**Regina schoolteacher resigns following censure over editorial**

By Joe Dineen

**The Daily Iowan**

Regina schoolteacher Paige Brownley has decided to accept a resolution of censure passed by the Regina Board of Education. The resolution, which was adopted in a 4-0 vote, came in response to a letter written by Brownley that was published in the local newspaper.

Brownley, a 25-year-old teacher, was accused of violating district policy by writing a letter that contained critical comments about the school's leadership and curriculum. The letter was published in the local newspaper on March 5.

In a statement released today, Brownley said that she had made a mistake and that she was sorry for any offense caused. She expressed her desire to continue teaching at Regina High School.

The resolution stated that Brownley had "failed to maintain the highest standards of professional conduct and character." It called for Brownley to "cease and desist" from any further comments that might be considered inappropriate or detrimental to the school's reputation.

Brownley is the only teacher at Regina High School to face censure. The school board previously considered censuring another teacher, but opted not to do so.

"I am the only one person who faces this type of situation," Brownley said. "I understand why they feel this way, but I don't think it's fair."

According to the resolution, Brownley must now seek counseling and participate in a professional development program. She also must agree to limit her public comments to those required by her job.

Brownley said she will abide by the resolution and work to improve her relationship with the school community. She said she will also seek counseling to address any underlying issues."I made a mistake and I'm taking responsibility for it," Brownley said. "I will do everything I can to make things right and move forward."

**Iowa GOP cautions against extremists**

Right-wingers may follow Duke

Iowa's Republican Party on Monday night said it was concerned about the possibility that some of the party's supporters might be drawn to radical groups. The party announced that it would be taking steps to ensure that its members were adequately trained to handle situations that could arise.

"We have reason to believe others may try to exploit certain elements of our party," said Iowa GOP Chairman Rich Determan in a statement. "We do not want to see any Iowa Republicans acting on behalf of extremist groups, but we must be prepared to meet any such challenge with the appropriate resources and leadership." Determan said the party would be making arrangements to ensure that its members were properly trained to handle such situations.

"The IowaGOP believes in freedom of speech and assembly," he continued. "We do not support any extremist groups. We do support the rights of all Americans to free and open debate. But we cannot stand idly by as radicals try to exploit our party's name." Determan said the party would be working to ensure that its members were properly trained to handle any future challenges.

"We will not let this happen," he said.

**Broken main slows water supply**

The Iowa City Daily

A water main break on Monday night will cause water restrictions in the east part of the city, according to reports.

"We received reports of a break on Monday night," said Iowa City Manager Atkins. "We have shut down the water main and are working to repair it as quickly as possible. This will cause water restrictions in the east part of the city." Atkins said the city would be working to restore water pressure as soon as possible.

**Flag flap**

Residents, unhappy with a controversial exhibit which includes a flag on the floor where it can be walked on, demonstrate outside a store that sits at the entrance to the heart of downtown.

"This is unacceptable," said resident Mrs. Johnson. "We have a right to be proud of our history, but this is not the way to show it." Johnson said the city had been warned about the exhibit before.

---

**City implements recycling plan**

By Paige Harris

The Iowa Daily

The Iowa City Department of Public Works announced Monday that it would be implementing a new recycling plan for the city.

"This is a big step forward," said City Manager Atkins. "We have been working on this for some time, and we are happy to finally announce it." Atkins said the new plan would involve requiring all residents to recycle their garbage, and that the city would be providing recycling bins to all households.

**Area Briefs**

A woman involved in a minor accident that occurred Monday night has been arrested.

"This is a domestic dispute," said Dubuque Police Chief Duke. "We received reports of a fight that escalated into a physical altercation. We were able to make an arrest." Duke said the woman, who was not named, was charged with assault and disorderly conduct.

---

**Police**

A woman was reportedly involved in a minor accident on Monday night.

"We received reports of a woman who was involved in a minor accident," said Dubuque Police Chief Duke. "We were able to make contact with her, and she was unharmed. She was cooperative and provided all the information we needed to proceed." Duke said the accident occurred in the area of 10th Street and Main Avenue, and that the woman was not injured.

---

**Corrections**

The Iowa City Daily, in an article published on Monday, incorrectly stated that the Iowa City Public Library would be closing at 5 p.m. on Saturday. The library will continue to be open until 7 p.m. on Saturday.

---

**Today**

The Iowa City Daily

Iowa State Department of Transportation will be holding a meeting on Monday, June 12, at 7 p.m. at the Iowa State Capitol in Des Moines.

**Women top state appointee choices**

Iowa's Republican Party announced Monday that it would be appointing women to top state positions.

"We feel strongly that women should be represented in all areas of government," said Iowa GOP Chairman Rich Determan. "We are pleased to announce that we will be appointing women to top state positions." Determan said the party would be appointing women to the positions of Attorney General and Secretary of State.

Branstad voices support of open enrollment

TEDM (AP) — Gov. Terry Branstad, declaring 'change is inevitable' and acknowledging 'public sentiment' favoring the idea, said Tuesday he is supporting the House bill to expand open enrollment for students in public schools throughout Iowa.

The proposal, approved by the House education committee last week, would lift the barriers of school district boundaries and allow students to attend any public school, regardless of whether they live within the district's boundaries.

'I support the idea of the additional choices, and I believe it's time we start seeing it progress through the legislature,' he said.

'We need to be a country in a world. We need our kids to be just as competitive and as well as the ones growing up in Korea, Japan and other parts of the world,' Branstad said.

Branstad encouraged the concept of open enrollment, but his statement Wednesday will approve the final bill and send it to the Legislature.

The move by Branstad could help the measure advance to the Senate. It was not immediately clear whether.ceil.

Assault rifle device reviewed by House

TEDM (AP) — A House committee Monday turned its attention to a bill to ban the sale of a device that attaches a semi-automatic rifle to a semi-automatic shotgun and allows the weapon to fire shots as fast as a fully automatic firearm.

The hearing comes in the wake of a recent shooting in a park near Orlando, Fla., that left 19 people dead and 73 wounded, including several children.

Rep. Matt Ritter, D-Stamford, the chairman of the Judiciary Committee, said the hearing was called to determine whether the device is a 'true' semi-automatic shotgun or a 'true' rifle.

Ritter said the hearing was also called to determine whether the device is a 'true' semi-automatic shotgun or a 'true' rifle.

Ritter said the hearing was also called to determine whether the device is a 'true' semi-automatic shotgun or a 'true' rifle.

Science education

A group composed of representatives from the nation's best science and mathematics universities recently completed a four-year study of the state of science and mathematics education in the United States. The panel recommended radical changes in the system of scientific research and study in the public schools.

If implemented, the new curriculum would emphasize leading science and mathematics through a series of junior high schools, beginning with pre-high school training. Truax would be explained exhaustively from a variety of angles, including its relevance among complex subjects, such as history, music and literature.

For continued training in the subject of science and mathematics, the report recommended a two-year program of study in the public schools.

Debates

A debate continued about the role of government in education.

Eastern virtually shuts down as pilots join ranks of strikers

By The Associated Press

Strike-affected Eastern Airlines pilot crews are expected to virtually cease flying Monday as the pilots prepare to strike for the second time in five months.

A company spokesman said Monday that the pilots are expected to cancel all flights from Eastern Airline's five major hubs Monday in sympathy with a strike launched by commuter airline Covair about 7:45 a.m. Monday.

The Connolly Airline, of course, would be the last resort before pilots from all over the country, and the strike would be a sympathy strike.

Eastern pilots have banned a strike by 1,500 members of their union as many service workers who began a 117-hour labor dispute. The strike has affected thousands of passengers and prices the nation's seventh-largest airline.

The executive order, signed by the vice president, has allowed the airline to pay them their wages for the work performed before the strike.

"That's how our managers see it," said a company spokesman. "Almost everyone on the line can see that.

The new labor contract signed by the parties Tuesday is expected to be unveiled Monday.

"We cannot run an airline without productivity," said Worthington, who is president of the American Airlines Association, which represents the nation's largest airlines.

The union representative, a vice president for the American Airlines Association, said it was "extremely difficult" to run an airline without productivity.

The pilots, who have been flying for 14 years, are expected to strike if the airline does not return to work.

Eastern Airlines employee Phil Baker takes his turn as a pilot to help shut down the airline's three-round trip between Miami, New York, and Boston Monday.

"We'll be flying by 1,500,000 passengers today," said Baker, who is a pilot for Eastern Airlines. "We're hoping we can fly some flights today.

The strike, which has been curtailed throughout the country, took off Monday.

The strike, which was announced its shut down of the airline's three-round trip between Miami, New York, and Boston Monday.

"We'll strike as long as it takes," said Baker, who is a pilot for Eastern Airlines. "We're hoping we can fly some flights today.

With Spy and Orange Crush in hand... 

'Commercial' R.E.M. remains true to 'high-school gym fans'

By Brian James
The Daily Iowan

Thanks to a curious mixture of rock and three essential ingredients -- wit, perspective and courtship -- Michael Stipe's little discolored, new age indie band has been the central attraction of the year's first two Billboard tours. But on this tour R.E.M., as they're called, are really the high-school gym fans who sang their way through the '70s and '80s, a generation that now lives in fear of being left behind.

Stipe, who once did the sound for The Ramones and has covered Brad Pitt in a television commercial for Adult Swim, has a band with a sound that's the perfect mix of punk and prog. Their music is a combination of the kind of music that made the Ramones and The Smiths popular, and the kind of music that made the Cure and The Cure popular, and the kind of music that made the Cure popular.

The band's frontman, Stipe, has a voice that's a cross between the falsetto of Talking Heads and the crooning of Michael Jackson. His lyrics are a mix of poetry and prose, and his delivery can range from quixotic to punk.

The band's music is a mix of the kind of music that made the Cure popular, and the kind of music that made the Cure popular, and the kind of music that made the Cure popular.

Western hits 'Breakthrough' U.S.R

MOSCOW (AP) — Hundreds of millions of people from around the world will be tuned into a government-owned television network in the Soviet Union on Sunday, when the national television network will broadcast the music and film of Western artists. The two-hour program, which is expected to attract more than 100 million viewers, is part of a series of events that have been planned by the Soviet government to commemorate the Soviet Union's 70th anniversary.

The program, which will be broadcast on the state-run Central Television network, is expected to feature a variety of Western artists, including rock groups such as The Beatles, The Rolling Stones, and The Who. The program will also include a special segment on the history of Western music in the Soviet Union, including interviews with musicians and experts who have studied the country's cultural history.

The Soviet government has been working on the program for several months, and it has received approval from the United States. The program is expected to be broadcast in English, with subtitles in Russian.

The program is part of a larger cultural exchange that has been taking place between the United States and the Soviet Union, which has been ongoing since the end of the Cold War. The two countries have been working to improve their relations, and the program is seen as a symbol of this effort.

The program is expected to be broadcast on Sunday, and it is expected to last for two hours. The program will be broadcast on the state-run Central Television network, which is available in all parts of the Soviet Union.

Armstrong won’t start against Illini

By Michael Tid
The Daily Iowan

With the addition of the NCAA basketball tournament field into the debate, Iowa basketball Coach Tom Davis said it will be harder for anyone else to challenge the Hawkeyes.

Davis Hawkins are on a streak he wants to keep in the Big Ten this weekend. The Hawkeyes have won their last five games, tying for the Big Ten lead with the University of Minnesota.

"If you’re in this league, you should strive to be the best. And if you’re not the best, you should strive to be as good as you can be," Davis said.

In the last five games, the Hawkeyes have averaged 87.6 points per game, compared to their season average of 75.3. They also have averaged 45 rebounds per game in the last five games, compared to their season average of 36.2.

"We’ve had some good practices, and I think we’ve been able to really get our focus on some of the things we need to work on," Davis said.

In the last five games, Davis has played more than 90% of the time on the court. Each game, he’s averaged 34.8 minutes, compared to his season average of 31.5 minutes.

"It’s not easy being so uptight," Davis said. "But if you want to be successful, you have to be.

In addition to the Hawkeyes, the Hawkeyes also have averaged 74.4 points per game in the last five games, compared to their season average of 68.6. They also have averaged 37.4 rebounds per game, compared to their season average of 35.4.

"We’ve been able to control the game, and that’s what we want to do," Davis said.
