled by the punch

"That's not the issue here...

"The Daily Iowan" The Universal Cabaret is an amazing show that is filled with songs and dances that feature the energy and style of seven strong performers who took the stage and outright amazed all of the attendees with their impressive talents and abilities.

The show is split into several acts, each focusing on a different aspect of life. From the opening number, "Give Me Life," to the final number, "I Don't Know Why I Love You," the performers showcased their incredible voices, acting skills, and dancing abilities.

The show was directed by Erin Purcell and Karen Moeller, and the set design was by Chet Graeff. The costumes were created by Trina Pilcher, and the lighting was designed by Mark W. Vibbert.

The audience was left in awe of the performers, who brought their unique personalities to the stage and created a truly unforgettable experience. From the opening number, "Give Me Life," to the final number, "I Don't Know Why I Love You," the show was a true masterpiece of modern theater.
Poet laureate’s lament annoys New Englanders

Ronald Albamonti, 39, is the Poet laureate’s winner for new ads & legal and give help in adopting a child. He has problems dealing with people and his clientele, and he said he is not the one to do business with.

The poem reads, in part:

"Poet laureate’s winner
for new ads & legal and give help in adopting a child. He has problems dealing with people and his clientele, and he said he is not the one to do business with."

Iowa vs. Ohio State

Michigan is Rose Bowl favorite

This weekend's games may determine the Big Ten's Rose Bowl representative, but there are a myriad of possibilities.

League leader Michigan, 5-0-1 in the conference, 6-2-1 overall, will host second-place Illinois, 4-1-1, 5-3-1. If the Wolverines win, they will go to the Rose Bowl, even if they lose their season-ender at Ohio State next weekend. A victory over Illinois would make the Wolverines 6-0-1, and even if they lost to the Buckeyes, they would still go to the Rose Bowl because they have the best record in head-to-head competition with other possible contenders.

Illinois can go to the Rose Bowl by beating Michigan and Northwestern next weekend, regardless of what Michigan does at Ohio State. If they ended the season tied with Michigan, the Illini would get the bid because the Wolverines have appeared in a Rose Bowl more recently.

Michigan State, 4-1-1 and 4-4-1 overall, could get the berth by beating Indiana on the road this week and Wisconsin next weekend, provided Michigan loses to Illinois and Ohio State.

The Spartans would then be 6-1-1, and either alone atop the league or tied for first with Illinois. In the case of a tie, the Spartans would go because they beat Illinois.

Indiana, 4-2 and 6-2-1, has a longshot chance at the Pasadena trip. The Hoosiers must defeat Michigan State and Purdue next weekend, and Illinois must beat Michigan but lose to Northwestern. Michigan then must lose to Ohio State. The Hoosiers are not eliminated, but it's unlikely they will go to the Rose Bowl.

In other Big Ten games, Iowa hosts Ohio State this weekend and travels to Minnesota next weekend. Wisconsin plays Minnesota this weekend and visits Michigan State next weekend, and Northwestern hosts Purdue and ends the season at Illinois.

Iowa has slight edge over Buckeyes

Ohio State has won 19 of its last 21 games with Iowa. Iowa hasn't beaten the Buckeyes twice in a row since 1959-60.

Iowa Coach Hayden Fry is 2-7 lifetime against Ohio State.

Despite these facts, we at Pregame think the Hawkeyes will follow last year's 29-27 win with a victory Saturday. Iowa has played well the past three games, especially offensively, and Ohio State is not as powerful as in the past.

But it won't be easy for the Hawkeyes. We think the final will be 24-20.

The Buckeyes have had a lot of trouble with turnovers this season and are minus 12 on the year, last in the Big Ten in scoring and are minus 12 on the year, last in the league in total offense. The Buckeyes have been averaging 194 yards per game, eighth in the league in scoring.

One matchup on the field which could determine how well the Buckeyes move the ball is between Iowa noseguard Dave Haight and Buckeye center Jeff Uhlenhake, both of whom are potential All-Americans. If Uhlenhake can control Haight, the Buckeyes will probably try to open up their running game, which is eighth in the Big Ten at 135 yards per outing.

But Iowa's front seven, led by Haight, end Joe Mott and linebackers Brad Quast and Jim Reilly, have been solid, so the Buckeyes may try to pass the game and move the ball consistently.

Sophomore quarterback Greg Frey has thrown for 1,594 yards and six touchdowns this season and has four games with more than 200 yards. He's fourth in the league in total offense.

Despite many injuries to the defensive backs, Iowa is third in the Big Ten in passing defense, allowing an average of 163 yards per game. The Buckeyes, who average 19 points per game, probably will not be able to put together long, time-consuming drives and instead will try to keep Iowa off-balance by mixing runs and passes.

Iowa, on the other hand, will probably go into the game planning to do most of the work on the ground. Ohio State is eighth in the league in rushing defense, allowing 194 yards per game.

Tony Stewart has 563 yards this season, the best total ever by an Iowa sophomore. If the Hawkeyes begin the game as they usually do, with a ground-oriented attack, Stewart will pass the 1,000-yard mark on the opening drive.

Despite Stewart's efforts, Iowa is still ninth in the Big Ten in rushing yards per game. But injured fullback David Hudson may return this week, and sophomore Nick Bell has come on strongly the last two games.

The Iowa passing game is sound. Ohio State is near the middle of the league in pass defense, but if recent games are an indicator, the Hawkeyes will be able to go to the pass when they need important yardage. However, if it is cold and rainy as predicted, both teams may try to grind it out on the ground.

Ohio State's Carlos Snow is second in the country in kickoff returns, which could give the Buckeyes a field-position edge, especially considering the problems Iowa punter Mark Adams has experienced this season.

Ohio State also has Pat O'More, who leads the league in field-goal percentage at 16 of 21. But we think Iowa's offensive and defensive advantages will negate whatever edge the Buckeyes may have on special teams.
Illinois, 4-2 and 6-2-1, has a shot chance at the Pasadena trip. The Hoosiers must defeat Michigan State and Purdue next weekend, and Illinois must beat Michigan but lose to Northwestern. Michigan then must lose to Ohio State. The Hoosiers are not eliminated, but it's unlikely they will go to the Rose Bowl.

In other Big Ten games, Iowa hosts Ohio State this weekend and travels to Minnesota next weekend. Wisconsin plays Minnesota this weekend and visits Michigan State next weekend, and Northwestern hosts Purdue and plays the season at Illinois.

With a ground-oriented attack, Ewer will pass the 1,000-yard mark on the opening drive. Despite Stewart's efforts, Iowa is still ninth in the Big Ten in rushing yards per game. But just as fullback David Hudson returns this week, and sophomore Nick Bell has come on strongly the last two games. The Iowa passing game is sound. Iowa State is near the middle of the league in pass defense, but if one game is an indicator, the Buckeyes will be able to go to the air when they need important yards. However, if it is cold and rainy as predicted, both teams may try to grind it out on the ground.

Ohio State's Carlos Snow is second in the country in kickoff returns, which could give the Buckeyes a field-position edge, especially considering the problems Iowa punter Mark Adams has experienced this season.

Ohio State also has Pat O'Malley, who leads the league in punt return average at 16 of 21. It we think Iowa's offensive and defensive advantages will negate whatever edge the Buckeyes may have on special teams.

Hartlieb satisfied with Iowa career

By Matthew Zlatnik
The Daily Iowan

At the beginning of the season, he was mentioned as a Heisman Trophy candidate, quarterbacking the team some considered the best in the country.

With two games left in the season, the Iowa Hawkeyes are 5-3-2 and "Heisman" and "Chuck Hartlieb" are rarely heard in the same sentence.

Though the season didn't develop as well as he or the team had hoped, Hartlieb is happy with his football career at Iowa.

"Looking back, I really think the decision to become a Hawkeye was the best decision of my life," the fifth-year senior said. "I really feel fortunate to be a part of Coach (Hayden) Fry's program these last five years."

"I haven't grown any more than in those five years, and Coach Fry and his program have been just top teachers."

Hartlieb, of Woodstock, Ill., came to Iowa after receiving USA Today All-America honorable mention and all-state honors. His first two years at Iowa he played in only five games and didn't throw any passes. The time on the third team was frustrating.

"I was a successful high school player," Hartlieb said. "I expected a lot out of myself and I was unrealistic with what I expected. It was difficult adjusting that first year because things weren't happening for me as well as I thought they should."

But by waiting for his turn, Hartlieb learned something which he said will serve him after his football career ends.

"I've learned a tremendous amount of patience," he said, "and that's not something I came into this with. I've learned a lot of other things, but you have to be patient and sit back and not get frustrated. I'm much more laid back now."

After those first two seasons, Hartlieb was hampered by an injured finger and threw only eight passes in 1986. At the beginning of the 1987 campaign, Hartlieb was part of a three-way quarterback duel with Tom Poholsky and since-transferred Dan McGwire.

Hartlieb nailed down the starting berth halfway through the season and led the Hawkeyes to wins in seven of their last eight games, throwing for more than 300 yards five times. He threw 19 touchdown passes, including an NCAA record-tying four in one quarter against Northwestern, and finished the season third in the nation in passing efficiency.

For the 1988 season, Hartlieb was named one of Iowa's five captains, and was mentioned by several preseason publications as a potential Heisman winner. When the season began, the Hawkeyes were highly ranked in most preseason polls, including No. 1 by Sport magazine.

But this year he hasn't put up the big numbers he did last year. Through 10 games Hartlieb has 11 touchdowns and his passing rating of 136.8, while respectable, is far below last year's 158.6 mark.

However, he secured the Iowa record books during the Hawkeyes' game with Indiana, completing 44 of 60 passes for 558 yards. All three figures are school records, and the 44 completions were one short of the NCAA record. He will probably finish the season second to Chuck Long on the school's total offense chart.

But Hartlieb wasn't trying for fancy statistics.

"I set the Rose Bowl as the goal," he said, "and it doesn't look like we're going to make it there."

"That's the one thing I set out to do, and as a team that's the one thing we set out to do. That was my personal goal."

Fry praised Hartlieb's competitiveness, describing how the quarterback refused to come out of the lineup after Iowa's lead in last week's Northwestern game was secure.

"I asked him two series before," Fry said, "and he said, 'Coach, just let me play one more series.'"

On that last series, Hartlieb threw a 3-yard touchdown pass to tight end Marv Cook.

"See, he's got his goals," Fry said. "He's a great, great competitor."
In 1985 we were just another small company in Iowa, full of ideas, talent and enthusiasm. We were eager to compete and willing to meet the challenges we knew lie ahead. Our goal — to become a leader in our field. Since then, we've grown to become a major force, not just in our industry, but in our state as well. In this short time our team has grown from a few dozen players to well over a thousand. With the addition of five hundred new telemarketers in Iowa City, we now number over two thousand.

We've made substantial investments in our beautiful buildings and in our state-of-the-art telecommunications equipment. Our phenomenal success, though, is a credit to the great people on our team. And as our growing success touches more and more Iowans, we know we'll continue to attract the best people around.

We're Pioneer TeleTechnologies. We're in the Big Leagues now!

Bell finds time in Hawkeye backfield

By Brent Woods
The Daily Iowan

Nick Bell is a quiet man. He's soft-spoken, modest, shy and runs over linebackers whenever they get in his way.

He's from Las Vegas. He seems like he's from just about anywhere else in Nevada.

"I don't go too much for the glitter," he says.

At 6-foot-3, 250 pounds, Bell's little-known nickname, bestowed on him by a high school basketball coach, is, of all things, "Tinker."

His combination of size and speed, as well as unfortunate injuries to senior starting fullback David Hudson, have given Bell a chance to crack into Coach Hayden Fry's lineup as a sophomore.

He got his first real game experience Sept. 17 against Colorado, and it was exactly that. An experience he won't soon forget.

Iowa was driving on the Buffaloes late in the fourth quarter. The Hawkeyes were inside Colorado's 10-yard line with a 21-17 lead, poised to put the game out of reach.

Iowa then botched a routine hand-off. The ball lay on the ground in front of Bell, and instead of falling on it he tried to pick it up and run.

He didn't, and Colorado did. The Buffaloes recovered and drove the length of the field for the win in the final minutes.

"I had to just accept it," Bell said of the play. "You're going to make mistakes all the time. It's just a matter of accepting it, then putting it away — putting it in the closet. If you let it bother you, you're not going to be able to play."

As Hudson remained sidelined because of injuries, Bell has played more and more.

The first time he saw significant playing time, in the game at Indiana, he shocked Iowa fans and surprised quarterback Chuck Hartlieb by catching a school-record 13 passes in the Hawkeyes' losing effort.

Then came the attention.

"I'm kind of scared, actually. I'm not used to dealing with this type of situation," he said after Iowa's win over Northwestern last Saturday, surrounded by television cameras and tape recorders.

According to Bell, the adjustments to college life and the Iowa offense have been difficult, but things are getting easier in both areas.

He was forced to sit out his freshman season because of Proposition 48. Bell's academic woes revolved around a learning disability, which he said he has been able to improve through tutoring and special classes at Iowa.

Bell was recruited by Purdue, Arizona and Washington, to name a few.

"That's one of the reasons I came here, the academic situation," he said. "It's not dyslexia (his learning disability), but it's something like that.

"But I don't have to prove to anybody that I'm smart, because I know I am. I think for awhile I went around trying to do that, prove to people what I'm capable of."

After Bell's effort at Indiana, Fry said he was aware all along of Bell's potential on the football field.

"It was just a matter of him getting some experience," Fry said.

Bell is just hoping the experience will boost him into a starting role next year.

"You're always making adjustments," he said, "always looking for things you can improve on."

Iowa junior linebacker Brad Quast returns an interception during the second half of Iowa's game against Indiana Oct. 29 in Bloomington, Ind.

Ten in tackles. He said many people only see college football as the excitement of Saturday's game without seeing the work and time that goes into the finished product.

"It's so time consuming," he said. "I really don't think people realize how time consuming it is. It takes up all of your time during the fall.

By Neil Lewis
The Daily Iowan

If you take into account practices, film sessions, games on Saturdays and the chance of an injury, major college football makes sizeable demands on the student-athlete.

Even with those strains on his time, Brad Quast said he knows many people would gladly trade places with him.

"It really is hard to do all the things I like to do," the junior Iowa linebacker said, "but I'm enjoying playing football right now. I'm thankful that I'm here and able to play at this level and just make the best of it."

"You go to class in the morning, you've got to come over to practice every day, you have film studies and you meet with your coaches all the time."

Through the Iowa defense was suspect early in the season, it has come together during the Big Ten season.

"I think, as a team, defensively we started off very slow. And I think I started off slow in the beginning three games. I seemed to pick up motion and intensity as the season went along and so did the overall defense."

Against Ohio State this weekend, Quast will likely have his eye on the Buckeyes' backfield, namely running back Carlos Snow and quarterback Greg Frye.

"Carlos Snow is one of the most dangerous players in college football," Iowa Coach Hayden Fry said, "and they've always had the huge linemen."
