Bill could enhance minority education

By Jay Canfield

A bill being drafted in the Iowa Senate would provide a $2,000-a-year financial aid package to minority students who would be involved in the state's Minority Teacher Education Program.

The bill, drafted by Sen. Ken Dingman, D-Des Moines, would provide $1,000-a-year scholarships to qualify for the program. Dingman said the bill would establish a $1,000-a-year scholarship to minority students, a safety enhancement for teachers and financial aid for students entering a minority-majority minor.

President Bob Singletary also said the bill would provide $1,000-a-year scholarships to minority students, a safety enhancement for teachers and financial aid for students entering a minority-majority minor.

Supervisors approve '90 budget, pay raise
By Lisa Dougla
The Daily town

The Iowa County Supervisors' proposed 1990 budget, presented Monday night for the County Board of Supervisors, called for an increase in the budget of $45,000 over the current year.

The increase, which represented a 0.5 percent increase in the tax rate, will bring the rate to 8.70 for every $100 of assessed property.

Reportedly, the county has one of the lowest tax rates in the state.

The 1990 budget, which was presented to the board by County Auditor Tom Hulink and the supervisors' finance committee, was the result of a major study of the county government's financial situation.

The report indicates that the fiscal year ending June 30 was a good year for the county. The budget proposed Monday night included an increase in the reserve fund of $25,000 from the current year.

It was noted, however, that the county has not had a surplus of spending in the recent past.

"We have to be careful with the reserve fund," Hulink said. "We have had a surplus in the past, but it's been a while." He added that the county has not been in a surplus situation for several years.

The budget also includes a provision for a capital improvement fund, which will be used to finance the construction of a new county administration building.

"We have been in the process of looking for a new building," Hulink said. "We have been working with the county commission and the county board on this issue." He added that the new building will be used to house the county's administrative offices.

Branstad expresses concern over minimum wage measure

Des Moines (AP) — Gov. Terry Branstad said Monday that he would not sign a bill that would force state residents to pay a minimum wage of $6.50 per hour, but moved to avoid a confrontation on the issue.

The bipartisan proposal, which passed the Iowa Senate in November, would have been the first significant increase in the state minimum wage since 2007. It would have allowed wages to increase by about 5 percent per year, but Branstad said he was concerned about the impact on businesses.

"We're concerned about the impact that would have on small businesses," he said. "We want to make sure that we're not putting our economy at risk.

Branstad said he would not sign the bill, but said he was willing to work with lawmakers to find a compromise.

"I'm willing to work with the Legislature to find a solution that works for everyone," he said. "I want to make sure that we're not putting our economy at risk."

The minimum-wage measure awaiting final legislative action is part of a larger bill that would make changes to a series of state laws, including those on labor and business regulations.

Protesters slam proposal for gay rights

Des Moines (AP) — Carrying signs reading "Love is Love" and "LGBTQ Rights are Human Rights" from Human Rights Campaign, a small group of protesters marched Monday to the Capitol, where lawmakers are working on a bill that would expand civil rights to include protection for gay, lesbian, bisexual and transgender people.

The protesters said they were against a proposal to allow gay couples to marry, which has been introduced in the House by two lawmakers from the chamber.

"They are trying to deny gay couples the same rights as heterosexual couples," said John Hyman, a member of the group Human Rights Campaign. "We're here to say that gay couples deserve the same rights as heterosexual couples.

"We want to make sure that we're not putting our economy at risk."

A question of faith

The Iowa media took a lot of heat from the public for criticizing the offensive remarks made during the participation of three basketball players in the lottery drawing. Many Iowa school officials evidently wanted to protect the athletes, and that was certainly at least part of the reasoning. But the desire to hide the drug problem, however minor that problem may have been, had ramifications beyond that particular incident, and that fact has lasting large impact.

In response to recent testimony by former Hawkeye players Steve Hausman, Keenan Walls, and Dennis Rinner during this week's sports arts, UI President Harold Hine has announced a series of measures to combat drug abuse and other unethical practices.

Yet parts of this series of physical education classes to remain academically eligible, while taking only one class in his major field of study for six years. Mitchell finally admitted that he went to Iowa to play football, and only took courses to stay eligible. Did the word "university" mean anything to those two men, their academic advisors or Coach Hayden Fry? How about "diploma" turned out? And included in the equation?

Both sides of Rushdie

Friday night's reading and discussion of Salman Rushdie's The Satanic Verses served as a useful summary of the issues in the controversy going on at one of the many universities. About one-third of the world's population is Muslims. Yet Americans have a difficult time understanding this, or even a few of the most basic dogma, the Koran. The US, for example, is often portrayed by the vast majority of Muslims as a nation that disregards all other, or perhaps no, religions for a few. Despite their ignorance, however, Americans continue their belief in a set of laws, a culture that promotes democracy to the utmost.

This is eloquently not the Khurani, who do not speak at all. Muslims, and is considered an extremely strong form of Islam. Thistle is denounced by those from the Ayatollah, but rather from Islamic law, which calls for the death sentence to punish blasphemy. The book of Leviticus, in the Bible, takes a similar stand.

The content of the Satanic Verses, however, cannot be too offensive to the characters and principles of the Israelites. It should not be. While the readings on Friday displayed an aggressive approach to the author's point of view, the policy supports a number of current environments in which a book can be read in a comparative context. The written violence at Rienow, however, is in every sense of the word. It was glorified and empowered to invoke the penalties for those who have committed that offense. The men who are empowered to invoke those penalties are capable of instilling fear. The men who will get away with it.

Action, not outrage wanted by UI officials

Regardless of whether a university can improve its image to attract students, where all those who come feel welcome, there is serious investigation would be to vigorously promote a "honest, open forum. One rule where he is considered an extremist by some Iranians.

Leviticus, Despite a number of physical education classes, the written violence at Rienow, however, is in every sense of the word. It was glorified and empowered to invoke the penalties for those who have committed that offense. The men who will get away with it.

Letters

Not a general indictment

To the Editor:

In response to the article that appeared in the Iowa Daily Times ("Iowa officials announced by May," April 3), we were saddened by the article's tone and the way it affected the residents of the specific floor in the building on which this occurred. As persons who participate in writing the list at the bathroom wall.

The author was married last fall. He does not represent an action by the entire floor.

Denouncement of "Top Ten" list

As members of the Iowa Daily Times we proudly denounce the actions of the main reporters in Iowa. The "Top Ten Things We Hate About the Bishop" list entitled "Top Ten Things We 'Hate About the Bishop." March 3, are guilty to those in the Iowa Daily Times.

One man at Friday's meeting claimed that if Rushdie were in the state, he would kill him. This is a false distinction not only to other, but also in Iowa, a city that has done a lot of violence. They can imagine the thing of killing a man he believes

Branstad backs UI inquiry, into athletic scholarships

DES MOINES (AP) - There is no need for outside investigation of UI athletics because school officials are ensuring "quality and fairness" to ensure questions about the academic performance of athletes. Gov. Terry Branstad and Board President Ken Gertz said in a "testamentary" statement that athletics have been properly handled and all school officials are moving to solve the problems.

High-speed chase ends in ditch as theft suspect flees authorities

Four police agencies were involved in a high-speed chase Monday that led officers from Coralville to Late County in pursuit of a suspect wanted on theft charges and other offenses. The chase began near the intersection of 10th Avenue and Iowa Memorial Union, where David Lee Gilliam, 31, of Boston Way, Apt. 6, in Coralville, apparently lost control of his vehicle and drove onto a state route. The officers involved followed Gilliam, who was involved in an accident at the same area, according to a statement issued by Coralville Police Chief Harry Bellard.

The chase began at about noon when the management of the University of Iowa's Coralville police that they believed Gilliam had registered under a fictitious name and that he used the number from 1993.

Branstad's comments came in testimony in the trial of two Boston Patriots who indicated some Hawkeye athletes had academic records that remained eligible throughout their college careers. Branstad and officials at the university have assured the questions about the integrity of the program.

Branstad said officials at the university have appointed a task force, and there is no need for him to intervene. "I have a great deal of confidence in the integrity of Hunter Ralston," Branstad said.

Reporter: Reeling in the ditch

A state trooper said they observed Gilliam throwing objects that appeared to be white powder out of the car during the chase.

White powder was found in the area of the car, but had not yet been identified at the time of the report.

Gilliam was transported to Mercy Hospital in Cedar Rapids where he was treated and is being kept for a possible drug overdose, according to the report. He was reported to be in critical condition late Monday evening.

UNITA offers concessions to bring end to Angolan war

JABINDA, Angola (AP) — Angola rebel leader Jonas Savimbi said Friday he agreed to withdraw from army strongholds for four months and promised other cooperation to clear the way for peace talks brought by United Nations officials. Savimbi said he would continue to operate in areas far from the strongholds and other UN officials also denounced reports that he was planning to act for another rebellion.

Environmental Production and Agriculture officials acknowledged that the plan was a major step forward but also warned that the rebels still had to show that they would not interfere with the economy of Angola as well as its infrastructure. The rebels would not interfere with the economy of Angola as well as its infrastructure, the officials said.

FBI chases new leads in bombing

Market timing isn't everything

By Dean Jarove
Special to the Daily Iowan

When discussing the subject of investing, one thing cannot be minimized. Somebody always claims to have a monopoly on how to outperform the market by timing buys and sells. Since the early 1970s, dozens of studies have been cited to show that such market-timing advisers are beating the market. Conventional wisdom says that the market is unpredictable, so how can those people be so successful? There are primarily two theories at work: the market is so unpredictable that no one will ever be able to beat it; or, the market is predictable enough so that the institutional investors should be able to identify the trend. The first theory is much too like the present bull market, and a dangerous situation has been created on the Korean peninsula in which a war may break out any second, said Yongyeong's official Korea Central News Agency.

The market situation on the peninsula is pointing to the danger of a war, and a tense security situation between the two countries, the United States and South Korea.

President Roh Tae-woo, visiting a command post north of Seoul, said the exercise are needed to guard warnings from the North. "The tension between the North and South has become even more tense, and a dangerous situation has been created on the Korean peninsula in which a war may break out any second, said Yongyeong's official Korea Central News Agency.

When discussing the subject of investing, one thing cannot be minimized. Somebody always claims to have a monopoly on how to outperform the market by timing buys and sells. Since the early 1970s, dozens of studies have been cited to show that such market-timing advisers are beating the market. Conventional wisdom says that the market is unpredictable, so how can those people be so successful? There are primarily two theories at work: the market is so unpredictable that no one will ever be able to beat it; or, the market is predictable enough so that the institutional investors should be able to identify the trend. The first theory is much too like the present bull market, and a dangerous situation has been created on the Korean peninsula in which a war may break out any second, said Yongyeong's official Korea Central News Agency.

Carrier sends cut-rate offer to strikers

MANHATTAN - Eastern Airlines imposed a cut-rate offer package on Machinists workers Monday that gives them far less than the weekly contract proposal, making the last-minute plan for a nationwide strike.

Eastern Airlines President Donald A. Carty continued to display his resolve to fo, the improving service, last-minute offer, which is designed to meet Eastern's needs, and Eastern Airlines service and chiefly Northeast shuttle flights.

The recent news from Eastern appears to offer its price-cut strategy, which was so successful last week that the company's competitors were caught in a pattern that traditionally creates deep discounts on the nation's 

At Miami International Airport, people hung Monday to buy airline tickets, as the company reported the flights and other promotions immediately increasing sales. The company has received about 100 complaints, mostly reservations queries, who were left off the list when Eastern officers said that they have a list of 1,900 workers.

Banks to ask for $50 million in aid

WASHINGTON - The nation's top banks are expected to ask Congress for more than $50 million in additional financial aid to avoid shutting down their operations until next week, officials said.

The banks filed suit against the government last week after the government took over the operations of two major banks.

As described by officials speaking on condition of anonymity, the banks are part of a broad array of activities by the nation's largest financial institutions to obtain additional capital from investors in the government's bailout program.

The banks also have agreed to take down a rating from AAA to AA, a potentially easier measure of the banks' ability to sell capital to the government.

Radio Liberty broadcast to USSR-Jammed

WASHINGTON - Radio Liberty, the U.S. government's shortwave radio station, is bracing for a jamming attack from the Soviet government.

It's the latest in a string of attacks on Radio Liberty, a Washington-based shortwave radio station that broadcasts in several languages, including English.

The jamming attacks have become more frequent in recent years, with the Soviet government targeting Radio Liberty for its programming that criticizes the Soviet regime.

Quoted ...

God did not create Adam and Eve. He created Adam and Eve, and said, "Be fruitful and multiply." America is, in fact, the birthplace of democracy. It was not far away as Florida. It was not far away as a small town. It was not far away as a shortwave radio station. It was not far away as a jamming attack.

Doneness

WASHINGTON (AP) - Berke Breathed, the creator of the comic strip "Doonesbury," said on Monday he is done with the strip, which has been running for more than 30 years.

Breathed said he will continue to create the comic strip, but he will no longer be involved in the daily production. He said he will be transitioning to a new project, but he didn't provide any details.

McFarlane dollars blamed for concealing North's acts

WASHINGTON (AP) - Former President Ronald Reagan's actions to conceal North Korea's nuclear programs have been blamed by officials for the country's recent nuclear test.

McFarlane, who served as National Security Advisor to Reagan, said the United States was not aware of North Korea's nuclear program until after the 1994 nuclear test.

The North Korean nuclear test, which was conducted in 1994, was a major international crisis and led to sanctions against North Korea.

North's a test

WASHINGTON (AP) - North Korea's nuclear test on Sunday was a test for the country's leadership, according to officials.

The test, which was the first nuclear test conducted by North Korea, has raised concerns about the country's nuclear program and its potential to develop nuclear weapons.

Heavy hitting continued for the Hawkeyes in the Lone Star State. The No. 15 team entered the meet with five straight losses.

The Old Main baseball team faced Texas on the second round in the season opener at College Station, Texas.

The Hawkeyes hit home runs and scored four runs against 17 runners on the bases.

"We're just a couple of hits away from being in the NCAA tournament," said Coach Chad Herold, a former coach at the University of Illinois. "If we can hit the ball, we can win the game."

Big Ten honors Illini's Battle
(HEARD) — Barry Hunter and Iowa has been named Big Ten basketball Player of the Week by the Associated Press.

The senior guard, who averaged 18 points per game last week, was named AP Player of the Week for the second time this season.

NCAA to investigate Maryland basketball
Baltimore (AP) — The NCAA informed the University of Maryland it will conduct a preliminary inquiry into the men's basketball program in the wake of admitted recruiting violations by an assistant coach.

In a letter to Maryland Athletic Director Cheri Hill on Tuesday, NCAA officials said they will investigate possible violations of the NCAA's amateurism rules by former assistant coach Ron Tyler.

Utah fires basketball coach
H Salt Lake City (AP) — The University of Utah fired head basketball Coach Dick Jurnoe Monday following the demise of a disappointing 11-17 season in a year they were expected to win at least 15 games.

Jurnoe, who compiled a 202-176 record in six years at the Ute's helm, freshened his team this season and his coach, who will be named soon.

Jordyn, Bulls crunch Pacers
Indianapolis (AP) — The Indiana Pacers were in the thick of it as the Bulls' winning streak hit a mark of 11 games Monday night.

Jordyn, who had 21 points, 14 assists and 14 rebounds, gave his three-point double and 32 points his second double at the same time.

Former Hawkeyes, Cyclone signed
SAN FRANCISCO (AP) — Former Atlanta quarterback Dickie Anderson and offensive lineman John Miller, who was left without a starting job, were signed Monday to free-agent contracts by the San Diego Chargers.

Anderson played for Atlanta from 1984 through 1987, completing 56 percent of his passes for 1,400 yards and six touchdowns.

The Chargers last week released starting center Dan Harington, who was replaced by Anderson in a 26-25 victory.

Femmes bridge fans' split between F-word and wit

By Brian Jones

The word "Femmes" are a tough act to figure. On record, leader Gordon, Gary and keyboard player, known only as "Stone," display the usual Jesus-like presence that is tightly to the society norm. But live, Femmes proved second rhythmically mind-blowing as they outstripped the nearly 1,000 fans who lined up in a long assembly line. The first had evidently stuck with the Femmes for many who formerly felt somewhat left out, suffering through the roughly thousand-head medium-sized arena. The second group just stood around and enjoyed themselves more then the "Femmes" themselves. The band did the chance to do a little party dance.

But despite playing in a crowd that was equal parts female and non-gendered-appearing, the Femmes succeeded in maintaining their own identity. Notably, the band's popularity has been quickly growing, and their style has been loudly advertised. The band's recent release, "Nightmares," especially, surpassed expectations. It was an album quite apart from the album's success, and Delmore's presence in a public forum has been greatly appreciated. The band's music has been receiving critical acclaim, and their new single, "The Way That We Of," has been hitting the charts and becoming a fan favorite.

Political, religious beliefs lead to writers' repression

NEW YORK (AP) — Writers beween they're tough being around others those days, especially of the religious or political variety. It seems that writers are under siege. The 20th anniversary of the death of Nobel Prize winner, Czechoslovakia's Vlaclav Havel, has been celebrated in various ways around the world. Havel was known for his unwavering commitment to freedom of speech, democracy, and human rights. He was a strong advocate for the rights of writers and journalists, and his influence can be seen in the work of many contemporary writers.

The opening of his exhibition in New York, "The Voice of Freedom," which includes a selection of his writings and speeches, has received widespread attention. The exhibition has been on display at the New York Public Library, and has been well-received by the public and critics alike. Havel's legacy continues to inspire writers and activists around the world. The event highlights the importance of upholding the freedoms of speech and expression for all authors.
