Mubarak at the world became more difficult for UI student athletes. U.S. officials Tuesday proposed that the program of student athletes involved.

The recommendations would mandate that students make adequate progress toward a degree each semester, with tougher requirements for student athletes than their non-athlete counterparts. According to the proposal, UI student athletes would need to:

- Achieve an administrative position in a public or private sector
- Receive a full scholarship for academic achievement
- Receive a full scholarship for athletic achievement

The recommendations would also require that student athletes take a minimum of 14 credit hours each semester and complete their degrees within four years. Student athletes who do not meet these requirements would be at risk of losing their eligibility for the next academic year.

**Senate-mandated funds phased out for child care**

By Kelly David

The Daily Iowan

Four years after the UI Student Senate began planning to fund child care, the university is taking a step to end the program. The Senate's funding was cut out of their budget, meaning the program will end.

The Senate's former head, pictured above, said that the program was a "small step in the right direction" for providing child care for university students. However, the current Senate President, pictured below, said that the program was "too expensive" and that the university should not continue to fund it.

The Senate's funding was cut out of the budget in 2016, but the university continued to fund the program through the state's Department of Human Services. The Senate President, pictured above, said that the program was "not sustainable" and that the university should end its funding.
Local angle on elections in U.S.S.R.

By Tom Caven

The current U.S.S.R. election campaign is heating up with the March 18 election approximately six weeks away. The result of the election is expected to either confirm or alter the power of the reformist regime in the U.S.S.R., which is currently led by General Secretary Mikhail Gorbachev.

The election is a referendum on the policy of glasnost and perestroika, which has been in effect since 1986. This policy has led to a number of changes in the U.S.S.R., including the relaxation of censorship, the increase in the freedom of the media, and the introduction of market-based economic reforms.

The retirement of the new senators was planned in an effort to do what Rojas-Cardona called "Student Senate bonding stuff." Although the formation and governance of chairpersons for most senate committees will not be completed until the fall, the senators were invited to participate in the election of student government officers and to vote on the budget for the spring semester.

The senators also approved a resolution supporting the proposed charter amendment (H. File 13) for the purpose of establishing a Student Government Board. According to the legislation, the board would appoint student representatives to serve on the executive boards, senate committees, and other student organizations.

The board would also have the authority to fill any vacancies that occur in student government positions. The move was intended to ensure that student representatives are included in the decision-making process of the university.

Ombudsperson walks fine line between aid and bureaucracy

By Andy Bernardson

The Daily Iowan

The American Heritage Dictionary defines his job as a "Mediator between parties in disputes, who investigates claims impartially and attempts to reconcile or mediate them." Thence is your mission, ha ha ha, but even bound of the word ombudsperson, the sound of the name reads with a hint of authority that is not misleading in this instance. After all, this is an institution where the ombudsperson (or as the faculty call her, Oilly) is a busy woman, flitting from student to student, from office to office, from one year to the next. But Oilly's role is more than just a mediating position. She is also the Ombudsperson, the advisor of the University, responsible for advising students who have complaints or concerns with the administration. And that role takes her to a variety of places, from the counseling center to the registrar's office, from the student union to the provost's office.

For the past two years, Oilly has been working hard to improve the quality of life for students at the University of Iowa. She is passionate about the rights of students and the importance of a fair and just process for handling complaints. Her office is located in the Boyd Law Building, and she has been known to work long hours, often into the evening, to help students who are in need of assistance.

Oilly is also a mentor to many students, providing guidance and support as they navigate the challenges of college life. She is committed to ensuring that all students have a voice in the decision-making process at the University, and she works tirelessly to ensure that students are treated with respect and dignity.

This year, Oilly plans to focus on improving the efficiency of her office and streamlining the complaint process. She is also working to build stronger relationships with faculty and staff, and she is committed to ensuring that the ombudsperson's office is a place where students can go to find help and support when they need it most.

The ombudsperson's office is open to all students, regardless of their background or status. Oilly is known for her approachability and her willingness to listen, and she is always ready to help students who need assistance. Whether you're a first-year or a senior, Oilly is here to help you. So if you have a concern or a complaint, don't hesitate to visit her office. She's here to help you.

The Iowa City Community Animal Shelter for $300,785 — part of the City's 2019 capital plan — was dedicated Monday at the beginning of the new facility. The shelter, the third in Iowa City, is part of the new facility and was designed with the input of the community.

The main attraction of the new shelter is the movement of the animal control function from the popular adopted facility to the new facility. The shelter is located at 900 S. Gilbert St. in the former location of the Iowa City Farmers Market.

The new facility is designed to accommodate up to 300 animals at any one time, with a separate indoor and outdoor area. The facility also features a multi-use community room for events.

The shelter is open from Monday to Saturday from 10 a.m. to 6 p.m. and 10 a.m. to 4 p.m. on Sunday. Call 847-3285 for more information.

The new shelter also includes a comprehensive spay/neuter program, which will help reduce the number of animals entering the shelter.

**Castro, Gorbachev plan efforts for improved East-West relations**

HAVANA (AP) - Soviet President Mikhail Gorbachev said Tuesday that he and Cuban leader Fidel Castro are prepared to work for improved East-West relations, indicating some softening in the Soviet leader's rigid stance in the face of Western criticisms.

In an interview with the Soviet news agency Tass, which is held in Cuba, Gorbachev said a central theme of his visit to Cuba, which begins Wednesday, is to improve Soviet policies at home, and to assure a heretofore conservative partner in world developments.

Gorbachev, who arrived in Havana Tuesday night, said the two sides have a lot in common, and that he hopes to discuss ways of improving Soviet-U.S. relations.

Castro, who met with Gorbachev on Monday, said Tuesday he intends to discuss with the Soviet leader a number of foreign policy issues.

They will also discuss the region's problems, he said.

After meeting with Secretary of State James Baker for two hours, Monday, Castro said that he and Baker had a good meeting, and added that Cuba's relations with the United States have improved.

Baker stood aside, and in his only statement to reporters said the meeting was a step toward improving relations, and that the U.S. was ready to help.

In a Medial General-Associated Press poll on NCAA Division I athletics, nearly three-quarters of the 1,016 persons surveyed think coaches should get paid, saying student athletes, and eight of 10 favor tightening scholarship standards. But two-thirds favor paying student athletes secretly. 

Boehme says it's time for reform. He criticized a solution to the problem "to decapitate the "the student athlete". College athletics deserve to be compensated for their efforts, especially since they then provide colleges with huge revenues. Scholarships should be done away with and replaced by compensation, subject to an Athletic Union levy. Boehme predicts that students and some lost of subsidy should be imposed upon any athlete who accepts income from outside the college or violates school rules.

In the Philippines, students playing a sport, they could use their salary for tuition, books, etc., or they could simply use it as a place to pay for college. It's time to recognize the student athlete as the exception and not the rule.

**Contrac Compromise**

Late last month, the football administration announced a new Contract Act law — supposedly a breakthrough that will please everyone. Endored by Congressmen of every political hue, the law appeared a model of fairness.

In reality, the plan is an improvement over previous contract-offlaw packages. Congress can both the act after November. and the military will be in high school, and especially there is room for a prohibition against any effective actions by Contract forces. However, there's nothing such as the "good" Contract Act bill.

First, although President George Bush claims that those supporting the bill want the same thing as the people in Central America, the new contract-offlaw proposal violates the most recent agreement of the US with the British. February, they called for "the liberalization, rehabilitation, or reduction of the Contract forces in El Salvador.

Second, although the plan restricts military aid, by keeping the escalator for the threat of future military aid to them remains valid. And the reason that they've been stopping in "efforts", simply aren't credible — they're just claims they are attacked.

The truth is that the whole plan is that the security force is a knee for democracy in Nicaragua. In fact, the US military are the enemy of Nicaragua's National Guard. Numerous human rights groups have denounced the exploit of the US military in the country.

Washington isn't seriously concerned with the civil rights of Nicaraguans. That is merely reflect for sustaining U.S. domination of the region. And the new Contract bill is a step in that direction.

TERMINATE YOUR TENANCY

The first step in moving out is to terminate your tenancy. If you have a month-to-month rental agreement, you need to give written notice at least 30 days before the day you usually pay the rent. With a written lease you have more time--usually at least 30 days before the end of the lease term, unless the lease requires you to give notice at some other time.

If you want to terminate your tenancy because of the landlord, you may also terminate it if you believe the landlord has failed to fulfill her or his responsibilities under the lease or if you want to move before your lease has ended and you have no grounds to terminate.

This right to terminate can be shared among you and the landlord.

If you do not receive notice, you may have the right to receive a copy of the notice in writing within a reasonable time. A notice in writing can result in your being held liable for any future unpaid rent until the notice is given.

If there is no written notice, you will only be able to terminate the lease with your landlord. You may also terminate the lease with your landlord if you believe the landlord has failed to fulfill her or his responsibilities under the lease.

Be sure to read through all the rules & understand them before you agree to rent.

I am sure that my paper can be found this month with reasoning per my earlier statement, and I believe that it will be the subject of endless discussion. I think that it will be read with a great deal of interest by the general public.

We all agree that Iran has become a vocal critic of the United Nations, and there is a growing concern about the final demise of the Islamic Republic. The rivalry between the various factions in Iran is underway to some degree, and there is a sense of urgency about the collapse of the Islamic state.

**'Verge' glorifies words, wit**

By Steve Danheim

The Daily Iowan

B ecause I'm going to have to write a thesis. I know; everyone does. Please remember to present Overmyer's information clearly here. "On the Verge" tonight at 8 and through the weekend at theUI Theatre Building. I have some interesting information on this theater property. With ticket prices set at $8, $8, $8, and $8, this is a rather low price for a theater that is surrounded by the amenities of the UI Theatre Building. However, the audience seems to be somewhat disappointed with the quality of the plays. Overmyer, a well-known theater critic, has been quoted as saying, "I don't think the play is very good." This is not surprising, considering the fact that Overmyer has a reputation for being critical of theater performances.

Overmyer's review of "On the Verge" is quite disappointing. He gives the play a rating of 2 out of 5 stars. "The play is a series of monologues, each with its own title, which follow the characters through their adventures and warms them greatly." Overmyer then goes on to say, "I don't think the play is very good." He concludes his review by saying, "If you are looking for a good play, you should look elsewhere." Overmyer's review is disappointing to many theater goers, as they had high expectations for the play. However, Overmyer's review is not without its merits. He has provided valuable information about the play, which may be helpful to those who are interested in theater.

In conclusion, Overmyer's review of "On the Verge" is disappointing. He gives the play a rating of 2 out of 5 stars and concludes his review by saying, "If you are looking for a good play, you should look elsewhere." While this review may be disappointing to some, it is important to remember that Overmyer has a reputation for being critical of theater performances.
